The figures as reported will probably be subjects of deep study in the engineering and production departments of press manufacturers.

Of interest also to this and allied branches of the supply industries is the information given as to type of electrical current available for newspaper operations. These figures are about 80 per cent complete for the United States and Canada, and are taken from the most recent reliable data. The utility of this information to the firms making control-boards,

motors, pumps, and other electrical appliances is obvious.

Every effort has been made by EDITOR & PUBLISHER to insure the accuracy of the tabulated information, but 100 per cent correctness cannot be guaranteed. The necessity of gathering data from sources and turning it into a million more pieces of type is considered with the normal human fallibility. EDITOR & PUBLISHER will appreciate notice of inaccurate listing, so that correction may be made fully and promptly.

CLASSIFIED ADVERTISING

Inquiring Classified Reporter"—New Invention for Taking Want
Ads—Collecting Telephoned Advertising Bills—
What Is Good Promotion?

ACTIVENESS of the Wash-
ington (D. C.) Herald's classified
was increased and reader in-
volved, when a "Inquiring
Reporter" was appointed to
classified promotion copy.

Resulting copy appeared much like
text. It ran under the one col-
head "Who's Who" and car-
by-line "The Inquiring Classi-
fier." The story was illustrated
column cut of the person in-

ea of the column is expressed
alic lead, which states under
ne: "Each day he selects at
ome Times and Herald classi-
tiser whose interesting message
regularly in these papers and
the advertiser to Times and
eaders through these columns."

invention for taking classified
typewriter is in operation in the
the New York Times. It is a
r which can be attached to any
typewriter and enables the op-
write continuously without in-
w sheets, cutting off the blanks,
and carbons as fast as typed,
of a cutter bar. The machine
y the Times is capable of car-
want-ad banks with carbon and
eet. In a recent test 135 ad-
ts were taken in five hours
st. The receiving capacity of
licitors has been increased from
per hour to 27 to 35 per hour.
per of errors has also been re-
a minimum, it is stated, while
er legibility of the typewritten
increased production in the
room 20 per cent.

classified ads over the tele-
usually an expensive proposi-
the newspaper—unless the ad-

insertion paid for.

ring the question, what is good
promotion copy, W. P. Downey,
of classified promotion of the
k American, has written:
unction of any advertisement is
given idea, and if it fails in

that particular, all the attention-value
in the world won't make it really profit-
able.

"Every promotion writer, after he has
prepared an advertisement might well
ask himself the following questions:

1. "Is the appeal directed to the people
we want to reach?"

2. "Is it presented in the most force-
ful manner possible?"

3. "Have we gotten away from the
commonplace in its presentation?"

4. "Is the illustration pertinent to the
subject-matter?"

5. "Does the first paragraph of the
copy gain the reader's interest?"

6. "Does the copy follow through logi-
cally to a convincing conclusion?"

7. "How can this advertisement be im-
proved?"

100 ATTEND ROUND TABLE

Kansas Editors Guests of State Univer-
sity—Haskell a Speaker

Nearly 100 Kansas editors attended the
15th annual Round Table of State editors
conducted by the department of journal-
ism of the University of Kansas, Law-
rence, Friday and Saturday, October 22
and 23.

Speakers included: George B. Longan,
assistant managing editor, *Kansas City
Star*, who discussed the policies of a
newspaper; C. L. Hobart, editor, *Hol-
den (Mo.) Progress* and new president
of the Missouri Press Association, on
"Publicity, Why Should It Be Free";
Alfred J. Graves, instructor in the de-
partment of journalism who spoke on
"Better Business Methods."

At the dinner given by the university,
more than 100 editors and their wives at-
tended. Charles H. Browne, editor of
the *Horton (Kan.) Headlight*, presided
as toastmaster. Speakers included Chan-
cellor E. H. Lindley of the university,
George Harmon, of the *Valley Falls
Vindicator* and president of the Kansas
Press Association; C. L. Hobart, presi-
dent, Missouri Press Association, Henry
J. Haskell, editor, *Kansas City Star*,
who discussed something of the new
policies of the Star under the new man-
agement, and W. Y. Morgan, editor,
Hutchinson News-Herald and chairman
of the board of regents of the five State
schools of Kansas.

The editors were guests of the school
at the annual K. U.-Nebraska football
game.

Round tables on both days were fea-
tures of the meeting. Business methods,
discussions of methods for daily and
weekly papers, and advertising were dis-
cussed. Jan. 28 and 29 were chosen as
the dates for the convention of the Kan-
sas Press Association at Topeka.

INDIANA

A Productive
Market for the
Advertiser

Indiana is always a productive market for the
national advertiser, because its people are
especially responsive to advertising. The
Hoosiers are a great home loving people who
are fond of their newspapers and read them
very thoroughly.

The advertiser who has a good story to tell
about his product, and tells it properly, always
gets results. That is another reason why some
of the largest manufacturers of the well known
brands specify Indiana as one of their major
markets in their national campaigns.

Those manufacturers who are not yet ac-
quainted with Indiana's buying power should
study its strategic position in the heart of the
country's commerce and wealth.

The newspapers listed below will gladly fur-
nish the facts. Write for them.

BUILDING NEWSPAPER CIRCULATION

Circulation Manager Makes Reporters Out of His Country Agents—
Hearst Enjoins Trenton News Dealers—Keeping the Subscription
List in Good Condition

S. T. MACDONALD, circulation manager of the *Hutchinson* (Kan.) *News & Herald*, is making reporters out of his country agents, and, he informed EDITOR & PUBLISHER this week the experiment is enlarging the subscription lists of many agencies.

To interest the newsdealers in the editorial side of the paper, Mr. Macdonald recently sent out the following letter to a representative list of dealers throughout the southwest:

"Dear Agent:
"Now and then something of interest takes place in your town that is not reported in the *News* or the *Herald*. It is impossible for us to maintain an organization of outside correspondents to cover all of the important news events that spring up over the district.

"Believing that you can be of material help to us and to yourself as well, we would like to enlist your aid in securing valuable news matter that we might otherwise pass up.

"Naturally, we are not greatly interested in the little bits of neighborhood gossip and personal notes about your community, but we are intensely interested in anything of real news value to any reader of the *News* and *Herald*.

"Next time you have a robbery, a murder, an accident, a convention or an important event of any description in your city, simply telephone us COLLECT and we will use the story at once. Merely give us the facts and we will do the rest.

"By giving us this co-operation, you will be rendering a splendid service to your customers and at the same time enlarging the subscription list for your agency."

Hearst newspapers of New York City on Oct. 22 obtained a temporary injunction restraining the Trenton Newsdealers' Association and individual newsdealers in Trenton and the vicinity from molesting news carriers selling the Hearst papers and from interfering with the sale of these newspapers. The injunction was granted by Vice Chancellor Malcolm G. Buchanan. The newsdealers must show cause in Trenton on Nov. 3 why the injunction should not be made permanent.

The injunction holds that refusal to sell the complainant publications does not constitute a violation, and that the defendants are in no way restrained from selling other newspapers. The action results from the refusal of the publishers of the *Mirror* to allow the sale of that paper for more than three cents. According to the complaint, the defendants not only refused to sell the *Mirror* at this price but extended their refusal to other Hearst publications and sought to hinder independent carriers in distributing the complainants' papers. It is charged that some carriers were assaulted.

Keeping the subscription list in good condition is a problem that confronts many a country publisher, a recent issue of the *Wisconsin Press Bulletin* observes:

**The
Los Angeles
EVENING HERALD
consistently carries more paid
advertising than
any daily news-
paper in the west**

Representatives

New York Chicago San Francisco
Herb. W. Meloney John H. Lederer A. J. Norris Hill
604 Times Bldg. 910 Hearst Bldg. 2312 Jarvis St.

"Subscribers will let their subscription account drag along unpaid until it reaches a large amount and then complain about paying the entire amount or perhaps even a portion of it. They forget that the publisher has given them extremely liberal credit, much more liberal than the merchants with whom they do business would give, inasmuch as a subscription account with the average country newspaper sometimes extends into years before it is paid. Under ordinary circumstances an account extending over a long period of time, would draw interest, but the country publisher is lucky if he gets the face amount.

"There are too few publishers who realize the importance of keeping the subscription list clean, despite the fact that it is one of the greatest business getters in the world. In the first place a paid up list shows that the readers want the paper, and if the list is kept up without the aid of subscription campaigns, so much the better. In the second place a paid up subscription list indicates that the community is prosperous and that the people have money to buy the articles offered them by the advertisers.

"Big advertisers are making a closer study of mediums each year, and one of the reasons that country newspapers are slighted so much in the past in national advertising campaigns, is because of their slipshod methods of doing business, especially in failing to keep a healthy subscription list."

"\$1,000 in 40 Cash Prizes for Housewives" is the newest circulation building scheme of the *Boston* (Mass.) *Evening American*. A total of 33 questions will be printed, one a day, in the *American* until Nov. 20. Martha Lee is in charge of the "Homemakers' Contest."

Mayor Ralph S. Bauer of Lynn, Mass., treasurer of the North Shore News Company, and the Lynn City Council are locking horns over the council's decision to rule all newspaper stands off the streets of Lynn on the grounds that they are sidewalk traffic obstructions. Although admitting that the council is right, Mayor Bauer claims sentiment for the newsboys as the reason for retention of the stands. He in turn has threatened to remove every barber pole, sidewalk showcase, overhanging shop sign and other business or advertising stand if the council goes through with its decision. The mayor disclaims all personal interest in the fight other than that he was a newsboy himself in his younger days.

Mayor Bauer is head of the North Shore News Company, the largest wholesale distributors of newspapers and magazines in Massachusetts. He characterized the move to ban newsstands as "spite work."

In connection with the Buffalo Radio show the *Buffalo Evening News*, in co-operation with radio dealers, offered a complete receiving set to the fire department company gathering the most coupons cut from the daily radio page of the newspaper.

Forty dogs of all descriptions, led by their owners, marched in the first annual "pup parade" of the *Dexter* (Mo.) *Statesman*, Oct. 18. School children, women, farmers and business men entered their pets in the parade and in the contests which followed. The newspaper awarded prizes for the best dog and the "orniest mutt." The latter title was won by a dog belonging to "Chick" Smith, on the basis of his appearance and adeptness at chasing automobiles.

The judges spent more than an hour in deliberating over the awards at the town's busiest street intersection. More than 1,000 persons watched the parade, and blocked traffic in the downtown district while the judges were deliberating.

The parade was held as an added feature of the dairy and poultry show under the auspices of the Missouri Department of Agriculture, the Missouri Pacific Railroad, and the Southeast Missouri Drummers' Association.

The *Chicago Daily News* has launched its second Dingle contest. The first one began eight weeks ago and proved to be so popular that a second was immediately planned. The prize list has been raised to \$1,750 with 537 cash prizes. The contest consists of a set of twenty dingles with verses and a hidden "dingle word" in each.

PRINTS "SUNSHINE SUPPLEMENT"

The *Christian Science Monitor*, Boston, published with its issue of Oct. 22, a twelve-page supplement called, "Winter Sunshine in Distant Lands," containing information for tourists planning to travel through the countries near the Mediterranean.

WOMEN IN ADVERTISING AND JOURNALISM

Virginia Lynch Maxwell Believes Newspaper Training Best for Modern Girl—Mrs. Robinson Heads Women's Ad Club of Houston, Tex.—Beckley and Tobin Feted

VIRGINIA LYNCH MAXWELL progressed from reporting real life to writing of romantic fiction, and has and the change possible. She is a member of staff of the International Feature Service.

"I'm writing newspaper fiction," she told EDITOR & PUBLISHER this week. "I think I like to be able to write so well that everyone who reads my stories would thrill with me over the little every day occurrences, with me over the grim tragedies I've met in my reportorial work—and the sheer adventure of living, as I live every day of my life."

Newspaper work has always been tremendously interesting to me. In fact, I believe it is the best training any modern girl can take for life. Seeing in all its phases is to understand the realities and charms of human beings. Understanding people makes for tolerance. And this quality, I believe, is the cornerstone upon which the happiness or unhappiness of life is built."

Miss Maxwell began her newspaper career 15 years ago with the McClure Newspaper Syndicate. She was attending Columbia University, New York, at the time, and spent her vacations writing fillers for the women's page distributed by that syndicate. Then she wrote a feature story and sent it to a literary agent. It was used as the feature Christmas story on the old *New York Sunday Press*.

This success was too exciting for me to go back to the humdrum school room," Miss Maxwell recalled. "I immediately left college and sought work on the press. A few months on this paper I was assigned to cover woman's interests at the Panama Pacific Exposition in San Francisco. The trip out was a memorable one, because I travelled the first passenger ship to go through the Panama Canal."

In Frisco, I held two jobs, one on the fair grounds doing publicity and the other on the *Chronicle* doing special assignments during the fair. When the fair was about over, I came back to my home town—New York City."

During my time on the fair grounds, I used to fill in spare moments with all filler stories which I mailed to the newspapers back home. Those who used to pay me, and I found a ready market with the *New York Evening*

was to this newspaper Miss Maxwell first went when she returned to New York in October, 1915. Oswald Villard was then editor. He named her to cover Henry Ford's peace trip.

"The Ford party was sailing the following day," Miss Maxwell continued. "I rushed home, packed a few things in a suitcase, borrowed my sister's handkerchiefs, hats, gloves, sweaters, etc., and the next morning for Norway. Everyone knows enough about this memorable trip. It needs no further comment. While Henry's plan failed, the time spent abroad with other newspaper men and women, served to add to my experience."

The following year, Miss Maxwell joined the staff of the International Feature Service, one of the Hearst syndicates in New York, and has been there ever since.

VIRGINIA MAXWELL

tional Bank Building, Houston, was recently elected president of the Women's Advertising Club of Houston. Mrs. M. E. Adles, Houston, is the new secretary.

Members of the Ohio Newspaper Women's Association are holding their 26th annual convention in Akron, O., Friday to Sunday of this week. Miss Pauline Smith of Columbus is president. Other officials are Mrs. Carlotta Price Shea, *Bellefontaine Examiner*, vice-president; Miss Carrie Eisenmenger *Franklin Chronicle*, secretary; and Miss Mildred Cronley, *Sidney Daily News*, treasurer.

Miss Genevieve Tobin, of the *Chicago Tribune*, who came east to cover the Queen, and Miss Zoe Beckley, of *Famous Features*, who accompanied the Queen

from Rumania, were the guests of honor at the weekly dinner of the New York Newspaper Women's Club at the club rooms Oct. 23. Miss Emma Bugbee, president, presided. Miss Beckley described her impressions of Queen Marie, gained from many interviews in Rumania. The club will give a tea, on Oct. 31, in honor of new members.

Miss Ethyl Mockler, formerly of the staff of the *New York World*, is doing publicity for the Jewish Home for Convalescents.

Miss Eleanor Simmons is conducting the publicity for the last portion of the political campaign for the Women's Committee for Smith and Wagner.

Margaret Foldes is managing editor of the *North Side News*, a paper published in the Bronx, New York City. Miss Foldes is the first woman managing editor the paper has had.

Miss Nell Snead, of the *Kansas City Star*, was in New York to cover the arrival of Queen Marie.

WHAT'S WHAT IN THE FEATURE FIELD

Margaret Sangster to Write Daily Poem for Newspapers—Queen Marie's Travels Burlesqued—Famous Features Syndicate Adds to Staff

MARGARET SANGSTER has signed with the O'Dell Newspaper Service, New York, to write a daily poem for the newspapers. For 13 years Miss Sangster has been affiliated with the *Christian Herald* and has contributed occasional poems to the newspapers and general magazines.

A humorist, who prefers to be anonymous, is burlesquing Queen Marie's American tour in a series being offered by the Bell Syndicate, Inc., New York, under the title "Travelogues of a Queen, by Goldie, Queen of Glomania."

A dinner was given J. D. Gortatowsky, general manager of the King Features Syndicate, on Oct. 23, following his return from a honeymoon trip. Mr. and Mrs. Gortatowsky were presented with a chest of silver by members of the syndicate organization.

The *Des Moines Register-Tribune* Syndicate is now offering a series under the heading "The Diary of a New Father."

Lewis Sobol, formerly city editor of the *Automotive Daily News*, a Macfadden publication, has joined the writing staff

of the Famous Features Syndicate, New York. Prior to working for Macfadden, he was city editor of the *New London* (Conn.) *Day* and before that was connected with the *Waterbury* (Conn.) *Republican*. He has also contributed fiction to a number of magazines.

Newspapers taking the NEA Service, Inc., are now publishing Virginia Swain's new serial called "Campus Rebels." Some papers are promoting the serial by offering cash prizes for the best 150-word letters from readers on "What I Like About Campus Rebels."

J. V. Connolly, of the King Features Syndicate board of general management, is on a vacation trip to Havana, with Mrs. Connolly.

SHOP TALK AT THIRTY

By MARLEN PEW

OFTEN in the evening familiar figures of men and women and children appear on the screen of memory, become vivid as in a close-up, speak to me again—then fade into the shadows. Sometime, somewhere we marched side by side in the human pageant. The winds and tides came, sundering our ties. Here am I in a Broadway tower, at work I like to do. Where are they? I only know that though a thousand gulfs intervene we are still friends. Else they would not so often come to visit me in quiet hours with their comedy and sorrows.

* * *

MARK HANNA was the great man in Cleveland and was running for the United States Senate. Homer Davenport put dollar marks in the checks of Hanna's suit of clothes after he went to the Senate, but the *Cleveland Press* fought to prevent him from going there. The campaign was on and the editor of the Press, a man possessed of a sense of humor uncommon in this world, foresaw that Hanna's election in the Ohio legislature was assured. But he determined to humble this lordly politician and planned the most curious, subtly malicious political satire that Ohio with all its sophistication in such matters had ever witnessed. Ed. Clough, our political reporter, now the successful publisher of a financial paper, was assigned to the job, with yours truly his messenger boy. We were told that the bottom man on the Republican ticket, an old gentleman named John Brown, running for justice of the peace, would be the Press' particular star for the campaign. Our mischievous editor proposed that the tail should wag the dog, that John Brown should run so far ahead of Mark Hanna's legislative electors that that gigantic luminary in our firmament would fade to a very small twinkle in local public esteem. This was the dark plot and we set out to do the dirt. John Brown was a nice man with small ideas. He had lost a leg at Gettysburg. We opened "John Brown Headquarters" and began to organize meetings in his honor all around the town. Across Superior Avenue, near the Public Square, we hung a huge banner bearing a giant painting of John Brown in the smoke of the battling hell of Gettysburg. My particular daytime job was to steer a trolley car over every track in Cleveland, the car ornamented on each side by "Vote for John Brown for Justice of the Peace" banners, public attention being called by a twenty-five piece brass band that played and played, and may be playing yet for all I care. The Press, "independent in politics, became sensationally partisan to the cause of John Brown. Ed. Clough wrote everything favorable concerning Mr. Brown that could be dug up from the time he left his mother's arms, and may have even invented a few additional virtues. The first page became a chariot in which our hero rode abroad each evening. The city was dazed by it all. It was pretty subtle stuff for our horny-handed clientele, but we kept it up, constantly intensifying the ardor of our championship until election day. John Brown was dumbfounded. He hadn't even asked the Press to give him a three-line notice, he said, and here we seemed to be going crazy about him, running his speeches and big pictures 'n everything. We dragged the old fellow around town to our meetings, made issues for him to talk about, wrote his speeches and kept his right arm in a cramp from handshakes. But from the first Brown hadn't the slightest inkling of what it was all about. On election night the Press announced that returns would be shown from a magic lantern at our office

and that John Brown would positively be present in person. A vast crowd gathered. Brown didn't show up and I was sent out to get him. He was reluctant to come. He had been thinking it all over and had decided that there was a "ketch in it somewhere." To my horror it presently developed that Mr. Brown was of the opinion that the Press had set out to make a fool of him and, thus betrayed by seeming princely friends, he actually feared the result at the polls. Nothing I could say would satisfy him, but he consented to come to the office to talk with the Big Chief. "Why, Brown," I can still hear the editor say, "if you are not elected tonight you may come out to my house in the morning and I'll give you the matches to set it on fire. Yes, sir, if you are defeated I'll burn my own house before sunrise." For some reason this logic appealed and Mr. Brown took his place on the balcony before the office, while the magic lantern announced his presence and thousands cheered. Was John Brown elected? You know it, kind reader. Did he run ahead of the ticket? Well, with plenty to spare. We laughed our fool heads sick in the Press office that night but for months were plagued by inquiries from unimaginative readers as to the meaning of our advocacy of John Brown.

* * *

EVERY evening the little girl in the brown dress would come to the news office in the State War and Navy Building where the casualty lists were compiled each day from cabled reports from general headquarters of the A. E. F. She told us she was employed as a stenographer in the office of the Adjutant General, that her brother was "over there" and asked to see the casualty lists before they went out to the newspapers. She was faithful to her mission and gradually the girls in the office learned that when her brother went to war in France she had come to Washington to do her tiny bit for the great cause. Yes, you have guessed it. She found his name on the list one night, gave a little smothered cry and ran away, out of our sight forever.

* * *

IN these days when advertising lineage is the breath of life in so many offices this story may tax the imagination of the younger generation, but maybe some of the Old Guard will bear me out that it might have happened out west, oh, long ago. We had an editor who believed that the reader had a right to get his penny's worth of news from every page of our sheet. It was an evening paper and along about two-thirty he'd come out to the composing room to make up the "Home Edition." With galley proofs in his hands the Big Chief would tackle the job. "That's a good item, put it top of page three," he would say. "Here's something for page one, offside lead. Put this low on page one. Lead the paper with this," and so on, until the space in all forms would be filled. Then the dear old boy would find something "good," but have no place for it. Addressing the advertising manager, who always stood by the side of the stone like a sentinel at a dangerous post, he'd ask: "What's that down there, Billy?" It might be ten-inches on two signed "Sapolio," but the Chief would say: "Take it out and put this news in—we owe something to our readers." Whereat Bill would quake. It was contract business, to run Tuesdays and Fridays and this was Tuesday. "Take it out and write them that we were crowded. They'll think more of us than ever, if you do. Besides, this paper has too much advertising in it. We will all get

so fat around here that we shall lose our agility, Billy." And that old son-of-a-gun would do that sort of thing whenever a news item of value needed to find a hole in our forms. He even made Billy like it. Maybe the advertisers admired this spirit of independence too, for that paper has become one of the outstanding advertising successes of the generation.

* * *

PAUL was police headquarters man. Cigarette stained, dusty around the collar, always late in the morning, not a fancy writer, wholly irresponsible in matters not connected with his work, he was one of the greatest reporters it has ever been my pleasure to work with. He knew news, brought it in with soul-delighting sureness and there was never a "come back" on his stuff. All the cops adored him. They'd wake him up at night to whisper in his ear. We were never surprised by anything Paul did. He might turn in a beat on any subject from high finance to highway robbery, "400" society to murder in Dan McGuerk's, a gouge by the Ice Trust to a Broadway brawl. Did I say he never surprised us? Well, Paul did never surprise us one dull morning. It was a story about a cat. He 'phoned in that a cat had fallen five stories down the airshaft of a Third avenue tenement and couldn't be got out. It was starving down there. The airshaft was about the size of a chimney. A little kid and her poor mother had been over to Mulberry street asking the cops to come and help. The cat was the kid's pet. It was a story—just a little story, Paul said. A cat, we in the office exclaimed. What of it? The East Side was full of yowling cats. One less—that's good! A bit later Paul 'phoned that he had run over to the tenement and had looked down the shaft from the roof. The cat was there, he'd seen its tail. He said there was a stone shelf down there and the cat was hiding under it. The cat had been down there for a week and the cops didn't know how to get it out. It wasn't true that it was starving, though, because the little kid had been going to the airshaft every day, dropping food down. The cops had rigged up a long line and baited a hook and were going to try to fish out the cat. Paul would let us know the result. Joe O'Brien, the rewrite, saw a little interest in the story and dashed off a couple of paragraphs for the next edition. Presently Paul called again. The fish line didn't work. The cat wouldn't come out from under the shelf. Timmy O'Loughlin, a neighborhood lad, volunteered to have a rope tied around his breast and be lowered, but his mother wouldn't let him because the cat was probably wild and would scratch his eyes out. Paul rang off and Joe wrote an add and the item caught first page in the next. The firemen had been called out by the cops, when Paul called again. They didn't have a ladder that would extend five stories. They

were trying to noose the poor little critter. But it wouldn't come out from under the shelf. Joe wrote a new lead and "Pop" Mallory, head of the department, ordered a two-column head. Paul came on the wire in a few minutes. Fire Chief Croker had arrived and had taken command of the rescue forces. At least a thousand people were surging in avenue and side street and the cops stretched ropes and ordered everyone residents out of the tenement and the roof. The cat was still down there. They were trying to hook the stone shelf out of place, to get at it. "Chief Croker Directs Police and Firemen in Vain attempt to Rescue Cat," was our next edition. There was a half-hour's pause and came an excited ring from Paul: "Fireman lowered on rope. Terrific battle with infuriated feline in dark hallway. Kicks cat into insensibility and brings it to roof. Cat revives after a few flops and becomes docile in glad kid's arms. Crowd of five thousand surging in streets for blocks in all directions. Got a human interest story from Croker and rescuing fireman's story of battle." Gifted Joe O'Brien then at his best, reeled out a story full of the elements of adventure: child's love for a pet, heroic combat in close quarters, suspense and neighborhood excitement that the boss said, "Give it the lead in the next," and that was just another day's work for Paul.

* * *

KARL DECKER once told me the inside story of the most theatrical incident of the Spanish-American War, rescue from Morro Castle in Havana of the beautiful girl, Evangeline, whom the miseries of Cuban reconcentrado so perfectly that case stirred the fighting blood of a nation. Decker was the writing star of the Hearst newspapers and a genius of hot-blooded journalism, if one ever lived. He conceived the idea when he read a brief despatch saying that the Spaniards had coopered in the plan to take the daughter of a patriot plot. The itch of the official Spanish palm was well known to Decker and he accurately calculated success of the expedition upon his ability to satisfy that itch with graft. So the venture was essentially a financial undertaking. This presented an embarrassment. Decker had no bank account, he told me, and he had reasons for not asking for expense money from the paper, and thus confided a brilliant idea to his immediate superior officers. There was a type of gentleness in journalism in those days, of course long since extinct, who might be described as a literary pickpocket and who was one stuffed shirt in Decker's shoes who had the reputation of trading on ideas of other men on exactly the same principle that Sambo bags the rooster on Saturday night. Decker went to Washington and borrowed money from personal friends and presently found

LOUIS WILEY DEFINES "GOOD PRESS AGENTS"

Business Manager of New York Times
Says They Must Make Complete
Accurate News Available—Bad
Publicity is Half-Truths

"Good publicity makes complete, accurate news available. Bad publicity is propaganda, half-truths or twisted news." Louis Wiley, business manager of the *New York Times*, made this comparison at the Fortnightly Forum, Park Lane Hotel, New York, Oct. 24, in a speech on "Publicity." Other speakers included Bruce Barton, president of Barton, Durstine & Osborne; Ida Clyde Clark, David Sarnoff, Ivy L. Lee and Horace Live-right book publisher.

"It is a perfectly understandable thing in this complex, highly organized age that publicity representatives should perform a useful legitimate function," Mr. Wiley said. "A great industrial organization, or a large social service agency may find it absolutely necessary to have the services of a publicity representative, if only to co-ordinate the information issued."

"The evils of publicity arise as much out of the suppression of news as out of the manufacture of news. Too many publicity people think that their job is primarily to hush up unfavorable or harmful information. The sensible publicity representative will, of course, speak or write in the interests of his company, but he will see to it that accredited newspaper reporters obtain the full truth."

Mr. Lee said that "all this talk about publicity, 'the inspired statement' and the evils and means of propaganda can be resolved by just saying to the editors: 'Use your judgment when information comes to your desk' and by saying to the public: 'Exercise your right to demand knowledge as to the source of information which is given concerning any fact.'"

MICHIGAN LAW BARRING PUBLICATION OF BETTING ODDS UPHELD

Bahorski Measure Affects Newspapers and Racing Sheets, Also Out-of-State Papers—Printing Odds After an Event Is Permitted

ALL but one drastic provision of the Bahorski anti-gambling law, long subject of controversy between several Michigan newspapers and puzzle to out-of-state publications, was upheld by the Michigan supreme court in a decision handed down late last week.

The provision in question which was ruled unconstitutional was that prohibiting the publication of betting odds after the event on which the wagers were laid had passed. Provisions absolutely prohibiting quotation in print of odds on any sporting event or other occurrence on which bets are placed were upheld by the court, thus effectually barring either Michigan or outside papers from carrying preliminary information of this sort in their news columns in the future.

Refusal of Judge Charles L. Bartlett of Detroit to issue warrants against three Detroit newspapers for alleged violations of the law in this regard brought the matter before the supreme court. Leonard Park of Detroit, was the individual who appealed the case to the state's highest tribunal. Previously the supreme court had ruled the Bahorski act, in toto, invalid, after it had been passed by the 1923 legislature but certain details in its passage had not been according to legal requirements. The act was re-enacted in substantially its same form in 1925 and the test case was then brought.

Decision of the court in regard to publication of the illegal matter by out-of-state papers or magazines declares that, while such periodicals are in their original packages they may not be interfered with, being objects of interstate commerce, but immediately the seals are broken and the publications are offered for sale on the newsstands or elsewhere they become subject to the police powers of the state and any reading matter violating the laws of the state places them subject to seizure.

The anti-gambling act was enacted in 1923. Portions of the text of the supreme court's decision as relating to newspapers follow:

"Gambling is injurious to the morals and welfare of the people. Therefore, it is the duty of the state and is within the scope of police power to suppress it. In enacting legislation for that purpose there is no invasion of constitutional rights unless the restraints imposed are unreasonable. So, in considering the constitutionality of Section 4 of the statute in question, we may begin with the assumption that legislation to suppress gambling and to prohibit the publication of information that would have a tendency to induce people to practice it, is within the scope of police power and is a proper subject for proper legislation. The principal test of its validity is whether it is a reasonable exercise of such power.

"There are two very important essentials to a reasonable and proper exercise of police power. They are, first, that it must be for the public welfare and, second, that the measures adopted must

have relation to the purpose sought to be accomplished. That the legislation under consideration was intended for the public good cannot be questioned.

"The only question that requires discussion is whether the measures which the legislature adopted to accomplish the purpose of the act are arbitrary and oppressive or whether they are appropriately related to the purpose and have a tendency to accomplish it. If they have such a tendency they must be held to be reasonable.

"In seeking to accomplish the purposes of this act, the legislature prohibited the publication, advertising, or distribution of information concerning the making of wagers or bets or the selling of pools or evidence of betting odds on any race, contest or game, either before or after the event. It also made unlawful the possession of evidence for such publication, either before or after the event.

"It is not our business to determine whether as an actual fact the publishing of such information would induce to gambling. The legislature determined that, and we must defer to its judgment. Unless the publications declared to be unlawful have no such apparent tendency it would seem to be unreasonable for us to say that conveying such information to the people would not have an obvious tendency to induce them to gamble. To what extent it would promote gambling and to what extent the prohibitions of the statute may prevent gambling are questions with which this court has no concern. We are not permitted to substitute our judgment on those questions for that of the legislature. Our right to interfere ceases when it appears that the object of the legislation is the public good, and that the measures provided for accomplishing the object have an apparent tendency in that direction.

"So far as concerns the publication of wagers and bets and the selling of pools before the event, we have no hesitation in saying that the prohibitions of the statute are reasonable. The right of the legislature to prohibit publication of betting odds after the event presents a more serious question.

"It is apparent that every publication before the event would naturally have a tendency to encourage gambling. It is made of a particular pending event at which there would be opportunity to gamble.

"This is not true of every publication after the event. Some undoubtedly would have a harmful tendency. Some would not. Everyone can conceive of could have no possible tendency to induce gambling. The statute makes no distinction between them and fixes no

limitation of time after the event when the publication would be considered harmful. It prohibits all alike, the harmful and the harmless, and therein lies its unreasonableness. It is argued that the court should construe the statute as having application only to harmful publications, that is, publications that have a tendency to encourage gambling.

"The legislature's power to prohibit such publications rests upon a duty to protect the public against the injurious results that may follow. Therefore when it prohibits publications that have no harmful public tendency it exceeds its constitutional authority. It is our judgment that its wholesale prohibition of publications concerning bets and wagers unrelated in time to any race, game, or contest is an unreasonable exercise of police power and is therefore beyond the constitutional authority of the legislature. A further objection to the validity of Section 4 of the statute is that it makes a violation of mere possession of evidence of betting, odds, and wagers.

"If it be true that the language of the statute can be so construed we would have no question as to its invalidity. We think, however, that a reasonable construction shows that the legislature intended a violation should consist of not mere possession but of possession with intent to publish for it says 'and the possession of evidence for the publication shall in the same manner be deemed a violation of the act whether before or after the act evidenced thereby.'

"Under this construction mere possession does not constitute a violation. Possession with an intention to publish is a violation but for the reasons heretofore stated the possession must be before the events.

"Newspapers from outside the state while in their original package are obnoxious publications after the event that jects of interstate commerce and are not subject to the police power of the state. When, however, the original package is broken and the newspapers are offered for sale or distribution they become com-

mingled with the goods of the state are subject to its police regulation.

"The statute does not authorize interference with goods which are the subject of interstate commerce. It aims at the distribution of prohibited publications to the public within this state. Objection that the statute is an unlawful interference with interstate commerce without merit.

"It is true that the legislature is exclusively the judge of what is necessary to protect health, morals, and welfare of the citizens. But concerning these matters it inherently must have a very discretion. If the matter is a proper subject of legislation and the measures adopted are appropriately related to the object and have some obvious tendency to accomplish it the courts will not interfere. Its wisdom may be open to question but its enactment cannot be said to be beyond the constitutional authority of the legislature and that is the only question which this court may determine.

OUR OWN WORLD OF LETTERS

By JAMES MELVIN LEE

of the best books on practical printing to be published in recent years "The Practice of Printing" (The Arts Press, Peoria, Ill.) by W. Polk. Mr. Polk is now principal of the Robidoux Polytechnic School, Joseph, Mo., and is a typographer and trade experience. The volume is not only to young men who hope to become printers but also to advertising salesmen connected with printing and even the executives of such firms. It is so well written that it is of interest to even laymen—especially those sections which deal with the history of printing.

ous chapters take up type, type setting, spacing material, process of setting, proof reading and correction, composition, printing presses, inks, composition machine, use of types, legibility of type faces, harmony in composition, composition of advertisements, and printing plates. The volume which defines the technical and terms is remarkably full and com-

illustrations are well selected. The book is a good piece of composition. Material used for illustrative purposes often sets forth sound principles, "Carve carefully; words have

the text is obviously designed to meet the needs of students in high schools offering technical courses in printing and the students in trade schools. In printing, it can be read to advantage by those who work on metropolitan newspapers and who are never brought direct contact with the composing room. To supplement the text each chapter is provided with a special phase of printing, with a list of reliable trades or the benefit of those who wish a detailed study of these phases. One reason for the excellence of the mechanical production of the volume may be found in the fact that the author has been by the author him-

Editorials in *The Outlook* for October 13, deal with topics relating to the "Canned Journalism." Of these three the most interesting is the one headed "I See by the Outlook" which occupies almost a page. In this editorial Harold T. Pulsifer, the editor of *The Outlook*, checks up the work of a newspaper story of how a boxing bout at Norfolk, Va., at the request of some local editor. The bill of particulars from the boxing bout is printed in full. The editorial concludes with this criticism of the work of reporters:

It is a satisfaction if some American newspaper would indulge in boxing or any sport which would improve their foot- ing and enable them to train their eyes to see on the field. With the growth of editorials and canned news stories are becoming intellectually obese.

and editorials and canned feature stories to which passing mention is made

in the conclusion just given receive separate treatment in an editorial printed under the caption, "Canned Journalism." This second editorial revolves around the slogan of the *Watertown* (N. Y.) *Standard*—"Northern New York's Fastest Growing Newspaper."

After mentioning the special features run regularly in the *Standard*, *The Outlook* remarks in passing that "it would be interesting to learn how much the paper prints about Watertown and the great county of Jefferson." If such information is interesting, *The Outlook* should have gone ahead, obtained a copy of the *Standard* and measured the number of columns devoted to local news. Fairness would seem to demand such a computation of the news columns in view of the criticism made of the feature columns. The criticism of the *Outlook* may be just, but no one knows until a reporter has been assigned to get the facts. In other words, the same criticism *The Outlook* brings against newspapers in general may with equal justice be brought against *The Outlook*.

The third editorial headed "Super-Newspaper Values" chats about the high prices recently paid for newspaper properties in general and the Munsey newspapers in particular.

The attention of editorial writers may well be directed to the article, "The League Grows" by Elbert Francis Baldwin, *The Outlook's* editor in Europe. The principal points to be noted in this article may be found in the quotations translated from continental newspapers—*Il Lavoro*, *Il Resto del Carlino*, *Il Mundo*, etc.

N. Y. AMERICAN IN LIBEL SUIT

\$200,000 Damages Asked by Milk Firm as Result of Political Story

A libel suit for \$200,000 was filed against the *New York American* this week as a result of an alleged exposé of Smith Brothers Milk and Cream Company, which formed part of the Hearst newspaper's campaign against the reelection of Gov. Smith.

The story on which the suit is based was written by Louis Fehr and appeared under the headline: "Convict Got Hospital Milk Contract—Freed by Gov. Smith—Sold Adulterated Milk to City Sick."

The ideas and thoughts intended to be conveyed to the general public by the newspaper article were wholly false and maliciously made, the complaint alleged, and were "intended for the purpose of injuring the plaintiff corporation in its reputation, business, and credit."

COURT UPHOLDS \$50,000 LIBEL VERDICT

**New York Court of Appeals Decides
New York American Must Pay
Damages to Former State
Assemblyman**

The verdict of \$50,000 in favor of former Assemblyman W. S. Evans, of New York, against the *Star* Company, publisher of the *New York American*, as damages for an alleged libel, was upheld by the Court of Appeals in a decision handed down in Albany, Oct. 22, affirming the Appellate Division, First Department, in reducing the verdict of the jury from \$125,000 to \$50,000.

The alleged libel was contained in an article telegraphed by J. E. Watson, Albany staff correspondent, to the *American*, April 17, 1920, to the effect that Assemblyman Evans had been bribed to absent himself from a meeting of the Assembly Judiciary Committee, when the Jenks bills enabling transportation corporations throughout the state to raise fares was under consideration. The vote of Evans, if cast against the bills, would have caused their defeat. The *American* was conducting a campaign against the bills, and later published articles regarding an alleged "slush fund" to promote the passage of the bills and attacking Assemblyman Evans.

At the trial the other causes of action, except the bribery charge, were withdrawn, but the articles were admitted in evidence by Justice Proskauer for the purpose of demonstrating malice and as bearing on the question of punitive damages.

The defense of the company was that the articles were a fair criticism and comment on the acts of a member of Assembly in the performance of his public duties, and also that it was reversible error to permit the jury to consider damages to him in his professional capacity as a lawyer.

£250,000 LOSS ON TELEGRAMS

**British Post Office Loses That Much
Yearly on Press Messages**

There is an estimated loss on press telegrams by the British Post Office of £250,000 a year. The *London Daily Mail*, on Oct. 11, urged that the present rate for press telegrams (one shilling for eighty words at night, and one shilling for sixty words day rate) should be raised to a figure that would wipe out the quarter of a million deficit. This suggestion has been much criticized, and *The Newspaper World* sums up the opinion of the opposition to the *Daily Mail's* statement, when it points out that the press has been accorded preferential telegraphic (as well as postal) rates because it provides the Post Office with a large and regular wholesale customer, and is the medium for the dissemination of valuable data from which the Government derives benefit.

HOW S. N. P. A. MEMBERS ARE CUTTING COSTS

Houston Post-Dispatch's Railroad Siding Eliminates \$10,000 Paper Drayage—How to Buy Metal Described

The following critical comments on waste and loss in newspaper production, with suggestions and records of corrective measures, are taken from the current bulletin of the Southern Newspaper Publishers' Association:

Handling a thousand tons of newsprint every month formerly cost the *Houston Post-Dispatch* about \$10,000 a year in drayage, storage and handling charges. Now the freight cars roll right up to a paper storage room adjoining the press room. The *Atlanta Journal* likewise has a railroad siding at its plant and saves a substantial sum thereby.

The *Birmingham News* has a neat arrangement for placing paper in the basement. A specially designed slide of heavy steel tubing takes the big 72-inch rolls from the sidewalk to press room storage without elevator or power, involving no expense of operation.

One of the few upstairs paper storage arrangements is used by the *Chattanooga News*. Rock formations made excavations for a basement prohibitive and so the entire top floor of the News building, with elevator service, is used for paper storage. Ink tanks are also elevated with simple gravity feed.

In Oklahoma City, E. K. Gaylord of the *Oklahoman and Times* avoided enlargement of his press room by installing an extra press in his paper storage warehouse to print his farm magazine. The warehouse is substantially built of heavy sheet iron but the cost was comparatively low.

In many plants where compressed air is available, composing rooms make good use of air blast for cleaning typesetting machines and other equipment.

The expense of circulating ice water in modern buildings has been cut by installation of mechanical refrigeration. The *Greensboro* (N. C.) *News* has the new equipment.

Years of experience in handling type metals has evolved this program for a newspaper that now has forgotten metal worries: Buy metals of the same grade constantly and from the same concern; get regular monthly shipments of new metal in small quantities and watch analyses every three months; skim stereo metal infrequently; use crank case oil regularly in remelting lino metal; remelt accumulated stereo and lino dross with oil in lino metal furnace, sending pigs to stereo foundry, dross in metal drums to smelter.

Good thermometers for metal are worth their weight in gold; a good wall type for the stereo metal pot and a small portable style for testing lino remelting should be on the "must have" list.

Oil heating devices are now made for stereo and remelting furnaces. They can hardly be as entirely satisfactory as natural or artificial gas. Most stereo pots are heated with soft coal where satisfaction is measured in frequency of cleaning smoke pipes.

An extra bowl for a metal furnace, carefully stored away for emergency use, has proved a life saver.

The same may be said of motor bearings, press gears, electric pot heating units and other needed extras. Interest on the investments in such precautions is just a tut-tut in comparison with expense and delay of getting them in an emergency.

WISCONSIN A. P. ELECTS

William T. Eyjue, editor of the *Madison* (Wis.) *Capital Times*, was re-elected the Wisconsin member of the Associated Press Advisory Board, and Frank R. Starbuck, publisher of the *Racine Journal-News*, was elected President of the Wisconsin Associated Press Editorial Association at its annual meeting in Janesville, Tuesday night.

ADMITS GERMAN WRITER

Int'l Sporting Writers Association Invites Permanent Delegate

(Special To EDITOR & PUBLISHER)

PARIS, Oct. 14.—The German Sporting Writers' Federation has been requested by the Executive Committee of the International Sporting Press Association, with headquarters at Paris, to nominate a permanent delegate to that body.

The International Sporting Press Federation was organized in Paris during the 1924 Olympic games and has a membership of 40 nations.

Germany not having participated in the last Olympics did not figure in the membership and hitherto has not been represented.

The motion to send an invitation to Germany to enter the association was made by Thomas T. Topping, of the Paris bureau of the Associated Press, the American delegate, and seconded with great enthusiasm by M. Victor Boin of Belgium.

The International Sporting Press Association is already studying the problem of housing, and telegraphic transmission for sports writers from all countries who will cover the 1928 Olympic games at Amsterdam.

KINGSTON DAILIES TO MERGE DEC. 1

British Whig and Standard to Consolidate as Single Paper Under Combined Ownership — Givens Head of New Company

The two Kingston, Ont., dailies, the *British Whig* and *Standard*, will be consolidated on Dec. 1. Negotiations to this end have been carried on for several months by H. B. Muir, formerly of the *London* (Ont.) *Free Press*, who has purchased control of the *Standard* and arranged for its merger with the *British Whig*. A new company has been formed, with W. R. Givens, late of the *Standard*, as president; Rupert Davies, who was in control of the *British Whig*, vice-president and H. B. Muir, managing director. Mr. Givens, who is in rather poor health, will not, it is said, be actively interested but Mr. Davies will assume the editorship.

The papers involved are among the oldest in Canada. The *Standard*, which succeeded the *News* in 1908, has had an existence of 117 years, while the *British Whig* runs back 92 years.

Their consolidation reduces the number of small Ontario cities having two daily

papers to but one, the city of Belleville where the *Intelligencer* and the *Ontario* are still competing. With the exception of the larger cities, Toronto, Hamilton, Ottawa and London, all other cities in province, save Belleville, are now on one-paper basis.

Mr. Givens has been prominent in newspaper circles in Canada for many years and is regarded as one of the ablest editors in the Dominion. Mr. Muir had wide experience in the business of newspaper work, having been connected with the business and advertising departments of the *London* (Ont.) *Free Press* and the *London Advertiser*. Davies started his career 30 years ago on the *Brantford* (Ont.) *Expositor* and the late T. H. Preston, then entered weekly newspaper field and about 18 months ago acquired control of *British Whig*.

The Canadian Press has granted consolidated paper an afternoon franchise replacing the pony services previously given.

GIRLS EDIT 86-PAGE PAPER

The 86-page Junior League edition of the *Birmingham News*, printed on Wednesday, Oct. 20, was the largest newspaper ever printed by the News, according to Victor H. Hanson, publisher. Young women members of the Junior League obtained the advertising, did the work of publishing the paper, managed the street sales, giving money to their pet charity for this year which is the Salvation Army.

Men, Attention National business wants representative. No conflict with present work. Substantial commission. For details. Box 429 Real Service, 15 St.

and Department Writer with both and desk experience for New England newspaper. Permanent place with chance for progress starting at \$40 to ending on experience. Use of camera. Give age, record in full, bits, and send photo, if possible, with of work. These will be returned. B-536, Editor & Publisher.

Advertising Salesmen—One of fastest outdoor organizations in America. Can sell for New York, Philadelphia and one who has sold poster, paint and and knows the game from a physiological standpoint, would have the opportunity of a lifetime with this organization. Giving a brief of your past and present on which will be held confidential. Our sales have been notified of this advertisement. Box 600-1107 Times Bldg., N. Y.

Good circulation man able to solicit, build routes, familiar with A. B. C. Morning paper. Will pay good salary. Address B-538, Editor & Publisher.

Situations Wanted

Manager now employed and with years' experience, wants to connect with organization where intensive effort and will justify permanent connection and can furnish best of references as to ability to produce. Prefer city work. Age 27, married. B-520, Editor & Publisher.

Salesman—Special Page and Special. Experience. Now ready to handle temporary or permanent basis. Prefer Box B-504, Editor & Publisher.

EMPLOYMENT

Situations Wanted

All Round Syndicate Man. Available for inside or road work. Many years' experience from production to exploitations. Modest salary demand to start, for particulars address Box B-546, Editor & Publisher.

Assistant Publisher, business manager, advertising manager, of wide experience and unbeatable record as organizer and business getter seeks wider field with greater opportunity. Now employed as business manager by Eastern city newspaper. Box B-506, Editor & Publisher.

Builder—I want to meet a weekly publisher who is ready to switch to a daily but hesitates, not knowing machine costs, equipment needs, organization methods or news costs. I can save him my salary and thousands more by careful supervision and selection only of actual needs. Have record of two successes with third under way. Address Box-526, Editor & Publisher.

Business Manager or Assistant to Publisher, Accountant, College education. Experienced in Advertising, Circulation, Office Management, Purchasing, Credits and General Promotion. Located city 275,000 central south. Prefer opportunity in smaller field where applicant's qualifications will prove his worth. Go Anywhere. A-999, Editor & Publisher.

Circulation Manager and boy promotion expert. Read my ad in this column, Editor & Publisher of October 16, 1926; under Box No. A-996.

Circulation Manager—Mr. Publisher, if you are looking for new blood in your circulation department, and would consent to a conscientious young man coming in, not one who can show two or three thousand gain in no time, but brings in only good substantial increases. One who has ten years of actual working experience in every angle of circulation work. Now employed but has good reasons for changing. Can furnish very best of references. Then answer to Box B-547, care of Editor & Publisher.

City Editor or Special Writer, now in 175,000 city as assistant city editor. Experienced. University graduate. Dependable. Married. Age 29, B-537, Editor & Publisher.

Classified Adviser. Want to double your classified advertising in 8 to 10 weeks. The writer has been doing that for newspapers for sometime, especially the second or third paper. Can come into your office. Suggest methods, train your help or hire new ones. Build up all classifications. No particular system. Just know how, from over 25 years experience. Well known in newspaper world. Not a commission proposition, make stated weekly charge for stated term, subject to cancellation after 4 weeks if not satisfied. For dates, details and etc., address B-543, Editor & Publisher.

Desk Man—Seeks position on daily. Reporting and rewrite also. Available at once. Box B-532, Editor & Publisher.

Editor, formerly managing editor Middle-western dailies and lately contributor to New York City papers and quality magazines, wishes to return to newspaper field in executive capacity. Record as steady circulation builder without stunts. Can make investment if necessary. Box B-542, Editor & Publisher.

Editorial Man, 36, whose work meets the acid test in any desk job—city, news or managing editor; also slot on Universal desk. Credited with being high grade make-up editor. Sixteen years' experience metropolitan and small city newspapers. Can leave present post on or about November 10. Box B-502, Editor & Publisher.

Executive—Former successful publisher experienced in all departments seeks wider field. Now engaged on metropolitan daily. Ready Nov. 15. Box B-548, Editor & Publisher.

Experienced Reporter and publicity man. Have seven years standing with western newspaper. Willing to go anywhere. Box B-535, Editor & Publisher.

Foreman Stereotyper—If you have a vacancy in the stereotyping department, and desire the services of a thoroughly practical and experienced foreman, who works either the wet or dry mat successfully obtaining the desired result, keeps fast schedules at a minimum of cost and believes in the close co-operation between departments, a man of settled habits now employed, offers his services. Confidential. Write or wire, B-540, Editor & Publisher.

EMPLOYMENT

Situations Wanted

Man 30 Years Old, nine years news experience, now in executive position New York City, wants connection good paper preferably west or southwest. If you have opening in good city where applicant can establish home and advance through development of paper he would like to hear from you. Can give references that will satisfy. Address B-539, Editor & Publisher.

Managing Editor with wide experience desires position city of 30,000 up. Box B-519, Editor & Publisher.

Managing Editor, competent, experienced; highly recommended by previous and present employers. Forceful editorial writer. Comprehensive knowledge of front office. Unquestioned executive ability. No territorial limitations. Box B-544, Editor & Publisher.

Mr. Publisher or Mr. Business Manager. Are you in the market for a circulation manager who is not afraid to jump in and serve a route, or drive a truck, or run the delivery room or sell papers on the street if necessary? If you are, I am your man. I am 34 years old, and I have spent 26 of these in the newspaper game, from newsboy up. I am familiar with A.B.C. records, office controlled routes and anything that warrants clean circulation. Every place I have worked, I have made the newsboys my friends and I have added from one up to five thousand increase in street sales on the various papers. My records and references are A No. 1 and I will gladly give anyone interested any information they desire. I am at present employed, but the advancement here is or will be very slow, as I was brought to my present position for a purpose, which I fully fulfilled. This ad cost me a good penny, so don't take up your time or mine if you are not interested. Samuel Brown, Press Union, Atlantic City, N. J.

Not a Sob Sister, but experienced newspaper woman with particular knowledge of metropolitan drama, movies, fashions, wants syndicate or newspaper position, New York, where she has free-lanced successfully past several years. Has national viewpoint essential in syndicate work; fair for recognizing the unusual, ability to write with accuracy and color; plus balance and judgment. Familiar with syndicate methods, having handled, edited, features as editor—dramatic, movie, society, women's and Sunday magazine pages and as writer of a syndicated feature. Best references. Address Box B-549, Editor & Publisher.

News Executive, thoroughly experienced. Now employed wants job as managing or news editor of paper in city under 100,000. Can rebuild staff, develop new news sources. Prefer paper in a rut. A-1, B-533, care Editor & Publisher.

Reporter—Desk Man, 24, wants position in South. Four years' experience in Alabama and Florida. B-523, Editor & Publisher.

A COMPREHENSIVE national canned food week will be observed throughout the country this year from Nov. 10 to Nov. 20. Plans for securing local advertising from retail grocers, wholesalers, manufacturers and others should be made at this time by the ad departments of all newspapers. As the national event will be held over two Saturdays, exceptional opportunity is offered for increasing the Friday advertising of canned products in each of these weeks.—C. M. L., Seattle, Wash.

How about the bakery in your city, does it only advertise bread? Get the baker to place another ad in your paper selling his cakes, his soft rolls, his pies, his chocolate eclairs, or whatever his specialty is. A small ad on one of these two or three times a week will bring him more pastry business. Try running one ad on one pastry every day, whichever is his special for the day. This is good business that will develop into another steady advertiser.—Ralph Gibley, Huntington, Ind.

An "Accuracy Race" is being conducted by an Indianapolis newspaper. Any errors directly chargeable to any staff member are tabulated daily and the total marked on a "race sheet" each evening. At the end of the week, the staff member with the lowest error record is treated to a free dinner and an evening's party with expenses paid.—B. A. T.

The Christmas Savings clubs plan inaugurated by banks and which opened up new advertising opportunities to newspapers might be broadened to include stores whereby a buyer could begin making payments now on Christmas gifts to be delivered at Christmas time. Under this arrangement stores could afford to make reduced Christmas prices to attract the trade.—F. D. H.

A good way to handle political advertising is to make up a page or more to run four or five times during the month before election and sell spaces for the full run, allowing change of copy each time. Such a page was run in the *San Luis Obispo* (Cal.) *Telegram & Tribune*, during August, appearing five times before the primaries. It sold easily and settled the political advertising matter in two days of solicitation.—Fremont Kutnewsky.

Here's a new stunt your suburban solicitors can use occasionally with success. The plan is now being used to real advantage by one of the solicitors of an Indiana newspaper who has "cracked some hard nuts" with it. When visiting one of the smaller towns, this solicitor keeps his ears open for gossip concerning any visitors to the town. He obtains the names of the visitors and the names and addresses of the hosts. He then calls

upon the hosts and introduces himself thusly: "I'm from the Star. I understand you are entertaining some guests and would like to obtain the information for my newspaper. We have quite a number of subscribers in this locality who are interested in such items, especially your friends." Invariably he gets the item and it goes back to the editor with a memo request for its use. Meantime, however, in a majority of cases, the host likes to see what the paper is going to say about it, and this furnishes the wedge for the taking of the subscription by the solicitor. Try it out on some hard case some time. The results may surprise you.—B. A. T.

AN entertaining story, as well as a novel feature can be built around "badges." Have the staff photographer get pictures of various official badges worn by men and women of your city—such as firemen, game wardens, inspectors, motormen, conductors, watchmen, patrolmen, etc., etc.—and use them to illustrate a yarn explaining their various meanings and uses.—M. V. Briggs, Duluth.

"Why Men Get Drunk" was the title to a timely and fascinating interview story in the *Milwaukee* (Wis.) *Journal* recently. Prominent people of the city gave their views on why they get drunk at times. Some of the subjects of the interview were mentioned by name; others, because of the personal nature of the matter, were partially identified by their position in the city but were not mentioned by name.—Ruben Levin, Milwaukee, Wis.

An especial courtesy is afforded and new interest created in the daily hotel list by the heading given those on the hotel registers of the town by the *Longview Daily News*, which heads this box of visitors "The City's Guests."—C. M. L. Seattle.

The postoffice pen has been more or less of a standing joke all over the nation. Now Postmaster General New has

TO SEPARATE NEWS COURSES

U. of Illinois Trustees Approve Plan for Complete Journalism Dept.

The board of trustees of the University of Illinois has approved a plan for the establishment of a School of Journalism at the university, separating these courses from the department of English and opening the way for the ultimate expansion of this course of study.

The Illinois Press Association at its recent meeting unanimously adopted a resolution asking for this step and W. J. Smith, editor of the *Waukegan Sun*; John Harrison, editor of the *Danville Commercial News*; Harry U. Bailey, former president of the association, editor of the *Princeton Republican*; D. W. Grandon, editor of Sterling and LaSalle newspapers and James McClure, editor of the *Carlinville Republican*, representing the association, joined with President Kinley in presenting the resolutions to the board.

Details of the new school's organization are yet to be worked out and the state press organization will continue to act in an advisory capacity in that undertaking.

A feature that has proved popular in one New England newspaper is a daily three-column cut of some attractive section of the state with a short description of that place underneath. A standing head runs over the top of it "What You Should See In —" This has aided in building up circulation in the more remote sections besides being a help in the publicity program of that state.—L. E. Richwagen.

In some communities women take their political rights seriously. In others, they ignore their poll privileges or neglect them pitifully. How many women in your community voted at the last election? How many will vote next time?—H. J. B.

PENNSYLVANIA~

*Has over 202,000 Farms with
a total of over 17,000,000
Acres under cultivation~~~*

Besides being the greatest industrial state in the Union whose manufactured products run into the billions, and giving employment to a great army of labor whose annual payroll runs into the hundreds of millions, Pennsylvania is also a great agricultural state whose annual crop is valued over \$500,000,000. Crop production is varied in all parts of the state, the cereals, forage crops, fruits, and all that the temperate zone raises. The crops are spread evenly through the whole list with large diversification, and consequent steadiness of prosperity. Pennsylvania is the logical market for the national advertiser seeking distribution for his products. In this territory of 45,000 square miles with a population of over 9,000,000 inhabitants of great earning and buying power, a newspaper campaign will do much to create sales for any meritorious product.

Let these papers convince you with facts about this great market.

CIRCULATION GAIN

IN THE FACE OF 'DRY-GOODS' LOSS

- ¶ Some time ago the publishers of The New York Telegram became convinced that an adjustment of advertising rates more in keeping with the increased circulation of this newspaper was only fair and just. Several of our friends among the department stores, however, did not share in this opinion—and when their advertising contracts terminated one by one they discontinued the use of The New York Telegram for their announcements.
- ¶ In terms of circulation such a circumstance is looked upon with some apprehension, as it is thought almost inevitable that a newspaper's circulation must fluctuate with the increase or decrease of department store advertising.
- ¶ Consequently a startling paradox has been created.
- ¶ In spite of this loss of "dry goods" advertising, which The New York Telegram regrets but for which it can offer no apology, the circulation of this paper has materially increased.

207,706

A Gain of 25,217 Over the Last
Six-Month Period Ending
March 31, 1926

(Net Paid Average Daily Circulation for Six Months Ending September 30, 1926)

- ¶ We believe the one outstanding reason for this circulation increase is that 207,706 families of the alert-minded younger element here in New York buy The New York Telegram *because it is the kind of newspaper they want.*
- ¶ And this demonstration we believe clearly shows that The New York Telegram has a reader-adherence equalled by few newspapers anywhere today.

Next to Greatest Gain in America!

Rochester Journal-American Gains 2,235,209 Lines in First 9 Months of 1926

JOURNAL-AMERICAN

ST. PAUL AND ANDREWS STREETS
ROCHESTER, N. Y.

In September, the Rochester Journal-American carried over 700,000 lines of advertising, exclusive of legal notices, which was 258,979 lines MORE than a year ago.

And in the first nine months of 1926 the Journal-American carried 2,235,209 lines more advertising than in the same period a year ago.

Only one other newspaper in the United States has shown a greater advertising gain during the same period, and this was in New York, a city with twenty times the number of stores and twenty times the population.

And there is only one reason for this remarkable increase--and that reason lies in the responsiveness of Journal-American readers.

Advertisers who obtain results are quick to realize the buying power that lies behind a newspaper catering to that youthful class, those "under forty," and those who think "under forty."

Journal-American readers have the money to spend and spend it freely when an advertisement is directed to them in THEIR newspaper.

Charles F. McCallister
Publisher

This is indeed a remarkable record.
The Rochester Journal-American nine-months gain exceeded the combined gains of all newspapers in the following list of 18 large cities: (*)

Seattle	2,185,512 lines gain
St. Louis	2,179,100 " "
Minneapolis	2,165,820 " "
San Francisco	1,829,342 " "
Los Angeles	1,727,167 " "
St. Paul	1,702,568 " "
Milwaukee	1,294,298 " "

Getting the lion's share

is easy if you go after business with the right kind of advertising in the right medium.

In Philadelphia you can do it best through a single newspaper, and at one minimum cost.

Over three million people work and live in the Philadelphia-Camden trading area—America's third largest market. On the accepted U. S. Census basis of 4.5 to a family, The Bulletin offers you the most complete coverage that can be obtained in this territory.

Dominate Philadelphia

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

Classic Vindication Of Press As Safeguard Seen In New Jersey Murder Trial

200 Writers and Photographers Grind Amazing Grist of News at Hall-Mills Hearing—File of 300,000 Words Daily Indicates World Wide Interest

By PHILIP SCHUYLER

Legal pit from which radiates the story of the greatest criminal cause since Thaw

SOMERVILLE, N. J., Nov. 4.—Except at the national conventions of the major political parties or at some celebrated world event such as the signing of the Treaty of Versailles one does not expect to encounter such a throng of newspaper writers and photographers as at which presented itself in the courtroom yesterday and Terminer here yesterday record the unravelling of the most baffling criminal mystery of the age. I have counted more than 200 men and women, representing all degrees of authorship and the newspaper press of the civilized world. The grist of words and pictures that is flowing from their pens concerns a cast of characters essentially drab and uninteresting in all normal human relationships, but in the attitude of defense of their lives before the jury of their peers in the circumstances of this case they have taken on a sinister mein that has challenged the imagination of the world and has offered to newspaper writers a subject without a parallel for all of the elements that make the great human interest story. The Hall-Mills case has received more printed space in the newspaper press than any criminal cause since the trials of Harry Law. It has become the topic of wondering conversation through all ranks of society, from the backwoods village gossip wisecracking his opinions over the backyard fence to the scientist lecturing in university halls on the fathomless mysteries of human conduct. Veteran newspaper men here call it "the great story of the generation." That is true, but that is not, primarily, I take

it, the explanation of the excited interest I found here. Rather the reason lies in the fact that most conspicuously in this case the power of the press is ruling in behalf of an orderly society, responsible on even terms to common laws. Be it remembered that government had failed here. The hatefully sordid middle-age "romance" of a hypocritically minded cleric and a weaker vessel led to a foul breach of the laws of man and God, shocking the reading world and calling for legal retribution. But government dismally failed, for reasons apparent and to be revealed in this trial. It was not until the independent, fearless, intelligent, unpurchasable press began to function according to original principles that the masks were torn away and the majesty of law tardily rose from the dust in New Jersey. I take it that this is the real reason that 200 reporters have come here to tell the people what they are entitled to know concerning this grisly tragedy. Grant that it is the great murder mystery of the age, it is also the clearest vindication of the newspaper as the guarantor of justice and right.

All competitive and professional rivalries aside, the newspaper man who stands up for conspicuous honors is Philip A. Payne, managing editor of the *New York Daily Mirror*. "An excitable fellow," some say, but whatever he may lack in calm and judicial temperament he possesses in stuff that took the lid from this fetid social and political cesspool. Mr. Payne will tell you that the honor belongs more to Herbert B. Mayer,

of his staff, plain reporter. So be it, but the tabloid was first to tell the authorities where to look for the evidence that is the basis of this prosecution. The detailed story of the exploit has been related in these columns.

When the actual trial opened here it was a positive relief to at least 40 veterans of the case who for months have been frantically chasing down rumors and reports until taximeters ran up a total estimated at more than \$5,000 on false clues alone. The night of the opening day of the trial became a fragrant bouquet to them. Their gay spirit was shared by the added special writers and photographers who have swarmed to this place and in the evening gathered for diversion at the Hotel Somerset and private apartments and homes rented by individual New York newspapers to house big staffs during the trial period, some leases being dated as far into the future as March 1.

These trial reporters won their fight for position on the majority of eastern papers, at least, when Simpson sprang his surprise witnesses, although the word file that passed through the world's largest portable telegraph switch board was below predictions and expectations.

Western Union has installed a record smashing communications device. The switch board was first used for coverage of the Dempsey-Tunney fight, and can easily handle 2,200 words an hour. On the first day E. R. Visconti in charge of 28 picked Western Union operators and Fred B. Townsend, board man, listed 123,175 words filed between 10 o'clock in

the morning until six at night. The main wire room located in the basement of the court house lives up to Cocteau's French novel, and, open all night, Visconti expects it to handle a file of between 300,000 to 500,000 words every 24 hours during the trial.

In technical parlance, it is possible to "jack" 180 wires at one time into the board connecting up virtually any point in the United States with this New Jersey town of 7,000 population.

Experts have rigged up a system whereby a "feature book" of 2,000 words addressed to a list of a dozen or more newspapers by a syndicate can be released at one load in an hour's time. Copy, given a number which tallies with a list of addresses previously furnished Western Union, is sent from Somerville to relay points where it is received on wax paper run through typewriters without ribbons and is mimeographed and redirected into the correct newspaper offices.

In addition to this switch board wire news agencies, the Associated Press, the United Press, International News Service and Standard News have a wire room of their own on the third floor of the court house. A Morkrum machine pounds away within the marble court house walls. Telephones with direct connections to New York and other nearby cities are also being worked almost continually. Eight extra girls are engaged in the local central exchange, plugging in newspaper office calls. Line men are still busy installing extra telephones and telegraph instruments in hotel rooms and

Principals of the Hall-Mills case run the gamut of a camera battery like this frequently these days

private homes never intended to house the newspaper goddess, Speed.

From the court room itself only 130 newspaper writers are feeding the hungry snapping telegraph wires.

There were at first only 79 seats allotted in the press section proper, but the press committee, appointed by the court, managed to obtain the 130 newspaper reservations. Swivel chairs were removed and folding seats substituted to make necessary room. No less a personage than Zoe Beckley, of Famous Features Syndicate, was forced to sit in the balcony on the first day. Close to the front sits Damon Runyon who dashes off a running story of the trial as though he were covering a football game or prize fight. One of the trial veterans here is Lindsay Denison, *New York Evening World*, who scorns private houses and special wires and files his story "as I have always done" with Western Union in the court basement. Virtually all the newspaper men are receiving a stenographic transcript of proceedings which are being edited and sent out by editors assigned to the story.

Only a few trained seals are represented in the press section. Mrs. Henry Stevens, wife of one of the defendants, is writing the story for the *Post Syndicate*. Richard E. Enright, former police commissioner of New York, is reported as receiving a high stipend from the *New York American*. The *New York Journal* is paying Billy Sunday \$200 a day to write fundamentalist details of the trial.

On the other end of the financial ladder is Charlotte Mills, daughter of the slain choir singer, whose meager salary is \$75 a week. Fortunately she has helpers, else how could this state's witness accomplish what she is said to have done—take the stand and write some 10,000 words, morning and night stories, to a list of nearly 20 newspapers on Nov. 3. James Mills, the church sexton, is with his daughter, under contract with the Famous Features Syndicate.

Fortunately quite a list of big names turned down the chance to come to Somerville. At one time Theodore Dreiser was expected to write the affair for a New York newspaper. He asked, it is said, \$1000 a day as his reward. He is not here. Edna Ferber wanted a minimum of \$1500 a day, according to report. The newspapers refused to pay. Mary Roberts Rinehart wanted even more and didn't get what she wanted. Fanny Hurst is reported to have let moral rather than financial consideration prevent her presence in the case. She turned

down an offer because to her the trial seemed "too lurid." H. L. Mencken, busy last week trying on hats at a fireman's convention in New Orleans, couldn't spare the time. Sinclair Lewis and Eugene O'Neill couldn't even be approached.

Still the press committee continues to receive applications for seats.

As Denison of the *Evening World* said "for the last two weeks every newspaper man in Somerville who has acquaintances between here and the Pacific coast was receiving urgent messages from friends on other newspapers wanting to know where Somerville was and where they could get a room."

"Men from Kansas, Massachusetts and Tennessee are making better arrangements in Somerville than those from New York," he said. "They foresaw emergencies, while the New Yorkers were prone to consider it a suburban assignment."

"As for seats in the court house that was nearly a pretty mix-up. The committee was appointed by Justice Cleary in the absence of Justice Parker. The members of the committee went to Parker to see about seats. First he said he had no time to consider such a minor subject. Then the committee told him they had been named by Justice Cleary and the second judge decided that was different. In the beginning he said he would limit the press to 14 seats. He raised the ante to 125 later. Applications are still coming in and they are gradually being filled by the committee which is doing excellent work."

As named by the newsmen and authorized by the court, members of the committee are: Wilbur Rogers, *Brooklyn Eagle*, Arthur Mefford, *New York Daily Mirror*, Raymond Daniels, *New York Evening Post*, Adolph Novak, *Standard News Association*, and John Eddy, *New York Times*. All have been in Somerville since last July.

The card of admission besides giving the seat number and the signatures of the city editor and a member of the press committee, contains the following instructions: "This pass is issued and authorized by the court of Oyer and Terminer of Somerset County by the Hall Trial Press Committee appointed by the court. The pass is not transferable and may be revoked at the discretion of either the committee or the court. Only the holder of this pass will be admitted to the seat it calls for. This pass is invalid without the signatures of both the city editor and the press committee."

Where those allotted seats can sleep

nighttimes is a problem that was partially solved by some papers which leased private homes to house their own staffs. The *New York American* has a house at 36 North Bridge street; the *New York Mirror* at 42 South street; and the *New York Herald Tribune*, *New York Times*, and *New York Evening Post*, have leased rooms in private houses, most of them on Grove street, near the courthouse. The *New York World* has two rooms equipped with wires in the Somerset Hotel. One entire floor in the same place is given over to the *New York Daily News*, which also has an office and dark room across the street.

The Somerset Hotel, the largest of three in town has 25 rooms and is accommodating 125. On the left of the door as one enters a sign informs prospects that there are "rooms" left for visitors in the hotel's ball room.

Many home owners are taking in boarders that never dreamed of doing so before. Regular boarding houses have boosted their prices from \$1.50 to \$5 a day, although previously published reports of fantastic charges are generally discounted. It is said that one newspaper is paying \$500 a month for its house, an unheard of rental hitherto here. Mrs. Levy, proprietress of the Somerset, insists she has not raised her rates, but her guests explain that what she means is that while she is still charging \$4 a day for individuals, the old time price, she is packing two, three, and even five and six in a room and is getting that price from each of them.

Other incidentals than high rentals give the town a boom flavor. The apparent prevalence of bootleggers for one thing and the large number of games of chance in operation. One newspaper man is said to have lost \$2,000 in a few weeks. The games are generally friendly and remind one of war days in army barracks. While liquor is purchasable close at hand, the most palatable stuff is said to be sold at a roadhouse 16 miles away. It is reported as being "harsh but good."

The town, occasionally described in stories as "sleepy," is certainly waking up. To heighten the illusion that a bit of New York has been transferred to Somerville, tonight a beggar with iron legs panhandling near the courthouse was recognized as one seen frequently on Times Square a short while ago.

On the second day of the trial a comparatively small crowd gathered at the courthouse doors. It was made up mostly of excess cameramen who busied themselves by taking pictures of a dog which

joined the people on the court steps and waiting at various entrances snap pictures of important trial figures they entered or left the building.

It was easy to crash the gates and gain admittance to the trial even after it had begun and the seats were all presumably filled. The password is simply to say very officiously "I beg your pardon" and push up through the crowd of people gathered outside the entrance. When the guard is reached the form is to flap a pocket book at him. He will think you are trying hurriedly to show him your press pass. If a guard seems about to look too closely into your pocketbook say importantly that you have a message for Senator Simpson and he will nine times out of ten, if he doesn't resist, let you by.

The press seats are all numbered and reserved. It might be difficult for a gate-crasher to get a seat there, although the writers come and go from the courtroom during the day and there are frequently vacant seats. Usually it is possible to find some spot with the photographers along the side walls.

Judge Frank L. Cleary and Justice Parker sitting together under a grand old English law that has produced the court of Oyer and Terminer are striving to maintain court dignity under difficult conditions, a forced dignity that relentlessly disintegrates when daylight enters and those sections of this sedate town ship occupied by newspaper people take on the atmosphere of gold rush centennial about in novels.

On the first trial day Justice Cleary seized the camera of a photographer who snapped a picture from the press section breaking a rule laid down by the limiting illustrations to views caught from the sides of the room. Only 10 cameramen are allowed in the courthouse, the *Mirror* alone, using two motor cameras, rushed scores of plates from the Newark tubes on Nov. 3. The machines were sent out every two hours carrying pictures in batches of 25.

In working hours the newspaper here are an industrious crowd with exception of those whose job it is to stand outside the courthouse keep watch on who goes out and who comes in. After working hours, when the dignity of the court has worn away, spying on the newspaper people might be inclined to say the trial was one glorious vacation. You know. One of the things.

While most reporters are inclined (Continued on page 42)

PUBLISHING A WELL PRINTED NEWSPAPER

Howard Davis, Business Manager of New York Herald Tribune, Cites Ideals of New A. N. P. A. Mechanical Department—Burns Outlines Fundamentals of Clean Press-Work

By PHILIP SCHUYLER

ONE of the crying needs of the American daily press today is that the smaller newspapers of the country become "more mechanical minded," in the opinion of Howard Davis, business manager of the *New York Herald Tribune*, expressed in an interview with EDITOR & PUBLISHER this week.

It is to satisfy this need, he said, that the American Newspaper Publishers' association is organizing its new mechanical department, which, under the direction of W. E. Wines, will start functioning immediately after the association's second annual fall convention to be held at French Lick, Ind., Nov. 10-12.

Mr. Davis, who as treasurer and a director of the A. N. P. A. was one of the earnest supporters of the mechanical department idea, outlined the ideals envisioned for this new membership service department, during the interview, and went into detail discussing the subject of publishing a well printed newspaper. Subsequently he introduced Arthur H. Burns, the Herald Tribune mechanical engineer, who outlined the fundamentals for making clear, clean reproductions on newsprint.

"It will react to the benefit of newspapers generally if standards of mechanical production are improved among the smaller dailies," Mr. Davis said. "Those metropolitan dailies that are printing good papers are losing some business because newspapers are indicted as a group because a great number of small papers are sloppy and careless in their composing, stereotype and press rooms."

"So many publishers fail to realize the value of a well printed paper to the reader as well as to the advertiser. There is a great circulation value in good printing."

"And as far as advertising is concerned, some advertisers are inclined to place their copy elsewhere than in the newspapers where their message will be most effective, because they are afraid of newspaper printing results in general. Low good is an advertisement poorly printed? How much will a botched and muddy appeal sell? These questions are being asked by advertisers, and newspapers must reply by improving mechanical conditions."

"As a matter of fact, there has been considerable improvement in newspaper mechanical departments in the last few years. A number of new accessories have been added that make for better printing. At present, however, this improvement is monopolized largely by the papers in bigger cities."

"It was largely to improve conditions in smaller newspapers that the A. N. P. A.'s mechanical department was conceived. The benefit to bigger papers will accrue chiefly from the fact that advertiser-confidence in newspaper production will be increased as mechanical improvements spread to publishing plants all over the country."

"We of the metropolitan field will help ourselves by helping others. We will use our technical advantages with the smaller publishers."

"Mr. Wines, when he takes charge next month, will have the assistance of mechanical engineers of newspapers in New York, Philadelphia, Boston, Chicago, St. Louis, New Orleans, Detroit, Indianapolis and other large cities, which during the past years have by experiment developed new and more efficient mechanical methods for improving the appearance of the newspaper product."

"Newspapers generally have much to learn about the printing of letter press, the cuts and half-tone illustration. We want to learn what kinds of cuts are best, and what types of equipment

to use to improve reproduction. We want to work economies and increase efficiency."

"These are a few of the things the A. N. P. A.'s new service bureau hopes to accomplish. Then eventually the department will seek to standardize page sizes and equipment, particularly press parts. This seems like a mammoth un-

"A mechanical superintendent must simply always make sure that his printers are doing a good job."

"Mats should be well packed so that the dead metal is kept in place. This is very important in preventing smutting of the paper. Casting boxes in the stereotype department should be kept well cleaned, and in adjustment."

Howard Davis, business manager, *New York Herald Tribune*, and Arthur H. Burns, mechanical engineer inspecting that daily's press work.

dertaking, but it is possible and the former will greatly enhance the newspaper as an advertising medium and the latter erase many present mechanical problems."

In listing recent mechanical improvements, Mr. Davis stressed the development of matrix making in this country.

"The increased demand on the part of newspapers for dry mats has given the manufacturers an opportunity to carry on important experiments. There has been a 100 per cent improvement in America in the last few years in the making of dry mats. Then the introduction of the hydraulic press, supplanting the roller, has been, I believe, a great benefit. The Herald Tribune was the first newspaper to install this machine when it was brought over from Europe."

Many apparently minor details must be watched carefully to produce a well printed newspaper, according to Mr. Davis.

"Any number of cases contribute to a badly printed newspaper page. The linotype metal may be wrong, or the stereotype metal. Careless moulding will cause light spots on the page and make the type look wavy and dirty. Then the impression on the press may not be just right or the ink distribution faulty. To make a well printed newspaper constant vigilance in all the mechanical departments is vitally necessary."

Mr. Burns took the writer verbally through the newspaper printing processes.

"To insure a well printed newspaper," he began, "constant watchfulness of the little things is most important. You must make sure that your column rules are straight, for instance, and that your borders are cut right. All the composing room work must be done carefully, with close scrutiny of details."

"The next step is in the stereotype department. Mats must be well dried. This is elementary stuff, to be sure, but there are no special tricks in newspaper mechanics."

there is keen competition among them. This competition has led to price cutting and concomitant reduction in quality. Ink manufacturer for the newspapers today tends to be light of body in color or poorly mixed, or it may be full of gritty impurities. It is difficult to set up a definite standard as to how ink should print as there have been very few technical developments on depth of color or covering capacity in this line. If a publisher finds that he is using more than two pounds of ink for every 1,000 8-page papers he prints, he may be sure that something is wrong, however. Usually the covering capacity should be between 1½ or 1-4/5 pounds for 1,000 8-page papers."

Of importance in obtaining good printing results in newspaper plants is the arrangement of various units of the mechanical department, according to Mr. Burns.

"The main idea," he said, "is to arrange the plant so that the finished product of each department should reach its next step in production with the least possible loss of time. The stereotype moulding department, for example, should be within a step of the make-up tables and the stereotype casting foundry should be as close as possible to the press that is in operation. The ideal plant would of course be a one story building with the raw material going in one end and the finished product coming out the other."

"Paper storage is becoming an important item in newspaper operation and this storage should be as close as possible to the press room. Newsprint should not be held too long in storage on account of its tendency to dry out and become brittle. We figure that two months is about the limit for keeping paper in store rooms without special ventilation facilities. Ventilation apparatus, while available, is, however, a very expensive proposition, impossible for most publishers to meet."

In speaking of press room improvements, Mr. Burns mentioned the fact that electrical control appliances have been improved on the last few years, making the press control much more certain than it used to be. He declared the magazine-reel system was a vast improvement over former methods of handling paper rolls.

"There have also been developments in the dry mats, allowing more pressure to be used in moulding. More faithful reproductions of original zinc engravings are being obtained than a few years ago."

"Better half-tone printing is being obtained by getting a little more impression on the picture page by means of an over-layer. There are also several forms of make-ready on the market, which are being used with varying degrees of success by newspapers. We have been using make-ready for two years now. Other papers obtain practically the same effect by retouching the original prints."

"Small city publishers," Mr. Burns concluded, "should be able to turn out just as good newspapers as are produced in the metropolitan field. They really ought to do better work, despite the fact that in the larger centers we have more experienced labor. The small city paper has more time, less editions and his press capacity is usually greater for his circulation than his metropolitan brother."

LEAVES DAILY FIELD

Brookfield (Mo.) *Daily Budget* this week changed from a daily to the tri-weekly field, leaving the *Brookfield Argus* alone in the daily field at Brookfield.

DICKEY WINS \$5,000,000 SUIT FOR LIBEL

**K. C. Journal-Post Publisher Victor
in Case Brought by
Former Governor
Davis**

(By Telegraph to Editor & Publisher)

KANSAS CITY, Nov. 4.—The \$5,000,000 libel suit of Jonathan M. Davis, former Governor of Kansas against the *Kansas City Journal-Post* and its owner, Walter S. Dickey, ended today like Davis' campaign for re-election adversely, with judgment entered against the former Governor.

Attorneys today, as Davis was being counted down by more than 100,000 votes, made public a decree rendered by Judge John C. Pollock of the Federal Court in Kansas in favor of Mr. Dickey and the *Journal-Post*, and assessing the costs of the case against Davis.

The judgment was rendered upon a stipulation filed by the attorneys in which trial by jury was waived and the case submitted upon the pleadings, the stipulation and statement of counsel.

The libel suit was filed the day following the acquittal of former Governor Davis at his last trial on a charge of bribery in connection with the granting of pardons and paroles in the closing days of his administration. It was based upon articles published in the *Journal-Post* about the pardon and parole cases. Besides the *Journal-Post* and Mr. Dickey, a number of persons who appeared as witnesses in the trial were made defendants. These included Dick Smith, managing editor of the *Post*; W. G. Clugston, chief of the *Journal-Post* Topeka bureau, and Walter G. Heren, a reporter for the *Journal-Post*.

In an issue of *EDITOR & PUBLISHER* two years ago an extensive article related in detail how Mr. Smith and his associates conducted the exposé of Governor Davis and his son Russell, in the alleged pardon scandal.

The case originally was filed in the Shawnee County District Court in Topeka. Attorneys for the *Journal-Post* filed a motion for removal to the Federal court on the ground that all of the defendants except two were non-residents of Kansas, and that the two residents of the state named as defendants were fraudulently joined for the purpose of denying the others their constitutional right to trial in the Federal court.

This motion was granted by Judge Otis Hungate of the Shawnee County District Court. The attorneys for the former Governor then went into the Federal court and filed a motion to remand the case to the state court. This is the motion referred to in the decree of Judge Pollock as having been withdrawn.

The principal articles set out in the libel suit petition bore on the Fred W. Pollman pardon case, in which the *Journal-Post* told of the payment of \$1,250 to Russell G. Davis, son of the former governor, in exchange for a pardon signed by his father. The exchange took place in a hotel room in Topeka while representatives of the *Journal-Post* and others in an adjoining room by prearrangement with Pollman listened by means of a dictagraph.

The governor and his son were arrested on a charge of soliciting and accepting a bribe in the Pollman case three days after the delivery of the pardon and only a few hours before the former governor went out of office, Jan. 12, 1925.

A short time later a second charge was filed against Davis and Carl J. Peterson, his state bank commissioner. This was based upon a parole case in which no parole was granted and in which no money was paid. The charge was soliciting a bribe. It was known as the Grundy case.

The former governor and the former bank commissioner asked and were granted a severance. Davis was tried first in the Grundy case. He was acquitted. Peterson than was tried and acquitted.

It was almost a year later before the former governor and his son were called

to trial in the Pollman case, although it had been the first one filed. A verdict of not guilty was returned after the jury had been out 32 hours.

Following his acquittal and the filing of the libel suit, Davis became a candidate for governor, waging a vindication campaign. He was defeated by more than 100,000 votes in the election Tuesday. The only comment upon the outcome by the *Journal-Post* appeared in the editorial columns this morning. It read:

"VINDICATION IN KANSAS

"And that's that, as the man said, rolling down his sleeves upon completion of the job."

FORMING HOUSE UNIONS

Manchester and Edinburgh Papers Establish Pensions—Not "Open Shop"

There is a definite move among larger papers outside of London to establish some form of "house union" which offer to employes the benefits of a trade union. One of the most discussed was that of the *Manchester Guardian*. Now the *Edinburgh Evening News* has established a staff pension fund, both the management and the employes contributing to this, and guarantees security to all employes except in cases of negligence or misconduct.

The firm promises not to pay less than trade union rates, and also to pay full wages during sickness and holidays. A staff insurance and provident fund is already operative. Neither the *Manchester Guardian* nor the *Edinburgh Evening News* have definitely declared "open shop," but some of the printing trade unions take the view that membership of such "house unions" is naturally a blow directed at them.

ASKS \$50,000 LIBEL

**Kansas Weekly Editor and Politician
Are Defendants**

Frank Hodges, editor of the *Johnson County (Kan.) Democrat*, filed suit last week for \$50,000 against Bert Rogers, editor of the *Olathe (Kan.) Mirror*, and John Breyfogle, politician, charging an article in last week's *Mirror* libeled Hodges and his brother, by asserting they were tax dodgers.

Mr. Hodges is director of several banks. His brother is George H. Hodges, former governor of Kansas.

BUST OF C. P. SCOTT, VETERAN MANCHESTER EDITOR, PRESENTED TO CITY

C. P. Scott, for 55 years editor of the *Manchester (England) Guardian* was honored on his 80th birthday recently when a bust of the noted editor executed by Jacob Epstein, the famous sculptor, was presented to the city of Manchester by Lord Derby. The bust was purchased by private subscription. Present at the ceremony were those shown above (left to right) Jacob Epstein, C. P. Scott, the Lord Mayor of Manchester, who accepted the gift on behalf of the city, Lord Derby and Sir Percy Woodhouse, president of the local Chamber of Commerce.

DAVIDSON SELLS HIS CALGARY ALBERTAN

**Was Founder and Publisher for 25
Years—G. M. Bell and Charles
Campbell New Owners—Price
Not Disclosed**

The *Calgary (Alta.) Albertan*, Alberta's only morning newspaper has been sold to George M. Bell and Charles Campbell, according to an announcement appearing in the *Albertan*, Nov. 1. No price was given. The paper will be enlarged and new mechanical equipment added. In addition to special news and feature services, the full Canadian and Associated Press reports will be received.

W. M. Davidson founded the *Albertan* in 1902 and has published it continuously since that year. Mr. Bell was associated in the publication of the *Regina (Sask.) Leader and Post* interests, allied with the *Saskatoon Star and Phoenix*, but has never been an active newspaper worker. Mr. Campbell was publisher of the *Vancouver World* and *Vancouver Star*, and is now publisher of the *Edmonton Bulletin*, the oldest newspaper in Canada, between Winnipeg and the Rocky Mountains. Mr. Bell is also associated with Mr. Campbell in the *Bulletin*.

Harry J. Ford will continue as business manager of the *Albertan*, but there is no announcement available as to the editorial staff. Publishers statement being without a morning paper, the *Albertan* will issue an early edition to reach the capitol city readers by breakfast time.

W. M. Davidson, retiring publisher and editor, has hit hard persistently for every cause he has backed and enjoys a reputation as an able and fearless editorial writer.

LORENZ ESCAPES JAIL

**Court Holds Six Months Sentence in
Error After Payment of Fine**

Arthur Lorenz, former editor of a German newspaper, printed in Chicago, has been relieved of a six months sentence for criminal libel, the supreme court holding that the statute under which Lorenz was convicted provided for fine or imprisonment, but not both. Lorenz paid a fine of \$1 and costs but was later sentenced to six months when the American Legion insisted upon

heavier punishment. Judge Eller, fore whom Lorenz appealed his sentence, interpreted the statute to be the double sentence but the attorney general's office took an appeal, the supreme court sustaining Judge Eller.

The supreme court said: "It may be that this construction allows Lorenz to select his own penalty and to escape a punishment entirely disproportionate to his crime. But if this be true, the blame therefor, must rest with the criminal court and its state's attorney, who stood by in three courts and allowed the error to go uncorrected. This court will correct or modify sentences but in no case can only determine the legal effect of that imposed by the criminal court."

DAILY WINS LIBEL SUIT

**Judge Gives Directed Verdict in Bel
of Raleigh (N. C.) Times**

The suit brought by Dr. J. R. Pent of Concord, against the *Raleigh (N. C.) Times*, and John A. Park, president of the Southern Newspaper Publishers' association, publisher, and Oscar J. Coe, editor, in which the minister sought to recover damages to the extent of \$25,000 for alleged libel, ended last week with Judge A. M. Stack, presiding over the superior Court of Cabarrus county, directed a judgment as of non-suit. Notice of appeal was filed by the plaintiff.

The defense argued that an editor appearing in the *Raleigh Times*, in which Dr. Pentuff was called an "immigrant noramus," and which further stated that he was so discourteous and unmanly that he had to be "suppressed" by Chairman Connor, of the education committee of the house of representatives, before whom he appeared as a witness, did mention the plaintiff's profession of preacher, and therefore did not injure him personally. This argument was upheld by the court.

REWARD TO MELLETT'S WIDOW

**McDermott's Brother, Who Caused
Arrest, Offers Her \$5,000**

Thomas McDermott, who surrendered to Ohio authorities his brother who wanted in connection with the murder of Don Mellett, editor of the *Canton (Ind.) News*, has written Mellett's widow in Indianapolis asking her to accept the \$5,000 reward offered for the arrest of the "key witness."

Mrs. Mellett, who with her four children is now living in Indianapolis, is undecided whether or not to accept the reward.

"Being the one who found Patrick brought him to Nanty Glo, Pa., I believe I am entitled to the reward," McDermott wrote Mrs. Mellett. "I could not, and member of the family could, accept the reward. It is my desire and the desire of the entire family that the reward be turned over to you," he said.

POLICE CHIEF SUES

**Brings Libel Action Against Editor
Beloit (Ill.) Independent**

Police Captain Sven Kleven has filed criminal libel charges against Blom Hansen, editor of the *Beloit (Wis.) Independent*, a weekly, as the result of publication of sensational charges in the *Independent* that the police head was in collusion with a local bootleg ring.

The charges were filed within a few hours after the paper appeared. The article demanded Kleven's resignation and the police commission this week began an investigation.

Editor Hansen is under bond as a result of similar libel charges against him by W. H. Arnold, an attorney, who attacked for his defense of the liquor sellers.

SPHINX TO CELEBRATE

The Sphinx Club, New York advertising organization, will celebrate its 10th anniversary, Tuesday, Nov. 23, with a banquet at the Waldorf, James P. Gilmore is president.

SAYS A. B. C. RULES PREVENT COMPLETE AUDITS

Gaylord of Oklahoma City, Roused by Unexplained Deductions from Net Paid by Special Auditor, Charges Discrimination Against Complaining Publishers and Use of Unpublished Regulations

SENT a questionnaire to 500 newspaper publishers, Oct. 1, asking if they sold their papers to news agents and dealers on a non-returnable basis and so, if they counted all copies purchased by the agents or dealers as paid circulation and if the Audit Bureau of Circulations had ever deducted for left-overs in the hands of agents. Replies were received from 283, of whom 271 replied that they sold their papers on a non-returnable basis to news agents and 256 of these, or all but 15, said that the Audit Bureau had never deducted the left-overs.

This means that the Audit Bureau has deducted news agent left-overs from the reports or audits of 15 publishers.

In the case of some publishers, deductions were made three or four years ago. In some cases the deductions were made only in one year and in succeeding years the same publishers were allowed to count the left-overs as paid circulation. In every instance the deductions were made following the complaint of the publisher and the consequent investigation and special audit.

Wichita, Kan., and Sandusky, O., had investigations a few years ago. Both offered deductions but both have been allowed since to report their left-overs as paid circulation and the regular auditors have made no deductions.

In New Orleans, however, an investigation was made more than two years ago. The deductions were made then and have been made each year since. In Houston, Tex. deductions were made on all papers in the year of an investigation and the *Chronicle* reports that it is continuing to have these deductions at the *Post Dispatch* in the same city reports that no deductions are being made from news agent circulation.

In a number of cases I find that papers under the same ownership are working under opposite rules.

Springfield, Ill., papers have been allowed to deduct for unsold copies in the hands of news agents, although the percentage of unsold copies amounted to only 3.1 per cent and the Chicago and St. Louis papers, which circulate in Springfield and its territory have not been penalized.

It is necessary for me to tell something of my own experience to explain the full details of the system. Our sales agents and agents are entirely on a non-returnable basis without exception. Last summer we made a complaint against a competitor. After considerable argument we obtained a special investigation. The investigator substantiated one of our charges and our competitor made a corrected statement, reducing his paid circulation by about 6½ per cent. The investigator called in 53 of our city carrier boys and ascertained that they were carrying a fraction over three extra copies on a route. He counted as extras, however, the copy going to the carrier's own home. His copy and the other two extras were paid for. Our carriers insist on carrying one copy for their home and at least one extra for they can start a new customer and want a paper to give him at once, without having to walk a mile or two to a sub-station. Sometimes in throwing a paper one is spoiled by being torn or dropped in a mud-puddle.

I have mentioned this carrier situation, because I want credit for these extras, because the Bureau has no uniform rule and it is not customary for regular auditors to interview carriers and find out how many extras are being carried. Our papers are charter members of this Bureau. We have been audited for twelve years. This is the first time a carrier has ever called in and questioned. Scores of other publishers and circulation managers report that their carriers are never

These interesting charges of inequalities in the application of Audit Bureau of Circulations procedure to the verification of newspaper circulation were made by E. K. Gaylord, Oklahoma City Oklahoman & Times, before the meeting of the newspaper division during the recent annual convention of the Bureau. The resolutions in which he codified the changes of procedure suggested in his remarks were referred to the Board of Directors. Mr. Gaylord's address is published substantially in full on this page.

We got our jolt, however, when the special auditor visited seven of our suburban towns. He covered these in five days. On his return, he informed our circulation manager he had found some

E. K. Gaylord

left-overs. The manager immediately replied,

"Well, we have a leeway of 5 per cent and the left-overs do not amount to 5 per cent."

"Oh, no," said the auditor, "The 5 per cent margin applies only to news dealers, and agents sales must be net and the left-overs deducted."

We informed him there was no rule of the A. B. C. for such procedure.

He said, "Nevertheless, that's the rule." He returned to Chicago and in due time we received a letter from Mr. Clague advising us that our competitor would file a corrected publisher's statement and that something over 1,200 copies would be deducted from our morning circulation, 1,400 from our Sunday circulation and more than 1,900 from our evening circulation. He did not state why the deductions were to be made. We wrote at once asking him to tell us whether the deductions were to be made in our city, suburban or country circulation and whether on carriers, news dealers or mailing lists, that if we were making wrong records or violating any rules we wanted to know in what way and we wanted a chance to put our circulation on a solid basis.

We received no answer. Two weeks later we wrote again. This time a letter came from Mr. Chandler, chief auditor from which I quote:—

"So far as the outside investigation is concerned, either on your own or the competing papers, would say that according to the standard practice of the Bureau, we cannot give out any detailed information. Neither can we express any opinion as to your intentions in the treatment of distributors."

Not satisfied with the situation, however, I sent our business manager and our circulation manager to Chicago and they had a two days' argument with Mr. Clague and Mr. Chandler, but were persistently and repeatedly refused any in-

formation as to the reason for the deductions. The Bureau maintained that all publishers were making these deductions, excepting ourselves. Our representatives denied this, showed letters from many circulation managers saying they did not make these deductions. The Bureau still denied that that was the case.

The questionnaire proves that other publishers have had to suffer arbitrary deductions without information as to where the deductions were made. Does the Audit Bureau desire to make a Mussolini out of every one of its auditors who shall have autocratic power to fine you as much or as little of your circulation as he may desire?

At the end of the first day's session, our business manager and circulation manager called on Mr. Eisenlord, circulation manager of the *Chicago Daily News*, and asked him if he counted the left-overs in the hands of news agents as paid circulation. He said he did and that the Audit Bureau had never made deductions for them.

The next day they reported to Mr. Clague and Mr. Chandler that Mr. Eisenlord said that he counted his left-overs as paid circulation and Mr. Clague immediately said that that was not true. I leave it to you as to whether Mr. Eisenlord or Mr. Clague knows the most about the circulation department of the *Chicago Daily News*.

It happens that the *Chicago Daily News* is owned by Walter A. Strong, who is the secretary of the Audit Bureau of Circulations and one of the newspaper directors. Marco Morrow is a director of the A. B. C. in the farm paper division. He is also general manager of two newspapers and I have a reply from one of his papers, saying that the Audit Bureau has made no deductions for their left-overs.

A publisher in a city near the million size reports that an auditor once sought to make these deductions on his paper, but he appealed to the Bureau and they decided not to make the deduction. Papers like the *New York Times*, *Kansas City Star*, *San Francisco*, *Philadelphia* and *Pittsburgh* papers state that the Bureau does not make deductions for their left-overs.

I quote from the reply of the *New York Daily News*, answering the question if the A. B. C. had ever made deductions for copies left unsold in the hands of news agents.

"No, because we have no condition where the dealers draw such excess. Frankly, unsold copies in the hands of the dealer is not legitimate circulation and should not be counted as such * * * The Audit Bureau of Circulations has checked up on our country and suburban news dealers on or about the time the annual audit is taken. If they had found any conditions where dealers were actually drawing excess copies for which they had no sale, we believe the Bureau would be within their rights to deduct such excess in arriving at the actual net circulation."

This paper has the largest circulation in America. They have phenomenal news agents in New York City territory or else it was a phenomenal auditor the A. B. C. sent to make a test of their news agents. You would think there would be at least one copy left over out of more than a million circulation each day.

Since our special audit we have kept a card index system and required all news agents and dealers to report weekly or monthly the number of left-overs which

they failed to sell. We find that we shall average about 3 per cent with both news agents and news dealers.

There is no separation in our lists between news agents and news dealers. In fact, we don't know what a news agent is. The rules of the A. B. C. do not mention the word "agent." They define independent carrier and regular carrier and provide that independent carriers shall be listed with dealers, without separating the figures. The word "agent" does not appear in the auditor's report under the heading of either city circulation or suburban circulation. It does appear combined with dealers under the head of country circulation, but they do not define dealers.

If it is wrong to count left-overs in the hands of news agents, but correct to count left-overs in the hands of news dealers so long as they do not exceed 5 per cent, why has not the Bureau required both its auditors and the publisher members to separate the two classes? Why has it not published this hidden rule which has been used for four or five years in selected places and warn all publishers to deduct the left-overs? If it was wrong in 1923 to count the left-overs in Wichita, Kan. or Tampa, Fla., why wasn't it wrong to count them in 1924 or 1925?

Why has the hidden rule never been applied except in cities where some publisher has filed a complaint and a special audit has resulted?

That brings us to the question of regular audits. I claim the regular audits are not thorough. In fact, I claim the Bureau is not in a position to make thorough audits. They haven't enough auditors to make field audits. They check up your office records accurately enough. They test your mail list by sending out letters, but is very rare that they ever test your dealers to see whether they have more than 5 per cent of left-overs and it is exceedingly rare for them to interview carriers and news boys.

The rules require that they shall list all towns where a publisher has more than 25 circulation and that they shall verify this list. The list appears in paragraph 25 of the audit. It is worth while noting that the list is headed "dealers". Nothing is said about agents. Our last regular audit shows a list of 395 towns with 25 or more circulation. These towns have been listed in every audit but the list has never been verified. If an auditor were to cover four towns a day for 90 days, working seven days a week, he would still have thirty-five towns at the end of three months which he had not covered, in just verifying our own list.

It is the custom of the auditor to ask the circulation manager for a galley sheet with this list of towns of the last date covered by the audit. Our annual audit period closes Sept. 30. The auditor always attaches a galley sheet of those towns for that day. If we wanted to add 20 per cent to our suburban dealers orders on that particular day, we would have at least a year's notice that that is the day the auditor will pick for his report and we could show a fat increase in the most important towns.

I have been told of one case where the circulation manager did that very thing and the advertising men for the paper carried around a copy of the audit to show the merchants what a wonderful circulation they had in nearby towns. The list bears all the authority of having been audited, but it is not audited. Most of these special investigations have uncovered excess circulation which probably would have been uncovered by the regular audit, if the regular audit had been thorough.

Many other criticisms could be made of regular audits if circulation managers were consulted.

In the replies to my questionnaire, a

W. T. EVJUE, MADISON EDITOR, ARRESTED UNDER STATE POLITICAL LAW

**Candidate's Campaign Manager Claimed Editorial in Capital
Times Violated Corrupt Practices Act—
Editor Welcomes Trial**

By BRYNNLY A. GRIFFITHS

WILLIAM T. EVJUE, editor of the *Madison (Wis.) Capital Times*, was arrested this week on a warrant sworn out by Harry W. Adams, campaign manager for Charles D. Rosa, independent candidate for U. S. Senate from Wisconsin, charging violation of a section of the corrupt practices act.

The arrest of editor Evjue followed closely upon the heels of an editorial written by him in which he said of Mr. Adams:

"Mr. Adams has been trying to connect with the state pay-roll for six years. When he tried to land the insurance commissioner job in an early Blaine administration the practical Mr. Blaine had thumbs down on Harry. The governor let it be known that he didn't propose to give one of the apples of the patronage list to a man who had supported Lenroot in 1920. It is also pointed out that although Mr. Adams, as the pilot of the Rosa caravan, now issues statements telling how the 'Madison Ring' has besmirched the principles for which Robert M. La Follette stood that Harry was conspicuous by his absence when the old senator spoke in Beloit in the campaign of 1922. Then in 1924 Mr. Adams wound up his 'progressive' career by supporting Coolidge for president."

The above paragraph from editor Evjue's editorial violates section 12.17 of the corrupt practices act, Mr. Adams charged, which provides, "no person, firm or corporation, shall knowingly make or publish, or cause to be published any false statement in relation to any candidate, which statement is intended to or tends to affect any voting at any primary or election."

"Mr. Adams declared, when the warrant for Mr. Evjue's arrest was sworn out that the purpose of the editorial was to 'bring about Judge Charles D. Rosa's defeat for office of United States senator by destroying the standing and alienating the following he has among the Progressive Republicans of the state, many of whom are subscribers to the *Capital Times*, to which they have looked for political information and advice upon which they base their decision."

He further charges that Editor Evjue tried to "alienate this great body of high minded voters from Judge Rosa not by directly attacking his progressivism and his record but, because I am his campaign manager, by attacking my record as a progressive and by destroying my standing with this great body of voters, you destroy his."

Mr. Adams denied that he has been trying to connect with the state pay-roll for six years, as Mr. Evjue stated in his editorial. He declared that his name was connected only once with a state position when he said he was persuaded by friends to accept the office of state insurance commissioner.

"I was at no time anxious for this office," declared Mr. Adams in a statement to Editor Evjue, "and felt more pleased than sorry that I did not receive the appointment from Governor Blaine."

Before the warrant was actually served on the editor, the latter wrote a page one editorial asking Phil La Follette, district attorney, to "issue the warrant." Part of this editorial addressed to Mr. La Follette follows:

"I earnestly request that you comply with Mr. Adams' plea and issue the warrant for my arrest. I believe that a good public purpose will be served by such a proceeding. The subpoena and the sworn oath will then be invoked to ascertain the truth of charges and countercharges in this political campaign."

Coming on the eve of election, Mr. Evjue's arrest created quite a stir

throughout the state and the story was headlined in practically every Wisconsin daily.

When the date of the preliminary hearing is set, it is expected that every important daily in the state will have staff men on the job. The arrest itself is unique in the annals of Wisconsin courts, and it was three days from the time Mr. Adams made his charges to district attorney La Follette to the time the warrants were made out and served.

FEW NEWSPAPER JOBS OPEN IN NEW YORK

**750 Called and Only 11 were Chosen
During Last Six Months by New York
Herald Tribune—Situation Similar in Other Offices**

Job-seekers in New York are finding the positions few and far between in the newspaper news rooms, according to a survey made by EDITOR & PUBLISHER this week. The usual large number, averaging about five a day, are calling on the city editors, and these gentlemen, while having little hope to offer, hesitate in some instances to discourage the ambition of out-of-town newspaper men, realizing that new blood may some day be needed. Consequently the application files are growing bulky.

An index to the general situation may be found at the office of the *New York Herald Tribune*. During the last six months approximately 750 men have applied for news room positions on this paper and only 11 were placed. Of the 11, only one was a replacement. The others found new jobs created because of expansion and reorganization.

The *Herald Tribune* has about 50 applicants on the waiting list. Maybe it means something to have your name, letter, and recommendations on file in a New York newspaper office, but the meaning is rather dubious.

James W. Barrett, city editor of the *New York World*, deplored what he termed was the false notion that New York is the only place in this country where a newspaper man can obtain success, fame and fortune.

"It is too bad there is such a miasma of glory about New York," he commented. "Newspaper men come here in droves with the lure and nothing much else. They refuse to realize they can do just as well in any number of other cities, and in small towns, too, for that matter. Instead, they come here to be caught in this vortex. I for one wish they would move the newspaper mecca further west."

As a rule the World's policy is to engage only tried men and potential reporters are chosen very carefully and only on high recommendation. In the last six months this paper has only taken on four new men.

"We have an active list of about 10 live prospects," Mr. Barrett said. "Most of these are men working on other newspapers now, ready to come over to the World on two-weeks' notice. It is a waste of time for news men to apply at the World office for work. I have hired very few men by the through-the-door method. I know that if an emergency ever arises all we have to do is to put a notice up in the Newspaper Club or some other point of contact, and plenty of men will apply."

The *New York Evening Post* took on quite a large number when it began to expand under the new editorship of Julian S. Mason, formerly of the *New York Herald Tribune*. Of about a dozen

added to the staff, in the last two months, some six have been retained, and Vincent Byers, city editor, said this week there were no more openings.

Mr. Byers is not prejudiced with out-of-town applicants. He believes, and the same belief is held in other offices, that a man is apt to get a better all around reporting experience working in the smaller cities where there is no city news department than just in New York. He has found that many good newspaper men come from cities like Syracuse, Cleveland, Buffalo, and Des Moines.

"The main trouble I have found is that on an average only one out of 15 applicants is a real newspaper man. There are a lot of misfits among the job-seekers. A great number appear to be men who have failed in other lines and want to try their hand at newspaper work."

NEW ORANGES DAILY TO START NOV. 1

**Courier of Oranges and Maplewood,
N. J., Has Backing of Manufacturers—Claim 16,000
Initial Circulation**

The first issue of the *Oranges and Maplewood (N. J.) Daily Courier* will appear on the streets on Monday, Nov. 8. The management claims a guaranteed circulation of 16,000.

The directorate includes such well known manufacturers as Col. Austen Colgate, Charles Edison and Jav R. Munroe. Other directors are Edward C. Balch, Jr., John S. De Hart, Jr., Alfred J. Grosso, Charles C. Huitt, G. Clifford Jones, Harrison M. Lang, Arthur T. Muir, Wilbur Munn, William J. Orchard, Frederic E. Reeve, Oscar Schoenherr, and Peter A. Smith.

G. Clifford Jones, publisher of the *Orange Weekly Courier*, is editor and publisher of the daily. James MacDonald, former Orange editor of the *Newark Evening News*, is associate editor. St. John McClean, former managing editor of the *Staten Island Advance*, is city editor.

The news staff includes Allen T. Smith, East Orange, sports editor; Miss F. Gerardine VanUrk, formerly of the *Brooklyn Eagle*, society editor; Harold Segal, formerly of the *Bronx Home News*, copy desk; John W. MacWilliams, formerly of the *Newark News*, George H. Faulkner, of the *Newburgh (N. Y.) News*, Stephen Dick, of East Orange, and Louis I. Alexander, of South Orange, reporters. Irvin Lester, of Brooklyn, rewrite, and "Bus" McGinnity, of the *New York American*, cartoonist.

Emmett A. Bristor, formerly editor and publisher of the *Passaic Daily Herald*, is business manager of the new daily *Courier*. In the display advertising department are George Keary, formerly of the *Camden (N. J.) Evening Courier*, Fred J. Kilgus, formerly of the *Weekly Courier*, Eugene Tappen, formerly of the *Newark News*, and Anthony Geraci of the *Paterson Evening News*, head of the department.

Carroll H. Shively formerly of the *Cleveland Plain Dealer* is circulation manager.

The new plant has been equipped with modern machinery at a cost of more than \$100,000. The paper has United Press wire service, P. and A. pictures and N. E. A. Features.

JERSEY NEWSPAPER DEAL

Alex L. Moreau has purchased the *Bloomfield (N. J.) Independent Press* from Col. Charles R. Blunt and A. G. Leiss. He is publisher and founder of the *Freehold (N. J.) Transcript*, and in partnership with D. Howard Moreau of the *Flemington (N. J.) Hunterdon County Democrat*. An interesting fact regarding the Moreau chain of papers is that they are located in a triangle and are approximately 50 miles apart. J. B. Shale acted as broker in the Independent Press deal.

N. Y. WORLD GOES ON DRY MAT BASIS

**Width of Rolls Reduced One Inch from
72½—Owens Estimates Resulting
Economies Amount to \$90,-
000 a Year**

The *New York World* on Nov. 1 definitely went on a dry mat basis exclusively. On that date the width of rolls was cut one inch from 72½ inch to 71½.

J. F. Bresnahan, business manager, informed EDITOR & PUBLISHER that the decision to use dry mats exclusively followed two years of experimentation. Dry mats were first tried exclusively for months ago. Now steam tables have been ripped out, and wet mats discarded.

"We have decided that dry mats produce much better printing," L. E. Owens, production manager, said. "We have figured out that the resulting economies will amount in our case to \$90,000 a year."

"Reduction of the roll-width and proportionate reduction in margins was effected until Nov. 1, in order that dry mats might be given a thorough test."

"The period of experimentation is now over and we are entirely satisfied."

IOWA PRESS MEETS

Chicago Daily News Editor a Speaker at U. of Iowa Gathering

Round table discussion of problems which confront editors and publishers occupied the recent two-day session of the Iowa Press Association at the University of Iowa, Iowa City, Ia. The University was selected for the fall meeting of 1927 and business matters were largely relegated to the annual meeting to leave the program clear for shop talk.

J. S. Farquhar, publisher of the *Cedar Rapids Republican*, stressed the market value of a newspaper as very closely associated with the capabilities, versatility and geniality of the active head of a newspaper, in his discussion of "Market Value of a Newspaper." "What would the *Traer Star-Clipper* be worth," Mr. and Mrs. E. E. Taylor or the *Winterset Madisionian* without Smith?" he queried. "To have built up a paid circulation of 3,550 in a town of less than 1,500 population on such a paper as the *Traer Star-Clipper* is an achievement that places the names of Mr. and Mrs. Taylor on the highest pinnacle which it is possible for any newspaper in America to attain," he said.

Congressman Cyrenus Cole, a newspaper man of many years experience, who had first experience under Jav S. Clarkson, former owner of the *Des Moines Register*, paid tribute to Clarkson as the "ideal newspaper writer." "One way to be successful is to stick to a job," Charles H. Dennis, editor of the *Chicago Daily News*, said in conclusion of his speech on "Ten Tests for a Good Newspaper."

Prof. Walter A. Jessup, president of the university, welcomed the newspaper group and W. P. Wortman of the *Moberly Leader* responded. Prof. C. Weller of the school of journalism discussed the "Professional Side" and the luncheon following conclusion of the first morning program H. D. Brees, president of the Chamber of Commerce, presided with Prof. Frederick I. Lazear, speaking on "Our Estimates of One Another." E. F. Tucker, managing director of the association, responded and gave a summary of the organization's activities. Theta Sigma Phi and Sigma Delta Chi, journalistic societies, entertained at a tea in the Memorial Union.

WEEKLY EDITION SUSPENDED

The *Gloversville-Johnstown (N. Y.) Leader-Republican* has discontinued publication of its weekly edition the *Fulton County Republican*. The weekly, which was the oldest in its county, was founded in 1838. It became the property of the *Leader-Republican* 12 years ago in the amalgamation of the *Johnstown Republican* and the *Gloversville Leader*.

CREATING ART FOR NEWSPAPER ADVERTISEMENTS

Plenty of Opportunity for Dramatic Contrasts, Visibility and Brilliant Artistic Effects, Declares Clark, of Street & Finney—Possibilities of Black and White Inexhaustible

By NELSON PHILLIPS

A FEW years ago the most popular illustrator of his day announced through the press that he was off to Europe to have a fling at portrait painting in color. He had, he declared, exhausted the possibilities of black and white. Now he is back in harness again, continuing his inimitable series of black and white cartoons and illustrations.

"I made a mistake," he said. With this brief story, Guy Gaylor Clark, art director of Street & Finney, New York advertising agency, prefaced an interview the writer had with him this week on the subject of creating art for newspaper advertisements.

"That illustrator quickly learned his lesson," Mr. Clark commented. "There is no such thing as exhausting the possibilities of black and white."

"Black and white reproductions as developed in the illustration of newspaper advertising today in line cuts, plates, half-tones and rotogravure, permit the use of almost every media known to the artist, pencil, pen and ink, dry brush, charcoal, wash, oils and photography."

"The art director, creating copy for newspaper advertising campaigns, has at his disposal an infinite number of shapes and sizes to work with. The mechanical limitations are much less severe than those offered by magazine pages. His latitude ranges from the 14-line rate-holder to the full page of 17 by 27 inches."

After this sweeping statement, Mr. Clark launched into an entertaining exposition on how these media and the space latitude were being effectively employed by art directors of American advertising agencies, in making advertisements that attract attention and sell products to the vast multitudes represented by the circulation of this country's daily and weekly press. When he was done the writer left the art director's studio in the office of Street & Finney to read the advertisements in the newspapers with new eyes, noting the many technical refinements introduced by agency men to improve the artistic values of display space.

"Contrast," the magic wand that turns the pumpkin into the golden chariot, "visibility," qualities that furnish lighthouse rays in the blackness of printers ink, and "recognition units," the joining threads that sew together selling ideas, these words, among others, were given a riper meaning. Mr. Clark also raised the photographer to a new high plane in the field of commercial art.

"Pictorial photography as we know it today," he said, "is being recognized as a high form of aesthetic expression, worthy of permanent showing in our art museums. I believe that there is as much conscientious craftsmanship and inspired enthusiasm shown by the men who work behind the ground glass of a camera as by the artist who is painting easel pictures."

"The photographer also contributes toward the selling appeal of advertising art a convincing reality which is so often lacking in the work of a commercial illustrator."

"We recently had an interesting experience with pictorial photography. Using a newsy half-tone picture in our copy, we pulled four times as many inquiries as when we used a dry brush drawing, depicting a very similar subject, executed excellently by a well known commercial artist."

The two advertisements to which Mr. Clark referred were issued recently as part of the newspaper campaign handled by Street & Finney for the Liberty Mutual Insurance Company. The photograph showed the wreck of an automobile being inspected by a uniformed policeman under the gaze of a morbid crowd. It was set in the upper left-

hand corner of a horizontal half-page newspaper advertisement. The text was so set as to give the effect of a newspaper story, with headline and picture caption, and yet without sacrificing the general advertisement atmosphere and the selling appeal. In black forbidding type these words compelled action: "What if this happens to you?"

Guy Gaylor Clark

In the second, and less productive advertisement, the line drawing was exceedingly dramatic, successfully telling a tragic story. A residential street scene was the background. Down the pavement a car was speeding. Directly in its path and before the horrified eyes of the driver a young child had darted running to a ball he had been happily bouncing on the sidewalk behind his parents. The child's father was springing to the rescue. The mother, her hands covering her eyes, was screaming, "My boy! My boy!"

"Of course," Mr. Clark continued, "we cannot determine conclusively why the first copy pulled better than the second, but we have decided it was due chiefly to the photographic illustration. The picture of the wreck was real. The drawing, while beautifully done, was nevertheless fanciful, imaginary. It represented 'story book stuff.'"

Reverting from this practical example of effective art in newspaper copy, Mr. Clark turned to a discussion of more technical consideration, such as how best to obtain visibility on the newspaper page.

"Arthur Brisbane has completely explained the advertising problem when he said that an advertisement to be effective must be seen, read and understood, in order that the article advertised be wanted by somebody," he said.

"It is the art director's job to make sure that the advertisement is seen, otherwise it is of little or no value to the advertiser."

"Visibility is obtained in a technical sense by the use of various contrasts which have a physical attraction to the eye. These may be contrasts of tone value in black and white, uneven space divisions, contrasts of sizes and shapes, and contrasts obtained by emphasizing some point of interest in the copy. Striving for visibility in a large measure accounts for the use of hand-lettered slugs, captions, logotypes, which gain emphasis by contrast with the surrounding body types. It is why illustrations are often put in 'bullseyes,' eccentric photo-holds, frames, borders or vignette shapes. It

is why type panels are frequently set at an angle. It is why advertisers are often willing to pay excessive prices for white space."

"Contrast of tone value is probably the most irresistible to the eye. It creates an unconscious physical attraction drawing human eyes just as the beam from a lighthouse attracts the gull at night."

Mr. Clark pulled a sheet of paper towards him to demonstrate as he continued his discussion of contrasts. He drew three rectangles in a row filling them in with black, then added a black circle, and completed the horizontal line with a fourth black rectangle. He pushed the paper toward the writer.

"On which of these objects do your eyes rest?" he asked.

"The circle."

"Naturally. Because of its contrast with the rectangles. It is an unavoidable psychological fact."

"Now the average newspaper page with its series of column lines is just a series of rectangles. Editors frequently barely avoid giving headaches to their readers by throwing in a picture set in a circular frame."

"Because of the rectangular effects of newspaper text pages it is much easier to obtain contrasts in newspaper advertising than it is in advertisements designed for the magazines. An advertiser to gain contrast must spend extra money for color in the magazines. He has infinite resources and weapons in the case of the newspapers."

"These contrasts naturally vary to conform to the type of message the advertiser wishes to convey. If he wishes to be dramatic, he makes use of sensational angular and jagged lines, or conservative he uses gentle space contrasts. For instance, you might well use jagged lines to scare people into buying insurance, while your copy will be more serene if you wish to make people deposit their money in a bank."

From his desk drawer Mr. Clark drew another advertisement for the Liberty Mutual Insurance Company. Like the one previously discussed the illustration was a photograph. Instead of being set in a conservative frame, however, it was represented as torn jaggedly from the pages of a paper.

"A series which includes a great number of effective contrasts are the Listerine advertisements," he continued. "You will notice that when these advertisements are illustrated by human heads, the heads are very large, so large that they do not fit into the space assigned to them. In contrast to these big heads are the small listerine bottles. Then there is the dark gray of the half-tone contrasting with the lighter gray of the surrounding space."

"Then I am not a little proud of our own series produced for the Cammeyer shoe. The smallest object in these advertisements is the shoe. The visibility is obtained by eccentric borders, and the shoe looms large primarily because of its infinitesimal size."

"One trouble with many advertising agencies is that they are prone to sell advertisements instead of advertising. They seek to develop different advertisements because they are proud of their ability to produce ideas. In this respect they overlook the value of recognition units and the cumulative effect of constant repetition."

"Bud Fisher is sold to his public through 'Mutt and Jeff.' He wouldn't attract nearly so much attention if he turned about and created two new characters. For nine years now we have used the same figure of the man standing on the lower opened drawer to advertise

the Shaw Walker filing cabinets. And think of the number of years Dutch Cleanser has used its lady with the stick. Of course the hunger for something new and different should be appeased. But you can produce something different without sacrificing your recognition units."

"Consider what effective use of small space in the newspapers is being made by Horlick's Malted Milk, which for many years has repeated its black cow. The success of such products as aspirin and Cuticura which have been promoted by repetitious copy is also worthy of consideration. Thus for White House coffee, we have created a portrait of an old man we call 'The Old Connoisseur' and we are using it to link up all our advertising for this product."

Mr. Clark has been with Street & Finney for more than 10 years. He was formerly associated with Calkins & Holden and several other agencies. He was a scholarship student at the New York School of Art. After graduation he spent several years as a painter of stage scenery, before entering the advertising field.

AIDS JOURNALISM SCHOOL

Huntington Gives Valuable Books to New York University

Henry Edwards Huntington, who possibly owns the most valuable private library in the United States, has just given to the School of Journalism at New York University a most remarkable collection of books and pamphlets relating to European journalism, according to an announcement made by James Melvin Lee, the director of the school. This journalism library was assembled by Hans H. Bockwitz, the great German authority on the European press and for many years director of the Buch Museum at Leipzig, Germany. During the World War he was director of the War Press Office in Brussels.

Most of the journalism books in the collection presented by Mr. Huntington deal with the press of Europe and are printed in German, French or Italian. Some of the items are in manuscript form and have never been printed. From the research point of view possibly the most valuable part of the collection may be found in the items dealing with the writing of news letters and the printing of corantos which were the precursors of regular newspapers.

The collection is especially rich in theses on various phases of journalism. These were turned in by graduate students of European universities as part of their work toward the degree of Doctor of Philosophy.

One condition imposed by Dr. Bockwitz was that his collection should not be broken up and should be made available to students interested in the growth and development of the newspaper press.

ATTACKS NORTHCLIFFE SALE

Plaintiff Claims £3,000,000 Damages by Action of Sir George Sutton

An action relating to the disposal of the estate of the late Lord Northcliffe is to be heard in the Chancery Division of the English High Court, Nov. 29, unless the Attorney-General, who is a defendant representing certain charities concerned, intervenes. The action involves the question whether a certain contract for the sale of newspaper shares (forming part of the estate) by Sir George Sutton (administrator of the estate) to Lord Rothemere, brother of the late Lord Northcliffe, and proprietor of the *London Daily Mail* and others, should stand. £3,000,000 damages are claimed by Miss Owen.

DRASTIC DUTY ON U. S. PUBLICATIONS DEMANDED OF CANADA TARIFF BOARD

Publishing Interests Ask Levy of 15c Per Pound on Advertising Matter—Say Canadian Editions Would Result—Board to Report on Arguments Soon

THE application of the Magazine Publishers' Association of Canada for protection against the importation of United States periodicals came before the Advisory Tariff Board at Ottawa on Oct. 28. The case for the publishers was presented by the secretary of the Association, John Atkins. After outlining the arguments in favor of protection, it was suggested that a duty of 15 cents a pound on the advertising appearing in magazines and periodicals coming into Canada by mail, freight or express, without refund of duty on unsold copies, would be the most logical tax, as this was the rate of duty already applied on all other advertising matter. As an alternative, it was suggested that there might be a specific duty of 10 cents per pound on the total weight of all foreign magazines, periodicals and newspapers coming in by mail, freight or express, without refund of duty on unsold copies returned to the country of origin. This, it was said, would be more comprehensive and more easily applied than the duty on advertising alone. Mr. Atkins summed up the probable effects of the imposition of a duty as follows:—

"A probable reduction in the sale of United States publications of from 25 to 50 per cent. Canada would cease to be a circulation prize ring for American publishers and a duty would assist in eliminating the high-pressure circulation sales methods of American publications, whose circulation is frequently based upon the money spent to obtain it rather than the interest of the subscriber.

"Leading American publishers would likely print Canadian editions, specially edited for Canada, in this country, employing Canadian labor and using Canadian raw materials.

"Canadian publishers not now publishing national periodicals would develop this type of publication.

"Canadian authors and artists would have a wider market.

"Canadian publishers would be enabled by circulation increases to maintain their present subscription prices."

The application was opposed by R. J. Deachman, representing the wholesale news dealers of Canada, who characterized it as a deliberate attempt to exploit the Canadian reading public and deprive them of cheap reading matter. He argued that it would be bad policy to tax American publications, pointing out that Canada was now selling to the United States 84 cents' worth of goods for every dollar's worth she bought from the United States. Exports of manufactured goods were never higher than during the past year and Canada was now exporting her products to all parts of the world. He contended that her people could compete with the best and yet magazine publishers were, by their action, instilling into the Canadian public the gospel of fear. He argued that magazine men wanted to have Canada hermetically sealed so that her people could not hear about the products of other countries.

In order to relieve the Canadian publishers it was suggested that all raw materials entering into the manufacture of magazines should be made duty free. Another remedy would be for Canadian manufacturers, instead of putting out general propaganda urging people to buy Made-in-Canada goods, to advertise their products specifically in the daily newspapers and magazines.

The application of the magazine publishers was supported by speakers representing various interests. Colonel J. B. Maclean, president of the Maclean Publishing Company, Toronto, publishers of *Maclean's Magazine* and other periodicals, declared that it was unfair that he should pay \$364,000 per annum in national, provincial and municipal taxes in Canada and

his employees \$250,000, when Cyrus H. K. Curtis of Philadelphia got the full value of the Canadian market and sent his publications through the Canadian mails for nothing and paid no taxes in Canada. He referred to the fact that the Rt. Hon. W. S. Fielding, former Minister of Finance, had once asked him if it did not strike him as being an outrage that Canada admitted advertising in United States magazines free of duty, while imposing a duty of 15 cents a pound on other advertising matter. Colonel Maclean said that he would like to see United States publishers print editions in Canada.

Professor E. E. Prince, president of the Ottawa Branch of Canadian Authors Association, claimed that everything Canadian was minimized in United States magazines and the reader attempting to follow an article got lost amid the maze of advertisements for shaving soaps, pills and soups. Tom Moore, president of the Trade and Labor Congress of Canada, and J. A. P. Haydon, legislative representative of the Typographical Union, supported the application, but made the suggestion that lodge, trade union and fraternal papers which were not commercial magazines to sell advertising, should be exempt, but they agreed that if these publications stepped into the advertising field to any extent their exemptions should be cancelled. They would not go so far as to support a customs revenue on regular daily papers but would include weekly papers with magazine sections.

A. H. Jarvis, Ottawa, past president of the Booksellers' and Stationers' Association of Canada, said that if the Tariff Board could hear what the public was telling the book dealers about three-fifths of the United States magazines, it would be satisfied that a request for tariff was justified.

Mrs. J. A. Wilson, representing the National Council of Women, protested against the entrance of objectionable periodicals, or those which influenced young Canadians to migrate to the United States. Dr. Gordon Bates, secretary of the Canadian Council of Hygiene, urged that something should be done to check

the importation of publications which contained matter injurious to the welfare, moral and physical, of Canadian youth.

Thomas Walsh, representing the Association of Advertising Agencies of Canada, referred to many cases that had occurred where United States advertisers refused to contract for space in Canada because the overflow of the United States publications served them adequately in the Canadian market. C. R. Conquer-good, representing the printing ink manufacturers, and A. C. Batten, representing the Photo-Engravers Association, supported the appeal, as also did Edward Beck, secretary and manager of the Canadian Pulp & Paper Association, who made the following statement with regard to the *Saturday Evening Post*:—

"A copy of the *Saturday Evening Post* weighs one pound twelve ounces. The paper is worth 6 cents a pound, so that the actual cost of the white paper is 10½ cents, and the selling price of the complete magazine is only 5 cents. In a recent issue there were 256 pages containing 151 pages of advertising and 105 pages of reading matter. They charge \$7,500 per page for advertisements, \$9,000 for the inside cover, and \$15,000 for the back cover, for one issue; so that the revenue for one issue would be \$1,152,000. That means more than \$50,000,000 a year. There are 186 firms advertising in this issue, and only 32 of them mention Canada. I understand they have a Canadian circulation of 110,000. Each edition coming to Canada weighs 192,500 pounds, and a tax of 10 cents a pound would yield the Canadian Government \$19,250 per week."

In answer to a question from the chairman, Mr. Atkins, secretary of the Magazine Publishers Association, stated that there were at present being published in Canada 16 English and 4 French magazines. These had a capital investment of \$1,500,000; an annual turnover of \$2,225,000; they employed 1,200 people, their raw materials cost them \$1,100,000 annually and they served 450,000 subscribers.

At the conclusion of the argument, which lasted from 10 a. m. until nearly 5:00 p. m., Rt. Hon. George P. Graham, chairman of the Board, made the following statement:—

"This Board does not undertake to decide large questions of policy. It is a matter for the Government. We want to get at all the facts on every application presented to us. Our duty is confined to marshalling the arguments on both sides for the Minister of Finance. We have no authority to tell the Government how to

arrange the tariff. They are responsible to the people.

"I thought some of you would have pointed to some country that has a tariff on magazines and periodicals, if there are any, but we will delve into the matter and obtain the information for ourselves. You are proposing a tax of 15 cents a pound on the advertising matter contained in American and foreign periodicals. The advertising in the salacious magazines, or what someone referred to as the 'swill literature,' is a mere bagatelle; so the only way you could curb them would be through the censor.

"We will give your arguments our very best consideration, and make our recommendation to the Minister of Finance in due time. Meanwhile, if there are any further arguments on either side, we will give you 30 days to present them in writing."

BUYS COAST WEEKLY

Lowell C. Pratt New Owner of Selma (Cal.) Enterprise

Lowell C. Pratt, for the past three years a member of the editorial staff of the *Pasadena* (Cal.) *Star-News*, has

purchased the *Selma* (Cal.) *Enterprise* and will become the editor and publisher of that weekly newspaper on Nov. 1. The *Enterprise* has been owned for the past six years by Telford Work, who is now director of public relations at the Pacific Palisades. Pratt is a native Californian and began his newspaper career on the *Pomona* (Cal.) *Progress*. For three years he was a student at the Pulitzer School of Journalism at Columbia University, graduating with the class of 1920.

Following graduation from Columbia, he joined the *Springfield* (Mass.) *Republican* as a reporter. In September, 1920, he returned to California to become city editor of the *Pomona Progress*. Three years ago he went to the *Pasadena Star-News*.

The *Selma Enterprise* was established in 1886.

LOWELL C. PRATT

FREE PUBLICITY REPRESENTS HUGE WASTE

The above photograph shows the mass of expensively prepared press agent material which accumulated in the office of the *Bay City* (Mich.) *Times-Tribune* in five months of this year. The *Times-Tribune* has printed this exhibit on postal cards which it forwards to firms which send in free puffs, with the succinct remark: "If you did not see your copy in the paper perhaps you will find it here"

ATTACK AD SLOGAN

"It Pays to Advertise" Not Inclusive Enough, Is Claim

An agreement to discourage the use of the slogan, "It Pays to Advertise," has been made by the members of the direct mail group of the Advertising Club of Kansas City.

"The slogan is not universally true because it does not pay to advertise unless the service and product of the advertiser fulfills the promise of the advertisement," William G. Randall, executive secretary of the club, said.

PHILADELPHIA RECORD ELECTS

Rowe Stewart, general manager of the *Philadelphia Record*, on Nov. 1, was elected president of the company. Thomas P. Walsh was named vice-president, Henry J. Rebman, secretary, and W. H. Morrow, treasurer. Melville F. Ferguson, is editor; Hugh B. Sutherland, associate editor and W. H. H. Neville, advertising

BRITISH ADVERTISING GAINS

Space figures of British morning and evening dailies for the first week in October show that, with the exception of three papers in the coal mining area, every paper in the country has increased its space devoted to advertising over the totals for September. This increase was especially marked in the Manchester papers.

N. Y. AGENCY ART DIRECTORS WELCOME NEW A. N. P. A. MECHANICAL BUREAU

Peirce Johnson, J. Walter Thompson Company, and Directors' Club President, Sees Advance in Rapidly Improving Newspaper Printing—Discusses Ad Censorship Rules

INAUGURATION of the new mechanical department by the American Newspaper Publishers Association was welcomed as a worthy project this week by Peirce Johnson, of the J. Walter Thompson Company, a New York advertising agency. Mr. Johnson is president of the Art Directors Club of New York, an organization of New York advertising agency executives.

"The finest advertising art can be ruined by poor reproduction," Mr. Johnson said in an interview with EDITOR & PUBLISHER, "and any step taken to advance the already rapidly improving newspaper mechanical product is worthy of hearty endorsement."

"I have very little adverse criticism to offer the newspapers, anyway. It is amazing to me, knowing the speed at which the work is necessarily accomplished, that newspapers turn out as good printing work as they do."

"There has been a very noticeable improvement during the last five years in newspaper reproduction."

"I for one have had many old prejudices jolted. Take for instance, the newspaper half-tone. There was a time when this was considered an impossibility on newsprint. A half-tone invariably printed in a dirty, muddy way. So many excellent examples of the use of the half-tone in newspaper advertisements have been published recently, however, that it would be unfair to single out any one for particular comment."

"This improvement in half-tones I attribute to three sources: first, of course, the work of specialists in engraving shops who have worked out new and efficient high-light systems; secondly, improved methods of newspaper printing; and thirdly, the preparation of simpler and more suitable illustrations by the advertising agencies."

Mr. Johnson discussed the increasingly popular principle of newspaper advertising censorship, complaining that in his opinion the standards set up by some newspapers were "too mechanical and often not elastic enough."

"I am sure an effective compromise might be reached which would secure more attractive pages for the newspaper and at the same time make it possible for a larger number of artists with varying technique to draw for the newspaper advertising columns."

"In Joseph Pennell's book on pen draftsmanship, for instance, there are many types of drawing which should be good for reproduction in newspapers, but which are ruled out by the strict censorship rules enforced by the larger dailies. This seems decidedly unfortunate to me."

Mr. Johnson said that art for advertisements to be produced in newspapers should catch the reader's attention quicker than that destined for magazines. The unusual, therefore, he said, is desirable, and the problem of getting enough variety is one which advertising art directors constantly face. Asked to comment on some advertisements which fulfilled this attention gaining requirement and still met the rules enforced by metropolitan dailies, Mr. Johnson particularly stressed the current vogue of smart, modernistic drawing.

As an example, he pointed out the advertisements now being placed in newspapers by the R. J. Reynolds Tobacco Company, promoting Camel cigarettes. He also commented favorably on the work of newspaper cartoonists.

"I don't believe that advertisers are making sufficient use of the technique developed by newspaper cartoonists," he said. "They have developed a style of drawing on rosin board or illustration board that invariably reproduces well on newsprint and which might well influence the work of American advertising artists."

Mr. Johnson has been studying this idea in co-operation with L. E. Owens, production manager of the *New York World*. In his office he has the originals of several cartoons drawn by Rollin Kirby and John Cassel of the *World* staff. He believes that the style of drawing represented by these two artists will play an increasingly important part in the preparation of advertising copy for newspaper campaigns.

"Thin outline drawings are at present the safest style to follow as far as newspaper reproduction is concerned," he continued. "It is used all the time for fashion drawings, where it works out beautifully. But the agency problem is to get variety and not be dependent upon any one technique. Art directors of the leading advertising agencies are working on this problem all the time, and I do not doubt that some day a form of art will be developed which will have variety and which will be particularly suited for reproduction on newsprint."

STAFFS REORGANIZED

Several Shifts in Galveston Following Purchase of Tribune

Several Galveston newspaper personnel changes have followed the purchase of the *Tribune* by the *News*.

Louis C. Elbert, Silas B. Ragsdale and W. R. Roberts, who have been general manager, managing editor and advertising manager, respectively, of the *News*, occupy the same posts for both papers.

G. A. Seel remains as city editor of the *Tribune* under the new management. Changes on the staff of the evening paper included appointment of Robert D. Skinner, formerly marine and later city editor of the *News*, to be telegraph editor of the *Tribune*, succeeding W. R. Beaumier, who returned to the *San Antonio Express* staff. Charles Theis, formerly on the *News* as well as on Cincinnati and Houston papers, succeeded C. G. Adcox Jr., on the *Tribune* staff.

A. L. Perkins, former managing editor and part owner of the *Tribune*, joined the *Houston Press* as Galveston edition editor. Adcox also joined the Galveston bureau of the *Press*. Charles Smith,

EDITOR & PUBLISHER CALENDAR

Nov. 7-13—Children's Book Week.
Nov. 8-10—Assn. of National Advertisers, annual convention, Atlantic City, N. J.
Nov. 9-10—International Advertising Assn., 1st District, annual convention, Worcester, Mass.
Nov. 10-12—American Newspaper Publishers Assn., fall convention, French Lick, Ind.
Nov. 15-16—Advertising Commission meeting, Chicago.

who was in the circulation department of the paper, became Galveston circulation manager of the *Houston Press*.

Thomas Lester, formerly of the Galveston *Tribune* advertising department, has gone with the Automobile Finance Company.

Miss Lillian E. Herz, for eight years reporter on the Galveston *News*, left for a month's stay in Washington, New York and elsewhere in the East.

Stockholders of the Galveston *News*, Inc., have voted to change the name of the corporation to the *News Publishing Company*, which will publish both the *News* and the *Tribune*. Officers of the old company who also will serve the *News* include W. L. Moody, Jr., president; Mr. Elbert, vice-president and general manager; Mr. Ragsdale, secretary-treasurer.

MONITOR MISREPRESENTED

Christian Science Daily Repudiates Dry Circular Distributed in Britain

An unauthorized circular being distributed in the British Isles and misrepresenting the *Christian Science Monitor's* policy on prohibition was exposed and repudiated by the newspaper on Oct. 29. In an editorial on that date the *Monitor* declared:

"The *Monitor* is neither pressing prohibition upon its British readers as an immediate and practical issue, nor does it predict, in the words of the unauthorized circular, 'complete alcoholic prohibition in England by 1930.'"

The false circulars were sent to England by mail from Boston, Mass. They were prepared so as to appear as official statements issued by the paper. The anonymity of the producers was carefully preserved, and investigations are still to be made to determine the source.

MECHANICAL EXPERT ADVISES AGENCIES

John P. Keating, Milwaukee Journal, Says Faulty Mats Are Detracting from the Effectiveness of Advertisements—Urges Co-operation

The exit of the electrotype and the advent of the matrix have added to the problems of both the newspaper and the advertising agencies, John P. Keating, mechanical superintendent and production manager of the *Milwaukee Journal*, declared this week. He urged greater co-operation between the agents and the dailies in selecting matrices.

"Men will spend fifty to a hundred thousand dollars on a single advertising campaign permitting the use of faulty mats which greatly detract from the effectiveness of their advertisements," Mr. Keating said. "Even in a first class mat, some of the detail is lost in recasting, and unless every precaution is exercised to procure a deep, clean matrix, the result will be smutty and shallow."

"We have cases frequently where the depth of the mat is not only inadequate, but inconsistent. Sometimes there is a variation of from fifty to one hundred thousandths of an inch in different portions of the same matrix. Needless to say, the newspaper experiences considerable difficulty in getting a good printed surface from such a mat."

"In the last analysis, it is the newspaper that is responsible for the appearance of the advertisements on its pages. The advertising agency should do its utmost to co-operate with the newspaper, first in the selection of matrices and, second, by insisting on only the best in workmanship and material."

ROGERS NAMED CHAIRMAN

Cleveland Plain Dealer Manager Heads A.B.C. Newspaper Advisory Committee

George M. Rogers, general manager of the *Cleveland Plain Dealer*, was this week appointed chairman of the newspaper advisory committee of the

Audit Bureau of Circulations, succeeding E. Lansing Ray, *St. Louis Globe Democrat*, who was renominated but declined the office.

GEORGE M. ROGERS

Hugh O'Donnell, assistant business manager of the *New York Times*, is the new secretary of the committee. He takes over the position previously held by T. R. Williams, vice-president and assistant publisher of the *Pittsburgh Gazette-Times* and *Chronicle-Telegraph*. Mr. Williams remains a member of the Committee.

Other committee members are: David E. Town, of the Hearst general management, New York, and Gardner Cowles, publisher of the *Des Moines Register-Tribune*.

GIRLS PUBLISH SUBURBAN DAILY

Twenty-five young society girls took over the publishing of the *New Rochelle* (N. Y.) *Standard-Star* Oct. 27. They reported news, solicited advertisements, wrote headlines, editorials, and drew special figures from which cuts were made. They even helped load the newspaper trucks.

64-PAGE ROTO SECTION

The *Wilmington* (Del.) *Every Evening* on Oct. 28 printed a 64-page rotogravure anniversary supplement presenting a compilation of local business and commercial interests. The complete paper ran 88 pages. W. F. Metten is publisher.

NEBRASKA DAILY OPENS NEW PLANT

The new home of the *McCook* (Neb.) *Daily Gazette* (right) is part of the new business center of that city. At the left is a new theater building, while at the right of the daily's plant, and not shown in the picture, is the new Y. M. C. A. building. The motto above the *Gazette's* door reads: "Service is the Rent We Pay for the Space We Occupy in This World." H. D. Strunk is editor and publisher.

NEWSPAPER WOMEN SAY DESK MEN ARE THE REAL "SOB SISTERS"

Latter Insist on Preserving "Patterns" in News Writing, Speakers at Ohio Convention Declare—\$800 in Prize Money Awarded—Miss Smith Named President

(Special to EDITOR & PUBLISHER)
Please, Mr. City Editor, be willing to believe that the bold bad bandit's mother is not always "a weeping withered little old lady."

Please, Mr. City Editor, believe that the woman hauled into jail or on the witness chair is not always "a little woman."

Please, Mr. City Editor, be willing to believe that the wife of a criminal does not ALWAYS say, "whatever he has done, he is still my man."

IN a sprightly, hilarious and sometimes tense and defiant atmosphere, the Ohio Newspaper Women's Association just completed its twenty-sixth annual convention with its business sessions characterized by a spirited appeal for a death of the time and tried, stereotyped and hackneyed "newspaper pattern" story.

The association passed a resolution sponsored by Ruth Neely of the *Cincinnati Post*, former president of the association, and present contest chairman, asking the co-operation of all editors in an attempt of the reporter to write life as it is rather than as the "pattern" says it should be.

Woman writer after writer cited examples of stories which she had painstakingly gathered only to have facts completely distorted by a copy desk which preferred its time-tried pattern phrases to words which fit the case in hand.

The resolution as phrased pledges the woman reporters to an adherence to accuracy, terseness and the style prescribed by the respective papers. In return, it asks editors to give encouragement to the original turn of expression and style even if the traditional "pattern" is not used to cut by.

Miss Allene M. Sumner, feature writer for the NEA Service, opened the discussion with a humorous but poignant dissection of "the newspaper pattern."

Miss Sumner discussed not only "pattern" style but specific "pattern" stories. She ripped to shreds the "poor little girl adoption story" as demanded by city editor after city editor.

"At the same time the city editor is bleating for his 'poor little homeless baby' story," said Miss Sumner, "the facts in the case are that 500 would-be parents are pathetically begging for every stray adoptable child. Local adoptive agencies generally have a list of thousands of people wanting 'a dear little blue-eyed girl.'"

"The best day's joke in all social organizations, and it never grows old, is the morning's call from Mrs. Childless who wants 'a dear little yellow-curl blue-eyed baby girl by lunchtime: We'll have rice pudding especially for her.'"

"And each time the assignment is given, only the same old lead can be truthfully written—'Gone are the days when little girls in checked gingham wait at the orphanage door for a papa and mama. Nowadays it is the papa and mama in sables and diamonds who wait for the ginghamed babies.'"

"But Mr. Editor does not want that lead. He wants to razz the public for petting dogs instead of babies, and he keeps right on fighting for that story, trusting that some enterprising sob writer will find some way of sticking to the pattern, even if truth must be stretched a bit."

Miss Sumner then discussed the bandit's "sobbing little woman."

"The bandit's wife may have left her husband seven long and weary years ago," she said. "But the police boys drag her in someway for the sob sister to write a story about. She comes. She cannot speak English, but the court interpreter sticks with the girl reporter

to the bitter end. He asks the bandit's 'little woman' if she's going to stay by her man for better or worse to the death, and she grins as any good interviewee should and says, 'ja, me no like.'

"The bandit's wife may weigh 383 pounds, have 11 chins, 6 stomachs, and five sets of hips. But the experienced sob writer takes her pen in hand to write—'Little Mrs. Cheesit, the notorious bandit's wife, appeared in court this morning, 'just to be with my man, he needs me so,' she told reporters who came to the little woman stooped in the big court chair, her tiny figure pathetic in its big shabby coat, a token of happier days.'

"The 'little woman' pattern must be adhered to," said Miss Sumner, "even if the 'weeping bandit's mother' pattern goes by the board."

"We feature writers soon learn how to treat the massive sisterhood when 'caught in the relentless black maw of this thing called The Law.'

"E'en if their laugh bellows forth like the voice of Taurus on a rampage, we have them 'soft-voiced little women.' Even if their step reverberates like an army tank or the football of a mastodon of old, no poet writing odes to 'Spring coming with gentle tread over the dewy violets,' can beat our journalistic description of 'the little woman's' courtroom entrance on 'gentle feet.'

"No, the Amazon who prides herself on her junoque arms hefty enough to 'fell any guy wot gets fresh wit me,' finds herself on page one, transformed by the alchemy of the experienced sob writer's words into 'a timid little woman, smiling sweetly and talking softly to the minions of this thing called The Law.'

The next "pattern" target was "the gray-haired mother." Then the pattern of "mother love."

"Not one of us reporters can deny," said Miss Sumner, "that we have met many more mothers of notorious criminals who are the very reason why their progeny were criminals than the whistler mother type of woman who is the model for every newspaper story about a mother, regardless of her kind."

"Not one of us denies that this much-discussed 'mother love' turns out to be pretty shoddy stuff more frequently than it is the stuff that poems are made of. But if we write the truth, nine times out of 10, the copy desk makes the worst mother in the world, a sweet, tender, sacrificing, all loving female creature, so what's the use?"

"And this other 'pattern'—deep within every woman's heart, no matter how low she may be, beats the desire to be good and pure!"

"Oh the harlots and dope fiends and murderesses with whom we talk—all vile as putrefaction. But oh the tragic pawns of fate we picture them! The rosy, glowing buds of womanhood they might have been if but given a chance!"

"This cutting the newspaper garment to fit the moth-eaten pattern is no provincial affair," said Miss Sumner, "it is not Cleveland or Kalamazoo or New York or Ypsilanti. It is not an Associated Press nor an United Press pattern."

"Sometimes I wonder if we reporters are not ourselves to blame. We are the outside workers. We see life as it is. We know that the old pattern is not today's style. But we aim to please. We have learned this inside formula, and we are afraid to hew from the beaten path."

"I believe we're all wrong. I believe that if we had more courage and dared to 'strut our stuff,' we could make new patterns which the inside man would gladly cut by. We reporters must dare

NEW K. C. STAR M. E.

George B. Longan, who succeeded the late Ralph Stout as managing editor of the *Kansas City Star*. Mr. Longan is a veteran with 26 years' service on the *Star*, and was assistant managing editor under Mr. Stout for many years.

to use the new pattern if the American press mirrors life in the making instead of life lived in the tomb."

Nearly \$800 in prize money was awarded newspaper women at this convention. Half of this was the gift of Akron businessmen and newspapers. The other half was money donated directly to the contest chairman of the O. N. W. A. for prize awards. The *Cleveland Plain Dealer* awarded \$150 in prize money.

The largest single prize of \$100, donated by the *Akron Beacon-Journal* for the best unpublished editorial written by a member of the association, was won by Mrs. Grace Brown, free lance magazine writer of Akron, O. Her editorial titled "We Gullible Americans," spanked the American habit of copying anything and everything foreign while scoffing at home-made fashion and other precedents. Mrs. Brown won a second prize of \$25 for the best magazine story.

Miss Allene Sumner, NEA feature writer, scooped in number of prizes won. Miss Sumner won four prizes totaling \$100, and two honorable mentions. She won the \$25 prize for the best editorial on "Newspapers and Civic Responsibility," another \$25 prize for the best editorial on "Common Sense in Shopping," another \$25 for the best child news story, a fourth \$25 for the best story in a non-daily paper, and honorable mention for the best column and best news story featuring the achievement of women.

Miss Sumner was barred from entering the news or humorous classes because she won first prizes in these groups at the 1925 convention. Mrs. Ruth Neely France announced that Miss Sumner's entries in the human interest class were not considered, as the judges felt her position with a syndicate gave her better opportunities to get good material.

Miss Margaret Daney of the *Toledo Blade* won the \$50 prize for the best news story in a paper with circulation over 50,000.

Miss Florence Smith of the *Portsmouth Times* won the \$50 prize for the best news story in a paper with a circulation under 50,000.

Josephine Van der Grift Rigby won the \$25 award for the best human interest feature.

George Elliston of the *Cincinnati Times-Star* won the prize of \$25 for the best social column in a week day paper.

Helen Welsheimer of the *Canton Daily News* won \$25 for the best column.

Mrs. Ethel B. Myers of the *Akron Beacon-Journal* won a \$50 box of tackle for an article on "Why I Like to Fish."

Jeannette Glick, *Toledo Times*, \$25 for best musical criticism.

Carrie M. Locke, *Mansfield News*, \$25 for best book review.

Alma De Armond, *Cincinnati Enquirer*, \$25 for best article on home economics; Jean James, *Columbus Dispatch*, \$25 for best make-up and most attractive woman's page.

Flora Ward Hinline, *Toledo Times*, \$25 for best animal story.

Esther Hamilton, *Youngstown Telegram*, \$25 for best article covering subject of the modern newspaper's feature service to the public.

Frances Faulkner, *Cincinnati Times-Star*, and Ruth Peiter, *Toledo Times*, tied for \$25 award on feature story treating of achievement of women.

Carol Brown, *Cincinnati Enquirer*, \$25 for best humorous story.

Helen Welsheimer, *Canton Daily News*, \$10 for best newspaper poem.

Isabelle Toppin, *Toledo Sun*, \$10 for best story on the association's 1925 convention.

Anne Gellenbeck, *Cincinnati Post*, \$10 for best publicity story.

Miss Eleanor Freeland, free lance writer of Pittsburgh, won a prize of \$50 for the best public service rendered through newspaper columns. Miss Freeland co-operated with the *Pittsburgh Press* in a "Beautify Pittsburgh" campaign which had very definite results.

President George F. Zook of Akron University spoke at the opening dinner on the newspaper's conception of education and the educational world's idea of newspapers.

He declared that the editorial page no longer had much or any influence. He said that he advocated a definite newspaper platform on the part of every paper, just as political men had their platforms, this policy to be printed in each and every edition, and all content of the paper working to the eventual achievement of that platform.

William Vorpe, Sunday and feature editor of the *Cleveland Plain Dealer*, talked on "Sex Appeal and the Newspapers," and denied that sex fiction of the lower type was necessary for stable circulation. He cited the *New York Times*, *Kansas City Star* and other papers as examples of great papers which refused to "get in on the modern vogue for 'sexy' fiction."

The convention will meet in Toledo O. next year. Grove Patterson of the *Toledo Blade* has offered \$500 for entertainment expenses.

The officers of the O. N. W. A. are: Miss Pauline Smith, *Columbus Citizen*, president; Mrs. Carlotta Price Sher, *Bellefontaine Examiner*, vice-president; Miss Mildred Cronley, *Sidney News*, treasurer; Miss Carrie Einsenmenger, *Franklin Examiner*, secretary; Miss Florence Smith, *Portsmouth Times*, and Miss Allene Sumner, NEA Service, directors.

DAILY ELECTS NEW OFFICERS

Mrs. Flora D. Salmon and Dr. Russell O. Salmon have been elected directors of the Tri-States Publishing Company, Inc., publishers of the *Port Jervis* (N. Y.) *Union-Gazette*, succeeding the late Fred R. Salmon, who died Oct. 21. The directors elected the following officers: Fred D. Salmon, president and treasurer; Mrs. Flora D. Salmon, vice-president; and William O. Cooley, secretary.

WOMEN WRITERS TO MEET

The Women's Intercollegiate Press Association, composed of editors and workers on college publications, will hold a convention, Nov. 12-13, at Vassar College, Poughkeepsie, N. Y. Miss Charlotte Kempner, of the *Vassar Miscellany*, is secretary of the group. Several prominent newspaper men will speak.

INJURED NEWS MEN RECOVERING

Percy Wood, a staff reporter for the *Chicago Tribune*, and Murrell Tinsley, photographer, who were injured when their plane, flying through the night toward Chicago with the first pictures of the Florida hurricane, suddenly were "dead" and crashed to the ground, showing marked improvement at a hospital in Indianapolis, Ind., Wood's pelvis bone was broken, and Tinsley suffered cracked ribs.

Substantiating Proof

of Detroit News Effectiveness As Detroit's Radio Medium

*Prints More Than Twice as Much Radio Show Advertising
as Both Other Detroit Papers Together*

Detroit Radio Show Advertising

NEWS	43,106 lines
2nd Medium	13,174 lines
3rd Medium	6,482 lines

In the annual Radio Show Number of The Detroit News, published Sunday, October 24, the effectiveness of the thorough coverage of The News and its acceptance as the radio medium of this territory was again substantiated. The News printed 43,106 lines of radio advertising in this one issue; the second medium printed 13,174 lines, and the third 6,482 lines. The News thus carried more than twice as much radio advertising as both other Detroit newspapers together.

This signal achievement is not an isolated case, but a continuation of the leadership of The News in this field of advertising from the beginning! The fact that The Detroit News pioneered radio broadcasting in America has been one factor in its leadership; the big factor, however, is The News' coverage of practically every English speaking home in its field.

NEWSPAPER MAKERS AT WORK

NEWSPAPER owner, publisher and editor at 17 gave George M. Dimond a start toward a journalistic career, which made him city editor of the *Boston Globe* recently, the paper he has been identified with for 42 years, the greater part of the time as assistant city editor.

George M. Dimond

In recognition of his advancement he was the honor guest Oct. 28, at a banquet at Young's Hotel attended by about 125 men and women, nearly all of whom are identified with the editorial department of the *Globe*. A. J. Philpot, as toastmaster, first paid a tribute to him, and then called upon others to do so.

It was a remarkable gathering because all of the men—including the toastmaster—who are asked to speak, Charles H. Taylor, treasurer; Arthur A. Fowle, retired managing editor; William D. Sullivan, managing editor; James Morgan, editorial writer; Harry Poor, night editor; George Gavin, day editor; Daniel Ahern, cashier; Frank Sibley, reporter; T. J. Collins, District reporter; Harry Hartley, military editor; all have served in those capacities on the *Boston Globe*, with Mr. Dimond, from 35 to 50 years. It is doubtful if there is any paper in the country where so many men have held the responsible positions in the editorial department for such long periods. After hearing all the nice things said about himself Mr. Dimond was presented with a substantial purse of gold.

Mr. Dimond has had an interesting career. Born in Grafton, Vt., he went to the public schools in Rockingham and Vermont Academy at Saxton's River. It was as a school boy of 15 that he first developed a "nose for news." For family perusal he began issuing a small 4-page weekly, printed by hand, containing local items and rewritten general items culled from Vermont and Boston papers. It had an editorial, too, each issue. About that time a clergyman in the town started a paper called the *People's Monthly*, an eight page paper. He had seen Dimond's small paper and offered him the job of associate editor of the new publication. Associate Editor Dimond found that the job meant doing much of the work—writing the news, getting subscriptions advertising, etc. After some months the minister suggested that he would like to sell, so Mr. Dimond took over the paper with its obligations and became a real bonafide publisher while in his teens and going to college. He hustled around and built it up so that there was enough profit in it to help him get his education.

After that Mr. Dimond looked for a larger field. He had started to learn the printing trade on the *Bellows Falls Times*, and hearing of an opening on the *Palmer (Mass.) Journal*, he went there and entered the composing room.

It was the news end, however, that appealed to him, as he saw a bigger future

in it and he became the correspondent in that district for the *Springfield Republican*, *Boston Globe* and the *Associated Press* in 1884. A year later reading an advertisement where an editor was wanted in Boston he answered it and was offered the job on the *Boston Commonwealth*, a weekly, at \$5 per week with a promise of a raise. He decided to try it. Putting a substitute on his district, with the consent of the papers, he tackled the job and after a month was getting \$12 a week. That was in 1885. It gave him an insight into Boston newspapers and in 1886 he went over to the *Globe* on the city staff. He became assistant to W. D. Sullivan, now managing editor, when Sullivan was named city editor.

That was 35 years ago. His record as assistant city editor is longer than that of any other man occupying a similar position in Boston, if not in the east, it is believed.

Mr. Dimond's early training gathering local news was valuable to him in *Globe* work because the late Gen. Taylor instilled in the minds of *Globe* men that the paper's policy was based upon covering every happening and nothing was too small to be overlooked. There came along, with the passing years, many big events and Mr. Dimond had his share in handling them. When William D. Sullivan was promoted to be managing editor a few weeks ago Mr. Dimond was made city editor.

His activities have not been confined solely to newspaper work. Many years ago Mr. Dimond moved out to the Town of Bedford. He was elected a selectman in 1904, holding the office until 1911.

The town had no water system and a water shortage threatened. Mr. Dimond, as a town official, but with the big tax payers opposing him, took upon himself the task of obtaining an adequate public water supply. He hired an engineer at his own expense to help him in preliminary work, secured legislation necessary to finance the project and then went ahead, under vote of the town, and constructed a water system, which is regarded as a model among town systems in Massachusetts. For 18 years he has managed the water works and he still holds the position of chairman of the Board of Water Commissioners, having been elected for six three year terms.

Some time ago officials of the Boston & Maine railroad in a policy of economy decided that train service on the Lexington Branch was being operated at a loss and there came the news that it was to be cut. Mr. Dimond took up the cudgels for the town and later as chairman of the Lexington Branch Protective Committee, made up of officials of the Town of Bedford, Billerica, Lexington and Arlington and the City of Cambridge, and backed by a fund of nearly \$4,000, directed the fight before the Massachusetts Public Utilities Commission and obtained a halt in the railroad plans.

Finally he proposed, for the committee, a new train schedule which would wipe out the losses the railroad claimed it suffered. This schedule the railroad agreed to and it is now in effect, giving satisfactory service to the historic communities through which the Lexington Branch runs.

Mr. Dimond himself does not claim credit for those things, because he is too modest, but those who know him in his home town and others in the *Globe* office know what he had accomplished. His wide acquaintance and experience in focusing attention upon things has enabled him to do an efficient job as a citizen as well as for the *Boston Globe*.

CORRECTION

In the issue of Oct. 16, EDITOR & PUBLISHER listed H. C. Milholland as one of several employees of the *Associated Press* retired on halfpay. The name should have been spelled Milhollen, and should not be confused with H. C. Milholland, vice-president and advertising manager of the *Pittsburgh Press*.

200 ENTER AD BUREAU PRIZE CONTEST

More Than 3,000 Circulars Have Been Issued by A. N. P. A. Subsidiary in Campaign to Promote Better Advertising Boosting Newspapers

Nearly 200 advertisements have so far been entered in the prize contest being conducted by the Bureau of Advertising of the American Newspaper Publishers Association in an effort to find the best copy to promote newspaper advertising. A first prize of \$300 is offered, with a second of \$150, and a third of \$50. The contest closes Nov. 30.

Several newspapers are co-operating by holding local contests. The *Washington (D. C.) Star* and the *Dallas (Tex.) News* are offering additional prizes.

An indication of the interest being taken in the affair may be seen in the fact that the Bureau has sent out more than 3,000 circulars explaining the contest answering requests for information.

The circulars contain the following suggestions to contestants:

"It may help contestants to know that the daily newspaper is the largest and most powerful national advertising medium."

"Manufacturers and distributors expended more than \$220,000,000 in newspaper national advertising alone last year."

"Some of the salient points that make the newspaper a great national advertising

medium are emphasized in the 'Eight Reasons for Newspaper Advertising' which the Bureau of Advertising issued several years ago:

"Newspaper reading is a universal daily habit; newspaper advertising therefore reaches each day virtually all who buy. "Newspaper advertising is the life blood of local trade because it touches a consumer sources in every community. It gives the national advertiser the same opportunity for complete consumer appeal in any locality."

"Newspaper advertising cuts selling costs because it entails no waste in quality of circulation. Manufacturers use it to cover markets where it is profitable to do business."

"Newspaper advertising insures quick thorough and economical dealer distribution and dealer good will, because retailers are willing to sell products advertised direct to their own customers."

"Newspaper advertising enables manufacturers to tell where their products may be bought."

"Newspaper advertising can be started or stopped overnight, can be prepared between days to meet sudden developments and to obtain immediate results."

"Newspaper advertising enables manufacturers to check advertising results and costs in every market which they enter."

"Newspaper advertising costs less than any other kind."

PUBLICITY JOURNAL LAUNCHED

"Between the Lines," a quarterly for publicity workers has just been issued in Denver by Warren E. Boyer.

Where Growth Outstrips Plans

The Bell Telephone Co. is always optimistic. So in 1910 ambitious plans were made, first represented by a six-story building designed to house all business of southeastern Bell territory and that of the Western Union Telegraph Co.

At the same time the Jacksonville telephone system was laid out for 20 years in the future!

Before 1920 that plan was scrapped—even Bell optimism had not forecast actual growth. Expansion necessities quickly over-crowded the original building, and the company now rents several buildings outside and operates a large branch exchange.

It is difficult to over-build in Jacksonville.

Similarly is it difficult to over-build business. A big, sure market already exists for the manufacturer or distributor who grips that market through

JACKSONVILLE, FLA.

CONFIDENCE

PROBABLY no newspaper has ever had the confidence of its readers in its news and advertising columns as fully as The New York Times. Certainly no other newspaper has had the confidence of so large a number of intelligent, thinking people.

Confidence in The Times advertising columns has been gained by a censorship which excludes, so far as unremitting watchfulness and careful investigation can, whatever is fraudulent, misleading and objectionable.

The Times censorship rules out hundreds of thousands of lines of advertising annually, and gives an added value to those accepted. Confidence begets response.

The quality of the advertising accepted by The Times makes even more notable the unequalled volume of 24,829,004 lines in ten months of 1926, a new record for New York City newspapers, a gain by The Times of 2,016,492 lines over the corresponding period of last year, and an excess over the second newspaper of 9,252,968 lines.

To have obtained and kept the confidence of readers of the highest intelligence is the achievement of The Times. Net paid sale, average daily and Sunday, 391,465 copies.

The New York Times

20,000 ATTEND CLEVELAND PLAIN DEALER'S HOME-MAKER'S

THE third annual Home Makers' School, sponsored by the *Cleveland Plain Dealer* was brought to a successful conclusion Friday evening, Oct. 15, after four instructive sessions, under the direction of Jessie M. DeBoth. More than 20,000 women attended these sessions, and learned about the newest recipes and home economics. Closely co-operating with the Plain Dealer were many of

Cleveland's most prominent club women.

Advertisers, both local and national, also tied up with the Home Makers' School in donating valuable household awards, and running over 60,000 lines of advertising during that week. The above picture shows the people that crowded Cleveland's public auditorium for the last session.

A feature of this year's show was a

playlet presented by the school children entitled "From Danger Valley to Safety Hill," under the direction of Harper Garcia Smyth. The children represented food products essential to a child's health and growth.

Entertainment consisted of community singing, an orchestra dressed as chefs and the great pipe organ played by Vincent H. Percy, Cleveland organist.

"FRIENDLY DEAD LINE" PLAN DEVELOPED

Broughton, Sheboygan Press, Believes His System of "Imaginary Time Limit" Pleases Both Local and National Advertisers

C. E. Broughton, editor of the *Sheboygan* (Wis.) *Press*, has developed what he calls a "friendly deadline," which is pleasing both national and local advertisers and is reducing overtime in the ad alley. He told members of the *Inland Daily Press* about it at their Chicago meeting last week.

"There are two principles on which we work to get practically all copy in the office the day before insertion," he declared.

"1. A better set-up and ample time to make corrections.

"2. Better position. All ads that are in the day before publication are given preferred position in the dummy which is closed at 6 p. m.

"The results of this mutually beneficial plan testify to its practicability—15 per cent of all ordinary copy is in by 1:30 p. m. the day before insertion; 40 per cent by 3 p. m.; 60 per cent by 4 p. m.; 90 per cent by 4:30 p. m.; 95 per cent by 5:30 p. m.

"That leaves only an average of five per cent of all copy to come in on the morning of the day of publication. The average amount of copy accepted in the morning is 40 inches. Only in rare instances have we accepted as much as 100 inches.

"Any deadline arrangement, we have learned, must be so flexible that it will promote the best interests of both the newspaper and the advertiser. Some days the volume of advertising is so heavy that we cannot accept an inch of copy after 5:30 p. m. the day before publication. On other days business is comparatively light, permitting us to handle profitably a half-page ad as late as 10:30 a. m. on the day of insertion.

"We continue to accept advertising copy until the paper is filled and the composing room is congested. We have found that a certain amount of crowding in the composing room is a good tonic for the efficiency of that department.

"Perhaps the most substantial benefit for the newspaper from our 'get-the-copy-early' plan is that overtime in the ad alley has been reduced to an average of 2 hours per week (1 hour on Wednesday

and 1 hour on Thursday), and overtime on the linotypes for advertising copy has been cut to an average of 3 hours per week.

"While we have been setting our house in order locally with the advertisers, it has not been without advantages to the national advertisers as well. All orders, copy and plates for national advertising should be in our possession on the afternoon of the day preceding insertion. If, however, occasionally a plate or mat is late in reaching our office, but the order and complete instructions have been received, that particular ad is scheduled to appear and the space required is reserved on the dummy. Then, in the morning when the necessary material is received, it is given its designated place without any inconvenience.

"Each day a specially arranged schedule sheet containing a list of all of the national ads, position requirements and sizes is compiled for the following day. This list is then used to gather all copy, inserts such as dealers' names, etc., and plates; which are kept in a separate room and entirely apart from the composing room.

"Immediately after all forms have been run through and the paper has gone to press, work in the composing room is started on national advertising for the next day. The necessary make-ready such as placing bases under plates; setting up and inserting local dealers' names, addresses and phone numbers, and setting medical copy, is begun. This eliminates

any waste of time in the ad alley and composing room until such time when the bulk of the local copy reaches the office.

"It also divides up the work so that the mornings are not such 'rush' periods. All this being taken care of the day before, and with a daily dummy showing exact positions of both local and national ads, it is an easy matter for the make-up

man to place the advertising the first thing in the morning.

"We do not pretend to have a system better than other newspapers, but we do say that our insisting upon an imaginary 'deadline' and following this up with a human touch with our advertisers has won most pleasant relations and has solved to a large degree the problem that cost us sums in overtime previous to its installation."

TRADE EDITORS TO MEET

Business Papers Will Hold National Conference in New York, Nov. 9-10

National prosperity's challenge to the business press will be the theme of the annual meeting of the National Conference of Business Paper Editors to be held at the Hotel Astor, New York, Nov. 9-10.

Speakers will include: A. W. Shaw, A. W. Shaw Company; E. H. Mehren, McGraw Hill Company; J. C. Aspley, Sales Management; Morris Buck, *Electric Railway Journal*; C. J. Stark, *Iron Trade Review*; N. C. Rockwood, Rock Products; A. I. Findley, *Iron Age*; Chapin Hoskins, Factory; V. E. Carroll, *Textile World*; A. R. Macdonald, *System*; V. B. Guthrie, *National Petroleum News*; and Kenneth Condit, *American Machinist*.

Gerard Swope, president of the General Electric Company, will be the principal speaker at the joint banquet to be held with the Associated Business Papers, Nov. 10.

BEAMISH GETS STATE POST

Richard J. Beamish, Philadelphia newspaper man, has been appointed a member of the Public Service Commission of Pennsylvania by Governor Pinchot. Mr. Beamish is one of the leading political writers of the state and is a member of the staff of the *Philadelphia Inquirer*.

The INDIANAPOLIS

For 16 consecutive months
The Indianapolis News
has broken all previous national
linage records, month for
month. A gain like this, on top
of a volume that has always
been one of the largest in

WRITER WHO SCORED MUSSOLINI COMING

George Slocombe, London Herald's Paris Correspondent, to Visit U. S. for First Time and Write Impressions for His Paper

By G. LANGELAAN
(Paris Correspondent, EDITOR & PUBLISHER)

George Slocombe, Paris correspondent of the *London Daily Herald*, one of the best known foreign correspondents in France, is about to make his first visit to the United States, and thus gratify a long-standing desire.

Most Americans go to Europe to visit the homes of their ancestors, but Mr. Slocombe will reverse the process when he lands in the United States, for he means to visit the home of his grandfather, a hardy man from Devon who sailed for America in a wooden sailing ship and settled in Pennsylvania and was the pioneer in the trade of shipping live cattle to the Old World.

Mr. Slocombe is a familiar figure in the literary and art circles of Paris. He comes from the West Country of England, whence so many world wanderers have come. Big and powerfully built, he has a ruddy complexion, blue eyes, a shock of red hair above a high forehead and wears a beard. His face is determined and yet gentle. His look is a challenge, and in that we have the key to his writing. He takes nothing for granted and insists on going behind the formulas and labels which have often too easily satisfied others. His style is incisive, his pictures vivid, and his portraits of the great people of the earth more etchings than fine pencil drawings, for there is fearless acid in his treatment. His interviews with Mussolini at Locarno was the most widely quoted of recent years and extensively reproduced in both North and South America. It did not meet with the approval of his illustrious subject, and Mr. Slocombe has been given to understand that no welcome awaits him in sunny Italy.

Seven years residence in Paris has given Mr. Slocombe a wonderful insight into the political situation in France in particular and Europe in general. Although steeped in French life, he has never lost his position of complete detachment as a spectator. He is at present engaged on a novel reflecting the spirit of today. As a writer, he has the distinction of having written the first history of Poland in English for sixty years.

"I am going to the United States," said

Mr. Slocombe, "to satisfy a keen curiosity. I count many Americans among my friends, both in France and England and in the United States, and I am fascinated by this nation of a hundred million souls spread across a continent. I want to see for myself, as I have seen Central Europe, the Balkans and Russia. It is more the political and social life of America that I wish to study and describe."

Mr. Slocombe will spend a month in the United States, most of the time in New York, but he is going to Washington to see President Coolidge, and will also visit Philadelphia, Detroit, Boston and Chicago. His visit to America will form the subject of a number of contributions to the English press, and while in the United States Mr. Slocombe will complete arrangements for a more extensive publication of his work there.

GEORGE SLOCOMBE

PREPARING FOR FROLIC

Anglo-American Press Club to Hold Annual Banquet Dec. 6

Plans are practically complete for the big Anglo-American Press Club Banquet which is to be held Dec. 6 at the Hotel Claridge, Paris.

The banquet is one of the biggest social events of the year for the American colony in Paris, and draws many prominent guests from outside the ranks of newspaperdom.

According to present arrangements, the festivities will start about 10 o'clock. Members of the local newspapers, including the staffs of the *Paris Herald*, European edition of the *New York Herald Tribune*, the *Chicago Tribune*, and also of the European edition of the *London Daily Mail*, will not join in the activities until later in the evening after their respective papers have gone to press. Deadlines on these papers will be shoved up materially, however, and members of the staffs will be able to get to the Claridge shortly after midnight.

The affair opens with an elaborate dinner, the service of which will require several hours, and afterwards there will be an elaborate entertainment by members of the casts at the local shows and revues.

ROYAL HITS TRADE BODY.

Baking Powder Charges Unlawful Acts in Court Writ

Officials of the Royal Baking Powder Company in New York this week confirmed the announcement made in Washington that the Supreme Court in Washington had issued an order requiring the Federal Trade Commission to produce in court the full record of its case against the Royal Company.

The writ charges "irregular, improper and unlawful acts" in the prosecution of the commission's action against Royal. It is expected to stop further proceedings by the commission pending a judicial review of the trade body's procedure.

BEDLAM IN AIR HITS RADIO CIRCULATION

Capt. R. S. Wood, Expert, Reports Commercial Broadcasting Stations Are Not Keeping "Gentleman's Agreement"

Despite the so-called "gentleman's agreement" and pledges of broadcasters to maintain order at all costs, chaotic conditions in the air are increasing, damaging the circulation claims of commercial stations, who are selling air space to national and local advertisers.

"The result of wave jumping in the New York territory has already resulted in a chaotic condition that makes it possible to listen to only one or two stations without cross talk and interference with some other local station," Capt. R. S. Wood, radio expert, declared in the *New York Evening World*, recently.

"In addition to not standing by their pledge to the Government in the absence of a recognized authority, the local stations have become careless about being exactly on their wave lengths, and with very few exceptions are not making any effort to stay on their elected frequencies within several kilocycles.

"This condition is not confined to this district alone, but exists in practically every radio centre in the United States, with the general result that radio is on the verge of strangling itself and public interest in the science—in addition to which it threatens the prosperity of one of our major industries.

"Contrary to the expressions of Paul Klugh, executive chairman of the National Association of Broadcasters, chaos does exist and is growing like wild-fire, and confirms Herbert Hoover's prognostication of some six months ago that radio was in for a stormy session. Aside from worthless assurances from the broadcasters' association that conflict does not and cannot exist that are fooling no one, the organization has done nothing to insure the tranquillity of the air by a rigid

enforcement of the agreement that was supposed to exist in the broadcasting fraternity when it became evident that radio was without governmental protection.

"Here within the past week a station, WLWL to be explicit, which a short time ago was reported to have joined the ranks of the commercial stations and joined with one of the New England stations of the broadcasters' association, arbitrarily jumped its wave lengths from 283 metres to 384 metres, where in their present location they interfere with WRNY, an earlier 'jumper,' WGY and WHAZ, three local stations, to say nothing of eliminating the stations in Chicago, Cleveland, Philadelphia and Louisville that were regularly heard in this district before the move was made. We cite this station because it is the most recent one to abandon its wave length to the detriment of other broadcasters, both local and distant.

"The same thing applies to every one of the other stations that has changed recently. None is excepted.

"If this is keeping faith with the American public and the Government according to the 'gentleman's agreement,' then we do not understand the meaning of either gentlemen or agreement."

LONDON POST EXPANDS

Morning Paper's Owners Acquire Argus Press, Ltd., and Financial News

The *London Morning Post* which a few months ago reduced its price from twopence to one penny, has acquired a large interest in a new company that has taken over the controlling interest in the *Financial News* (a daily devoted to Stock Exchange and similar information) and the *Argus Press, Ltd.*, which prints the *Financial News* and several other journals and is one of the largest printing plants in London.

This acquisition has been made in conjunction with the former owners of the properties, and the arrangement will extend the mechanical facilities of the *Morning Post*.

COLONIAL STYLE FEATURED IN NEW PLANT OF WATERBURY REPUBLICAN AND AMERICAN

New Waterbury Republican and American plant

The Waterbury (Conn.) Republican and American are now housed in a new plant, believed to be the proper model for cities of its size. William J. Pape is publisher.

The new home is 52 feet front by 102 feet deep, three stories and basement. The construction is of brick and reinforced concrete with marble trim. The cornice is of copper.

At the rear is a 10-foot passway leading from Printers' court to the interior of the block. There is an overhead structure containing bridges on three separate floors over this passway and a tunnel under it connecting the new building with the old mechanical building on Printers' court. The complete development thus consists of two connected buildings, one three stories with mezzanine and basement and the other stories and basement. Together they extend along Printers' court for about 170 feet, 52 feet wide on Leavenworth street and 70 feet wide in the rear. The whole development is exclusively a newspaper publication office and printing plant.

The Waterbury American building fronting on Grand street with its valuable site has been detached and will be sold.

The new press room is in the southeast corner of the new building, and is 20 feet wide, 60 feet long, and 20 feet high. The floor of the press room is eight feet above the basement which is 10 feet high and consequently about four feet below the floor of the mail room which at this point is exactly shipping platform height above Printers' court. The press room, stereotype and mail rooms are balanced units which have been designed to handle for delivery 25,000 32-page papers an hour rapidly and economically.

Nearly a year was spent in developing the plans for the new building. First there was a competition in which plans were submitted by three firms of architects, all of whom had previously designed notable newspaper buildings. The successful competitor was Lockwood, Greene & Co., of New York, who were the architects and engineers for the building of the New York Tribune. The method pursued in developing the plans was engineering rather than architectural.

Visitors to the building enter a beautiful Colonial lobby. On the left hand side of this entrance is the first floor counting room where subscriptions and want ads are taken in over a counter of Italian marble. This is the same counter that stood for so many years in the business office of the old Waterbury American building. It was carefully taken down and removed and the marble wainscoting of the business office furnished material to make it longer. This is one of the few things that link up the new building with the traditions of the old. In the entrance lobby there is a view into the mail room.

On the right there is a waiting room,

next to that a fireproof staircase to the upper stories, behind which is a door leading to a spectators' gallery in the press room.

The second floor of both the old and the new building is devoted to offices. The entire editorial department is in the front building. The business department, art department, telephone room and conference room are on the second floor of the old building, both floors being on the same level and connected by an interior bridge so that the effect is of a continuous building 160 feet long and averaging 60 feet wide.

Next to the editorial office is the city room which accommodates all the desk editors and reporters with the exception of those working on the Sunday Republican, who have a good-sized enclosure of their own.

The business quarters on the corresponding floor of the old building have accommodations for bookkeeping department, display advertising department, classified department, offices of business manager and auditor, stenographers, conference room, telephone room and art department.

The Republican and American has a large photo-engraving department which occupies approximately half of the first floor of the old building.

72-PAGE CHAIN STORE EDITION

The Atlanta Georgian-American recently issued a 72 page Sunday edition devoted to the 34th anniversary of the Southern Grocery Stores, Inc., which operates a chain of 278 stores in the South, claimed to be the largest issue ever devoted to one firm. The issue carried 26 full pages of advertising placed by the stores and wholesale firms whose products they handle, in addition to many three-quarter, half, and quarter pages.

PLANS COMPLETE FOR 1st DISTRICT MEET

C. King Woodbridge to Be a Speaker at Worcester Convention of I.A.A. Departmental Group, Nov. 8-9

WORCESTER, Mass., Nov. 5—With plans complete for the seventh annual convention of the New England Advertising Clubs, the Worcester Advertising Club is making elaborate preparations for the entertainment of the 500 guests who have signified their intention of coming from the six First District states, Nov. 8 and 9.

The program already arranged will bring to Worcester some of the most widely known advertising authorities.

Registration will be in progress at the Hotel Bancroft from 10 o'clock Monday morning until noon at which time the opening luncheon will be held in the hotel ballroom. The speakers will be C. King Woodbridge, president of the International Advertising Association; John W. Longnecker, advertising manager of the Hartford Fire Insurance Company and chairman of District No. 1, and George H. Johnson, president of the Advertising Club of Worcester.

The business sessions will be held in the Chamber of Commerce hall connected with the hotel and will begin at 2 p. m. Monday. The keynote speech will be given by Robert Lincoln O'Brien, editor of the Boston Herald. Other speakers will be Marcus L. Urann, president and manager of the United Cape Cod Cranberry Company; Herbert Metz, advertising manager of the Graybar Electric Company, Inc., and Walter S. Ashby, advertising manager of the Western Clock Company.

Monday night there will be a frolic with George F. Booth, publisher of the Worcester Telegram-Gazette, as toastmaster. The speaker will be Franklin Collier, Boston American staff artist.

The program Tuesday begins at 9:15 a. m. and the speakers will be Paul M. Mazur of Lehman Bros., New York; Allan B. McIntire, manager of Barton, Durstine & Osborn, Marian Hertha Clark, of Albert Frank & Co., Boston; and M. L. Wilson, vice-president of the Blackman Company, New York.

After luncheon there will be a session at 2 o'clock with Harry B. Kirtland, advertising counselor of Newton Center, Mass.; Neil Bordon, assistant professor of advertising, Harvard Graduate school of Business Administration and Joseph Ewing, president of Edwards, Ewing & Jones, New York as speakers.

NEW DETROIT M. E.

Hal E. Mitchell, for past nine years a member of the Detroit Free Press editorial staff was appointed managing editor of that paper Nov. 1. Mr. Mitchell went to Detroit from Milwaukee where he was night editor of the Sentinel, having previously been managing editor of the Duluth News-Tribune.

70,000 EXPECTED TO ATTEND ANNUAL FOOD SHOW OF ST. PAUL DAILIES

THE *St. Paul Dispatch* and *Pioneer Press* this week is holding its annual Food Show in the city auditorium in co-operation with the St. Paul Retail Grocers Association. The shows were started 10 years ago with only a few grocers participating. This year many exhibitors were turned away after every foot of exhibit space in the exposition had been sold.

One of the features of the show is the model store, which shows the average grocer the best and most effective way of displaying his stock. This store has taken weeks of preparation. It is the headquarters of the floor committees of the grocers' association and the meeting place for visiting grocers. Every food product on display at the show is "stocked" in the model store.

The model store is not the only ex-

perimental laboratory for grocers, however. Recognizing that window display is an essential part of advertising, the *Dispatch* and *Pioneer Press* merchandising and service department has installed two model store windows. Each of these windows will be changed daily. The displays are for the purpose of educating the grocer into the most effective use of restricted space.

Work of the merchandising and service department of the *Dispatch* and *Pioneer Press* was not confined to the two model store windows. Previous to the Food show, members of the department worked with the grocers in arranging the displays in their own store windows to tie in with the products exhibited at the show.

Seventy thousand persons are expected to attend this year.

set up a special committee to make investigation into methods of advancing the industry, with a view to giving better service to consumers of printing and improving the position of those engaged in the industry. The committee will be representative of the newspaper proprietors and general printers throughout the country, and of the 23 trade unions in the printing industry.

WOULD BAN CRIME NEWS

Nebraska Women's Clubs Think It Fosters Criminals

The Nebraska Federation of Women's Clubs, in annual meeting recently, adopted a resolution petitioning the daily and other newspapers of the State to refrain from printing details of crime news.

The women asked that reports of the ways and means of committing crime be omitted, and declared in the resolution, which was adopted without a dissenting vote and with no discussion, that the habitual reading of detailed crime news has a subtly debasing effect upon all classes of the public and especially upon youth. It declared that such publication suggests to those susceptible the commission of further crimes and furnishes expert instruction in methods of carrying out such suggestions.

W. ORTON TEWSON RESIGNS

W. Orton Tewson has resigned as editor of *The Literary Review* of the *New York Evening Post* and as literary editor of the *Philadelphia Public Ledger*. Mr. Tewson was appointed literary editor of the *Public Ledger* in September, 1921, and as editor of *The Literary Review* in April, 1924.

SUN WRITERS JOIN UNION

The Newswriters' Union in Scranton, Pa., will shortly have about 13 more members added to the roll through the initiation of the staff of the *Sun*, the new afternoon newspaper in that city.

BRITISH WEEKLIES IN GIANT COMBINE

Capitalists Controlling Paper Mills and Pulp Supplies Assure Their Market by Purchase of Publications

Illustrated Newspapers, Ltd., the newly-formed company that has acquired the Elleman group of illustrated weeklies in London (comprising the *Sphere*, the *Illustrated London News*, the *Sketch*, the *Tatler*, *Eve*, etc.) is making an issue of 1,800,000 seven per cent cumulative preference shares and 300,000 ordinary shares of £1 each. William Harrison (chairman of the Inveresk Paper Company, Ltd.) is the leading figure in the deal.

At the annual general meeting of the Inveresk Paper Company, Mr. Harrison pointed out that they had acquired on advantageous terms a group of leading paper mills, and had made sure of supplies for their mills by acquiring control over certain esparto growers and pulp makers. They had now insured a market for their products by their purchase of the London illustrated weeklies and trade journals.

STORE BUYS 16 PAGES

The largest single advertisement ever published in Northern Wisconsin was the one published in the *Marinette* (Wis.) *Eagle-Star* by the Lloyd department store of Menominee, Mich., across the river from Marinette, when on Oct. 9, a sixteen-page section was devoted to advertising the opening of the department store.

SOCIALIST PAPER PLANNED

A Socialist daily newspaper with a capital of 2,000,000 francs will be published in Paris at the beginning of 1927. The national council of the Socialist Party has reached this decision and designated Leon Blum, leader of the party in the Chamber of Deputies, as editor-in-chief.

25 YEARS OLD

Houston (Tex.) Chronicle Celebrates Birthday with Big Edition

Marking its 25th birthday, the *Houston* (Tex.) *Chronicle* on Oct. 24 published a 238-page newspaper, its Silver Jubilee number. It was the largest paper ever published in Texas. The edition carried 1,063 columns of advertising. Its editorial contents presented a well illustrated story of what the last 25 years have meant to Houston and all of south Texas. Entire sections were devoted to industry and commerce, banking, oil and cotton, building, and to the Rio Grande Valley. A 12-page rotogravure section was one of the features of the paper.

An illuminated airplane, bearing the

words "Chronicle Jubilee Sunday" on its underwings was used to herald the coming of the big edition, and the machine flew about over the city Saturday night.

The Jubilee edition marked the outstanding achievement of the *Chronicle* under the new management of Jesse H. H. Jones, publisher, C. B. Gillespie and J. G. Palmer, vice-presidents, editor and business manager respectively, George Cottingham, managing editor, Steve Kelton, assistant business manager.

NEW YORK EDITORS DENY BAR CHARGES OF CRIME NEWS OVER-PLAY

Birchall, Times, Draper, Herald Tribune, and Swope, World, Present Newspaper Arguments Addressing Lawyers—Calculation of News Space Presented to Support Theories

CHARGES that newspapers exist only on "saturnalias of crime news" were answered on Oct. 28, by a triumvirate of New York editors, addressing the bar association. Herbert Bayard Swope, executive editor of the *New York World*, Arthur Draper, assistant editor of the *New York Herald Tribune*, and Frederick T. Birchall, acting managing editor of the *New York Times*, all contended that the facts proved that the press was not over-playing crime stories.

Mr. Swope produced calculations of news space to show that crime ranked fifth in volume given to it on his paper. There is less volume of crime news, the table showed, than (1) commerce, industry and finance (2) sports (3) politics (4) art, editorials, the drama and other of the "humanities." It exceeds news from judicial processes such as civil and divorce cases, accidents, catastrophes, social and educational matters.

"The newspaper is the reflection of life in ink," Mr. Swope maintained. "It is better for the newspaper to ask itself, 'Is it true?' than 'Is it pretty?'"

Mr. Birchall in his talk dealt largely in consideration of the Baumes laws recently passed in New York, which permits a judge to pass a sentence of life imprisonment upon habitual criminals, and also prohibits bail for offenders with police records.

"Even more drastic laws are needed," he claimed. "We must get rid of the maudlin sentimentality that has comforted the criminal and alleviated his punishment."

Mr. Draper declared that crime news serves a useful purpose and should be published. He compared methods of crime news presentation employed by British and American newspapers.

"Without crime news there could be no complete record of the developments of the day," he said. "You may say that we could well afford to go uninformed regarding a large number of crimes. If the experience of the press is to serve as a guide the public is keenly interested in crime news."

"Let us examine for a moment the various methods of handling crime news in the press. First, there is the example of the *London Times*, with its carefully written report, so well done that it is accepted by the courts as an official summary. These reports are grouped together on one page. Oftentimes further reports are carried elsewhere in the *Times* but they do not bear the stamp of official approval. These summaries are intended primarily for the members of the legal profession. In this city there is no newspaper following this practice."

"A murder case in which a woman is involved either as the defendant or victim is seized on by the average British newspaper as the outstanding news event of the moment. The case may be sordid and the prisoner of small impor-

tance in the social scale, but nevertheless the newspapers feature the court news in great detail. Divorce actions make equally attractive news features. If anything, the British press contains fuller details than we do of what, under most standards, would be considered disgusting and unprintable bits of testimony."

"Our press, has infinitely greater latitude in reporting crime news than the British press. Public interest in crime news is as widespread in England as it is here, but it is not satisfied to the same degree."

"The American reporter has greater freedom in reporting crime news than the English. Public interest in crime news is as widespread in England as it is here, but it is not satisfied to the same degree. The American reporter has greater freedom in reporting crime and the constant temptation is to take advantage of his opportunity. A Hall-Mills case in England would attract general interest, but it would occupy much less newspaper space. The British press man does the bulk of his work in the court room; the American reporter does almost as much outside of it."

"Crime news should be published. It serves a useful purpose. The indictment is not against the publication of crime news, but against the methods adopted by some publications in its presentation to the readers."

"Good taste and common decency are the best guides. Neither the bar nor the press can solve the problem acting independently. They can do much if they work together."

AD COMMISSION TO MEET

The Advertising Commission of the International Advertising Association, of which W. Frank McClure is chairman, will meet Nov. 15 and 16th at the Edgewater Beach hotel. About 100 are expected to be present for the meeting, which will be held all day of the 15th, and the forenoon of the 16th. In the afternoon of the second day, the executive committee will meet. C. K. Woodbridge, president of the International Advertising Association, will speak.

SPORTS MAN FLIES TO GAMES

A record journey to officiate at football games was made last week by Edward W. Cochrane, sport editor of the *Kansas City Journal-Post*. Beginning Thursday, Oct. 28, Cochrane refereed five games in five days, at Atchison, Kan.; Dallas, Tex.; Austin, Tex.; New Orleans, La.; and Boonville, Mo. He used an airplane in making train connections in going from Dallas to New Orleans.

NEWSPAPERS AND CRIME

ELMIRA, N. Y., Nov. 2.—Nine hundred inmates of the Elmira Reformatory were recently given questionnaires containing 32 questions which they were asked to answer for the purpose of learning what influenced them to commit the crimes for which they were sentenced. Out of the 900 there were only 60 inmates who stated that their downfall was brought about by the reading of criminal news in newspapers.

LONDON TIMES PROFITS TOP \$1,000,000

Directors Pay Extra 5 Percent on Preferred Stock After Setting Aside \$250,000 for Staff Pensions

Net profits of £213,102 are reported for the year closing June 30, 1926, by the Times Publishing Company, Ltd., publisher of the *London Times*. This net revenue, well in excess of \$1,000,000, is recorded despite the dislocation of business caused by the general strike last May and the prolonged dispute in the coal industry, and compares with a net for the previous year of £176,271, and for the year ending June 30, 1923, of £123,153. In addition to the regular dividend of 5 per cent on the preferred, the directors authorized a further dividend of 5 per cent of the surplus profits for the year to these stockholders. The total of dividends to preferred stockholders is £25,855, and holders of the common stock of the company received the usual 12½ per cent dividend totalling £80,625. Shareholders in the Times Holding Company, Ltd., (the preferred stockholders) own more than 98 per cent of the

common shares of the Times Publishing Company, Ltd.

Prior to these dividends, the directors set aside £50,000 to a contingency reserve and a like amount for staff pensions, leaving a surplus after dividends of £58,390.

When Lord Northcliffe died five years ago, it was generally believed that the Times was losing money and it was sold shortly after his death to Major John Jacob Astor, M.P.; John Walter, a descendant of the paper's original owners, and others. Besides these, the directorate includes Sir Campbell Stuart, Ralph Walter, Robert Grant, Jr., Percy John Pybus, and Hon. Robert Henry Brand.

Lints Smith, general manager of the Times, has just returned to London after a six-month tour of South America. He has visited the United States in recent years. J. C. Akerman, business manager, has become well known to American newspaper and advertising men since the advertising convention at Atlantic City in 1923.

Items in the current and prior balance sheets of the company are presented for the interest and information of newspaper publishers:

	June, 1925	June, 1926

WILMINGTON'S ANNUAL PAYROLL IS OVER \$87,000,000

The buying power of this great community is tremendous as evidenced by the Wilmington annual payroll.

Wilmington industries represent some of the most important in the United States where 60% of the labor is skilled, with an annual average income of \$1,715 per worker for 51,000 employees.

While the population of Wilmington, Delaware, is around 120,000, or more than half of the population of the entire State, yet its trading area covers parts of Pennsylvania and New Jersey just across the Delaware River, and within a radius of 25 miles are located rich communities, both farming and industrial, that do all their trading in Wilmington.

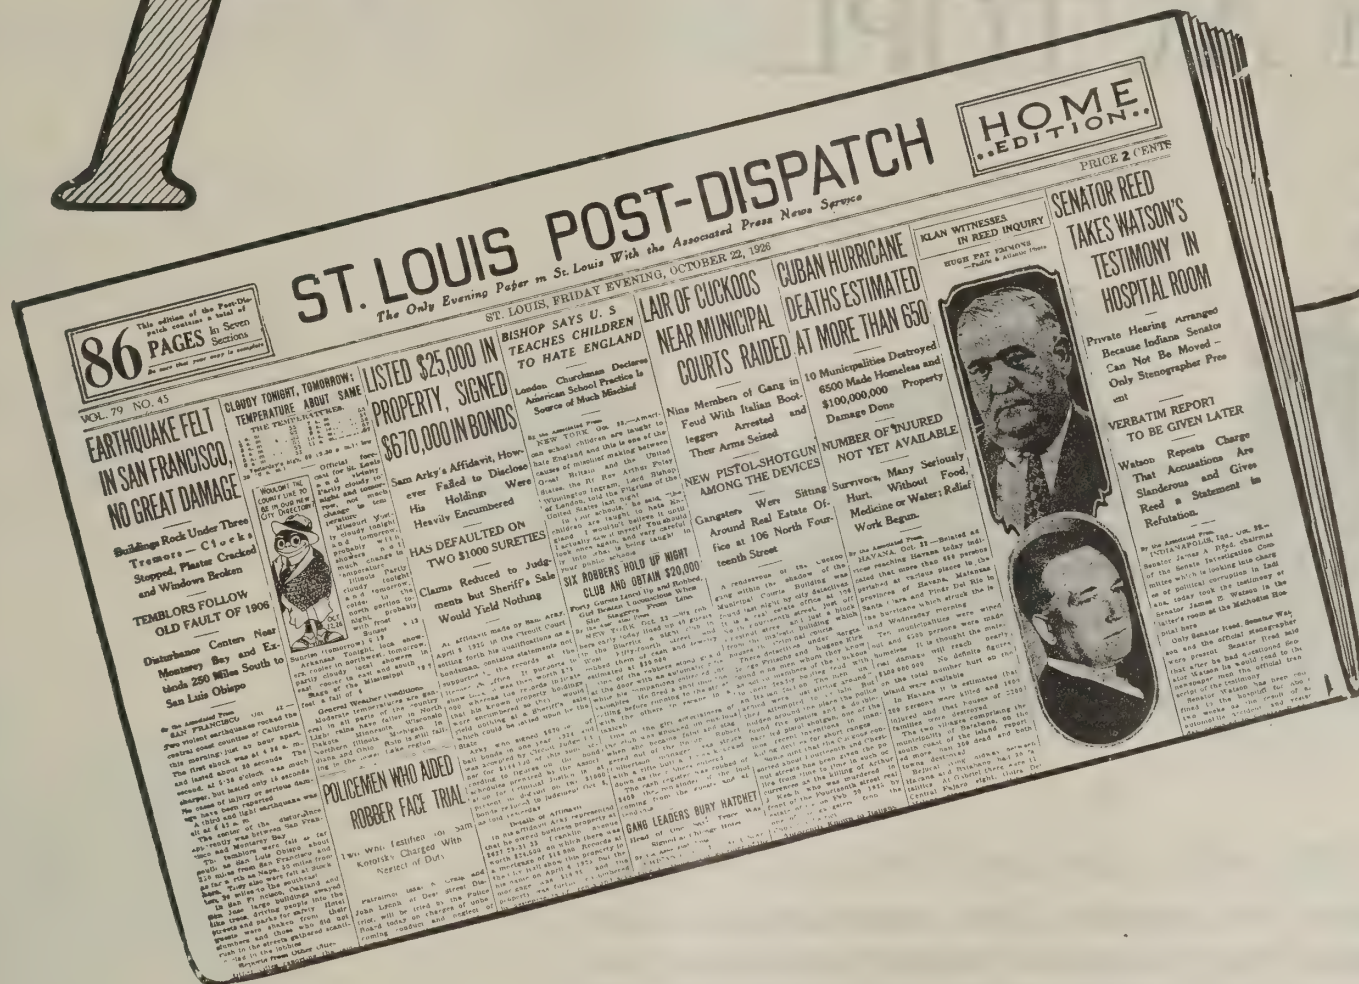

Reach this great buying power through the Evening Journal and Morning News that are read by 60% of the families in this area.

These papers will carry your message into nearly every home in Wilmington and its suburbs. No other papers cover the field so thoroughly.

Get the facts and you will be convinced.

The Post-Dispatch was the first newspaper in any metropolitan city in the world to issue a regular week day edition of

64 Pages

76 Pages

84 Pages

86 Pages

On Friday, October 22, the St. Louis Post-Dispatch published the largest regular week-day issue ever printed by any metropolitan newspaper in the world. This is the fourth time in the last three years that the Post-Dispatch has exceeded all previous world's records for size of regular daily issues.

These unusual achievements are accomplished because the Post-Dispatch covers The Billionarea—Greater St. Louis—with a thoroughness not possible through any other St. Louis newspaper.

This effective coverage enables merchants and manufacturers to reach every home of purchasing consequence in the entire territory with messages of important interest to every consumer.

The families in The Billionarea, knowing that the Post-Dispatch carries far more Home Merchants' advertising than all three other St. Louis newspapers combined, look upon this newspaper alone as their one dependable buying guide.

Because sales messages and buying interest both are concentrated in the Post-Dispatch, this one newspaper is by far the most effective advertising medium in The Billionarea.

There An AUTOPLATE Machine t

THE TWIN PONY AUTOPLATE MACHINE

It consists of two complete Pony Autoplate casting mechanisms and a single Pony Autoplate finishing mechanism, combined in such a way that it produces double the output of the Pony Autoplate Machine. In this machine the finishing mechanism automatically swings into position to receive, finish, cool, and dry casts from both casting mechanisms.

Double output is obtained without doubling investment or floor space.

Price \$8750

f. o. b. Plainfield, New Jersey

THE success of the Pony Autoplate Machine inspired the creation of the Twin Pony Autoplate Machine and the Single Pony Autoplate Machine.

These machines are the most widely distributed in the world for plate making, which the Pony Autoplate Machine made possible.

THE PONY AUTOPLATE MACHINE

It casts, shapes, shaves, trims, and finishes printing plates, uniformly and accurately, that require neither hand-polishing nor hand-drying.

Price \$4750

THE SINGLE TWIN PONY AUTOPLATE MACHINE

The Single Twin Pony Autoplate Machine consists of two of the three units of a Twin Pony Autoplate Machine. It is identical in operation and output with the popular Pony Autoplate Machine, *but its producing capacity may be doubled at any time by the simple expedient of adding a second casting mechanism.* Thus it becomes a Twin Pony Autoplate Machine. The second casting unit may be had at a moment's notice.

The publisher who anticipates growth but does not require immediately the full capacity of the Twin Pony Autoplate Machine will find well worth while the possibilities of growth which the Single Twin Pony Autoplate Machine offers him.

Price \$6250

(Second casting unit with operating mechanism \$2800)

EDITORIAL

Better is a little with righteousness, than great revenues without right.—Proverbs, XVI; 8.

THE HUMOR OF HARD LUCK

THEORIZE all you will about the value of the editorial page, but the discussion will come down to the point that editorial pages that are interesting and say something are read and those which are vacuous or straddling get nowhere. Our idea of a type of editorial which is certain to be read, and with sound profit, is embodied in the following little classic, clipped from a recent issue of the *Toledo Blade*, and written, we dare say, by Jack Warwick who has the gentle touch that makes the time a reader spends on his stuff well spent. The editorial was captioned "The Humor of Hard Luck" and read as follows:

"Sometimes inanimate things, a baby's old shoe or a deserted ramshackle house, can look profoundly pathetic. The broken wagon of the ashman, flopped down in Sumner street, like a bird with a broken wing, was like that. We mean it appealed to human sympathy. But the owner, who bequeathed it, together with the ashes and his good will, to anybody, is more interesting.

"You read the story in the paper? Anyway the will, scribbled on a shingle and left with the wreckage, is worth reprinting:

"I can't make my business go. I give my stock of ashes and my crippled cart and my good will to anybody. I sold my horse to get out of town."

"We think that a bit of fine writing that reveals a nice sense of humor. It occupies so little space and involves so many human emotions. 'I can't make my business go.' There is a note of despair in that line, but it is soon submerged in the ridiculous bequest of a load of ashes to anybody who happens along.

"There is a humor that goes with hard luck. It has kept many a man's head above the clouds when hope was running low. This ashman seems to have had it. He got a little fun out of his own misfortune. It is a pretty big thing to be able to do that."

That's a rough story that Mr. Gaylord tells of some of the A. B. C. strong young men. Don't tell us that an auditor would so far depart from the proprieties as to use the old East Side copper's gag of polishing the hickory on the pants of both the bad boy and he who peached, just to keep order on the beat, yer honor.

GROWN MEN CARRIERS

I AM glad that circulation men are waking up to the necessity of employing men, not children, in newspaper distribution work," writes an EDITOR & PUBLISHER reader, adding: "The value of a stable and intelligent relationship with the daily subscriber has become vastly too great to permit of the delegation of boys to this function."

These remarks were made in reference to the experience of the *Tampa (Fla.) Tribune*, recently noted in our columns, where the exclusive employment of men to deliver on routes averaging about 500 subscribers resulted, it was claimed, in 99 per cent perfect service. As the Tribune sells for 20 cents per week, giving the carrier ten cents, men find employment worth about \$50, satisfying them and causing them to work faithfully to hold their jobs.

EDITOR & PUBLISHER knows of many other papers that have profitably changed from boy to man delivery. It is by no means a recent discovery, but it might be applied in many cities. When the little boy is replaced by the grown man, if the latter is not overloaded and is adequately compensated and given responsibility for delivery, collections and canvassing, it is found that complaints fall off to the vanishing point, circulations hold better and canvassers are not so much in demand, if at all. It is reasonable that the newspaper that is served by experienced, disciplined and fairly compensated men is better off than one that leaves this highly charged duty to mere kids, each subject to streaks of irresponsibility or weaknesses that are wholly out of place in the business picture.

Ohio women reporters publicly protest against ruthless editing of their copy and the insertion of hackneyed phrases. The hand that rocks the boat will never rule the newspaper shop.

AN ECONOMIC MONSTROSITY

PRESENT at almost every convention of newspaper publishers is the eternal and futile discussion of wasteful, expensive and thrice-confused production conditions due to lack of common-sense standardization in equipment and supplies. Just how widespread in newspaperdom this folly is practised was for the first time concretely revealed last week through EDITOR & PUBLISHER's mechanical census among more than 2,000 daily newspapers in the United States and Canada. We had known that among all modern American industries the newspaper plant was perhaps least simplified, but our census yielded up such an amazing showing of harum-scarum mechanical practices as to shock our sense and we believe it must have astonished even the veteran exponents of plant efficiency—those patient pleaders at newspaper conventions who have seen the condition become progressively worse despite their protests.

No one could have imagined, for instance, that the disorganized newsprint requirements of the daily press range in almost eighth-inch steps from 16 inch to 83½ inch rolls. Think of the money that is squandered and to no earthly purpose in the single fact that our newspapers employ 20 different arrangements of columns to the page and column-widths, starting with four 14-em columns and ending with nine 12-em columns to the page! Run down, in our tabulation, the list of page margins and consider the staggering loss of paper in absurdly unnecessary margin widths! It is doubtful if any other American industry parallels our own for mechanical disorganization.

Why is it? The old curse of individualism is a leading cause. There are publishers who are actually proud of big blanket forms with columns so wide that the modern standard sizes of stereotypes, representing both general advertising and syndicate material, rattle around like a child's foot in an old man's shoe. The millions of words that have been spoken and printed about newsprint conservation, and inevitable dangers ahead, roll off the heads of some publishers like rain from a duck's back and they go on, year after year, sacrificing this valuable resource in blank margins that make their publication ugly and themselves ridiculous. Again, it is a remarkable fact that in this day of efficient and relatively low-priced machinery there is a type of publisher who will hang onto a machine that is eating out his very vitals by its waste of materials, even though it can be demonstrated to him that a new machine would in time pay for itself in economy of raw materials consumed. The industrial supremacy of America was not built upon these tactics; it represents the reverse, for in all cleverly managed manufacturing institutions the wasteful machine is cast out as a menace, which it is.

Everything is to be gained, nothing is to be lost, by mechanical standardization of the newspaper industry. EDITOR & PUBLISHER hopes the day will never come when the contents of newspapers will be standardized, for that individualism is the soul of independent journalism, but it is ridiculous to apply the same principle to the mechanical side. When the business is simplified, in accordance with modern science, three or four sizes of formats offer ample variety. There can be no valid excuse for wasteful marginal spaces nor various column widths. Our census demonstrates that millions of dollars are being tossed out of the window annually by the publishers of the country and such waste in these days represents a high commercial crime.

Houdini will be missed in many a newsboy's delivery room.

A TIMELY WARNING

THE incident at Lansing, Mich., wherein an advertiser forced a newspaper, by court order, to print price-cutting advertising, is a fresh warning to publishers that contracts which do not specify the newspaper's right to reject objectionable copy are very dangerous forms to have around the shop. The publisher at Lansing told the court that the contract in question was an old form which happened to omit the proviso which privileged him to pass on advertising copy, but this plea only strengthened the case of the complaining advertiser, and the publisher had his choice of printing anything that the price cutter might wish to write or pay a penalty of \$10,000.

Are your contract forms safe? Inspect them today and see to it that the privilege of rejecting objectionable copy is stated therein in terms which would satisfy any court!

As in everything, those who have the least information about newspapering are most positive in their opinions concerning it.

THE NEW "HOUSE SOCIETY"

ENGLISH trades union circles are much agitated by the introduction into the office of the *Manchester Guardian* and *Manchester Evening News* of a new "House Society" which is a substitute for the established craft unions. The plan was adopted by the vote of the employees themselves, 609 voting in favor of it, 169 opposing it and 13 being so bitterly against the scheme that they refused to longer work for the newspapers.

The scheme includes all grades and classes of workers, repudiates the strike weapon and calls upon compulsory arbitration, controls the number and training of apprentices and seeks to break down or modify the lines of demarcation between grades of labor that frequently embarrass production.

The new House Society offers to the individual non-contributory pensions for every one with twenty years' service, and at the age of sixty-five a pension of £2 a week. The subscriptions of the members to cover ordinary benefits and expenses of administration are from fourpence to sixpence a week, according to wages. The newspaper gives a subsidy.

The Manchester Guardian works a 48-hour week and has the reputation of paying wages almost as high as any obtaining in England. Its policies are liberal and it has been kindly disposed toward unionism. Its action, of course, reflects the general strike.

The squeaking wheel gets the grease.

WHEN RETAIL SALES FAIL

THAT genius salesman in the realm of retail business, Thomas K. Kelly, the "pinch-hitter" of the department stores, tells an EDITOR & PUBLISHER writer some of the essentials of his art. He is his philosophy:

Newspaper advertising is the greatest ally of retail sales campaign.

Copy must present each item as an important new event.

Sound reasons must be given for cut prices, establish confidence.

Descriptions of goods offered must be adequate both in clear words and attractive cuts. Quality, style and advantages must be stressed.

Price leaders must be items in general demand.

Mr. Kelly explained familiar causes of failure retail sales. They have been arranged too hurriedly often merely to meet a competitor's sale. The advertising is dragged together without planning and incompetent people. The cuts are poor and the copy chestnutty. There is no complete description of the merchandise. Specific statements gave way to generalities. The sales forces lack confidence, ability, enthusiasm or loyalty.

Newspaper men should take this evidence and put it away in their memories. When a sale has failed due to conditions described, and the merchant or employes complain of the newspaper as a result-giving medium, it is time for the advertising manager to have a confidential talk with his client and definitely place responsibility where it belongs.

PERSONAL

NYRUS H. K. CURTIS, Philadelphia publisher who recently announced the gift of a pipe organ and a swimming pool for Bowdoin College at Brunswick, Me., is now to finance the \$22,500 additions and improvements to the Kotzshmar organ in the Portland city hall, given by him 15 years ago. Mr. Curtis has also presented \$50,000 to the fund being raised for the erection of a memorial to Gen. Henry Knox, first secretary of War and the Navy, in Thomaston, Me.

John F. Frost, president of the *Brookline Citizen*, and Mrs. Frost celebrated the golden anniversary of their wedding recently. There are 15 grandchildren and one great-grandchild. Mr. Frost has been associated with the *Citizen* for many years.

Walter A. Strong, publisher of the *Chicago Daily News* who is now abroad, has recently received by Premier Mussolini and also by Pope Pius XI. He had also written an article to his paper telling of these meetings.

Oscar C. Roesen, of the Wood Newspaper Machinery Corporation, returned to New York from Europe last week after an extended business trip abroad.

Thomas A. Clifton, editor of the *Covington (Ind.) Republican*, broke his right arm recently at the Republican office when he fell down an elevator shaft in the building.

D. R. Anthony, Jr., publisher of the *Evening Star* (Kan.) *Times*, while in a hospital recovering from a recent operation, was on Tuesday re-elected Representative in Congress from the first Kansas district.

IN THE BUSINESS OFFICE

ERLE ROY WOODBURY, advertising manager, *Worcester (Mass.) Telegram*, and Victor M. Friar, financial editor, have been appointed members of the executive committee of the Worcester Advertising Club.

C. G. Brodhecker, formerly of the national advertising department of the *Petersburg (Fla.) Times*, is now covering the weeklies in Indiana for the Bonnet-Brown advertising mat service.

W. P. Graham who for the past six years has been accountant and office manager of the *Toronto Globe*, is leaving newspaper work to become secretary-treasurer of the William Paterson Company of Brantford, Ont.

M. J. Klein of the promotion department, *New York Daily Mirror*, and Mrs. Klein, are parents of a daughter, Myrlis, born recently.

Ben Zatz of the local advertising staff of the *Chicago Herald and Examiner* has left to enroll as a student at the University of Chicago.

John Bowman, for many years assistant Al Messing, publisher of the old *Chicago Examiner*, is now business manager of the Chicago Association of Commerce.

Arthur Holtzman has returned to the advertising department of the *Chicago Herald and Examiner* from the circulation department.

IN THE EDITORIAL ROOMS

CHARLES L. BISHOP, who represents several Canadian papers in the Parliamentary Press Gallery, Ottawa, has gone abroad for a vacation, sailing Oct. 27.

Two Boston newspaper men were admitted to the Massachusetts bar last week. Harold Bennison of the *Boston Traveler* staff, and Henry J. Collins of the Lynn office of the *Boston Globe*.

Paul G. Fruchey, formerly with Cincinnati and Tampa papers, is now handling the weekly business review and industrial page of the *San Antonio Express and Evening News*.

Robert W. Read, sports writer for the *Columbus (O.) State Journal* is in a local

hospital following a stroke of paralysis, suffered while on his way to attend a political rally.

Joseph Keefe has joined the special assignment staff, *Newark Sunday Call*.

A. J. O'Malley, city editor of the *Scranton (Pa.) Times* has returned to his desk after a vacation of seven weeks.

Fred Sheran, city hall reporter, *Columbus (Ga.) Enquirer-Sun* has received a Congressional appointment to the Military Academy at West Point.

Augustus J. Demartean, textile reporter for the *Fall River (Mass.) Globe*, for many years, is now devoting all of his time to staff work for the *New York Daily News Record* in Fall River and New Bedford.

Patrick Hurley, sports writer with the *Fall River (Mass.) Globe*, has resigned.

W. T. Smiley, for four years telegraph and city editor of the *Iola (Kan.) Register* and for many years a reporter on that paper, has resigned to join the *Kansas City Star*.

Morley B. Drake, formerly day city editor, *Fargo Forum*, and also former real estate editor, *Minneapolis Tribune*, has joined *San Antonio Express* as real estate editor.

George Wasson, formerly of LaPorte, Ia., and managing editor of the *What Cheer (Ia.) Patriot*, the last nine months has gone to New Mexico where he will continue newspaper work.

Leonard G. Fairchild is conducting a special column, "Builders' Chips," for a business page of the *Worcester (Mass.) Telegram*.

Ray E. Garrison, who became managing editor of the *Toledo News-Bee* a few weeks ago, is now on temporary leave of absence, according to an office announcement. Paul Smith, night editor, has been named acting managing editor.

F. Earle Lutz, Sunday editor of the *Richmond (Va.) Times-Dispatch*, has been made president and managing director of the Amateur Health and Recreation Association, Inc., of Richmond, Va.

Cleo A. O'Donnell, staff writer of sports for the *Worcester (Mass.) Evening Post*, has been appointed director of athletics for Holy Cross College.

Capt. Elbridge Colby, Infantry, has been relieved as editor of the *Infantry School News* at Fort Benning, Ga., and assigned to the brigade staff, Fort Howard, Md. Capt. John Hite, Infantry, is now editor of the *Infantry School News*.

J. W. Tyson, editor of the *Toronto Financial Post*, has resigned to become managing editor of the *Financial Times*, Montreal. On the eve of his departure from Toronto he was the honor guest at a luncheon attended by the financial editors of the city, his associates on the *Post* and other friends.

FOLKS WORTH KNOWING

ROBERT BELL, new president of the Press Congress of the World, is a veteran newspaper man of New Zealand and proprietor of the *Lytleton (N. Z.) Times*. He was named president of the Congress at its recent meeting in Geneva - Lausanne, Switzerland.

ROBERT BELL

It was upon his suggestion, in 1915, the Press Congress was formed, the nucleus of the organization being a group of newspaper men gathered in San Francisco for the Exposition held that year. Mr. Bell wrote the constitution of the Congress.

He is founder of the School of Journalism at Canterbury College, Christchurch, New Zealand, also founder of scholarships in Agricultural Science at Ashburton High School. He is a member of the Academy of Political Science, New York, a Fellow of the Royal Economic Society of London, as well as of the Royal Colonial Institute, London, and a life member of the British Navy League and Overseas Club; president of the Canterbury Society of Arts, New Zealand, and a governor of the Ashburton High School of New Zealand.

Francis Dickie, a Western Canadian writer, sailed for Europe on the S. S. Empress of France on Oct. 27 and while abroad will write a series of articles for the *Vancouver (B. C.) Province*.

Stockholders of the *Renville (Minn.) County Journal* have elected H. M. Frederickson, Lake Lillian, editor and manager. Mr. Frederickson will also remain in charge of the *Lake Lillian Echo*.

Joseph A. Lachaussee, for ten years with *New York Commercial*, covering first the grain markets and then the drug and chemical trade, has resigned to go with the Pearsall News Bureau, collecting grain news and quotations, and to several newspapers outside of the A.P.

HOLDING NEW POSTS

JERRY McWILLIAMS, from *Newark Evening News*, to staff of the *Daily Courier* of the Oranges and Maplewood.

Bill O'Boyle, from United Press telegraph operator, to news staff *Scranton (Pa.) Times*.

Worthen Clough Cornish, sporting editor, *Portland (Me.) Press-Herald*, to Miss Grace Evelyn Pembroke of Harrison, Me., at Harrison, Oct. 20.

John F. Reid of East Weymouth, Mass., of the advertising department of the *Boston (Mass.) Advertiser*, to Miss Mabel O. Dolan at the Sacred Heart Church, Roslindale, Oct. 18.

WITH THE SPECIALS

CONE, ROTHENBURG & NOEE, INC., New York, have been appointed to represent the *Burlington (Ia.) Hawk-Eye* nationally.

L. J. Rubin of the New York office, Gilman, Nicoll & Ruthman has been transferred to the San Francisco office.

Wales & Wolfe, publishers' representatives, New York, have been named to represent the *Harrisburg (Pa.) Courier*.

CHANGES OF OWNERSHIP

H. B. CARTLIDGE, formerly superintendent of the plant of the *Oregon City Morning Enterprise*, has bought an interest in the *McMinnville (Ore.) Telephone-Register*. Mr. Cartlidge takes over the half interest in the paper held by George C. Martin and Lynn C. Burch. The remaining half interest is retained by Sheldon F. Sackett.

J. F. Olander, Pierre, S. D., has purchased the bankrupt stock and printing plant of the Martin Printing Company, Mitchell, S. D. and moved the equipment to his Pierre shop.

Louis Blake Duff, manager and editor of the *Welland (Ont.) Tribune and Telegraph*, has disposed of his interests in the newspaper to Henry J. Foster of Galt, Ont., and H. M. Hueston and A. D. McKenzie of Sarnia, Ont.

A. M. Potter, of the Clarion Publishing Company, Dillwyn, Va., which publishes the *Virginia Union Farmer*, has

leased the *Farmville (Va.) Leader*. The *Leader* was founded several years ago by L. C. Martin, who, up until a few weeks ago, when he was stricken with paralysis, was actively engaged in managing and running the paper.

Orting (Wash.) *Oracle* has been purchased by D. A. and E. W. Witten of Buckley, who publish the *Buckley Banner* in that town.

C. W. Griswold, owner and publisher of the *McComb (O.) Herald* has sold the business to R. J. Jeffrey of Cleveland. Mr. Griswold will locate in Columbiana in the publishing business.

H. T. Allen and Howard Barrows, former publishers of the *Colfax (Wash.) Commoner* and more recently owners of the *Pomeroy (Wash.) East Washingtonian*, have sold their interest in the *Washingtonian* and have purchased the *Deer Lodge (Mont.) Silver State Post*.

P. H. Barbee, postmaster of Clark, Mo., purchased the *Clark (Mo.) Chronicle*, recently. He assumed editorship Nov. 1.

Karl W. Boll, Red Oak, Ia., has purchased the *Rock Rapids (Ia.) Review*, from John W. Carey, who has been its publisher since July 15, 1916. The change is effective Nov. 15.

Cassar R. Adams, proprietor of the *Franklinville (N. Y.) Chronicle-Journal*, has purchased the *Rushford (N. Y.) Spectator*, which hereafter will be published in the Franklinville office.

NEW PLANTS AND EQUIPMENT

MONTREAL STAR has just placed an order with R. Hoe & Co., Inc. for a 12-Unit superspeed balcony press. Recent orders for additional press units placed with R. Hoe & Co., Inc. include one 16-page deck for the *Seattle Times* and two 16-page units for the *Boston Post*.

Hennessey (Okla.) *Clipper*, a weekly, has moved into its new home. Additional equipment, including a new press and a linotype machine have been installed.

Longview (Wash.) *News*, is erecting a new 16-page Duplex tubular press.

Chicago North-West Ledger, a community newspaper, has established its own composition room. A No. 14 single keyboard linotype has been installed.

Durham, (N. C.) *Herald* has recently installed a new Duplex "N" Type Sextuple press of latest design.

Plans for the erection of a new building for the *Summer (Wash.) American Standard*, are under way and an architect has been commissioned to draw up the specifications.

Greenville (N. C.) *Piedmont* is increasing its press capacity by the addition of a 4-page deck to its 16-page Duplex tubular press. Recent shipments of Duplex Model A's include one to Giragi Bros., publishers of the *Winslow (Ariz.) Daily Mail*, and one to the *Redford (Mich.) Record*.

Shelton (Wash.) *Journal* has added a second linotype and a model X intertype.

Sitka (Alaska) *Progress* has installed a new linotype.

Gilmer (Tex.) *Mirror* recently installed a model A Duplex press.

The *Pawtucket (R. I.) Times* has just purchased a superspeed octuple press of R. Hoe & Co., Inc.

Open house was recently held in the new building of the *Owensmouth (Cal.) Gazette*. Greetings were brought to the gathering from the Southern California Editorial Association by Frank M. Keffer, president, and Ben H. Read, managing director of the Association. David R. Carlson is publisher.

A new standard pattern quadruple press for the *Great Falls (Mont.) Tribune* has been shipped from the Dunellen Works of R. Hoe & Co., Inc.

SPECIAL EDITIONS

MONROE (La.) NEWS-STAR, 64-page Third Annual Progress edition, Oct. 25.

Oregon City (Ore.) Morning Enterprise, 60th anniversary edition, Oct. 27.

Salina (Kan.) Journal, 40-page edition marking the opening of a new residential section at Salina, Oct. 15.

ASSOCIATION

ADVERTISING CLUB OF BOSTON, has been awarded the silk banner given for the largest delegation based on population and miles traveled by the Direct Mail Advertising Association at its Ninth Annual Convention in Detroit recently. Boston had 28 delegates.

IOWA HIGH SCHOOL PRESS ASSOCIATION, sponsored by the Sigma Delta Chi and Theta Sigma Phi, founded in 1920, is preparing for the greatest convention in its six years' history Dec. 3 and 4, when members gather at Grinnell College. Bruce Bliven will be principal speaker.

"Fitting the Advertising to the Consumer Necessities" was the subject of the address of William J. Moll, advertising counselor for the F. A. Foster Co. of Boston, before the members of the WORCESTER (Mass.) ADVERTISING CLUB on Oct. 27. Committees for the year were announced.

L. E. Rudd, commercial manager of the Western Union Telegraph company in Kansas City, Mo., has been re-elected to a three year term as chairman of the board of directors of the BETTER BUSINESS BUREAU of Kansas City. C. E. Griffin, president of the Advertising Club of Kansas City, is one of the new directors.

EIGHTH DISTRICT Kansas editors, were to meet in Newton, Friday, Nov. 5, for the annual fall meeting of the Association.

Travers D. Garman of Boston, Mass., has been elected commander of the CROSSCUP-PISHON Post American Legion, composed entirely of Boston newspaper and advertising men. Carrol J. Swan, retiring commander, was chosen chairman of the committee on committees. During his administration the post has contributed \$100,000 to charity.

FLASHES

With Pennsylvania on one side and Indiana on the other the Ohio crowd feels as good as anybody.—*Columbus (O.) State Journal*.

Boys have changed some. In 1890 they merely longed to be bandits.—*Vancouver Sun*.

A London professor says a mosquito will not bite a moving object. Now you know why that messenger boy is always scratching himself.—*Flint Daily Journal*.

"He lisped in numbers for the number came".

It must have been monotonous, great heaven!

For it is quite impossible, we claim, To lisp a single one save six and seven.

—Emma Spenser, in *Newark (O.) Advertiser*.

Thath nonthenthe. Though ith hard to lithp eleven.

Thereth other numberth that the lithper pickth:

How about thikthty-thikth and thikthty-theven?

How about theventy-theven and theventy-thikth?

—Ted Robinson, in *Cleveland Plain Dealer*.

Beer parlors where patrons would be required to sit are advocated for Ontario on the theory, possibly, that they will survive longer in that position.—*Pittsburgh Gazette-Times*.

Sparkling New Typefaces

There's only one way for a paper to secure an unlimited quantity of bright new typefaces in any size from 6-point condensed to full-width 72-point in sluglines, without machine or mold changes—that way is the Ludlow.

Of course, in addition to this the Ludlow saves a newspaper time, money and floor space. These reasons account for the progress the Ludlow System has made in hundreds of America's foremost newspapers.

Unless you are familiar with the work the Ludlow of Today is performing in newspaper plants large and small the world over—you owe it to yourself to investigate.

Boston: 470 Atlantic Avenue

Iowa Dailies Gain in Linage Up to 34.7%

During the first eight months of this year, every one of these 28 Iowa daily newspapers made a substantial increase in national lineage over the same eight months of 1925.

The increases range from 8.9% to 34.7%. Fifteen of the 28 papers gained over 20%. Seven of them—over 30%.

These increases certainly indicate the esteem of National advertisers for this *always good* market, and for Iowa daily newspapers as a profitable medium.

Each of these papers gives definite merchandising help

Each individual publication offers the following definite cooperation, in connection with a campaign of 5,000 lines or more:

1. Make a study of local market and trade territory, as pertains to *your* specific product.
2. Supply complete and accurate list of retailers, in the newspaper's city and surrounding territory.

An association of 28 leading Iowa daily newspapers.

Combined Circulation 585,091
Families in Iowa 550,000

Deal with these 28 papers as with one publication, if you wish: one order, one plate, one billing.

3. Introduce your salesmen to a number of big retailers. Advise you as to relative sales standing of competing products.

4. Urge retailers to feature displays of nationally advertised products. Furnish you with names of stores that will make use of window displays.

5. Make market investigation for prospective advertisers (Identity to be made known first).

6. Urge local retailers to mention your products in their own advertisements.

7. Send, on receipt of contract, a multigraphed letter to list of retailers in the territory, telling of the campaign.

Please bear in mind that above is only the *minimum* of cooperation offered. In your specific case, there may be many additional ways we can help. For further information, write to address below.

BUILDING NEWSPAPER CIRCULATION

Current Events Contest Gains in Popularity—Coley Asks for More Efficient A. B. C. Service—Daily Offers Prizes to Readers
Coloring Black and White Comics

THE inter-collegiate current events contest started last year by the *New York Times* is being continued with eight institutions added to the original list, prompting the suggestion that newspapers in smaller cities not already doing so may sponsor similar contests among schools of their localities. This week the *Times* commented editorially on its contest in part as follows:

"While this enterprise was begun by the *Times*, it was with a view to emphasizing the value of present-day news for the student of the past. Though examinations in this contest have been held in only a few institutions, this was due to the desire to have practical proof of the plan before giving it general application.

"This contest, as Professor Munro of Harvard has pointed out, is of benefit not only to the students of institutions but also to the college world as a whole, since it furnishes an inter-collegiate competition in the field of the intellect. Except for debates, the team preparation for which is generally so thoroughly planned under coaching as to give individual debaters little freedom, there is almost no inter-collegiate contest except in athletics. Moreover, as Professor Munro further suggested, as different methods of examination are employed, there is a new opportunity for comparing them and so, possibly of making a real contribution to the general improvement of our whole educational system."

"One of Thackeray's characters is made to ask, 'Is there anything in the paper, sir?' And this was the answer:

"'Anything in the paper! All the world is in the paper. Why, madam, if you will but read what is written in the *London Times* of this very day, it is enough for a year's history and ten times as much for meditation.'

"It is upon the press that the historian has more and more to depend in reconstructing the past. Even the advertisements recall the social and economic conditions of other days. The conclusion of Miss Lucy M. Salmon's recent study entitled 'The Newspaper and the Historian' is that the periodical press still remains 'the most important single source the historian has at his command for the reconstruction of the normal life of the past three centuries.' If that be true, why should not the newspaper be of like service in relating the past to the life of today? It is thus that 'the thoughts of men are widened with the process of the suns.' It is thus that news and history become as one."

Amendment of the rules and regulations of the Audit Bureau of Circulations so that the Bureau "would render far more satisfactory and efficient service, not only to the newspaper publishers but to the advertisers as well," was suggested by Will X. Coley, circulation manager of the *Raleigh* (N. C.) *News and Observer*, and president of the Carolinas Circulation Managers Association, addressing the association's recent annual convention. He said in part:

"The rules of this organization afford many loop holes for circulation men, either through error or intent, to make false statements as to the circulation of their papers and then get by with it, at least until the A. B. C. auditor arrives. When the auditor arrives, it may be too late to make amends for the injustice done to the advertiser and competitive newspapers. To my mind the only statement that should be issued as to circulation should be the auditor's statement, which is supposed to be accurate. No publisher should be permitted to publish a statement over his signature and pass it off as an A. B. C. Statement until it has been audited by one of the Bureau's auditors."

The *Duluth* (Minn.) *News Tribune* is offering \$15 in cash prizes every week for the best coloring of black and white comics printed in the Sunday issue.

The contestants, limited in age to 12 years or under, may select the page comic they wish to color, may use crayons, paint or other substance but must have their entries into the office by Wednesday night. Neatness and originality count. The first prize is \$5, the second \$3, the third \$2 and the next five \$1 each. An honor roll is also printed each Friday.

The contest is popular, the number of entries averaging from 700 to 800 weekly.

The subscription price of the *Los Angeles* (Cal.) *Express* is now 60 cents a month or \$7.20 per year. The new price became effective Oct. 1.

The *Walla Walla* (Wash.) *Union*, has started a Baby Revue. It will award cash prizes to the baby for whom the largest number of subscriptions to the *Union* are turned in. Each issue has a coupon to be clipped for a certain number of credits.

The *Vancouver* (B. C.) *Sun* recently held its third annual "Subscribers Week." L. E. Moote, country circulator, was in charge of promotion. A choice of a fountain pen or automatic pencil was offered anyone turning in an eight months' subscription to the *Sun* at a cost of \$2. The offer was only good in British Columbia.

In the current number of the *Junior Times-Dispatch*, published for its newsboys by the *Richmond* (Va.) *Times-Dispatch*, of which William G. Morris is circulation manager, "carriers who don't succeed" are listed as those—

"Who expect to make routes increase all at once without soliciting.

"Who air their grievances to others until they make a nuisance of themselves.

"Who keep their eyes on the clock fearful that they may give their routes a moment or two overtime.

"Who are not thorough and conscientious about their work.

"Who are always doleful and down on their luck.

"Who criticize the manner in which their manager directs them.

"Who are never on time.

"Who depend on favoritism to advance them instead of good, honest endeavor.

"Who are indifferent and listless and cannot even assume an interest in their routeman's duties.

"Who feel themselves above their position and do not even condescend to fill it adequately.

"Who cannot be honest with themselves, and expect a greater money compensation than the route would be worth if carried by some one else.

"Who tell you all the wonderful things they can do, but never get right down to doing anything at all."

The *Chicago Herald and Examiner* is offering \$5,000 in cash prizes in a new movie contest to movie fans who are able to piece together parts of pictures of motion picture stars printed in the *Herald and Examiner* daily and Sunday. The contest opened on Nov. 1 and will end Dec. 15.

Under the direction of Walter Schaefer, circulation manager of the *Marinette* (Wis.) *Eagle-Star*, forty-five of the local carrier boys were entertained recently at the Hotel Marinette with an evening dinner, after which business was talked and an athletic association formed by the boys.

WOMEN IN ADVERTISING AND JOURNALISM

Terese Rose Nagel Now Writing Book About Radio—Mrs. Parsons Conducting Column for Worcester Telegram—Newspaper Romance In Newark

TERESE ROSE NAGEL, woman's editor of WGBS, the broadcasting station operated by Gimbel Brothers, New York, is now writing a book in collaboration with Lillian Eichler to be called "Please Stand By."

It is to be a hand-book on the radio station and will include the opportunities offered newspaper people by radio. Before becoming connected with WGBS, Miss Nagel had ten years of newspaper experience. On the Bronx Home News, New York, she conducted a column under the name of Polly Carter. The suggestion of Gimbel Brothers that the Polly Carter letters be put on the air finally resulted in her appointment in charge of daytime programs and women's features.

"An interesting feature of the afternoon program is the radio interview, which is the newspaper interview brought to the air," Miss Nagel said: "Instead of going to the home of the interviewee, I bring them to the station, and let them speak for themselves. Sometimes the questions are prepared beforehand and sometimes the interview is impromptu. The most interesting radio assignment for interviews was that with Fay King, herself a newspaper woman. I have interviewed on the air Gilbert Frankau, the English novelist, and Lady Cynthia Moseley, both of whom came to

TERESE ROSE NAGEL

this country for a visit, also May Christie, an English journalist, and practically every prominent actress, and writer."

Mrs. Margaret Getchell Parsons, former Philadelphia and Worcester, Mass. newspaper woman, is conducting a column "Speaking of Plays," for the *Worcester Telegram*.

Miss Viola G. Lake has joined staff of the *Iowa City* (Ia.) *Press-Citizen* as society editor, succeeding Miss Joyce D. Brady, who after four years as society editor has become secretary to Mrs. Adelaide L. Burge, University of Iowa, dean of women. Miss Julia Dondore has also joined the editorial staff of the paper.

Lucy L. Fergus, a member of the general staff of the *Newark* (N. J.) *Evening News*, was married recently to Charles Edwyn Gregory, of the *New York Evening Graphic*. They met each other in the lobby of the Hotel Riviera in Newark, while waiting for an opportunity to interview "Daddy" Browning, once styled "Cinderella man" by the newspaper.

Mrs. Gene Titus for 21 years correspondent and business representative of the *Davenport* (Ia.) *Daily Times* in the Genesee territory last week ended her long association with that paper. A farewell party to a dozen of the *Times'* carrier boys, whom she directed, was final event of her connection with the paper.

The announcement of the engagement of Miss Mabel H. Lindahl of the *Worcester* (Mass.) *Post* editorial staff and Philip A. Sponberg, a compositor for the same paper, was made this week.

Salesmen do not have to give a lengthy sales talk on Cline Equipment. A quarter-century of unfaltering service has made the "Cline System" a familiar one in the entire printing field.

The Cline Electric Mfg. Co. furnish Motors and Control Equipments for Printing Presses and Auxiliary Machinery for Newspapers and Job Presses.

WHAT'S WHAT IN THE FEATURE FIELD

Tom Sims Now Writing for King Features—"Joke Jug" Is New Humorous Column—Miller Elected Treasurer of Editor's Feature Service

TOM SIMS, who writes the column "Tom Sims Says" has signed up with King Features Syndicate, New York. His work was formerly handled by NEA Service, Inc.

TOM SIMS

Sims, while still in college, began his newspaper work on the *Nashville Tennessean* and was a full time reporter on that newspaper when this country entered the World War in 1917. He enlisted with the Fifth Marines and went through the Argonne and St. Mihiel campaigns. Two days before the armistice he was wounded with shrapnel in both legs.

When Sims finally recovered he went back to college and finished his course, and then rejoined the *Tennessean*; first as reporter, then as state editor, then telegraph editor, and finally as make-up man.

In time off from his various desks, Sims had started another "column" under the heading of "Dear Folks." It attracted attention and in a short time he was invited to come to New York.

The George Matthew Adams Service announced this week a new national humorous column to be conducted by Henry Edward Warner of the *Baltimore Sun*, under the title of "The Joke Jug." Mr. Warner wrote "The Songs of the Craft," which were published weekly by EDITOR & PUBLISHER.

H. W. Miller, of Bridgeport, Conn., has been elected treasurer of Editors' Feature Service, Inc., succeeding E. Roland Harriman, resigned because of pressure of other business affairs. He will make his headquarters in the Cleveland office.

This syndicate this month started issuing a monthly house organ for clients containing news of its staff and tips and hunches for newspaper editors.

Harry Staton, manager of the *New York Herald Tribune* Syndicate, and Clare Briggs, cartoonist, returned to this country from Europe on the *Berengaria* Oct. 30.

The following new features have been added to Editors' Feature Service's budget list: "Gran'ma Gumption," "Penny Thoughts," by Clark Kinnaird; "Time and Tide," by John H. Greusel; a weekly financial article addressed to laymen, by Fred R. Ripley; "Wife Preservers."

Mme. Olga Samaroff, noted pianist and music critic, will again cover important musical events and write a Saturday article of musical comment for the *Post* Syndicate, New York.

Joseph Van Raalte, having recovered from a serious illness, is again writing "Bo Broadway" and "Human Nature on the Half Shell" for Editors' Feature Service. He also has done a 10,000 word explanation of the Hall-Mills mystery for EFS. He was one of the original investigators of the case.

Jean McDonough, author of "The Private Life of a Flirt," has written the text for a new photo-strip being distributed by the Bell Syndicate, Inc., New York, called "The Honeymoon Widow."

The Woman Pays Club, of New York, entertained at a special cartoonists' day luncheon on Oct. 25, and had as its guests of honor Milt Gross, Harry Hershfield,

Cliff Sterrett, Bob Brinkerhoff, Ed Wheelan, Laura Johnson, Edwina Dunn, and Albertine Randall Wheelan. The last three named are members of the club.

Sidney Smith, noted cartoonist and creator of "The Gumps," was married recently to Mrs. Kathryn Imogene Eulette in South Bend, Ind. The couple left immediately for New York on their honeymoon. Mr. Smith gave his age as 42. Mrs. Smith is 24.

Lee Trenholm, who was four years with the Standard News Association, New York, has joined the New York staff NEA Service, Inc.

The first installment of "Borrowed Glory," a new, half-page serial written and illustrated by Carey Orr, Chicago Tribune Syndicate cartoonist, will appear in the Tribune on Sunday, Nov. 7.

Michael Lipman is doing a one-column daily comic for the O'Dell Newspaper Syndicate, titled "The Tootles."

Mr. and Mrs. Glen E. Mahar, the former the Pacific Coast representative of the McClure Newspaper Syndicate, are parents of a daughter. Mr. Mahar is a nephew of Mrs. Clinton T. Brainard, wife of the president of the McClure Company.

Robert George Paterson, associate editor of the McClure Newspaper Syndicate, is in Porto Rico on honeymoon with his bride, formerly Miss Eleanor de Bevoise Tunison, daughter of Mr. and Mrs. George Watson Tunison, of Westfield, N. J.

ADVERTISING AGENCY AFFAIRS

California Newspaper Man Starts New Agency—MacFarlin Company
Opens Ithaca Office—Bell Named Vice-President of
McKinney, Marsh & McMillan

EDWIN A. SMITH, a newspaper man of many years' experience has established an advertising agency at 830 Main Street, Ventura, California.

Mr. Smith was formerly connected with the advertising department of the *Ventura County Star-Post*, and *The Los Angeles Daily News*, at Los Angeles, California.

Smith will be associated with the Ventura Business College, who will furnish all help for the concern and will also teach courses of advertising and commercial law, both in class and by correspondence.

Harold S. W. MacFarlin who has advertising agencies in Buffalo and Rochester has just opened new offices in Ithaca. The MacFarlin Company has just been appointed to direct the advertising for the Crandall Packing Company, Palmyra, N. Y.

The Robert E. Ramsay Organization, Inc., sales promotion agency and direct advertising specialists of New York City this week announced the election of Harold B. Pickering as vice-president. Mr. Pickering has previously been associated with Frank Irving Fletcher, the Elec-

trical Record, Drug Topics and James H. Newcomb & Co. Inc.

C. J. Bell has been appointed vice-president of McKinney, Marsh & McMillan Limited, advertising sales counsel, King St. West, Toronto. Mr. Bell began his advertising career as advertising manager of the *St. Catharines*, (Ont.) *Standard*, resigning to go overseas with the first contingent in 1914.

Seymour Schiele, formerly of the Schiele Advertising Company, and more recently of the Britt-Schiele Company, St. Louis, has been made vice-president of Porter, Eastman & Byrne, advertising agents, Chicago, and has opened a St. Louis office for them in the Central National Bank Building.

E. W. Calvin, for the last eight years sales and advertising manager for Werner & Werner, retail clothing, St. Louis, has resigned to become vice-president of Frank D. Boyd Advertising Company, of that city.

The American Association of Advertising Agencies' executive board will hold its next meeting in New York, Jan. 13.

After several years of investigation and experimentation, the Mergenthaler Linotype Company announces the introduction of a new newspaper body. The new Linotype is an exceptional face. The open type is a lower case—the height of the letters is uniform—the clear spaces are of marked contrast—between thick and thin strokes—the well-fitted units—the maximum letter count—all of these things make this new type a most desirable newspaper face. There are no "pin" or sharp corners to fill up with ink. The lines break down in stereotyped even color of the characters. The new type is adapted to the roughness of newspaper stock. The outstanding advantage of the new face is its preservation of vision. The even tone throughout is restful to the eyes without being monotonous. The variation is enough to avoid tiring. A happy medium has been effected. It is easier to read than seven point faces, yet gives the same word count to the column as six point. Various degrees of leading can be used to advantage, or the lines may be cast on a solid

TRADE **LINOTYPE** MARK

BETTER THAN GLASSES for your readers

Isn't it about time to give your subscribers a dress of type they can read easily and comfortably and save their eyesight?

The new Linotype 6½ Point Ionic No. 5 is a face especially designed to meet modern newspaper printing conditions. Its strong lines and sturdy serifs always reproduce clearly; its round, open counters will not clog up with ink. It gives the word count of 6 point with the legibility of 8 point.

Health and Diet Advice

By DR. FRANK McCOY

Author of
"The Fast Way to Health"

Questions in regard to health and diet will be answered by Dr. McCoy, who can be addressed in care of this paper. Enclose stamped self addressed envelope for reply.

CURING CONSTIPATION

There are two changes constantly going on in the body, assimilation and elimination. It is necessary that the cell structure be replaced with new cells and the waste material be thrown out.

Dr. Frank McCoy

When food is taken into the stomach, it is digested and assimilated as it passes through the thirty feet of alimentary canal. There is always an excess of food left there which has not been absorbed and assimilated for use in the body. This must pass out through the intestines. Both the large and small intestines are important eliminative organs, eliminating not only excessive waste material from the use of too much food, but they also serve as organs for the elimination of body toxins, which are thrown out as a part of the feces. The contents of the colon is composed, in a large part, of these toxins, and only one-third to one-half of the colon's contents is really discarded food material.

The trouble with one who is suffering with constipation is that so much of the toxins are re-absorbed in the body, as the flow of the digestive juices become sluggish under certain conditions and the regular elimination of toxins from the body, which pass out through the colon, is repressed and retarded. When the feces is lumpy and has a tendency to solidify, it is not so much because of the use of the wrong food, as it is because of the fact that the intestines are not functioning as good eliminative organs, and are not throwing out their normal secretions.

One of the greatest causes of constipation must be considered the habit of not going to the toilet at regular times, but instead, waiting for some uncomfortable feeling which suggests the necessity for doing so. Regular habits must be established and each day a certain time set aside for taking care of this important function. The same time should be used each day and nothing allowed to interfere.

The position of the body while on the toilet is also quite important. It is advisable to assume as nearly as possible a squatting position. This can be accomplished by placing a chair close to the toilet and putting your feet on the rungs and bending slightly forward. This position opens up the lower bowels in a certain manner, making the passage of the intestinal contents more easy.

The use of too much sugar and starch, no doubt, contributes very largely to the cause of constipation, as these foods, in themselves, are constipating on account of the sticky effect they have upon the intestines. Lack of green vegetables is also another important cause of a stiff, compact colon. One who lives a sedentary life and does not use the abdominal muscles will be found to suffer from costiveness or some form of constipation.

It is advisable to take plenty of vigorous physical culture exercise each day. The "setting-up" exercise should be used each morning and night, until the abdominal muscles have regained their normal tone, after which one exercise period a day will be all that is necessary. These exercises should be started carefully at first and gradually increased as you find they are not producing soreness. The long walks should also be taken each day, starting with one mile the first day and gradually increasing the distance until you can walk four or five miles without fatigue.

(Continued Tomorrow)

QUESTIONS AND ANSWERS

QUESTION: T. R. writes: Will you kindly let me know if buttermilk is good for me to drink each day? I realize I must drink something, and I am very fond of buttermilk, but I would not like to have it make me any fatter, as I am 195 pounds now, and do not feel comfortable if I am any stouter. What is best to eat with buttermilk?

ANSWER: No other food of any kind should be used with buttermilk, with the exception of one kind of sugar fruit, such as dates, figs, raisins, etc. Buttermilk should not be used with a meal, and if you are desirous of reducing weight, all you need to do is to live on one or two quarts of buttermilk a day until your weight is reduced to the normal. This is a very easy way to reduce. You can take the buttermilk in place of meals, taking a pint at a time. This would make a quart and a half a day, and you will probably lose a half a pound to a pound a day on this diet until you reach the normal.

CLASSIFIED ADVERTISING

Neglecting Results Is a Fatal Fault—Newspapers Develop Wide Appeal in Real Estate Promotion—Burma Merchant Saw New York Ad

NEGLECTING results is a fatal fault among some classified advertising managers in the opinion of C. L. Perkins, *Chicago Herald Examiner*, and a director in the Classified Advertising Managers Association.

"Many classified departments put most of their effort on selling space and forget or neglect increasing results," Mr. Perkins said. "As a consequence, the more advertisements they sell—the more satisfied customers, the greater the reputation for non-production."

There are two methods of creating results for advertisers that are frequently neglected. The first of these is the selling of a greater number of insertions per ad. The other is getting the advertiser to furnish better copy. Many of the advertisements that fail now would produce results with better copy run for a greater length of time. I have discovered by test that real intelligent sales effort is rarely made."

Newspapers are developing a wide appeal in the promotion copy they are publishing to interest prospects in the real estate classifications. A few examples from different papers will prove this assertion to be true.

There is the full page advertisement used recently by the *Cleveland Press*, for example, which is headed "Buy Houses and Lots," with the italic sub-head "From the want-ads in today's Press." Then follows an attractive line drawing of a beautiful residential district and beneath the cut samples of the real-

estate ads appearing on the real estate page are reproduced.

In *Cleveland* the *Plain Dealer* has editorialized on the alliterative and catchy caption: "Making a Home or Making a Mistake." It expounds the theory of rent-saving by home-buying in a manner that is irresistible and ends with the laconic advice: "Let 'prosperous property owner' mean you."

Household furnishings are linked with a home building appeal in a quarter-page advertisement over the signature of the *Kansas City Star*. Under a cut showing a dining room set the boastful assertion is made in boldface type: "Were Two Steps Ahead."

This teaser leads the reader into a simply stated comparison of the nomads of Arabia to "we of the cooler climate" who "prefer permanent homes, attractive household goods, and an atmosphere of contentment and prosperity."

One way to insure the contentment obviously is to buy a permanent home and fill it with attractive furnishings, both of which may be bought at a saving that means later prosperity by consulting classified columns.

An interesting feature story was obtained from the experience of an advertiser in the classified pages of the *New York Evening Telegram* and was printed in that paper recently. It concerned a dealer in second-hand automobiles, who advertised in the *Telegram* exclusively, and gained a new customer in far away Burma as a result.

WITH THE GENERAL ADVERTISERS

Wisconsin Canners' Association to Raise \$300,000 for Drive—A. & P. Stores Increase Ad Appropriation for Campaign in Newspapers—Miami to Spend \$105,000

THE Wisconsin Canners' Association, at its convention in Milwaukee last week, voted a drive to raise \$300,000 among the pea growers of the state for a national advertising campaign in order to bring about the consumption of a large surplus crop stacked up in state warehouses.

More than half of the \$300,000 was pledged before the close of the convention by Wisconsin canners and supply companies, making certain the attainment of the \$300,000 goal.

The fund, it was unofficially stated, will be used entirely upon newspaper advertising and will be concentrated in 42 of the largest cities of the nation whose newspapers reach more than 70,000,000 readers.

The advertising appeal will be based upon the vitamin content of peas cooked in a vacuum. The state's canning industry returns \$17,000,000 to the growers of Wisconsin.

"Newspaper advertising stands ready to eat up the surplus," said H. W. Sehl, Chicago. "Magazine advertising may be artistic, but it is the newspaper that gets immediate results."

C. R. Gerretson, Chicago, was named chairman of the committee to handle the co-operative advertising campaign. Others on the committee are: R. F. Clark, Beaver Dam, Wis.; W. R. Roahe, Grand Rapids, Mich.; A. M. Bellack, Columbus, Wis.; and Ogden S. Sells, Chicago.

To increase its use of newspaper space, the Great Atlantic & Pacific Tea Company will increase its advertising appropriation by \$500,000 this coming year, it was announced this week. The company is now running an institutional campaign in the magazines.

The Chicago office of Lord & Thomas and Logan is now directing the account of the Miller Rubber Company, Akron, O. Magazines and newspapers will be used.

called the "Ben Franklin," and is manufactured by the Columbus Auto Brass Company, Columbus, O.

The Kleen-Heat Sales Corporation has changed its name to Kraase's Inc.

How the United Fruit Company turns a former loss to a gain by means of effective newspaper advertising was described by E. R. Grabow, general manager of the production department of that company at the first international conference of the United Fruit Company at Swampscott, Mass., recently.

"Newspapers are the most productive advertising medium used by the company," Mr. Grabow said. "Due to the newspaper advertising campaign of the last three years, we have been able to fill our ships during the spring and summer months, a period which formerly, so far as passenger traffic was concerned, was a dead loss. We have learned that to sell passenger transportation we must use newspaper advertising and quote prices, and have proved that new sales through the newspaper columns reach higher levels than from any other medium that we employ."

RIO GRANDE MERGER

The *Valley Morning Telegram*, which has been published at McAllen, Tex., has been consolidated at Harlingen, Tex., with the *Valley Daily Globe* of the latter city and the combined paper, issued mornings, is called the *Valley Globe-Telegram*. James Marion Bird published both papers. Edmunds Travis, formerly connected with the *Globe* as editor, has returned to Central Texas.

LONDON PAPERS USING U. P.

Beginning Nov. 1, the *London Daily Mail*, the *London Daily Express* and the *London Evening Standard*, three of the largest newspapers of Great Britain, became subscribers of the British United Press, which distributes the news service of the United Press within the British Empire.

JOINS HERALD-TRIBUNE

Lloyd Jacquet Named Radio Editor Succeeding Stephen L. Coles

Lloyd Jacquet has been appointed radio editor of the *New York Herald-Tribune* to succeed Capt. Stephen L. Coles.

In 1922, when radio received its first great publicity and began to find many enthusiastic fans and followers, Mr. Jacquet, then just out of college, became the first technical radio editor—a new position on the staff of a newspaper—on the *New York Evening Mail*. This paper had started publication of a regular weekly radio tabloid, one of the first in the country. As a background for this work, Jacquet had 12 years of radio experimental and theoretical experience, as an amateur and commercial radio operator.

LLOYD JACQUET

M. D. CAN'T SIGN ARTICLES

British Association Threatens Expulsion of Medical Writers for Press

The British Medical Association has ruled that no doctor may append his signature to an article appearing in the press, and threatens to strike off its roll any doctor offending against this decree.

Sir Thomas Horder, famous physician, has suggested that all articles intended to give the public instruction on health and hygiene should be submitted to a censorship committee composed of doctors and press representatives.

This plan is meeting with much opposition from the doctors.

SOUTHERN PUBLISHERS

Now—more than ever—should the Southern newspaper publisher advertise his market.

The South is growing by leaps and bounds. Its natural resources are being transformed into gigantic industries, creating wealth and giving employment to hundreds of thousands.

This great economic and industrial revolution has created a new army of 20,000,000 potential buyers. Every city in the South represents a great buying power, and every newspaper publisher has a real market to sell.

We know the Southern Market. We understand how to prepare surveys and plan complete copy and layout campaigns that will sell your market and the value of your newspaper to the national advertiser. Let us show you how we do it.

BATTLE CREEK, MICH.

300,000 200,000 100,000 miles and more

Owners' actual records of White mileages -

72 Whites have run **500,000** miles and more each

384 have run between **300,000** and **500,000** miles each

951 have run between **200,000** and **300,000** miles each

1658 have run between **150,000** and **200,000** miles each

4959 have run between **100,000** and **150,000** miles each

giving the astounding total -

8024 Whites have run **100,000** miles and more each

No owner will operate a truck or bus long enough to run 100,000 miles, unless those miles are *money-earning miles*

100,000 miles—White miles—mean more than an exceptionally long distance; more than an exceedingly durable, well-built, well-serviced motor truck or bus.

They mean unusual profits. They mean net earnings—in excess of all costs. They mean continued earnings long after the original cost has been written off the books.

200,000 miles mean all that—doubled. 300,000 miles mean all that—trebled. So on Picture the earnings of the scores of Whites that have exceeded 500,000 miles. Then picture what these mileages would mean in your own business, knowing your average mileages for a week or a month or a year.

White 100,000-mile records are not isolated performances, not special achievements under especially favorable conditions. Whites, by the thousand, exceed 100,000 miles with a regularity that makes it standard performance. . . . All models do it. They do it in all lines of business. They do it everywhere, under all con-

ditions of load, road, weather and climate. They do it in fleets and in single installations.

More than 8,000 Whites have run 100,000 miles and more. More than 1,400 have run 200,000 miles or more. More than 400 have exceeded 300,000 miles. The original cost of most of these 8,024 Whites has been written off the owners' books. . . . And these mileages are actual owners' figures. They do not include many hundreds of additional Whites that have passed 100,000 miles, but whose owners have not sent us accurate records. Neither do they mirror the splendid earning records of thousands of Whites that have been serving dependably for ten, twelve, fourteen years, carrying their pay loads, without reaching the 100,000-mile mark.

This record, published annually, stands alone. No other truck manufacturer has ever published such a volume of evidence of dependability, long life and continuous earning power. No other truck manufacturer can.

THE WHITE COMPANY, CLEVELAND

Our new "300,000 Miles and More" booklet is just out, with the names of all the owners and the number of Whites each owns in each mileage classification. You will find leaders in all industries, firms in your own line of business, your neighbors, your business associates. We will gladly send the booklet free. Write for it.

Before you buy a truck or a bus see the Whites at any of our 75 factory branches or 500 dealers. There is a White model to meet every transportation need.

ARTHUR DUNN IS DEAD; WASHINGTON WRITER

Went to Capital in 1889 for St. Paul
Pioneer Press—Was Representing
New York Evening Graphic at
Death—Wrote Books

Arthur Wallace Dunn, 67, for 37 years a Washington correspondent for various newspapers, died in Washington, Nov. 2. At his death he was representing the *New York Evening Graphic*.

Mr. Dunn first went to the national capital in 1889 for the *St. Paul Pioneer Press*. Later he acted for the *Portland Oregonian*. In 1893 he was placed in charge of the Congressional staff of the Associated Press, a position he held until 1906. He attained prominence as a political writer and toured the country with Presidential candidates. He represented the Associated Press in many national conventions and had a wide acquaintance with party leaders.

For years he sent a daily letter on Washington topics to the American Press Association. He also was a contributor to the *Review of Reviews*, *World's Work* and other magazines. Recently he became the Washington correspondent of the *New York Graphic*. He was the author of "Gridiron Nights," "Frontier Facts and Fiction" and "How Presidents Are Made."

Mr. Dunn was born in Meeker County, Minn., on Feb. 11, 1859. He began his newspaper career on the *Grand Forks* (N. D.) *Plain Dealer* in 1883. In 1890 he married Miss Lillian J. Nash of Chicago. Mrs. Dunn died last September.

Mr. Dunn was an organizer of the National Press Club and had been a member of the Gridiron Club since 1901, serving as President of the latter in 1906. He was a member of St. John's Episcopal Church. Mr. Dunn's son, Lieut. Commander Arthur Wallace Dunn, Jr., U. S. N., who has been on European duty as staff officer abroad the *Memphis*, is the only surviving member of the family. He was abroad at the time of his mother's death.

GEORGE R. STORY

George R. Story, 56 years old, manager of collections for 38 years and credit manager for the last five months of the *St. Louis Globe-Democrat*, died in that city on Oct. 29. Mr. Story's father, the late John Story became connected with the paper's collection department in 1862, being succeeded by George R. Story in 1890. Father and son were connected with this department for 63 years.

ANNIE OAKLEY DEAD

False Story Netted Famous Rifle Shot
Big Damages From Newspapers

Death of Annie Oakley, famous rifle-shot of the Buffalo Bill troupe, at her home at Greenville, O., at the age of 66, this week, recalled to newspaper men her series of libel suits some twenty years ago.

With a firm of Western lawyers she cleaned up a fortune from newspapers and press associations that had carelessly lauded, without verification although Miss Oakley was available at her home at Vineland, N. J., an item that came out of a police court in Chicago. A miserable woman of the street had been arrested on a charge of intoxication through "dope." When arraigned she told the judge that her "real name" was Annie Oakley, and pathetically asserted that she was the "famous rifle shot of the Buffalo Bill Show." She dramatically described her fall and begged for mercy. A reporter took her at her word and the story of "Annie Oakley's disgrace" was spread on the wires to the press of the country and widely printed without question.

When Miss Oakley, a grey-haired woman of stately dignity, appeared before juries in her many actions for damages, and told her story newspaper lawyers were glad enough to negotiate fat settlements in private chambers. It was

never known how many hundreds of thousands of dollars the offending newspapers paid to her, but the amount was substantial.

H. E. ALEXANDER DIES IN PHILADELPHIA

Was Former Owner of Columbus (O.)
Dispatch and Trenton True American—Once Edited Zanesville Signal

Henry Eckert Alexander, a former partner in the ownership of the *Columbus Dispatch*, died at his home in Philadelphia, Thursday, Oct. 28, following an invalidism of several weeks and an acute illness of a week's duration.

Mr. Alexander was editor of the *Zanesville Signal* for several years following its purchase in 1898 from the D. H. Gaumer estate by the Alexander brothers, James R. and Henry E. About 20 years ago, H. E. Alexander disposed of his interest in the Signal and, in partnership with former Congressman Gill, of Steubenville, purchased the *Columbus Dispatch*, which they later sold to R. F. and H. P. Wolfe, the present owners.

From Columbus, Henry E. Alexander went to Trenton, N. J., where he purchased the *True American*, which paper he conducted and edited for several years. It was while in Trenton that he became personally interested in Woodrow Wilson's political future, aided in electing him governor of New Jersey and was also instrumental in securing Wilson's nomination for the presidency.

A few years after disposing of the *True American*, Mr. Alexander became a political writer for the *Philadelphia Record*. His editorial labors impaired his health to such an extent that he spent several weeks during the past summer at Atlantic City, resuming his editorial work a few weeks ago.

Interment was at St. Clairsville, O.

ROBERT D. ANDERSON

Louisville Herald-Post State Editor
Killed in Motor Accident

Robert Doak Anderson, 38, former political and legislative reporter of the *Louisville Herald*, later secretary of the State Boxing Commission and more recently state editor of the *Louisville Herald-Post* was killed instantly in an automobile accident at 3 a. m., Sunday, Oct. 31. Mr. Anderson was on his way home from work when a taxicab, driven by an acquaintance, was sideswiped by a larger car. Anderson was hurled through the window of the cab against a tree on Eastern Parkway, near the Poplar Level Road, and his skull crushed.

Anderson, one of the most popular newspapermen in Louisville, had worked on newspapers here since 1911. He was a veteran of the World War.

He was a son of the late Congressman W. C. Anderson of Newport, Tenn., who, for some years, published a newspaper in that city.

Obituary

MRS. EMMA THRALL, 82, widow of Homer Thrall, late publisher of the *Carey* (O.) *Times*, is dead. Her daughter, Miss Eloise Thrall, is editor of the *Times*.

GEORGE G. BROWNELL, former publisher of the *Jamestown* (N. Y.) *Daily All* and later of the *Jamestown Times*, died in that city at the age of 61 years.

THOMAS E. PLUNKETT, former foreman of the composing room of the *Auburn* (N. Y.) *Advertiser-Journal*, died in the Union Printers Home in Colorado Springs, where he had gone in an effort to regain his health.

JAMES F. CANAVAN, director of the creative departments of the *Providence* (R. I.) *News* and the *Providence Visitor*, a Catholic paper, died at his home in Providence Oct. 22. A native of Worcester, he was advertising manager

of the *Catholic Messenger* for more than 10 years.

Funeral services were held at Columbus, O., Monday for MRS. DAISY KRIER, 45, for a number of years, society editor of the *Columbus Citizen* and later dramatic critic for the *Ohio State Journal*. She died at the home of her daughter in Washington, D. C.

JEREMIAH MEEGAN, 68, father of John Meegan, secretary to W. J. Conners, Sr., and James Meegan of the *Buffalo Courier* staff, died recently.

WILL N. PICARD, 59, former printer and newspaper publisher, died at his home at Arcadia, Cal., Oct. 19. He was in the government printing office at Washington, D. C., for six years and was sent to Manila to install a printing office there for the Philippine Islands. He was born at Williamson, Mich., in 1867 and leaves a wife.

CARL UNHOLZ, 41, former publisher of several Bureau county, Illinois, newspapers, died Oct. 21. He was associated with his brothers in the *Bureau County Record* and later the *Spring Valley Gazette*. Papers in LaMolle and Wyanet and recently at Paw Paw, Ill. were under his management. The widow and a son survive.

CHARLES F. HACKETT, 73, editor of the *Parker* (S. D.) *New Era*, the first paper in Turner county, died Oct. 20 after a long illness. Mr. Hackett had been a Dakota editor and publisher half a century, coming to the state as city editor of the *Yankton* (S. D.) *Herald*. He later purchased the *Swan Lake Era*, which he renamed *New Era*. When the railroad came to Parker, he changed to that city, rechristening his paper the *Parker New Era*.

DANIEL S. MCRAE, 47, since 1923 a member of the *Edmonton*, (Alta.) *Journal* staff, and prior to that for 20 years on the *Edmonton Bulletin*, died Oct. 21. He was a native of Charlotte-town, P. E. I., and gained his early newspaper experience as reporter on the *Guardian* and on the *Examiner* of that city. He went to Edmonton in 1903.

CHARLES T. PIERSON, formerly of the staff of the *Buffalo Courier* and later of the *Buffalo Times*, died recently in Los Angeles where he was serving as vice-president of the Southern California Edison Company. Mr. Pierson represented a number of New York State newspapers as war correspondent during the Spanish-American conflict of 1898. He then went to the *Los Angeles Herald* and later to the *Examiner* resigning to become publicity counselor of the Edison Company.

MRS. HOWARD J. ALBERT, wife of Howard J. Albert assistant circulation manager of the *Pittsburgh Gazette Times*, died at her home in Swissvale a suburb of Pittsburgh, Oct. 30.

IVERSON B. SUMMERS, 64, formerly city editor of the old *St. Louis Republic* and more recently with the *East St. Louis Daily Journal*, died recently. He was formerly connected with the *Chicago Tribune*, Quincy (Ill.) *Herald* and the *Cleveland Press*.

EUGENE F. McLAREN, 50, for many years on the editorial staff of Warren, Pa., newspapers died suddenly at his home in that city on Oct. 30.

JAMES E. MURREL, editor of the *Columbia* (Ky.) *Adair County News*, died last week at his home. He had been engaged in newspaper work for more than 40 years.

GEORGE W. O'BRIEN, who in 1890 established the *Olallam Bay* (Wash.) *Record*, died at his home in Sequim, Wash., Sunday, Oct. 10. Besides establishing the *Olallam Bay Record*, O'Brien also began publication of the *Sequim Press* in 1911 which he sold in 1921. After selling the Press, O'Brien took up the study of law and was later admitted to the bar.

THOMAS F. BRESLIN, for many years Associated Press operator and for about 15 years manager of the Western Union office in Fall River, Mass., died at his home in that city Oct. 27.

JOHN R. MCGILL, 72, for 25 years chief of the telegraph room of the *St. Louis Globe-Democrat* died at his home in Chicago following a general break down in health. Mr. Magill was for 52 years connected with the Western Union. He retired several years ago.

HARRY H. KEMBLE, 65, for more than 30 years a member of the advertising staff of the *Buffalo Evening News*, died suddenly in a Buffalo hospital following an operation for gallstones. He was with the *Buffalo Express* prior to his connection with the News.

THEODORE THEIS, 81, for more than 60 years connected with the printing business in Chicago and a veteran of the Civil War, died Friday, Oct. 22, at his home here. Mr. Theis was born in Luxemburg and came to Chicago with his parents at the age of 4. His first position after the Civil War was in the press-room of the *Chicago Tribune*. He soon became chief engineer of the Tribune plant. In 1869 Mr. Theis became superintendent of the electrotyping plant of Rand, McNally & Co., remaining until his retirement in 1904.

THOMAS J. COLFER, 25, of the auditing department of the *Chicago Tribune*, was instantly killed near De Motte, Ind., when he drove his automobile into a ditch.

THOMAS KAVANAUGH, known for years to thousands of readers of Harvey T. Woodruff's column, "The Wake of the News," in the *Chicago Tribune*, under the nom de plume of "Tyrone," died Oct. 25. He was one of the oldest contributors to the column.

LON P. SUTTER, 44, for many years engaged in the newspaper profession in Pittsburgh, died in the Pittsburgh Hospital on Oct. 20. He was connected with the old *Pittsburgh Leader* and for some years was railroad editor of the *Post*. Later he became associate editor of the *Iron Trade Review* and then entered into the steel business.

MRS. ELLEN KNABB, 93, widow of Jacob Knabb, publisher of the *Reading Times and Dispatch* for many years, died at her home in Reading, Oct. 18.

DAILY PAPERS FROM OTHER CITIES
HOTALING'S NEWS STAND
BROADWAY AND 43RD ST.
NORTH END THE TIMES BUILDING

"Perhaps the most cosmopolitan spot in New York City is Forty-third Street and Broadway . . . Here is a mammoth news stand which sells newspapers from every city in the world. . . Every town has similar stands, but none as huge as this, and none as varied and as picturesque in its patronage."

—Boston Transcript, Oct. 29, 1921.

HOTALING'S NEWS AGENCY, 308 WEST 40th STREET, NEW YORK

The Final Cost

It is not altogether the cost of fuel, but the cost of *using* it that tells the final story in your ledger.

One firm reports a 28% reduction in heat cost, for one process, through using gas.

Another firm has increased its productive capacity 6.4%.

Still another is saving at the rate of \$40,143.40 a year.

Thousands of similar cases might be cited.

But the important thing to you is: what will gas do in *your* plant?

Our interesting book, "Gas—The Ideal Factory Fuel", may help you to find the answer. Write for a copy today.

Four Advantages of Gas

Dependable—

any time, any place, any quantity.

Economical—

lowest final cost per unit of production.

Controllable—

exact temperatures, automatically controlled.

Clean—

comfortable factory working conditions.

American Gas Association
342 Madison Avenue, New York City

**YOU CAN DO IT BETTER
WITH GAS**

By MARLEN PEW

ONE evening, after we had read our paper through and voted it as dull as dishwater Bill pointed to the fat discard hook in the center of the copydesk and said: "With no disrespect to anyone on this paper, I'll venture the belief that if the stuff on that hook had gone to the composing room and the stuff that went to the composing room had gone onto that hook we would have a paper worth reading tonight." He took the sting out of the remark by adding: "The trouble with us all is that we are as conventional in our selection of material as any drab old spinster in the choice of hats. We fear above all else that we might do something that has not been done before. Let's examine the discard hook." We did that little thing and got some shocks.

* * *

IT is long ago and I can only faintly recall the details of the revelations that came from a study of the discarded copy, but I do remember that we found story after story, fruit of the wires, syndicates, state correspondents and the local writing staff that seemed so much better than anything our pages were reflecting as the day's news that we were half sick with disgust in our work. Not only did we find wonderfully good stories in the discard, but investigation of the cut copy showed us that it had been the evident business of the copydesk to extract from almost every reporter's copy all of his fancy touches, flights of imagination, penetrating observation, strokes of color, humor and all of the scenery of his stage, making his actors strut on bare boards. The slaughter had been terrific and we sought to analyze the situation to find cause. Yes, some of the copy had been sloppily written, the work of our amateurs or experienced men who were not in the mood to do their best that day. This copy needed revision and the alibi was that no one on the desk had had time to furbish it. This did not, however, explain the elimination of dozens of excellent stories—good for the printers as they stood. Most of the good stories and the cut flourishes, we decided, represented the copydesk's determined effort to conserve newspaper conventions, a deadly process. Not only did it take the heart out of the paper, we decided, but it left every man on the staff coldly indifferent. It was poor stuff in those days, and it's just as poor stuff today. Almost any experienced newspaper man can, by reading a newspaper, tell whether the staff is working with that delighted, zealous interest that makes for achievement and joy in life or is whipped to a standstill by the repressions of executives who for reasons beyond their control fear to picture life as it exists or are so conservative and conforming in their natures as to be disqualified for the work.

* * *

FEW will debate against me when I assert that there is a tremendous amount of do-nothingism in our journalism today. I am fond of my craft and am here to defend it, but I know far too many men who have squandered their entire lives in the newspaper business without an achievement that can be recalled even by their closest friends, to write any blanket endorsements. They seem to be out of place. They have no conception of the power of their medium. They have no ambition that any clerk in a shoe store does not possess on equal terms. Whatever ability they may have to see and write of life is iron-

bound with drab conventionality. In their makeup there is no hint of the urge of Voltaire, Hugo, Dickens, Dana, Pulitzer, Watterson, Older or Magee to write something, some little or great thing, to let the light into the dark corners and guide our stumbling feet. Punishment is not for them, and they take care to avoid all complications. They are sometimes fired, all eventually die, but none resign.

* * *

THESE unhappy remarks spring from an event recently related in EDITOR & PUBLISHER office by a young newspaper man well-known to us as a "comer." After several years of successful work on various newspapers in New York he took a reporter job in a northern city and it lasted for a month. He was undone by his ability to produce a legitimate "beat." But let him unfold the yarn: "I am sure I acted a humble part in the office, but the M. E. had his eye on my stuff from the start. He had confided when he hired me that he did not want any 'funny stuff,' meaning that he was not in the market for metropolitan brilliancy. Of course, it was not much of a concession for me to make, since I boast of no such quality. I caught an assignment that led to another story that concerned one of Henry Ford's recent exploits. On my own initiative I worked on the story all day and half the night and landed it on the desk in the morning, with pictures. The M. E. came in late and the story appeared in the first edition. The wire service picked it up and carried a couple of hundred words. There was an explosion. The M. E. was profanely inquiring the source of my news. He confronted me with anger plastered all over his ample countenance. Where had I got it? Why, I got it from the people concerned; their interviews attested its authority. Said the M. E.: 'I think it is a fake. It doesn't read like our stuff. You can't run any of your New York monkey-shines on us.' I showed him photographs that proved my story, but he sent another reporter out to confirm it. He came back with a report favorable to me, but our stubborn boss continued to doubt the story and played it down. He looked at me with suspicious eyes for the remainder of the week when, much obliged, a Sunday paper in a large near-by city presented the same story, fully confirming my statements. Then my boss felt better but somehow, I had lost confidence in him and his shop. I did not care to remain and take the awful chance of being fired for handing in a legitimate beat."

* * *

A LITTLE incident, but it may explain more than is on the surface. A stupid editor, to be sure, but in varying degrees his like is not uncommon. Newspaper men knew the Teapot Dome story long before they started to write about it. It was queer that Tammany Hall would startle the people of New York with an exposé of milk grafting. Reporters are hog-tied by unwritten and unsaid repressions more often than we like to admit. But I know stores of offices where men are as free as men have ever been in American journalism.

"EAT MORE CURRANT BREAD"

Gordon Boggon, who organized the British "Eat More Fruit" advertising campaign, has control of a campaign to popularize currant bread the contract for which runs into many thousands of pounds.

Announcing The Galveston News (Morning and Sunday) and The Galveston Tribune (Evening) Combination

The GALVESTON DAILY and SUNDAY NEWS and the GALVESTON TRIBUNE are now under the same ownership and management, the TRIBUNE having been recently purchased by the GALVESTON NEWS.

Effective November 8, 1926, space will be sold in the national advertising field at a combination rate of 10 cents per line daily, FLAT, and which rate covers both newspapers, as space will not be sold in either paper separately.

Where an advertiser uses the SUNDAY NEWS with the EVENING TRIBUNE, instead of one of the weekday issues of the NEWS the rate will be 1 cent per line additional, or 11 cents per line, FLAT, for the SUNDAY NEWS-EVENING TRIBUNE combination.

Advertising may appear in both publications on the same day, or in the evening of one day and the morning of the next as may be preferred.

The GALVESTON NEWS-GALVESTON TRIBUNE combination gives to the national advertiser an absolutely complete coverage of the rich and responsive Galveston territory with over 70,000 population, which includes Galveston and the immediately surrounding prosperous points, such as Texas City, Lamarque, Dickinson, Hitchcock, League City, Alta Loma, Arcadia and Port Bolivar.

The GALVESTON NEWS was established in 1842—84 years ago—and the GALVESTON TRIBUNE in 1880—46 years ago.

Both newspapers are influential and respected in their community, and advertisers may be assured of reaching, through them, every worthwhile home in the Galveston field.

HOW IOWA ADVERTISED

Publisher Tells Inland of Success Through Editor & Publisher's Columns

(By Telegraph to EDITOR & PUBLISHER)

CHICAGO, Ill., Oct. 21.—How the advertising of a state by its publishers was put across was graphically described by an Iowa member, Frank D. Throop, publisher of the *Davenport (Ia.) Democrat*, at the Inland Daily Press Association this week. He told of his pride in the close association of 28 Iowa newspapers which finally became the working body from 33 responses sent in from 45 Iowa newspapers asked to join the campaign. The Iowa publishers at first tried a song about tall corn to advertise the state but decided that the nation was misled into overlooking other Iowa interests. So they went in for paid advertising. They scattered their message among trade journals and newspapers but finally, in the last year, concentrated trade journal advertising in the EDITOR & PUBLISHER, with excellent results, he said. A full page a week in EDITOR & PUBLISHER brought in new contracts from foreign advertisers at a rate heretofore unknown to the group, Mr. Throop declared. He cited figures to show the increased lineage in the papers represented in the advertising group in 1926. There has been a gain of 3,660,425 lines as compared with 1925, a gain of 21.39 per cent. The advertising volume from January 1 to September 1, 1926, was 19,690,790 lines, he stated, as compared with 15,949,365 lines for the corresponding period in 1925. EDITOR & PUBLISHER, after a thorough test, has now been decided upon for concentration as an advertising medium, Mr. Throop said. When the newspapers had been organized an agency was agreed on and copy prepared for a broadside. All the member papers used the same copy so that not only was the message spread nationally but Iowa was sold to itself with pleasing results.

CLASSIC VINDICATION OF PRESS IN HALL-MILLS TRIAL

(Continued from page 4)

believe the trial will be over in about a month or even three weeks, some have settled down here for a long stay, having brought their wives with them to this place which is anything but a resort town in itself but is picketed with many attractive road houses and dancing pavilions along the newly paved state roads. This is the quiet gang. Maybe they play bridge or go to the movies.

One place quite near the courthouse has developed into a sort of Amen Corner. It boasts an easy if somewhat cheaply covered lounge and a number of comfortable chairs and a piano. Veterans of the case may be found here almost anytime of an evening and up into the early morning hours discussing theories, asking questions, comparing notes and questions, or merely wise-cracking. From behind a closed door nearby comes a rhythmic clicking and a clinking.

In the Mirror house there happens to be 13 people and one black cat. The lone newspaper woman in the crowd, Gladys Calvert, a fetching brunette with blue eyes might be the 13th. Or is she lucky?

Newspaper men placing bets are asking odds of \$10 to \$3 on acquittal, even money on jury disagreement, and no money can be found to be wagered on the possible verdict of guilty.

An example of how the metropolitan newspapers assign their special trial staffs to cover the story may be seen in the case of the New York American. Damon Runyon is writing the daily lead for this newspaper and Universal Service; Miss Evelyn Lee Boone covers heart-interest stuff; Louis W. Fehr, legal aspects; John O'Donnell, features; Robert Conway, defense; Jack Hyatt, Jr., prosecution; Joe Schoenfeld, utility; and Arthur Miller, photographer. H. V. Wilkins, assistant city editor is in charge.

The Mirror's line-up is being directed by George Macdonald, city editor, and Herbert B. Mayer, originally assigned to the investigation which led to revival of the case. Reporters are Edward Doherty, Gladys Calvert, Arthur Mefford, Arthur O'Sullivan, Ray Doyle, and W. Pledge Brown. Five cameramen are assigned to the story by the Mirror. They are Walter Ranzinni, Tom Flanigan, William Wallace, Fred Must, and Jess Strait.

For the New York World are Dudley Nichols, writing a color lead; Eddie O'Toole, and Mazie Clemens.

Eugene McHugh, city editor, directs the staff of the New York Daily News, which, including three copy boys, numbers 19. The working quarters over a barber shop are equipped with typewriters, telegraph instruments, and dark rooms for developing picture plates. Under McHugh are George Kibble, Jack Reilley, Bob Acton, Grace Robinson, Frank Dolan, Floyd Acuff, and the photographers, Martin J. McEvilly, Edward Jackson, H. R. McCorry, Theodore Dalton, Philip Levine, Nick Petersen and Jack Tresilian.

Somerville people, despite the fact that 1,000 crowded on the court house lawn the first day appear to be generally stolidly indifferent to the trial. The inrush of visitors has stimulated trade and the townsfolk are busy tending their own businesses.

It is a different story in New Brunswick. It is there that New York and Philadelphia papers have put on circulation, particularly the former. When the second investigation first started young boys 12 and 13 years old were making \$15 a day selling the New York Mirror for five and ten cents a copy. They would get their bundles at the New Brunswick station at about 10 o'clock in the evening and take them home for the night. In the morning they would be on the streets as early as 5 o'clock to sell copies at a premium. The young son of the taxi driver who brought the writer to Somerville from New Brunswick still makes sometimes as much as \$8 a day selling the Mirror, his father said.

And if newspaper men are good judges of what the public wants, this story must also have a phenomenal international appeal.

"Its got the Thaw case beaten a mile," Denison of the Evening World said. "The Thaw story was simply a smut case. The Leopold and Loeb trial also exclusively concerned degenerates. This trial has got everything."

Louis Fehr, New York American, who as a lawyer as well as newspaper man and detective story writer has witnessed many trials declared the Hall-Mills case made the best newspaper story he has ever covered.

"It is the most fascinating and interesting case I have ever written about," he said. "It has in combination every element that makes a murder case great. Romantic love is confronted by the obstacle that both lovers are married and further complicated by the fact that both have religious scruples, making their relationship seem criminal to themselves. It involves people of wealth and social position, endangered by humiliation and legal punishment. The mystery surrounding the case has persisted for four years. As a whole, it represents a stupendous drama of the power of the state with all its agencies massed seeking the price of human life from persons placed in the pillory of indictment. And ranged with the power of the state is the power of the press."

"When the light is focussed on the court room it makes the legal trial the greatest game in the world, viewed by a public with mingled emotions of cruelty and sympathy, the same intermingling that caused the Romans to rule thumbs up or thumbs down on the people fighting for their lives in the coliseum."

COURT ORDERS ADAMS TO PRODUCE LETTER

Key Document in Indiana Klan Exposé
Wanted in Connection with Libel
Suits—Editor to Continue
His Fight

Thomas H. Adams, publisher of the *Vincennes* (Ind.) *Commercial*; Court Asher, former henchman of D. C. Stephenson, ex-Klan leader in Indiana, and William O. Feudner, secretary of the Indiana Republican Editorial Association have been ordered by Judge James M. Leathers of Superior Court, Indianapolis, to produce the original "contract letter" between Mayor John L. Duvall of Indianapolis, and Stephenson, a facsimile of which printed in the *Indianapolis Times*, led to a \$1,000,000 damage suit by Mayor Duvall against the *Times*, Adams, Asher, Feudner, the *Chicago Tribune* and others. The order was issued by the court on motion of Duvall's attorneys, whose suit alleges conspiracy to slander.

The "contract letter," addressed to Stephenson, who is now serving a life sentence in the state prison for murder, and with Duvall's name attached, contained a promise of extensive patronage if the former Klan leader would lend his support to Duvall's election. Mayor Duvall denies the whole document and calls it a forgery.

Editor Adams has announced that his political probe will "slow up" until sometime after election and has left Indianapolis for his home in Vincennes.

Adam declares that his own committee probe has not been abandoned, but merely "slowed up," and that it will be pushed through "to the finish." He says that "the result of the election will have no bearing on this kind of investigation and is of no importance to our work."

AFRICAN JOB OPEN

The candidate department of the Board of Foreign Missions of the Presbyterian Church, with offices at 156 Fifth Ave., New York, is seeking "a young man between 25 and 30, who understands monotype and linotype printing, and can manage and instruct a large force of native printers and apprentices"—and who also wants to go to Elat, West Africa.

10TH DISTRICT REELECTS SIMPSON CHAIRMAN

150 Attend Annual Meeting in Beaumont, Tex.—Earle Pearson Says
Advertising Dictates
Public Habits

After choosing El Paso for next year's meeting and re-electing Chairman James P. Simpson and Secretary Beemer Fisher, both of Dallas, the Tenth District International Advertising Association two-day convention ended at Beaumont Tuesday.

Among principal speakers was Earle Pearson, general manager, I. A. A. New York, who declared that America is the only nation which has reached the advertising-wise stage of development.

About 150 attended the Beaumont sessions. Many delegates, passing through Houston, were entertained Saturday night at a dinner given by the men's and women's advertising clubs of that city, with Robert H. Cornell as toastmaster.

The ad men reached Beaumont Sunday, when they enjoyed a trip down the Nechehes River to Port Arthur, with dinner there. On Monday Beaumont tendered them an automobile ride a speechless banquet and dance.

Waco and Wichita Falls invited the Convention for 1928. A "Futuristic extra" of the *Waco News-Tribune* was distributed forecasting selection of that city, while Alva Willgus, of Wichita Falls, nominating El Paso for 1927, said Wichita Falls expected to be chosen for 1928.

Declaring that America has become advertising-wise in the last quarter of a century, Pearson explained that he meant the public of America has come to accept advertising as a guide in the purchase of commodities, selection of securities and choice of services offered by various business enterprises.

"It accepts advertising as a matter of course and is influenced by it in its buying habits, whether knowingly or otherwise," he continued.

"If you don't believe this is so, compare the place of advertising here with that of other countries where advertising is just gaining a foothold. I attribute this in large part to two important factors, first, the efficiency with which advertising is used and the success the American manufacturer and retailer have had in making advertising of direct service value, not only to the advertiser but the buying public as well. Secondly, the organized effort through the Better Business Bureau movement in making advertising truthful, which has given the public reason to place confidence in advertising."

Besides Simpson and Fisher, officers elected include: Vice-Presidents, Art Millican, El Paso; E. C. Taulbee, Waco; Directors, I. W. Brown, Fort Worth; W. A. Garrabrant, Beaumont; L. Martin, Corsicana; Miss Louise Upshaw, Dallas; Paul Sargent, El Paso; H. A. McCelvey, Houston; R. G. Coulter, San

Antonio; Joe Dawson, Dallas; J. F. Reed, Galveston; J. M. Binkley, Sherman; Mrs. Clara Robinson, Houston; Alva Willgus, Wichita Falls; Miss Josephine Fisk, Wichita Falls; Miss Marion Johnson, San Antonio.

Put on the program as a substitute Dr. T. S. Armstrong of Groesbeck, Tex., proved a headliner with the church advertising address he delivered at the Philadelphia convention. Others participating in the program were: J. R. Ozanne, Chicago; Bob Mooney, Temple, Okla.; Frank Shoup, Dallas; Dale Rogers, Houston; Frank Colby, Houston; L. A. Rogers, secretary, International Association of Display Men, Chicago; George Forristall, Houston; Harry Riehl, manager, St. Louis Better Business Bureau; C. B. Gillespies, *Houston Chronicle*; F. W. Ellsworth, New Orleans; John W. Carpenter, Dallas, head of the Advertise Texas Committee.

DAILIES OFFER REWARDS

Blade and News-Bee Offer Large Sum
for Arrest of Slayers

The *Toledo Blade* has posted reward of \$1,000 each for the slayers of Lil Dale Croy and Mary Ann Alden who were murdered in Toledo recently. Renewal of the clubber hysteria has followed the murders of the women.

The *Toledo News-Bee* has a standing offer of \$500 on the clubber. Miss Croy, a school teacher, was slain on her way home from a night class in Toledo university. Mrs. Alden was found dead in her home six or seven hours after police received an anonymous telephone tip of a shooting at Mrs. Alden's home.

An attack was made on Norman Hauger, *Blade* staff photographer, at the Croy funeral by a relative of Miss Croy who thought the case had had too much publicity.

The relative, aided by a plain cloth policeman, took a plate from Hauger's camera. The camera was only slightly damaged. Hauger offered no physical resistance.

MAGAZINE MEN SEE COOLIDGE

A delegation of magazine publisher headed by Cyrus H. K. Curtis, and representing the National Publishers Association, conferred with President Coolidge in Washington Oct. 27. It was indicated they were interested in revising the Post office Department's budget system in manner which might result in lower postal rates. Others in the delegation were R. J. Cuddihy, *Literary Digest*; A. Baldwin, association president, and A. Pearson.

FIVE NEW A. P. PAPERS

Election of five newspapers to membership in the Associated Press was announced this week. They are: *Peoria* (Ind.) *Morning Chronicle*, *Hiawatha* (Kan.) *Daily World*, *Suffolk* (Va.) *News*, *Lubbock* (Tex.) *Avalanche*, and *Yokum* (Tex.) *Herald*.

How Much SALES ARE *You Losing in* NEW YORK State?

1,748,886 families representing 1,215,640 incomes must be fed, clothed and amused every day in the year in the Empire State. How many of these families, when they visit the grocer, druggist, hardware dealer, shoe store, clothier or department store, ever ask for your product? Do these 11,162,151 New Yorkers know of its existence and its value to them?

How much sales are you losing? Why not go after these buyers who purchase every worth while commodity under the sun, without limit to price or quality?

The people of the Empire State, richest of all States in the country, pays 25% of the nation's taxes. In this prosperous territory 146,639 have incomes of \$5,000 and over.

Don't overlook this major market. It is easy and economical to cover. The newspapers listed below will show you how.

LO! THE POOR AD SALESMAN!

One of the Tribe Pauses Between Leaps from Door to Door on His Pogo Stick to Tell Hardships of His Lot

By M. JAY KLEIN

I AM only an advertising salesman. In other words I am the guy that pounds the pavement. The famous slogan that applies to the letter carriers and appears on the front of the general post office in New York, which reads, "neither rain nor snow nor heat nor cold, can keep these couriers from their daily appointed tasks" can be applied to me and my ilk.

In the editorial rooms, our efforts and our work is termed prostitution. The advertising managers—our chiefs—look down on us as necessary evils. The business office terms us as deliberate conspirators. The paymasters smile when they hand us our weekly salary—a smile that seems to say "what nerve! Here again!" Our clients, as we call our advertisers, think that we were born purposely to annoy them. The composing room gang think we are absolutely dumb and hopeless.

When the advertising agency that handles our pet accounts make an error—they blame the advertising salesman. If we give one of their advertisers good position—the agency gets the credit. If we should get the account direct from the advertiser—we get cussed at by the agency. If we go to the agency first—we are told to see the account. If we originate an idea—and some of us do sometimes—and submit it to the advertiser and he thinks well of it—the advertising agency kills it, because it can't be any good if it comes from an advertising salesman. If we submit it first to the advertising agency—the agency takes the credit and gives the advertising that was created through the idea to another newspaper, other than the one that we are employed by. The agency contact man then picks a fight with us—and tells us "to stay the hell away from their office." If the agency is young and struggling they cater our friendship—to get all they can from us. When they get big and a few of them do—they have us transact business with them through their office boy, or some smart female sekretary.

When an agency gets instruction to put our paper on their list—they call us up first and with the dignity of a Queen inform us of the task they had convincing the dumb advertiser that ours was the right medium to use. When they cannot get us the copy—they tell us with a smile how utterly impossible it is for them to get us on the list—but to come back again for the final no. We never hear the final NO from the advertising agency principal, but get it from the impish office boy, who tells us "de boss said NO, on the Bumkem account."

When big sporting events break, the agency gentlemen call me by phone and ask me to call on them. The interview usually ends by saying "try and get me two, way down front, won't you old man," and I and others of my ilk fall for that.

Our bosses think that all we do all day, is sit at shows and smoke big cigars, that the paper is paying for. Some bosses think that we devote our few waking hours to shooting pool. They think that the advertising we bring in was mailed to us, with a pleading letter—"asking us to please insert it."

The advertisers think we are just one step below a gunman. They believe that the type rule we use—some of us carry type rules—is a dagger, and if they refuse us their copy—we cut their throat. If a newspaper man commits a crime—the newspapers carry the story that the criminal was an advertising man. If an advertising man does something worthwhile—the newspapers carry the story that Mr. So and So is an editor.

The only time our name ever appears in print in the paper that employs us is when we die. Then they charge our estate so much per line, under death notices. The only time they give our clients any publicity is when the advertiser gets in wrong.

We get hired and fired at the will of any advertising manager. If we last a year, we get a vacation. If at the end of the vacation our clients still stick to us, our manager gives us the gate. If we ask for explanations, we are told that "well, old man, you are not doing anything for us, you see you went away and copy is still coming in." When we leave or get fired, the boys usually give us a token of their esteem. This token is usually a well fitted traveling bag and bears a cheery message "hope you use it often."

Most of us get flatfooted on the job. None of us ever get wealthy. Next time you pass a mansion, you can safely bet that no advertising salesman lives there—but some dumb guy, who made his wealth through the ideas of some clever advertising salesman.

Cal Coolidge, our President, credits advertising and maintains it is a mighty fine thing for any business. But who sells it—the editor—the publisher—the star reporter—the bookkeeper—the advertising agency—no sir—it's the humble advertising salesman, me and some other guys.

AUSTRALIAN RECORDS SMASHED

Australian records for big papers were smashed last month when the *Melbourne Argus* and *Australian* issued a souvenir supplement to mark the completion of their new offices. The complete paper was made up of 56 pages of 8 columns each, the ordinary news section comprising 24 pages and the supplement 32. As an example of half-tone work the issue has special interest to newspaper men, the cuts being produced with exceptional clearness and detail.

FIRE DESTROYS OHIO PLANT

Fire caused by a defective flue destroyed the plant and equipment of the *Bedford* (O.) *Times* entailing a loss of \$35,000 with partial insurance.

From the Linotype Mailbag

"That's the Kind of Service"

Please accept our thanks for your promptness. Part ordered by wire about 10 A. M. Friday was received on the 8 A. M. I. C. train Saturday, September 4. That's the kind of service I like and it is a pleasure to deal with a concern which is interested in its customers.

TRADE LINOTYPE MARK

NEWSPRINT 80% PULP DUTY FREE IN U. S.

Customs Court Holds Term "Standard"
Covers Material Useable
on High Speed
Press

A decision has just been handed down by the United States Customs Court, involving the correct tariff treatment of standard newsprint paper imported at Ogdensburg, by F. W. Myers & Co.

In summarizing the court's conclusions, Judge Fischer held that the term "standard newsprint paper," being without any definite or uniform trade meaning, must be construed in its ordinary sense. Paragraph 1672 of the Tariff Act of 1922, he declared, contemplates newsprint of a standard weight of not less than 30 nor more than 35 pounds a ream of 500 sheets, 24 by 36 inches, of tensile strength sufficient to meet the requirements of modern, high-speed newspaper presses with a minimum of "breaks," and of a texture, quality and finish to insure the ready absorption of ink and the production of clear impressions without indication thereof on the reverse side.

In concluding, Judge Fischer states that while the purchasing publisher determines the color, he regards as immaterial the nature or kind of ingredients.

The court decided that newsprint containing 80 per cent mechanically ground wood pulp and 20 per cent sulphate is free of duty under Paragraph 1672, as standard newsprint paper. The collector at the port of Ogdensburg assessed duty on the paper at the rate of $\frac{1}{4}$ of 1 cent per pound and 10 per cent ad valorem under Paragraph 1301, as "printing paper not specially provided for," which assessment is set aside by the court.

Our idea of a conservative radical is a person who merely touches the affected spot with his fingers when he sees a fresh paint sign, instead of sitting down on it.—*Ohio State Journal*.

A paper with the people

The public decides the progress of a newspaper.

The continuous rising circulation of the New York Evening Graphic vividly demonstrates popular acceptance of this newspaper as a medium of unusual reader interest.

Advertisers daily realize the benefit of this power through achieved results from the advertising columns of the New York Evening Graphic.

With a constantly increasing circulation, plus a constant growth in advertising lineage, the New York Evening Graphic offers the advertiser an extremely profitable opportunity.

The Roche Advertising Company, 310 South Michigan Boulevard, Chicago, has been appointed to the account of the National Toilet Company, Paris, Tenn.

Arthur Rosenberg Company, 110 W. 34th street, New York. In charge of advertising account of Leon, Inc., New York.

E. T. Sadler Company, 431 North Michigan avenue, Chicago, is sending copy schedules to middlewest papers on Mid-Continent Petroleum Co.

Russel M. Seeds Company, Indianapolis, is preparing a list on Milks Emulsion Company, Terre Haute, Ind.

Southwestern Advertising Agency, Dallas, Texas. Sending out schedules to Ohio and Southern papers for the Standard Oil Company, New Jersey, manufacturers of "Flit."

Herman W. Stevens Agency, Globe Building, Boston, Mass. Placing a campaign for Deerfoot Farm Sausages and Deerfoot Milk on first pages of all New York and Boston newspapers from October to March.

J. Walter Thompson Co., 410 North Michigan blvd., Chicago, will handle the advertising of Libby, McNeil and Libby, Chicago, on their Chili Con Carne in the near future.

W. I. Tracy, Inc., 270 Madison avenue, New York. Placing orders with some New York City newspapers for the Chisel Edge Claw Hammer Company, Hoboken, N. J.

About a half dozen coast papers are receiving copy from **Turner Wagener Company**, 400 North Michigan avenue, Chicago; on Nichols Nasal Cream, **Charles H. Nichols Co.**, Chicago.

Vanderhoof & Co., 167 East Ontario street, Chicago, is issuing schedules to a few Middle West papers on Quix Laboratories (a corn cure), 28 line copy to run several times.

Wade Advertising Company, 130 North Wells street, Chicago. Starting a campaign in Middle-west newspapers to advertise Protane Bottled Gas, for the Illinois Bottled Gas Company, Chicago.

White Truck Co., Cleveland, is expected to do some advertising soon through D'Arcy Advertising Co., St. Louis, Mo.

P. P. Willis, Inc., 507 Produce Exchange building, Toledo, Ohio. Handling the account of the Duesenberg Motors Company, Indianapolis, Ind.

Winsten & Sullivan, 19 W. 44th street, New York. Placing advertising for the Hammond Typewriter Company, New York.

FREIGHT INCREASE APPROVED

An increase in freight rates on newsprint and poster paper from Camas, Wash., and Oregon City and West Linn, Ore., to Spokane and related points in the northwest was found justified Oct. 28 by the Interstate Commerce Commission in Washington, D. C. The order issued by the commission permits the railroads to increase their present rates on newsprint from 40 cents to 54½ cents per 100 pounds.

ILLINOIS

Has more railroads per square mile than any other State

Illinois is the home of the greatest railroad center in the world. Twenty-four trunk lines enter one city alone and make direct connections with 12 steamship lines. Illinois has 12,545 miles of standard steam railroads, and 2,700 miles of electric line. Being midway in the nation—the railroads radiate from Illinois as the streets and boulevards radiate from the business district of a large city. North—South—East—or West—the main lines have their central terminals in Illinois. To serve the great buying Nation, Illinois has developed the greatest package freight center in the world. More than 2,500 package freight cars leave one city alone every 24 hours. This perfect system of transportation is the great reason for the rapid rise of Illinois as a leader in the world's commerce. As a market for the national advertiser, very few equal it. Its people know values and are great consumers of quality products.

Enlist the aid of the newspapers listed below, and they will show you how the most profitable market in this country can be covered through the newspapers economically and profitably.

*A. B. C. Statement Oct. 1, 1926

†Government Statement, March 31, 1926

SAYS A. B. C. RULES PREVENT COMPLETE AUDITS

(Continued from page 7)

number of publishers have said that the Audit Bureau has always treated them fairly and that they have had no trouble and no deductions. Probably they have experienced the average perfunctory audit.

I claim that it is to the interest of the publisher to have the most rigid audit possible. Such an audit will put his whole circulation department on their toes. There will be greater efficiency and less white paper waste. It will save the publisher money and give the advertiser more dependable information.

I most certainly believe that the Audit Bureau needs a thorough revision of its rules and its methods of auditing. It should have no rules which are not published and which are not uniformly applied. They must not use one yardstick to measure my circulation and a different yardstick to measure the circulation of my competitor.

The Bureau is insisting on deducting the left-overs in the hands of all my news agents although they do not average 5 per cent. They are not deducting the left-overs of the Tulsa papers, the Wichita, Fort Worth or Dallas papers, all of which are close competitors. I am refusing to allow the deductions and shall continue so to refuse. The rule of law is, the Bureau cannot apply a rule to me which is not in accordance with their general practice. The tabulation of my questionnaires shows that the Bureau does not apply this rule to 94 per cent of its members. My attorneys tell me that so long as that is the case, I have nothing to fear.

Now why do you suppose the Bureau refuses to tell me where they are making these deductions? If a special audit disclosed this number of left-overs or excess circulation, the auditor certainly knows where he found it. If a publisher knew where to cut it off, he would want to cut it off, but if the figures were not correct and the auditor were merely fining you a certain amount of circulation, it is natural that he would not wish the figure reviewed.

The auditor's figures for my papers could not possibly have been arrived at correctly. I have already cited the fact that there are 395 towns in which we have twenty-five copies or more. The auditor visited seven of these towns. The seven towns happen to have agents as they were close-in, large suburban towns. But that auditor and no other auditor has ever gone to the other 388 towns and neither the Bureau nor our circulation department knows how many of those towns contain agents or just plain news dealers.

In addition to the towns with 25 or more copies, we have 394 towns containing dealers, a total of 791 towns. Even if we knew what a news agent was, there is not a man on God's footstool who knows how many of these dealers are strictly news dealers and entitled to a 5 per cent of left-overs and how many are agents and any percentage which the auditor may have attempted to apply was bound to hit some news dealers and it is admitted that none of the agents showed

as much as 5 per cent of left overs. Right here I want to give an illustration of how impossible it is to make a distinction between news dealers and news agents:

No. 1.—We have a man who receives 20 copies daily and 25 Sunday, who has no regular subscribers and disposes of the entire number over the counter at his news stand. He is strictly a news dealer.

No. 2.—We have a man in eastern Oklahoma who conducts a news stand, who receives 20 copies of the Daily Oklahoman and 25 Sunday. He has 18 regular subscribers. They call at his place of business for their papers. The two daily and seven Sunday extras are sold over the counter to transient buyers. Is he an agent because he has a majority of regular customers? He can't be an independent carrier because he doesn't carry them.

No. 3.—In southwestern Oklahoma we have a boy who is receiving 20 daily and 25 Sunday. This boy has 18 regular subscribers to the daily and Sunday. He makes delivery to his regular subscribers and sells the two extra dailies and 7 extra Sundays on the streets or at the railway station. He has no news stand and is an independent carrier.

No. 4.—In a fourth town we have a man who conducts a news stand in connection with a drug store, who receives 20 Daily Oklahomans, and 20 Times and 25 Sundays. This man has 18 regular subscribers to the Oklahoman and Times and the Sunday Oklahoman. This leaves two extras on the Oklahoman and Times and seven extras on the Sunday. He employs a boy to make the delivery to regular subscribers; the extras are sold over the counter at his news stand.

No. 5.—There is another case—in one town a postmaster handles our papers. This man receives 20 daily, 30 Sunday and 25 Times. There is no news stand in connection with this post office. He has regular subscribers for the entire number of papers he receives. Part of these papers are distributed in town and the other part to farmers who call at the post office for their papers.

No. 6.—In one of the border Arkansas towns we have a man who is receiving 35 daily and 80 Sundays. He conducts a news stand at his place of business, sells our papers over the counter, supplies news boys with papers for street sales and all other news stands in the town with our papers for sales purposes. He has no carrier delivery.

No. 7.—In another town a man is receiving 20 daily, 50 Sunday and 20 Times. He conducts a general store but no news stand. He employs a boy to deliver groceries and this boy also delivers copies of the Oklahoman and Times to his regular customers. He has 18 subscribers to the Oklahoman, 15 to the Times and 25 to the Sunday Oklahoman. Extra papers over his regular subscribers are sold by this boy and the man who conducts the general store.

No. 8.—In a hotel in one of the far northwestern towns we are supplying the cigar stand 10 daily and 10 Sunday. None of these papers are sold over the cigar stand but the owner of the cigar stand has an arrangement with the porter

of the hotel to deliver 10 papers to the rooms of the permanent guests who are regular subscribers to the Daily and Sunday Oklahoman. These subscribers pay for their papers by the week or month.

No. 9.—In one of the smaller towns we have a boy who is receiving 5 daily, 15 Sunday, and 20 Times. This young man has no regular list of subscribers and sells the entire number that he receives, by the copy. Is he a dealer or an agent?

No. 10.—In one of the larger towns the Fred Harvey News Company has a news stand in the station and receives 40 daily and 60 Sunday. Part of these papers are sold over the counter of the news stand, part distributed to the two boys to sell on the station platform and the balance sold to boys who operate on the trains in and out of this town. About 70 per cent of these are sold at the news stand.

No. 11.—We have a dealer in a drug store near a ball park. Ordinarily he takes six copies which are all sold over the counter. When the home team is in town, he employs two boys to sell papers near the park entrance. One day he is a news dealer and the next day he is a wholesale agent. The only way our circulation department can classify him is to keep a schedule of the ball team and see what days the team is in town.

Personally, I believe the Bureau would take on an endless task and would give the publishers as well as their auditors an enormous amount of work in attempting to classify news agents separately from dealers. In the second place, I find that news agents need the same margin for left-overs as news dealers and towns where we have more than 1,000 copies vary as much in percentage of sales as the news dealers who get 20 copies. But the greatest reason of all, the distinction is of no benefit whatever to the advertiser.

Why take on an incalculable amount of work and expense for no real benefit? Better spend the money in having all regular auditors spend a couple of hours on each audit interviewing carrier and

news boys. Better have them send out some letters to towns having twenty-five or more subscribers and verify the publisher's galley sheet. Why strain at gnats and swallow a camel?

Nevertheless, I am going to continue to receive weekly or monthly reports from all agents and dealers, showing the number of left-overs. It enables us to reprimand an agent who is careless and does not cut down his orders. Where we find a dealer continually selling out with no left-overs, it gives our solicitor a chance to urge him to increase his order and not miss sales.

If the Bureau promulgates a rule to cut off all left-overs in the hands of both news agents and news dealers and to cut all extras including the carrier's own paper on city routes, I will gladly abide by the rule when it is applied to all publishers alike. Such rules cannot be applied to publishers at the present time because publishers haven't the records with which to apply the rules.

WHAT OUR READERS SAY

APPRECIATION

To EDITOR & PUBLISHER: Congratulations on your compilation of page and paper sizes and other mechanical data—all of which is very interesting and, in view of the fact that this is the first time anything of this kind has ever been done, remarkably low in errors.

As one who has for a number of years kept in fairly close touch with the mechanical end I must say I am much surprised over some things brought out, such as the large number of papers still sticking to seven 13-em columns, and the amazingly large variety of roll widths.

HAROLD HALL,
Scripps-Howard Newspapers.

SELLING SPACE FOR WEEKLIES

To EDITOR & PUBLISHER: In your issue of Oct. 9, there was published an article under the heading, "State Press Groups Should Handle National Copy for Weeklies."

I am firm in my belief that neither state, sectional or national press groups can ever handle national advertising satisfactorily for advertiser, agency or publisher.

I agree with the author of the article that the various newspaper associations might well direct their energies to accumulating facts regarding their territory in which their member-papers circulate, so that these facts might be attractively and convincingly presented to the buyers of national advertising space.

I disagree when the author says that "the country papers are following a course that tends to make their use by such advertisers a difficult matter."

The experiment of a state press association acting as a foreign advertising clearing organization for country newspapers has been tried. In Nebraska, for instance, the Nebraska Press Association found, after a two or three year trial, that it could not act successfully as a national advertising representative. Ole Buck, the able and broad-minded manager of the Nebraska association, had admitted frankly that the effort was a failure.

Numerous other state associations at various times have considered seriously a plan similar to that undertaken in Nebraska. But they benefited from Nebraska's experience that a press association cannot become a commercial organization, or a selling body, and still maintain the fundamentals of a press association, such as better business methods, better news and editorial content and treatment, more efficient production, more front and back-office economies, and more advertising.

State press associations can best serve their member-publishers, functioning as a clearing house for information. Let well-organized, intensively directed representatives, such as the American Press Association, do the actual selling. No matter how much some of us complain about the "system" of national advertising, national representation is essential and absolutely important and necessary if we smaller publishers are to get what we believe is a rightful share. Daily papers are glad to maintain representatives, because they find that these selling agents are valuable. Yet these same dailies aim to provide their representatives as well as advertisers and agencies, with a constant and continuous supply of information about their respective fields.

And this information, used to best advantage by the representatives, brings these papers more business.

I think it is highly advisable for state press associations to act as sources of information. The more a state press association does along this line, the better. The New York State Press Association is doing a very good job in this respect. It is neither trying to sell nor is it trying to clear all details of foreign advertising, but it is making every effort to disseminate worth while facts about the country newspapers in the state of New York.

My experience leads me to believe that the function of selling and that of handling the details of foreign advertising should be carried out by one and the same organization. The American Press Association, representing thousands of weeklies, is the only national selling organization in contact with agencies and advertisers in behalf of country papers. I am frank to express the opinion that the country papers could and would get more advertising

if they would support wholeheartedly their selling agent. Their rates should be high enough to cover a selling cost. Every article, from a hairpin to an automobile, is priced to include a selling charge. Why can't weekly papers do the same?

Newark (N. Y.) *Union-Gazette*,
JOHN E. DuBois,
Editor.

"A WARMER SPIRIT"

To EDITOR & PUBLISHER:—Please know that our association appreciates wholeheartedly the splendid cooperation which we received from EDITOR & PUBLISHER. Your publication is the official organ of the association. Naturally we expect publicity but frankly the careful interest which you took in our proceedings and in everything that had to do with our convention reflected a warmer spirit than we ordinarily expect.

NEW YORK STATE CIRCULATION

Committee of N. Y. Art Directors' Club
Surveying Reproduction Problems
to Find Methods Best Suited
for Newsprint

A committee named by the Art Directors' Club of New York is making a survey of newspaper advertisements prepared by New York's leading advertising agencies in an effort to improve copy designed for advertisers to be used in newspaper campaigns, Maurice Collette, of the George Batten Company, and committee chairman, informed EDITOR & PUBLISHER this week.

Other members of the committee are Anthony Ascherl, also of the George Batten Company, and Earl Smith, a freelance. Pierce Johnson, of the J. Walter Thompson Company, is president of the Art Directors' Club, members of which are art directors of New York advertising agencies.

"We want to co-operate with those newspapers who are seeking to improve the appearance of their pages by regulating the advertising copy sent to them by the agencies," Mr. Collette explained. "The aims of such newspapers are most laudable and we feel we can be of assistance to them."

In order to discover if these are not certain average methods of preparing advertisements which reproduce well on newsprint, Mr. Collette, shortly after his appointment as chairman of the committee, wrote to the art directors of New York agencies, asking them to submit to him samples of advertising copy which had reproduced best on newsprint, and to state why they considered the selected examples had proved successful. Between 75 and 100 such sample advertisements have been received by the committee.

Mr. Collette declared this week he expected he would have a report ready to

make to members of the club shortly. This report, which will be a thorough symposium on the preparation of effective advertising copy for newspaper campaigns, will be published exclusively in EDITOR & PUBLISHER.

PRINTING HIGH SCHOOL PAPER

Henry S. Hurd, publisher of the *Nook-sack* (Wash.) *Sentinel*, has started the *High School Sentinel* published in the interest of the pupils' parents. The paper is entirely independent of the weekly *Sentinel*, but conforms to it in type faces and general appearance.

OUR OWN WORLD OF LETTERS

By JAMES MELVIN LEE

THE Sage of Potato Hill Farm, E. W. Howe, prints in the current issue of his monthly magazine of indignation and information several stories of special interest to members of the working press. One of his columns is headed "The Growth of the News." In this story Mr. Howe compares the little sheets of a century ago with the modern newspapers of metropolitan cities. The comparison is not altogether favorable for the latter. Part of the blame, however, is put upon readers who "so enjoy the news that they do not trouble themselves as to its sources." Mr. Howe believes that if the world finally goes to the devil, as has been predicted, newspaper readers will find some consolation because of the interesting story printed about it in their favorite paper.

Another story printed under the head "Sandbagging" relates how a prominent newspaper is making a great fuss over the sandbagging of business men into the purchase of advertising space in labor papers through the fear of antagonizing labor. Mr. Howe then goes on to show that other organizations besides labor unions must plead guilty to the same charge. He mentions a woman's organization which gave a play and sandbagged the merchants with an elaborate advertising scheme. He believes that most business men are sandbagged into advertising in the high school papers. After mentioning other organizations, including churches, he concludes his comment with the suggestion that one should not put all the blame on labor unions when there is scarcely an organization in the country that does not do some sandbagging among business men.

On the last page of his monthly Mr. Howe prints a story which sets forth the principle that there is "no perfume in a newspaper rose."

ALBERT PARRY who works on the *Russky Golos*, New York City, publishes in *The Nation* for Oct. 27 a timely article on "The Immigrant Press at Election Time." One tenth of the population of the United States, according to Mr. Parry, is still served by the foreign language press. The statistics which he prints show more than 900 newspapers and periodicals in 37 different languages, other than English, in various cities and towns of the United States—a fact which has great political significance, for the readers of these papers and periodicals are voters. Attention is called to the fact that when election time, either general or local, draws near the immigrant press is favored by the hungry glances of campaign managers almost as much the great American dailies.

Mr. Parry points out that these campaign managers err if they think they will obtain space in the foreign-language press by merely sending to the editors glowing circulars with biographies and speeches of their candidates marked, "For Immediate Release." The editors

of these foreign-language papers always have a waste basket handy for such material, even though most of the matter they print is translated directly from newspapers printed in English.

Mr. Parry says that he knows of a case where a New York Russian daily waited for the *New York Times* in order to translate the news of a slight rain. "The foreign-language journalists will translate weather, murders, fires, cases of rape, and news about their home countries, but not American politics."

Somewhat startling is this bit of information:

An average foreign journalist in America hates the sight of *typewritten news*—he would rather translate two columns of dry material from a newspaper than a short paragraph of most lively and amazing happenings from a typewritten or mimeographed sheet. The campaign manager should see the bored expression with which the average foreign editor views his "For Immediate Release."

Mr. Parry after discussing go-betweens in general thus mentions one in particular, Louis N. Hammerling, head of what was formerly the American Association of Foreign Language Newspapers:

Hammerling, a poor Austrian immigrant, was formerly connected with a small Polish newspaper in Wilkes-Barre, Pa., and was also employed as a solicitor of advertisements for the *United Mine Workers' Journal*. Local politicians cast an appreciative eye upon him, and Mr. Hammerling did not let the opportunity slip by. Soon we find him in New York, where in 1904 he took charge of the foreign-language press for the Republican party in the campaign of that year. Apparently he delivered the goods expected, for he continued to serve this party through the year of 1916.

The article concludes with the exceptions. The intelligent minority, according to Mr. Parry, consists largely of the German and Yiddish newspapers. Of the former Mr. Parry speaks as follows:

The German editors and publishers of long and well-established papers are, as a rule, well versed in the politics and business methods of America, and neither campaign managers nor advertising agents can prey on them as easily as on editors and publishers of the more recent immigration.

Newspapers in Yiddish appeared much later than their German confreres, "but what they lack in years of American experience they make up in their racial intelligence and inborn shrewdness." In speaking of them Mr. Parry makes this comment:

The Yiddish papers display some independence in their dealings with campaign managers. The newspaper with the greatest circulation—the Socialist *Vorwarts*—is entirely out of their reach. The rapidly growing Communist *Freiheit* is closed to their endeavors too. The other smaller papers, while open to traffic with the Republican and Democratic parties, are rapidly waning in influence. Yet even with them the campaign managers and advertising brokers are obliged to be decent.

63 Park Row
NEW YORK CITY

ford, Printer" has been printed by the Baron de Hirsch Trade School, 222 East 64th street, New York City. The text of this pamphlet originally appeared as a Sunday special in the *New York World* on Nov. 8, 1925. This date, it will be remembered, was the two hundredth anniversary of the day on which William Bradford brought out the first issue of his newspaper, the *New York Gazette*.

THE American branch of the Oxford University Press publishes this month "The Beginnings of English Literary Periodicals" by Walter Graham. Professor Graham, who is a member of the faculty of Western Reserve University, has made a special study of English periodical literature from 1665-1715. His volume will be reviewed in this department when it is ready for distribution.

A CORRESPONDENT wants to know where he can find the best list of the more important newspapers in Europe. As the answer to this question may have some general interest, it might be well to say that an excellent list may be found in "The Europa Year Book" (Harper & Brothers) edited by Michael Farbmán, Ramsay Muir, and Hugh F. Spender. Under each country is a section entitled "The Press" which gives the more important newspapers of that country.

IN bygone days the best circulation manager either for a newspaper or for a magazine seemed to be the one who could tell the biggest lie about distribution. How conditions have changed is well outlined by Chester Leasure in *The Nation's Business* for November. His article, "Publishers Name Their Own Court," tells the story of the Audit Bureau of Circulations started by publishers, advertisers and advertising agents to establish circulation standards and provide means for securing open and honest figures of distribution. According to this

article the bureau has nearly two thousand members in this country and Canada of whom some four-fifths are publishers. About \$400,000 is spent annually in checking up circulation statements.

THE November number of *The Survey Graphic* is labeled "Fall Book Number." Its leading article, however, deals with magazines and is entitled "The Revolution of Quality Street."

The following quotation which opens the article will show both subject matter and mode of treatment:

Have you heard of the revolution on Quality Street where the serious magazines live? *Harper's* has gone red. *The Century* has another new editor—from Indiana, of all places! *The Atlantic* prints the best "I Confess" articles in the world. *The Forum* is impresario for intellectual jousts that interest even the Vatican. *The American Mercury's* winced heels have raced from nothing to over 60,000 in two years. Finally, *Scribner's* is the sole survivor of the literary pictorial magazine of our youth. Of course, the redness of *Harper's* is in the spanking new cover, now a year old, and the *Century's* wild westerner proves the gentleness of

IN some cities, the "leading" newspaper may have merely a few hundred more circulation than its competitor. The Press has 40,000 more net paid circulation in Pittsburgh than the other two evening newspapers combined—and 35,000 more net paid circulation in Pittsburgh than the other two Sunday newspapers combined.

als, but the revolution is real. It is changing the intellectual scenery of our day.

The rest of the article takes up these magazines in paragraphs that are just as interesting as the one which I have noted. What is said about the Atlantic Monthly will do by way of illustration:

The new Atlantic has been Sedgwick (plus Jenkins and a little Scottish girl named Fitzgerald who helped mightily on circulation). To the shrewd Scotch commonsense of Mr. Jenkins is attributed the extraordinarily successful business management of the company. But he is no one of the keenest appraisers of public taste in the country. He senses an audience as a real thing, not an ideal, hypothesis, or circulation curve. He knows what Americans of a certain level will read, and in one of his several talks on the reading public portrays himself as at nebulous personage, "the man in the street" and admits that he is "the literary dog in the office on whom a new author or editorial policy is tried." He keeps the Atlantic's feet on the ground.

The rest is Sedgwick despite his words to me: "In eighteen years it has been my constant policy to regard the magazine as a definite personality. Editors are but incidents and their importance is small." My own conclusion, however, is that the editor is always the magazine. Good critics believe that the Atlantic has no policy and cannot have one. It just publishes what it thinks will give its readers pleasure or stimulation. That means what Ellery Sedgwick likes and is stimulated by (plus Jenkins). For its editor is no abstract scholar or propagandist. He is just delicately sensitive to modern life. He was not trained on a quality magazine, or in Boston, though a Harvard man. He had been editor of *Leslie's Monthly*, and associated with *McClure's* and the *American* under John Phillips. We must stress how Mr. Sedgwick caught his interest in life and current affairs on the old McClure group, where he caught the idea of dealing with live social problems and learned the technique of appealing to the people. Did he not add to Ellis Parker Butler's mousy story the remarkable title, *Pigs is Pigs*? Through Sedgwick in a way was the germ of a real concern passed on from the dying muckrakers to the first of the new reviews. This is an important connection. Indeed, he has been a genius as a synthesizer and as a fisher of ope and writings rather than an originator. It he got the answer first, made his combination and worked out his formula, perhaps affirmatively as a matter of prescience, perhaps because the pressure of dwindling circulation had prestige put it up to him sooner than to rest, to draw from the muck-rakers, the popular magazines (vide *Ladies' Home Journal*) from the Boston tradition, and his own genius, a magazine for the new age. He is up-to-date in everything save red-hot and plosive controversy. There he waits until the sterner point is passed, and discussion has preceded people for the Atlantic's taking up the issue. He does not out-distance his audience, though he provides them with new and curious things that appeal to him. He is responsive to

I frankly admit that the quotation just given is fairly long but if space permitted should for personal reasons be tempted to quote still more. The reason may be found on the page where Paul Kellogg, editor of the *Survey Graphic*, chats about his contributors. Here is his answer to a question asked by Henry Goddard, each, editor of *The Forum*, "By the way, wonder if you realize what a prize you give in Whipple?"

"Yes, Bro' Leach, we do appreciate Whipple, witness this present November issue. His regular department, Letters and Life, is extended to make a Fall Book Section, for which he writes the leader. Page 156. And he is the author of *The Revolution on Quality Street* in which the "35-centers" and their place in the intellectual scenery of our day are keenly analyzed. Page 119. At New York University, where he teaches journalism to hordes of aspiring youngsters who turn up later in the publicity pages of the movies, he is known as Mr. Whipple. In the *Survey* office he goes by the name of Whip. But in the Catskills, where he summers in a cabin built of white birch logs, his Dutch farmer neighbors make it a point of pride to call him Professor Whipple.

Brother Kellogg is in error about one thing. At New York University journalism students know Professor Whipple so well that they frequently call him by his

first name. This article by him ought to be brought to the attention of George Bernard Shaw who once remarked, "Those who can do, and those who can't teach."

* * *

THE addresses delivered at the School of Journalism at the University of Missouri during Journalism Week of this year were reported somewhat fully at the time in the columns of *EDITOR & PUBLISHER*. Those who read these accounts will probably be glad to have in pamphlet form some of these addresses. They may be obtained upon application to the School of Journalism, at Columbia, Missouri, if a special request is made for Bulletin No. 42 of the Journalism Series.

The bulletin containing these addresses is divided into two parts. The first contains addresses by Homer Croy on "What the Public Wants," by Edgar T. Cutter, superintendent of the Central Division, Associated Press, Chicago, on "The News That Is Worth While," by Charles G. Ross, Chief Washington Correspondent of the *St. Louis Post-Dispatch*, on "The Washington Press Gallery," by James E. Bell, Associate Pastor, First Baptist Church, Kansas City, Mo., on "Modern Church Advertising," by the conductor of "OUR OWN WORLD OF LETTERS" on "The Newspaper as an Economic Product," by Eric C. Hopwood, editor of the *Cleveland Plain Dealer*, on "Practicing the Profession of Journalism," by H. J. Haskell, Editorial writer of the *Kansas City Star*, on "A Reporter Looks at Europe," by Dr. Maximo Soto Hall of *La Prensa*, Buenos Aires, Argentina, on "The Profession of Journalism in South America," and by Dr. Emil Dovifat, Deputy Director of the German Institute of Journalism, on "German Newspapers and Newspaper Men."

The second part of the bulletin presents journalism from the woman's point of view. It opens with "The Work of the Sunday Editor" by Laura Lou Brookman, Sunday Editor of the *Des Moines Register and Tribune*. Mrs. Wayne Sprague, Children's Editor of *Register and Tribune*, takes up the things of interest to children. Mrs. Muriel Fairbanks Steward of the *Minneapolis Journal*, discusses "Feature Stories From Educational Institutions." Miss Katherine Simonds, Advertising Copy Writer with the Northern Pacific Railway, tells how to write travel features. Miss Mildred Whitcomb, Assistant Editor of *Hygeia*, Chicago, chats about "Publicizing Health." Ruby A. Black of Washington outlines the duties of a Washington correspondent of the small-city daily. Closely associated with the address just mentioned is the one by Miss Muriel Kelly on "A College Woman's Work on a Small Daily." One of the best addresses in the bulletin is "Opportunities in Rural Journalism" by Mrs. Bess M. Wilson, Editor of the *Redwood Gazette* of Redwood Falls, Minn. Two addresses in this second half of the bulletin deal with the field of advertising. Mrs. A. W. Proetz of the Gardner Advertising Company of St. Louis and a winner of the Bok Award,

outlines the opportunities for women and Mrs. Rosalie Tumulty Dent of the Advertising Department of the Stewart Dry Goods Company of Louisville, Ky., shows how department store advertising should be handled.

This bulletin, as well as others of the Journalism Series, is edited by Robert S. Mann who is associated with Dean Williams on the faculty of the School of Journalism at Columbia, Missouri.

NEW HAVEN NOW HAS SUNDAY TABLOID

Daily Union Changes Its Sunday Edition to Abbreviated Form—Readers Like It, Publisher Declares

Encouraging response both from the advertising and circulation standpoints has followed the recent change made by the *New Haven (Conn.) Union* in its Sunday edition from standard to tabloid size, Philip Troup, publisher, informed *EDITOR & PUBLISHER* this week.

"Of course," he added, "we have only published four issues since the change from standard form was made and it is perhaps too early to register a final verdict.

"The fact remains, that our Sunday circulation has climbed steadily since the first tabloid issue was published and our advertising linage has shown an equally gratifying increase. We are convinced from our experience so far that the reading public and the advertisers will react favorably to the so-called tabloid Sunday newspaper, provided it covers the news and other features in a comprehensive and intelligent way.

"The Sunday Union in tabloid form really six newspapers in one, the six sections of the paper (exclusive of our comic section in colors) being so arranged and co-ordinated that every phase of reader interest is covered.

"The first section of from 12 to 16 pages contains the general and local news of interest, special pages on politics, foreign affairs, financial and realty news, and local pictures and the classified ads.

"The second section is the Editorial, Magazine and General Picture Section.

"The Third Section is the Social and Fraternal, and the State Suburban and Obituary section, normally 12 pages.

"The Fourth Section covers Drama, Movies, Music, Books, the Theatres, Autoing and Radio, a comprehensive amusement section of diversified reader interest, especially edited by C. P. Ives 2d.

"The Sixth Section is eight or more pages of sport news.

"There are many newspaper people who feel that the tabloid size is the form into which newspapers will inevitably evolve, not only because it is more convenient for the reader to handle, but also, because the advertisers receive double the relative amount of display for the advertising in the same amount of space."

Morning Paper Territory

Salt Lake City (its suburbs and its surrounding territory) is and always has been strongly morning paper territory. Look at the circulation and advertising figures for proof:—

GROUP OWNERSHIP IDEA GROWS IN OHIO

Survey Conducted by State University Shows Tendency of Publishers to Extend Holdings to More Than One Paper

A tendency on the part of Ohio newspaper publishers to extend their holdings to more than one newspaper is shown by a survey recently completed by the department of journalism of Ohio State University.

Progressive publishers are building up newspaper groups "to meet new economic conditions and serve the various cities and communities more acceptably and with profit to themselves," the survey states.

Of a total of 135 Ohio dailies, 42 belong to 14 different groups, according to the survey, while there are three dailies which publish weeklies of different names and appealing to different classes of people.

Of the nearly 400 weekly newspapers in Ohio, 72 fall into 26 groups, the largest of which consists of 12 different newspapers, another of five newspapers, one of four papers, four of three papers each, and the remainder of two each.

All of the publishers responding testified that combination was a good business policy. Only one admitted that there were disadvantages which he stated as "lack of personality" and the fact that "people resent outside ownership." One daily, published in connection with another, it was admitted, was not making money, but that was attributed to the fact that the paper had been but recently acquired.

The groups discovered are as follows: There are 15 groups of dailies, each group being under the same general ownership, though of different local management. The largest in point of number of papers is the *Scripps-Howard* group of six—*Cleveland Press*, *Toledo News-Bee*, *Youngstown Telegram*, *Akron Times-Press*, *Columbus Citizen*, and *Cincinnati Post*. E. E. Cook is the editor-in-chief of the group.

The *Dayton Journal* (morning) and the *Dayton Herald* (evening) are published by the Burkam-Herrick Publishing Company, E. G. Burkam in general charge.

The *Ohio State Journal* (morning) and the *Columbus Dispatch* (evening) are under the same general ownership, Robert F. Wolfe and Harry P. Wolfe being the principal stockholders in each company.

The *Dayton News*, the *Springfield News*, and the *Canton News* form the News League of Ohio, with former Governor James M. Cox as owner.

The *Akron Beacon-Journal* and the *Springfield Sun* are the property of Hon. Charles L. Knight.

The *Portsmouth Times*, the *Portsmouth Sun*, the *Portsmouth Sunday-Sun-Times*, and the *Ironton Evening and Sunday Tribune* form the Times League of Newspapers, the principal stockholder being Harry E. Taylor.

The *Salem News*, the *East Liverpool Review-Tribune*, the *Marion Star*, and the *Steubenville Herald-Star* are owned by a company in which L. H. Brush and Roy D. Moore are the principal stockholders.

The *Ashtabula Star-Beacon*, the *Painesville Telegraph*, and the *Geneva Free Press* are under the general ownership and management of C. A. Rowley.

The *Zanesville Times-Recorder*, the *Zanesville Signal*, and the *Zanesville Times-Signal* (Sunday) are published by the Zanesville Publishing Co., in which W. O. Littick is the principal stockholder.

The *Findlay Morning Republican* and the *Findlay Courier* are owned by the Heminger interests, R. L. and L. N. Heminger being in general charge.

The *Elyria Chronicle-Telegram*, and the *Bucyrus Telegraph-Forum* are the property of Hon. J. F. Burke.

The *Xenia Gazette*, the *Xenia Republican*, and the *Middletown Journal* are owned by companies in which J. A. Chew is the principal stockholder.

The *Urbana Citizen*, the *Urbana Democrat*, and the *Piqua Call* are a group un-

der the principal ownership and management of C. F. Ridenour.

The *Wilmington News-Herald* and the *Lima News* are owned chiefly by the Galvins—W. J. Galvin, of Wilmington, and L. H. Galvin, of Lima.

The *Dover Daily Reporter* and the *New Philadelphia Advocate-Tribune* (weekly) are owned by the Tuscawawas Publishing Co., W. A. Korn and others.

The *Greenville News-Tribune*, daily, and the *Greenville Democrat*, weekly, are owned and edited by Martin B. Trainor.

The *Troy News*, daily, and the *Miami Union and Illustrated Weekly* are owned and published by H. A. Pauly and A. C. McClung.

DAILY HIRES EXPERT

Worcester Post Leading Fight Against Local Utility Merger

When city officials of Worcester, Mass., refused to consider having an expert look into the reasons why the local electric and gas companies were anxious to rush through a merger of their corporations, the *Worcester Evening Post* hired an engineer at its own expense to conduct an investigation.

Samuel H. Mildram of Boston, one of the leading public utility experts of the country, was the man selected for the inquiry, and the result of his work is

being used in a series of articles revealing hitherto hidden facts and figures about the two companies.

John H. Fahey, publisher of the *Post*, appeared in person at a hearing held before the state public utilities commission and carefully cross-examined counsel representing the gas and electric companies.

ISSUES 238-PAGE EDITION

The *Houston (Tex.) Chronicle* recently issued a 238-page silver jubilee edition including a 16-page rotogravure section devoted to the paper itself and its personnel.

CONSOLIDATION

The merging of newspaper interests is a subject that has received special study and investigation by this firm for nearly 17 years. It is a big subject and requires considerable technical knowledge, both as to valuation and operating methods. When properly organized, the results are never disappointing.

We have been factors in many important consolidations, sales and appraisals.

HARWELL & CANNON

THE most successful sales of the fall locally were held by a shoe store on an original idea. The first of this series offered discounts for old residents of the county, one per cent off for each year of residence. A great deal of interest was created, and as the copy was well prepared the sale drew heavily. The largest discount given was 77 per cent off to a pioneer resident. The same merchant is now following out his idea with a "New Comer" sale. To all residents who arrived this year a 20 per cent discount is given. For last year, 19 per cent and so on back.—Eugene S. Kelty, Eugene, Oregon.

One merchant looked up the birthdays of his better customers. He advertised on the night before each of these birthdays that if Mr. So-and-so would call at the store the next day he would receive a birthday present from the store. Yes, every present advertised has been claimed!—Thora Eigenmann, Coronada, Cal.

This stunt promoted by a newspaper brought a crowd to a store opening. The editor announced that his paper would marry all couples free that day. The newspaper employed a pastor, the store supplied the wedding march, special music and flowers. "A good time was had by all" even the cash register, for the couples could hardly leave the store without making a few purchases for the new home.—A. R. B., Austin, Minn.

Get 25 to 30 (or more) firms in your city to co-operate on a page featuring only their store slogans or the slogan of the particular product they sell. Offer a prize or prizes for the first person to correctly identify the slogan with the business house. Then run the page again giving the winner's name and the store signatures under the slogans.—Davis O. Vandivier.

A paper in a school town can boost its circulation considerably by printing a student directory. The name, address and telephone number of each student may be obtained at the office of the secretary of the college or university after the first week of school. A special subscription, including the directory, may be offered students.—James E. Daugherty, Columbia, Mo.

It's not too late for a half page on the coal situation. Find out what the situation is in your community regarding the supply, the percentage of the year's output already in the bins, the possibility of a raise in price, and then make this the reading material or "center piece" for a half page layout with advertisements of coal and coke dealers in your vicinity.—Cole, Fall River.

"Billiards, A Man's Game" is the title

given to a section of advertising appearing in a Boston paper. The ads contain information about the various billiard clubs in the city. They are of good size and the section is certainly a paying one for the paper. A picture of Wille Hoppe, the billiard champion, who is to be in Boston next week. Other cities could use this idea to advantage.—C. E. Pellissier, Boston.

The advertising department of a metropolitan western paper watches the news items carefully, and when a prominent leader of industry gives a speech before the Chamber of Commerce, for instance, and that speech is reported in the paper, it is clipped out and sent to the speaker with a note that it appeared in such and such a paper.

This attention pleases an advertiser, and does much to pave the way for the call of a solicitor upon the non-advertiser. It is in addition a good all-around advertisement of the paper.—B. F.

First Person Copy With Half-Tone
Illustration Used in N. Y.

First person copy, illustrated with a half-tone, is being used effectively in New York and Brooklyn newspapers by the Brooklyn Trust Company. The text of a recent advertisement, illustrated with a photograph of an ivy-clad college hall and headed "Before I entered college," read as follows:

"My father established a trust fund for me with a Trust Company, because:

"1. He wanted me to keep my expenses within a budget.

"2. He wanted me to be independent of remittances from home.

"3. He wanted me to learn habits of thrift and economy.

"4. He wanted me to understand the workings of a trust agreement.

"His plan has worked out admirably. I have never run over my monthly budget... never called on Dad for funds... have always had enough for expenses and pocket money. It put a check on extravagant living at college... and best of all, has kept me immune to the pernicious habit of borrowing. Dad says it is one of the best financial arrangements he ever made.

"If you have a son or daughter in college, or at school away from home, let us show you how this father's plan can be made to operate for you. The cost of opening and maintaining a trust fund is extremely moderate."

investigation among factory superintendents and managers would show the outlook for the winter. And such an article would prove a front page story!—Ralph Gibler, Huntington, Ind.

Most of your out-of-town subscribers are former residents and get most of their news from the old home town from the newspaper rather than from letters. The paper's duty as well as privilege is to run stories of what the former residents are doing. One newspaper sent stamped addressed envelope to each subscriber every three months with a blank sheet of paper headed, "We want to know what's happened in your family since we last heard from you—marriages, births, deaths, successes—nothing happened?—then write us a letter and tell all about it."—Thora Eigenmann, Bloomington, Ind.

Why the South's Prosperity?

fifth -

NATURAL RESOURCES

P RIMARILY the South was known as an agricultural region, a producer of cotton, tobacco and other products of farm cultivation.

Within the past 20 years new forces have appeared at work, that have exploited and developed the South's natural resources.

For diversity of natural resources, no other section of the country can match the South in natural wealth. It has over half of the timber east of the Rockies—it has as fine an assortment of clays as can be found anywhere in the world, in readiness for a comprehensive clay working industry. In the Birmingham district, are found—probably the largest undeveloped iron reserve in the country, not to mention its precious metals, and extensive deposits of copper, lead, zinc and coal.

With its high class labor, its unlimited power, its climate, and its natural resources, it is no wonder then that the South has found itself and its progress will be swift and steady.

A New Empire is open for the national advertiser to conquer. Let these newspapers show you the way.

Announcement

SINCE that little chat with you in the middle of Summer on the "high printability" of the C.P.A. Sunday Service, we have been adding new members to the Friday Night Leased Wire at the rate of **one every week.**

Here are some of the reasons:

that genial reporter, known up and down America for his knack with words and his twenty years' intimacy with the great and the near-great of the nation: *Bob Small.*

that cheerful woman writer who gets a laugh into every line of her copy and yet keeps it copy in the news-desk sense: *Jessie Henderson.*

those two canny reporters, one who has the investment market in his inside pocket, and the other who turns out banner-heads for the business pages: *Byron Seller and Harden Colfax.*

those four outstanding "giants" of European journalism trained in American news values and past masters at picking the human stories out of the tangle of trans-Atlantic news: *Gardiner, Harden, Reache and Bird.*

those four time-tested sport writers, revered on the bleachers, the green and the squared-circle, who give you high spots on golf, boxing, baseball and other sports: *McCarthy, McGann and Chadwick.*

that selected corps of "specials" ready to cover the big story of the week from a fresh, human-interest angle, wherever it may break.

There are a few cities where the exclusive rights to this service are still available and there is a special toll-saving proposition for the smaller cities.

A telegram will reserve your option if the territory is still open.

Scott "Straight-Unit" Octuple Underfed Press, Consisting of 4 Underfed Units and 2 Heavy Duty 64 Page Folders.

A Unique System of Ink Distribution

—with fewer composition covered rollers is a feature of Scott "Straight-Unit" and "Multi-Unit" Presses.

Even distribution is accomplished first by vibrating the distributing cylinders, which action produces a vibrating effect upon the form rollers and assures a smooth, even spread over the surface of the printing cylinder.

Secondly, the usual small transfer roller is replaced by two large diameter rollers, placed between the distributing drums. This eliminates the need of careful adjustment. The throw-offs on both the form and transfer rollers prove to be of great convenience.

The vibrating mechanism is powerful and long-enduring, conforming to the standard set for every part of a Scott Press—"One-Quality—The Best."

A. N. P. A. Keynote Is "Greater Revenue" at French Lick Fall Meeting

Day of the Newspaper as Big Business Heralded by 225 Publishers Attending—Association Plans to Increase Income by Cutting Wastes Through Two New Departments' Activities

(By Telegraph to EDITOR & PUBLISHER)

By PHILIP SCHUYLER

John Stewart Bryan

FRENCH LICK, Ind., Nov. 11.—Entrance of big business methods into the newspaper field has rarely been so clearly heralded as at this the second annual Fall convention of the American Newspaper Publishers Association, which opened Wednesday and will close Friday of this week for all save those who enjoy the sport of publishers—golf.

The 225 A.N.P.A. members who attended the sessions this week, about half the entire membership and double the number that inaugurated the Fall meetings last year, are emblematic of the new era and the prosperity that seems to be everywhere today in newspaper land. Once they merely dreamed the things they are actually doing now.

Newspaper publishers have learned the value of the combine business. Economics not long ago called "thin theories" of actually clear-thinking editors are today being profitably practiced and studied eagerly by the business men of the press.

Greater efficiency in mechanical operation by co-operative effort for one thing will soon become a reality, due to the action of the A.N.P.A. in its appointment of W. E. Wines, who was introduced today as the mechanical director for all members.

This same symptom of American big business is noticeable in the changed attitude of publishers toward the railroads. They were in older days glad enough to accept free passes to save themselves the trifling traveling expense they then had to scrape to meet. Today W. E. Mathey was introduced as the manager of the new A.N.P.A. traffic department. C. E. Antrim, *Chicago Tribune*, who made the introduction, told of the difficult problem single newspapers, unversed in railroad-ing, faced in entering rate disputes with the carriers alone.

Mr. Mathey before his association with the A.N.P.A. spent 20 years with the Erie Railroad. He knows by comparisons what freight charges are right and just. It is Mathey's job to speak for the 500 dailies of the National Organization, as though for one giant newspaper-producing corporation.

Speakers recalled scornfully "the old days" in America's newspaper land, when, to quote one, Edwin S. Friendly, business manager of the *New York Sun*, "papers were the playthings of eccentric editors." Newspaper men then, he said, were too interested in making and un-making politicians, ideas, and details. Today they are making money.

Few editors of the old school were here to contest the glittering generality on "playthings." One, spoken of as a "fighting editor" C. P. J. Mooney, *Memphis Commercial Appeal*, afterwards discussed it guardedly and in private.

"It is not altogether a good thing that newspapers have entered the big business class," Mr. Mooney asserted. "But the big business day has come. It cannot be denied. What we must do now is to put our best brains to work to make certain that as big business newspapers are wisely and properly conducted."

That is exactly what the A.N.P.A. is attempting to do. The convention's keynote this week was announced as "greater revenue." Those who spoke concerned themselves with discussing how this goal may be obtained properly and with justice to all.

Those publishers here today were particularly attentive when Mr. Antrim and Mr. Mathey told of opportunities to save groups of publishers as much as \$2,000,000 a year by correcting and preventing "bad spots" in the freight rate structure, and also when Mr. Wines declared one important plank in his mechanical platform was to "increase net revenues by decreasing operating expense."

Mr. Antrim, first speaker Thursday, proudly reported that the Traffic Department had lost no time in getting un-

derway. The machine is functioning properly and is gaining momentum daily, he said.

He announced that, on Dec. 1, the department would begin to audit the freight bills of every Association member.

"We expect to obtain 100 per cent refund for members of freight bill overcharges," he predicted. "These refunds alone, in many cases, ought to pay the cost of A. N. P. A. membership."

"Paper men are pessimistic about our new department. They fear that newspaper publishers, formerly indifferent to freight rates on print paper, will become rate experts and lower their own rates and raise those of their competitors."

Mr. Antrim explained how he wanted the Traffic Department to function. Its aim is to be a benefit to the field as a

whole, he said, but in many cases there was opportunity for assistance to individual papers. He declared that, in dealing with carriers, it is not always best to file a complaint with the I. C. C. immediately, but to enter into negotiations first with the railroads. He suggested that all members follow Mr. Mathey's advice on all matters of routing.

"Mr. Mathey is looking on the whole picture," he said. "He is able and willing to give valuable assistance to publishers. He can also be of help to editorial departments by furnishing information on traffic legislation."

To show how newspapers were mulcted, Mr. Antrim told how publishers in the Mississippi Valley had lost \$2,000,000 in the last ten years on newsprint moved to them from the great "eastern blanket."

"The eastern blanket," he said, "extends from Ontario to Maine. From there to all points west to the Mississippi are based on the rate to Chicago. The commission fixed the rate ten years ago. Carriers, at that time, obtained an advantageous differential. Publishers did not complain. The commission presumed, therefore, that the rate was reasonable."

"This department," he concluded, "was created to prevent the re-occurrence of similar situations, as well as to make actual dollars for the publishers."

When Mr. Mathey was formally presented to the convention, he carried this parting thought forward, declaring his work was divided into two major activities, preventive and corrective. To make clear his point, he explained how freight rates are made.

The carriers, it seems, have established rate associations in various sections of the country. In changing existing rates, proposals are submitted by interested parties to these associations. If the association approves, it publishes a tariff, which is filed with the Interstate Commerce Commission and various state commissions. A clearing house for all these rate changes is the National Industrial Traffic League, of which the A. N. P. A., through its Traffic Department, is now a member. The Traffic Department receives bulletins from the league at regular intervals containing information regarding proposed rate changes.

"We can thus uncover objectionable rates in time to combat them," Mr. Mathey continued. "We will be permitted to demand a public hearing. Protests are not always heeded. But we can go further. We can ask that the dates of the proposed rate change may be suspended pending a hearing before the I. C. C."

"This small detail is an important function of the department. An apparently innocent proposal may have far-reaching importance."

Canadian railroads, according to Mr. Mathey, are planning to revise rates on newsprint from Canada to the United States upwards. This is being closely watched by the Traffic Department. A uniformity of rates for newspapers carried by baggage service is also being sought.

Rates from Canada to New England

Lee Syndicate of Newspapers chartered a special car to bring delegates to the convention with their wives. Latter here shown: Mrs. Frank D. Throop, *Davenport Democrat-Leader*; Mrs. L. P. Loomis, *Mason City Globe Gazette*; Mrs. E. L. Spaks, *Hannibal Courier Post*; Miss Elizabeth Muse, *Mason City Globe-Gazette*; Mrs. Clyde Rabedaux, *Muscatine (Ia.) Journal*; Mrs. Frank Burgess, *Lacross Tribune*; Mrs. I. U. Sears, *Madison State Journal*.

are generally too high, Mr. Mathey said. This is now being studied, in addition to corrections which are being made in "bad spots," in the rates in Wisconsin and Michigan. Another specific instance of service recited by Mr. Mathey concerned a Virginia paper.

This newspaper was being charged 50 cents per hundredweight on newsprint shipments. The Traffic Department was able to dig up proof showing this charge was too high, and protested, demanding revision downwards to 38 cents with refunds. The refund would mean between \$3,000 and \$4,000 to the newspaper. Mr. Mathey expressed confidence in winning this case. The railroad has already offered, as a compromise, a lowering in the rate from 50 cents to 41½, which would mean a refund of \$2,500 a year.

In negotiations with the railroads, he said, the amount of tonnage involved was paramount.

"While the tonnage of any one newspaper may be small," he concluded, "the combined tonnage of all A. N. P. A. members reaches such large proportions that the total figure may frequently be used in obtaining just concessions without litigation."

The Mechanical Department, which came into being Nov. 1, had obviously no accomplishments to report, and G. M. Rogers, *Cleveland Plain Dealer*, and chairman of the mechanical committee, and Mr. Wines, the recently appointed A. N. P. A. mechanical director, were unwilling to read the stars.

In epitome the "Mechanical Platform," as laid down by Mr. Wines, contains the following pertinent planks:

"1. We will co-operate with all manufacturers in the equipment field, but no outside organization will be able to threaten, cajole or flatter this office into serving any one but A. N. P. A. members."

"2. This office will deal only in facts."

"3. We will strive to increase net revenue for publishers by decreasing operating expenses."

"4. We will test all new machinery and strive to report on the tests accurately and fairly."

"5. We hope, first of all, to be a clearing house for A. N. P. A. members for dissemination of all available mechanical information."

PREDATES BEFORE A. N. P. A.

FRENCH LICK, Ind., Nov. 12.—as EDITOR & PUBLISHER went to press, it was learned that S. E. Thomason, *Chicago Tribune*, intended to ask A. N. P. A. endorsement of his proposal to the Audit Bureau of Circulations that inclusion in the reports of Sunday total circulation of predate edition circulation be abolished. Opposition is expected.

The last speaker Thursday was Charles W. Nax, *St. Louis Globe-Democrat*, and president of the Association of Classified Advertising Managers, whose address is reproduced elsewhere in this edition.

Marking the passing of Frank G. Bell, *Savannah Morning News*, and an A. N. P. A. Director, who died Aug. 12, this year's convention began in a solemn reverent key. An organ should have been playing softly somewhere while in slowly spoken and musical Southern drawl, President Bryan and Clark Howell, Jr., *Atlanta Constitution*, paid memorial tribute. It would have added little to the already church-like atmosphere of the convention hall, which later became an active laboratory of business economics.

"Steadfastness," President Bryan said "is the word that sums up Frank G. Bell; and no greater tribute could be paid a publisher. He was ever steadfast for the right. His life must be measured by leadership not lineage, by courage not circulation."

Following the introduction of William B. Bryant, *Paterson Press Guardian*, as Convention Chairman, and instructions from Elzey Roberts, *St. Louis Star*, regarding golf, the A. N. P. A. trend away from big publisher exclusiveness to growth, expansion and service was evidenced.

When E. H. Butler, *Buffalo Evening News*, and chairman of the membership committee, announced names of various state vice-chairmen who had been named to assist him in selling the Association to a broader field. The friendly spirit of co-operation between the national body and intersectional publisher groups was represented by Verne Joy, *Centralia Sentinel*, who, introduced as Acting President of the Inland Daily Press Association, spoke briefly but warmly in praise of the big organization.

The vice-chairman commissioned to make the A. N. P. A. useful to a greater number of publishers include: H. H. Conland, *Hartford Courant*; William F. Metten, *Wilmington Evening*; Fleming Newbold, *Washington Star*; W. A. Elliott, *Jacksonville Times-Union*; Clark Howell, Jr.; S. E. Thomason, *Chicago Tribune*; W. A. Bailey, *Kansas City Kansan*; Emanuel Levi, *Louisville (Ky.) Courier Journal*; C. H. Taylor, *Boston Globe*; L. B. Costello, *Lewiston Sun*; M. F. Hanson, *Duluth Herald*; Mr. Roberts, *St. Louis Star*; F. W. Bush, *Athens (O.) Messenger*; F. O. Larsen, *Tulsa World*; G. L. Palmer, *Houston Chronicle*; and President Bryan, *Richmond News-Leader*.

Edwin S. Friendly, business manager, *New York Sun*, was first called. His address on "Greater Revenue From Advertising," in which he attacked the milline rate theory advocated selling preferred positions at higher rates, and urged publishers to make a thorough analysis of their readers and their community, is reproduced elsewhere in this issue.

A by-product of discussion following

Mr. Friendly's speech was the problem of the shopping news dodgers prepared by department stores for free distribution in competition with newspapers.

Fleming Newbold, *Washington Star*, revealed that merchants in his city had considered only a week before trying the Shopping News method of advertising and told how the newspapers had met the problem.

"We asked our retailers what fault they had to find with the newspapers, when we learned they were planning to enter into competition with us," Mr. Newbold said. "They told us that they believed that the department store advertising as published in our paper was too scattered. We had been selling no preferred positions, but had sold best space in rotation. The suggestion was made that we put all the department store advertising together in our second section. This change was made last week. Advertising space now on our first 16 pages is now open virtually exclusively to general advertisers, with special rates for preferred positions from pages two to seven. It seems to be working out satisfactorily."

Mr. Newbold explained that the merchants wanted the second section of his paper to become gradually a shopping news section. They didn't care how tight it became, believing that the reader-interest in department store bargains would carry the readers through page after page of announcements supplemented by reading text.

In this change, Mr. Newbold said the *Star* has decided to "Jim Crow" the merchants to the back of the paper who are more interested in selling credit than good merchandise, giving the higher class stores first consideration.

In response to a request from Mrs. Zell Hart Deming, *Warren (O.) Tribune*, George M. Rogers, *Cleveland Plain Dealer*, explained the Shopping News situation in his city, where this strange newspaper sport has in five years grown to such an extent that it is published from its own efficient plant.

Mr. Rogers maintained that the Cleveland shopping news was nursed to life because the newspapers had failed to bury petty differences and present a united front when first it began. What will finally cause its death, he said, is that the Shopping News idea cheapens the merchandizing practice of the entire community in which it operates.

"The tendency of shopping news advertisers," he argued, "is to merchandise price exclusively. A Shopping News isn't worth a cent for institutional copy. Although the shopping news is established in Cleveland now and seems successful, I question that it can long continue. When carried to its logical conclusion, business will be affected so seriously that the merchant will be compelled to change their methods back to the regular newspaper pages. A Shopping News is only good for price buyers and if the purchasing power of this class of people

Miss Elizabeth Lynett of Scranton has her own ideas of convention sport.

is ever affected unfavorably, as it is bound to be, the Shopping News will be damaged accordingly."

Whether or not the Cleveland newspapers could have caused the shopping news to die in still birth, Mr. Rogers described as "debatable."

"The only advice," he concluded, "if I may venture to offer advice on the subject, is that in any other city where the newspapers are confronted with the possibility of a shopping news issued by the local merchants, they should immediately bury all differences among themselves and present a united front."

Considerable interest was awakened by Mr. Friendly's suggestion, that higher rates should be charged for preferred position. President Bryan himself confessed to be hamstrung by tradition in Richmond to such an extent that he could not ask a local department store a higher price for a coveted page sold them exclusively for many years.

Paul Patterson, *Baltimore Sun*, described a similar situation in his city, where the fear that an exclusive advertiser would buy space in a competitor prevented the Sun from demanding a higher price for the preferred space.

Hugh Powell, *Coffeyville (Kan.) Journal*, asked Mr. Friendly what charge should be placed on position by a newspaper that had always sold run-of-paper at a flat rate, and was just beginning to make the change.

FULL YEAR'S TRIAL OF RETURNS MOVES N. Y. TIMES TO ABOLISH PRIVILEGE

Appalling Waste of White Paper and Operating Expense
Detailed to A. N. P. A. Convention
by Louis Wiley

THE *New York Times* will abolish returns completely in a few days, Louis Wiley, its business manager, told the A. N. P. A. members at French Lick, Ind., this week. Mr. Wiley in his address, said newspaper waste traceable to circulation returns ran into millions annually—almost half a million dollars on the newspaper alone. Magazine wastage through a similar leak probably totaled 25,000,000, he said.

His address in substance follows:

"In New York we have just experienced approximately a year of granting return privileges. That experiment has convinced us that from every point of view the practice is a mistake—almost criminal—judged by results, public policy, expense or good business management."

"The New York newspapers went on practically a fully returnable basis. It is a conservative estimate to say that the expense to the publishers of that city has been at the rate of more than \$1,500,000 a year, of which more than \$1,250,000 has been a waste of white paper alone."

"We are reducing the return allowance rapidly. The New York Times has entirely eliminated it in six of the eight postal zones, and has reduced the city and city-mile zone allowance to 2 per cent of the order daily and Sunday. Agreements to do away with returns absolutely, containing penalty provisions with other publishers to abolish the system, have been proposed. The New York Times will be on an absolutely non-returnable basis in city, suburbs and country, within a few days. If the other newspapers will not jointly agree to abolish returns we will go it alone."

"Now let us examine what a 5 per cent return may mean on a newspaper of 300,000 circulation. The circulation department ordinarily, once the policy of returns is adopted, is inclined to let the publisher have a good deal of rope. Averaging the larger Sunday and the daily papers, it is extremely probable that the daily waste is not less than 15,000 forty-page papers. The white paper tonnage involved in these returns would be nearly five tons a day. Newspaper publishers need not be told such a waste is expensive. It certainly would amount to \$100,000 a year for newsprint alone, eliminating all other costs of production, handling, transportation, billing, checking, etc. The recoverable part of this waste is negligible—just the price you get for used paper and old bundles. The total cost of the return privilege for a newspaper operating on the figures just noted cannot be less than \$150,000 a year."

"If a newspaper be reasonably well established, with a circulation department expert and well managed, the return privilege will not produce any appreciable increase in circulation beyond what could be achieved in other and legitimate manner at less expense."

"Take, for example, the \$150,000 in waste for one newspaper shown above. Every intelligent publisher will agree that that sum wisely expended on improving the news and editorial content of the paper—on brains—on making the paper more attractive and valuable to its readers—would yield a real gain in circulation. In fact, to allow returns is practically to take something away from these readers to hand it over to the few who may want the paper some day somewhere."

"It is argued that this expense, or waste, decreases the net paid sale the publisher can claim. The system permits a manner of deception on the part of scrupulous dealers, such as the sending out of headings of copies actually sold and read and picked up by the dealer and discarded. This trickery is widespread, and is not always easy to detect."

"The return privilege encourages the dealer in wasteful, slipshod ways and leads him to believe that the newspapers must be managed loosely and wastefully. The expense of auditing and checking the returns and deducting them from the bills is a substantial item and leads to constant disputes and to loss of dealer good will."

"The newsprint waste alone, even if there were no other considerations, is one which should stir publishers to act in concert. We face a diminishing supply of newsprint, of forest reserves. We go farther and farther afield for our supplies of this basic item of newspaper production. We are throwing away, in allowing returns, one of our great natural resources. We cannot justify to ourselves and to future generations the reckless throwing away of paper."

"The problem of returns can be met by better management of our circulation departments. Readers can be educated to order the paper regularly in advance."

SOME A.N.P.A. MILE-A-MINUTE SHOP TALK

Advertising Rates Too Low—Production Costs Have Jumped 26 Per Cent
in Two Years—Do You Keep a Little Black Book?—Five-Cent
Papers Predicted—How Vermont Dailies Advise

SPEAKING of "Shop Talk at Thirty," as everyone seems to be, I discovered that shop talk at sixty miles an hour was an engaging pastime this week, when I rode the A. N. P. A. special to French Lick, Ind., that modern trading post of newspaper ideas.

Two cars of the St. Louisian leaving New York, Nov. 8, were taken over by A. N. P. A. delegates on the cross-country ride to Indiana. And mile-a-minute shop talk kept pace with the clicking wheels of this crack extra-fare train.

These Indiana bound publishers are bullish. They talk increased advertising rates and increased subscription prices. Times are good; but they should be better. Production costs are mounting, and cash register bells must be made to play jazz tunes to keep prosperity as a business office guest.

"Rates are far too low" was the bald assertion of Louis Wiley, business manager of the *New York Times*. "The tendency is upwards and should be, in view of the increasing costs of production, especially in the mechanical department. There is a general movement throughout the field for increased rates."

"In every city the advertising rates quoted to department stores are much too low. This is particularly true of New York. While department store advertising may be considered as news, it is indefensible that their rates should be 50 per cent less than that charged general advertisers. Certainly it is difficult to defend such a disparity in rates."

Col. Ernest G. Smith, publisher of the *Wilkes-Barre* (Pa.) *Times-Leader*, is a step ahead of the game. He bumped his rates 25 per cent on Nov. 1, and is seriously considering a further boost.

Why not? Col. Smith, who runs a newspaper plant with regimental strictness, carries in his pocket a little black book that answers every question an advertiser may care to ask. This little black book—Col. Smith calls it his "Bible"—contains a detailed cost record of the *Times-Record* dating back to 1908, the date of the merger of the *Times* with the *Leader*. In the last 16 years, according to the book, newspaper production costs have increased 19½ per cent. Col. Smith raised his rates two years ago. Since that time,

Home deliveries can be increased. The co-operation of newsdealers can be obtained and kept active.

"Under the law of averages, the fluctuations in demand are very slight. In the case of one New York afternoon newspaper where a careful record was kept covering some eight editions a day, the highest fluctuation of the week was three-tenths of 1 per cent. This percentage is negligible in newsdealers' profits and one that cannot seriously affect circulation."

"The waste is not entirely in newspapers. Magazines of national circulation have probably an even higher percentage of waste. A few of them are non-returnable. A great many more are fully returnable. It is not too much to say that \$25,000,000 would not cover the total annual expense."

"This is a problem which the American Newspaper Publishers Association might take up in an advisory way, if for no other reason than because of the interest of all publishers in the newsprint situation. A model agreement between local publishers might be drawn up and recommended for action. The evil is one which grows to its worst excesses when local newspapers compete with one another in liberality of returns and prodigality of waste. The problem is one which calls for action, dictated by common sense and a determination."

so the good book says, newspaper production costs have increased 26 per cent.

Hitherto, when rates have gone up in Wilkes-Barre, the publishers have walked forward together in goose-step. Col. Smith threw out a heavy barrage from the barrel of the black book and moved ahead alone this trip.

So far the advance has been successful. The local retail merchants put up a show of opposition at first.

"Let's boycott him," said some.

But when Col. Smith began to quote cost figures, the wiser retail heads called a halt.

"This man knows his business," said they. "We raise our prices when the wholesalers go up, so why hasn't he a right to boost if he finds his costs mounting?"

In addition to increased costs, Col. Smith has increased circulation to show his advertisers. And listen to this—it's good. Since he raised his advertising rates two years ago, Col. Smith has jumped the price of the *Times-Leader* from 2 cents a copy to three. Still circulation increased, after a stand-still over a three-month period. Why? Who can tell?

The Wilkes-Barre *Times-Leader* is now listing a national advertising rate that equals the local less the agency commission. This paper is asking the casual customer eight cents a line and is getting six lines for 2,500-line contract or better.

"We totaled approximately 12,000,000 lines last year," Col. Smith declared, "and we are confident we will have at least 10 per cent more this year despite the boost in charges."

Now about that cost book covering a period of 16 years—that Bible that some kind-hearted Gideons should place in every newspaper home.

"Why in keeping that cost book," began Col. Smith, in his deliberate and convincing tone, "we follow a simple rule—the only rule in fact any publisher can adopt to figure out his advertising rate. We take our total cost of operation and deduct our circulation and miscellaneous returns and the rest is apportioned off to advertising to cover."

"Labor and salaries run up 54 per cent of the cost. The remainder is distributed over various incidentals. Ink, for in-

stance, amounts to 3¾ per cent of the cost. Features and wire services account for only a very small percentage. I keep a record of the cost of newsprint used, and a special cost system for the composing room."

"Then, we have our books audited monthly by Edmund E. Walker & Co., a firm that has offices in New York and Chicago and offers a comparative cost service that is unique. They will, for example, supply a client newspaper with the audits of say 27 other clients representing papers of the same size. Clients grant the inter-change privilege. To preserve trade secrets, names of the newspapers are deleted on the comparative cost sheets issued, and numbers substituted. You can imagine how helpful such service can be to a publisher. It is all right to have an annual audit, but if you are really anxious to make corrections in time, every 30 days is to your advantage."

Col. Smith said his composing room costs averaged 12 to 14 cents an inch for advertising. He completed a new plant in April, and the new machinery has lowered composing room costs considerably.

So much for advertising rates. There are those among these publishers who see 5-cent papers looming, despite the experience of Cyrus H. K. Curtis and his *New York Evening Post*.

"The same publishers who howled at the impossibility of ever getting more than a penny for a paper are now shouting that the day of the five-cent daily will never arrive," Victor Ridder, co-publisher of the *New Yorker Staats Zeitung* and the *Herold*, declared.

"Newspapers must advance their advertising rates further or else make their circulation pay, and eventually some publishers will resort to the latter method."

Advance in newspaper production costs will force many weaker newspapers to quit the field, Mr. Ridder believes.

But meanwhile, those publishers who are hard-headed and tending to business, he commented, are raising their advertising rates and at the same time are uncovering ways and means to cut costs, particularly in the mechanical department.

"One big saving that many publishers are discovering," he continued, "results from the use of dry mats. Importing them from Germany, we have been using them now since 1911, but any number of publishers are just beginning to understand the economies they bring."

"Originally we published a 63-inch paper. Shrinkage from using dry mats saved us 4½ inches in paper, or \$8,000 a year in money."

"Give me an average newspaper running a 72-inch paper, and, without anyone detecting it, I can save him 10 per cent of his paper costs by narrowing the margins, changing the column rules, and obtaining shrinkage from using dry mats."

"When you go to war, you've got to go to war rough. This newspaper business is no parlor game," observed J. L. Kinmonth, who is making an enviable income publishing the *Asbury Park* (N. J.) *Press*.

He was talking of an attempt made by newsdealers in his locality to boycott his paper because he refused to sell to them at a lower wholesale rate. The dealers were co-operating and presented no little show of strength.

"My circulation manager was worried," Mr. Kinmonth continued. "I wasn't."

"See here," I said, "you get me four newsboys for every stand we serve. We will sell them our paper at our regular rate, and give them orders that they must serve every customer with copies of the *Press* before he or she reaches the stand. This was done. The dealers' strong bluff wilted. We've had no more trouble. It was pie for the newsboys while the fight lasted."

"Dealers will always push a paper that increases its retail price, I have found," cut in Herbert Peterson, publisher of the *New Haven Journal-Courier*. "And the reverse of this is likewise true."

DON'T SELL CLASSIFIED AS ADVERTISING

It Is a Distinct and Different Service to Paper's Readers, Nax Tells A. N. P. A., And Should Return a Equal or Larger Income Than Display Space

THE classified advertising columns of a newspaper can be visualized as a stock of merchandise that a newspaper carries on its shelves. If a merchant gets a reputation of mixing in with his stock a lot of shoddy goods that in appearance looks like and is represented to be dependable merchandise, but being put to use proves otherwise, that merchant soon loses the confidence of the public and is a failure. Just so with a newspaper that permits fake advertising in its classified columns. One bitter experience is sufficient to shake the confidence of a reader and make him skeptical of all advertising. With all the sources of information which the newspaper now has at its command there is no valid excuse for publishing any advertising that is not legitimate.

CHARLES W. NAX

The rule should be "if in doubt, leave it out," until it is proven that no fraud or deception is intended or can be perpetrated. If you want to build classified advertising on a firm foundation, establish rigid censorship rules and see that they are enforced.

Another important and interesting factor in the constructive development of classified advertising is in its exploitation or promotion. The problem of building classified advertising through promotion is primarily a merchandising problem, not unlike the marketing of any other commodity or service of general utility. To build classified volume you must not only merchandise your space but you must also sell the advertising placed in that space to your readers who are the consumers of advertising.

Every form of advertising can be used to exploit classified direct-by-mail, bill boards, street cars, booklets, etc., but the most effective is advertising in the newspaper's own columns, but it should be done consistently. Newspaper publishers should apply to themselves the same selling arguments that their own advertising salesmen use to induce advertisers to buy space. We all know that the greatest success from advertising comes to those advertisers whose advertisements appear every day, and that the larger the space, the larger the success. Classified departments should be allotted a definite amount of space, every day, regardless of whether an issue is tight for room or otherwise. No one but the publisher should have the privilege of throwing classified promotion out of the paper. Very few editorial executives have an appreciation of the value of classified to their newspapers and consequently when they find that they need or want more space for news, the first thing to get the blue pencil is any so-called office ads on classified.

Enthusiasm is a part of the make-up of most classified managers and one of the things that always dampens this feeling is to put a lot of thought, energy and effort in promotion copy, and then have it omitted day after day; and when a classified manager complains about it, he is usually further disheartened by the curt reply that "we haven't any room."

One of the outstanding classified advertising mediums of the United States in one year used 290,000 lines of space in its own columns for classified promotion, the equivalent of 119 full pages. This newspaper had a loss of 113,000 Help Wanted ads that year, but they made a net total gain of 18,000 ads for the year. The lineage loss for Help Wanted for the year was 690,000 lines, the total net loss was

only 219,000 lines. Naturally, they felt that adequate advertising was valuable to them in the fact of an economic condition which was unfavorable in a major classification. The space used for classified exploitation was exceeded only by the very largest department stores and two men's furnishing stores. Progressive publishers who have a modern concep-

tion of the unusual utility of classified and a vision of its wonderful possibilities for development will understand that they will not only built classified, but their entire newspaper's property through the intelligent exploitation of the paper's classified columns.

So far as I have been able to ascertain there is no fixed rule in the business of

CIRCULATION ALONE NOT A SOUND BASIS FOR SETTING ADVERTISING RATES

Purchasing Power of Readers Essential to Determining Newspaper's Value as Medium, Friendly Tells A. N. P. A.

ADVERTISING as the newspaper's principal source of revenue, as presented by E. S. Friendly, business manager of the *New York Sun*, was the theme around which the convention discussions developed during the opening session. After a brief disquisition on the services newspapers are able to perform through possession of sound and sufficient income, Mr. Friendly went into some detail concerning the building of the revenue structure. His address in part follows:

E. S. FRIENDLY

"What rates is a newspaper entitled to charge for its advertising columns? The failure to answer that question properly has wrecked many newspapers. In most instances rates are based on circulation. Perhaps the better method would be to base the rates on the character of the newspaper and its ability to produce results. The newspaper of character and quality with the most responsive readers should therefore be entitled to the higher rate per line in proportion to its circulation.

"There is much talk these days about milline rates, selling space in a newspaper on a comparative rate per thousand circulation.

"Isn't a newspaper that appeals to the progressive, responsive people worth more per 1,000 readers than one which does not? Is it not entitled to a better rate for its advertising space than the newspaper whose readers have limited buying power? You can no more say that all newspaper readers are alike and that newspaper rates should be based on milline rate comparison than you can say that the price of all automobiles should be based on their speed capacity.

"If all newspaper readers are of the same value, then why do those newspapers that believe in milline rates have different rates for real estate advertising, resort advertising, financial advertising, etc., etc.?"

"I know of no quicker way to destroy reader confidence and at the same time reduce advertising revenue than for a newspaper to permit an advertiser to use deceptive or tricky phrases. Every advertiser should be prepared to sell his merchandise as represented in his advertisement. It is the duty of newspapers to insist upon square dealing. It is in this manner that newspapers can protect themselves and at the same time safeguard their readers. A newspaper

should have a code of ethics and all advertising offered for insertion in its columns should pass this code of ethics or be omitted.

"I believe some newspapers will eventually have a department to read and pass upon the text of the advertisement to see if it will appeal to that newspaper's particular type of readers. Every newspaper should know what type of advertisement, including its text matter, its typographical arrangement and the whole general effect, will appeal to its readers most. Some New York department stores now realize the worth of this method and use different copy about the same subject in different newspapers.

"Many newspapers can increase their revenue by establishing advertising rates for special locations and positions. When a newspaper has built up and established a large daily advertising lineage advertisers request and are willing to pay premiums for preferred positions. It is to the benefit of both newspaper and advertiser that these position charges be as reasonable as possible. For a newspaper must show consideration to those advertisers who have placed a large volume of advertising with it, and at the same time due thought should be given the smaller user of space, with the possibility of making him a larger user. It is frequently difficult to sell preferred position with the additional charge. But once you have succeeded and the advertiser becomes accustomed to seeing his announcement in his desired position he will cease to complain about the extra charge. There is good reason for this. His position advertisement is producing better results.

"In New York several newspapers have sliding scale rates for department stores. If the circulation goes up the store pays an increased rate, based on increases in units of 5,000 daily and 7,500 Sundays. If the circulation goes down the rate decreases proportionately. This system is not workable for a newspaper which increases its circulation by the use of prize contests, puzzle schemes, etc.

"Unless the credit department of a newspaper is efficient, though the advertising lineage may show a marked increase, the paper's revenue will show a decrease because of too great a loss in bad debts. The advertising department dictates to the credit department and the paper is the loser. The credit department of a newspaper should be separate and distinct from the advertising department and not under the advertising department's jurisdiction. The New York Sun loses through bad debts on advertising bills six-tenths of one per cent of the Sun's aggregate or gross revenue. In round figures this would be six thousand dollars in every million dollars' worth of business."

publishing a newspaper for determining the rate at which classified advertising should be sold. Generally speaking, publishers have determined the rate for classified advertising by the size of a paper's circulation; the rate charged by competitors; what is charged by newspapers having nearly the same circulation, in cities of similar size or, and this seems to be a universal custom, whatever they can get for it. To my mind all of these methods are absolutely wrong. The selling price of classified advertising should be arrived at either by the actual cost of production or by its service value to the advertiser.

It is not difficult to determine the actual cost per line of either display or classified advertising. It is likewise a very easy matter to keep separate accounts of the various sources from which advertising revenue is received. Classified revenue can be subdivided so that you can tell how much is being received from real estate, automobile dealers or from other class of advertisers that you may desire. If a higher charge is made for headings or for advertisements set in display type, the revenue from this source can also be kept separately. All of this is very valuable information to have especially when revisions in rates are being considered. I don't believe there is a business in the world that has so many different rates for approximately the same thing as newspapers have for advertising, and especially, classified advertising.

With regularity I make a study of rate cards and each time I get more bewildered. These are some examples, *The Arizona Republican*, published in Phoenix, Ariz., a city of 40,000 population, with a circulation of 19,000 charges .07 per line for classified; the *Tolmie Blade*, population 283,000; circulation 115,000, charges .18 per line; the *Portland (Me.) Press-Herald and Telegram*, circulation 30,000, rate 24; the *Columbus Ohio Dispatch*, circulation 106,000, rate .22.

There is only one conclusion to these charges like these, either the small papers are making a tremendous profit, the larger ones are selling their space at cost or what is most likely, at a loss; they don't know it.

I am unalterably of the opinion that the net revenue from classified advertising should be as much or more per line than from display advertising. I have searched diligently, but as yet have failed to find a newspaper except the *St. Louis Globe-Democrat* that has a record system that will give the exact net revenue per line from classified advertising. By revenue per line I mean what is actually received after deducting all space charges for headings, cut off rules, ad rules, slugs. We keep two separate space records for classified advertising. One the actual space used that we get paid for.

It will interest you to know that in the year 1925, we published 3,293,997 measured lines of classified advertising, while the actual count lineage was 2,576,439. The difference between these two (717,558 lines) was used for headings, ad rules, etc., a service to the advertiser for the reader. The difference between the revenue per measured line (.262 per line) and per actual count line (.335) is .073 which means just this, that it costs the *Globe-Democrat* .073 per line to properly service each classified ad.

With this information I think you will agree with me in my contention that the rate for classified advertising in order to equal the display rate, should be as much higher per line as this service cost is to the newspaper.

If the rate is to be based on cost of production, then the rate should be the cost plus the service cost, plus the profit which

(Continued on page 47)

A.N.A. TO STUDY NEWSPAPER CIRCULATIONS

After Demanding "Mass" Figures Advertisers Now See Flaws and Will Seek Remedies—Oppose Abolition of Cash Discount—S. E. Conybeare Elected President at Atlantic City

By WARREN BASSETT

ATLANTIC CITY, N. J., Nov. 10.—National advertisers in the role of doctors, took the bouncing boy of newspaper circulations into the clinic at Atlantic City this week and found he had several ailments, despite his generally healthy condition.

His chief trouble, according to their diagnosis, is an overgrown condition, which prevents him from working for them with maximum efficiency. They indicated this might have resulted, in rare instances, from "over-eating."

But the advertiser doctors generously admitted that present conditions are largely the result of their own past prescription—mass circulation. Having created the condition, they will now set about to solve it as best they can. The newspaper clinic was one of the outstanding features of the annual convention of the Association of National Advertisers held at the Ambassador Hotel, Atlantic City Monday, Tuesday and Wednesday.

More than 200 members representing firms which lead the country in their advertising appropriations attended.

No drastic suggestions were made by the Association regarding newspapers, but a resolution was passed at the closing session calling upon A.N.A. members to give careful study to specific points in the relationship with newspapers, as outlined below in the speech of Verne Burnett.

Another resolution expressed the satisfaction of the A.N.A. at the progress made by newspapers in the past year in cleaning up their typography, and expressing the hope that the good work will continue.

A third resolution recommended to periodical publishers that they clean up certain typographical practices as the newspapers have. The chief complaint was the heavy printing of solid black blocks causing defacement to advertisements on the opposite page. Better make-up was urged to eliminate this condition.

The fourth and last resolution praised the A.N.A. headquarters staff for their efficient work during the year.

S. E. Conybeare, of the Armstrong Cork Company, vice-president, was unanimously elected president to succeed E. T. Hall. Three vice-presidents were elected: W. A. Hart, E. I. du Pont de Nemours & Company, Wilmington, Del., representing western members; Verne Burnett, secretary of the Advertising Committee of General Motors Corporation, Detroit, representing the Middle West, and A. H. Hele, of the Wahl Company, Chicago, representing the West.

Five directors were elected to fill vacancies in the Board. They are: W. K. Arlen, New England Confectionery Company, Boston (re-elected); C. F. Coffey, New Jersey Zinc Company, Newark (re-elected); T. F. Driscoll, Arthur & Co., Chicago; Merle B. Bates, The Savers, Inc., New Rochelle, and Everett Smith, Fuller Brush Company.

Mr. Hall, retiring president, automatically becomes a member of the board.

Doctors in charge at the newspaper clinic were John M. Schmid, business manager of the *Indianapolis News*, John Fahey, of John H. Fahey & Co., Boston, and publisher of the *Worcester Mass.* Post, and Verne Burnett, secretary of the Advertising Committee of General Motors Corporation, Detroit. Mr. Schmid told how newspapers get circulation, Mr. Fahey discussed tendencies and had in newspaper circulation methods, while Mr. Burnett told the advertiser's point of view.

The addresses of Mr. Schmid and Mr. Burnett are printed at length elsewhere in this issue.

Mr. Schmid outlined the present circulation structure as it exists on the majority of newspapers, and ended his talk expressing his disapproval of pre-

miums, prize contests, and bargain offers as methods of increasing circulation.

"If all newspaper circulation men would get together and abolish premiums it would be better for both the publishers and the advertisers," he declared.

Mr. Fahey did not mince his words in describing unsound circulation methods, which he declares are in force on many newspapers.

Starting with the premise that there is no phase of newspaper publishing in which so much "bunk" and humbug exists as in circulation promotion. He went on to tell the advertisers quite frankly that they were largely to blame for present evils through their demand for quantity rather than quality circulation.

Mr. Fahey then attacked combination

are too often obscured. In many cases, high powered salesmanship has protected a weaker sister and impaired scientific space buying.

"2. The need for more information on the small town papers is particularly great. The small town market has great possibilities, but there is too little exact information regarding this subject.

"3. The physical appearance of advertising in practically every newspaper is in great need of improvement. Flashy type, heavy borders, great splurges of ink on the part of local advertisers, make it difficult for a national advertiser to use the newspaper medium as much as he might. Many newspapers are getting such a pre-dominance of local advertising compared with reading matter, that proper display

S. E. Conybeare, new A. N. A. president and E. T. Hall, retiring president, photographed at Atlantic City.

newspapers, declaring them responsible for much of the waste in advertising.

"In no other business of the newspaper field is such a condition tolerated," he declared.

"A weak morning newspaper which is losing money is tied to a strong evening newspaper which the advertiser feels he must have, and the advertiser is then forced to buy space in both. Would you not think it ridiculous if you went into a store to buy a suit and the salesman told you he was stuck with red flannel underwear and you must buy two pairs with the suit? So it is with the combination newspapers.

"Lots of you advertisers are buying red flannel underwear and don't know it."

Mr. Fahey closed with the declaration that it is time to define more accurately the rules of the game, to promulgate new clear cut standards for circulation.

Mr. Burnett, the next speaker, declared there were many specific problems before the newspaper advertiser at the present. He presented what he considered the seven major demands advertisers should make of publishers:

"1. I believe that there is too little information available regarding the relative merits of competitive newspapers. Usually the smaller the town, the more meagre the information is," he declared. "The Audit Bureau of Circulations has done a great job in the quantitative phase of circulation, but we are still groping as to the qualitative phase.

"Two newspapers having 50,000 circulation in a city, with A. B. C. audits, may have vast differences in actual sales value. Some accurate checkup on the reader-interest should be developed along several lines for example, by the publisher furnishing a statement regarding percentage of renewals. The real facts

for any national advertising of a quarter page, for example, is difficult.

"4. Newspaper publishers could help the national advertiser by greater standardization in business practices for instance, in eliminating forced combination rates. No advertiser likes to be told he must use a morning and an afternoon paper in a city, even though an attractive low rate is given. The advertiser would much prefer to be sold on the economy of such a combination rate, rather than be forced into it. He should have the option of using either morning or evening editions.

"5. Some newspapers are insisting on cutting out their cash discounts. This is almost sure to result in slow payments on bills and create considerable havoc in the orderly conduct of business. It will also tend to make advertising agencies act as bankers.

"6. Certain newspapers are charging rates which are too high for what they give. I have in mind two papers which we consider, after careful study, to have equal sales value for almost any kind of a product. Yet one newspaper charges 50 cents a line, and the other 30 cents, and the one charging 30 cents is charging plenty when compared with other papers.

"Probably the one charging the very high rate will be forced to reduce its rate or increase its circulation. The point of this paragraph is that there seems to be an insufficient standardization of charges.

"7. Due to competition in numerous cities, some papers have forced their circulations far beyond their proper spheres by offering huge prizes, and by extending their circulations to remote localities, forcing the advertiser to buy excess circulation from a local dealer standpoint is often undesirable."

Mr. Burnett declared that the insistence of all large advertisers upon the above program would be of great help.

"I believe that most large newspaper publishers, if they could sit down with us and get our viewpoint, would gradually adopt the most vital points outlined above," he declared.

"It is a matter of education to get over the viewpoint of the advertiser, and it may be a fairly long process, calling for patience.

"I am a believer in this attitude," he said in closing.

"The newspaper publisher is an important business man, with a large investment at stake. For anyone to come around and tell him that he must make certain reforms in the conduct of his business, it is more than likely to make him answer 'So's you're old man,' or some other comment, perhaps not so polite.

"But being a business man, if he sees that the advertisers on whom he depends for the success of his business are united in their opinions on certain ideas, and if these ideas are properly explained to him, he eventually will be fair enough and wise enough to co-operate and help lead the way. This form of co-operation is probably the only one which would make real progress today. It should be unnecessary to have heated arguments and long series of cancellations, which would do harm to both sides, although such action may be necessary in isolated cases.

"The gathering together of facts, the crystallizing of opinions and the proper presentation of the viewpoint of the publisher to the advertiser, and the advertiser to the publisher, should be the answer to all our problems."

In the open forum following the three speeches, O. C. Harn, of the National Lead Company and president of the Audit Bureau of Circulations, told the difficulties which surround the gathering and presentation of more newspaper data to advertisers.

It will first be the duty of A. N. A. members to specify what additional information they want from publishers, he said.

"The A. B. C. does not like to ask publishers to give information which is expensive to collect in answer to what is usually an ephemeral request. If there is a strong general desire for certain information we can put it on the A. B. C. statements. But we must be satisfied it is wanted."

Mr. Harn also admitted that advertisers are largely at fault for unsound circulation methods, and went on to describe as he had found it, the attitude of newspaper publishers toward progress.

"Progress in getting authorized data is more due to the publishers themselves than to us advertisers," he declared.

"We dominate the A. B. C. board of directors, but we have never had to prod the publishers into making progress. In fact, we have often had to put on the brakes."

The result of the clinic was the adoption by the A. N. A. of the resolution mentioned above citing Mr. Burnett's seven points for serious study.

The convention was called to order Monday by President E. T. Hall, Ralston Purina Company.

"Advertising is the greatest stabilizing force in American business," he said, in his annual address. "It is the power that makes mass production possible. Advertising is diminishing business risk and is a practical form of business insurance. It is rapidly eliminating big fluctuations in sales that have in the past been a dangerous factor in most businesses.

"Reports from many advertisers show that their selling costs are today by far the lowest in their history. This is especially significant when one realizes that

"FORCING" CIRCULATIONS NOW OUTDATED

Solid Growth Present Aim of Most Publishers, Schmid Tells Advertisers—Says Premiums and Bargain Offers Accomplish Little—Describes Motor Truck Rural Delivery

By JOHN M. SCHMID

Business Manager, Indianapolis News,

Excerpts from an address this week before Association of National Advertisers

J. M. SCHMID

EVERY newspaper should have as its objective the distribution of its circulation according to market opportunities for its advertisers.

This requires an adequate standard by which to test selling efficiency in different localities.

Newspaper publishers must know the type of readers most desirable from the advertiser's view-point.

In the large cities, it is often necessary to identify the neighborhoods in which the desirable kind of people live, and then to establish adequate points of contact or outlets supply those localities.

The bigger and better newspapers now have Merchandising Departments assisting the advertiser in rating the character and buying power of various districts.

There was a time when it was considered good circulation practice to force the sale of newspapers by various methods, some even bordering on trickery. That day has passed, and it's now a question of judgment and experience as to the kind of circulation the advertiser needs to give maximum results.

Is it quantity or quality?

If it is both, what shall be the proportion of each to produce the maximum results?

A few years ago, a merchant and a big retail advertiser was invited to address a convention of Circulation Managers in Montreal. While waiting to be heard, he listened to a discussion on "Quality Circulation," and he took advantage of the opportunity to learn something about "Quality" circulation by asking this question, and then proceeded to answer it himself:

"What do you mean by quality circulation? Is it something in the paper that makes the people buy it? Can you, as circulation managers, tell me? Remember a stream rises no higher than its source. If the circulation must go through the brains of the people, as I say it must, it must have bright, intelligent brains as its source—it must be born of brain. The contents of your paper are the things that should reflect your circulation, and that being true, the results it promises, and the results we advertisers get, will more nearly tally.

"We, as advertisers, want to go through the brains of the people. We want to get into their mind, and through their minds into their hearts, and through their hearts into their pockets. You can tell us how much circulation you have, but why not tell us where it is going, and why it is going there."

The reader must determine the value of editorial and news content, and ignore the personal whims or tastes of the editor.

The advertiser, on the other hand, expects that the circulation methods adopted by the newspaper must be adaptable to the needs of his advertising constituency.

The reader, or rather consumer, buys the newspaper itself, while the advertiser buys only the influence of the readers of that particular publication.

Quantity does not produce this effect without a liberal ratio of quality circulation.

There is certainly a basic difference between quantity and quality, which I admit is often lost sight of by some publishers.

There must also be honesty in circulation. Newspapers may preach honesty in politics, government and business, but to have weight or effect much good in the community, the newspaper must, in the conduct of its own affairs, be honest, and must make no attempt to mislead.

There is nothing more reprehensible than a publisher who deliberately deceives as to quantity or quality of his circulation. When advertisers buy on the basis of quality as it relates to their particular need, the publisher will learn to give him the facts.

The advertiser is entitled to know where the circulation is, who the readers are, how it was secured, and whether it is paid for, and the price paid.

Advertisers frequently demand circulation to obtain results, instead of getting results from circulation the publisher already has. This encourages publishers to go after more circulation, often in territory far beyond the trade area, and, in most cases, this additional circulation is of very little or no value to the advertiser. This naturally increases advertising costs without producing any returns.

The advertiser is therefore urged to select those newspapers which give the maximum results within a given territory, and not those with circulation scattered to the four corners of the universe, and in territory covered by other papers the advertiser is already using.

A newspaper, to grow permanently, must be in demand; it must be a newspaper, and appeal to well-thought people. Without it, the best circulation manager is in vain.

No matter how good the newspaper, it will surely fail of its purpose, if it does not have an efficient distributing system.

In the distribution of newspapers, there are the following major classifications in the order of their value to the advertiser:

Home Delivery—or invisible circulation.

News Stand Sales—semi-visible circulation.

ASSEMBLED IN SPIRITED CONVENTION AT ATLANTIC CITY THIS WEEK

In the front row are: (left to right) William A. Hart, E. I. du Pont Company, vice-president; E. T. Hall, retiring president; R. K. Leavitt, secretary-treasurer; S. E. Conybeare, Armstrong Cork Company, new president; Arthur H. Ogle, Wahl Company, vice-president; W. W. Wachtel, Loose-Wiles Biscuit Company

BLAMES ADVERTISERS FOR CIRCULATION EVILS

Worcester Post Publisher Says Cry for "Mass Circulation" Fosters Unsound Methods—Hits "Combination" Circulation—Tell A. N. A. It Can Reform Bad Practices

By **JOHN H. FAHEY**

Publisher, *Worcester (Mass.) Post*

Excerpts from an address this week before Association of National Advertisers

JOHN H. FAHEY

IN these days of steadily increasing efficiency in business and insistent agitation for the reduction of waste in distribution, I know of no line of sales development afflicted with more humbug and buncombe and responsible for more inexcusable loss than the promotion of magazine and newspaper circulation.

You gentlemen represent many different lines of business and you know that all of them have their peculiar difficulties in trying to cut down the waste and loss due to cut-throat competition, untrained management, unethical methods and careless thinking.

We all recognize the fact that business generally has made tremendous progress in combatting these evils during the last 20 years and the publishing business has made very notable contributions in this respect. Nevertheless, in my opinion, advertising and selling continue to wink at more unsound and wasteful practices than any business activities of which I know.

In the publishing field these weaknesses prevail in the promotion of circulation particularly and account for a large part of the trouble.

Nothing connected with newspaper pub-

lishing yields greater or more valuable results as the basis of economical distribution than circulation honestly built. Nothing is responsible for more deceit, chicanery and indefensible waste than alleged circulation, obtained for show purposes and intended only to lure unsuspecting advertisers dollars or to justify unfair rates.

The cause of nearly all the present evil in circulation methods is the striving for mere numbers, irrespective of values, the cry for "mass circulation" on the part of you advertisers. This condition gives precious little encouragement to publishers who are trying conscientiously to serve you and serve the public by constructive, efficient upbuilding. On the other hand, it holds out abundant promise to those who know that lavish expenditure will get circulation numbers almost any time and that it does not matter where it is, what kind it is, or if it is practically valueless in producing advertising results so long as you ask no questions and pay increased rates.

There is nothing more important to the advertiser and to the consumer, because it bears in such a vital way on the delivered cost of goods, than the character of the circulation methods employed by newspapers and magazines. For this reason present circulation tendencies are worthy of critical and careful study by

those who pay out for advertising the millions of dollars expended every year, which support and develop our publications.

The good tendencies in newspaper circulation methods and, in my opinion, there is a steady increase in the employment of such methods, are represented by the persistent efforts of publishers who are exerting themselves to give their readers constantly increasing real values in the product they place before them daily.

They are the publishers who recognize that the only kind of circulation which represents honest value is that which goes to self respecting readers of intelligence, who have resources with which to buy, and who live in the market area where the advertised merchandise is offered for sale.

These publishers know that increases in real circulation come only with adherence to sound, courageous, and disinterested editorial service to the community; that circulation will grow as prosperity increases, and the community grows; that the interest and loyalty of readers and their confidence in the publication, which are the greatest assets any newspaper can have for the benefit of itself and its advertisers, depend upon a policy that is straightforward and honest.

The newspapers which pursue the

policy of slow but sure natural development, refuse to go outside of their own fields in order to secure mere numbers of circulation, which will not resort to unworthy appeals or take advantage of the weaknesses of human nature, these are the newspapers which represent the best tendencies of the day in circulation methods.

The gains they are making in circulation, from year to year, are the only gains worth having.

We must recognize, frankly, however, that publishers following these standards of excellence, are menaced constantly in their efforts by competitive circulation schemes, which call for unreserved censure and which in many respects closely approach fraud.

You advertisers are more to blame for bad circulation methods than anyone else. Your President, Mr. Hall, in an admirable address on this subject a short time ago, told the truth when he said, "My first accusing finger must be pointed to the advertiser, to the members of the A. N. A. who are demanding 'circulation' and 'more circulation' without giving adequate thought to what lies back of this demand for 'more circulation.'" He pointed out truly "that most of the publishers who have resorted to methods which are decidedly bad would gladly discontinue these methods were such a policy favored by buyers of advertising." He told the story of one case of a publisher forced by conditions into an unsound circulation campaign by his competitors, "not because he wanted to do it, but because he was forced to do so by

the regular attitude of space buyers." I am sure Mr. Hall is right and that most newspaper publishers have no sympathy with fantastic schemes intended only to "soak" the advertiser.

Because of all the emphasis which is placed upon mere figures, and the increased rates which publishers find they can obtain at the higher circulation levels, there has been an alarming increase in unsound circulation methods in recent years in various parts of the country.

So long as the publisher can spend, let us say \$50,000, in manufacturing "decoy" circulation and in a single year get back \$100,000, through increased advertising rates, you advertisers are holding out a very great temptation to him.

In my opinion, advertisers, and in turn the consumers of the United States, are today paying for millions on millions of dollars in waste and loss represented by advertising rates based upon inflated and valueless circulation.

This sort of circulation is obtained to meet a demand based on an utterly absurd theory—that circulation is worth a certain rate per thousand, irrespective of where it is, what time it is distributed or what its character may be.

A few years ago, advertisers and newspapers of the right sort combined to eliminate deceit in the publication of circulation statements, by setting up the Audit Bureau of Circulations. The evil which this organization was intended to eliminate was the practice of the newspaper which claimed an average circulation 25 per cent to 50 per cent more than the number of papers it was printing.

Many publishers were forced into exaggerated circulation statements in the old days by the unwarranted claims of their competitors. The situation was brought about by the same fundamental cause of present difficulties—the advertisers' demand for numbers.

As the A. B. C. has developed thus far you have merely given a certificate of good character to figures and stimulated considerable ingenuity on the part of circulation departments in securing them. You have not touched the chief cause of circulation deception, for few of you pay any attention to anything in the A. B. C. reports except figures.

In promoting a bureau to audit circulation statements you sought to avoid being mulcted in advertising rates for circulation from which you could secure no results because it did not exist.

But tell me, please, what is the difference if the circulation exists but is "counterfeit" circulation and nearly as valueless as if it were, never printed.

Suppose the publisher we tried to reform actually sold the 100,000 papers which he claimed, instead of 75,000. If the 25,000 went to people of such limited buying power as to be of no value to the advertiser, or if they went to localities far removed from the market in which his product was on sale, or to the junkman, via the subsidized newsboy or dealer, he might as well be saved the trouble and expense of printing the papers, for the element of value to the advertiser is lacking in either case.

What are some of the most prevalent bad tendencies in newspaper circulation methods and what may be done to cure them? I think they may be divided into two classes:

First—Those methods which appear to be respectable, and for which plausible defenses may be set up, but in truth are unsound. I think the methods of this class are responsible for most of the fog and extortion.

Second—Methods which must be characterized as nothing but conscious and deliberate fraud, no matter how they may be explained. I do not think these methods, while altogether too generally used, account for so much loss and waste as those in Class one.

In the category of methods which are responsible for circulation inflation but which are made to appear legitimate, the forcing of newspaper sales in territory outside of the market area in which the advertiser is seeking development, is one of the largest, probably the largest, source of loss and deception. The jamming up of sales within the market area by strong-arm devices is also a factor.

The development of supposed suburban and country circulation in thinly populated areas adjacent to or actually outside of the central market, is of carrying significance in different sections of the country.

As we know, there are centers in the West where the distribution of newspapers for a couple of hundred miles from a given center is effective, because of long distance between towns and because people travel many miles into the center to make their purchases. In the more thickly populated East, the same conditions do not obtain. It is often harder to bring people into the central market from a distance of 20 miles and sometimes less, than it is to attract them in sections of the West from distances exceeding 200 miles.

In many instances, the building up of numbers in circulation in small towns and in the country-side at considerable distances from the center among people who represent a very small response and who very infrequently come to the market where advertised merchandise is for sale, is one of the most elusive and unsound schemes for inflating circulation for which the advertisers of the country are now being taxed vast sums of money. The securing and maintenance of circulation of this sort, from every angle of operation, represents a maximum of expense and a minimum, indeed practically nothing, of return.

So-called "pre-date" editions of both morning and evening papers are examples of this sort of inflated circulation but they amount to little compared with regular editions which are almost equally valueless.

In the cities themselves sales at abnormal hours are a large source of waste and loss. Evening papers which are issued early in the morning and morning papers which are issued early at night, in the main, represent nothing but forced figures. They are unsupported by the news and by natural reader demand, and secured usually by the indirect payment of men and boys with whom arrangements are made to make a showing of an average "net paid" sale.

As many of you are aware, this is known in the circulation "game" as "eating returns." The publisher sets up the hypocritical explanation that he is "getting representation." What he actually does is to pay a newsboy, or usually a grown man and some "strikers," a certain sum per week to push his paper during unusual hours at points where no legitimate demand would yield to the boy enough profit to warrant him in putting in his time. The boy pays for a certain number of papers every day, whether he sells them or not. He can afford to do this and still have a handsome profit because of the weekly cash payment made to him for "representation" or on some other account. The result is increased "net paid" circulation which is false.

When carried through on a large scale by one or two papers in a given field it compels others to meet the situation or forego adequate selling outlets on the streets.

Another abuse, intended to accomplish the same purpose is the rebate to wholesalers in return for payments to the circulation department, which represent supposed net sale of papers, when in truth the actual sale is much below the figures reported.

A favorite trick is that of making so-called "transportation allowances," i. e., payments to dealers for alleged truck service or for shipments by trolley, bus, or any other means of transportation, when no transportation of the value indicated by payment is rendered. These schemes are not confined to the large cities and to the sensational newspapers, they have now spread to many smaller cities.

All of these subterfuges and others are employed in the wild scramble for figures of circulation. Some publishers will deny their existence, most of them will contend I overdraw the picture, but all who are impatient with the present situation know that the waste and loss which they represent should be stopped and will admit that these schemes are being employed to an alarming extent.

One development, growing out of the

struggle for numbers, which has begun to attract considerable attention is the so-called "combination" newspaper. It is worthy of more careful study on the part of advertisers than it has yet received, because it represents, as it is usually operated, one of the most inexcusable methods of getting money out of the advertiser without value received, which has appeared in the publishing field in the last 20 years.

The "combination" newspaper and its "combination" rate is frequently the result of a fight for circulation, the cost of which outruns the increased revenue which can be gouged out of the advertiser. Very often, however, high powered circulation methods and deliberate inflation are the consistent consequences which follow the combination of two newspapers. A morning paper, suffering from too much expense or bad management, is joined with a prosperous evening newspaper which advertisers want and feel they must have, or a weak evening paper is joined with a strong morning paper.

In either case the combination is effected invariably because one of the publications is losing money or is unable to make any, as a result of limited advertising value, compared with others in the field. The weak paper is fastened on to the strong one, usually at a high capitalization. Then the rate is raised, or the rates of both papers are joined on a basis which means a high level of cost to the advertiser. The condition is imposed that if the advertiser wishes to place his copy in the morning paper, which he considers of primary value to him, it must be repeated in the evening paper also whether he wants it or not. Or he may wish to use the evening paper and does not care to have his advertisement in the morning edition. Nevertheless, he is made to pay for both; sometimes at a supposed "bargain" price. The advertisement which is set or cast by the newspaper once, is made to yield in some cases double revenue, and in practically all cases, the charge is all but of proportion to any value which can accrue from this forced advertising.

In an effort to justify the rates charged and the unfair conditions imposed, the "combination" newspaper then resorts to circulation inflation in order to deceive the advertiser by making him believe he is getting something like value for the price he is obliged to pay. These circumstances are responsible for a lot of so-called increases in circulation in various parts of the country, which have no relation or at best a very small relation, to the advertising value. This particular scheme is one of the most ingenious which has appeared in the newspaper field for many years.

Can you think of any comparison with it in any other business?

What would you say if you went into a clothing store to buy a suit of clothes you liked, and the salesman said he could not let you have it unless you also took and paid for a couple suits of red flannel underwear because the house happened to be "stuck" with it. Yet the principle is exactly the same when the publisher says to the advertiser, "Yes, I know you want to advertise in my evening (or morning) paper, but it happens I have another paper on my hands which does not pay, and if you want access to the advertising columns which are valuable, you must also pay an extra toll for advertising space you do not want."

A lot of advertisers are paying for "red flannel" advertising space and do not appear to realize it.

In what manufacturing business do you suppose the management would tolerate a purchasing agent who bought just coal, any kind of coal, without relation to its actual power to make steam? What would happen to the purchasing agent who bought from the coal man 50 tons of high grade Pocahontas, but at the same time paid the same prices for a corresponding tonnage of slate, simply because the miner wanted to get rid of it? That is what you advertisers do in consenting to "combination" rates, and it is no defense to say either to competing publishers or to your own companies that you don't know what you can do about it.

The enforcement of any "combination rate" anywhere, is in itself conclusive

evidence of an attempt to take advantage of the advertising buyer. If the space represented real value and was being sold on its merits it would be unnecessary to impose such extraordinary conditions.

J. E. WHEELER BUYS BROTHER'S INTEREST

Announces Sole Ownership of Portland Telegram and Says Policies Will Be Continued

PORTLAND, Ore., Nov. 11.—The *Portland Telegram* today announced the purchase, by J. E. Wheeler, president of the publishing company, of the stock held in it by his brother, L. R. Wheeler, vice-president. J. E. Wheeler thus becomes sole owner of the newspaper.

In the first page announcement of the sale the *Telegram* said: "J. E. Wheeler will continue to guide and direct the publication of this newspaper. Its politics will be Republican, its policies independent. It will print the news without fear or favor, now as in the last twelve years of independent ownership. The *Portland Telegram* is nearing the end of its first fifty years of existence. It was founded April 16, 1877, and owned by the Oregonian Publishing Company until July 27, 1914, when it was purchased by J. E. Wheeler, L. R. Wheeler, and John F. Carroll. Mr. Carroll died in 1917."

There has been a report for several weeks that the *Oregon Journal* was negotiating for the purchase of the *Telegram*. The general understanding was that L. R. Wheeler favored the sale, but that J. E. Wheeler desired to retain the property. The *Journal* offer was declined and J. E. Wheeler entered into negotiations for his brothers holdings.

SEEKING CINDERELLA FOOT

Shoe Men Sponsor Contest in St. Louis Star

The St. Louis Shoe Manufacturers and Wholesalers Association and the Southwestern Shoe Retailers' Association, have inaugurated through the *St. Louis Star*, a "Modern Cinderella Contest" to find a group of girls graced with "4-B" feet to act as models during the St. Louis Pageant of Footwear Fashions which will be held at the Hotel Statler, Nov. 29, 30 and Dec. 1.

The contest got under way Wednesday with a two-column box on the first page of the *Star* announcing the details of the quest. An entry blank with space for foot measurements was published on the second page. A "Cinderella Editor" has been appointed to conduct the contest, which is open to any woman in St. Louis, the St. Louis trade territory, or the southwest. A committee of judges will select the woman with the most perfect foot, and she will receive \$100 cash and will be offered an opportunity to wear and display fine shoes during the style show. A second prize of \$50, a third of \$25, and five prizes of \$10 also will be awarded.

ELECT NEW OFFICERS

Selections Made at Meeting of Canadian Advertisers at Toronto

TORONTO, Ont., Nov. 11.—Association of Canadian Advertisers, meeting here, elected officers as follows: president, A. G. Pinard, Lowe Brothers, Toronto; vice-presidents, C. L. Dyer, Ford Motor Co., Ford H. Cluse, Salada Tea Co., G. L. Spry, Huron and Erie Mortgage Corporation, L. R. Beattie, National Trust Co.; treasurer, H. H. Rimmer, Canadian General Electric Co.; secretary, F. E. Clotworthy of Toronto. The directors are: John Martin, Massey Harris Co., F. Selway, Office Specialty Co., G. M. Bertram, Lever Brothers, T. Wotherspoon, Canada Cycle and Motor Co., B. M. N. Grigg, Mutual Life of Canada, H. E. Mihell, Imperial Varnish and Color Co., W. G. McGruther, Canadian Fairbanks Morse Co.

AMERICA, FUDDLED BY PROPAGANDA, GROPE WAY IN WORLD, SAYS IRWIN

Interested Parties Tint News from Foreign Lands, He Tells Wisconsin Teachers—War Publicity Methods Described

PROPAGANDA, fed to the newspapers of America from sources abroad, has befuddled the minds of Americans and is keeping this country in vacillation at the crossroads of imperialism and world-wide peace, Will Irwin, New York, famous author, told the Wisconsin State Teachers' Association at its 73rd annual convention in Milwaukee, Friday, Nov. 5.

The subject of his talk was "Propaganda and the News." He showed the power of propaganda in the press today, revealed the methods by which propagandists distorted news during the World War, and indicated how the power of a press that does not always adhere to the truth cannot endure. "The United States at present seems to be sitting on the milestone at the crossroads, fast asleep," Mr. Irwin said. "One road points to empire, the subjugation of palm and pine in a world-wide dominion. The other points to some means, still hazy and uncertain, by which the world may be organized to prevent the recurrence of another explosion like that of 1914-18."

"America does not know which way to turn, because it cannot see into the motives and the acts of European nations. Propaganda has obscured them. For every honest American who attempts to study conditions abroad, there are twenty propagandists, cleverly tinting the truth, slanting the real story, coloring it to present either one side or another. "This is particularly true of Russia, of the propaganda issued by Moscow which served to defeat the child labor amendment recently because a lot of emotionally hysterical folks believed the amendment the subtle workings of Bolshevism."

The power of propaganda in both war-time and peace was explained by Mr. Irwin.

"The old idea of the press was that public opinion was molded through the editorials," he said. "But in the first half of the nineteenth century, American editors realized that the power of the press lay in the news."

"The Germans realized the power of the news columns but they did not know how to get at it. So they planted young men in advertising agencies and newspapers in America to find how propaganda was spread among the people. When war was declared the Germans popped out with their anti-Allies propaganda just as surely as the first gun was fired."

"In South America cablegrams cost 35 cents a word, and the newspapers could not afford this. But the Germans gave them wireless service free, which subtly swung South America to the side of the Germans."

"Germany wanted three things through its news—to break down the resistance of the Allies, to persuade the neutrals to keep their support from the Allies, and to keep their own people in line."

"We were only human and we used German methods. For instance, the story so widely known of the Germans cutting off the hands and feet of Belgian children was purely imagination. The propagandists lied, and they knew they lied."

"In the Scandinavian countries there was a peculiar situation. There was a press bureau which obtained news from correspondents representing all countries. Every night this news was edited

and the facts favoring the Germans were played up.

"Finally, all these correspondents broke away from the press bureau. Then the Allies took it over and did the same thing, giving a favorable slant to the Allied news."

"The work of the propagandists was to get at the sources of the news to slant it and paint it. When the war was over there were turned loose from 8,000 to 10,000 propagandists, members of a new trade, all seeking to find jobs."

NO WARRANT FOR EVJUE

Madison Editor Invites Libel Suit by Politician Denied Criminal Action

William T. Evjue, editor of the *Madison (Wis.) Capital Times*, will not be arrested on a charge of violation of the corrupt practices act as asked by Harry W. Adams, campaign manager for Charles Rosa, Wisconsin candidate for U. S. Senate. Mr. Adams had requested a warrant for the editor's arrest following the appearance of an editorial in the *Capital Times* which, he alleges violated that section of the corrupt practices act that reads:

"No person, firm or corporation shall knowingly make or publish, or cause to be published any false statement in relation to any candidate, which statement is intended to or tends to effect any voting at any primary or election."

In his editorial, Mr. Evjue stated that Mr. Adams "had been trying to get on the state pay-roll for the past six years." It was against this statement and other remarks that Mr. Adams objected, and sought a warrant. He charged that the editorial was written for the express purpose of damaging Mr. Rosa's chances in the election, that by belittling Mr. Adams, who was Rosa's campaign manager, the voters would be influenced.

District Attorney Phil La Follette hesitated to serve the warrant and conferred with Superior Court Judge O. A. Stolen relative to the matter. Judge Stolen ruled that Mr. Adams did not have grounds on which to issue a warrant, as the editorial did not attack a candidate—merely a paid employee of the candidate.

Editor Evjue publicly asked the dis-

trict attorney to issue the warrant, and even when it had been refused he came back in the next day's issue calling Mr. Adams' attention to the libel laws of the state to which that gentlemen could resort if he was dissatisfied with the ruling of Judge Stolen.

WRITER JOINS PRIESTHOOD

Harold Davis Emerson of Worcester, Mass., formerly of the *Worcester Evening Post and Haverhill (Mass.) Gazette* editorial staffs, was ordained to the priesthood of the American Catholic Church at Hotel McAlpin, New York, Nov. 7. He has been in publicity work.

SEITZ CHAPEL HILL SPEAKER

Don Seitz, formerly of the *New York World* and now associate editor of the *Outlook*, will be one of the principal speakers at the third annual Newspaper Institute to be held at the University of North Carolina on Jan. 5, 6 and 7.

WOMEN EDIT CLEVELAND TIMES

One-Day Staff Buries Hall-Mills and Canton Murder Stories

Crime news, notably the Hall-Mills murder trial, was taken off the front page and given an inside position in the Nov. 8 issue of the *Cleveland Times* by members of the Business and Professional Woman's Club who edited the issue.

Earle Martin, publisher of the *Times*, turned over the *Times* plant to the club for the day as a feature of the Woman's Christmas Exposition being held at the Public Hall. Miss Marguerite Smith acted as Managing Editor and Mrs. Maude O. Trusdale, City Editor.

The women selected as their page one lead story a dispatch from Washington dealing with the probability of no additional prohibition bills being enacted by the coming Congress. The Herrin feud drew the second lead on page one.

The Hall-Mills and the Canton murder stories were dropped to inside positions while Aimee McPherson was dropped entirely. Queen Marie stayed on page 1.

An interesting sport feature, written by the day's sporting editor, Miss T. Gertrude Fortune defended professionalism in sports and lauded Suzanne Lenglen and Mary K. Browne for their tennis exhibitions.

PAPERS' SENTENCE SUSPENDED

Pleading guilty to technical violation of a state anti-gambling law, the *Detroit Free Press* and *Detroit News* last week received suspended sentences when counsel assured the court that violation was by error.

NEW JERSEY DAILY STARTS ITS PRESSES ON EDISON'S FLASH

Publication of the *Daily Courier* of the Oranges and Maplewood, N. J., began Nov. 8, with a large attendance of prominent residents and business men at the inaugural ceremonies in the pressroom. Thomas A. Edison, who is pictured above with Freeholder Arthur T. Muir, president of the publishing company and

owner of the largest local department store, pushed the button that started the presses. The *Courier's* ownership, it is stated, includes many members of the local Chamber of Commerce, Welfare Federation, Board of Realtors, West Orange Board of Trade and other civic interests.

N. Y. PUBLISHERS BAN FREE RADIO ADS

E. S. Friendly, Sun, Named Censor to Eliminate All Advertising from Program Effective Nov. 15

A plan insuring the elimination of all free advertising in radio programs as published in New York newspapers was adopted at the last meeting of the Publishers Association of New York.

A set of five rules were drawn up, the gist of which was that all names of present or potential advertisers put into programs purely for advertising purposes will be given the blue pencil before they are put into type. The rules become effective Nov. 15. Edwin S. Friendly, business manager of the New York Sun, was appointed censor by the association.

"My job is to see that the rules are carried out," Mr. Friendly said to *EDITOR & PUBLISHER*. "All papers will be carefully checked and any violations will be called to the attention of the newspaper publisher."

"The reason for the association's action is that newspaper radio programs have become virtually monopolized by advertisers. Instead of paying for space, they are engaging talent to broadcast, expecting to obtain sufficient free publicity through the programs to induce the reading public to tune their radio sets in on so-called good-will offerings."

Investigations made by the publishers' association show that a large number of institutions are buying broadcast time because they have been assured by broadcasting stations that their names will be listed by the newspapers in the radio programs. Some stations, it is said, have even gone so far as to include promises of newspaper publicity in their contracts with advertisers. When newspapers have left their names out of the programs, the advertisers have objected strenuously.

This is the second attempt made by the New York publishers to co-operate on the elimination of free publicity from programs.

The first effort started about a year ago was dropped after a few months' trial.

Advertisers who will feel the censorship include: A. & P. Gypsies, which after Nov. 15, will be listed as Gypsies; Happiness Boys, to be listed under the names of the two entertainers, Eveready Hour, to be called, "musical hour." Names of night clubs whose orchestras are broadcasting will be dropped such as the Club Deauville, Club Alabam, Roseland Orchestra, and Swanee Club Orchestra.

NEW CANADIAN MILL

The general contract for the erection of another huge newsprint paper mill in Canada has just been awarded, that of the Anglo-Canadian Pulp and Paper Mills Limited at Limoilu, near the city of Quebec. The mill will at first contain four machines but will be built with an ultimate capacity of eight machines. The same firm which is building the new mill at the St. Anne Paper Company Limited, near St. Anne de Beaupre, a few miles below Quebec, obtained the Anglo-Canadian contract.

NEW WATERTOWN EDITOR

Major Robert W. Bowman, of Watertown, N. Y., educator and contributor to the *Watertown Daily Standard*, has been named editor of that newspaper. No change in personnel of the *Standard* is made because of Major Bowman's connection. Philip H. Wertz, who was made managing editor Jan. 1, 1926, continues in that capacity, and Irving Parmeter continues as city editor. The dual role of editorial writer and managing editor have been carried on by Mr. Wertz since the retirement of the late George A. Glynn as editor last December. A. B. Parker is publisher and general manager.

CILLEY BECOMES MANAGING EDITOR OF PHILADELPHIA RECORD

Reorganization of Only Democratic Daily in Eastern Pennsylvania Concluded and Expansion Plans Are Announced

WHEN Gordon H. Cilley assumed the managing editorship of the *Philadelphia Record* Nov. 8, he "realized a lifetime ambition," as he expressed it to a representative of EDITOR & PUBLISHER.

Mr. Cilley, for sixteen years had been advertising manager of the John Wanamaker Store, in Philadelphia. He re-

Gordon H. Cilley

signed a year ago to organize the advertising agency of Cilley & Sims. Rodman Wanamaker induced him to return to the Record, where he previously had spent ten years and Mr. Cilley responded "with delight," as he put it.

Talk of sale of the Record, which has been going the rounds for months, is dissipated by reorganization of the Record Publishing Company and by this appointment of Mr. Cilley.

"The Record will continue to be the only Democratic daily newspaper in this section," explained Mr. Cilley. "New presses will be bought, there will be important extensions of the plant, physically and every effort will be made hereafter to give Philadelphia and the surrounding territory the best newspaper that possibly can be produced."

Mr. Cilley's experiences in Philadelphia reflect one of the romances of newspaper work. Twenty-seven years ago he came here from Charlotte, N. C., where he had been a compositor, linotype operator and telegrapher on the *Charlotte Observer*. He was with the American army in Cuba and while in camp wrote a series of special articles on soldier life for *Harper's Weekly* and numerous New York newspapers.

After the Spanish-American War, he centered his attention on getting a job on a New York newspaper. He wrote to the editor of the *New York Sun*. He was offered a job at \$15 a week, "which was Dana custom at that time," explained Mr. Cilley. At the same time he wrote to the Sun, Mr. Cilley wrote to the Philadelphia Record. The latter offered him \$25 a week as assistant telegraph editor. "And I took the first train out of Charlotte for Philadelphia," he said.

Mr. Cilley remained with the Record for ten years, during which time he wrote many feature articles and handled all of the first page rewrite. His work attracted the attention of John Wanamaker, and the latter brought Mr. Cilley to the Wanamaker advertising department,

where he became advertising manager. "I recall very distinctly," said Mr. Cilley, "the first day I entered the Record office. I saw the managing editor at his desk and as I passed his office door I said to myself: 'I'm going to have that job some of these days.'"

"And now," added Mr. Cilley, "the prophecy comes true and my lifetime ambition has materialized."

Reorganization of the Record executive staff marks the passing of one of Philadelphia's oldest and best-known newspapermen—John P. Dwyer, who resigned recently as president of the Record Company because of continued ill health.

Mr. Dwyer, before associating himself with the Record as managing editor, was for many years one of the most prolific and best-known political writers in Pennsylvania. He made a reputation as political editor of the *Philadelphia Press*, since merged with the Curtis publications. Mr. Dwyer's son, Stanley Dwyer, is a reporter on the Record.

Rowe Stewart, who succeeded Mr. Dwyer as president, formerly was advertising manager and later general manager. He is now in New York arranging from the purchase of additional presses.

WIRE PICTURES TO BOSTON

New Link in A. T. & T. Transmission System in Operation

Electrical transmission of pictures from San Francisco to Boston, Sunday, Nov. 7, that marked the completion of arrangements for the telephotograph service that joins Boston with New York, Chicago and the Pacific coast, was successful.

The test was conducted at the Boston offices of the American Telephone & Telegraph Company, Boston, in the presence of more than 100 newspaper representatives and executives from Boston and other New England cities, telephone officials and other invited guests.

The process by which pictures are transmitted over the wires was explained in detail by telephone experts.

Photographs of members of the Olympic Club of San Francisco enjoying a swim in the waters of the Pacific taken between 10 and 11 a. m. Sunday were sent over the wires and received in Boston before noon.

The cost of sending photos by the new service follows: Boston to New York City, \$15; to Chicago, \$25; to San Francisco, \$50. Pictures can be sent simultaneously from Boston to New York, Chicago and San Francisco for \$30. Hours during which these photographs will be handled are: East of Chicago, 6 a. m. to 10 p. m.; West of Chicago, 6 a. m. to 10 a. m. Sundays, Boston, New York, Chicago and San Francisco, 1:30 p. m. to 7:30 p. m.

EXPANDING NEWSPRINT MILL

The Riverbend Mill of the Price Brothers of Quebec is undergoing changes in an expansion program which will increase its output to 400 tons of newsprint a day about Jan. 1. With the completion of this work Price Brothers will have a total output of 900 tons a day.

WANTS UNIFORM POSTER LAWS

Col. Edward S. Cornell, president of the National Highway Protective Society returned to New York last week from a trip to the Mississippi River on which he visited state capitals to seek uniform laws regarding advertisements posted along state highways. He said all the State Highway Commissioners favored laws similar to those of New York prohibiting advertising signs on or within 50 feet of state highways.

GREELEY NOT AUTHOR OF "GO WEST" PHRASE

HORACE GREELEY was not the originator of the admonition, "Go West, young man," according to a recent item in the *Mentor*. He merely concurred in the advice after it had erroneously been attributed to him. It happened this way: John L. B. Soule, who in the fifties of the last century edited the *Terre Haute Express*, wrote an editorial praising the opportunities offered young men in the West and prefaced his remarks with the observation that Horace Greeley himself could not give young men better advice than "Go West, young man."

The editorial was copied all over the country, and Greeley received many letters congratulating him as being the actual author of the sentiment and so the editor of the *New York Tribune* reprinted Soule's editorial and accompanied it with a hearty endorsement which he ended with an echo of "Go West, young man!"

ADVERTISING'S VALUE WINS IN DEBATE

Cambridge University Team, Which Says It Plays Too Large a Part in Modern Life, Loses to Colgate Orators

Maintaining that present day advertising is responsible for raising the standard of living, Colgate University debating team defeated Cambridge University debaters on the question, "Resolved, That This House Regrets the Large Part Played by Advertising in Modern Life." The debate, which was held in Colgate Memorial Chapel, Tuesday, November 9, was decided by a vote of the audience on the merits of the question.

Benefits of advertising were described by the Colgate debaters as economic, educational, and artistic. The economic value was stressed by showing that many things which formerly were luxuries for the rich are now necessities for the poor, because advertising has created the desire and has made possible mass production cutting the cost to a fraction of what it would be if one was made instead of millions.

The by-products of advertising in supporting magazines and newspapers which educate the public at a cost to the reader far less than the raw material which is used in making the newspaper or magazine was cited by the negative as a valuable contribution to modern life. It was also contended that outstanding present day art is found in advertising, and this business medium has taken over the role of supporting the arts formerly assumed by kings and nobles.

The Englishmen kept the large audience roaring with laughter at their witty rejoinders and rebuttals of the Colgate statement of facts. The Cambridge speakers contended that advertising is overdone; that it is not needed any longer in massive form found and consequently is an economic waste; and that it has sinister influence in tending to control editorial policy.

The Cambridge team, which defeated Columbia University on the same question Oct. 19, is composed of H. G. G. Herklots, A. L. Hutchinson and Wilfred G. Fordham, three clever and witty speakers. The Colgate team was composed of T. J. Weppner, F. L. Case, and W. E. Rice. Carl A. Kallgren, associate professor of public speaking, is the coach. Dr. George Barton Cutten, president of Colgate University, presided.

LE SOLEIL TO BUILD?

It is unofficially reported that the publishers of *Quebec Le Soleil* have purchased a site near the Palais Station on which they will next year erect a large building.

NEWS TRANSMISSION CHANGES FORESEEN

Charles S. Smith, Chief of London A. P. Bureau, Predicts Reduction in Rates Following Start of New "Beam System"

Revolutionary changes in news communications as a result of the development of the Marconi wireless "beam system" are foreseen by Charles S. Smith, manager of the London office of the Associated Press who was interviewed in New York this week by EDITOR & PUBLISHER.

CHARLES S. SMITH

Mr. Smith, with DeWitt Mackenzie, also of the London office has been watching inauguration of the

beam system closely with a view to its possible use by the Associated Press. He said he understood service would be started between New York and London by the Marconi Company of England by Jan. 1. The beam system is now being used to send messages direct between London and Montreal.

"I expect in the first place that there will be a decided reduction in cable and wireless rates as a result of establishment of the beam system," Mr. Smith reported. "The main advantages it offers to news services are the speed of transmission and the exclusiveness of the report."

"The initial investment for installation of the beam system sending and receiving stations is only one-tenth that needed by ordinary wireless, which ought to make some appreciable difference in the cost of operation."

Mr. Smith maintained that London was still the "news capital of the world," despite the fact that many correspondents were now sending dispatches direct from European and Oriental countries. If the beam system method of transmitting wireless messages lives up to expectations for speed and secrecy the position of London as a news distributing center will be enhanced, he said.

Mr. Smith came to this country from London on the S. S. Leviathan with Queen Marie. He had met Her Majesty previously while covering the Versailles Conference, and while he had several conversations with her on shipboard he was not permitted to quote her for publication.

He said he was told by the Queen's secretary that Her Majesty must not grant any interviews in this country under order of the Rumanian government. No syndicate forced silence upon the Queen, he said, although a syndicate representative who was on shipboard was willing to claim the honor. Mr. Smith will remain in this country studying conditions for about a month and then return to London.

FLEET STREET CLUB FORMED

Fine promises have been obtained for the new Fleet Street and Advertising Club, Ltd., London, which was registered Oct. 20, with not more than one thousand members, each of whom is liable, in the event of winding up for five shillings. Lectures, discussions, debates and conferences on general advertising topics are to be arranged and a library is being formed. The committee of management includes the following well-known Fleet Street men:

F. W. Slaughter, S. A. Willmott, C. Crane, F. Paul, M. Blythe, W. Duncan, E. W. Folkes, S. G. Coram, W. N. Roberts, S. D. Nicholls, A. E. Higgs, W. Larkins, L. Newland, E. J. Trash, C. E. Archer, H. Dust, P. Wall, W. J. Needham, A. W. Hutton, A. H. King, C. W. Bashforth, T. J. Thompson, W. H. Harford.

Old Daily, Part of Whose Profits Go Annually to City and State Charities, Includes Many Unique Ideas in Building

On a panel of stone in the lofty entrance hall there has been carved the following inscription, which gives briefly the history of this great Australian daily:

The above drawing of the interior of the great building gives a clear idea of the processes which are repeated every 24 hours, and of the multiplicity of departments necessary in the work of producing "The Argus" and "The Australasian."

INDUSTRIAL LEADERS WELCOME HELP FROM BUSINESS PRESS EDITORS

Annual Convention of Proprietors and Executives of Trade Papers Addressed by Swope, Brosseau and G. C. Miller

THE twenty-first convention of the Associated Business Papers, Inc., in conjunction with the National Conference of Business Paper Editors, brought to the Hotel Astor, New York, on Tuesday about 300 editors and executives of the nation's business press.

J. H. Bradgon of the *Textile World* was elected president; Merritt Lum, A. W. Shaw Company, Chicago, vice-president; Warren Platt, *National Petroleum Review*, treasurer; and Jesse H. Neal, secretary. C. J. Stark of the Penton Publishing Company was elected to the executive committee to fill a vacancy.

Malcolm Muir, president of the Associated Business Papers, presided at the joint session on Tuesday morning, and introduced some leaders of American industry.

G. C. Miller, president of the Dodge Manufacturing Company, had for a theme "Ourselves as Others See Us." Mr. Miller said that he made it a point to read every week advertising, editorials and articles of eight business papers—that every morning on his desk he had a pile of material more than 6 inches high; that correspondence, representing about 10 per cent of the material, was easily delegated to somebody else, but the other 90 per cent of the material he had to personally win now for ideas. He pointed out that a recent census of his company showed that 92 per cent of the employees were either reading one or more class, trade and technical journals. He said the average of intelligence in industry is mounting higher and still higher; that the editors of the business papers had a reservoir of wisdom that should be made available to the leaders in industry and commerce; that the editors did not properly evaluate their own importance, that they should keep hammering away in their publications on the one or two or three unsolved problems of their industries, until the factors were known, to a solution of these problems.

He said that with many papers the advertising rate is too low; that the rate does not enable the editor to give the service to its field that the field needs and must have; that after all was said and done advertising rate was a relative proposition; that more than circulation should be counted editorial prestige, editorial good-will, influence, reader interest and the hold that individual publication had on its readers. Mr. Miller strongly urged the publishers to guard their advertising and editorial columns more carefully.

A. J. Brosseau, president of Mack Trucks, said that his company is now doing a business of \$70,000,000 annually. There was no doubt in his mind but what the business press was entitled to a larger share of the national advertising than it was getting. Perhaps the answer was to be found in the fact that the national medium had the better salesmen. It seemed to him that if he were out hunting ducks he would go where the ducks were to be found; that he would not take a 52-centimeter gun, fill it full of birdshot and fire it up into the air; he would make it a point to get a good rifle and go gunning where the ducks were. He thought the business papers—especially the members of the A. B. P.—were most influential; that they had a fund of wisdom that was serviceable even to experts in industry, who welcomed their co-operation at all time in the solving of pressing problems. He emphasized the need of keeping business paper columns clear of free publicity. He thought the advertising columns were just as interesting as the editorial.

William M. Smith, general manager, P. Centemeri & Company, told about results secured from business paper advertising in promoting the sale of gloves. This

concern started in a small way—\$160 for four advertisements in the *Dry Goods Economist* in 1914—and built up tremendous sales in the years 1915 to 1920 inclusive, accumulating an enormous surplus, which was finally diverted into the addition of other lines which proved unprofitable, the company sustaining a loss of half a million dollars. In 1921 they went back into the business papers with an increasing schedule, and have had most satisfactory returns from their investment of \$70,000 per year in the years 1921 to 1926 inclusive.

Fred W. Shibley, vice-president of the Bankers Trust Company, said that American industry today is on a high level of prosperity, held there because it is in better balance than ever before in its history. The foundation for this condition, he said, is to be seen in sales research, the study of markets and of distributing conditions.

Mr. Shibley emphasized the value of budgetary control saying it makes for conservatism, breeds confidence, and helps to effect elimination of excessive high and low peaks in industry. Much remains to be done to eliminate distribution wastes, he said. There will undoubtedly be periods of rest or reorganization and of integration, all of which is healthy and natural, but for the long pull general business conditions look more promising than ever.

Mr. Jacob, representing the National Press Club Building Corporation, told of the constructive work that had been accomplished by a group of Washington correspondents in acquiring one of the most important building sites in Washington, in the financing of the new club-building project and of the successful efforts of this voluntary committee to lease space in the new building.

Mr. Jacob said the bankers insisted on a lease of the theatre portion of the building for a period of twenty years at a minimum of \$175,000 per year. The committee obtained the lease for a period of 35 years at an annual rental of \$250,000 a year, in addition to which the lessee agreed to spend \$300,000 in equipping the theatre, and he paid his last year's rent—the 35th year's rent—in advance. The bankers insisted that the committee show leases covering 90 per cent of the space in the new building. The Committee were able to produce leases covering 140 per cent of the available space in the eleven-story structure. The bankers wanted more assurance that the land was worth the price the Committee had agreed to pay for it. The Committee produced an appraisal placing a valuation of \$4,000,000 on the site—the purchase price was \$2,850,000.

Mr. Jacob explained that under the charter of the National Press Club it could not accumulate property or money. It was therefore necessary to organize a National Press Club Building Corporation to hold the property, and that all of the income which will ultimately come from this venture will be distributed by the National Press Club in the establishment of annuities and prizes looking to the raising of the standards of journalism.

E. J. Mehren, vice-president of the McGraw-Hill Publishing Company, summarized the proceedings of the day. He said that it had always been a question in the editor's mind as to whether or not his service was desired by the captains of industry. The editors had learned today that their help was needed. It was a question in the minds of some captains of industry whether or not the rising tide of intelligence in industry was keeping pace with the enormous mechanical inventions and developments. He asked his hearers to take up the hoods of their 1926 models and examine whether or not

the machinery is of the 1926 vintage or of the 1910 or 1912—whether or not their papers are serving their fields as effectively today as the modern captain of industry is keeping pace with the demands of his ever-increasing clientele.

Wednesday morning was devoted to departmental sections: editorial, advertising, and circulation. The speakers in the advertising section were: Everit B. Terhune, president of the *Boot & Shoe Recorder*; Willard Chevalier, sales manager, *Engineering News-Record*; Karl M. Mann, president, Case-Shepherd-Mann Publishing Corporation; George O. Hays, Eastern manager, Penton Publishing Company; Harry E. Taylor, advertising manager, *Dry Goods Economist*, and in the circulation department: P. V. Cole of Cleveland, Warren C. Platt, J. F. Wells, R. R. Rountree, Ralph Foss and J. C. Aspley.

The editorial session was under the direction of the National Conference of Business Paper Editors, with Paul I. Aldrich, editor of the *National Provisioner*, Chicago, presiding. The speakers were A. I. Findlay, editor of *Iron Age*; Morris Buck, managing editor of *Electric Railway Journal*; C. J. Stark, editor, *Iron Trade Review*; N. C. Rockwood, editor, *Rock Products*; Chapin Hoskins, managing editor, *Factory*; V. E. Carroll, editor, *Textile World*, and A. R. MacDonald, editorial director, *System*.

The Associated Business Papers held their fall meeting on Wednesday afternoon with President Muir, presiding.

Jesse H. Neal, secretary and treasurer gave an optimistic report.

The joint banquet on Wednesday evening brought together about 300 of the leaders in class journalism in America. Malcolm Muir was the toastmaster. The speakers were: Gerard Swope, president, General Electric Company, who discussed the subject—"The Responsibilities of Modern Industries," and Donald Kirk David, Assistant Dean, Harvard School of Business Administration, whose theme was—"Aims and Responsibilities of Education in Merchandising."

A presentation of a bronze tablet to W. H. Ukers from the Associated Business Papers, Inc., in recognition of his service in establishing its standards of practice, was made on behalf of the Publishers' Association by M. C. Robbins, of Board of Directors of the business papers.

ROYAL PUBLICITY

Queen Marie Is Beating Prince of Wales at His Own Game

Marie of Rumania is beating the Prince of Wales at his own game, comments the *Cleveland Times* in a recent editorial headed "Royal Publicity." The editorial states:

"The British royal family is said to be shocked by the publicity methods of the Queen of Rumania. They think it is scandalous the way she is gallivanting around and doing her own publicity work. 'Circus publicity,' British critics call it.

"Not that the British royal family and its courtiers of various grades are really adverse to publicity. Buckingham Palace has its own press bureau. The Prince of Wales has gone into the publicity game on a big scale these last few years, 'selling' the British empire to the British dominions and the rest of the world. King George often lends himself to calculated advertising schemes.

"But there's a difference. To the British, it isn't so much what you do as the way you do it. The British royal family has a very British horror of offending 'good taste.' Advertising must be decorous. And it is very indecorous for a queen—an Englishwoman, too—to flaunt herself and her country as Queen Marie does, shaking hands with everybody, jolly-ing everybody and, worst of all, actually writing for papers! It is unheard of.

"Yet a prediction in that respect may be ventured. The British royal family itself will be writing for the papers sooner or later—if it is lucky enough to have a member who can write as Marie can. That British indignation is half jealousy. Marie is beating the Prince of Wales at his own game."

ANTI-GAMBLING DRIVE LOSES CIGAR ADS

South Bend Tribune, Campaigning Against Tobacco Store Evils, Punished by Cancelled National Contracts

A situation has developed in South Bend which is interesting to newspaper publishers because it involves principles which the right-minded publisher holds inviolate and which involves again the old use of advertising as a club over honest newspapers.

On Sunday morning, Sept. 26, the *South Bend Tribune* presented a long article showing the deplorable conditions existing in many South Bend cigar stores due to gambling. The Tribune's investigation was prompted by the arrest for stealing of a youthful cigar store employe who, when placed on the stand in court, confessed that he stole from his employer to make up for losses sustained in gambling in his employer's cigar store. The investigation disclosed gambling in many cigar stores. Youths were allowed to play and the situation was generally bad. Although the Tribune is a Republican newspaper the Democratic city administration endorsed the newspaper's stand by making arrests.

As a result of the Tribune's expose its endeavors to protect the youth of South Bend and to create better moral conditions in the city a drive was started to take advertising away from the Tribune. The powers controlling the national advertising of two well known cigar manufacturers cancelled their contracts with the Tribune.

"The loss of this advertising to us is of no moment in comparison with the moral welfare of the boys and young men of South Bend," said F. A. Miller, president of the Tribune, discussing the affair with EDITOR & PUBLISHER. "What amazes us is that cigar making organizations which are presumed to stand for the right things in life could be influenced by the demands of gambling cigar store owners to show their disapproval of endeavors to protect youth. Perhaps that is not putting it in exactly the correct way. It may be that the producing companies know nothing of what has been done and that the fault lies wholly with their advertising representatives. Sincerely we hope that is true for we dislike to think any high class business organization puts the dollar above protection of the boys who must become the good business men of the future.

"Unfortunately for those responsible, they do not seem to have given thought to the probable reaction following knowledge of what they have done, for not all cigar dealers approve of gambling as an appendage to the cigar store. Thousands of South Bend smokers do not approve of cigar store gambling because they know it is dangerous to youthful morals. Already knowledge of the brands of cigars withdrawn from the Tribune's columns has reached some smokers and dealers and the observations are very caustic. Were the Tribune to publish the names of these brands and tell South Bend smokers the whole story there is no telling what the results would be."

WOMEN ISSUE ANOTHER DAILY

The *Cleveland Times* has joined the growing ranks of newspapers that have turned over publication of their product for a day to local women. Members of the Business and Professional Women's Club of Cleveland were responsible for the Times of Nov. 8.

WALT MASON WRITES AN AD JINGLE

Syndicate Rhymester Says the "Perfect Ad Is One That's Tense with Strong Conviction and Common Sense"

Walt Mason, noted syndicate rhymester, is responsible for the following advertising philosophy:

"I read an ad in the *Weekly Drum*, describing the merits of Beeswax Gum, which cleans the teeth, disinfects the breath and lessens the chances of sudden death, which puts new life in the lagging step and gives one's liver its youthful pep, relieves the mind of its weight of care, abates the nuisance of falling hair. The words were few in this trenchant ad, no windy sentences made me sad. Sincerity was its poignant note; I felt at once, in my mouth and throat a keen desire for a pound or so of this Beeswax Gum, which was good to know. 'Twas a busy day, I had much to do, and I tried to think of the work in view; but I yearned and yearned for the Beeswax brand, until the pressure I couldn't stand, so I left my work to a faithful chum, and went and purchased some chewing gum. This is the trick that an ad will do, if it has the flavor of being true, if it seems the work of a man sincere, who would not lie for a keg of beer. I read some ads that are works of art, compiled by men who are doubly smart; they have command of enchanting words, they have a style that would charm the birds, their line of argument's good as gold, but all their eloquence leaves me cold. They don't seem able to make me feel that truth abides in their soaring spiel. They write of bargains in Belgian hares, but I'm not driven to go down stairs and buy a hare while they're selling cheap—the advertiser his wares may keep. The perfect ad is the one that's tense with strong conviction and common sense, that makes you feel you must go and buy a moustache cup or a pumpkin pie, a cockatoo or a chicken roost, or whatever it is the ad may boast."

WRITES BOOK DAY-BY-DAY

Moore of San Francisco News, Covers "Sesqui" in Serial Story

Irving Moore, reporter on the *San Francisco Daily News*, covers an assignment to write a book as easily as any other man would cover a luncheon club meeting. Last year during the Diamond Jubilee, celebrating the 75th anniversary of California's statehood, Moore wrote "El Dorado" in serial form for the *Daily News*.

IRVING MOORE

The story was a complete history of California, from the time of the Mexican conquest of the Indians, down to the present. It received wide acclaim from subscribers as being the most human and interesting history of the state ever written.

This week San Francisco was celebrating the sesqui-centennial of its birth and the *Daily News* decided the time was appropriate for a history of the city. Moore was put to work and in less than an hour had turned out the first chapter of Yerba Buena, a serial which will run in twenty installments.

THETAS FORM N. Y. CHAPTER

Theta Sigma Phi, national sorority of college women journalists, has formed an alumnae chapter for New York City, and regular meetings are being held monthly.

At a luncheon meeting Saturday, Nov. 13, Owen P. White, well known author and a member of the editorial staff of *Collier's* was scheduled as the speaker.

OUTDOOR FIRM LOSES

U. S. Supreme Court Refuses to Review Case Previously Dismissed

The United States Supreme Court in Washington has refused to review the action of the circuit court of appeals which reversed the action of the Federal District Court in Boston in dismissing the case of the Outdoor Advertising Company which challenged the regulation of

both the Massachusetts Commissioners of Public Work, Division of Highways, relating to billboards and electric display advertising.

The advertising concern challenged the regulations in both the state and federal courts but the federal district court threw the case out on the grounds that the state court action had been started first.

The billboard interests of Massachusetts are trying to prevent the state from carrying out regulations.

PRESS AGENT PAP FOR CONTENTED EDITOR BROADCAST BY MILK ASSOCIATION

Observance of Hallowe'en Had Its Origin in Days of Druids

Observance of the festival of Hallowe'en antedates Christianity. According to the ancient Druids' belief, the evening of the 31st of October was the one of all nights in the year when ghosts and witches were most likely to roam abroad. The Druids lit huge fires to ward off the visitations of such supernatural agents.

On the Druidic ceremonies of Hallowe'en were grafted the characteristics of a Roman festival in honor of Pomona, in which apples and various kinds of nuts, representing the winter's supply of food, played a part. From this source came the custom of ducking for apples, which is still a favorite Hallowe'en sport today.

Games have a great deal to do with the modern observance of All Hallows' Eve, but refreshments play an even more important role. On the refreshments depends the success or failure of the Hallowe'en party. In this connection, the following menu and recipes offer novel suggestions.

Chicken Salad Sandwiches
Jam-Nut Sandwiches
Hallowe'en Salad
Cider Doughnuts
Pumpkin Pie

Hallowe'en Salad

12 yellow apples
1 pt. chopped celery
1½ pts. chopped apple
1½ cups nuts, broken
2 cups cooked salad dressing
¾ cup evaporated milk
¾ cup whipping cream

Cut tops off apples at stem end. Scoop out centers. Chop apple pulp and add nuts and celery. Chill evaporated milk and cream and whip until stiff, then fold into salad dressing. Add dressing generously to salad ingredients and mix lightly. Fill apple cups with mixture. Cut a face on the outside of the apples. Place on lettuce leaf and decorate

with hobgoblin heads. Yield: Twelve servings.

Chicken Salad Sandwiches

1½ lb. chicken meat
1 cup mayonnaise
1 cup cooked salad dressing
½ cup chopped cucumber
1 cup chopped celery
Head lettuce

Chop chicken with a coarse knife in a food chopper. Add cucumber, celery and salad dressings. Mix thoroughly and spread on buttered slices of bread, cut into rounds.

Lay on lettuce leaf, trim edges and place on top a thin round slice of buttered bread with a face cut in the center. Wrap securely in paraffin paper to keep moist. Yield: Twenty-four sandwiches.

Cooked Salad Dressing

1 tsp. mustard
1 tsp. salt
Dash cayenne
2 tbsp. sugar
1½ tbsp. flour
½ cup evaporated milk
Milk diluted with ½ cup water
2 tbsp. melted butter
¼ cup vinegar
2 egg yolks, beaten

Mix dry ingredients in the top of a double boiler. Gradually add the egg yolks then the butter and milk, stirring constantly to keep smooth. Cook over hot water for 10 minutes. Remove from fire, cool and add the vinegar. Yield: One and one-quarter cups.

Pumpkin Pie

1½ cups strained pumpkin
¾ cup brown sugar
1 tsp. ginger
1 tsp. cinnamon
2½ tbsp. orange juice
juice
2 eggs, well beaten
1 cup evaporated milk
¼ cup water
½ tsp. salt

Make a smooth paste of the spices and water. Add this with the sugar, eggs and salt to the pumpkin. Stir to blend thoroughly, then add milk and orange juice. Pour into a deep pie tin lined with pastry. Bake in a 450° F. oven (hot oven) for 20 minutes, after which reduce the temperature to 250° E. (slow oven). About 1 hour is required for baking. Yield: One large, deep pie.

The press agent of the Evaporated Milk Association, with headquarters at 231 South LaSalle street, Chicago, is still convinced that there are newspaper editors in the United States who will publish free advertisements concealed in canned menu articles. The above bald attempt to exploit news columns is a specimen of the stuff that is now issuing from the Evaporated Milk Association sent out with the usual "free of charge" and "for educational purposes only" line of bunk.

BELOIT EDITOR STIRS BOOZE UNDERWORLD

Connivance of Police and Lawyers with Criminals Charged by Weekly—Stone Hurlled Into Editor's Home as Warning

Another Mid-Western newspaper editor whose indignation at collusion between law-breakers and those sworn to enforce the law expressed itself in his newspaper's columns finds himself facing threats of violence and death, which last week took the form of a large stone tossed through the front window of his home.

The editor is Blaine Hansen. His newspaper is the *Beloit (Wis.) Independent*, a weekly established in July, 1923. His targets of editorial denunciation have been bootleggers, a certain firm of lawyers which regularly defend them in court, and a police official charged with receiving bribes and conniving with law-breakers.

Following the stone-hurling episode, EDITOR & PUBLISHER asked Mr. Hansen for a description of his fight against the local underworld. His reply, received by telegraph Nov. 9, follows:

"Shortly after the *Beloit Independent* was founded July 13, 1923, I became interested in the booze situation in Beloit. I soon noticed that whenever bootleggers were taken into court, a certain law firm always defended them so that it became a case of the state and the police fighting the attorney for the criminals rather than the crooks themselves. This firm had me arrested in Aug., 1924, on criminal libel charges, because I recommended that lawyers who made a specialty of defending bootleggers be put in the same class as the bootleggers.

"Actions are still pending against me in the Rock County Circuit Court.

"Patrolmen came to my office a few weeks ago with charges of corruption in the police department involving a captain. They charged him with bribery, booze-handling, and otherwise conniving with bootleggers to defeat the law. Immediately after the issue was published, the captain had me arrested on a criminal libel charge. The police commission called a hearing and suspended the captain. The case is still pending."

"The patrolmen who made the charges in my paper received an anonymous letter advising them to 'keep still or get out of town, or you will be filled full of lead.'"

"Early on the following Sunday morning, my wife and I were awakened by the thud of a heavy weight and crashing glass on the lower floor of our house. We saw men leave the front of the house in an automobile. Our first thought was of a bomb and we waited for the house to blow up. We went down after a few minutes and found a large stone. A detective tells me that it was meant as a warning."

"A neighbor said he had seen men loitering in the back yards some nights before, who fled when our car drove in."

"I am going through with the case now before the police commission and the bootleggers are already beginning to pack up and leave. My answer to the warning of the stone, as printed in the last issue of the *Independent*, follows:

"It's unfair to make accusations when the identity of the assailant is unknown, hence this newspaper refrains from making any accusation. Nevertheless it takes this opportunity to inform those who may be to blame for the outrage that nothing they have done or may do in the future will alter in one iota our determination to carry through this fight for a clean-up in Beloit. That is our answer and our only answer to the missile hurled through the front window of our home on last Sunday morning."

JOINS CLASSIFIED STAFF

C. E. Phillips has been added to the classified advertising department of the *Chicago Herald and Examiner*. For the past three years Phillips has been on the advertising staff of *Delineator*.

ADAMS AWAITS VERDICT OF INDIANA JURORS

Vincennes Editor Holds in Abeyance His Own Investigation of State Political Evils While Grand Jury Sits

Thomas H. Adams, *Vincennes* (Ind.) *Commercial* editor and publisher and head of the probe committee of the Indiana Republican Editorial Association, whose charges of wholesale corruption and Ku Klux Klan influence in Indiana political life started a grand jury investigation and also a probe by the Reed senatorial committee, announces that he "has faith in the integrity of the grand jury," and has let his own investigation rest for the present. The grand jury inquiry has been resumed at Indianapolis and many officials high in state and city office have appeared. The probe hinges on the alleged control of the Indiana Legislature in 1924 and 1925 by D. C. Stephenson, former head of the Indiana Klan and now serving a life sentence in the State prison for murder.

Mr. Adams, who went back to his home for election week, has returned to Indianapolis.

No further developments have been reached in the \$1,000,000 damage suit of Mayor John L. Duvall of Indianapolis against the *Indianapolis Times*, and *Chicago Tribune* and others charging conspiracy to slander after the *Times* printed a facsimile of a purported "contract letter" between Duvall and Stephenson, promising liberal patronage if Stephenson would assure Klan support in Duvall's election. Mayor Duvall denies the entire letter and calls it a forgery, and the defendants have been ordered by Judge James M. Leathers of Superior court to produce the original of the "contract letter." The original has not been submitted, however, and it is the opinion in Indianapolis editorial circles that the damage suit will not be pressed.

CHURCH CAMPAIGN PLANNED

National Drive Discussed at Publicity Meeting in Chicago

Plans were outlined for a national church publicity campaign, promoted by 1,000 professional advertising writers and 250 advertising clubs, with the co-operation of a committee of 100 of the leading men of America and 100 pastors of the largest and most successful city churches, at the ninth annual church publicity conference under the auspices of the Chicago Church federation and the advertising council of the Chicago Association of Commerce.

The Rev. Charles Stelzle of New York, chairman of the church advertising department of the International Advertising association, outlined the publicity program in a talk to the delegates.

"Our aim will be to advertise religion and not simply the church," he said. "The church is not a reform organization, not a social club, nor a political party, but it has a monopoly on the cure for sin."

Dr. J. T. B. Smith, chairman of the church publicity commission of the Chicago Church federation, and Homer C. Buckley of the Buckley-Dement advertising company, presided at the conference.

BULLETIN ISSUES ROUTE LISTS

The *Philadelphia Bulletin* has just issued a set of route lists for salesmen covering Philadelphia and Camden as a service to its national advertisers. The lists are pocket size and contain key maps of the districts listed. Dealers are arranged by routes, making it easy for salesmen to call on them in order. The lists cover Electrical Goods and Radio Supplies Dealers, Women's Apparel and Specialty Shops, Cigar and Tobacco Dealers, Hardware and Housefurnishing, Confectioners, Drugs and Sundries. Additional lists covering Men's Wear, Grocers, Musical Goods, Shoe Dealers, and Automobiles and Accessories will be issued.

DAILY'S PUBLIC SERVICE OFFICE SERVED 1,022,733 PERSONS LAST YEAR

Chicago Tribune Forced to Provide Larger Quarters for Department Which "Just Grew" from a One-Man Basis—Now Has 13 Employees

New public service office in basement of Tribune Want Ad office, showing general filing cabinets.

THE Public Service Office, formerly the Public Service Bureau, of the *Chicago Tribune*, has again moved to larger quarters and now occupies the basement and sub-basement of the Tribune's former building at Madison and Dearborn Streets, now the Union Trust Building.

The Public Service Office last year served 1,022,733 persons, and will far surpass that figure for this year, it is expected. The office furnishes information on every conceivable subject to the general public, and dispenses architectural books, auto maps, auto letters, fishing licenses, football schedules, "Line" Books, news pictures, radio books, and dozens of other books and pamphlets published by the Tribune.

The new quarters of the Public Service Office has a floor space in both the basement and sub-basement of 88 feet by 66 feet, and is furnished throughout in walnut. In the office are desks for general information, a resorts and schools bureau, Western Union, a tourists' bureau, and sound-proof phone booths.

The Public Service Office employs 12 men and one woman, and furnishes for the use of the public, files of the Tribune and *Liberty* magazine takes subscriptions for the paper, makes minor adjustments, and gives almost every kind of information sought. On certain occasions, other services will be added. For instance, at Christmas time the Tribune's good-fellow campaign will be conducted from the Public Service Office.

The counters, literature racks, metal files, desks, waste baskets, all are in walnut. The air of the offices is filtered and washed and kept at about 70 degrees all year.

The Public Service Office had its origin as a one-man contact with the public, sponsored by the editorial department of the Tribune. In 1921 Parke Brown, of the local room, was established in a corner of the want-ad store as the loop city editor. The only records now available indicate that Mr. Brown's duties were almost wholly of an editorial nature.

When the loop editorial office had been functioning for a short time, Mr. Brown was given an assistant, Miss Emma Jean Drymiller. She distributed free departmental publications and dispensed general information.

In 1922 the Illinois bonus went into effect, and it became necessary to employ

several people in the loop editor's office to assist ex-service men in applying for the bonus. From this time on the office was called upon to perform a great many services not of an editorial nature. Mr. Brown was called back to the local room, and at Capt. Patterson's suggestion, the loop city editor's office, the name of which was changed to the Public Service Bureau, was placed under the direction of J. M. Cleary, director of the business survey. H. W. Donaldson was appointed manager.

In March, 1923, the Public Service Bureau moved into the store space at 11 South Dearborn Street, because of the many new functions it was called upon to perform, and it has grown steadily since. An information office is also maintained in the Tribune Tower, with a man in charge and several more dispensing information in the circulation department.

"When our bureau first opened," Mr. Donaldson says, "the executive who was most responsible for its establishment referred to it as a 'shot in the dark.' And it was. I should be hard pressed to name one subscriber or one advertiser whose interest in the paper could be traced directly to the Public Service Office. But the value of the service bureau to its paper is just as intangible and as incapable of estimate as are the advantages of libraries."

"In the Travel Bureau, we have a rack containing time tables of all the larger railroads in the United States; all of the steamship lines operating on the Great Lakes, and all the ocean lines whose ships sail from American ports to Europe, Asia and South America. In addition to the time tables, we always have three or four racks of useful, beautifully illustrated literature, which is furnished us by the transportation companies of the United States, or in some cases, a foreign country."

BECKMAN JOINS FARM PAPER

F. W. Beckman, for 15 years head of the agricultural journalism department of Iowa State College, Ames, Ia., has resigned to become managing editor of the *Farmer's Wife*, St. Paul, Minn., the first of the year. Mr. Beckman has been an Iowa newspaper man all his life, serving eight years as managing editor of the *Des Moines Register* and later associate editor of the *Register* before joining the Iowa State College staff in 1911.

EMPLOYEES BUYING INTO NEW YORK SUN

Dewart Permits Members of Staff to Purchase 8 Per Cent Stock on Instalment Plan—Many Take Advantage

William T. Dewart, president of the *New York Sun*, is permitting employees to buy 8 per cent preferred cumulative shares in the publishing corporation on the instalment plan as the first step toward mutualization of that newspaper according to the wishes of the late Frank A. Munsey. His first intention had been to offer the shares for cash, as announced previously in *EDITOR & PUBLISHER*, but he altered his decision when large numbers expressed a desire to buy on easy payments.

The shares have a par value of \$100. The preferred issue will total \$3,000,000, of which \$2,000,000 will be sold at this time. Members of the Sun's staff will be given a year in which to pay for shares they wish to buy, with weekly payments being taken off the pay checks. Temporary stock certificates will be issued within 10 days and the plan will then go into operation.

Nothing has yet been done toward mutualization of the *New York Evening Telegram*, which was also purchased by Mr. Dewart from the Metropolitan Museum of Art, residuary legatee of the Munsey estate.

BRIDGEPORT PAPERS MERGED

Star and Times Combined Following Purchase by Latter Daily

The *Bridgeport* (Conn.) *Star* has been purchased by the owners of the *Bridgeport* (Conn.) *Times* and the paper is now operating from the old *Star* plant, at present carrying both names but later to become the *Star-Times*.

The consolidation of the papers was effected by the payment of nearly \$250,000 to George B. Clark, publisher of the *Star*. Few changes have been made in the various staffs as yet, although J. Edward Elliott, former editor of the *Bridgeport Standard*, purchased and suspended nearly a decade ago by the *Bridgeport Post*, but of recent years editor of a trade paper for the Raybestos Company, has been added to the editorial department in replacement of Lynn W. Wilson, recent editor of the *Star*. Wilson's son, Curtis Wilson, former *Star* city editor, has joined the desk staff of the *Bridgeport Telegram*.

The merger leaves the afternoon field to two papers in Bridgeport. The *Telegram* is the sole morning edition. On Sunday there are the *Sunday Post* and the *Bridgeport Herald*.

The *Bridgeport Times* was the outgrowth of the old *Bridgeport Evening Farmer*, established in 1790.

ADVERTISING FOR BEVERAGES

Delegates attending the annual convention of the American Bottlers of Carbonated Beverages at Buffalo were informed more than \$1,049,000 of a proposed \$2,000,000 fund has been raised to conduct a national advertising campaign for such products. Carl A. Jones of Bristol, Va., is chairman of the association's advertising committee. The advertising plan is now being prepared and the campaign will be launched as soon as the association officers believe that its adequate financing has been assured.

CHANGES ON CHICAGO H.E.

R. C. Cornell of Los Angeles has been appointed city editor of the *Chicago Herald & Examiner*. He was formerly sporting editor and later news editor before going to Los Angeles in 1922. Cornell has been with the Hearst organization for 25 years. Frank Carson, executive news editor of the paper, has been appointed assistant managing editor.

The Growing Popularity of the Baltimore News

(another chapter)

IT'S just like a serial story; each month writes a new chapter of achievement in the story of the growing popularity of the Baltimore News!

October's record is an increase of 20,010 in circulation and an increase of 32,253 lines of local advertising!

This swing of popular favor toward the Baltimore News has been going on steadily for over a year; it shows the people of Baltimore like an aggressive, well-illustrated paper like the News; they not only buy the paper, but they support its advertisers with results.

Wise Coverage

You can now cover as many or more homes in the Baltimore territory with the Baltimore News as with any other evening paper and you are not *forced* to buy a morning paper of largely duplicating circulation—and you can't cover Baltimore *without* the News.

CAST AWAY THE OUTWORN TRADITIONS, AD MEN ADVISE NEW ENGLAND

Region Is Not Slipping Industrially, Declares Robert Lincoln O'Brien—Clyne of New Haven Advanced to Presidency of District Body

WORCESTER, MASS., Nov. 9.—Five hundred delegates from sixteen cities were present at the two-day annual convention of the New England Advertising Clubs, which came to a close late this afternoon after one of the most successful conclaves in the history of the seven-year-old organization.

Abandonment of old New England traditions in industry and business was urged as the keynote of the advertising men's policy.

John H. Clyne, an advertising executive of the *New Haven Journal-Courier*, was elected chairman to succeed John W. Longnecker of Hartford, at the annual business meeting this afternoon. Mr. Clyne has been secretary-treasurer for the past year.

Major P. F. O'Keefe, president of the Boston Advertising Club, was elected to serve as second member from the New England district for the international commission. I. B. Myers of the *Waterbury Republican American* was named secretary-treasurer to replace Mr. Clyne. The elections were unanimous.

Following the routine of registration, which occupied the greater part of Monday morning, the association was formally called to order at a noon luncheon at the Bancroft Hotel. George H. Johnson, president of the Worcester Advertising Club, presided, and introduced Mayor Michael J. O'Hara, who delivered an address of welcome. The response was by Mr. Longnecker, retiring New England chairman, who was followed by C. King Woodbridge, president of the International Advertising Association.

"Local Merchants," declared Mr. Woodbridge, after stressing the need of local advertising, "spend 40 percent of the \$1,300,000,000 invested each year by United States advertisers. About 57 percent of this amount is spent on newspaper advertising. The 40 percent can be increased for local newspapers."

Robert Lincoln O'Brien, editor of the *Boston Herald*, chief speaker at the Monday afternoon session, was optimistic concerning the industrial outlook for New England. "New England is far from 'slipping' industrially," Mr. O'Brien asserted. "In the past fifty years many industries have been leaving New England. But more and more have been coming here to take their places. Proper and scientific advertising will establish

any business or commercial enterprise here."

Marcus L. Urann, president of the United Cape Cod Cranberry Co., the second Monday afternoon speaker, told an interesting story of how advertising had "put the New England cranberry on the map." Herbert Metz, advertising manager of the Graybar Electric Co., outlined a parallel case in explaining the launching of his company with well-planned advertising. Walter S. Ashby, advertising counselor of Manitou, Col., spoke on "Dealer Co-operation, How to Get It and Hold It."

The annual banquet and frolic was Monday night with George F. Booth, publisher of the *Telegram-Gazette*, as toastmaster. Franklin Collier, *Boston American* cartoonist and creator of "Otto Grow," entertained with a talk on "Humor in Advertising," and gave a number of illustrations drawn before his audience. Capt. Irving O'Hay, U. S. Army, retired, spoke on his experiences, after which there was dancing.

"New England offers a ripe field for the talents of the advertising man," declared Harry B. Kirkland of Newton Center, Mass., advertising expert, at the Tuesday afternoon session. "A buying era has passed and a selling era begun. New England progress hinges on vision, understanding, cooperation, courage and will to succeed. Advertising can and will accomplish this."

Paul M. Mazur of Lehman Brothers, New York, spoke on the functions of a publicity department in a department store. Other speakers were Allen B. McIntire, New England manager of Barton, Durstine & Osborn; Marion Hertha Clarke of Albert Frank & Co. of Boston; M. L. Wilson, vice-president of the Blackman Co. of New York; Neil Borden, assistant professor of Advertising at the Harvard Graduate School of Business Administration; and G. W. Freeman of Doremus & Co. of New York.

The next convention will be held in Boston, next November.

JOHN H. CLYNE

AIDS FLORIDA SUFFERERS

For the relief of sufferers of the hurricane which swept Florida, the *Chugai Shogyo Shimpo* (International Journal of Commerce), Japan, has forwarded 86,300 yen to the Japanese Ambassador at Washington, Tsuneo Matsudaira. The sum represented the contributions of 40,000 Japanese in all walks of life, most of them influenced by recollections of the aid extended them in their own great trouble, the earthquake and fire of 1923.

CHICAGO SEEKING BAN ON PISTOL ADS

State Law to Be Urged by Chicago City Council—Also Studying Ordinance to Stop Sale of Fire-arm Silencers

To forbid circulation in any way in Illinois of any magazines, newspapers or other periodicals that publish advertisements of pistols, revolvers or other firearms, a proposed State law, is being developed by members of the judiciary committee of the Chicago City Council.

A resolution introduced by John Toman, alderman, and accepted by the Council, at its first fall meeting, directed that the judiciary committee, of which Jacob Arvey is chairman, gather facts upon which to base reasons for need of such a law and that the committee prepare a bill with a view of obtaining permission from the State for Chicago and other cities to stop distribution of periodicals with firearm advertisements.

The judiciary committee is also working on an ordinance, suggested by Mr. Toman, to forbid manufacture or distribution here of any so-called silencers to deaden the report of a firearm. That the advertisements and the silencers are an aid to promotion of crime was the charge of Mr. Toman.

"Suitable legislation, if enacted into law, would help to stop indiscriminate sale of firearms by mail order houses in Illinois and outside of the state," stated the resolution presented to the council.

Who remembers the time when fellows had to go to a burlesque show to see what they wanted to see?—*Florence (Ala.) Herald*.

GREAT LONDON MERGER PENDING

Berry Brothers, Publishers of London and Manchester Papers, Negotiating for Purchase of Amalgamated Press, Ltd.

Berry Brothers, who, as already announced in *EDITOR & PUBLISHER*, have just completed the purchase of the *London Daily Sketch* and the *Illustrated Sunday Herald*, are negotiating for the purchase of the Amalgamated Press, Ltd. The purchase price of the *Daily Sketch* which has bought and consolidated the *Daily Graphic*, was £1,250,000. The Amalgamated Press was founded by Lord Northcliffe and his brother, Viscount Rothermere, and now owns and publishes more than 100 periodicals, and has an authorized capital of £3,800,000. Sir William Berry and his brother J. Gomer Berry, own also the *Sunday Times*, the *Manchester Sunday Chronicle*, the *Manchester Daily Dispatch*, the *London Financial Times*, etc., and the periodical and magazine publishing firms of Cassell and Company, Ltd., and Weldon's Ltd., and hold large interests in other provincial publications.

What Quality Readers Buy

Quality readers alone buy advertised products high and low in price.

Quality readers discriminate in purchases. They buy—and remember—trade-marked advertised articles when convinced of quality. They seek low prices, but demand quality. They prefer advertised to non-advertised goods. They alone can buy at the highest price levels.

Quality readers set buying habits. To acquire the good-will of such purchasers is the foundation of merchandising success.

The New York Times has the greatest number of readers of high quality of any newspaper in the world. Its censored advertising columns have the solid confidence of these readers. The Times is advertising leader in volume and character of advertising.

* * * The New York Times advertising columns are as clean and free and fair as its news. They whet the appetite of the average reader by showing him day after day and year after year what useful and lovely things he can buy with his money, what profitable savings he can make in his income, how he can get ahead materially or spiritually by patronizing the advertisers in its columns. * * *—WILLIAM ALLEN WHITE, Emporia, Kansas.

McKELLAR WILL FIGHT FOR 1920 RATES ON SECOND CLASS POSTAGE

Serves Notice on Sub-Committee of Senate That He Dissents from Moses Bill, Which Has New's Approval

WASHINGTON, Nov. 10.—Opinions clashed over the proposals for postal rate legislation at an executive session today of the special Congressional sub-committee on postal rates, Senator George H. Moses chairman.

The Moses bill, which was introduced at the last session and reported from the special joint sub-committee, was discussed. The majority of the sub-committee and Postmaster-General New, who appeared, favor this measure, but Senator McKellar of Tennessee declared that he would urge in the short session a bill which would restore rates on newspapers and magazines to the 1920 basis.

The sub-committee adjourned, subject to call by the chair without action, but it is clear that there is controversy ahead if an attempt is made this winter to pass any form of a postal rate bill.

The Moses bill is intended to make some comparatively minor changes in the 1925 law. It would restore the one-cent rate on private mailing cards, make the rate on transient second-class matter one cent for each two ounces or fraction thereof and bring about several other changes.

Mr. New submitted a report on the postal revenues for the fiscal year ended June 30, 1926, showing total revenues of \$659,819,801.03, this being a net increase of \$60,228,323.49 over the revenues for the fiscal year 1925.

The chief items of increase were from sales of stamps and other stamped paper, \$44,953,096.31; second-class postage paid in money, \$2,366,757.04; first, second,

third and fourth-class postage paid in money under permit, \$8,538,253.78; revenue from money-order business, \$3,585,093.25.

Mr. New is opposed to reducing the rates on newspapers and magazines to the 1920 basis, as urged by Senator McKellar. Mr. New pointed out that a total revenue of \$673,876,987 was forecast by the department for the fiscal year 1926 and the actual revenues fell \$13,814,017 short of that amount.

"The actual revenue from ordinary mail matter," he said, "proved to be 3.89 per cent less than expected. First-class mail failed to meet expectations by nearly \$7,000,000, third-class by \$5,000,000, and fourth-class by nearly \$10,000,000. On the other hand, revenues from second-class pound rate matter, money order service, postal savings and miscellaneous sources exceeded expectations, making the net difference somewhat less than \$14,000,000."

In the course of his remarks, Mr. New also said:

"The reduced revenue from second-class transient matter is obviously due, in a measure at least, to patrons making use of the special handling service, in lieu of the special delivery service.

"In the case of first-class matter the revenues fall short of expectations to the extent of more than \$6,000,000. Presumably the practical elimination of the post card as an advertising medium, due to the increase in rate from one cent to two cents, is the principal contributing factor."

Ambassador Matsudaira wore the robes of the Imperial Japanese University of Tokio as he was escorted by President Brooks to a place on the steps of the administration building. Escorted by students and faculty the party moved to Jay H. Neff Hall, where the formal presentation was made.

H. J. Blanton, chairman of the board of curators, and publisher of the *Paris* (Mo.) *Monroe County Appeal*, accepted the lantern on behalf of the University.

"It is significant that your gift was made to the School of Journalism because I have come to see in the newspapers of our world the key to nearly every international misunderstanding," he said. "More and more there are discouraging rumors, wild statements, and dangerous appeals to prejudice, weapons the demagogue and designing man have used all down the ages for the disruption of neighborly relations between individuals and nations.

"More and more they are insisting upon facts and exalting the truth, knowing that the truth, as one of our great religious teachers has said, will make us free—free

Japan's gift to Missouri school

from the doubts, suspicions and misunderstandings that have led so many people into wars they otherwise would have escaped, and into hatreds which persisted with ruinous consequences to the third and fourth generations."

The price of anthracite is up again this year probably because it naturally costs more to work the mines than to keep them idle.—*J. J. Montague in New York Herald Tribune.*

KEEGAN LEAVES WORLD

Bronx Man Resigns to Take Political Job After 20 Years' Service

Charles E. Keegan, for 20 years a member of the *New York Evening World* staff, has resigned to become assistant to Aldermanic President McKee.

More than 125 members of the Manhattan and Bronx Copy Club, an organization of newspaper men, honored him at a dinner Monday night. Mr. Keegan is a former president of the club.

Keegan joined the *Evening World* 20 years ago, and since 1913 has covered the Bronx. He is active in politics and is secretary of the Pontiac Democratic Club.

Among the guests of honor were Mr. McKee, District Attorney McGeehan, Sheriff Lester Patterson and Magistrate Albert Vitale. Congressman Frank Oliver was toastmaster.

James F. O'Connor, on behalf of the organization, presented Mr. Keegan an expensive silver set, while District Attorney McGeehan was called upon to present a clock to Charles Brodie, who succeeds Mr. Keegan as the Bronx representative of the *Evening World*.

CHAS. E. KEEGAN

STONE LANTERN GIFT TO MISSOURI SCHOOL

Japanese Ambassador Makes Presentation to Journalism Department—
Press Lauded as an Enlightening Force

"In this stone lantern I see a miniature lighthouse. It illuminates the darkness, even as the press illuminates society. Hewn from stone, it is indestructible, and it braves storm and defies stress, just as the press stands its ground against obstruction, oppression, and persecution. And as the light that burns within the lantern is a holy light, the ideals which are the driving force of the press must be pure and unselfish if it is to perform its proper function as an agency of enlightenment."

Thus Tsuneo Matsudaira, Japanese Ambassador to the United States, pictured the meaning of the stone lantern which his country presented to the school of journalism of the University of Missouri, Columbia, Nov. 9. The lantern was the gift of the American-Japanese Society of Tokio and was presented at the suggestion of the foreign office of Japan.

Before officials of the university, the entire student body, the R. O. T. C., in full uniform and a huge crowd of former students, the presentation was made. Afterwards the honorary degree of doctor of laws was conferred upon the Ambassador by President Stratton D. Brooks.

C. L. Hobart, president of the Missouri Press Association and editor of the *Holden* (Mo.) *Progress*, and a special committee appointed by the association at its September meeting in Cape Girardeau, attended the ceremonies. The members were: Will H. Zorn, *West Plains Gazette*; Mrs. Frances Jacob-O'Meara, *Martinsburg Monitor*; Miss Pearl Peters, *Monett Times*; B. Ray Franklin, *Jefferson City Capital News*; E. H. Winter of the *Warrenton* (Mo.) *Banner*, former president of the Missouri Press Association, also attended.

RADIO PROGRAM SYNDICATION SEEN AS SOLUTION OF AIR MUDDLE

Best Talent Obtained by Central Company Will Settle Rights to Stations, Radio Editor Believes—Local Stations Will Concentrate at Home

By E. M. BOYD,
Radio Editor, Cincinnati Enquirer

THE day of syndicated programs, supplied by several large broadcasting stations, and non-dependent on the advertiser, is near at hand.

Whether or not listeners have observed it, nevertheless it is obvious that conditions of radio broadcasting are in a transition stage which marks a distinct trend to that end. Prophecy at this stage of development of an industry so young that it has not yet been weaned may not be rash, but anyhow the notion is worth speculating on.

Briefly, it is that the highest type, each in its respective class, of musical, literary or other form of instructive or entertainment programs in the future will be provided by a few great broadcasting clearing houses. The outstanding pioneers best known in this field are WEA and its chain, and WJZ and the stations which customarily are linked with it in a hookup. There are other lesser ones. On the Pacific Coast is KGO and its chain.

Surely the plan has its advantages for all concerned and at this writing we are unable to think of a single objection that may be advanced to it. It is manifest that WEA, by having a long and growing list of subscribers to its service, is going to be increasingly able to provide better offerings. In the same way these offerings may be obtained by any broadcaster anywhere within practical range of telephone communication for a fixed charge, perhaps graded according to his power and the extent of his individual field.

In any case the cost to the subscribing broadcasting station will be far below any sum for which he might duplicate the program in his own studio.

This form of providing radio programs is becoming highly specialized right now. At present the advertisers are paying most of the cost of the operation of the central supply broadcasters, but it is obvious, for many reasons that the supply station must eventually be independent of the advertiser, and the campaign of EDITOR & PUBLISHER against the liberal space given by newspapers to the press agents of these advertisers, and the awakening of these air advertisers to the fact that they are not receiving direct results from their appropriations for good-will programs will prove factors in bringing about this change.

And why should not the highest forms of art represented by music and literature be carried to the nation through the medium of radio, as well as through the theater, the concert halls and books and periodical publications? In every way the public will be the gainer. The tremendous popularity of radio is bringing about the condition, and on the other hand, with the offering of superlatively good programs the popularity of radio is bound to go on increasing until the day will come when not to own a receiving set will be equivalent to an inability to read and write. The owner of a receiving set and his family are not going to think any less of their set, and their interest is not going to wane when they know that the best in music, literature, drama and absolute entertainment are theirs for the bother of twisting the dials.

The foregoing should not be taken as an argument that the local station's programs will pass. On the contrary, they will become as highly specialized as the syndicated programs. The individual station will continue to have special needs that must be met which can be accomplished only by programs prepared by its own staff in its own studio.

Doesn't this inevitable state of affairs suggest something?

In our minds the condition is exactly paralleled by the daily newspaper. The same problems will be met and solved in

pretty much the same way. Here is a supply broadcaster who specializes in the higher grade of operatic music. He will gather about him the world's greatest singers. He will have on his salary list the greatest conductors. For a comparatively small sum any broadcaster may be provided with any concert or opera presented by the supply company.

It costs the great news gathering organizations vast sums of money to collect the world news, but when the cost is divided around among the hundreds of newspapers which publish this news, the amount is comparatively small for the individual newspaper. And so on in the different forms of radio purveying—another central station will maintain the greatest of symphony orchestras; another will devote itself to operettas, musical comedies and other forms of a lighter nature. And so on, in every field of general interest.

And just as the newspaper wouldn't be a newspaper if it neglected its local field, a large part of the time of every individual broadcaster will be devoted to its strictly local programs. Perhaps in that day, which is to dawn very soon, a way will have been discovered of splitting up available air channels into infinitesimal bands, or two or more transmitters may transmit on the same frequency at the same time without interference, just as two messages may be sent now over one wire simultaneously without interference by the use of different potentials. Today broadcasters are providing the necessity for such an invention by trying to transmit at the same time on the same frequency, but no one as yet, alas! has discovered the device that will enable them to function separately without interference.

Getting down to a concrete example, however, of what may be accomplished by such a system, consider the programs

Unlimited Quantities of Leads - Slugs - Plain Rules

STACKS and stacks of leads, slugs and plain rules, in various sizes and lengths, pile up after a day's run with the Elrod.

Firm, strong material, with smooth surfaces and clean edges, comes out without let-up. Any man in your plant can easily learn to produce this work with an Elrod as this machine operates automatically and requires only occasional attention.

You know what this abundant supply of quality material means in results and timesaved. All yours, with an Elrod.

LUDLOW QUALITY COMPOSITION

provided by WEA through locals. Who among the vast army of listeners would forego these offerings? Not one, of course. Nor does any of a local station's programs suffer in any way by comparison with the syndicated programs. On the contrary, the local station, knowing that certain hours will be filled in by programs of first-grade quality, supplied by the syndicate to which it subscribes, is free to devote its energies and talents to the consideration and preparation of programs which are in keeping with its individual policies and which meet its own purposes. Thus the local's army of friends enjoy superior programs both through the syndicate and through what may be said to correspond to the local department. What resourceful leader in the radio industry will find it expedient to provide the radio syndicate service? It's bound to come.

PHOTOGRAPHERS ORGANIZE

Mallen of Graphic Head of New York's Latest Professional Body

Newspaper photographers and editors of news picture pages and supplements have organized the New York Photo Editors' Association with these officers:

Frank Mallen, *Graphic*, president; J. A. Nessensohn, *Acme News*, vice-president; Frank Gilloon, *Times*, secretary; William White, *Daily News*, treasurer. Directors: Frank Ryberg, *Daily News*, chairman; William J. Bodin, *Post*; Vincent J. Palumbo, *International News Pictures*; Louis Walker, *Mirror*; Eugene O'Brien, *Times Wide World*; Joe Lyons, *Sun*; Morris Gilbert, *Herald Tribune* and George Kabel, *Underwood & Underwood*.

The object of the organization is to remedy shortcomings in obtaining news photos, particularly of scheduled events, through conferences with promoters or committees of arrangements, and to facilitate in every way possible the work of news photographers.

ENWRIGHT TELEGRAPH SUSPENDS IN BOSTON

Plant Sold, Publisher Informed Staff Bondholders in Possession of Assets—Paper Succeeded Telegram Oct. 1

The *Boston Telegraph* suspended publication with its issue of Nov. 6 and assets are now in possession of the bondholders. Started as a tabloid Oct. 1, Frederick W. Enwright, following involuntary petition in bankruptcy against the *Boston Telegraph*, an evening paper which Enwright had published since 1920, the *Telegraph* was changed to standard size a week later and suspended after a staff meeting at which Enwright informed the employees that the plant had been sold and that if they wished to continue publication, they would have to find another printing establishment.

A statement attributed to Enwright that he had sold the paper three weeks ago to a group of Boston newspaper men could not be confirmed, nor could the names of any of the alleged purchasers be learned.

POWER COPY IN SOUTH

Aggressive advertising campaigns the effort to increase the number of manufacturing plants in the respective cities are being conducted by Charlotte, N. C.; Leigh, Aberdeen and Asheville, N. C.; Mobile, Ala.; New Orleans, La.; Macomb and Atlanta, Ga., and Norfolk, Va. The states of Georgia and Alabama as a whole are being advertised.

The United States Public Health Service has issued a warning against circulators that restrict circulation. "The hurt circulation," ventures Girlykins, the Lady Reporter, "but they help advertising."—F. P. A. in *New York World*

Every Advertiser Wants Results

THE newspaper that shows results has no trouble filling its advertising columns. One of the most important elements in the successful advertisement is the way in which it is presented to the readers. Shabby, out-at-the-elbows type or even out-of-style typefaces have difficulty in selling new Paris creations, and battered, worn and broken typefaces make it no small task to convey an atmosphere of freshness to a sale of millinery or frocks.

Every line new and bright—every heading fresh, clear-cut and attractive on easily handled slugs—these are a few of the many advantages brought to you by the Ludlow.

The Ludlow is conceded by many leading newspaper men to be the best method for setting ads and heads for any newspaper. Through many years of untiring service it has built up a reputation for efficiency, economy and speed that commends it to the careful attention of every newspaper publisher. Its wide range of popular typefaces in sizes up to full-width 72-point gives a variety of sizes and styles sufficient to meet the demands of even the most exacting advertiser.

Industrial MICHIGAN

**Booth Papers Intensively
cover this Territory of
Great Prosperity and unusual
Buying Power**

To determine the basis of Michigan's great buying power study its present industrial position as a producer of wealth. Michigan is the acknowledged automobile center of the world, manufacturing two-thirds of the world's motor car supply valued at over \$1,500,000,000. Fifty-five plants are busily engaged in this great enterprise employing a vast army of skilled labor whose earning power is above \$260,000,000 annually.

Second in importance is the gigantic industry supplying the parts and bodies, whose aggregate production is valued nearly one-half billion dollars.

Then come the other industries, such as foundries and machine shops, engines and water wheels, iron and steel forgings, stoves, electric machinery, sheet metal goods, brass, lumber and timber, furniture, paper and pulp, chemicals, coal, iron ore and copper. All these industries are the great source of Industrial Michigan's productive wealth, and in total value represent nearly \$4,000,000,000 in annual output.

How Booth Newspapers Cover the State

Booth's 8 evening newspapers completely cover Industrial Michigan with the exception of Detroit. These papers not only enter the homes of over 250,000 families in the 8 leading cities but they reach out into the suburban territory and form one complete connecting link that blankets the State.

The national advertiser can reach one million readers who are among the greatest buyers, per capita, in the country at very little cost.

The Booth organization is ready to assist any advertiser anxious to capture this great market.

HIGH PRESS WIRE RATES CHIEF BAR TO FAR EASTERN NEWSPAPERS

Cable, Telegraph and Wireless Tolls Prohibitive for Most Papers, Writer Declares in Survey of Japanese and Chinese Fields—Manila Favored by Navy Radio

By MILES W. VAUGHN

Far Eastern Manager, United Press

THE whole question of development of the press in the Far East is so closely linked with communications that any survey of the situation must be read with these facts constantly in mind:

1. Press rates between practically all Far Eastern countries and Europe and America are unbelievably high, averaging at least three times the rate between the United States and Europe.

2. Press rates between Far East points, such as Tokio and Peking, Shanghai and Manila, or Hongkong and Surabaya or Batavia, are equally exorbitant, averaging nearly twice the rate from New York to London.

3. Even when newspapers are able to pay the high rates communications often are slow and in many districts traffic must be handled roundabout fashion. Thus a message from Peking to Tokio usually is routed from Peking through Shanghai and Nagasaki, there being no satisfactory direct line. Traffic between Manila and Batavia or any of the other Java towns must be sent via Hongkong and Singapore, as the old Manila-Java cable, cut during the world war, never has been reopened pending a squabble as to who shall control it.

This lack of satisfactory communications, and between many points mail as well as telegraphic service is unusually difficult and slow, has of course retarded the growth of the press tremendously—for the simple reason that newspapers have not been able to obtain the volume of news, especially foreign news from distant points, that is essential if they are to fulfill their function.

Growth largely has been sporadic and haphazard and naturally has been greatest in those points where the possibility of large circulations has enabled editors to go ahead and pay the enormous sums necessary for big news services, charging the expense against advertisers and subscribers.

With this situation prevailing the press of Japan naturally has swept into a leading position in the Far East, for the material development of Japan and its concentrated population which makes handling of huge circulations comparatively easy, has given Japanese newspapers the money necessary to collect news, and satisfy their readers by giving them the world's news today.

It is no secret, however, that the press of Japan has suffered tremendously from the very high costs of foreign news, which must be cabled in at an average price of near 30 cents gold a word. Japanese newspapers have been crusading for months and years for a lower press rate, particularly to the United States, and an improvement in communications facilities. If they win the struggle, and new cable and radio facilities are provided and rates cut to something like a reasonable price, the press in Japan believes it will enter an era of tremendous development.

As things stand now some Japanese newspapers are among the greatest in the world, and by far the strongest both financially and editorially, in the Orient.

Two newspapers, the *Osaka Mainichi Shimbun* and the *Osaka Asahi Shimbun*, have circulations of well over one million a day, seven days a week, and with both morning and afternoon week day editions.

The *Osaka Mainichi* claims, and probably has, the largest circulation in Japan and one of the largest in the world. Its morning edition press run averages about 1,300,000 and the evening edition about the same. The newspaper has a fine plant with modern equipment and an enormous battery of American high speed presses to handle its huge circulation. The paper

is largely hand set, as a minimum of 4,000 Chinese and Japanese characters or ideographs are used in nearly every edition. Type is cast on a Japanese invented machine and scores of girls are used in distributing used type.

Distribution is by carrier and through branch offices in all principal cities of the Empire. Osaka is ideally located, near the center of Japan. Steamship docks and railway lines make it the economic heart of the Empire. Fleets of motor trucks take the newspaper to terminals and by morning the *Mainichi* can reach nearly all the main cities of Japan's principal island, Hondo, on which Osaka and Tokio are located, as well as Korea and Kyushu. In addition the newspaper has an urban population of upwards of 3,000,000 within an hour by steam and electric trains, of its plant.

The *Mainichi*, as well as most of the other leading Japanese newspapers, has a strongly independent editorial policy. The newspaper, as developed by the present president of the *Mainichi* Company, H. Motoyama, has a tremendous influence on opinion not only throughout the Japanese Empire but all over the world. It publishes an English edition, so that the policies of the paper may be conveyed daily to English speaking people.

The *Mainichi* also owns the *Nichi Nichi* in Tokio, with a circulation of about 700,000. The Tokio and Osaka plants are connected by direct telegraph and telephone systems for interchange of news.

Organization of the *Asahi* is along much the same lines as the *Mainichi*, the Osaka edition covering western Hondo and the Tokio edition the capital and the East. The Tokio edition is called the *Tokio Asahi* and now is building a big new plant.

There are strong independent morning and evening newspapers in nearly every city of Japan, most of them depending on the news agencies for foreign and general news. In this field the *Nippon Dempo Tsushinsha* and the *Nippon Shimbun Rengosha* are supreme, with *Nippon Dempo* probably in the stronger position in that it offers both foreign and domestic news services and has its own telephone system from one end of Japan to the other, enabling fast distribution of news to all cities of the main islands.

Nippon Dempo has offices and correspondents in all the main cities of Japan, the Japanese possessions (Korea, Formosa, etc.) and in China and foreign centers where there are large Japanese colonies. For European and American news it co-operates with the United Press, relaying the United Press foreign serv-

ices from London and San Francisco. The agency serves all principal newspapers of the Japanese Empire and supplies various foreign publications with Japanese news.

Nippon Shimbun Rengosha was organized a few months ago out of the old Kokusai news agency, originally a distributing agency for the Reuter foreign news service in Japan. It is described as a co-operative concern with several leading Japanese newspapers as members. The agency co-operates with the Associated Press and the various official and semi-official agencies of Europe, including Tass of Russia, Reuter of England, etc. Its foreign news service is filed direct from various points and relayed from the Reuter foreign news report in Shanghai. The agency does not yet deal in domestic news, although it plans to organize a domestic news service in future.

In the foreign owned, English language newspaper field the *Japan Advertiser*, owned by B. W. Fleisher, is widely known throughout the Far East.

In the afternoon English language field the *Japan Times*, Japanese owned and edited, is widely known in Tokio. There are two English language newspapers in Kobe and one in Osaka, the English edition of the *Osaka Mainichi* which circulates all over Japan and the Far East.

There are a number of small newspapers in both English and Japanese in Korea, Manchuria and the Kwantung Leased Territory (Port Arthur.)

In China the native press is in an almost primitive state outside the treaty ports, and one of the peculiar phases of development is that many of the principal Chinese organs for political and military

purposes either are printed solely in English or have an English edition. One of the leading of the Chinese owned newspapers in the North is the *Far Eastern Times*, Tientsin, with both English and Chinese editions. It is generally considered an organ of Marshal Chang Tso-lin, the Manchurian dictator.

Two other powerful English newspapers in Tientsin are the *North China Star*, edited by Dr. Charles James Fox, American, and the *Peking and Tientsin Times*, owned by a British Company.

In Shanghai the press has had a much greater development owing to the wealth of the great Treaty Port and its large foreign population. There are two big Chinese language morning papers, the *Shun Pao* and the *Sin Wan Pao*, each with a circulation of upwards of 75,000 a day and fine plants.

In the English language field the *North China Daily News*, often referred to as "the *London Times* of the Far East," is a big morning daily with a fine plant on the Bund and a considerable influence as the leading organ of British opinion in China. The *China Press* and the *Shanghai Times* also are large morning papers and there are two afternoon sheets.

An American company now is being formed in Shanghai and plans to start publication of a big "All American" newspaper in Shanghai early in 1927.

Hongkong has a number of English language newspapers including the widely known *South China Morning Post*. Singapore has two or three English newspapers and a number of small vernacular sheets for its polyglot population. In the Dutch Indies there are a dozen or so

Duplex Super Unit

“OUR CUSTOMERS WRITE OUR ADS”

GEO. E. GRAFF

Publisher Williamsport Sun, writes:

**“From the Very Outset It Demonstrated Itself to Be
a Fine Printing Mechanism.”**

“IT IS THE BEST”

The Duplex Interchangeable Unit Super Duty Sextuple Press

The Williamsport Sun

Williamsport, Pennsylvania
Feb. 8, 1926

The Duplex Printing Press Co.,
Battle Creek, Michigan.

Gentlemen:

I am sending you herewith check, which, in connection with previous remittances, is payment in full for your Super Duty Unit-type Metropolitan Sextuple press recently installed in our plant. I know of no sincerer way of expressing our complete satisfaction with the new machinery than by prompt acceptance and equally prompt payment. *From the very outset it demonstrated itself to be a fine printing mechanism*, and in that respect justifies the original judgment upon which we made our decision to purchase, viz., upon the material and workmanship entering into its construction. Our own force, with their first experience on semi-cylindrical presses, has not as yet had any operating difficulty since your erector retired and they are enthusiastic believers that it is *“the best.”*

We moved our composing room into the new mechanical building on Saturday last and are now of the opinion that we are as adequately equipped for our purposes as any newspaper anywhere.

Thanking you for the consideration received from all your force, we are,
Very truly yours,

THE WILLIAMSPORT SUN,

Geo. E. Graff, President.

GEG/R

Reasons Why the Duplex
Super Duty

“IS THE BEST”

Simpler in design—less parts

Heavier and stronger running parts

Printing and folding units are interchangeable

No roller-bearings on printing cylinders—
but Duplex solid bearing guaranteed
for 25 years

Triple strength—quick plate lock-up

Duplex special heavy duty folder

Superior printing—no streaks

EDITORIAL

STANDARD INVOICES

BY this time it must be pretty well known that the advertising agencies that handle considerable of the volume for daily and weekly newspapers are insisting that newspaper publishers adopt a uniform type of invoice. At present there are thousands of invoice forms, many giving such meager information that agency clerks spend hours puzzling them out and the results are needless expense for the agency and delay in the settlement of accounts.

Admirable work is being done by the National Editorial Association to bring about the use of the standard invoice. It has established a form which, when filled out, gives all the information any agency would want. This information is as follows: (1) Town, state and date. (2) Publisher's name and the papers published. (3) Name of advertiser or agency. (4) Date of insertion. (5) Description of advertisement. (6) Edition—if more than one is printed. (7) Number of inches or lines. (8) Rate and gross charges. (Agency accounting department computes the net amount after subtracting agency commission.) (9) Cash discount date, if allowed.

EDITOR & PUBLISHER suggests that every publisher take this occasion to consult his invoice form and make sure that these nine elements are included. He should also see to it that with the invoice, preferably attached to it, should be the checking proof, the best form, in our opinion, being a full page tear sheet which, however, must show the full name of the paper and the date of issue.

Secretaries of publishers' organizations may obtain sample invoice forms from the National Editorial Association, 622 Merchants' National Bank Building, St. Paul, Minn., or find an ideal blank form in EDITOR & PUBLISHER for September 11, page 20.

"What's easier than just to tell the truth?" queries poet J. McCombie Murray. Just the opposite is often easier.

OUR BUSINESS PAPERS

THE men and women who make trade and technical newspapers held an interesting convention in New York this week. In addition to exchanging experiences among themselves they called in for critical analysis of their work some of their more distinguished readers. Among the latter were G. C. Miller, President Dodge Manufacturing Co., and A. J. Brosseau, President of Mack Trucks.

The addresses these two men made were as if dictated from the same mind. They agreed in every particular, and here are some of the points they scored: The business world looks to the business press for leadership. Industry is thirsting for technical information. A high percentage of the executives and skilled mechanics in the automobile industry read trade papers. The publisher who is offering cheap paste-pot and scissors editorial material because his low advertising and circulation rates will not permit him to buy real news and authoritative technical articles has an unsound policy and should reverse the order, both for self-satisfaction and financial profit. Editors do too much office work and not enough traveling and interviewing. When one writes for the trade press he must know the field. The sickliest feature that comes under the eye of the busy man of industrial affairs is the glory stuff, the illustrated page which puffs some ordinary mortal who has merely succeeded in accumulating a large wad of cash without contributing anything of exceptional merit to the world. Let the puffs go to men who earn honors by real achievements, actual contributions through genius or sweaty strife.

These and other speakers told of the remarkable power of the trade papers in this country to serve their respective fields of interest with leadership in major policies, technical information, fraternal craft unity and also in respect to actual results through their advertising pages. Some of the advertising achievements described are unrivaled in any department of American journalism.

This was the 21st annual convention of the Associated Business Papers, in conjunction with the National Conference of Business Paper Editors. It is a live organization, pulsating with a force that has not yet been measured.

God is a spirit; and they that worship Him must worship Him in spirit and in truth.—St. John, IV; 24.

NEWS AND PROPAGANDA

SPEAKING in a Western city recently Will Irwin declared that the war, on both sides of the firing line, taught the art of propaganda to 8,000 or 10,000 men, who, since the armistice, have been turned loose upon the world to ply their new trade with resultant disastrous distortion of fact in numerous fields of interest. He held that much news is "slanted" in the press of America as well as abroad, but he specifically said that the American newspaper is the "most honest in the world." He asserted that the editorial had lost its power and that public opinion is largely founded on fact, or alleged fact, reported in news columns.

According to *St. Paul Pioneer Press* those who heard Mr. Irwin gained the impression that he looked with considerable doubt on the news columns of many American newspapers. Just how much pernicious propaganda does enter news columns of the American press EDITOR & PUBLISHER is not prepared to say. We feel sure that there are many times "8,000 or 10,000" seeking to influence public opinion, in behalf of good, bad or indifferent special interests through the press, in one way or another, and we positively know of the day and night, ceaseless vigilance of the American newspaper craft to defeat their designs. It is easy to exaggerate their successes. The faith of the people is strong in the press, and when it is imposed on the incident takes on the character of a scandal. One exposure of tampering with a set of news facts, in the minds of the critics of the daily press, is immediately held up as typical, discounting all the good work that editors and reporters may have done to conserve standard practice. We deny that there is in America any considerable amount of conscious pernicious propaganda in news columns, and it is true that our press is the most honest in the world—it is an unpurchasable press.

We do not agree that the editorial has lost its power, although perfected news system has in recent years offered to the public such an array of fact and credited opinion that abstract judgment on current events may be formed by the average reader in almost any column of the paper.

An often overlooked point in this persistent discussion of propaganda is that the American press has developed, to an admirable degree, a spirit of candor with the reading public that permits of free and ample correction of mistakes so that, when a paper is "taken in" it may later reverse the order and opinions formed through the passing into print of deceitful propaganda. The old idea was to "ride out your errors." Editors used to fear to print even simple corrections, and they would stand in terror of reversals of major policies. That false idea is as dead as a smelt in this country.

We are constantly hearing of incidents wherein newspapers that have been misled in matters of local importance have righted themselves with the public. One of the most interesting cases of this sort recently occurred in New England in the case of the two Italian "Reds" who, by eminent counsel, are alleged to have been framed-up by radical-chasing Federal and local authorities. Boston newspapers that at first seemed committed to the proposition that these men were guilty of murder, and had had a fair trial, have of late, on the presentation of new evidence and sound legal reason, candidly expressed the view that doubt exists and have advocated a new trial under auspices that would better insure justice. If their news accounts were once "slanted" by prejudice, these papers have certainly been free and direct in reversing their attitudes.

A DANGEROUS LAW

WISCONSIN has a corrupt practices act which makes it a crime to publish a false statement, in relation to any candidate, which tends to affect voting at a primary or election. It seems a reasonable legal protection, but like so many other laws, it may be used to defeat its own object.

When a warrant was sought for the arrest of William T. Evjue, editor of *Madison Capital Times*, under the provisions of this law, on the complaint of the campaign manager for the independent candidate for U. S. Senate, a week ago, the newspapers of the state gave the news a big play. This, of course, was an important influence on the election in the eleventh hour of a heated campaign. The complaint may have represented an honest belief that the editor had violated the state law, and it may have been merely a campaign manager's trick to win sympathy for his man and take the edge off of a newspaper's criticism. Anyway, the politician got over his publicity.

The editorial on which the complaint was based did not seem like a criminal utterance as we read it in New York. The purport of it was that the candidate in question had been trying to connect with the state pay-roll for six years, which was by way of advising voters that he was a professional job seeker; the candidate's claims to adherence to the old LaFollette principles were called specious, and the editorial gave notice to the voters that this candidate had supported Coolidge for President.

But this editorial was taken as sufficient cause for the editor's arrest. When the matter came before the court, however, Judge O. A. Stolen promptly refused to entertain the complaint, saying the newspaper man had not violated the corrupt practices act. This Wisconsin law has a bad hole in it. Its purpose may be excellent, but if under its terms an editor may thus be menaced and the process of public opinion be interfered with, the law surely needs restatement in terms that will permit of no confusion.

A Western newspaper publisher some time ago attacked a local commercial condition which he believed to be an evil and months later learned that several national advertisers, in response to some community of interest skulduggery worked up in New York, were withholding schedules as a punishment. The publisher has not been influenced. Some day organized journalism will deal with this ugly fact, occasionally revealed.

EXPENSIVE GUESSWORK

THERE is merit in positive statement in news recital, but not when the facts are in doubt. Editors are constantly breaking down public confidence in their columns by taking fact chances. It is a heedless and needless business.

A case in point occurred last week in the Hall-Mills story. Mrs. Gibson was unable to appear in court. The first story we saw announced that she was dying from cancer. The statement was positive. No authority was cited. Later the unqualified report was broadcast that she had a mild kidney disease, this being followed by stories, printed in many papers, that the woman would recover in time to testify at the trial. Then came announcements, on the authority of attending physicians, that Mrs. Gibson was suffering from an acute kidney affliction. One New York newspaper discredited all stories by publishing an interview with the woman's mother that she was feigning illness.

Pay your money and take your choice, seemed to be the editing theory. The story would have been as valuable if the reports had conformed to established news writing rules, qualified when reporters did not know the facts and wherever possible citing authorities, always present in a medical case. "Mrs. Gibson Ill and Unable to Testify" was the point of the story. The nature of her case was of secondary importance.

It is a popular notion that the "public is quick to forget," but experience is that a newspaper that is always guessing at the facts, inevitably missing more often than not, is accumulating a reputation for inaccuracy which will curse it for this generation and the next. The reader does not expect a writer to tell more than he knows, so why try?

PERSONAL

C. K. WOODBRIDGE, president of the International Association of Advertising Men addressed the meeting of the Pittsburgh Advertising Club in the Chamber of Commerce, Nov. 10.

Neal Dow Becker, president of the Intertype Corporation, sailed from New York, Oct. 30 for foreign fields in the interest of Intertype.

George T. Richardson, editor of the *Worcester* (Mass.) *Post*, returned to his desk Nov. 4 from a trip of several weeks abroad.

Sir Hugh Denison, who has just come to the United States as Trade Commissioner for Australia, succeeding Sir James Elder, is chairman and managing director of the Sun Newspaper, Ltd., of Sydney, New South Wales. He was a delegate to the Imperial Press Conference held in Ottawa in 1920 and took a prominent part in entertaining the delegates to the Conference in Australia last year. Besides his newspaper interests, Sir Hugh is prominently identified with several Australian industries.

George F. Booth, editor and publisher of the *Worcester* (Mass.) *Telegram-Gazette*, was a speaker Nov. 10 before a meeting of the Worcester Guild of St. Agnes.

C. K. Blandin, publisher of the *St. Paul Dispatch and Pioneer Press*, returned from Europe Nov. 4.

Irwin R. Kirkwood, editor of the *Kansas City Star*, was host to Herbert C. Hoover, Secretary of Commerce, when the latter spent part of a day in Kansas City recently. Mr. Kirkwood entertained Mr. Hoover at a breakfast, to which a number of newspaper men were invited.

Clarence Brown, publisher of the *Blanchester* (O.) *Star-Republican*, has been elected secretary of state for Ohio. E. Ben Yale, publisher of the *Waynesville* (O.) *Chronicle* and other papers, has been chosen a member of the House of Representatives. Herbert L. Rohe, of Tiffin, well known newspaper man, has been returned to the Ohio house.

Ole Buck, state field manager of the Nebraska State Press Association, will be the guest of honor on his birthday, Nov. 19, at a party given by the South-eastern Nebraska Press Club in Falls City.

Geo. S. Oliver, publisher of the *Pittsburgh Gazette Times* and *Chronicle Telegraph*; Arthur E. Braun, president of the *Pittsburgh Post and Pittsburgh Sun*; J. Y. Chidester, editor of the *Pittsburgh Press* and Alexander P. Moore, former publisher of the *Pittsburgh Leader*, are included in a committee named by Mayor Kline of Pittsburgh to make plans for the entertainment of Queen Marie of Rumania during her visit to Pittsburgh on Nov. 23 and also to receive her upon her arrival in the city.

Col. Henry W. Shoemaker, publisher of the *Altoona* (Pa.) *Tribune*, in his capacity as chairman of the Pennsylvania Historical Commission, will be one of the presiding officers at the unveiling of a monument to mark the farthest point of William Penn's advance up the Schuylkill River.

F. W. Kellogg, publisher of a string of southern California dailies, has sailed for the Orient on the Cunard round-the-world trip.

Walter A. Strong, publisher of the *Chicago Daily News*, and Mrs. Strong, returned Nov. 8 from a vacation in the Mediterranean countries.

Irvin S. Cobb and Robert H. Davis returned from Europe this week and told New York ship news men of their admiration for Premier Mussolini.

IN THE BUSINESS OFFICE

ARTHUR H. UTT of the promotion department of the *St. Louis Globe-Democrat* has resigned to become promotion manager of the *Columbus* (O.) *Dispatch*. He will assume his new duties Nov. 15.

Edwin Moss Williams, Southern rep-

resentative of the Omar D. Gray Newspaper Brokerage Company has left Columbia, Mo., on a trip through Texas and other Southern states.

Emery E. Hardwicke, former advertising manager of the *Wichita* (Kan.) *Eagle*, and more recently an advertising man in Florida, is now advertising manager of the *Independence*, (Kan.) *Daily Reporter*.

Mrs. Chas. K. Brown, national advertising manager of the *Evening Leader and News-Leader*, Staunton, Va., was in Richmond this week, attending a meeting of the Executive Committee of the American Legion Auxiliary.

William Schofield has become advertising manager of the *Burbank* (Cal.) *Review*, succeeding C. C. Blood.

IN THE EDITORIAL ROOMS

CHARLES N. CHRISTMAN, for many years assistant city editor of the *Philadelphia North American*, has been named as night city editor of the *Public Ledger*. John MacLaughlin, formerly on the rewrite desk of the *Evening Public Ledger*, has been made city editor, in place of George Emery, who returns to the copy desk.

Joseph B. Crandall, who came to the *New York Herald Tribune* a few months ago as day telegraph editor, has been promoted to assistant night editorship.

Bela Norton, assistant city editor of the *New York Evening Post*, has resigned to join the publicity staff of Ivy Lee, New York.

John B. Jones, telegraph editor, *Spokane Spokesman Review*, was a recent speaker before journalism students at the University of Washington.

Angus Perkerson, editor of the Sunday magazine and rotogravure section, *Atlanta Journal* is in New York until the last of November.

Mrs. Annie Russell Marble, literary editor of the *Worcester* (Mass.) *Telegram*, is the author of a new book, "The Story of Leatherstocking," a condensed version of Fenimore Cooper's "Leatherstocking Tales."

G. Kasuya, for the past two years a European correspondent of the *Tokio Jiji Shimpo*, has returned to Tokio and is engaged at present on special work in his newspaper's head office.

J. Walton Hall, Ashland (Va.) correspondent for the *Richmond* (Va.) *Times-Dispatch* and other newspapers, has been named publicity agent of the Virginia Educational Association.

W. W. Horton, former city editor of the *Poplar Bluff* (Mo.) *American*, recently returned to his old position.

John Weaver Sherman, attached to the *Boston Globe* editorial staff, was defeated for attorney-general on the Socialist ticket at last week's state election.

FOLKS WORTH KNOWING

THIRTY-FIVE years in newspaper work, ranging from reporting murder trials to covering the World War is the record of Frank Palmer Sibley, of the *Boston Globe*, one of the best known and most popular special writers on Boston newspapers, or in fact in all New England. On Sept. 15, he celebrated a double anniversary, it being his 55th birthday anniversary and also the day marking his

FRANK P. SIBLEY

thirty-fifth year in journalism.

Born in Chelsea, Mass., in 1871, he was educated in the schools of that city. He later attended Vermont Episcopal Institute at Burlington, Vt., and studied two years at Harvard College, with the class of 1893. He began his newspaper career with the *Boston Transcript* in 1891. Later he worked on the *Denver Post*, returning East to the *Boston Globe* where he has remained since. He left New York Sept. 5, 1917, as a war correspondent with the 26th Yankee Division comprising New England troops, for France, and went through all the fighting with that division. He returned to Boston with the division in April, 1919.

He is a member of the Boston Press Club, having been its president in 1923, Newspaper Club, Patria Club, Boston Bicycle Club and Eastern Collie Breeders. His principal hobbies are music, pictures, books and his country place. He married Miss Louie F. M. Lyndon, of Nuneaton, England, in July, 1894, and they have one daughter, Helen. They reside in Boston.

John Regan, ship news reporter for the New York City News Association, returned from Europe on the Transylvania last week.

Albert G. Laney, city editor of the *Paris Herald*, the foreign edition of the *New York Herald Tribune*, is in New York city for several weeks, working in the home office.

Everett S. Irwin, assistant editor of the *Worcester* (Mass.) *Telegram-Gazette*, who has been in England covering a series of international soccer games between Worcester, Mass., and Worcester, England, teams, returned this week.

Arthur J. Carruth, managing editor of the *Topeka* (Kan.) *State Journal*, spent his vacation in central Kansas duck hunting.

The Central Press Association
Announcement

Farris A. Flint, for some time our manager of sales, has been appointed business manager in place of H. A. McNitt, who has resigned. Mr. Flint has also been elected vice-president of the Central Press Co.

Leslie P. Eichel, late of New York, and formerly editor of the Evansville Press, has been appointed editor of the service. Other editors and executives continue in their work as before.

An extensive program of improvement is planned. Our service has increased in value to its clients steadily during past years, and with application of fresh energy will offer more and more value to newspapers.

All the resources of the McNaught Syndicate of New York, including the co-operation of its effective personnel, will be devoted to the further building of the Central Press Association.

V. V. McNITT, President.

Cleveland, Nov. 10, 1926.

Metropolitan Newspaper
Service

150 Nassau Street, New York City

Maximilian Elser, Jr. Earl J. Hadley,
General Manager Associate

(Continued from page 29)

Walter Law, of the *Council Grove* (Kan.) *Guard* staff, and Mrs. Law are parents of a daughter, named Rosalie Jane Law.

Jay R. Hayden, Washington correspondent of the *Detroit News*, and Mrs. Hayden sailed from Yokohama on the Dollar Line steamer President Wilson, Oct. 19, returning to America after a tour of Japan, China and the Philippines. While in Tokio, Mr. and Mrs. Hayden were entertained by the American Consul-General, Edwin Neville, with whom Mr. Hayden attended the University of Michigan.

William Lampmann, former police reporter for the *Omaha* (Neb.) *Bee*, has joined the staff of the *St. Louis Post-Dispatch*.

William W. Wilcox and Lee Decker, formerly with the *Miami* (Fla.) *Herald*, are now with the *Indianapolis Star*. Mr. Wilcox was assistant slot man on the *Herald* and has taken the same position with the *Star*, and Mr. Decker was in the *Herald* sport department, now occupying the same position on the *Star*.

Frank White, formerly a reporter with the *Indianapolis Star*, has resigned to become publicity agent for the American Legion France Convention committee.

Arthur Tiernan, formerly in the *Indianapolis Star* sports department, has resigned to become publicity agent for the Indianapolis Chrysler Company.

Roy Lee Harmon, former editor of *Beckley* (W. Va.) *Raleigh Register*, is now sporting editor of the *Huntington* (W. Va.) *Advertiser*.

HOLDING NEW POSTS

J. MANLEY STORM, from state editor *Indianapolis Star*, to *Cleveland News* copy desk.

Robert C. Elliott, from assistant news editor *Indianapolis Star*, to *Bundy Quill & Press* of Los Angeles, Cal.

Charles C. Stone, from slot man *Indianapolis Star* copy desk, to *Indianapolis Times*.

DeForrest O'Dell, from *Indianapolis Star* copy desk, to assistant professor of journalism in Butler University in Indianapolis.

Jewel Dean, from *Indianapolis Star* copy desk, to *Richmond* (Ind.) *Palladium*.

Ralph Dunham, from *Chicago Tribune* copy desk, to *Indianapolis Star*.

J. Douglas Perry, from reporter *Indianapolis Star*, to *Indianapolis News* copy desk.

Sam Crabtree, from *Washington* (Ill.) *Illinois Valley Herald*, to staff, *Springfield* (Ill.) *State Journal*. Paul Goddard, president of the Herald Company, has assumed managership of the *Herald* and will be assisted by Edwin G. Kilby, his son-in-law.

Ben Allan, from sports writer, *Asheville* (N. C.) *Citizen*, to *Atlanta Journal* staff.

WITH THE SPECIALS

FRED L. HALL COMPANY, INC., San Francisco, have been named to represent the *Sheridan* (Wyo.) *Post-Enterprise* in eleven western states. Payne, Burns & Smith represent the *Post-Enterprise* in the east.

George B. David Company, New York, has been named to represent the *Bridgeport* (Conn.) *Herald* and *Jamaica* (N. Y.) *Press*, nationally.

MARRIED

WILLIAM T. BUCK, circulation manager of the *Daytona Beach* (Fla.) *News*, to Miss Marie Turner, of the circulation department of the *News*, Nov. 3.

Gardner Cowles, Jr., news editor of the *Des Moines* (Ia.) *Register* and son of Gardner Cowles, publisher of the *Register*, to Miss Helen Curtiss, of Ames, Ia., at the Curtiss home, Nov. 3. They left for the east and sailed Saturday for Italy where the honeymoon will be spent. They expect to return to Des Moines for the

holidays. Mr. Cowles was graduated from Harvard in 1925.

John F. Sweeney of the *Worcester* (Mass.) *Post* to Miss Helen S. Sweeney of Worcester at St. Stephen's Church, that city, Oct. 30.

Daniel E. Ladd, Associated Press operator in the office of the *Bloomington* (Ill.) *Pantagraph*, to Miss Irene M. Suttles, Nov. 3.

Elvert Grant Cook, formerly of the advertising department, *Rockford* (Ill.) *Morning Star*, now of Dubuque, Ia., to Mrs. Ina Daily of Rockford, in that city, Oct. 31.

John W. Potter, managing editor and part owner, *Rock Island* (Ill.) *Argus* and Miss Aileen Trent at Rock Island, Nov. 9.

Miss Evelyn Gerstein, until recently assistant to the dramatic editor of the *Boston* (Mass.) *Herald*, to Gustave B. Garfield of New York at her home, Roxbury, Mass., Nov. 1.

Miss Betsy Hess, daughter of Sol Hess, cartoonist for the *Chicago Herald & Examiner*, and Stanley Baer of Chicago, early in January.

Miss Sybil Bauer of Chicago, world's champion backstroke swimmer, and Edward Sullivan, sports editor, *New York Graphic*, early in January. Miss Bauer was Olympic champion in 1924 and is holder of 33 world's records.

CHANGES IN OWNERSHIP

W. A. MAERZ, formerly of Watonga, has taken over the management of the *Covington* (Kan.) *Record*.

Russell Knight, formerly connected with the *Wilmington* (O.) *News Journal* and *Leesburg* (Fla.) *Citizen*, has taken over the *New Vienna* (O.) *Reporter*.

Mr. and Mrs. Richard De Pries of Craig, Col., have purchased the *Carlsbad* (Cal.) *Champion* from Mr. and Mrs. George Campbell.

James Wofford has bought the half interest of E. R. Galloway in the *Santa Cruz* (Cal.) *Herald*, but Mr. Galloway will remain as editor. The other owner is Charles H. Parker.

The *Huntington Park* (Cal.) *Morning Sun* has purchased the *Record-Review*, published in the same city.

Colchester (Ill.) *Independent*, formerly owned by Charles Hayden, has passed to Harry Todd of Astoria and Dean Gustine of Astoria. Mr. Hayden will move to Peoria, Ill.

Sale of the *San Rafael* (Cal.) *Independent* to Harry Lutgens, executive secretary to Governor Richardson, has been announced.

D. C. Pickard has purchased the *Savanna* (Ill.) *Times-Journal* from W. H. Gharrity, who has operated the paper the last six years. Mr. Pickard was formerly in Green Bay, Wis.

Solon (Ia.) *Economist*, published the last five years by P. S. Schaedler, has been sold to Charles Scott, a former employe, but recently of the mechanical force of the *Cedar Rapids* (Ia.) *Republican*.

NEW PLANTS AND EQUIPMENT

THESE newspapers have recently installed new Ludlows: *Alton* (Ill.) *Telegraph*, *Bristol* (Conn.) *Press*, *Manchester* (Conn.) *Herald*, *Seneca Falls* (N. Y.) *Reveille*, *Spartanburg* (S. C.) *Herald-Journal*, and *Bristow* (Okla.) *Record*, *The Wilkes-Barre* (Pa.) *Sunday Telegram* installed two Ludlows.

Spencer (W. Va.) *Times-Herald*—twinning Duplex Model "A" presses.

Port Alegre (Brazil) *Diario de Noticias*—Duplex Tubular press.

Townsville (Australia) *Star*—Duplex Model "A" press.

St. Catharines (Ont.) *Standard*—Duplex heavy duty mat roller.

Biloxi and Gulfport (Miss.) *Herald*—4-page Duplex Tubular unit.

The *Edmonton* (Alta.) *Journal* has purchased a new 5-unit Hoe press, each unit having a capacity of 16 pages. A dry mat system, with pony autoplating machine, is being installed in the stereotyp-

ing department. Concurrently the mailing room is being enlarged and a Cutler Hammer dispatch conveyor is being placed in operation.

SCHOOLS

E. O. RIGER has been named as editor of the *University of Washington Daily*, and W. W. Ude, business manager.

The course in journalism at the University of Wisconsin entered its 22nd year at the beginning of the current semester with an enrollment of 545 students and with 334 of them registered in the four-year course leading to a degree.

Twenty-three new members, the 10 per cent of the senior class of the Missouri School of Journalism leading in scholarship, have been elected members of Kappa Tau Alpha, honorary journalism fraternity. C. Edward Raymond of DeKalb, Ill., was elected associate editor to fill a vacancy left by graduation.

Member of the journalism classes of the University of Michigan attended the meeting of the University of Michigan Editorial Association in Ann Arbor, Oct. 21, 22, and 23, to learn more of the theory and practice of newspaper work.

Because of a physical breakdown, Professor Roscoe B. Ellard, director of the Lee Memorial School of Journalism of Washington and Lee University, Lexington, Va., has been granted a leave of absence for the first semester. Howard M. Thompson, assistant, will be acting director.

FLASHES

From the present cotton situation, it looks as if the cotton belt needs more boll weevils.—*Cleveland Times*.

Some candidates are buried in landslides and other drown in slush funds.—*Detroit Free Press*.

Another thing that makes life on this planet a little bit difficult and depressing is that the man always comes to give the furnace a good, thorough overhauling on the coldest day yet.—*Columbus* (O.) *State-Journal*.

"Young blood and old brains" are said to be a good combination. The trouble is to get either one of them to find any use for the other.—*Boston Transcript*.

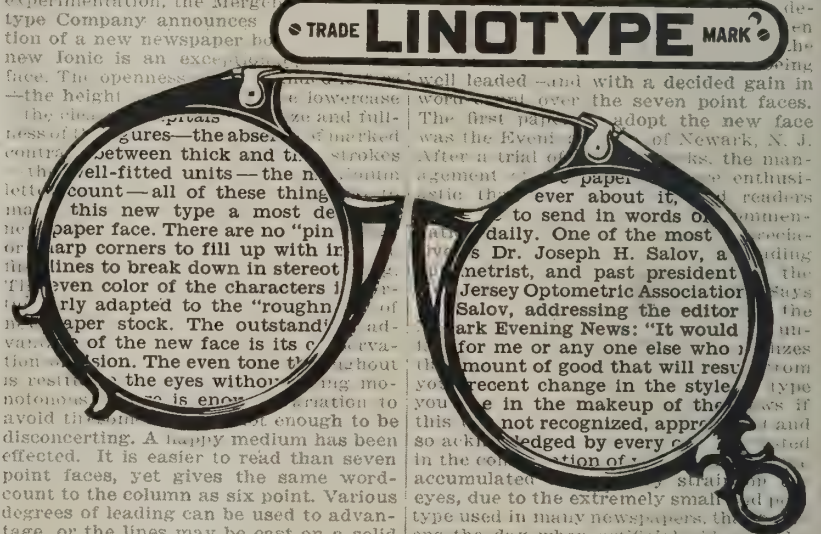

A considerable annoyance in the liquor cases is the eagerness to drink in the evidence.—*Boston Herald*.

Prohibition enforcement officers have been forbidden to drink. There goes the last inducement for a man to be an enforcement officer.—*New York American*.

"Find Second Trunk in McPherson Case" is the *Times's* headline, but the tabloids probably had it "Aimee's Pair of Trunks."—*F. P. A. in Conning Tower*, *New York World*.

After several years of investigation and experimentation, the Mergenthaler Linotype Company announces the introduction of a new newspaper body. The new Ionic is an exceptional type face. The openness of the face, the well ledged and with a decided gain in word count over the seven point faces. The first paper to adopt the new face was the *Evening News* of Newark, N. J. After a trial of several weeks, the management of the paper enthusiastically declared that it was the best ever about it, and that it was the best to send in words of commendation daily. One of the most prominent Dr. Joseph H. Salov, a optometrist, and past president of the Jersey Optometric Association, says, "The new Linotype is the best I have ever seen. It is not recognized, appreciated and so acknowledged by every eye in the community." The accumulated strain on the eyes, due to the extremely small type used in many newspapers, lessens the day when artificial aid must be

BUILDING NEWSPAPER CIRCULATION

William O'Farrell Heads California Circulation Managers Assn.—Key Contest Functions Without Publicity in News Columns—Checking Up Commission Solicitors

WILLIAM O'FARRELL, *San Diego Union*, is the new president of the California Circulation Managers' Association, elected to succeed Harold Searles, *Hollywood Citizen*, at a convention held recently.

Victor Lattanner, *Oakland Post-Enquirer*, was named first vice-president; H. V. Parratt, *Modesto News*, second vice-president; and W. McKay, *Sanita Ana Register*, secretary-treasurer.

The convention went on record as denouncing the treatment accorded newspapers by railroad news companies. The resolution passed by the membership unanimously followed an address by R. J. Corrigan, *Los Angeles Examiner*, on "Should the Return Privilege be Granted Railroad News Companies and Hotels." Mr. Corrigan brought out that the railroad news companies were not inclined to give the newspapers a square deal, unless forced to do so by public demand or by some other pressure, whether or not the return privilege was granted them.

It was argued that the only way to accomplish a reform of present conditions would be by combined action on the part of all newspapers of importance in the state.

"If necessary," Mr. Corrigan declared, "we should carry this combined action to the officials of all railroad companies, presenting the plea that the railroads should be interested in providing their patrons with a newspaper along with other accommodations on the trains."

Some circulation promotion stunts worked by newspapers require little or no space on news pages to keep them alive and working efficiently. The writer has in mind a "key" contest, which has been carried on for months by a large metropolitan daily without the aid of a single stick of publicity to keep the readers biting. Prizes are offered and awarded weekly and the circulation manager in charge reports a satisfactory increase in sales.

The stunt works this way:

The paper has a large number of dodgers printed containing the picture of a key and explaining that on a certain day on the classified page a key will be printed. If the picture of the key on the dodger is a duplicate of the key printed on the classified page the holder of the dodger is entitled to a prize. There may be 50 or 60 different keys pictured on the dodgers. Out of a total of 2,000,000, or less for a smaller city, distributed, there will be 20 prize winners. Naturally, to keep within the lottery laws, the newspapers must take care that the key is not published in editions destined for the mails.

In distributing dodgers, the newspaper picks out the section where the latest prize-winner lives for the heaviest circulation.

Do you check your commission solicitors or are they pulling your leg?

Victor Lattanner, *Oakland Post-Enquirer*, can now say yes to the first query, and no to the second. He explains:

"If solicitors are employed either partially or wholly on a commission basis to take contract orders for a specified length of time, I have found that it is advisable to have a competent and reliable crew manager employed on a straight salary basis and to expect him to personally verify each and every order taken by his men before the orders are turned over to the dealer. This may seem somewhat expensive, but I have found that the few cents it adds to the cost of each order is in every way justified by the saving to the office in not paying solicitors for something they did not secure. It has been my experience that the average solicitor will in some way misrepresent a contract subscription if he can't secure

the order without misrepresenting it, and a personal verification of the order stops a large part of this trouble.

"If the crew manager goes to the newsdealer with a bunch of orders at night and makes it plain that he has verified every one of them, it is but natural that the newsdealer will go rather slow in killing any of the orders except as bad credit risks. Not only does this procedure protect the office against paying the solicitor for something he does not get, but the newsdealer is also protected against a great deal of loss on bad business. He very soon appreciates the trouble the newspaper is going to to protect his interests as well as their own."

The *Boston (Mass.) Evening Transcript* in a drive for circulation is featuring sports with daily stories from its correspondents at the schools and colleges and by members of its staff, a weekly forecast on games on Fridays, a special sports edition on Saturdays, and the broadcasting of the scores from Station WEEL, Edison Electric Illuminating Co. of Boston, every Saturday night.

L'Independant, a French daily newspaper, published in Fall River, Mass., is being sued in the Bristol County Superior Court by Jules Dufour for \$2,000 on the grounds that the plaintiff was deprived of a prize alleged to have been won in a subscription contest recently conducted by the newspaper.

The *Chicago Daily News* has introduced a "know Chicago's factories inside and out" program into the lives of its newsboys, in an effort to help them advance by showing them through first hand experience, how industry works. The boys will be taken through Chicago's greatest plants with guides capable of showing them how and why things are arranged as they are.

The *Chicago Evening American* recently awarded \$500 in prizes in its eighth limerick contest, to readers who submitted the best last lines to a limerick printed in the paper. The \$500 was divided as follows: First prize, \$100; second prize, \$50; third prize, \$25; next twenty, \$10 each; next twenty-five, \$5 each.

G. R. Miller is now in charge of circulation on the *Glens Falls (N. Y.) Post-Star*.

E. D. Ingram called at the office of the *Corsicana Daily Sun* and the *Corsicana*

Semi-Weekly Morning Light, and exchanged a bale of cotton for one year's subscription to the *Light*. The cotton weighed six pounds. Mr. Ingram took advantage of the offer of the Sun-Light Publishing Company to give one year's subscription to the *Semi-Weekly Morning Light* in exchange for four pounds of good ginned cotton, properly sacked, brought to the *Light* office. This is paying the farmer at the rate of 25 cents a pound for his cotton as the subscription to the *Light* is \$1 a year in advance. The *Light* has already received several hundred pounds of cotton in exchange for subscriptions and expects to receive much more.

An extensive advertising campaign in connection with the offer has been carried in both the *Sun* and the *Light*, advising farmers to harvest every boll of their cotton, not to waste this year's crop and gamble on the next in the face of present low prices.

The *Chicago Daily News* is awarding \$5 each week for the best letter from a grade school pupil on his favorite "torch-bearer of history," or the person in history who has given him the greatest inspiration. The letters must be not longer than 200 words. The winning letters are published in The *Daily News* every Saturday.

M. C. Gray has gone from district circulation manager of the *Portland (Ore.) Journal* to circulation manager of the *Medford (Ore.) News*.

Bradley Welfare has joined the *Winston-Salem (N. C.) Journal-Star* as director of circulation. For 15 years Mr. Welfare was circulation manager of the *Twin-City Sentinel* of that city.

Charged with soliciting funds for a Thanksgiving dinner for newsboys while posing as treasurer of the Newsboys'

Union of Boston, a man giving his name as Patrick H. Cronin, of Cambridge, was arrested in the former city last week. Before Judge Zottoli in Boston municipal court he was held in \$2,000 bail and his case was continued.

OMAHA NEWS ADDS TO STAFF

The *Omaha Daily News* advertising department has been reorganized and R. A. Nelson, formerly in charge of national advertising, has been made advertising manager. He succeeds William Tolson. O. E. Knisely and George W. Preston, formerly of the *St. Louis Times*, have recently joined the News staff. I. A. Carter succeeds F. P. McMahon as classified manager, and J. F. Maxwell, formerly of the *Springfield (Ohio) News*, and T. F. Dillingham, formerly of the *Omaha Bee*, have joined the classified department.

EDITOR & PUBLISHER, \$4.00 a year.

in Detroit—

Free Press circulation reaches 31,000 more than the total number of families owning their own homes.

With a stable, uninfated, liberal priced circulation productive of greater advertising returns at lower cost.

PENNSYLVANIA PUBLISHERS—

The importance of the Keystone State needs no introduction. Its industries, agriculture, commerce and wealth place Pennsylvania in the front rank of the Nation's prosperity.

Throughout Pennsylvania lies city after city, thickly populated with people—rich in earnings—great in buying power—all potential buyers of advertised products.

Every publisher has a selling story to tell about his city's prosperity, and about the great buying power his market offers to the advertiser.

We know Pennsylvania. We understand how to prepare surveys and plan complete copy and layout campaigns that will sell your market and the value of your newspaper to the national advertiser. Let us show you how we do it.

Now, Intertypes Exclusively!

New York Journal of Commerce, purchaser (in 1913) of first Intertype ever built, buys ten more Intertypes. Fifth repeat order—twenty Intertypes altogether

Part of the Journal of Commerce composing room and (at the left) the first Intertype ever built

THIRTEEN years ago, the first Intertype ever built was installed by the Journal of Commerce, New York. Some time later the publishers ordered another Intertype, then two more, one more, six more, and finally—a few months ago—ten more.

Intertype No. 1, installed in 1913 as a single-magazine machine, was converted in 1917 into a three-magazine Intertype (with three times its original range). It stands today as up-to-date and productive as any brand new machine.

Commenting on this exclusive Intertype feature—non-

obsolescence—Mason Peters, business manager of the Journal of Commerce, wrote some time ago: "Your protection against obsolescence, as demonstrated in the way our Intertype has been kept up to date, is a feature that saves real money for publishers."

On the same subject, Milton E. Porell, superintendent, said: "We trust you will continue the Intertype policy of protecting users against obsolescence by making new features applicable to old machines."

Remember, when you are buying slug machines, that no Standardized Intertype has ever become obsolete.

Write for Intertype literature. If you wish to see our local sales representative, please so state

CLASSIFIED ADVERTISING

Introducing National Advertisers to the Want-Ad Section—a Promotion Idea from the San Antonio (Tex.) Light—Visualizing Classified Advertisements

A. E. DAVIS, of the classified advertising department of the *Sioux City* (Ia.) *Tribune*, is not overlooking a bet in his direct-by-mail promotion of the Tribune's want-ad section. He is suggesting to national advertisers that his newspaper can help them find that "needle in the haystack," the efficient local sales representative or district manager.

In a letter going out to sales managers of the nation's biggest concerns, Mr. Davis is selling his medium in efficient manner. His stationery pictures the problem he is offering to solve for his prospects. It is headed "The Needle in the Haystack," and in the upper right-hand corner a young go-getting salesman is shown in the glare of a night-flying airplane's searchlight marching out of a haystack's obscurity. The letter reads as follows:

"Are you trying to find one man among the multitude in the Great Tribune Territory?"

"Nearly every Want Ad is a message to One Individual—someone whose name and address you do not know.

"One man is all that is needed to fill that executive position, represent you in a certain territory, or act as your local agent. In most cases, one man is sufficient; yet, it is a greater advantage to have as many prospects as possible—the greater number to select from, the easier to pick the man.

"Reaching a large number of people promiscuously is not half so difficult a problem as to find the 'One Individual'—the man or the woman that you must get in touch with, and most of those 'Needle-in-the-Haystack' problems in Sioux City and its contiguous territory are solved as quickly as any other 'Help Wanted' problem through The Tribune Want Ads.

"Nearly every English reading home in Sioux City receives The Tribune—and the Saturday Feature Tribune, 'the newspaper read on Sunday in the majority of homes in this rich, productive field,' reaches ten thousand more families than does Sioux City's only Sunday newspaper. "There is no doubt that the man you are seeking can be found in Sioux City or in the Sioux City territory—whether he be a trained worker or an executive. Get in touch with him through the Tribune Want Ads. There is no better or quicker method.

"Ask your agency to place the Sioux City Tribune on their Sunday list—write us for further information on the territory."

How much easier it is to let the eyes wander up and down the columns of a classified page than to walk the streets looking for "rent" signs! But it's hard to spread this message in black and white on a newspaper page.

The *San Antonio* (Tex.) *Light* has found a way that should be a model in many cities of the same size and larger. The lay-out of a full-page ad showed two columns of the rental classifications set diagonally and converging at the bottom of the page. It successfully gave the impression of the intersection of two long and crowded streets.

Under the headline: "Why Walk the Streets Looking for Rent Signs?" the text, set in the triangle made by the two columns of agate, read:

"Property owners have come to the conclusion that 'signs' don't pay. Today few people walk the streets looking for a suitable place when they want to move—they turn to the Light classified pages and scan the 'rental' columns for places

that appeal to them—then go see to them!

"MR. PROPERTY OWNER OR RENTER USE LIGHT CLASSIFIED!"

"The Light Rental Columns are daily scanned by thousands, and if your place is not listed in these columns you are missing many prospects. And Mr. Renter you will find Light rental columns a guide to a place that will suit your needs as to size, location, and rental price. Turn to them now!"

The same message is conveyed by the same paper in a more conservative manner in a smaller advertisement, in which the illustration is a pen and ink drawing of a residential section and the catch-line reads "Blocks and Blocks of Houses." The text in part follows:

"When you rent a house, naturally you won't be satisfied with the first house you inspect. You will want to go from one to another until you find a home that will suit your needs.

"That's when Light Rental Ads 'come in' mighty handy. For under the 'Houses for Rent' heading you will find blocks and blocks of houses listed in a simple and convenient manner."

An ancient Chinese saying that, in this age of tabloids, has been given its share of publicity, states: "One Picture Is Worth Ten Thousand Words."

This saying at last has been carried over to the classified section. The *Rochester* (N. Y.) *Sunday American* is running a picture page for home-sellers and home-seekers, thus introducing visual classified to the newspaper world.

The page is divided into 36 one-column squares, each square designed to carry a half-tone cut of the home advertised and descriptive text. A four-column bold-face streamer reads, "Your Future Home Pictured Here." The *Sunday American* takes the picture, makes the cut, and runs it on the page at the flat cost of \$5.

The *Chicago Evening American* will distribute \$1,000 in 53 cash prizes, as Christmas gifts, to persons who insert want ads in the paper between Nov. 8 and

Dec. 7, and write letters to the American telling how they benefited by their ads. All letters must be in the office of the want ad contest editor by midnight of Dec. 14. The writer of the best letter will be awarded first prize of \$500; second prize will be \$100; third, \$50; next twenty, \$10 each, next thirty, \$5 each.

DOUNCE SUCCEEDS TEWSON

Former Sun Man New Editor of Literary Review

Harry Esty Dounce, formerly literary editor of the *New York Sun*, has been named editor of the *Literary Review* of the *New York Evening Post*, succeeding W. Orton Tewson, resigned.

In making the announcement Julian S. Mason, editor of the *Post* said:

"We feel in book reviewing the need of a continuing standard of criticism. In the past books have been reviewed in this and other publications by a large number of critical writers whose standpoint had no mutual correlation or correlation with any identifiable point of approach.

"This fall the *Literary Review* will establish a book review which will lose this hit-or-miss character and present criticism of current literature as a coherent whole.

"It will build up a staff of contributing editors who will handle various departments of criticism, so that the reader will be able to get from week to week a realization of a consistent point of view."

NEW DRAMATIC EDITOR

T. G. A. Goldsmith, formerly of the reportorial staff of the *New York Herald Tribune*, has been appointed dramatic editor. Charles Belmont Davis, who was formerly dramatic editor, has been made a critic, and will devote his time to dramatic criticism and to writing dramatic news. Mr. Goldsmith has been on the staff since 1921, prior to which he did free lance reviewing. He is a graduate of the University of Pennsylvania, and also attended Columbia University.

DAVID LAWRENCE PICKED

Twenty-five out of Twenty-six

WINNERS IN SENATE RACE

David Lawrence in his final forecast series on Saturday, October 30th and November 1st wrote:

NEW YORK—"The improvement in Governor Al Smith's chances in the last three days of the campaign will have a noticeable effect on the Senatorial contest. If the New York City Democrats vote solidly for Robert F. Wagner, the senior Republican Senator will lose. His (Wadsworth's) only hope is that the 'wet' Democrats will pull him through, and this not likely."—*Wagner won.*

PENNSYLVANIA—"Representative William S. Vare, Republican, will be elected by a big majority."—*Vare won.*

MARYLAND—"Senator Weller, Republican, is fighting nip and tuck with Colonel Tydings, and indications are that the latter will win."—*Tydings won.*

CONNECTICUT—"Senator Hiram Bingham has an easy time of it and will win by an overwhelming majority."—*Bingham won.*

MASSACHUSETTS—"Senator Butler is having a close fight. Republicans voters have aided David I. Walsh, Democrat, in his previous contests, but the chances are that he will not have this support, and that Mr. Butler will win."—*Butler lost.*

NEW HAMPSHIRE—"Senator Moses, Republican, will be elected."—*Moses won.*

VERMONT—"Senator Dale, Republican, will win."—*Dale won.*

OHIO—"Senator Frank B. Willis, Republican, looks like a sure winner."—*Willis won.*

INDIANA—"Both Senators Watson and Robinson, Republican, appear to be in the lead."—*Watson and Robinson won.*

KENTUCKY—"It looks as if Representative Barkley, Democrat, will defeat Senator Ernst, Republican."—*Barkley won.*

ILLINOIS—"The election of Frank Smith, Republican, is indicated."—*Smith won.*

WISCONSIN—"John J. Blaine, Republican of the LaFollette school, will be elected Senator from Wisconsin."—*Blaine won.*

IOWA—"Senator Brookhart is sure to win."—*Brookhart won.*

Just reporting—leg-work, head-work; and contact with reliable sources of information—the same thing that brings in the big story on any beat., plus a background of fifteen years of successful newspaper work.

The Washington dispatch of David Lawrence is printed in more newspapers than any other dispatch on National Affairs in America.

National Advertisers Must Have Reasons For Increasing Iowa Linage

From Jan. 1 to Sept. 1, these 28 leading Iowa dailies gained $3\frac{2}{3}$ million lines over same period of 1925.

Every one of these 28 Iowa daily newspapers contributed to that combined gain, ranging as high as 34.7%.

Fifteen out of the twenty-eight gained over 20%. Seven gained over 30%.

Speaking of reasons, two are especially obvious: The excellence of this Iowa market, and the effectiveness of Iowa daily newspapers for covering it profitably.

These Definite Helps Offered

Each individual publisher gives the following definite cooperation, in conjunction with a campaign of 5,000 lines or more.

1. Make a study of local market and trade territory, as pertains to *your* specific product.
2. Supply complete and accurate list of retailers, in the newspaper's city and surrounding territory.

This association consists of 28 leading Iowa daily newspapers.

Combined circulation585,091

Families in Iowa550,000

Deal with these 28 papers as with one publication, if you wish: one order, one plate, one billing.

Note merchandising help below.

3. Introduce your salesmen to a number of big retailers. Advise you as to relative sales standing of competing products.

4. Urge retailers to feature displays of nationally advertised products. Furnish you with names of stores that will make use of window displays.
5. Make market investigation for prospective advertisers (Identity to be made known first).
6. Urge local retailers to mention your products in their own advertisements.
7. Send, on receipt of contract, a multigraphed letter to list of retailers in the territory, telling of the campaign.

The above outline gives the *minimum* of service offered. Perhaps in your specific case we can do more.

We will be glad to discuss this Iowa plan, as applied to *your* marketing problem to write to address below.

WHAT'S WHAT IN THE FEATURE FIELD

Rodney Dutcher Made Manager of NEA Washington Bureau—Williams Signs With Associated Editors—Gene Byrnes to Draw Daily Strips for Herald Tribune Syndicate

RODNEY DUTCHER, for the last six years with the United News, has been appointed manager of the Washington bureau of NEA Service, Inc., succeeding Charles P. Stewart, resigned. He will assume his new duties Nov. 15.

For the past three years, Mr. Dutcher has been manager of the New York bureau of United News. He has been replaced in that capacity by Earl J. Johnson, formerly of the Chicago bureau, while Maurice Mermey has been sent from New York to succeed Johnson in Chicago.

Mr. Dutcher is best known as a feature writer. He started newspaper work on the *Fall River Herald*. He has also been connected with the *Worcester Post*, *Boston Post*, and *Providence News*. He joined the United News in the Boston bureau.

A. C. Williams, who recently resigned as cartoonist of the *Detroit Free Press*, has signed a contract with Associated Editors, Chicago, for a series of cartoons.

D. P. Syndicate, Garden City, L. I., is offering Senator Carter Glass' answer to Col. E. M. House's recently published "Intimate Papers." The author makes a scathing attack on Col. House's book as a work of history.

Pierre Guinon is author of a new newspaper serial called "Beauty Baiters," being distributed by the Merit Newspaper Service Corporation, New York.

Betty Brainerd, who writes "We Women" for Associated Newspapers, returned to New York last week from a visit to the Pacific Coast.

Gene Byrnes, artist, has signed a five-year contract with the New York Herald Tribune Syndicate, to furnish them with his daily strip, "Regular Fellers." The *Herald Tribune* is now handling Byrnes' Sunday page, while the daily strip is being distributed by Bell Syndicate, Inc., New York. The new contract becomes effective May 1, 1927.

"Rosalie's Career," by Jean Hervey, is the latest newspaper serial on the list of the Thompson Feature Service, New York.

Zoe Beckley, writer for Famous Features Syndicate, is undoubtedly writing with left and right hands these days. In addition to covering the Hall-Mills trial in Somerville, she is completing a biographical series for newspapers on Queen Marie of Rumania.

"The Black Glove" is the title of a serial romance by J. G. Sarasin to be offered by the O'Dell Newspaper Service.

Famous Features Syndicate, Inc., New York, has established special headquarters for its coverage of the Hall-Mills trial at the Somerset Hotel, Somerville, N. J. A private telephone wire has been installed to facilitate long distance communication. Famous Features is handling signed daily wire stories by Charlotte Mills and James Mills, and a wire feature coverage by Zoe Beckley.

EDITOR & PUBLISHER wishes to correct a statement published last week that Charlotte Mills is receiving only \$75 a

RODNEY DUTCHER

week for her services. Famous Features states that Miss Mills' compensation is in direct ratio to the proceeds of her articles. The total wire filing on her story is about 1,000 words a day, including morning and afternoon papers, and not 10,000 words, as stated.

Emma Goldman, once an anarchist and deported from this country, has written a series of five articles for NEA Service, telling among other things why she wants to come back to the U. S. Miss Goldman was found in Canada by Gene Cohn of the NEA staff. NEA announces the title of its newest serial is "Broken Threads" by Clifford L. Webb and Ernest Lynn. S. S. Van Dine, detective story writer, is covering the Hall-Mills trial for clients of this syndicate. His articles are going out under the by-line of his detective character Philo Vance. Another new NEA feature is written by Marion Hale and describes the experiences of a cloak model in New York.

Farris A. Flint, of the Central Press Association, manager of sales, has been appointed business manager in place of H. A. McNitt, resigned. Mr. Flint has also been elected vice-president of the Central Press Company. Leslie P. Eichel, late of New York, and formerly editor of the *Evansville Press*, has been appointed editor.

TESTIMONIAL "MILL" FOUND IN CHICAGO

Firm Offers Praises from 13 Film Stars for Any Product, Health Magazine Says—Several Stars Deny Agreement

Posed photographs of any of thirteen famous stars of stage and screen and signed testimonials for any product to be advertised have been offered manufacturers for from \$200 to \$275 each by a Chicago "testimonial mill," it is charged in the current issue of *Hygeia*, health organ of the American Medical Association.

The offer is made under the name of "Famous Names, Inc.," a Chicago firm with offices downtown.

According to the article, titled "The Testimonial Game," the manufacturer or advertiser can dictate his own testimonial and obtain the signature and posed photograph of any of the thirteen in the act of banishing dandruff, or whatever is wanted.

The article does not say whether the distributors of the signatures have the authority of their owners.

The stars listed are Lenore Ulric, Anita Stewart, Bessie Love, Patsy Ruth Miller, Norman Kerry, Lowell Sherman, Claiborne Foster, Pauline Frederick, Allen Dinehart, Johnny Walker, Walter Hiers, Cullen Landis and Jocelyn Lee.

Several of the film luminaries included in the list have denied, from Hollywood, that they had made any such agreement with "Famous Names, Inc." Helen Ferguson, May McAvoy and Norman Kerry said that they had been approached for the company by John F. Ditzell, president, but had refused to let their names or photographs be used.

Mr. Ditzell admitted the proposed sale of testimonials, but insisted the stars first would "test, use, and then endorse," the articles advertised.

In addition to the actors and actresses under contract, Mr. Ditzell said that 60 others are under "tentative contract" and that he can get the names and pictures of Red Grange, Eddie Tryon and George Wilson, football stars, and Suzanne Lenglen, tennis pro.

What Advertiser can overlook Pennsylvania's great buying power?

Study the statistical facts about the Keystone State—its area, population, industries, farming, wealth, and buying power.

Can any advertiser of a good salable product afford to overlook this market?

To obtain effective distribution, the newspapers are the logical medium. They enter the homes of the people who do the buying—the editorial and advertising pages directly influence their buying habits.

There is no quicker and more economical method an advertiser can employ to reach the people of the Keystone State than through the papers listed below.

ADVERTISING AGENCY AFFAIRS

Newspaper Man Joins Moon Agency—Williams Resigns from Lord & Thomas and Logan—New Advertising Firm in Toledo

L. L. ANDERSON, night city editor of the *New York Daily News Record*, has resigned to join the writing staff of the Byron G. Moon Company, Troy advertising agency. He has been succeeded on the newspaper by Benjamin W. Kornfield.

Joseph H. Williams of Lord & Thomas and Logan, Chicago, has resigned to become chairman of the board of the Glen Buck Company, Chicago.

P. P. Willis, Inc., a new advertising agency at Toledo, has been organized with P. P. Willis, president; Benjamin Batch, vice-president, and C. M. Werning, secretary-treasurer. Mr. Willis was formerly connected with the United States Advertising Service, Toledo.

Charles C. Younggreen of Klau-Van Pierson-Dunlap-Younggreen Milwaukee Advertising Agency, visited New York last week on business.

J. H. Latchford has joined the Geyer Company at Dayton, O., and will have charge of that agency's outdoor advertising. Mr. Latchford was formerly with the national sales division of the Cusack organization, Chicago. He was more recently connected with Proctor & Collier Company and Vanderhoof agencies as an account executive.

Frank Presbrey, of the Frank Presbrey Company, New York agency, has been appointed a director of the First National

Bank of Greenwich, Conn. The bank will open for business Jan. 2.

F. R. Coutant has joined the staff of Young & Rubicam, New York advertising agency. He was formerly connected with Ray D. Lillibridge, Inc., also of New York.

William A. Jensen has been made space buyer of Evans, Kip & Hackett, Inc., New York agency. He was formerly with Hanff-Metzger, Inc., of New York.

H. T. Ewald, president of the Campbell-Ewald Company, has announced the appointment of R. W. Palmer as art director in the Detroit offices.

Weinstock, Landsheft & Buck, Inc., is the name of a new advertising agency recently organized in Buffalo, N. Y., with offices at 1001 Genesee Building, Buffalo. E. J. Weinstock was formerly a member of the firm of Walz-Weinstock, Inc. A. W. Landsheft was for eight years the head of the Landsheft Advertising Agency of Buffalo. Paul Buck has been engaged in sales promotion work in Buffalo, Chicago and New York.

The Central Advertisers Agency, Wichita, started six years ago by the McCormick-Armstrong Press, has closed its doors. President C. B. Witness announced: "We have too few small industries to support an ethical advertising agency." The agency was incorporated in 1922.

WITH THE GENERAL ADVERTISERS

Royal Baking Powder Company May Return to Large Scale Use of Newspapers in 1927—Ford Has New Advertising Plan—Kolster Radio to Use 75 Dailies, Agency Says

R ROYAL BAKING POWDER COMPANY is strongly considering a return to newspaper space in 1927, EDITOR & PUBLISHER was informed by an official of the company this week. The account, which formerly was placed direct is now handled by the J. Walter Thompson Company, and the newspaper list is the smallest in the firm's history, the bulk of the appropriation going to the magazines. At present the newspaper schedule lists only 15 or 20 papers, and the copy is appearing largely in rotogravure sections. At one time Royal was handling as many as 5,000 different newspaper contracts.

The Ford Motor Company, Detroit, which discontinued advertising by the factory last May, is missing the assistance of newspaper space in its sales program and active efforts are being made to get dealers to place advertisements in their local papers. For this purpose a new newspaper advertising service is being offered authorized dealers by McKinney, Marsh & Cushing, Detroit advertising agency, directing the Ford advertising. Advertisements are being furnished in the form of plates and mats in various sizes, according to dealer requirements. Service is being sold on the basis of so many advertisements a month, and dealers are asked to sign orders that can be cancelled on 30 days' notice. Newspaper publishers have been asked to check with their dealers and learn whether or not the latter are showing interest in the arrangements.

Consolidation of the Federal Telegraph Company of California and the Brandes Products Corporation into the Federal-Brandes, Inc., was announced late last week. The merged firm will have an authorized capitalization of \$10,000,000. Headquarters are in New York. Lieut.-Comm. Ellery W. Stone, U. S. N., R., is president. Advertising of the Kolster ra-

dio set, manufactured by the Federal Telegraph Company of California, will continue to be handled by Lord & Thomas & Logan, New York and Chicago advertising agency. The agency informed EDITOR & PUBLISHER this week that a newspaper campaign using a list of about 75 dailies was contemplated, supplemented by space in the *Saturday Evening Post* and trade papers.

Community advertising placed by Maine through the Maine Publicity Bureau has lifted business of the state out of the doldrums into which it had fallen when the government took over the railroads dur-

From the Linotype Mailbag

Stoughton, Wisconsin*

ing the war and cancelled all advertising, according to Harrie B. Cow, bureau manager. The bureau was organized in 1922. Copy was placed in newspapers of the leading cities east of the Mississippi River south to St. Louis, west to Chicago, north to Toronto and Montreal. Records on file in the bureau show that replies received from the advertising from April 25 to June 19 of this year was 40 per cent ahead of last year, Mr. Cow said.

Increasing confidence in the value of newspaper space is shown by a report of the research committee of the Financial Advertisers' Association, made public by Thomas J. Kiphart, of the Fifty-Third National Bank and the Union Trust Company, Cincinnati. Of a total of 155 banks answering questionnaires sent out by the committee, 65 place more than 50 per cent of their advertising in the daily press. Thirteen of the 65 put more than 90 per cent of their appropriation in this medium.

Paid space in newspapers to develop "shoe consciousness" was urged last week by John C. McKeon, president of the National Boot and Shoe Manufacturers' Association, at a convention in New York. His address followed one by Paul Jones, chairman of the publicity committee, who pointed out there has been a decline in sales of men's shoes since 1914.

The Independent Oil Men of America will expend \$2,000,000 for advertising during the coming year. Raymond Shaw is director of advertising. He makes his headquarters in Chicago. The present advertising appropriation of the association is \$1,500,000.

F. C. Fitch, vice-president of the Royal Baking Powder Company, New York, has been made a member of the executive committee.

Chester I. Campbell, Boston advertising man and promoter of industrial exhibitions, was elected a member of the governor's council at the state election.

Barney Flynn, for the past eighteen months with Berkey & Gay Furniture Co., of Grand Rapids, has bought a substantial interest in the Luce Furniture Company of Grand Rapids. He is one of the best known men in the furniture and advertising business and it was largely through his efforts that the advertising campaign of the Simmons Bed Company was inaugurated ten years ago. It is now his intention to nationally advertise Luce furniture.

Roy C. Hayes, former automobile editor of the *Detroit Times* and at one time automobile editor of Universal Service, has joined the staff of Campbell-Ewald Company. He will direct the publicity of the Chevrolet Motor Co.

J. J. Connery, formerly advertising manager of the Graham Paper Company, St. Louis, and more recently conducting a service agency there, has been appointed advertising and promotion manager of the Mound City Paint & Color Company, St. Louis.

The Service

[illegible]

By MARLEN PEW

IF you lived and wrote news twenty years ago it is probable that at some time, somewhere, you indulged the bountiful privilege of knowing Mark Twain. This most beloved American writer, whose radiant rumor endures like precious metal, remained an instinctive journalist throughout his literary career, regarding the newspaper office as the old homestead and losing no opportunity to sit at its hearthstone in the company of writing men. In the quarter of a century prior to 1910 when death stilled his pen, Mark Twain, I believe, was more often interviewed than any contemporary in public life. Reporters were forever dogging his footsteps and he always was courteous and helpful to them. Thus his gently flowing philosophy in relation to passing events was made available to the public through the daily press for his generation. Contact with his glowing spirit was an experience to be treasured while memory lasts. The approach of Thanksgiving Day reminds me of Mark Twain on the occasion of his seventieth birthday (celebrated Thursday, November 30, 1905), and an interview with him which, until now, has only been published in part. The unpublished part was a little personal advice on the art of writing and interviewing, kindly offered and gratefully received.

THE three-score-and-ten milestone in Mark Twain's career was a news event of importance and we had plotted it in advance. My letter of solicitation happened to be the first received and the author agreed to give me an exclusive talk at his town house at Fifth Avenue and Ninth Street in time to allow national distribution of the copy through the mails, subject to release on Thanksgiving Day. J. C. Fireman, one of the most rapid and accurate pencil portrait sketchers I have ever known, whose sudden death occurred in New York only a few months ago, accompanied me and at ten o'clock that bright Fall morning, 21 years ago, we found our quarry in bed, propped up on a stack of pillows, smoking a pipe and reading the morning news. On a taboret at the bedside was a collection of at least two dozen pipes of varied shapes and coloring, for the humorist was an ardent smoker. Mark Twain scrambled out of bed and stood at a mirror tumbling the crop of long white hair which made his head seem out of proportion with his slight, short body. Fireman spoke of the crisp brilliance of his hair and he confided that he washed it weekly, using a lather of white laundry soap, rinsing it in cold water containing a mild solution of laundry bluing. He made no attempt to conceal his vanity in that snowy mass and in this seemed well within his rights. It was a magnificent crown. Artists concede that Mark Twain's head was classic, both in form and color. His bearing was noble. His nature was sweet. Fireman and I were presently at ease in the library and the humorist came in from the bedroom wearing a flowing robe, smoking a cigar.

I HAD, of course, come with a stock of preconceptions as to the form the interview should take, and immediately shot out questions intended to release a flow of Twainian philosophy, that rich mixture of humor and pathos that had made this man a god on the altar of the English reading public. I cannot recall what the questions were, but I do most poignantly remember that they did not bring the desired response. Baffled, I sought to probe in a different direction, hoping to touch the secret spring of interest, but the old master replied with a little curtain lecture to the tyro which has never

ceased to be a guiding influence in my newspaper work and, in his name, is here respectfully commended to youthful journalists.

"I DO not believe," he said, "that a writer can hold the interest of the reader if he attempts to discuss more than one subject at a time. I have long made it a practice to select a text, thrash out of it all that it holds for me, and then quit writing. It is a mistake to introduce alien subjects. Our business is to decide what the text of this interview is to be and then exhaust the idea."

"WOULD you mind," the cunning humorist asked, "if I should indulge a lifetime longing to interview myself? It could be presented as an interview with Samuel Langhorne Clemens by Mark Twain." Delightedly I agreed and took down his words, Fireman meanwhile sketching him in characteristic poses. Mr. Clemens said: "There have been all sorts of interviews except natural ones—that is to say, conversations which could occur naturally in real life. Necessarily an interview must be one of two things, question and answer, or monologue. Neither of these is quite what is wanted in an interview. The question and answer process belongs in the court, and the parties to it are a lawyer who wants to find out something, and the witness, who often wishes to defeat the lawyer's desire. Manifestly this process could not produce a valuable interview since it would lack its most interesting feature, the attempt to conceal what the interviewed person had been questioned about. In the case of the interviewed it is no trouble to conceal, for the accused can decline to answer when you put him in an uncomfortable place, and as there is no compulsion upon him the subject has to be changed. The result must always be a colorless interview, for the subject is changed at exactly the moment when it is about to become interesting."

"BUT never mind about the forms," he went on, "the real trouble about an interview is that the matters touched upon are always suggested by the interviewer, and as he cannot know what is of first interest in the prisoner's mind, he is not likely, save by accident, to suggest a topic that the prisoner can talk about with any real warmth. It is most unlikely that either of you gentlemen with a week to prepare in could guess the subject which is not only uppermost in my mind this morning, but is occupying and solidly packing to the exclusion of all other interests the whole spacious firmament of it. That subject will seem to you and to everybody else trivial, whereas to me for just this day and train only it is of first importance. It is a matter of portraits—portraits of me."

THUS did Mark Twain introduce the subject of this gay and original self-interview. He mercilessly delved into the inner-consciousness of the defenseless Sam Clemens, finding him to be, not the happy man most people supposed, but miserable because his portraits did not do him justice. "I would like to be drawn once, before I reach seventy again, as I would look if I had been made right instead of carelessly," he said bitterly, and in his ingenious way he wove a yarn about his portrait woes. He showed Fireman and me an old photograph of himself by Sarony and told this story:

"THAT alleged portrait has a private history. Sarony was as much of an enthusiast about wild animals as he

was about photography, and when Dr. Du Chaillu brought the first gorilla to this country, in 1819, he came to me in a fever of excitement and asked if my father was of record and authentic. I said he was. Then Sarony, without any abatement of his excitement, asked me if my grandfather also was of record and authentic. I said he was. Then Sarony, with still rising excitement and with joy added to it, said he had found my great grandfather in the person of the gorilla, and had recognized him at once by his resemblance to me. I was deeply hurt, but did not reveal this, because I knew Sarony meant no offense, for the gorilla had not done him any harm and he was not a man who would say an unkind thing about a gorilla wantonly. I went with him to inspect the ancestor, and examined him from several points of view, without being able to detect anything more than a passing resemblance. 'Wait,' said Sarony with strong confidence. 'Let me show you.' He borrowed my overcoat and put it on the gorilla. The result was surprising. I saw that the gorilla, while not looking distinctly like me, was exactly what my great grandfather would look like if I had one. Sarony photographed the creature in that overcoat and spread the picture around the world. It has remained spread around the world ever since. It turns up every week in some newspaper somewhere or other. It is not my favorite, but, to my exasperation it is everybody else's. Do you think you could get it suppressed for me? I will pay the limit."

THE night before his birthday interview, Mark Twain had seen Maude Adams in the premier of "Peter Pan" and of it he said: "It is a fairy play. There isn't a thing in it which could happen in real life. That is as it should be. It is consistently beautiful, sweet, clean, fascinating, charming and impossible from beginning to end. It breaks all the rules of real life drama, but preserves intact all the rules of fairyland, and the result is altogether contenting to the spirit. The longing of my heart is a fairy portrait of myself; I want to be pretty; I want to eliminate facts and fill up the gap with charms."

SUES PHONE COMPANY

Omission of Name from Directory Lost Boston Firm Business, Charge

Dickie-Raymond Company, of Boston, proprietors of an advertising and mailing business, has filed suit for \$10,000 against the New England Telephone and Telegraph Company because the name of the firm, it is alleged, was omitted from the company's telephone directory. The company contends that it lost considerable business as a result of the omission and extensive advertising in newspapers was necessary. The company has been a telephone subscriber for several years.

EDITOR & PUBLISHER, \$4.00 a year.

HEARING ON BILLBOARDS

Outdoor Company Seeks Test of State Regulatory Power

That some billboards might be a menace to traffic was admitted by Walter R. Skiff, a representative of the General Outdoor Advertising Company, at a hearing on billboards in Boston last week before Frank H. Stewart as master, at the State House. The advertising company seeks to ascertain the validity of the regulations drawn up by the Commissioner of Public Works William F. Williams and passed by the Massachusetts legislature a few months ago regarding billboards.

Skiff, who was cross-examined by Asst. Atty. Gen. M. F. Weston, representing Commissioner Williams, maintained that the majority of billboards were safe, however. One advertiser removed a billboard because it proved to be a traffic menace, he said. He admitted that there were plenty of places in open fields 300 feet from the highway where boards would be visible and the signs on them legible.

The United States Supreme Court last week declined to review the question whether the Federal Court in Massachusetts could pass on the law's validity, while a similar proceeding was pending in the state courts.

PENNY TAB RAISES PRICE

Washington Daily News Goes to 2 Cents Nov. 8—Its 5th Birthday

The *Washington Daily News*, Scripps Howard tabloid, will raise its selling price from a penny a copy to two cents Nov. 8, Ralph H. Quinn, business manager, announced this week.

On that date the *Daily News* will be five years old. It claims more than 70,000 circulation at the penny price.

The Scripps-Howard management has always maintained that the *Washington* tabloid is not a picture paper, but a small sized newspaper, handling its pictures on an equality with the news. That is the policy of the *Daily News*.

IOWA A. P. GROUP ELECTS

J. Tracy Garrett, editor of the *Burlington (Ia.) Hawkeye*, was re-elected president of the Iowa Associated Press Editorial Association at its annual meeting in Des Moines Nov. 4, at which 25 editors and publishers of Iowa dailies were present. J. A. Rawlings, state correspondent of the A. P., was re-elected secretary. Service problems were discussed at the meeting.

UNIONS TO CO-OPERATE

A closer co-operation and affiliation between the various unions in the newspaper field in Boston is the aim of a series of meetings planned for this fall and winter. The opening meeting was held Oct. 27 at the American House, Boston, with James Martin, president of the Mailers' Union, presiding.

WOMEN IN ADVERTISING AND JOURNALISM

Miss Foldes Only Woman Managing Editor in New York—Leola Allard
Left Denver With \$40 and Return Ticket—Women
Entertain Hugh Walpole

"THE only woman managing editor in New York," and one of the youngest at that. Such is the position of Miss Margaret Foldes, managing editor of the *North Side News*, published in the Bronx, New York.

Margaret Foldes

Miss Foldes, who is now only 23 years old, joined the *News* at the age of 18, while she was still a student in the Columbia School of Journalism. Like so many of her fellow workers, she did everything that could be done on a newspaper, from reporting to copy reading, from type-setting to advertising, and finally to city editing and managing editing. While working for the *News* during this period, she also covered for the *Daily Examiner* in Westchester and the *Corwalk Sentinel* in Connecticut, which is also owned by George W. Markey, publisher of the *North Side News*.

Miss Foldes has a staff of twelve reporters, and the usual special departments, such as society, sports, dramatic and music. She writes the lead editorials, covers important political gatherings in the Bronx, and writes the banner headlines for the paper, in addition to the many other duties of a managing editor.

For six months recently, Miss Foldes covered Congress in Washington for her paper, and while there, also edited the weekly called the *National Center*.

Considering that Miss Foldes could not speak a word of English when she came here in 1914, this is rather a remarkable achievement. She and her family came to this country from Hungary for a visit before the war, and never returned. She attended elementary school until she learned to speak English, and then went to Wadleigh High School in Manhattan, where she was awarded a scholarship for Columbia University.

Margaret Foldes is her business name. In private life, she is married, and the mother of a two and a half year old son.

When Leola Allard, reporter for the *Chicago Herald and Examiner*, left her home in Pueblo, Col., in 1909 to try her hand at newspaper work, she took with her \$40 and a return ticket to Denver. She never used the return ticket, and she never written home for money.

She had never worked in her life before, but was determined to do newspaper work. By dint of persuasion, she managed to go to work, for nothing, for the *Denver Post* when Josiah Ward was editor. At the end of two weeks she was given \$25 and told that the paper could not keep her on its staff. But Leola stayed on, again working for nothing, undaunted by the difficulty of getting started. And her confidence in herself was justified when she was assigned to

cover a murder story and did the job so well that she was put on the paper's payroll, editing verses and doing other miscellaneous tasks around the office. Before long, however, she was assigned to write society news. Later she went to work on the *Herald and Examiner* at \$5 a week less than she had been getting on the *Denver Post*, and except for a year and a half when she worked for the *Chicago Tribune*, she has been with the *Herald and Examiner* ever since.

Miss Allard interviewed Margot Asquith when that rather formidable English lady was in Chicago, and Miss Asquith made mention of her in her book. Miss Asquith remarked that she found the woman reporter interesting and charming and wondered why she was still doing newspaper reporting. Henry Kitchell Webster, too, has used Miss Allard as one of his characters in his book, "Real Life."

Miss Allard says she prefers interviews and writing stories for the St. Vincent Orphanage above all other newspaper work. She is rather proud of the fact that as a result of the series of stories she writes about the latter institution each year that every baby for whom a home had to be found has been adopted, many of them by millionaires, and the supply of babies has been insufficient to meet the demand.

She received her education in the public schools of Pueblo, Col., and at Northwestern University, Evanston.

Henriette Weber, who has been associated with John B. Woodward, Inc., publishers representative, New York, is now in charge of book advertising. Mae T. Geraghty, also a member of the staff, has been placed in charge of resort and travel advertising.

The Cleveland Women's Press Club entertained Hugh Walpole, the English novelist, at a luncheon Nov. 10.

Miss Abbie Lewis, society reporter for the *Storm Lake* (Ia.) *Register*, has proved without question that a woman and a society reporter can keep a secret. The announcement of her marriage last August to F. L. Edwards, linotype operator on the *Register*, was made this week.

Mrs. Leslie E. Wallace of the *Larned* (Kan.) *Tiller and Toiler*, was elected president of the Larned Business and Professional Women's Club last week.

Miss Joyce McLenahan of LaFayette, Ill., a Knox college graduate, is covering society for the *Cedar Falls* (Ia.) *Daily Record*. Miss Harriett Elston, formerly with the *Des Moines Tribune*, has joined the news staff of the *Record*.

Miss Margaret Weimer, prominent women's club worker throughout New England and formerly with the Washburn-Crosby Company, flour manufacturers, is now associated with the *Boston* (Mass.) *Herald-Traveler* Better Homes Bureau. Miss Weimer is devoting her time to visiting clubs and church organizations throughout the New England states, giving lectures and conducting cooking classes.

Mrs. Jessie E. Donahue, formerly of the staff of the *Boston* (Mass.) *Transcript*, is now editor of the *Unitarian Church Letter*, a religious denominational newspaper. Mrs. Donahue was formerly associated with the *Manchester* (N. H.) *Union-Leader*.

Miss Dorothy Borg has returned to the staff of the *New York World* after a year's leave of absence because of illness. Miss Allene Talmey has also returned to the *World* after a leave.

BANK KEEPS TEN SALESMEN BUSY ON LEADS FROM NEWSPAPER ADS

Campaign in Boston Dailies Exploited by Alert Merchandising of an Intangible Service Sold Like "Bricks or Bridges"

By HAMMOND EDWARD FRANKLIN

TEN salesmen have been kept busy for over a year selling banking service with the help of leads obtained by unusual advertising used by the Exchange Trust Company of Boston.

Tests and records kept by this banking institution prove that advertising in newspapers can bring a tangible return—not merely "good will" and "confidence," the usual aim—if hooked up with up-to-the-minute merchandising.

"Our business of selling bank service is exactly the same as selling anything else in the world," declared G. Wallace Tibbets, vice-president, to some fellow bankers a while ago, "and not until we grasp the full significance of that thought shall we be able to approach the subject at all. We have something very definite to sell, just as definite as bricks or bridges."

Weekly advertisements of 800 lines each were mapped out to appear in the *Boston Herald* and the *Boston Globe*. The first was designed to appeal to pride in New England as a whole. It was headed "The spirit of New England is the spirit of enterprise." It "sold" faith in New England as much as the bank.

This was followed by another piece of copy, "Does Boston know its strength?" which put across specific reasons why Boston business men should face the future with courage. Another advertisement asked, "Why does Massachusetts lead in thrift?" and then drove home pertinent facts.

A full-size proof of each as it appeared was mailed to a carefully chosen list of business executives, bankers, manufacturers, directors, lawyers, realtors, brokers, etc., throughout Massachusetts and New England. This list totalled about 16,000, all of whom were told in advance that they would receive the series.

Much of the direct-mail "merchandising" of the advertising was a bit above the ordinary. For instance, with one newspaper proof went this memo on a 3 x 5 card in imitation handwriting of John J. Martin, president of the bank:

"I thought this particular ad would hit you right. What do you think of it? Tell me, have I your right address? And, by the way, send for the booklet. It'll interest you. J. J. M."

"Who forgot to cash these coupons?" was the headline of another advertisement, which showed that of a \$12,000,000 bond issue, over a million dollars' worth of coupons had gone uncollected, due to carelessness of bondholders. This gave the bank a chance to present its estate management.

"Where are they now—the old familiar faces?" was the subject of another advertisement, which explained that the bank avoids as far as possible causing the customers of the bank having to deal with new and unfamiliar employees.

"Youth's not an age, it's a feeling—financial independence prolongs it" is the underlying theme of an advertisement for bonds, which concludes by offering to analyze a man's present securities and suggest a definite plan for buying bonds. From 30 to 60, the copy points out, far-seeing men should build for the future with care.

A booklet, "How to Increase Your Estate 100 Per Cent," by Earl G. Manning, a special agent of the John Hancock Life Insurance Company, outlined what a life insurance trust is and how it works, and was published by the bank. This was featured in an advertisement inserted in four Boston papers, with keyed coupons.

The staff of the new business department delivered each book personally to each inquirer and talked the various phases of the bank's service. Many requests from direct mail and radio talks also came in for the book. A total of more than 1,000 finally were distributed

to advantage and did much in the way of tangible benefit for the bank.

Mr. Tibbets for a time spoke each Monday before life insurance salesmen to win their co-operation.

The company broadcast talks from two Boston stations. In connection with one on bonds, 30 direct inquiries were received. Addresses were given before student bodies, department store executives, etc.

Numerous letters were received congratulating the bank on its campaign. One was from Frank M. Archer of the Moxie Company. This was reprinted and mailed out, with this memo attached:

"Mr. Martin has asked me to send the attached letter to you as he believes you will be interested in reading what Mr. Archer has to say. It will be very helpful to us if you will be good enough to write Mr. Archer your opinion of our advertising. Ruth Lupien, secretary to Mr. Martin."

The bank as a result of the campaign was much impressed by the value of lawyers, insurance men and real estate men, from which three groups more new business originates than from any other.

Before the campaign went under way, a dinner of most of the employees of the bank was held and they were impressed with the importance of extending friendliness and real service to customers and prospects. From time to time as the advertising was released, smaller groups met and talked over various questions raised. The sales group of the bank met each morning at 8:30. Once a week a salesman from some outside line was permitted to speak. An accurate record of all calls, telephones, letters, mailings, advertising releases, etc., is kept. Each salesman has a quota as to number of calls and volume of new business to try for.

"There are certain essentials necessary to success in every bank and trust company, as in every business," Mr. Tibbets declared. "First, each employee must be 100 per cent sold on his own bank."

"The second essential is a real desire to depart from the conventional way of getting business. I do not mean stunts or radical measures, but I do mean that success is not obtained by following in the footsteps of other institutions. There must be personality, individuality, different vision, new ideas and development of characteristics as outstanding and clear-cut as are the characteristics of different individuals in society."

"The third essential is the portrayal of the human side of your institution, here admitting your bank has a human touch on the real things in life."

"The fourth essential is a plan or survey or analysis of the people or business you seek to attract. You cannot use the same methods in making friends with every man. Hence, you must decide what you want in new business and to whom your appeal is to be made. There should be in your program an individual or composite personality about whom the human elements of your institution should center. Wisdom and character are necessary, but in sales of your merchandise, the human element has the strongest appeal."

FAHEY DELAYS MERGER

As a result of a newspaper campaign conducted by John H. Fahey, publisher of the *Worcester* (Mass.) *Post*, a merger of gas and electric light companies which was being accomplished without opposition has been indefinitely delayed.

ARCHER TRANSFERRED

F. E. Archer, assistant classified manager, *San Francisco Examiner* has been transferred to the local display department.

Youth's not an age, it's a feeling—

Financial independence prolongs it . . .

After work—what? Leisure to enjoy your later years? Or a harassing dependence upon others? The last is the lot of all but every 100 people over 65 years of age.

No wonder the man who acquires an independent income feels younger than his less provident fellows. And no wonder that—as statistics prove—he lives longer!

From thirty to sixty, far-sighted men build for the future—and build with care. They not only save money. They secure sound advice as to its investment.

Buying sound bonds, in which their principal is well secured, such men escape the uncertainties that sooner or later overtake the ill-advised speculator in stocks. In the recent stock market slump, countless thousands of

such speculators lost sums totaling billions. But the man who buys well-chosen bonds, builds on a firm foundation. To be sure that he buys the bonds best suited to his personal needs, the investor will do well to secure the advice of a thoroughly experienced and disinterested authority—such as the Bond Department of the Exchange Trust Company.

The sure road to freedom

Whether you have only a few hundreds to invest or whether you have thousands, our Bond Department will give your investment problem the same serious study.

When your aim is financial independence—when your immediate needs are to build up a reserve against possible misfortune—to reach our Bond Department. We will analyze your present securities and suggest a definite plan. No expense—no obligation.

The unusual appeal in the newspaper copy of the Boston Trust Company has kept ten salesmen busy selling banking service. Above is one of the weekly ads, which totalled 800 lines.

FRATERNITY CONVENTION

Sigma Delta Chi Meeting at Madison Nov. 15-17

Sixty delegates representing students and alumni of the 39 chapters of Sigma Delta Chi, professional journalism school fraternity, are expected to attend the national convention of the organization at Madison, Wis., Nov. 15 to 17. A special feature of the convention will be the editing of an edition of the *Wisconsin State Journal* by the delegates.

Among those scheduled to address the meeting are Kent Cooper, general manager of the Associated Press; William Allen White, editor of the *Emporia* (Kan.) *Gazette*, and honorary president of the fraternity; and Glenn Frank, former editor of the *Century Magazine*, now president of the University of Wisconsin.

An exhibit of newspapers tracing the history of journalism from its origin in the English "Courants" in 1621 to the present day will be presented by Dr. W. G. Bleyer, director of journalism at the University of Wisconsin.

Social features of the convention include a dinner dance given by the *Wisconsin State Journal* and the *Capital Times*, and a banquet by the Wisconsin chapter of the fraternity.

J. L. MAPES WINS A.N.P.A. DIRECTORS' CUP

Texas Publisher Scores 67 Net, Followed by Treanor and Howell, With 69s—Special Service For Golfers

(By Telegraph to Editor & Publisher)

FRENCH LICK, Ind., Nov. 11.—A man from the "Lone Star State" was the lone star of the A. N. P. A. annual golf tournament which ended today. Presentation of prizes was made tonight, at J. L. Mapes, *Beaumont* (Tex.) *Enterprise and Journal*, will carry back home with him the coveted Director's Cup awarded to the best golf player among association members annually.

Mr. Mapes's score with a handicap of 18 was 67 over the 18-hole course here. Two publishers tied for the honor of second best. They were A. R. Treanor, *Saginaw* (Mich.) *News-Courier* and Clark Howell, Jr., *Atlanta* (Ga.) *Constitution*. Their winning tally was 69. Treanor, despite the official tie, had a slight edge on Howell. His actual score was an 84 with 15 points as a handicap while Howell went around in 92 and required the help of 23 points to bring him down to second place.

William H. Reed, *Taunton* (Mass.) *Gazette*, Walter Dear, *Jersey City* *Jersey Journal*, and M. C. Meigs, *Chicago American*, came in third.

Golfers were treated like thoroughbred race horses at this convention. The program was mapped out largely for their pleasure. Delegates were hustled into convention hall each morning and golfers were provided with a special lunch to allow them to leave for the links.

Walking down to the course the players saw snow on the roof tops of the pullman cars that had pulled in from Chicago that morning. It had rained the night before and the fairways and greens were soggy.

But the championship finals were played in ideal weather. About 80 members took part in the tournament. In addition to the top prizes, rewards were made to winners of each foursome as follows: Mr. Meigs, Mr. Reed, Mr. Dear, Clark Howell Jr., S. E. Thomson, F. Guy Davis, Chicago manager of the Bureau of Advertising; Lee P. Loomis, W. A. Thomson, Harvey Kelly, A. E. Kaye, Charles A. Webb, Fleming Newbold, L. B. Tobin, and W. P. Burn.

H. L. Conland, *Hartford Courant* won the low net in the qualifying round with a 67.

WELCOME TO WILLIAMS

One hundred students of the Missouri School of Journalism attended the "Dear is Back" banquet Nov. 4 in honor of Dear Walter Williams, who recently returned from the World Press Congress in Geneva. Prof. Frank L. Martin, acting dean, retired with an address on "Abdication."

CHASE'S FORTY YEARS HONORED IN TOPEKA

William Allen White Host at Gridiron Dinner in Honor of Veteran Capital Editor Last Week

Forty years of journalistic work on the part of Harold T. Chase, veteran editor of the *Topeka Daily Capital*, were commemorated by William Allen White, editor of the *Emporia Gazette*, at a dinner last week. Eighty Kansas newspaper men and others who had known Chase for many years gathered as guests of Mr. White.

At each place was the program for the evening, with the following characteristic Will White appreciation written by Mr. Chase:

Harold T. Chase came to Kansas from Pennsylvania in 1887 and began work on the *Topeka Daily Capital* as soon as he arrived. He has continued in the capital's service ever since.

At that time he has written 1,500 words a day, mostly seven days a week, weeks in the year, making in all 19,000. The average full-length novel contains about 150,000 words. A doctor's thesis is considered large when it extends 100,000 words. It is easy to see, therefore, that if Harold Chase's writings were compiled they would make 131 full books, or 196 books on current history, economics, politics and social sciences. His work is constantly honest, diligent and courageous. He has condescended his readers always without ever being cruel. He has held his friends out ever sacrificing his courage. He has been intelligent without being pedantic. He has been wise without bragging about it. He has seen governors, senators and congressmen come to drink in the spring of fame in the vain illusion that it was the source of earthly mortality. He has seen them rise, at their dull day, fall, fade and pass into oblivion—a long procession, while he has gone on in his daily work, knowing how cheap a thing is fame, how precious a thing is wisdom, how rare and lovely a gift is friendship.

We who have gathered to the dinner come to pay the testimony of our esteem to a modest scholar and a Christian gentleman.

The "frying pan crew" of the Topeka Club injected humor into the occasion. Roy L. Bone led the "community sing" with a clever printed chorus in his song "Wild Waves" in which Senator Capper, Gov. Paulen, Mr. White, Chase, Dr. S. S. Estey, E. L. Cope, Frank P. MacLennan, Clyde M. and former Gov. Roscoe Stubbs were "panned."

The host then called upon the maligned to defend themselves, but before the program could continue, the stage cleared and turned into a representation of Mr. Chase's office.

The desk sat "Mr. Chase," portended by Mr. Bone. The door opened in stepped "Senator Capper," in the life, J. Frank Jarrel, of the Santa publicity bureau.

How glad you're feeling so much better I've got a lot for you to do," "Senator" told his "editor."

He had a wonderful trip. I've been every county in the State and while I talked principally to the farmers, we also talked to a lot of laboring men and the officers of some of the big organizations. Besides, I've listened to a thousand people talk and I believe I know where I stand on most of the burning questions of the day and got a pretty fair idea as to what is going to be the popular position for the time on these matters. Of course, to take on Harold, I leave the editor-writing to you, that is most of the but I don't mind telling you that the most part your stuff has been comfort to me; for the way you get I can prove most anything by it."

The two agreed that some "burning" subjects with a "positive" stand should be put on the farm question, freight mail order business and politics. The senator is discussing matters,

Chase brings in a huge mill, dumps in a couple of catalogs, a copy of the *Merchants Journal*, a few envelopes and grinds away. Out drops a completely written editorial.

When Chase attempts to grind out an editorial on farming, the machine is fed cabbages, corn and a bushel of farm products. The mill gets stuck. "I know what is the matter," Chase said, as he dropped in a large box labeled "bunk," "I had forgotten this." Out came the editorial.

During the stunt, E. E. Kelley as "copy boy" and Cecil Howes as foreman of the composing room, kept up the newspaper atmosphere.

Senator Capper paid a glowing tribute to Mr. Chase and Mr. Chase replied. Then Arthur J. Carruth and Robert Stone turned the guns of the press club on Mr. White and hounded him for everything from his 1924 campaign for governor to his 1926 world's series score board episode.

Mr. White presented to Mr. Chase a book containing a collection of well-wishing letters from guests at the dinner.

When a girl elopes from her bedroom these days the Old Man generally goes out and holds the ladder for her.—*New York American*.

TWO SOLONS ON STAFF

New London (Conn.) Day Has State Senator and Representative

The *New London* (Conn.) *Day* has the distinction of having a reportorial staff, thirty-three and a third per cent of whom are lawmakers.

J. James Floyd, representative from Waterford in the last general assembly, was elected to the state senate from the twentieth, or Shoestring, district by a plurality of 3,181 over his Democratic opponent, Joseph Wellington of Baltic, and John M. Mallon, Jr., was elected representative from New London, leading three other candidates for that office on the two tickets.

Floyd, who covers city hall for the *Day*, began his political career running against Charles M. Gallup, for years town clerk of Waterford, four years ago. His defeat at the polls failed to deter his political ambitions and two years later found him running against Hadlai L. Peabody for a seat in the house. He won by 514 votes, a greater plurality than ever before known in Waterford.

Floyd is a graduate of Middlebury College and the New York University Law School.

Mallon, the *Day's* political writer, holds

public office for the first time. His running mate was Representative George W. Sisson, long in public life, whom he led by a margin of 80 votes. His total vote was 2,759, a plurality over his Democratic opponent, Thomas F. Gragan, former alderman and city councillor, of 1,550, and Christopher B. Barry, a political newcomer, of 1,481.

Mallon, who was graduated from Georgetown University, started his political career as private secretary to Congressman Richard P. Freeman of the second Connecticut district. He later was field supervisor for the Treasury Department.

A. P. PARIS BUREAU TO MOVE

The Associated Press offices in Paris will be moved within a month from 13 Place de La Bourse to new and larger quarters across the street at 21 rue Vivienne. The present address is that of the Agence Havas and connection with the French news agency will be maintained by means of pneumatic tubes now being installed between the two buildings. The Paris staff of the A. P. numbers eight news men, and the offices have long been too small. They have been occupied by the Associated Press since 1893.

1462 pages, each 7" x 10", only 2 3/4 inches thick because of special thin opaque paper. Bound in handsome Buckram.

—"the copy writer's first aid."
—"Unmistakably the greatest single volume reference work in the world."
—"The book we have wanted for 25 years."
—"A real Treasure Chest of English undefiled. We commend it unreservedly."
—*Review of Reviews*

this Treasure House of Words and Knowledge

Learn in Your Own Office, or Home, How

MARCH'S THESAURUS DICTIONARY

places in your hands a complete command of the whole English language and thousands of facts which you need daily in your newspaper and advertising work.

By its unique patented arrangement of grouping related words you are enabled to instantly locate any word for the exact shade of meaning you wish to convey.

It not only defines the words you know, but FINDS and DEFINES the words you may not know; for instance, under "Truth" you find 1,000 words covering truth and its opposites, fraud, error, etc. Invaluable to writers, public speakers and educators. Needed in every home because it develops—in child and parents alike—the habits of precision and accuracy of speech and of association of words and facts.

This book, of which three large editions have been already exhausted, is called "the chiefest tool of the writing man," because of the complete mastery of English which it places in the hands of the user, enabling him to choose instantly the exact word for his every purpose.

This New Amplified Edition

contains all that made March's Thesaurus "a reference book of international fame" (World's Work), plus the addition of all of the important new words used in the leading sciences, chapters which are complete text-books on English grammar, English composition, the evolution of writing, word building, Biblical references, up-to-date geographic and historic facts. By these additions its usefulness to writers, speakers, educators, students and for every office and home use has increased beyond computation.

It enables you to easily locate facts which in themselves constitute a liberal education, up-to-date geographical facts not found in the largest gazetteers, the famous characters of literature and their dominant traits, the pseudonyms of noted authors, etc.

"Valued by those who wish to use their mother tongue with accuracy, precision and effectiveness," says the *New York Times*.

Answers Thousands of Questions Like These:

Who invented celluloid and when?	What is the meaning of the letters I. H. S. on altar cloths?
What were the various occupations of our Presidents preceding their election?	What nations of the world belong to the League of Nations?
What is the meaning of the various radio terms, and of the standard radio symbols?	Which are signatories of the World Court Protocol?
What is insulin, and for what purpose is it used?	

The Editorial Writer and Journalist

after using this revised edition will agree with Edgar K. Zook, who writes: "March's Thesaurus Dictionary is a wonder book."

The Advertising Man and All Connected with the Business Offices of Newspapers

will find it helpful in suggesting "selling copy," in pertinent allusions, in creating a larger, more virile vocabulary. Raymond Stevens sums up the increasing usefulness of March's Thesaurus Dictionary, when he says:

"I have lost all track of the number of times during the day that I have consulted March's Thesaurus Dictionary. I thought at first that I would keep it on the upper corner of my desk. Now I keep it at my elbow. The book is a gold mine."—Raymond A. Stevens.

Despite the addition of thousands of new words, including those which arose out of the World War, despite the fact that this Amplified Edition covers the only list of words known from all the leading sciences, despite the addition of valuable illustrations and diagrams, it has been possible to reduce the cost of this new Amplified Edition to a new low price. And so firmly do we believe that you will instantly realize the value of this Treasure House of Words and Knowledge, we want you to see it before you buy it.

SEND IN THIS COUPON TODAY.

Keep the book 10 days. Note how it instantly gives you complete control over your choice of words. Use it to answer the thousand and one questions which arise daily. See how easily it supplies the word you do not know or have forgotten, and DEFINES it so that you know you are using it correctly. Then if you do not find it the most valuable book you have ever owned, you have but to return it and we will refund your deposit without question.

-----"SEND ON APPROVAL" COUPON-----

HISTORICAL PUBLISHING CO., Dept. EP-11
1334 Cherry St., Philadelphia, Pa.

I enclose \$3.00, for which send me a copy (prepaid in U. S. A. or Canada) of the new Amplified Edition of March's Thesaurus Dictionary. If I keep the book, I will pay you \$2.00 per month for three months.

If for any reason I do not wish to keep the book, I will return it to you in good condition within 10 days, and you are to refund my \$3.00.

TRIBUTE TO SCOTT, MANCHESTER GUARDIAN'S GRAND OLD MAN OF JOURNALISM

By J. FRED ESSARY

Mr. Essary, for many years in Washington for the *Baltimore Sun* and now its London representative, cabled the following dispatch to his newspaper on the occasion of the 80th birthday of C. P. Scott, for 45 years editor of the *Manchester Guardian*. As reported in *EDITOR & PUBLISHER* of Oct. 30, a bust of Mr. Scott by Epstein was presented to the city.

IT may seem an anomaly that the most potential and influential figure in contemporary English journalism should be the editor of a provincial daily newspaper with a circulation of less than 100,000 and making no pretense to "metropolitanism." But it is a fact, recognized far and wide that C. P. Scott of the *Manchester Guardian* is the literal leader of his profession in the British Empire and is perhaps the foremost master of his craft in the world today.

This veteran journalist has just attained his 80th birthday and in celebration of that event distinguished subscribers from three continents united in the presentation of his bust, by Epstein to the city of Manchester, a presentation conducted, moreover, by Lord Derby, a leader of the Conservative Party in England, against the policies of which Mr. Scott has volleyed for 45 years.

The influence of this liberal journalist upon the thought of his country dates back more than half a century when he assumed the editorship of the *Guardian* and began drawing about him a group of brilliant writers who gave to the manufacturing city of Manchester a newspaper as virile, as clean, militant and as consistently progressive as any printed in the English language. And it is said of him that he has personally selected every member of his staff from that day to this.

Happily he has lived to see many of the major reforms which he has championed accepted by his countrymen, notably home rule for Ireland and equal suffrage for women. But his convictions as often led him into foul weather as into fair. In 1899 he committed his paper to an uncompromising opposition to the second Boer War, a step so unpopular as to all but dash him and the *Guardian* upon the rocks. His circulation and advertising almost vanished and his paper was reviled as no other had ever been upon this island.

It was during that period when with his revenues at their lowest ebb, with many of his friends shunning him and when it seemed that his ruin must inevitably follow, it was then that the quality of his character showed finest. A group of South African magnates called upon him and offered him what was then a fabulous price for his paper, the purpose being to silence it. Scott's only answer was to point to the door!

Perhaps the most remarkable tribute ever paid him was the proposal in the course of the late general strike that he come down to London and mediate between the strikers and the Government. He was the one man in all the Kingdom trusted equally by labor, on the one hand, whose battles he had so often fought, and

by the conservative elements, on the other, who knew the measure of his patriotism and the inherent fairness and squareness of his judgments. As it happened the strike collapsed before it became necessary to enlist the conciliatory services of the great editor.

When Woodrow Wilson visited England in 1918 just before the opening of the Peace Conference, he paid a visit to Manchester. While there he invited Scott to see him. They were closeted together for perhaps two hours. As the President was crossing the Channel on his return to France he told a group of correspondents in the writer's presence, that "the most interesting man whom I have met in England was Scott of the *Guardian*."

Eight years later it was my pleasure to spend an evening in Mr. Scott's company. I found him living as much in the world of today as any young journalist in Fleet Street. His vibrant mind was absorbed in the problems of the present and in the possibilities of the future. He could not be persuaded to reminisce upon the great measures or the great personalities with which his long and captivating career has been intimately, even historically, associated.

Mr. Scott is a man of medium height. It is the splendid head above his slightly drooping shoulders that fascinates the observer. Every feature of his face is finely chiseled. He has the brow of a "Michelangelo prophets," to borrow a phrase from one of his admirers, and eyes really remarkable for their fire, a fire which age has not obscured. His carefully groomed snow-white beard gives the whole a patriarchal picturesqueness and it is easy to believe that the daring Epstein revelled in the opportunity to reproduce such a face in bronze.

Unlike most members of his staff Mr. Scott has never published a book and cannot be induced even to write his memoirs. Only on rare occasions has he put aside the anonymity which is characteristic of his paper that his light might shine before all men. One such occasion was the centenary issue of the *Guardian* a few years ago when he outlined those articles of journalistic faith which have guided his long course. Here is a passage from that declaration worthy to long out-live the hand that penned it:

"A newspaper is of necessity something of a monopoly and its first duty is to shun the temptations of a monopoly. Its primary office is the gathering of the news. At the peril of its soul it must see that the supply is not tainted. Neither in what it gives nor in what it does not give, not in the mode of presentation, must the unclouded face of truth suffer wrong. Comment is free, but facts are sacred."

JEFFRIES HEADS MISSOURI A. P.

The Missouri Associated Press Editorial Association held its annual meeting in St. Louis on November 6, re-electing the following officers: President, H. B. Jeffries, publisher *Hannibal Courier-Post*; W. C. Van Cleve, publisher *Moberly Monitor-Index*, member of the Central Division Advisory Board, and Kenneth Clark, St. Louis, correspondent secretary. Joseph Pulitzer, editor of the *St. Louis Post-Dispatch*, was host to the members of the association at a luncheon at Hotel Jefferson, but he was unable to be present and was represented by George S. Johns, editor of the editorial page. Edgar T. Cutter, superintendent of the Central Division, and E. Lansing Ray, president of the *Globe-Democrat*, and a director of the Associated Press, attended the luncheon.

HIGH PRESS RATES BARS EAST NEWS

(Continued from page 24)

Dutch language dailies the most widely known of which is *De Locomotief* of Semarang, which circulates throughout the archipelago.

From an American viewpoint the newspapers of the Philippine Islands are among the best of the Far East, as the low press rate afforded by the United States Navy Radio enables them to get big news service through the United Press and the Associated Press.

Advertising is handled efficiently by the Japanese press along much the same lines as in the United States, although agencies have not yet made the progress in the Empire that they have in America. A great deal of foreign advertising is placed through an agency operated by the Japan Advertiser, which has a good layout and copy department.

In Shanghai an American advertising

agency operated by Carl Crow, Inc. has built up a big business and handles copy for both the Chinese and foreign language press.

As a whole the Far East press is greatly hampered by the tremendous difficulty and expense of news collection and distribution. China, in particular, is a huge field with only a sketchy telegraph and railway system. The result has been a multiplicity of fly-by-night press associations existing on subsidies and dealing largely in propaganda. And recent wireless has been called in to help spread the views of various of the Chinese War Lords. Marshal Chang Tso-Lin has station in Mukden which broadcasts of such "items of news" as the Manchurian would like to have China believe. Japan also broadcasts what the Japanese Government wants known, while the French have a small organization for distributing the French official wireless and the Germans manage to distribute the National broadcast in a number of cities.

FORCING CIRCULATION AN OUTDATED PRACTICE

(Continued from page 8)

Street Sales—visible circulation.

In placing his contracts, the advertiser generally chooses the medium having the largest and best home-delivered circulation.

Newsdealer circulation, next to home-delivered circulation in importance, is confined to sales over the counter at neighborhood stores, hotels, railroad depots, interurban stations, etc.

The average newsdealer does not solicit subscriptions for any newspaper; he handles them all, and the reader must choose. In other words, he is not a booster, preferring to let circulation be regulated by the demand.

Newsboy and street sale circulation in the smaller cities is perhaps of the least value to the advertiser, while in the metropolitan centers, where carrier delivery is practically unknown, it in a measure takes the place of home-delivered circulation, as far as value to the advertiser goes.

Newsboys often resort to fake cries to enable them to sell their papers, and frequently overcharge the buyer on "Extra" editions, all of which is not countenanced by the newspaper, and as fast as the guilty are discovered, they are removed from the paper's staff of sellers.

Paid corner men or hustlers are fast disappearing. Newspapers have learned that a great deal of insane competition established by this method is expensive and productive of very few extra sales. It often causes street brawls, and the system is frowned upon by the buying public and the advertiser. It may be necessary to pay a corner man or boy a bonus to sell in certain localities on account of scant sales. This is considered legitimate, providing all the newspapers of the city join in keeping the corner covered. This applies largely to outlying localities, where representation is required, and yet the sales are too small to make it inducive for a boy to stay.

In country towns, within and beyond the trading area, circulation is built along the same lines as in the city. The newspaper representatives are designated either as agents or newsdealers, and a certain part of their circulation is delivered into the home, and the rest sold on the streets or at the stores.

Some newspapers have salaried representatives in the larger towns, who conduct the business as it is handled in the city. They look after transfers of bundles of newspapers from one transportation line to another, canvass, look after complaints, stops, and verify new orders. They distribute copies to newsboys, newsdealers and carriers, selling at the wholesale rate.

This arrangement permits these sub-dealers to earn the usual profit. The special agent gets his pay from the publisher. This is the best and most effective method for outside circulation, but is expensive, and is not in general use.

The Indianapolis News covers all its country territory in this manner.

Since the building of hard surface highways, and the improvements of roads in general throughout the nation, a different mode of delivery to subscribers living in obscure sections of the country has been adopted.

Evening newspapers handicapped by the absence of evening R.F.D. delivery, are establishing motor delivery of their own, and although the expense is large, it is not much greater than if the mails were resorted to at prevailing postal rates.

This new method of delivery to farmers and others heretofore not reached in the evening, has caused most newspapers operating under this new system, to discontinue "predating" its mail editions, and instead giving service to country readers, similar to that given city subscribers.

During October The News delivered a daily average of 22,030 copies to agents, dealers and individual subscribers in the trading area in this way.

The curtailment of train and interurban service, and the substitution of buses, has made this service necessary. The improvement of highways, however, has stimulated this method of delivery more than anything else.

It is a proven fact that newspaper readers, who were inaccessible to the rural mail carrier during certain seasons of the year, were themselves inaccessible to the merchant for the same reason, and since the improvement of highways, advertising results have been greatly stimulated, because the newspaper readers have greater advantages in coming and going.

The question of unsold copies has never been satisfactorily adjusted either to the publisher, the advertiser, or the auditing bureau. The newspaper giving "full returns," and making deductions from its gross daily run, comes nearer satisfying all concerned. This, however, encourages carelessness and waste on the part of agents, newsdealers and others, increases transportation costs, and entails considerable additional clerical work.

Newspapers giving only a limited return privilege or no returns, often have their figures questioned because there are opportunities under this system to present misleading figures. The honest publisher gives credit for every copy not sold by his agents, or at least gives instructions, when on a non-returnable basis, that orders must be regulated to conform with actual sales. If an agent does not take advantage of these privileges, the publisher is not at fault. This publisher will not pad orders, or insist upon increases being made in times of emergency, without giving full credit for unsold copies.

Some publishers have contractual relations with their agents, that they must report the number of unsold copies at regular intervals for credit on their accounts.

There are some newspapers placed in the fortunate position of being first in the field, making it unnecessary to resort to the use of premiums, contests, bargain periods, clubbing arrangements, insurance, etc.

The papers which need more circulation, however, to compare favorably with their stronger competitors, in order to secure a higher advertising rate, must look to "schemes" outside of the ordinary circulation building to get results. To produce circulation on merit alone is out of the question in many cases. If all newspapers in a particular locality possess merit, it becomes extremely difficult for the weaker newspaper to make headway without the use of schemes.

Merchandise premiums have been successfully used in many cases, but usually the articles used to promote circulation, are in direct competition with the goods sold by the advertiser from whom the publisher is constantly soliciting space.

The main criticism of the use of premiums, is that the average prospect is more influenced by the use of the premium than by the newspaper he is asked to subscribe for, and renewals are hard to get unless the use of premiums is continued.

Popularity contests, used by some

newspapers, have produced results, but as a rule the public is opposed to them. To help a candidate in the contest to win a prize, the public is often compelled to buy subscriptions for long periods in advance. Sometimes readers of long standing are compelled to help more than one candidate in the same contest, and in a general way the contest creates ill-will toward the newspaper conducting it.

Bargain offers are used by some newspapers for the purpose of getting new readers, but primarily to get renewals within a short space of time. This plan usually produces a large sum of money at one time, but the rest of the year the income is rather lean, and in the end nothing has been accomplished but a deficit in the cost of handling this particular classification of circulation.

Travel accident insurance offered in connection with newspaper circulation, has grown in practice in recent years. Some of the strongest and best newspapers in the country use it. The subscriber usually pays the full cost for this service, while in some instances, policies are issued at slightly less than cost to meet competition.

The trouble with this kind of circulation building is sometimes due to disputes with readers, who failed to get benefits they thought they should have in case of accident not covered by the terms of the policy.

Another objection is that the insurance must be offered from year to year, and while producing results in most cases, is expensive and requires a substantial clerical force to handle.

A newspaper with a large coverage, in adopting insurance, usually finds it necessary to serve many of its old readers, getting only a small percentage of new business.

The service may be called a good-will builder, but it seems necessary to make it a continuous performance.

Circulation secured without outside influences as described, and built solely upon the merit of the newspaper, is after all the result-producing circulation for the advertiser.

The Place to Push Sales—

Kansas—made unusually prosperous this year by excellent crop yields—offers an attractive market to persistent advertisers.

PLAN TO TELL PUBLIC ABOUT ADVERTISING

Five-Year Educational Campaign to Be Discussed by Quarterly Meeting of I. A. A. Advertising Commission

Creation of a better public understanding of advertising will be the keynote of the fall meeting of the Advertising Commission of the International Advertising Association at the Edgewater Beach Hotel in Chicago Nov. 15 and 16, according to an announcement by the chairman, W. Frank McClure, vice-president of the Albert Frank & Co., Chicago.

W. FRANK MCCLURE

Definite launching of a five-year program to develop a more intelligent appreciation of the benefits of advertising among people generally will come at the meeting with organization of a commission committee of eighteen leading representatives of various fields of advertising.

A generous part of the Monday morning program has been set aside for open discussion of this educational undertaking, declared by many advertising men to be the most important and constructive work ever instituted by the commission. The discussion will treat such questions as these:

Has advertising raised the standards of living?

Has advertising reduced the cost of products to the consumer?

What is the relation of advertising to public health?

What is the educational value of advertising?

Commission members have been asked to take suggestions to the meeting for the benefit of the committee in formulating its program.

It will be the first meeting of the Commission since its reorganization as the "congress of organized advertising" at the Philadelphia convention of the International Association, when seats in the assembly were voted to accredited representatives of Advertising Clubs, Federation of Women's Advertising Clubs, Sustaining Membership, and National Better Business Bureau, in addition to those from the twenty-seven national organizations of specific advertising interests who formerly constituted the body.

Chairman McClure will preside at all sessions, and C. K. Woodbridge, president of the International Advertising Association and president of the Dictaphone Corporation, New York, will participate in the meeting and be one of the speakers.

In accordance with the new plan of the Commission of giving its departmental representatives opportunity to present discussions of the constructive work of their organizations, Merritt Lum of the A. W. Shaw Company, Chicago, representing the Associated Business

Papers; Theodore R. Gerlach of the Gerlach-Barklow Company, Joliet, representing the Advertising Specialty Association, and Ezra W. Clark of Buchanan, Michigan, representing the National Industrial Advertisers' Association, will be the principal speakers on Monday afternoon. Messrs. Lum, and Gerlach, will tell what their organizations are doing to make advertising pay the advertiser better, and Mr. Clark will describe the educational activities of the Industrial Advertisers.

Plans for the 1927 convention of the International Advertising Association will be reported by Joseph Moorhead of Denver, where the meeting is to be held. He is chairman of the general local convention committee.

Other speakers will include Edward L. Greene of New York, director of the National Better Business Bureau, who will discuss the new plan of operation of the Bureau.

Obituary

WILLIAM D. CHANDLER, 63, publisher of the *Concord* (N. H.) *Evening Monitor* from 1898 to 1923, died Nov. 5 in that city following a surgical operation. He was vice president and treasurer of the Republican Press Association from 1883 to 1892. He was a 33d degree Mason and former postmaster of Concord. He is survived by his widow and three sons.

THOMAS J. GOLDING, 56, at one time managing editor of the *Los Angeles* (Cal.) *Herald*, died at San Antonio, Tex., Nov. 3.

JAMES H. WADE, 60, formerly employed as linotype operator on the *New York American*, died in Wollaston, Mass., Oct. 31.

MRS. LENA ROTHSCCHILD ADLER, 54, wife of E. P. Adler, publisher of the *Davenport* (Ia.) *Daily Times*, and head of the Lee Syndicate, died Oct. 30 in Kenilworth sanitarium, Chicago, following a long illness. Mrs. Adler was born in Muscatine, Ia., but had lived in Davenport since childhood. Beside the husband she leaves a son, Philip D. Adler, publisher of the *Kewanee* (Ill.) *Star-Courier*, and a brother and a sister.

CHARLES J. JAEGLER, SR., 73, founder of the *Pittsburgh Catholic Observer*, died in that city Nov. 6 after a long illness. He was a native of Germany and located in Pittsburgh in 1868. In 1880 he was made manager of the *Pittsburgh Beobachter*, which post he retained until July, 1898, when he established the *Observer*, and continued as publisher of that paper until 10 years ago. He is survived by three sons and five daughters.

RALPH E. WALKER, 44, editor of the *Montezuma* (Ind.) *Enterprise* for the last 18 months, died Nov. 3, following a nervous breakdown.

PETER GOODMAN, 70, pioneer color pressman of the Pacific Coast, died in San Francisco recently at the home of his daughter. He started work in New York City on the *Journal*, later going to the *San Francisco Examiner*. During the Panama-Pacific International Exposition he ran the exhibition color presses, his last active work.

JAMES W. HUMPHREYS, 80, a pioneer editor and publisher, at one time connected with the *Colon* (Panama) *Telegram*, died recently in Los Angeles.

EDWARD F. SULLIVAN, 53, for many years Associated Press operator on the *San Diego* (Cal.) *Union*, died recently after a long illness.

J. H. MILLER, editor and owner of the *Lees Summit* (Mo.) *Journal*, died Oct. 28.

R. S. MARTIN, 90, senior editor of the *Hedrick* (La.) *Journal*, died Nov. 1 after a three weeks' illness. He was a veteran of the Civil War and one of the oldest active newspapermen in the state. Two sons, C. J. Martin, associated with his father in the paper, and W. D. Martin, Mineral Point, Wis., and a daughter survive.

ROBERT KIRKLAND KERNIGHAN, 69, better known as "the Khan," died on Nov. 4 at Rushdale Farm, Rockton, Ont. He was at one time a member of the editorial staff of the *Hamilton* (Ont.) *Spectator* and was later editor of the *Winnipeg* (Man.) *Sun*, but it was as a contributor of verse to the daily press that he was best known to a wide circle of readers both in Canada and the United States. Latterly he contributed a daily poem to the *Toronto Evening Telegram* and several volumes of his verse have also appeared.

MRS. AL SPINK, wife of Al Spink, dean of America's sports writers and a member of the Old-Timers' Baseball Association of Chicago, died at her home in Oak Park, Ill., last week. Spink is also ill at his home.

DONALD HANCHETT JEFFRIES, advertising executive with the Kling-Gibson company, Chicago, died Nov. 8.

WILLIAM D. CHANDLER

William D. Chandler, publisher of the *Concord* (N. H.) *Evening Monitor* from 1898 to 1923 and secretary and treasurer of the Republican Press Association from 1892 to 1898, died in Concord, N. H., Nov. 5, following an operation.

IN some cities, the "leading" newspaper may have merely a few hundred more circulation than its competitor. The Press has 40,000 more net paid circulation in Pittsburgh than the other two evening newspapers combined—and 35,000 more net paid circulation in Pittsburgh than the other two Sunday newspapers combined.

DON'T SELL CLASSIFIED AS ADVERTISING

(Continued from page 6)

should be large enough to fortify the publisher against sudden and unexpected increase in production costs.

Classified advertising is a service that the newspaper performs for the advertiser and reader, or it is nothing. I have always felt, therefore, that when rate increases were being made that this should be a consideration in addition to the items I have just mentioned. If it were possible to ascertain the exact value that each classified ad renders to every advertiser, I would say that the rate should be based on that service alone, but inasmuch as it cannot be determined with any degree of exactness, an arbitrary value should be arrived at based on sound theory.

For instance, the Reliable Mfg. Co. need a factory superintendent, they place an ad in your newspaper and a few hours after the ad appears they are in communication with practically every man in their community qualified to take the job and their need is filled. Assuming that a three-line ad was used, the charge would vary from 20 cents to \$3. Now let us suppose that instead of charging so much per line that the charge was made on a basis of service rendered, and that the general manager of this factory came into your office and said "I need a superintendent, and what will you charge to get one for me?" your answer would be,

"Well, there are not many men qualified for that job, I think a hundred dollars would be a very reasonable charge to find the man you want. Of course, we understand this service is worth much more than that to you."

Having no other means to secure this superintendent do you suppose that this general manager would refuse to pay the price you asked and wouldn't a hundred dollars be a very low price to pay to secure a competent man to run his factory. Yet, the maximum charged by any newspaper in the United States would be \$1 per line or \$3 for the service.

The big point that I am driving at is to make you understand that classified is not exactly advertising as we understand advertising to be, but instead is a distinct service performed by the newspaper and that the advertiser places a service value on it and is willing to pay for it on that basis. I am an advocate of charging for classified on that basis—of cost, plus service value, of charging a rate as much more than is charged for display to make the net rate for classified equal to or more than from display. Also the same rate for all classifications and a flat rate to all advertisers, with the exception of time orders and daily insertion contracts on a yearly basis.

I have probably had as much experience with making rate increases as any classified manager. Nine years ago the rate charged by the Globe-Democrat to transients for solid agate was 10 cents per line, to contract advertisers the rate was .09 and to real estate agents .075. The national rate was the same.

Rates were gradually increased until now the rate for transients for solid agate is .35, contract advertisers .33, real estate agents .33 daily, .35 Sundays and the national rate is .40 daily and .50 Sundays, for headings and matter set in display type the rate is .40 daily and .50 Sundays. We do not make contracts for Help Wanted advertisements or with real estate agents. We have very few bulk contracts in force and these are mostly with automobile dealers.

Our contracts provide that the advertiser must pay the transient rate during the life of the contract and at its expiration if the space contracted for has been used and paid for, the Globe-Democrat will refund the amount due at the contract rate. This form of contract eliminates short rate charges entirely.

The discount allowed to contract advertisers is only 2 cents per line for agate

and five cents per line for display type. Our charges now are almost entirely on a flat rate basis and our net earnings from classified are only .018 per line less than from local display. Operating on this basis makes rate increases a very simple matter and the newspaper obtains the increase immediately instead of getting it gradually over a period of twelve months. It also eliminates the unfairness to advertisers whose contracts have just or are about to expire when the increase becomes effective as against those who have signed new contracts just previous to the increase.

In making these revisions we have never had a decrease in volume and further, I have no knowledge of any newspaper that has lost volume because of rate increases. The *Chicago Tribune* presents an outstanding example of how rates can be increased without affecting patronage and also of the fact that advertisers will pay a high rate for the service that classified performs. Just a few years ago, the rate was .30 per line; it now is .65 per line daily and \$1 per line Sundays. They are now publishing from seven to eleven pages daily and up to thirty pages on Sunday and it is generally understood that their revenue from classified is well over \$5,000,000 per year. I know of a newspaper not the dominating medium published in a metropolitan city whose revenue from classified in a comparatively few years has been increased \$750,000 per year.

If the correct method in arriving at the selling price of classified advertising is on a basis of manufacturing costs, is there any sane argument that can be advanced for charging a different rate for so many classifications as is a common practice on such a large number of newspapers. If a person wants to sell a household article he pays one rate, to rent a room another, to secure a situation another and so on, all in the same newspaper, set in the same type and expense of handling identical. Is it sound business practice or good newspaper ethics to charge advertising customers according to their supposed ability to pay? Physicians and men of other professions do this and are being continually severely criticized and condemned for it.

Since the manufacturing cost of an advertisement under one classification is identical with that under any other classification, there should be no difference in the rate the newspaper charges. I also stated that I advocate a flat rate to all advertisers. I know that there are still many publishers and advertising managers who will not agree with me. For years I have made a careful study of the space used by contract advertisers and it is my opinion that an advertiser buys only the space that he has need for and not because of any contract obligation.

\$723,803,000—

Indiana's Annual Value of Manufactured Goods

In 7,915 establishments are engaged 227,580 wage earners who produce annually \$723,803,000 worth of manufactured products. The leading industries are the steel works and rolling mills employing 25,888 with an average output of \$246,000,000 annually.

Most of these industries employ skilled labor at high wages. These people live in communities where they own their homes, educate their children properly and enjoy home life in its fullest measure. These people are the back-bone of Indiana's great wealth.

They are all potential buyers of every class of product and commodity that is used and consumed today. They are worthy of the utmost consideration of every national advertiser who has a product to sell.

A. N. A. TO MAKE STUDY OF NEWSPAPER CIRCULATION

(Continued from page 7)

most costs have materially increased during the past few years.

"The big advertising interests, newspapers, periodicals, agencies, and others are sincerely co-operating in eliminating wastes and increasing the returns on expenditures. Greater progress along these lines should be made this year than ever before in the history of advertising.

"The ante to get in the national advertising field and stay in successfully is much higher today than ever before. In the past it was possible to buy quarter pages and get your message to the public, but today the advertiser must buy pages, color, or spreads. The cost of getting results and holding dominance has greatly increased.

"There are several dangerous factors that should be met before economic laws begin to take effect with unpleasant results.

"Among these factors are:

"1. The race for circulation, frequently forced by competition, that creates an increase of rate and a decrease in reader interest.

"2. The use of forced methods that may be abused in creating and maintaining this fictitious circulation.

"3. The development of sales outside of logical trading areas or at periods in the day or in sections of the city when and where circulation is of little value to the advertiser.

"4. The development beyond sound economics of high pressure space selling.

"5. Publications of a size that materially decrease the visibility of the advertising.

"6. Special editions.

"7. Free reading abuses, such as exist in the automobile field; and other points which publishers themselves know are not sound.

"All of this is of increasing danger because of the decrease in time available for reading. This is due to changing American habits, radio, hard roads, the automobile, etc.

"The ante for getting results through advertising has been raised. We must face facts and work together to strengthen mediums and eliminate those factors that are not good for advertising, and which in the long run will be bad for publishers.

"From contact with many of the keenest minds in the newspaper business, I know that publishers recognize that many dangerous tendencies are at work, and I believe that the time is ripe for a big constructive movement. The big buyers of advertising are in a position, with the co-operation of publishers, to render an inestimable service to advertising in general and to gradually change unsound practices before harsh economic laws force such changes."

S. E. Conybeare, reporting for the A. N. A. agency committee stated that the committee had made a thorough study of agency contracts, and that it had concluded there can be no standardized form of contract.

"It is an individual relationship between the advertiser and the agency," Mr. Conybeare reported. "You must demand an individual service from the agency suited to your needs. There can be no standardized service which will fit a general contract."

"Don't sign a contract on the grounds that 'everyone else is doing it.' The contract should cover your specific service needs."

R. K. Leavitt, secretary of the A. N. A. reported on the progress made during the past year on the question of color standardization. Advertisers are seeking four standardized colors which must be used by all publications, for the purpose of improving color advertising.

The need for standardization arose from the fact that often colors which appear on the engraver's proofs cannot be duplicated by the various magazines printing the copy, resulting in dissatisfaction to the advertiser.

The American Association of Advertising Agencies and many large engraving companies are working with the A. N. A. for four-color standardization, Mr. Leavitt said.

"When we achieve the standardized colors, we intend to print a color book for the use of advertisers, agencies, engravers and publishers," he stated. "It will then be possible for the advertiser to check publisher's proofs, and determine whether specified color is being used. We will urge the A. N. A. to specify the standardized inks, and demand that publishers use them."

Intertwined in the convention program with the study of newspaper circulation was a penetrating study in the new psychology supervised by John B. Watson, Ph. D., vice-president of the J. Walter Thompson Company. The psychology course was delivered in a series of three lectures, the first delivered Tuesday morning, the second Tuesday afternoon, just before the circulation clinic, and the third Wednesday morning.

It was his intention, Mr. Watson said, to take the bunk out of psychology. Psychology has been overworked through popular interest in it and through popular interpretation, he declared, and then told the advertisers "There is no single principle in psychology we can apply directly to advertising and selling."

"One of the main errors we make," he stated, "is that people are born instead of being made, and that there is a standardized appeal we can make to all human beings."

"There are no born salesmen; there are no born advertising men."

"The real business of psychology is to study what human beings do, in order to judge what they will do. The whole psychological problem is solved when, given a stimulus, you can predict a response, and vice versa."

"The whole tendency today is to throw out the old terminology of psychology, the stream of consciousness, heredity, etc., and substitute environment instead."

"Fear, rage and love are the three basic mechanisms which affect human development and action. Many sales have been lost because the prospect was bigger than the salesman, or had a louder voice. The salesman was dominated by fear mechanisms inculcated in him while very young, and which he may not even be aware of."

In his third talk Wednesday morning Mr. Watson applied to adults in industry the fundamentals of behaviorism, explained in his two previous lectures.

He denounced as "rank charlatanism" the claims of those who maintain they can "pick men" for executive and sales positions by head measurements, reading of photographs, diagnosis of handwriting, etc.

"Business men should throw out these fakirs who are now taking from a million to a million and a half dollars annually out of industry with bunk 'readings' and other so-called tests for picking salesmen," he declared. "Some even claim they can pick men by studying their hair color, texture of skin, etc. All of it is bunk from the word go."

Mr. Watson said it is impossible even for a trained psychologist to differentiate between an intelligent person and a feeble minded one by the above tests.

"Pick six feeble minded persons, and six intelligent men, groom them carefully and then dress them all in evening clothes, and I defy anyone to separate them into their correct groups by use of any of the above tests," he said.

Mr. Watson also landed a healthy blow upon the pate of that highly regarded industrial factotum, the "efficiency man."

"Outside of discovering the obvious facts as to whether a man is cleanly and dresses tidily, an efficiency man can tell little about his aptitude for his position by 'sitting in' with him for a few days," he said.

Mr. Watson recommended the trial and error method—giving the man a month on the job, and then deciding whether he will eventually "make good."

He also said he would investigate the following points regarding an applicant for a position:

1. His education, not putting too much stress upon a college degree. If a man quit school, find out why—whether he was too lazy to continue.

2. How many jobs he has held since leaving school, and whether he has advanced in salary and opportunity with each new post.

3. His recreation chart, whether he is proficient at any game or sport. Pro-

ficiency, or an intense liking for any recreation from bridge to golf indicates ability to get along with other people.

"So-called mental tests should be used cautiously," Mr. Watson said in closing. "They indicate thought processes, the amount or erudition, you might say, but they cannot indicate how a man will act when confronted by a specific problem."

"Study human beings, what they do, what stimuli they respond to, if you would write compelling advertising copy," he said in answer to a question.

"Ring doorbells, talk to people, to learn their responses. Give more emphasis to this, and employ better people to do your interviewing, and you will have far better information upon markets and people. When you are close to the people your copy will write itself."

"Make your advertising vie with the news in interest and your selling problem will have been solved."

The psychology course was an innovation in ANA programs, retiring President Hall declared.

NEW ORLEANS

THE WELFARE COMMITTEE of the INTERNATIONAL CIRCULATION MANAGERS ASSOCIATION

Can supply you with competent circulation men of capacity and ability capable to take entire charge of your department or to fill important posts in the department.

Address the Secretary-Treasurer please, Mr. Clarence Eyster, care Star Building, Peoria, Ill.

Members listened diligently to Mr. Thomson's exposition of this intricate new approach to understanding the human bond and the forces which have moulded it still mould his actions.

The retailers' slant on national advertising was told by Frank H. Cole, of Asbury Park, N. J., advertising manager of Peter Henderson Company and proprietor of the Frank H. Cole Company. He gave the following "don'ts" to the advertisers:

"Don't overtrain your salesman. It isn't set well. We don't want to be taken to by youngsters fresh from a period of intensive sales trainings. We can always detect them. We want a man friendly and willing to aid us in our problems. Often a good listener is better than a high pressure talker."

"Don't send us broadsides. They take more room in our waste baskets than are entitled to."

"Don't make your advertising helps too machine-like, too perfect. Often your clerical copy has lost the human touch, which the common man responds to."

"Don't put prices in your tie-up copy, less your regular price is well established and well known."

"Don't send window displays."

Mr. Cole said there has been an epidemic of direct-by-mail campaigns by manufacturers for dealers, which the retailers have not at all appreciated.

"We don't want our customers circumscribed by another firm, even if we handle products. We are never sure that the mail will not get into the hands of other firms, where we do not wish to have it."

Richard H. Lee, of New York, counsel for the National Council of Business Mailers, on Tuesday, told the A. N. A. the present situation in the campaign for low rates. He said almost every member of congress is now of the opinion that the postal department should not necessarily self-sustaining, a big change from the previous attitude. He asked the active operation of all A. N. A. members in the fight against the present rates.

Other speakers at the convention were D. H. Weld, H. K. McCann Company, on "New Tendencies in Market"; William M. Zintl, director of sales, paint division, E. I. duPont de Nemours Company, Wilmington, Del., "National Distribution for a New Product in Ninety Days"; W. T. Grant, president, W. T. Grant Chain Stores, "Chain Store Distribution"; O. B. Westphal, vice-president and general sales manager, Jewel Tea Company, "Selling Direct to the Consumer"; N. S. Greensfelder, advertising manager, Hercules Powder Company, "New Tendencies in Industrial Advertising"; P. B. Zimmerman, advertising manager, National Lamp Works of General Electric Company, "How We Sell and Advertising to Salesmen"; and F. W. Lovey, sales manager, Vacuum Oil Company, "Gaining Distribution and Overcoming Substitution."

One entertainment feature was a Sesqui-Centennial Pageant of Advertising staged Monday night in which A. N. A. members appeared as actors and presided many present phases of advertising. The trials of an advertiser trying to find his copy in the *Saturday Evening Post* were graphically shown. There were many other "take-offs" on popular publications and products.

The annual banquet was held Tuesday night with Robert Benchley, dramatic critic of *Life*, and Dr. W. E. Lingelbach, chairman of the History Department, University of Pennsylvania, as speakers.

H. F. Barnes, of the Edison Lamp Works of the General Electric Company was chairman of the entertainment committee.

Among prominent advertising men in attendance were:

Lockwood, Johns-Manville, Inc.; E. B. Loveland, Standard Oil Company of New Jersey; F. W. McElroy, Alpha Portland Cement Company; Miss M. E. O'Conner, Fisk Tire Company; Stanley P. Seward, White Motor Company; Guy C. Smith, Libby, McNeill & Libby; W. C. Sproull, Burroughs Adding Machine Company; C. W. Stuart, General Electric Company; W. W. Watchell, Loose-Wiles Biscuit Company; G. G. Whitney, Kelvinator Corporation; M. H. Wright, John B. Stetson Company; J. A. Barron, Knox Hat Company; T. I. Crowell, Jr., Colgate & Co.; D. R. Erwin, Cadillac Motor Car Company; John W. Welles, Coldair Corporation; H. Beecher, Society Brand Clothes; E. T. Welch, Welch Grape Juice Company; O. C. Harn, National Lead Company; A. M. Taylor, Franklin Automobile Company.

CHANGES ON JAPAN ADVERTISER

Hugh Byas, former managing editor of the *Japan Advertiser*, has returned to Tokio to resume his old post after four years as London correspondent of the same newspaper. In Tokio, Byas succeeds Frank H. Hedges, who becomes contributing editor, and who left Tokio the last of October on a long trip through China, India and Europe. He will visit the United States also before returning to Tokio about a year hence. A. C. MacKenzie, formerly of the *London Times* and more recently a European correspondent of the *Chicago Daily News*, succeeded Byas as London correspondent.

Altruists, the movie folks. At any rate, a *New York American* headline reads: "Marcus Loew Had Pneumonia, Kept It From His Friends."—F. P. A. in *New York World*.

A. N. P. A. KEYNOTE IS GREATER REVENUE

(Continued from page 4)

Mr. Friendly advised beginning with a small increase, perhaps five per cent more than the regular rate, and then gradually working up. The biggest demand on a newspaper, he said, are for pages two and three. Sometimes these bring 100 per cent above the flat rate.

"Where a newspaper has an adequate local rate and isn't forced therefore to establish position charges, wouldn't that newspaper by charging for position discount the value of other linage in the paper and thus impair the ultimate revenue?" Mr. Thomason asked.

"Results I know about have not been decreased linage or revenue," Mr. Friendly responded. "Merchants who fight the position charge to begin with later demand position and fight to pay for it."

Marcellus Murdock, *Wichita* (Kan.) *Eagle*, wanted to know what a newspaper would do in the event of a clash between a local and national advertiser with both wanting to buy the preferred position.

"Preference in such a case should be based upon the timeliness of the advertisement," Mr. Friendly replied.

Louis Wiley, *New York Times*, supported the speaker in this answer stating that a business manager should choose between advertisers in the same manner in which a managing editor judges news value.

At this point the question of the differential between local and national advertising rates raised its head and tried weakly to enter the discussion. It didn't get very far.

"The differential is wrong," Mr. Friendly stated, flatly and without explanation.

Senator Thomas Rees, *Springfield Illinois State Register*, insisted the theory

was right, and that the big trouble was that it was wrongly considered a differential between local and national advertisers. The two advertisers are each a class in itself, each should have its own differential in rate based on a sliding scale upon the amount of space purchased.

Someone pertinently asked if Mr. Rees considered there should be a differential in rates for newsprint sold to newspapers by the manufacturers.

"There is and there should be," the Senator answered. "Bigger papers buying more newsprint always can get it cheaper than the smaller buyers."

RIDDER RE-ELECTED

Charles H. Ridder, the *Catholic News*, was re-elected chairman of the religious press department of the International Advertising Association at the annual meeting held at the Advertising Club of New York, Tuesday, Nov. 9. The new secretary-treasurer is W. H. Wooster, *The Illustrator*.

A paper with the people

The public decides the progress of a newspaper.

The continuous rising circulation of the *New York Evening Graphic* vividly demonstrates popular acceptance of this newspaper as a medium of unusual reader interest.

Advertisers daily realize the benefit of this power through achieved results from the advertising columns of the *New York Evening Graphic*.

With a constantly increasing circulation, plus a constant growth in advertising linage, the *New York Evening Graphic* offers the advertiser an extremely profitable opportunity.

OUR OWN WORLD OF LETTERS

By JAMES MELVIN LEE

A HANDY booklet for those who write has been compiled by L. Armstrong Kern. It is published by the Bureau of Information of the National Council of the Y. M. C. A., 347 Madison Avenue, New York City.

This manual, "Style," is not a bad style book for newspapers which have not yet set forth their standard of usage in print. Its compiler frankly admits that he is greatly indebted to the style books of the *Chicago Tribune* and the *Detroit News*.

Mr. Kern has not hesitated to secure the cooperation of the press in the compilation of his manual. Harold T. Pulsifer of the *Outlook*, for example, furnished this contribution:

News is like food. Its palatability depends not only upon its original constituents, but also upon the manner in which it is served. Some food is hard to spoil; it's good even raw. Some food must be cooked with all the skill of a French chef to make it go down.

The trouble with most religious news or religious food is that it is cooked without flavor and according to a worn-out formula. When it is received in an editorial office the words, phrases, and thoughts are too familiar to be digestible.

Serve wholesome things hot and steaming from the kitchen. Don't boil everything together in the same kettle. Editors are hungry for real news when they can get it.

The section on "Elements of News Writing" is so boiled down that it occupies only three pages. Yet some text books on news writing do not contain as much practical information as may be found in these three pages.

THREE editorials in the *Nation* for Nov. 10 deal with subjects of immediate interests to the readers of *EDITOR & PUBLISHER*. The first pays a fine tribute to Henry N. Brailsford, who recently resigned as editor of the *New Leader* in London.

The second editorial chats about the remarks that President Coolidge made on the subject of advertising. It concludes with the following:

The goods we consumers buy advance upon us from behind a great smoke-screen of advertising, brewed by astute psychologists in vast retorts where shame, envy, fear, pride, love, and to "break down sales resistance," stimulate every other human emotion are skillfully blended wants, create new facts, and force us to buy, buy, buy, until it hurts, hurts, hurts! Of the value, the utility, the relative cost of the goods themselves we learn nothing whatever from advertising.

One wonders whether the *Nation* would accept this generalization for its own house ads which it prints week after week. One also wonders whether this generalization was made after a survey had been undertaken to get the facts, or whether it is a mere expression of the personal opinion of the editor.

The third editorial is headed "Note on Newspapers" and deals with the way the milk story was handled by three New York newspapers. The editor then classifies the newspapers of the United States as "newspapers, party papers, and personal papers."

WILL the country weekly survive?

This is the question that John H. Casey of the Department of Rural Journalism of the University of Missouri answers in the *Kivwanis Magazine* for November. His answer is yes—"if it renders a service to the community."

Mr. Casey believes that the typical American community without its weekly paper is like a district school without a teacher or a country church without a pastor. He calls attention to the fact that while the city daily is hastily read and thrown away, the country weekly is carefully passed around among members of the family and preserved until the arrival of the next edition. He finds much to praise in the continued improvement in the make-up of the country weekly and makes special mention of the gaining popularity of the pyramid style for grouping advertisements. While admitting that the list is not complete, he passes a bouquet

to the following for being attractive in make-up and interesting in content: *Northfield* (Minn.) *News*, *Traer* (Ia.) *Star-Clipper*, *Boonville* (Mo.) *Advertiser*, *Walton* (N. Y.) *Reporter*, *York* (Neb.) *Republican* and the *Houlton* (Me.) *Times*.

Mr. Casey then points out the "pull power" of the rural weekly for national advertisers, praises the improved business methods of country publishers, and concludes with the assertion that while the country field is changing, owing to cement and hard surface highways, automobiles and other influences, the future was never brighter, then today for the wide-awake country newspaper.

THOMAS LAWRENCE REILLY was for many years city editor of the *Daily Journal* of Meriden, Conn. The press and politics mixed well in his case. He became mayor of Meriden which he

shocked terribly by saying that it most needed a few successful fires and about a half dozen first class funerals.

Reilly had one stroke of luck from an unexpected source. At the time he entered politics George M. Cohan was coming out as a playwright as well as a comedy star. He had just staged for the Four Cohans a play "Running for Office" in which the central figure was a politician—one Reilly. The song hit of the show was entitled "Root for Reilly." The friends of Thomas L. Reilly promptly seized the song and worked it to the limit in the Meriden campaign.

How Reilly divided his time between the city room of the *Journal* and the mayor's office, how he went to Congress and how he was elected to other offices is told in a little book, "Thos. L. Reilly—Public Official and Newspaperman," published by his son, Louis J. Reilly. Newspapermen in New England in general and in Connecticut in particular will be especially interested in this volume.

THE special supplement issued by the *New York Times* on its seventy-fifth anniversary—aided possibly by the sketch of the publisher, Adolph S. Ochs, in *EDITOR AND PUBLISHER*—was sure to bring forth an article or two in the magazines. The first to be publicly announced is "Ochs and His Times" which

will appear in the December issue of the *Atlantic Monthly*.

RAMSEY ON ASHEVILLE TIMES

Now Business Manager After Seven Years in Public Service

FRENCH LICK, Ind., Nov. 11.—D. H. den Ramsey became business manager of the *Asheville* (N. C.) *Times* Nov. 10. Don S. Elias, proprietor and publisher of that paper, informed *EDITOR & PUBLISHER* here today. Mr. Elias is attending the A. N. P. A. Convention.

Mr. Ramsey was at one time owner of the *Times*, but now has no financial interest in the property. He has been devoting himself recently to special writing and business. He has been city commissioner of Asheville, and formerly was city manager of Winston-Salem.

CLARK SUCCEEDS SPAULDING

Frank W. Clark, formerly editor of the *Albany* (N. Y.) *Knickerbocker Press* and recently with the *Syracuse Herald* in an advisory capacity has been named editorial director of the *Binghamton* (N. Y.) *Press* to succeed Frank W. Spaulding, managing editor, resigned. Mr. Clark started his newspaper career on the

PAID
FOR EACH
IDEA
PUBLISHED

MAKING a special event such as a beauty show the pivot about which to canvass for advertisements, the *Concord* (N. H.) *Monitor* has been able to run a number of such full page advertisements during a season. The page is split up into 10 or 12 equal sections and those sections sold to the merchants. Each one mentions some gift that they will give the winner of the contest. If there is a stock company playing in the city, the subject being played can be made the pivotal selling argument, as "Dancing Mothers," each merchant adapting their ad to fit in with that slogan. The idea has infinite possibilities, the only requirement being the finding of a good pivotal sales point. Beauty contests, stock company shows, special mardi gras, conventions are just a few of the possibilities.—L. E. Richwagen, Portland, Ore.

The *Boston Post* has recently been making a Sunday feature of used automobiles and trucks listed for sale. The charge is \$1.00 for two lines, double column. The vehicles are run according to price, from lowest to highest. Each ad is keyed by number, the names and addresses of the sellers appearing at the bottom of the page. No difficulty has been experienced in filling a full page each week.—E. R. L.

Mail order houses do quite a bit of newspaper advertising, especially about this season of the year. Start a page in your local paper under the heading of: What you can buy through the mails. You will find a page of this nature easy to fill up. Many of your local firms have articles they sell through the mail, such as Xmas cards, special assortments of goods, etc. Don't overlook any of them.—C. E. Pellissier, Boston.

A Michigan newspaper offered a \$10 cash prize to every school room in the city where the paper was delivered to the home of every pupil in that particular room. Several rooms copied the prize at the start through 100 per cent representation, thus affording the newspaper good advertising copy; a number of others which were lacking but a few of the necessary 100 per cent came into the ranks shortly afterward when parents subscribed after their children had told them of the situation.—B. A. T.

Your city has nearby a number of roadside eating places, roadhouses and dance halls. Why not capitalize on this and get some otherwise untouched advertising? A weekly page, featuring a 1-col. week-end motor tour, mentioning the eating places and amusements along the road, will bring in six to seven columns of advertising weekly.—H. L. C.

What stores, theatres and other establishments in your city have special facilities for the care of children and special provision for the enjoyment of children? What stores, for instance, have playgrounds for children where the young-

sters can have good times while their mothers shop? Which theatres welcome children at matinees or have special Saturday morning matinees for children? Get up a page of ads of such concerns or a spread and have an appropriate heading over the page or spread and, perhaps, use a good news story with the stunt.—F. H. Williams, Santa Ana, Cal.

There are many articles and appliances nowadays which promote health by the use of heat, such as electric pads, hot water bottles, special steam baths and so on. Get the concerns handling these articles and appliances to use ads on a page in your paper headed, "Use Heat for Health."—Frank H. Williams.

HUNCHES

WHAT is the Thanksgiving dinner of Mr. Average Man going to cost in your community this year? Is it to cost less or more than last year? Give some enterprising reporter the assignment to go out into the market and dig up prices of the turkey and all the "fixin's" and then compare them with the prices of last year. This can be made a good human interest story and will be welcomed by all housewives who will want to know what their holiday spread is to cost this season.—D. P. C., Fall River.

The *Columbus* (Ind.) *Republican* got several news stories and had a lot of fun in locating the school building in the county which boasted of the most sets of twins. After seven sets had been discovered in one building they were photographed, making another good feature.—Yandell C. Cline, Columbus (Ind.) *Republican*.

Are there any of the old wooden bathtubs in your section of the state? An Indian recently purchased what is believed to be the last wooden tub in Kansas and used it for a tom-tom, giving papers of that State several chances for feature stories.—Yandell C. Cline.

County correspondents in Massachusetts report that there is more than one fairly large town in which no marriage intentions have been filed since the June

BIDDEFORD PAPERS MERGE

Record Last Democratic Paper, Taken Over by Journal—Robinson Remains

The *Biddeford* (Me.) *Record*, which had been published by John W. Robinson for 31 years, was sold last week to the *Biddeford Journal* and the *Record* was discontinued. The *Journal* takes over the plant and good will, and will have Mr. Robinson on its staff as a special writer. By this consolidation Maine Democrats lose their last party organ and the *Journal*, an Independent Republican paper, becomes the only daily newspaper in York county.

The *Journal* was established in 1884 by Col. C. H. Prescott, who sold it in 1922 to Julius Mathews, who has made many improvements. The sale of the *Record* was made through direct negotiations between Mr. Robinson and James A. Cook, manager of the *Journal*.

SELDES COMING HOME

George Seldes, of the *Chicago Tribune* foreign staff is returning to America for six months leave of absence, after a year with the French army in Syria.

bride month, an unusual condition for a period of four months. Is Cupid slipping in your territory, too? This assignment, sent out to your suburban men, will bring in a story.—R. B. S.

The new policeman's first day on the force can be developed into a good feature story. Usually he finds his new

post monotonous. Instead of chasing thugs, he finds himself an "encyclopedia," giving street directions to strangers, minding babies or helping aged or blind persons across the street.—J. N. Medrech, *Worcester* (Mass.) *Telegram*.

An interesting special story for a country weekly or the Saturday issue of an urban daily would be a census of all the very old residents of the community—say all those 75 years of age and older. The paper might even go so far as to promote a "get-together" of these old folks for the purpose of making them better acquainted. In the case of those who were not native to the city or town but who came there as adults, it would be interesting to ascertain what consideration caused them to choose the place as their residence. The idea should prove of some circulation value to the paper because such a story would be of interest to the families of all the old-timers doubtless comprising a large percentage of the paper's readers.—Victor N. Vetro mile.

Twice as many newspapers are printing the weekly family circle fiction stories by

INEZ HAYNES IRWIN

as there were six months ago. Here are seven of the outstanding successful newspapers printing this attractive feature to advantage:—

FACTS about New England

NO. 6

This Chart tells the complete story by showing New England's manufacturing growth in a five-year period. Observe the tremendous gains made in persons engaged in employment; in capital; in pay-roll particularly; in cost of materials and in value of products.

This is conclusive proof that New England is still one of the most important, and one of the most dominant markets in the United States as a producer of wealth and as an employer of labor.

Business is always good in New England, mainly because of its diversified industries, and national advertisers will always find a ready market for their products in this compact unified area.

The Progress of THE NEW YORK SUN

*T*HE Sun has been for many years one of the outstanding newspapers in the country.

Outstanding in the completeness of its news columns, in the fairness of its editorials, in the high literary qualities of its articles, in the wholesomeness of its contents.

Outstanding, also, in the productiveness of its advertising columns, in its effectiveness as a medium for creating and increasing sales in New York.

*T*ODAY, The Sun has the largest circulation it has ever had.

It has a larger circulation among the intelligent, prosperous people of New York than any other evening newspaper.

And The Sun today publishes more advertising than it has ever published.

It publishes more advertising than any other New York evening newspaper.

The Sun is the home newspaper among the intelligent, prosperous people of New York. As such, it is the most powerful selling force in the world's greatest market

Progress in Circulation

The average daily net paid circulation of The Sun for the six months ended September 30, 1926, was 265,000—A GAIN of 8,766 copies daily over the corresponding period of 1925.

Progress in Advertising

During the first ten months of 1926 The Sun published 13,173,026 lines of advertising—A GAIN of 1,580,170 lines over the corresponding period last year—A LEAD of 1,195,634 lines over the second New York evening newspaper.

Colorado	14,163
Other States	44,139
TOTAL	528,817

WITH the addition of 125,000 subscribers, due to the purchase of The Weekly Globe-Democrat's mail list west of the Mississippi, The Weekly Kansas City Star now offers advertisers a total circulation of more than 500,000 paid copies each issue—the largest farm weekly in the world!

More than half a million circulation in the richest agricultural section of America!

No Increase in Advertising Rate

Five hundred thousand circulation at an advertising rate scaling from \$1.25 a line down to 75 cents a line.

The supremacy of The Weekly Kansas City Star in Missouri and Kansas has been augmented particularly. The Missouri circulation now totals nearly 200,000 subscribers; the Kansas circulation more than 101,000 subscribers—300,000 subscribers in the two states!

See the revised circulation by states in the column to the left. It tells the story of amazing sales opportunity in an aggressive, progressive territory where two-thirds of the entire population is rural.

Make reservations now for winter and spring. Get your share of business from this three thousand million dollar market.

The Weekly Kansas City Star.

Philadelphia Sesqui Stadium Seats 125,565 people

Princeton Football Stadium Seats 56,000 people

New York Polo Grounds Seats 55,000 people

Franklin Field, Philadelphia, Seats 83,500 people

How many are 535,096 people?

125,565 people attended the Dempsey-Tunney Fight in Philadelphia

That's a whale of a lot of people, BUT, when you come to think of it, that's a small number if compared with the big mass of people who assemble in the homes of Philadelphia and vicinity each evening to read "Philadelphia's home newspaper"—The Bulletin.

To picture in your mind

what a mass of people 535,096 really makes, let us consider for comparison the capacities of well-known stadiums, as given below:

Sesqui-Centennial Stadium	125,565	people
Franklin Field (Philadelphia)	83,500	"
Shibe Baseball Park (Phila.)	33,000	"
Phillies Ball Park	19,000	"
Princeton Stadium	56,000	"
Yale Bowl	80,000	"
New Baltimore Stadium	75,000	"
New York Polo Grounds	55,000	"

527,065 people

That many people and 8,031 more buy The Bulletin each day, and there is a vast army of others—their families—who read it.

To be exact, 535,096 copies of The Bulletin were sold each day during the six months' period ending September 30, 1926, and there has been steady daily increase since.

No matter what other newspaper they buy, there is hardly a family in the Philadelphia retail trading area that does not get The Bulletin regularly each day.

The circulation of The Bulletin is the largest in Philadelphia, and one of the largest in the U. S.

Examine the photos of these vast stadiums and consider just what a daily circulation of 535,096 means in its saturation of America's Third Largest Market.

Think of the daily needs of this multitude of humans in your line of business alone, and mark the "Acres of Diamonds" you are neglecting if your advertising is not in "Philadelphia's newspaper."—The Bulletin.

Solid Newspaper Structures Rise From Mergers and Consolidated Production

General Analysis of Conditions Which Favor Elimination Transformation of Weak Competitors into Strong Operation—Advantages of "Double-Header" Newspaper Publication

By ARTHUR ROBB

NEWS DISPATCHES from several large cities which have appeared in recent issues of EDITOR & PUBLISHER indicate that the era of newspaper consolidations is still in full swing.

Newspapers which would have been considered phenomenally strong in 1919 find it impossible to hold the pace of 1926 competition. They form one element that feeds the consolidation flame. Wealthy men who own newspapers but leave their actual management to minority stockholders or employees often see an excellent business stroke in the acquisition of a competitor and subsequent "cleaning-up" of the field. Often the competitor acquired and submerged was the stronger newspaper; sometimes its owners disposed of it because they felt that they could never again hope for such favorable conditions for sale; sometimes they sold it because they wished to retire and enjoy the profits of years given to back-bending labor. Sometimes the sale was made for personal or political reasons wholly beyond the bounds of newspaper management.

Whatever the reasons, the number of newspaper suspensions and consolidations has more than kept pace with the natural annual increment and the tabulation as of Jan. 1, 1927, will place the country's total of daily newspapers well below 2,000.

"Cleaning up the field" is the cliché applied to most of the merger operations in recent months. Business has been good. Advertising has been of tremendous volume. Competition among newspapers has never been sharper. Great sums, in the aggregate, have been expended to get new circulation and to hold it. Some newspapers have paid out thousands of dollars in contest prizes and commissions for a few hundred or thousand new readers. They have bought new press and stereotype facilities. They have taken on new feature and news services. As pointed out in EDITOR & PUBLISHER a few weeks ago, the additional expense in 1926 has cut severely into the increased revenue from advertising.

Back of all this circulation scurry is the idea that the second or third paper in the field finds it difficult to sell space in flush times and the fear that it will be next to impossible in slack times. National advertisers with a comparatively small appropriation have learned to concentrate their money in the medium that proves ability to return the greatest number of sales for the money invested. Usually, though by no means invariably, the newspaper with the dominant circulation gets the coveted plum.

Take for example a field with a strong morning newspaper, and two well managed fairly profitable evening papers. The city and its trading territory are prosperous, good markets for nationally advertised goods. The morning paper, let us say, is the oldest of the trio and has built up a reputation over the years as the "bible" of its readers. Through

PRIME REASONS FOR MANY MERGERS

- (1) A desire to "clean up the field" in behalf of sound economics.
- (2) Despite flush advertising and excellent public response, many publishers find 1926 increased expense has cut into increased revenue.
- (3) Noticeable disposition by national advertisers of limited appropriations to concentrate in a single community medium.
- (4) Destructive competition of rivals, unreasoning and uncontrollable.
- (5) Purchase of a morning or evening rival, giving 24 hour operation of a single plant, is considered by some a practical method of fully occupying a field.
- (6) Six-day publishers may buy a seven-day rival essentially to gain entrance to an established Sunday field.
- (7) Economic pressure, usually exerted by local advertisers, has been the leading cause of post-war consolidations.
- (8) Politics has rarely dictated a merger.

this reputation and by aggressive sales methods it goes into practically every home in the city and has an even larger distribution in the surrounding country. Its evening rivals each have slightly larger city circulations than the morning paper, but cannot reach the suburban and country districts in equal volume. Their total circulations are dwarfed.

The morning paper gets as much lineage as both of the evening papers combined. Its rate is higher by far than that of either contemporary, and only slightly less than their combined rates. Its net revenue, despite more ambitious and more expensive operations than either of its rivals, doubles their combined profit.

By dint of the hardest fighting against the morning paper and each other and with lynx eyes watching the expense sheets, both of the evening papers can end the year in the black—provided a prolonged strike in an important local industry does not cripple the merchants and cause them to curtail advertising. Their margin of operation is too close to be comfortable in such circumstances.

That situation, slightly altered in details, has existed in a number of cities. The two trailing papers might be pressing hard for second place, neck and neck in the race today, but a month hence might find one of them far in the rear, due to a slight shift in the national advertising currents or a sudden burst of speed by its adversary.

Every dollar of income represents a bitter fight, with seldom a plum dropping unsought into the office of either paper. The dominant morning paper on

the other hand, *ipso facto*, received practically unsolicited a good share of its business. Expenses, thought tightly controlled by the second and third papers, nevertheless depend to no small degree on what the first paper does.

If one of the second stringers determines to add a new feature or to spend money to strengthen an editorial activity, gossip of its intention is almost certain to leak to its eager rival down the street. With a long purse, a large and able staff, it usually is easy to forestall the effort of the weaker rival by doing what he intended to do and doing it better—damn the expense!

The past year has accentuated these disadvantages. The strong grow stronger and the weak, though sharing in the increased revenue, have to put out a larger and larger part of it to keep in the race. Little possibility usually exists of making and holding workable agreements between such rivals as to holding down expenses to a level that will permit the weakest of the trio to keep abreast.

They can and will agree on wage scales paid to unionized workmen, but the minimum wage is determined not by what the little fellows can pay, but what the big paper will pay. Agreements as to circulation and editorial promotion expenses are often made—to be broken when necessity demands. The old Bethmann-Hollweg doctrine of "necessity knows no law" has been demonstrated time and again between competing newspapers.

Under these circumstances a mutual buy-or-sell proposition is a natural development. Each of the evening papers knows about what the other is doing.

They have been conducted by good business management; secret rebates or other crooked deals with advertisers are not at all in the picture. There is some duplication in their respective city and suburban circulations, probably about 20 per cent. Their advertising, local especially, is marked by much duplication of firm names and considerable of copy. This is a typical American industrial town, backed by fertile and rich agriculture. It has practically no foreign section, no foreign language press, and its Negro population is of sufficient importance and intelligence to warrant the publication of several columns daily of news interesting to colored readers.

Either evening paper could cater to the whole field without any vital changes in its editorial structure. One large and important daily newspaper could operate comfortably for less than 75 per cent of the present combined manufacturing costs, and could produce an evening circulation which would stand the cursory one-shot comparison of the national advertising space-buyer with the great morning paper.

Given an agreement on price, either could buy the other. Or, that failing, a new company might be formed representing the ownership interests of both old papers to merge the properties.

Both methods have been worked successfully in 1926 mergers.

In one city competition between the managements of two dailies—one morning and one evening, both having Sunday papers—became so keen that readers were treated to a name-calling, mud-slinging exhibition like that of mining camp journals 70 years ago. Co-operation between them was impossible in any department.

Then the merchants took a hand. They went over the heads of the editors and managers to the controlling ownerships and quietly arranged for an end to the unpleasantness. The city was being hurt by the endless bickering; the unrestrained whip-cuts of the editors at each other were bringing readers to regard both papers with contempt, which, the merchant feared, would not be limited to the editorial utterances. The advertising solicitors and business staffs, they were sure, were up to all sorts of skulduggery with the rate cards in their itch to get a little piece of business and keep it away from their rivals. It ought to be stopped, said the business men, and the owners agreed. The surest way to stop it was to bring both papers under one ownership and one management—but neither would sell and neither could buy.

Finally a solution was proposed. Form a new company and give each of the old owners a share in it proportionate to the value of his present property as determined by a competent appraiser. The latter gentleman was found, and greatly to his surprise, his

(Continued on page 39)

MEMPHIS PRESS BUYS NEWS-SCIMITAR FOR REPORTED PRICE OF \$600,000

Two Papers Are Combined Under Scripps-Howard Ownership
—G. V. Sanders, Editor—Plant
Being Enlarged

(By Telegraph to Editor & Publisher)

MEMPHIS, Tenn., Nov. 15.—The *Memphis Press*, a Scripps-Howard newspaper, has absorbed the *News-Scimitar* in one of the most spectacular newspaper deals of recent years.

The consolidation was announced in both papers Monday and Tuesday the *News-Scimitar* was merged with the *Press* and the two papers were published as one.

The consolidation leaves but two papers in the city, the *Press* and the *Commercial Appeal*, morning, published by C. P. J. Mooney.

The announcement of absorption of the *News-Scimitar* was merged with the bombshell to the *Memphis* territory, since it was known that the *Commercial Appeal* was considering purchasing the *News-Scimitar*. The *Commercial Appeal* had had auditors in the *News-Scimitar* office as a preliminary to purchase it is reported.

The stockholders and directors of the *Commercial Appeal* failed to agree upon the purchase, although an option had been taken upon the *Scimitar* properties. In the meantime Roy W. Howard of the Scripps-Howard Papers stepped in, closed the deal and took over the *News-Scimitar*.

The sale was completed in Memphis and New York. The *Memphis* end was handled by J. A. Keefe, business manager of the *Press*; G. V. Sanders, editor of the *Press*; E. E. Cook and W. G. Chandler of the Ohio Group of Scripps-Howard papers, and Bernard Cohn, publisher of the *News-Scimitar*. In New York Paul Block, owner of the *News-Scimitar*, and Mr. Howard kept in touch with developments.

Mr. Sanders is editor of the consolidated paper. J. A. Keefe is business manager of the *Press* and L. G. Swarts managing editor. George Morris, editor of the *News-Scimitar*, becomes associate editor and will devote his main attention to editorial writing.

Many of the *News-Scimitar* employees were taken over by the *Memphis Press*. Virtually all editorial desk men took jobs with the *Press*. Nearly all the circulation department was taken over. Many other men were drawn from the mechanical and business offices.

Bernard Cohn, publisher of the *Scimitar*, it is understood, will go east in the near future to become associated with Mr. Block in his newspaper interests there. For some time he will co-operate in establishing the merged paper.

The *Press* will be published from the *Press* plant but *News-Scimitar* presses will also be used temporarily. The *Press* will start at once to enlarge its present plant. In the meantime it has an option on the *News-Scimitar* plant.

In combining the two papers the *Press* took over all features of the *Scimitar* but dropped the Associated Press wire service. This is in line with the Scripps-Howard policy of discarding the A. P. membership of any paper purchased. It is probable the day A. P. bureau will be moved into the plant of the *Morning Commercial Appeal*.

The *Press* will be served exclusively by the United Press over three leased wires.

The sale price of the *Scimitar* has not been announced, but it is reported that while negotiations were under way with the *Commercial Appeal*, a price of \$600,000 was set on the property, exclusive of the building but including the mechanical equipment.

It is understood the *Press* takes over all advertising contracts of the *Scimitar* along with the circulation at present rates. Changes in advertising rates based upon the new circulation are being worked out.

The *Memphis Press* will continue its present editorial policy based upon Scripps-Howard principles.

The *Scimitar* was established in 1882, and consolidated with the *Memphis News* in 1902.

The *Memphis Press* was established as a Scripps-McRae paper in 1906.

PRINTS 112-PAGE EDITION

The *St. Cloud* (Minn.) *Daily Times*, a 112-page "Achievement Edition," Nov. 8 to mark sixty-five years of continuous newspaper service in St. Cloud and the reconditioning of its plant involving an expenditure of \$55,000. The edition was printed on a new 24-page press.

NEWS COMPANY EXPANDS

The Metropolitan News Company, New York, wholesale distributor for New York City newspapers, including the foreign language group, has purchased three buildings at 255 South street for use as a new downtown distribution center. The building is so constructed that 25 trucks can unload directly upon the distributing tables, where bundles are made up for the various newsstands. A balcony is being provided with escalators and chutes to facilitate re-loading the sorted bundles. The properties acquired cover an area 100 by 160 feet. Louis Weinstock is president of the Metropolitan News Company.

NEW YORK POST HONORS FOUNDER

Cyrus H. K. Curtis placing wreath; John C. Martin to left of Mr. Curtis; Julian Mason, Editor, *New York Evening Post*, at corner of monument, opposite Mr. Curtis.

THE memory of Alexander Hamilton, founder of the *New York Evening Post*, was honored last Tuesday, on the 125th anniversary of the *Evening Post*, when Cyrus H. K. Curtis, present publisher, placed a wreath of oak leaves on his grave in Old Trinity Churchyard. The ceremony took place in the presence of John C. Martin, vice-president and treasurer; Julian Mason, editor, and other business, editorial and mechanical executives.

Among those to congratulate Mr. Curtis and the *Evening Post* on its birthday were President Coolidge, who said in a message:

"In sending my greetings and congratulations to the *New York Evening Post* upon its 125th birthday, I am impelled at the same time to felicitate you personally upon the ownership of this newspaper which for so long a period has stood for high-minded journalism.

NEW MEMPHIS DAILY

Mooney to Start Evening Appeal Dec. 1
With A. P. Service

A new paper called the *Memphis Evening Appeal* will be started Dec. 1 by the Commercial Appeal Publishing Company, C. P. J. Mooney, president, told EDITOR & PUBLISHER Nov. 18 answering a long distance telephone call for verification of the report.

The new paper will be a member of the Associated Press. As soon as Mr. Mooney learned that the Scripps-Howard newspapers would drop the A. P. membership of the *News-Scimitar*, he telegraphed his application to New York headquarters and it was accepted. "We believed an A. P. membership in the *Memphis* evening field was vitally necessary," Mr. Mooney said.

"The *Evening Appeal* will be strictly a newspaper. It will be set in six point, with modest headlines, and will carry the full A. P. report, with only few pictures. At present the new paper will be published from the Commercial Appeal's plant, but it will be a distinct newspaper organization."

Mr. Mooney said the editor has not yet been appointed. The staff is now being organized with members being recruited chiefly from newspaper men thrown out of work by the *Press-News-Scimitar* merger.

"I want the new paper to be something like the *Indianapolis News*—a cross between the *Boston Transcript* and the *New York Sun*," Mr. Mooney said.

DON J. M. GOVIN DIES

Don Jose M. Govin, 58; publisher of *Havana El Mundo*, died Nov. 14. Mr. Govin's brother, R. E. Govin, owner of several newspapers in the United States and Cuba died early this year.

CHARLESTON DAILY SOLD TO LOCAL GROUP

News and Courier Now Allied with
Evening Post Following Sale by J.
E. Rockwell—Lathan Re-
mains Editor

The *Charleston* (S. C.) *News and Courier* published, in its issue of Monday, announcement of the sale of a controlling interest in the paper to a group of Charleston citizens closely allied with the *Charleston Evening Post* and that working arrangement had been made with the management of the *Evening Post* whereby economies of administration and improvements in service would be effected in the business department of the *News and Courier*.

Purchasers of the *News and Courier* are: Julian Mitchell, Thomas R. Waring, Benjamin A. Hagood and Robert S. Small. Mr. Waring, it is stated, more particularly represents the ownership of the *Evening Post*, which has acquired a substantial interest in the *News and Courier* Company. Mr. Mitchell has been elected president of the *News and Courier* and Mr. Waring and Mr. Hagood have joined the board of directors. Robert S. Manigault, president of the *Evening Post*, has been elected secretary and treasurer of the *News and Courier*, and Hall T. McGee, business manager of the *Post*, has been appointed business manager of the *News and Courier*.

Mr. Mitchell is a prominent lawyer of Charleston. He has long been a stockholder in and for many years was solicitor for the *News and Courier*. Mr. Hagood is also a prominent member of the Charleston bar. He is a member of the board of directors of the *Post*. Mr. Waring is editor and secretary and treasurer of the *Post*. Mr. Small is president of the South Carolina National Bank.

The controlling interest acquired by this group was purchased from James E. Rockwell, who acquired it in July last from the estate of the late Rudolph Siegling. Mr. Rockwell took charge on July 27, as publisher. He came to Charleston from Duluth, where he published the *News-Tribune*. He has not announced his future plans.

Robert Lathan for 16 years editor of the *News and Courier*, continues in that capacity and also retains his stock interest.

The John Budd Company, New York, which has represented the *Evening Post* for a number of years, has taken over representation of the *News and Courier*.

REINDEER INJUNCTION

A temporary injunction restraining Harry M. Newman and associates from conducting an advertising enterprise through newspapers and department stores involving the exhibition of live reindeer, was issued by Justice Wasservogel in the New York State Supreme Court on Nov. 13. The complainant was the Arctic Circle Corporation, L. A. Van Patten, president, and unfair competition was charged. Mr. Van Patten swore that Mr. Newman, a former employee, with others, appropriated and used for profit his original reindeer advertising plan. The case has been marked for hearing Nov. 22.

"XMAS" TABOO

The abbreviation "Xmas" is taboo in all advertising and placard merchandising by the Raleigh (N. C.) Merchants' Association and members have been requested not to use this abbreviation for Christmas during the approaching holiday season.

WINTER HAVEN SUN STARTS

The *Winter Haven* (Fla.) *Chief* started publication of a morning paper called the *Sun* on Nov. 15, using the Associated Press report. C. L. Lee is publisher. He is the son of M. M. Lee owner of the *Chief*.

NEW YORK PUBLISHERS NIP HOCKEY BALLYHOO

Charge Intended Press Agent Bribery of Writers, Which Is Promptly Denied—Editorial Investigation Under Way Probing Professional Sport Industry

By PHILIP SCHUYLER

NEW YORK newspaper publishers this week took some of the wind out of this season's hockey ballyhoo, by spreading charges of intended press agent bribery of sports writers to make the game go over big.

FRED A. WALKER

Shortly before the first game of the hockey season Nov. 16 the Publishers Association of New York City notified by letter the managing editors of all member dailies that the two New York teams had set aside \$12,000 to obtain publicity, with instructions that the money should not be expended for paid advertising, but "should if necessary be presented to newspaper men supposed to be in a position to either influence or direct the publication of reading notices."

Col. J. S. Hammond, president of the New York Rangers Professional Hockey Club, immediately countered with a letter addressed to the publisher of every New York paper denying the association's serious allegation and offering an opportunity to investigate the publicity methods.

Col. Hammond declared in his letter he was ready to "appear before any body of newspaper men to further refute these false accusations."

Fred A. Walker, managing director of the *New York Evening Telegram*, and chairman of the Publishers' Association, refused to comment on Col. Hammond's denial of the bribery insinuation.

"I presume the association will be glad to afford Col. Hammond an opportunity to present his side of the affair at an early meeting," Mr. Walker said to EDITOR & PUBLISHER.

The press agent firm of Bruno & Blythe is handling part of the hockey publicity. G. A. Shomaker, formerly on the staff of the New York morning daily, is the representative at Madison Square Garden. He added his denial to that of Col. Hammond, declaring the \$12,000 was a "phantom sum." Bruno & Blythe, he said, were engaged Oct. 25 on a weekly retainer which was barely enough to meet necessary bills in the handling of free tickets, news photographs, and routine releases.

"If we wanted to bribe newspaper men, as we most certainly do not, there are no funds available for that purpose," Shomaker said.

Hockey's introduction to New York as a professional sport was aided by V. J. Macbeth, sports writer on the *New York Herald Tribune*, who was interested in the sport for its sake and also in its circulation building possibilities. When Thomas Duggan bought the hockey franchise, Macbeth became financially interested in the sport. As he explained it to EDITOR & PUBLISHER, he was never the paid press agent for the New York Americans, one of the teams, but he did act in an advisory capacity in publicity matters.

"Hockey publicity has a clean record," Macbeth declared. "Any one who pays money to get publicity for this sport into the papers, is foolish. It is a good game, exciting to watch, and destined to be popular."

"When we started the game last year, advised purchasing paid advertising space in the newspapers. My advice was followed."

The two New York hockey teams, the

THE CHARGES

The Publishers' Association letter to managing editors follows:

In accordance with the vote of the Publishers' Association, I am sending to you the following information regarding the conditions surrounding the publicity plans for the Hockey Season.

At Madison Square Garden there will be two Hockey Teams, one controlled by Tex Rickard and the other controlled by Colonel Hammond. The publicity has been placed in the hands of Bruno & Blythe, 220 West 42nd Street, and they have been told that the sum of \$12,000, \$6,000 from each team, has been set aside for publicity purposes. Instructions have been given, however, that this money is not to be expended for advertising, but is to be expended if necessary among newspaper men who are supposed to be in a position to either influence or direct the publication of reading notices.

There are in the archives at Madison Square Garden a list of men on the newspapers who are alleged to be receptive to financial rewards for the services intimated above. All the newspapers are represented on this list, although there are names on this list of men who are absolutely beyond approach with this sort of a proposal. The only conclusion to be drawn is that money alleged to be paid to these newspaper men finds a resting place in some intermediary's pocket, but this in no way lessens the undesirability of the reputation which is being visited upon those honest newspaper men whose names are on this list.

It was the recommendation of the Publishers' Association that this information be sent to every managing editor in the city, with the suggestion that proper action be taken.

Rangers and Americans, are purchasing a small amount of paid space on the sport pages of New York newspapers. The sum of \$8,500 has been appropriated for this purpose, according to the James A. Devine Agency, which is handling the account. Last year \$3,500 was spent for advertising in New York papers, Mr. Devine said.

The press agent denials of corruption were scoffed at this week by Paul Gallico, sports editor of *New York Daily News*, who by publishing the letter sent out by the publishers association was among the first to air the nasty mess in public print.

"We caught them in time," he said to EDITOR & PUBLISHER, "Now they are simply ducking to cover."

Mr. Gallico, besides printing the publishers' letter under the caption "Another Little List," also gave space to Col. Hammond's denial with the comment that now everyone's position was clear. The News was not on any bribery list and Col. Hammond had assured the readers that everything was on the square.

Mr. Gallico declared bribe offers to newspaper men were common in professional sport circles, particularly boxing. He cited two instances in support of his assertion. One was what he termed a "stupid offer" to himself of \$20 from a press agent, and another was an offer of money made to and refused by a young member of his staff sent out to report the news of a benefit boxing match.

"It was the young man's first assignment on the street," Mr. Gallico said, "and the first thing he ran up against was an attempt to buy him."

"Pay-off systems" carried on between professional sport promoters and newspaper men is the subject of an investigation which is now being made by a committee of the American Society of

THE DENIAL

Col. Hammond's form letter denying the Publishers' follows:

November 11, 1926.

Dear Sir:

A morning newspaper published what is purported to be an extract from a letter addressed to the newspaper publishers of New York City. Permit me to inform you that each of the three sentences of the alleged extract are contrary to the fact.

It is not true that Tex Rickard and the writer control more than one hockey team. No money has been appropriated or placed in the hands of any persons connected with the New York Rangers Professional Hockey Club, of which I am president, to be expended among newspaper men to influence or direct the publication of reading notices.

There is no list in the archives of Madison Square Garden or among the officers or employees of the New York Rangers Professional Hockey Club containing the names of newspaper men alleged to be receptive to financial reward.

I shall be glad to furnish any further information concerning the above which you may desire. I will also hold myself in readiness to appear before any body of newspaper men to further refute these false accusations. If there be any doubt in your mind as to the truth of the foregoing the opportunity to further inform yourself will be most gladly afforded you.

Yours very truly,

J. S. HAMMOND.

Newspaper Editors of which Erie C. Hopwood, editor of the *Cleveland Plain Dealer*, is president. Philip A. Payne, managing editor of the *New York Mirror*, is a member of that committee and he informed EDITOR & PUBLISHER this week that he is including an investigation of the New York hockey situation in a report he is now preparing for the society.

"I have been investigating the situation quietly for weeks," he declared. "While it is a hard thing to pin down, there is absolutely no question that professional sport promoters are spending large sums of money to bribe newspaper men. It has reached a very bad stage in New York. My belief is that 85 to 90 per cent of the sports writers are honest, while a dishonest 10 or 15 per cent is taking all the money offered."

"If the Publishers Association of New York wants to clean up, what they should do rather than issue reports is to use their influence to obtain a grand jury investigation. I don't believe that the promoters would have to be pressed very hard on the witness stand to reveal instances of bribery, because they aren't overanxious to spend their money in this way."

Mr. Payne reported that boxing bribery was particularly rampant. One practice he said he had uncovered was for a promoter or manager to give a boxing writer an interest in a fighter. It would thus be to the advantage of the writer to puff his protege in order to swell the gate receipts.

The writer was afforded a close-up of the indignation registered by Col. Hammond and Tex Rickard at the way New York papers played down hockey this week as a result of the publishers' insinuations of bribery. Mr. Shomaker, the publicity man, also bemoaned the fact that hockey was ignored by the majority of the newspapers on Friday and Saturday,

Nov. 12 and 13, saying that only small mention was made Sunday, and that following the opening game, on Tuesday, Nov. 16, one paper went so far as to refuse to report it.

The press agent introduced Col. Hammond, who later brought in Tex Rickard, and the subsequent verbal explosions were entertaining to hear.

"They are slaughtering us," was one ejaculation of Col. Hammond, in reference to the newspapers. "Why I was aghast when I looked at the newspapers."

The only "oiling" either Col. Hammond or Tex Rickard would admit, as far as hockey is concerned, is the age-old free ticket custom. The Colonel said about 475 tickets had been given out to newspaper men with a value of \$1,700 for the opening match between the New York Rangers and the Montreal Maroons. He expects that as many as 600 free passes are sometimes given out, so that "the boys can see how clean a sport we are furnishing the public."

Col. Hammond seemed very anxious to tell how generous he is with passes to the newspapers. He makes a point to satisfy requests of sports editors for best seats, he said, even though he might easily sell them at the box office.

"We want to play the game as the newspaper men want us to play it," he declared. "We are advertising now and are willing to increase our advertising if that is what they want."

With this latter assertion, Tex Rickard differed.

"Advertising wouldn't ever help professional sport," he said. "It is the sport stories that draw the crowds. People would discount the advertisements."

"But the newspapers can't kill hockey by refusing to play it up. It is too good a game in itself, a game cleanly and fairly played. It made a hit in New York last year, and it is going to spread all over the country."

Mr. Rickard admitted that boxing was not as clean as it should be. He charged, however, that there were "more black-mailers among newspaper men than those who accept bribes."

"I think the newspapers print altogether too much about boxing," he said. "If there isn't any story the newspaper men invent one. I'm sick and tired reading the drivel that is written."

"But on the other hand, newspapers couldn't get along without strong sport pages. You are aware, I suppose, of the *Chicago Tribune's* attempt to play down professional baseball."

The *Chicago Tribune* endeavored to persuade newspapers in major league cities to agree to cut down the space given to professional baseball. Other newspapers refused to enter into such an agreement.

"I tell you hockey is a clean sport," Mr. Rickard concluded, "and deserves space on the sport pages."

Some editors and sports writers interviewed by EDITOR & PUBLISHER shared in the indignation of Col. Hammond and his press agent over the suggestion that newspaper men would accept money to boost professional sport.

Paul Neuman, *New York Evening Post*, declared no member of his staff ever had or ever would accept money offers from promoters or press agents.

Keats Speed, managing editor of the *New York Sun*, declared no member of the Sun staff was suspected.

PHILIP A. PAYNE

DICKEY LOSES SUIT TO HAVE SALE OF KANSAS CITY STAR SET ASIDE

Journal-Post Publisher Has No Right of Action, Judge Rules, Also Declaring Not Even Attorney General Could Legally Intervene

THE suit to set aside the recent sale of the *Kansas City Star*, to members of its own organization, instituted by W. S. Dickey, owner of the *Kansas City Journal-Post*, was thrown out of court, Saturday, Nov. 13, by Judge O. A. Lucas of the circuit court.

Judge Lucas sustained all the demurrers and motions to dismiss filed by attorneys for the *Star* organization, ruling that Mr. Dickey had no standing in court and was without any right to contest the sale of the *Star* by the trustees of the William Rockhill Nelson estate.

Formal notice of appeal to the Missouri Supreme Court was issued by attorneys representing Mr. Dickey on No. 16.

In the opinion of the court, the trustees—William Volker, J. C. Nichols and Herbert V. Jones—have full and exclusive power to administer the estate of Mr. Nelson, subject only to the power of removal by the board of university presidents comprising Dr. E. H. Lindley of the University of Kansas, Dr. Stratton D. Brooks, of the University of Missouri and Dr. W. B. Bizzell of the University of Oklahoma.

Mr. Dickey sued the *Star*, the trustees of the W. R. Nelson trust and North T. Gentry, attorney general of Missouri. When Mr. Gentry declined to lend the name of the state to the suit, Mr. Dickey included the attorney general in the suit.

The court cited that Mr. Nelson provided in his will for all the machinery necessary to the handling of his property. The court said the trustees could not be required "to make a report to any court or individual; the will makes them responsible to the board alone."

The opinion held the court could not question the acts of the trustees in the sale of the *Star* when their duties were specified clearly in the will left by Mr. Nelson.

The exclusive powers of the trustees, accountable only to the board of university presidents, was a main point in the case.

"The main reason, as I see it, for the disposition of the case was not argued nor briefed by either side, and in my judgment it is conclusive," Judge Lucas stated, referring to the authority of trustees.

Another point in the court's opinion was that Mr. Nelson had provided for supervision of the trustees by the university presidents:

"The testator (Mr. Nelson) had the legal right to provide for the ones he desired to manage the property he left behind. If he provided for supervision of trustees outside of any court, it is as binding as if he said so in such words. How may a court take jurisdiction of a trustee with no power to remove or substitute? This is all provided for in the will. And the court cannot run counter thereto, no law being violated by the terms of the will.

"Then, too, suppose a court started to supervise these trustees, and the board (of university presidents) should remove them as it has a perfect right to do, there would be nothing left in court but a moot case. Neither an individual nor the attorney general can call the acts of the trustees in question."

Any act of the trustees, according to the opinion, is answerable only to the board of presidents created by Mr. Nelson's will.

"Manifestly, the testator had this very situation in mind and named the arbiters in his will. And the board is perpetual as long as the star of education shines and enlightened people maintain seats of learning, called universities," the opinion stated, "and should the day

ever come when this condition ceases to exist, the public will not have delectation nor enjoyment in works of art."

That last reference was to the purpose of the art fund provided in Mr. Nelson's will to "contribute to the delectation and enjoyment of the public generally."

The court cited that all were given a permissive right to enjoy the fruits of the fund created by the Nelson will as the trustees may determine and direct. There were no inherent rights in the trust estate, according to the court.

The court cited that Mr. Dickey had bid for the *Star* and that Mr. Dickey could not now "complain that he did not know on what he was bidding. Neither has he any standing as an unsuccessful bidder."

Judge Lucas holds that the "authorities do not substantiate his (Dickey's) right to maintain the suit."

Before the court gave his opinion Wilbur F. Spottswood, a lawyer, offered an intervening petition. Judge Lucas would not accept the petition, reminding the lawyer that, if he were allowed to file such an action, every citizen in Missouri could come into the action and the trust would be hampered. The judge said if he allowed Spottswood to intervene the "celebrated case in Dicken's 'Bleak House'—Jarndyce and Jarndyce—which ran on for generations, would be only a brief proceeding."

The opinion of Judge O. A. Lucas follows:

This case has been exhaustively argued and industriously briefed; yet it is narrowed to clear and decisive grounds for

understanding and decision. The main reason, as I see it, for the disposition of the case was not argued or briefed by either side, and in my judgment it is conclusive, as will be noted later.

On the main point urged, "that plaintiff has no right to bring suit," I regret that time does not permit a trial judge to set forth and analyze herein the law that clearly supports the conclusion I have reached. But suffice it to say that the law is clear and decisive, that the power to question the handling of a broad public charitable trust is lodged only in an officer representing the public.

Trustees may bring suits and make attorney general party defendant where some construction of the instrument is desired or their powers are in doubt, and then, the attorney general would be the only proper and necessary party. And possibly one with a special interest in the trust property might do the same. But that is not this case. The plaintiff bid, and he cannot now complain that he did not know on what he was bidding. Neither has he any standing as an unsuccessful bidder.

The authorities do not substantiate his right to maintain the suit.

This will creates a singularly broad and comprehensive public charity, works of fine art, which will contribute to the delectation and enjoyment of the public generally. Not Kansas City, not Missouri, not the United States. Public generally. All have no inherent right in the trust estate, but only a permissive right, to enjoy as the trustees may determine and direct.

Right to question acts of trustees of public charities is vested in the public but such acts can only be called in question by some designated officer of the public. The attorney general alone can act for the public. Manifestly it can not be left to the discretion of any individual member of society, who concludes that the trust is not managed as he thinks it should be, or some act performed that he thinks should have been left undone or differently executed. Suits would be

interminable and property wasted in its weary march through the courts.

To advert to an existing reason, heretofore referred to, that, to my mind, presents an insuperable barrier to the further progress of this suit.

Reading from this will of Colonel Nelson, the intent, purpose and language are perfectly plain. "A majority of the members of said board (university presidents) shall constitute a quorum and be sufficient to appoint or remove any university trustee or university trustees, or do any act authorized to be done by them hereunder, and all the trustees shall hold office at the pleasure of said board and may be by the board removed at any time."

The testator had the legal right to provide for the ones he desired to manage the property he left behind. If he provided for supervision of trustees outside of any court, it is as binding as if he said so in such words. How may a court take jurisdiction of a trustee with no power to remove or substitute? This is all provided for in the will, and the court cannot run counter thereto, no law being violated by the terms of the will. Then, too, suppose a court started to supervise these trustees, and the board should remove them as it has a perfect right to do, there would be nothing left in court but a moot case.

Neither an individual nor the attorney general can call the acts of the trustees into question. The will makes them answerable only to the board created by the will. Manifestly the testator had this very situation in mind and named the arbiters in his will. And the board is perpetual, as long as the star of education shines and an enlightened people maintain seats of learning called universities. And should the day ever come when this condition ceases to exist, the public will not have delectation nor enjoyment in works of art.

Again from the will, "in providing for the appointment of said university trustees by the presidents of the three leading western universities, it has been my wish to keep said trust free from political influence or control and it is my wish that the presidents of these three universities will appoint and continue in such trusteeship only such men as, having superior taste and good business ability will carefully and conservatively manage the trust estate for the best interest of a concerned."

A broad discretion and independent judgment for which no court can substitute its own mood or manner. The creators of the trustees must supervise their acts and acquiesce or condemn an if flagrant, or for any reason, they alone can remove.

The trustees cannot be required to make a report to any court or individual; the will makes them responsible to the board alone. And, again, how can a court question their acts, when the bounden duties are all legally arranged for elsewhere?

It might be termed the trustees had private duty for a public use, in the sale of this property. Much can be urged for the point of the attorney general, his refusal to act, that the property was not in a public trust until after sale. This as it may, the points considered above are conclusive.

Hence it must follow that the petition in this case displays a defect of party, plaintiff, and no right of action from a single, by the terms of the will, and the demurrers are all sustained and the petition dismissed.

NEW ALASKAN PAPER

The *Petersburg* (Alaska) *Progress* has been started in Petersburg and the result of the combination of the papers the *Report* and the *Herald* had suspended publication some time ago. John W. Schoettler and Albert O. Elson are the editors and publishers.

NEW A. P. MEMBERS

Two newspapers elected to Association Press this week were announced as *Yonkers* (N. Y.) *Herald* and the *Seaside* (Neb.) *Star Herald*.

RALPH (PRONOUNCED "RAFE")

By Arthur Guiterman

(Reprinted from *New York Times*)

Ralph (pronounced "Rafe")—what? in all of these Winters
No one has told you his name?—
Ralph is a goblin who lives at the printer's,
Some one who's always to blame.
He eats up the ink and he ties up the presses,
He mixes the paste in unspeakable messes,
He trips up the foreman (the scandalous japer!),
Bewilders the copy boy, smudges the paper,
Tips over the pails till the floor is all sloppy,
Misplaces the galleys and loses the copy,
While publishers worry and editors chafe
Because of the antics of Ralph (pronounced Rafe").

Ralph (pronounced "Rafe"), irrepressibly spiteful—
No one has ever said why—
Jumbles our beautiful type in the frightful,
Hopeless confusion called "pi."
Debaser of manners, corrupter of morals,
His guile is the cause of uncountable quarrels;
Inciting disputes about hours and wages
With bull-headed misunderstandings and rages,
The Apple of Discord—whole barrels of apples!—
He casts in the conclaves of bosses and chapels.
All lockouts are due to that impudent waif,
All strikes are fomented by Ralph (pronounced "Rafe").

Ralph (pronounced "Rafe"), that insidious terror,
Fitfully—no one knows how—
Hatches a black typographical error,
Starting the deuce of a row—
An error so shocking I can't even quote it;
The author is certain that he never wrote it,
The comp. will be jiggered if he ever set it,
The stonemen can prove that they didn't abet it,
The proofreader shows that he wasn't the sinner;
The thing simply happened like breakfast or dinner;
But Robert and Timothy, Michael and Lafe,
Will quake for the mischief of Ralph (pronounced "Rafe").

Ralph (pronounced "Rafe"), the deserving of curses—
No one can measure our wrongs!—
Harbors a Phillistine hatred of verses,
Madrigals, lyrics and songs.
He punches a stanza and gives it the stAggErS;
Slips in a few asterisks*****, dollar signs \$ \$ \$, daggers † † †,
With maybe a colon : and dash — for good measure,
Mispelling a wurd with maulevolint plezure;
He varies the spacing to make it look better,
He turns up a quad and reverses a letter.
A masterpiece even like this isn't safe
From that reprehensible Ralph (pronounced "Rafe")!

FIGHT LOOMS ON BULK SALES AND PRE-DATES

Effort to Obtain A. N. P. A. Endorsement of Proposed Revision of A. B. C. Rulings Will Be a Feature of April Convention—Postal Resolution Passed—Labor Problems Probed at French Lick

By PHILIP SCHUYLER

REAFFIRMATION of a former postal resolution, semi-executive discussion of labor problems, and the preliminary rounds of a heavyweight battle scheduled to be fought at the April convention over bulk sales and pre-date editions of newspapers as handled by the Audit Bureau of Circulations brought the second annual fall convention of the American Newspaper Publishers' Association to a whirlwind conclusion last Friday, Nov. 12, at French Lick, Ind.

Passage of the postal resolution was a surprise move. Jerome D. Barnum, *Syracuse Post-Standard*, and chairman of the postal committee, did not attend the convention due to the illness of his son. Directors had announced there would be no resolutions offered for membership consideration at the fall meet.

A telegram from Mr. Barnum at the eleventh hour changed this plan. Mr. Barnum advised the convention to reaffirm the resolution passed by A. N. P. A. two years before.

The resolution, unanimously adopted, reads as follows:

"That the American Newspaper Publishers' Association, in convention assembled, without qualification, recommends to the National Congress the restoration of the so-called 1920 postal rates on second class matter and urges in addition thereto that there be established a reasonable bundle rate for transportation of newspapers in bundles within three hundred miles radius of the office of publication."

Following the vote it was announced that there would be an important meeting of the association's postal committee in Washington, Dec. 6. It was pointed out that the association stood firmly behind the McKellar Bill, as far as it concerns second class rates, and that a strong fight would be made to get that bill passed at the next Congressional sessions.

This postal business was sandwiched in between rounds of a heavyweight battle the principals of which were S. E. Thomason, *Chicago Tribune*, and M. C. Meigs, *Chicago Herald & Examiner*. It proved to be a friendly sparring match over the pre-date and bulk sales questions, which, however, showed promise of heavy slugging next April at the Waldorf Astoria Hotel, New York, when Mr. Thomason will present a formal resolution to A. N. P. A. members urging newspaper publishers to demand regulation by A. B. C. rulings to prevent what the *Chicago Tribune* executive declared was "deception and misrepresentation" in the circulation reports. That the *Chicago* contest was being fought out in the interest of all newspapers, both large and small, was made plain by speakers who joined in the fray immediately after the two chiefly concerned had delivered their first blows.

Labor matters, as presented by Harvey J. Kelly, chairman of the special standing committee; Charles A. Webb, *Asheville* (N. C.) *Citizen*, and H. M. Flagg, chairman and executive secretary of the open shop division of A. N. P. A., were discussed for the most part in executive session. The writer, however, is in a position to say that Mr. Webb made an ardent plea for adoption of the "open shop" method of plant operation by newspapers generally and that Mr. Kelly, after thorough study, is convinced that if wage scales have not reached the peak they should have been it not for the fault of the publishers failing to unite and present a strong and courageous stand in opposition to the unions.

William B. Bryant, *Paterson* (N. J.) *Press-Guardian*, and convention chairman, opened the Friday meeting by introducing Mr. Thomason, who, as a past president of A. N. P. A., always has

considerable influence behind any proposition he chooses to make.

Mr. Thomason began by denying he was in any way criticizing the A. B. C. in attacking the pre-date and bulk sales problem, but rather the newspaper publishers themselves who have allowed those problems to come into existence. Before him on the speaker's table as he spoke were copies of the *Chicago Tribune* and the *Chicago Herald & Examiner* dated Sunday, Nov. 14, and which he declared he had purchased at a newsstand on Tuesday, Nov. 9, and he referred to them continually to bring home his arguments against the pre-date. No bitter, but many trenchant words were spoken. Mr. Thomason handled the matter with soft kid gloves, devoting no small proportion of his speech to paying compliments to his friendly enemy Mr. Meigs, a former football star at the University of Chicago. Mr. Meigs in turn removed the sting of his reply by recalling that Mr. Thomason had himself shown prowess on the football field at the University of Michigan and in addition had won prizes as a "boy orator."

Mr. Meigs' chief argument was that

no attempt was being made to deceive either by A. B. C. or the newspaper publishers. He also suggested that pre-date circulation, which was usually spread over national territory, was a good argument to present national advertisers in justification of the differential in rate over local business. He insisted bulk sales were too small in volume to be worth discussion.

The nub of Mr. Thomason's contention was that Sunday pre-date circulation and bulk sales should not be included in total circulation figures as audited for advertisers by A. B. C. He described bulk sales as "valueless circulation."

Pre-dates, particularly those issued as far in advance as his own paper and the *Herald & Examiner* he maintained were not newspapers in any sense of the word. C. P. J. Mooney, *Memphis Commercial Appeal*, made the point clearer later by describing a pre-date as a mule or maverick.

Mr. Thomason outlined the contents of the *Tribune* and *Herald Examiner* of Nov. 14. Ripples of laughter swept over the convention floor as he read the newsless headlines. The *Tribune's* pre-

date is called the "First Edition"; the *Herald Examiner's* the "City Edition." The *Tribune* carries a 12-page main sheet; a six-page women's section; eight pages of colored comics; eight pages black and white comics; a 12-page magazine section; and a rotogravure section. The *Herald Examiner* is made up of 12-page main section; 12-page city life section; eight pages of colored comics; and the *American Weekly*.

"Neither of these pre-dates is sold as a newspaper. It is sold as a magazine; and sold readily at 10 cents a copy," Mr. Thomason declared.

The *Tribune*, he said, started its pre-date about 10 weeks ago. It is published and ready for shipment at 6:45 Monday evening before the Sunday date carried on the masthead. The edition costs five and a quarter cents to manufacture. Transportation adds 8/10 or 9/10 of a cent. It sells at wholesale for 7½ cents; leaving, after other miscellaneous expenses, a profit of 8/10 of a cent per copy. Mr. Thomason said that circulation of the pre-date had grown at the rate of 2,000 or 3,000 a week since it was started, until now it has an approximate circulation of 87,000.

"We make a profit; it's good business, but it is not the newspaper business," Mr. Thomason continued.

"The A. B. C. in publishing its reports permits the circulation of a paper issued as a pre-date to be included in the total figures under the present rulings. Now as I see it the purpose of the A. B. C. is to determine circulation figures for the benefit of advertisers, to audit our statements and returns, in order that advertisers may intelligently purchase space in newspapers."

"I don't believe we want to have pre-date circulation included in our total Sunday circulation. It seems deceptive to me. Advertisers are concerned chiefly with the total figures. It is the totals they carry in their heads. Advertising men tell me this is true almost universally."

"Is it wise for us in the newspaper business to advise advertisers that our total circulation including pre-date figures is of value to them when perhaps it isn't?"

Mr. Thomason frankly admitted he was going to continue publishing the *Tribune's* pre-date until the A. B. C. ruling was changed, because he said profits from it represented honest business, but he urged A. N. P. A. members to join the movement to change the present A. B. C. practice.

The *Tribune's* manager was more guarded in his attack on bulk sales. He mentioned no newspapers by name, but showed plainly he had investigated the matter carefully.

On Wednesday, Oct. 13, according to Mr. Thomason, a *Chicago* newspaper folded a special section featuring *Aurora*, Ill., over its regular edition and sold 25,000 copies in bulk to a jockey club, which distributed them.

"This is not reprehensible under present A. B. C. rules," Mr. Thomason said. "The A. B. C. permits this practice of bulk sales. Do you think it is wise that such sales are included in total circulation figures as well as under the separate item 24 in the Bureau's reports?"

Mr. Thomason told of another issue distributed in bulk by newsdealers, paid \$5 to \$27.50 each to distribute copies free ranging in number from 600 to 3,000 by each dealer.

"Papers are frequently bought and paid for by Chambers of Commerce and merchants for free distribution," Mr. Thomason asserted. "It is considered a good transaction under present rules. But do we want it to continue?"

"I urge the A. N. P. A. to go on rec-

ECHOES OF A.N.P.A.'S FALL MEETING

Wise Management and Advertising Rates—A Clearing House for Photo-Engraving Problems—A Prospect for Some Live-Wire Agency

LAST week when the Pullman smoker talkers were mile-a-minuting on their way to the second annual fall convention of A. N. P. A. at French Lick, Ind., considerable emphasis was placed on the opinion that increased production costs justify an increase in newspaper advertising rates.

Frank E. Tripp, publisher of the *Elmira* (N. Y.) *Star-Gazette*, but more than that an expert appraiser for up-state New York's industrious newspaper purchaser Frank E. Gannett, has different views on the subject.

"Where there has been wise management, newspaper production costs have not increased to any great extent in the last few years," Mr. Tripp declared. He was referring particularly to the golden spoon era of the American press which dates back to just before the World War.

"The small newspaper property netting \$10,000 before the war is today netting \$100,000," he declared. "So much money was too much money for many a publisher. Not a few lost their heads."

"Money was invested in luxurious plants. Equipment was unnecessarily junked and new equipment purchased. Production costs increased out of proportion to the increased profits, which have doubled and even tripled."

"The wise manager hasn't increased production costs to contend with. He has kept his plant up to maximum efficiency at minimum expense. He has carefully maintained his equipment, buying what he needed as he needed it."

"Newspaper advertising rates are too low. They should be raised and, as I see it, for the reason that the newspapers are growing too large in size. If rates are increased and smaller space is sold to present and new advertisers, newspaper advertising will be worth more to the purchaser and newspapers will be easier for the reader and the publisher to handle."

A summary of the Newspaper Photo-Engraving School, Inc., dated Nov. 8, was distributed among delegates at French Lick. This school was started

March 7, 1926, by the seven daily newspapers of the *Chicago* local of the American Newspaper Publishers' Association and is maintained at 179 North Michigan avenue, Chicago. The directors reported that the demand for workmen in all departments of photo-engraving alone, not to mention scores of requests from other parts of the country, far exceeds the supply.

An interesting feature of the school is an extension department conducted modestly for the benefit of *Chicago* newspaper advertising solicitors. Special classes are held and solicitors are shown the processes of photo-engraving to stress the necessity for clean copy and to furnish them with some idea of cost together with saving devices for the customer.

James L. Griswold is in charge of the school's new publication called *The Student Engraver*. This pamphlet is designed to be a clearing house for photo-engraving problems. It is being mailed monthly to all A. N. P. A. members.

G. B. Williams, *Geneva* (N. Y.) *Daily Times*, can furnish any live-wire advertising agent with a good prospective client. This sounds like applesauce, and, indeed, it does concern apples. Mr. Williams brought a barrel of nice juicy reds to the convention, and many followed the familiar family advice to keep the doctor away.

For years Mr. Williams has been trying to sell the co-operative advertising idea to the farmers of his locality. He has made some headway. The farmers have given the best apples they grow a brand name and are following set rules in packing and distributing them.

Some one has yet to make them actual buyers of advertising space. They decidedly belong to that class of people berated by President Coolidge, among whom advertising is underestimated.

For some reason they fail to see that advertising would correct the present condition which results in apples being sold locally for 25 cents a bushel which bring \$2.50 in New York City.

I. A. A. COMMISSION PLANS 5-YEAR DRIVE TO TEACH VALUE OF ADVERTISING

**Committee Named at Chicago Meeting to Formulate Plans—
President Woodbridge Says I. A. A. in Healthy
Financial Condition—Next Meeting in Columbus**

A FIVE-YEAR educational campaign to create a better public understanding of advertising was launched at the meeting of the Advertising Commission of the International Advertising Association at the Edgewater Beach Hotel, Chicago, Nov. 15 and 16. Organization of the committee to handle the campaign is now under way. E. D. Gibbs, chairman of the program committee for the Denver

convention of the I. A. A., was appointed chairman of the committee, but because of pressure of work he declined. The chairmanship is now open, but will be filled shortly.

W. FRANK McCLURE

W. Frank McClure, vice-president of Albert Frank & Co., chairman of the Advertising Commission, was authorized to enlarge the scope of the committee for the educational campaign to include not only members of the commission, but also outsiders directly connected with the advertising fields represented by the commission.

C. K. Woodbridge, I. A. A. president, in the course of a full and detailed report of the work of the association and its plans for future development, announced that it had been able in the past year to liquidate all of its obligations, and that it would from now on put all of its energies back of its program of constructive work, including a campaign for increased sustaining membership support. With all bills paid, subscriptions to the association's fund will be devoted to completing as nearly as possible the tasks President Woodbridge has set for himself between now and the convention in Denver on June 26, when the fiscal year of the organization closes.

The association needs \$55,000 in sustaining membership subscriptions at once in order to put its program into operation, Mr. Woodbridge declared. That sum, he said, would get the program well under way and would leave a fair sum of cash in reserve to enable his successor to take up the work of the organization next June without a shortage.

On a motion of the commission, a finance committee was appointed to confer with Mr. Woodbridge on the apportionment of amounts to be raised by the various departments represented in the membership of the commission, and the allocation to each of amounts the total of which would be sufficient to make up the \$55,000 required. C. H. Sudler of Chicago was named chairman of the committee, which also includes Judge E. Allen Frost and William H. Hodge, both of Chicago. The committee started functioning immediately and held a preliminary conference with President Woodbridge while the commission was still in session.

Joseph Moorehead of Denver, general chairman for the Denver convention of the I. A. A., was present at the meeting of the commission and outlined the steps being taken for the convention in June. Departmental sessions, he announced, will all be held within a radius of 3 or 4 blocks in the heart of the business district, for the convenience of the various departments.

It was voted to hold the next meeting of the Advertising Commission in Columbus, O., Monday and Tuesday, Jan. 24-25.

President Woodbridge made the state-

ment that \$1,400,000,000 is being spent in advertising each year—enough, he declared, to suggest the need for a strong, practical, well-financed, working international organization, so that all branches and departments can be co-ordinated to bring about a better public understanding of the work being done in advertising, and so that the advertising dollar will bring as near 100 per cent returns as possible.

A proposition was advanced to change the name of the Advertising Commission to the International Advertising Commission, in order to make advertising clubs of other countries eligible for membership, and that the commission might correspond more accurately with the International Advertising Association. A committee was authorized to work on the proposal and to present a report at the next meeting.

The Rev. Charles Stelzle of New York, chairman of the church advertising department of the I. A. A., outlined the program for church advertising, which includes the building up of a large paid membership, and an extensive educational campaign. The aim of the department, he said, will be to advertise religion, and not simply the church.

Charles F. Hatfield of St. Louis, president of the American Community Advertising Association, who last June retired as secretary of the Advertising Commission, was presented with a pair of diamond cuff buttons by his associates on the commission. A presentation speech was made by Frank L. Blanchard of H. L. Doherty Company, New York, at a luncheon Monday at which the executive board of the advertising council of the Chicago Association of Com-

merce was host to the Advertising Commission.

A resolution of sympathy was adopted and sent to the family of the late Senator Lafayette Young, veteran publisher of the *Des Moines (Ia.) Capital*.

The meeting of the Advertising Commission this week was the first since its reorganization as the "congress of organized advertising" at the Philadelphia convention of the I. A. A., when seats in the assembly were voted to accredited representatives of Advertising Clubs, Federation of Women's Advertising Clubs, Sustaining Membership, and National Better Business Bureau, in addition to those from the 27 national organizations of specific advertising interests which formerly constituted the body. The attendance was the largest ever drawn by the commission, and the meeting, according to declaration of speakers on the floor—including James O'Shaughnessy and Mr. Blanchard—was one of the most important they had ever attended.

Robert A. Warfel of New York, executive secretary of the Advertising Commission, arranged details for the meeting. Mr. McClure, chairman, presided at all sessions.

WHITE GIVES PARK SITE

**Editor of Emporia Gazette and Wife
Donate 51 Acres to City**

Fifty-one acres of land along the Cottonwood river was recently presented to the city of Emporia, Kan., for park purposes by William Allen White, editor of the *Emporia Gazette*, and Mrs. White.

The gift is in memory of their daughter, Mary Katherine White, who died in May, 1921.

The land was given the city with three restrictions, that it should be used for park purposes only, that the name of White should never be used in connection with the park and that Mr. and Mrs. White be allowed to bring the landscape gardening up to plans prepared by Hays and Hays, of Kansas City.

OCTOBER LINAGE IN NEW YORK RUNS EVEN WITH 1925 AT HIGHEST RECORD

OCTOBER advertising in New York

City newspapers reached a new total for the month and made a record high for a single month's business. The total of 17,682,776 lines is a gain of 294,868 lines over the total carried during Oct., 1925, but the volume this year was dis-

proportionately increased due to five Sundays against four in 1924. Analysis of the figures show that the gain is nominal rather than actual and that the amount of linage carried was about equal for the month, this year and last. The comparative figures follow:

Pages		Percentage of Total Space		1926		1925		Gain		Loss	
1926	1925	1926	1925

NEW DAILY PLANNED FOR WELLSVILLE, O.

George C. Davis Is Publisher of Evening News to Be Launched Nov. 23—Victor W. Free Editor—Completing New Plant

WELLSVILLE, O., Nov. 17.—The *Wellsville News*, an afternoon daily, will begin publication Nov. 23 here in a field heretofore not served by any local daily newspaper.

George C. Davis, for 19 years assistant chief engineer for Jones and Laughlin Steel Corporation, of Pittsburgh, Pa., is publisher of the new paper while Victor W. Free, a graduate of Ohio Wesleyan University and editor at one time of the *Ohio Wesleyan Transcript*, will be the editor. For the past four years Free has been connected with the editorial staff of the *Painesville (O.) Telegraph* and more recently the advertising staff of the *Ashtabula Star-Beacon*.

Davis has been a resident of Wellsville for a year. Wellsville is a city of approximately 9,500 population. One other paper, a tri-weekly, is now being published in the city. Wellsville is situated on the Ohio River, 45 miles southwest of Pittsburgh and 15 miles north of Steubenville. It is in the heart of the pottery district of Ohio and has in addition a steel plant and many other industries.

Two Intertypes, one new and the other a rebuilt Model B are being installed at the present time. An eight page flatbed Duplex press is also a part of the starting equipment. United Press pony service and N. E. A. features and the Meyer-Both advertising service are to be used.

The new plant will be completed the latter part of this week.

N. Y. PRESS MEET JAN. 27-29

Syracuse Named for Three-Day Convention—E. Conrath, President

The New York Press Association will hold its next annual meeting at Syracuse on Jan. 27-29, with headquarters at the Onondaga Hotel. This is its 75th annual meeting and tentative plans call for an observance of the occasion on Thursday evening, Jan. 27. It is possible that a joint meeting with the two Daily press associations—New York State Publisher's Association and New York Associated Dailies will be arranged. The business sessions of the New York Press Association will be held on Jan. 28 and 29.

The New York Press Association was organized in Elmira on September 8, 1853. Owing to the changing of the annual meeting date from mid-summer to mid-winter, its next meeting will be its 75th.

The present officers are: President, Elmer E. Conrath, *Cuba Patriot and Free Press*; vice-president, Fay C. Parsons, *Cortland Democrat*; secretary, Jay W. Shaw, Elmira; treasurer, Elias Vair, *Waterloo News*.

The two oldest living members of the Association are A. C. Kessinger of the *Rome Sentinel* and Wellington E. Bassler of the *Middleburgh News*. Both of these have maintained their membership continuously for more than 55 years.

Up to three years ago, the Association's activities were largely along social lines. At that time, a paid secretary with field duties was installed.

MOREHOUSE JOINS N. Y. SUN

Ward Morehouse, for the past seven years a member of the *New York Herald Tribune*, recently left to join the dramatic department of the *New York Sun*. Mr. Morehouse came to the *Herald Tribune* as a staff member, and served at various times as night rewrite man, assistant night city editor, and assistant dramatic editor. He is writing a daily signed column of theatrical news and comment for the *Sun*.

OCTOBER LINAGE IN 35 CITIES SHOWS 2 PER CENT GAIN OVER 1925

GAIN of 3,311,753 lines, or 2 per cent, is noted in the October advertising linage figures covering 151 daily newspapers in 35 large cities of the United States. The Oct., 1926, total of 163,869,794 lines exceeds the Oct., 1925, total largely by virtue of the fact that this year had five Sunday issues against four last year. The summaries and comparative figures follow:

SUMMARY OF ADVERTISING BY CITIES

35 cities listed	23 show gain	12 show loss	
151 papers listed	86 show gain	59 show loss	
	6 no comparison

SMILEY RESIGNS AS EDITOR OF CURTIS' THREE PHILADELPHIA NEWSPAPERS

Veteran Executive to Take Complete Rest Beginning Dec. 1
—Began Career on Philadelphia Star Late Nineties—
Studied Law and Was Admitted to Bar

(By Telegraph to EDITOR & PUBLISHER)

PHILADELPHIA, Nov. 17.—David E. Smiley today announced his resignation as editor-in-chief of the newspapers published here by the Curtis-Martin Newspapers, Inc., the *Public Ledger* and *North American*, the *Evening Public Ledger* and the *Sun*, tabloid.

DAVID E. SMILEY

The resignation will become effective on Dec. 1, which will mark the fourth anniversary of the date on which Mr. Smiley took editorial charge of the *Public Ledger* and the *Evening Public Ledger*. Mr. Smiley has made no announcement of his plans for the future except to say that he intends to take a complete rest. It is understood no definite plans have yet been made as to his successor.

From a "cub" reporter on the old *Evening Star*, then under the editorial direction of the illustrious James Jankin Young, Mr. Smiley rose through the ranks to a position as a newspaper executive. At one time he directed the editorial destinies of four metropolitan daily newspapers, the three Curtis-Martin newspapers in Philadelphia and the *New York Evening Post* also in the Curtis-Martin group. He resigned as editor of the *New York Evening Post* on June 6, of this year, being succeeded by Julian S. Mason, formerly managing editor of the *New York Herald Tribune*.

Within a year after he had started his newspaper career on the *Evening Star*, Mr. Smiley had become its city editor. He resigned from the *Star* to become associated with the *Philadelphia Evening Bulletin*, where he went in 1899 as an assistant city editor. He remained with the *Bulletin* until 1902 when he became political editor of the *Philadelphia North American*, recently absorbed by the Curtis-Martin interests. He also served some time on the old *Philadelphia Press*. It, too, was subsequently absorbed into the Curtis-Martin group.

In 1903, Mr. Smiley returned to the *Evening Bulletin*. In his spare moments between head-writing activities and at night, he studied law. Three years later, while still on the *Evening Bulletin*, he was admitted to the bar. He opened a law office and began his practice. Like virtually every other young lawyer, he was confronted with a dearth of clients. A lawyer by day, he became a copy reader by night, taking a job on the *Public Ledger*. He subsequently became night city editor, then city editor of the *Public Ledger*. In 1906 Mr. Smiley resigned to go back to the *Evening Bulletin* for the third time. He became an editorial writer and dramatic editor. He remained with the *Bulletin* this time for 10 years. In 1916 Cyrus H. K. Curtis invited him to reorganize the staff of the *Public Ledger*, making him city editor. Later he became its managing editor.

In 1918 Mr. Smiley was named by Mr. Curtis as editor-in-chief of the *Evening Public Ledger* which Mr. Curtis had launched a short time previously. Mr. Smiley directed the editorial departments of both publications. When Mr. Curtis bought the *New York Evening Post* in 1924, Mr. Smiley was named editor-in-chief of that newspaper, still retaining his editorial direction of the Curtis newspapers in Philadelphia. Mr. Smiley reorganized the staff of the *Post* and con-

tinued his editorial direction until last July. In 1925 Mr. Curtis bought the *Philadelphia North American* from the Wanamaker estate. The next day Mr. Curtis and Mr. Martin sailed for Europe, leaving Mr. Smiley to complete the purchase arrangements.

Mr. Smiley is active in the affairs of the American Society of Newspaper Editors having been one of the charter members, chairman of the membership committee, one of its directors and now second vice-president. He is active also in the Press Congress of the World. Mr. Smiley has made two trips to Europe in the last few years, he helped reorganize the *Public Ledger* foreign news staff and while abroad interviewed some of the figures then directing old world affairs.

HEARST PLANS ALASKA PAPER PROJECT

Application Filed with Federal Power Commission for Preliminary Permit
—Wilbur-Jardine Report on Resources Recalled

William Randolph Hearst has filed an application with the federal power commission for a preliminary permit to construct a power project in Alaska for the manufacture of paper.

In connection with this publisher's interest in Alaska, the recent reports of Secretary of the Navy Wilbur and Secretary of Agriculture Jardine regarding the water power and pulpwood possibilities of the territory are recalled. Secretary Wilbur was enthusiastic over the results of the navy's expedition headed by Lt. B. H. Wyatt.

Secretary Jardine, in advising Secretary Wilbur of the value of the work performed by the naval expedition, said: "We have been making efforts for years to have the extensive timber and water power resources of southeastern Alaska brought into use under Government supervision for paper manufacture and some of the larger paper companies' engineers now are making surveys there. The aerial survey already has been of immeasurable service in this connection. Valuable additional power sites have been discovered and feasible transmission line routes of great strategic value have been found in places previously thought to be impassable."

"It is providing an excellent preliminary reconnaissance of the pulp wood resources of that entire region to use as a basis for blocking out the very large sale areas that must be considered in connection with large paper mill projects."

MERGENTHALER REPORTS PROFIT

A net profit of \$2,625,033, after depreciation and taxes, was reported this week by the Mergenthaler Linotype Company for the 12 months ending Sept. 30. This is equivalent to \$10.25 per share on 256,000 shares of no par stock, comparing with \$2,699,028 or \$10.54 a share on the present share basis in the preceding 12 months.

RUCKER SELLS INTEREST

F. J. Rucker, business manager of the *Winona (Minn.) Republican Herald*, announced the sale of his interests in that newspaper to H. G. White, managing editor, on Nov. 13. Mr. Rucker plans to move to Tucson, Ariz. He had been associated with Mr. White for 23 years.

EDITOR & PUBLISHER CALENDAR

Nov. 22—Newspaper Credit Managers Assn., meeting with advertising agents, Advertising Club of New York.

No. 23—Sphinx Club, 30th anniversary dinner, Waldorf-Astoria Hotel, New York.

Dec. 6—American Newspaper Publishers Association, postal committee meeting, Washington, D. C.

Jan. 5-7—North Carolina Press Assn., third annual newspaper institute, University of North Carolina, Chapel Hill.

Jan. 14-15—North Dakota Press Assn., winter meeting, Bismarck, N. D.

MUZZLE IS CLAMPED ON POLISH PRESS

Dictator Pilsudski's Degree Penalizes Publication of Any News His Government Dislikes—Three Offenses Listed

Marshal Pilsudski on Nov. 7, issued a decree gagging the Polish press in a manner equaled only in Italy and Russia, according to the *New York Times*.

Imprisonment is provided for three specific offenses, Government officials themselves being empowered to impose fines or jail sentences without the aid of courts or juries. The decree goes into effect tomorrow.

The offenses listed are as follows:

1. The circulation of printed news concerning the State or a Minister of the State which would cause a public demonstration. The fact that such news is plainly branded only as a rumor does not minimize the offense. The governing authorities of a large city or of a province are authorized to impose a fine as high as \$1,000 or a prison sentence of three months in such cases without a court hearing.

2. The printing or circulating in speeches or privately of news or rumors affecting members of the Government and Judges of the courts, either ridiculing or criticizing them, is punishable by a fine as high as \$500 or a jail term of one month, the penalties being imposed out of court.

3. The printing by newspapers or periodicals of matter considered by Government officials to be derogatory even through error, is punishable by a fine of \$300 or a month's imprisonment.

There is also a special act covering libel, taking the matter out of the hands of the judicial authorities. Those punished have recourse to the courts within seven days, but an appeal does not prevent the collection of a fine, nor the stay of a prison sentence.

The Socialist papers have already lodged a strong protest, and all papers except the Pilsudski organs are expected to join as the edict goes into effect. The Sejm has authority to accept or reject the decree, and unless it is thoroughly subdued by the marshal's tactics before its meeting, scheduled for Saturday, it undoubtedly will reserve the action.

In their complaint the Socialists declare that the action is not only a plain abrogation of the right of free speech in the press stipulated by the Constitution, but is also the second occasion upon which the Government has deliberately flouted the basic law, the first being the failure to open the session of Sejm within the prescribed time limit.

MACFADDEN BUYS REAL ESTATE

Bernarr Macfadden, publisher of magazines and the *New York Evening Graphic*, has purchased the Hackensack Golf Club for a sub-division development, at a price said to be \$626,000. The property comprises 111 acres and will be developed as a residential section.

ARGUE CONTEMPT CASE IN BALTIMORE

Bar President Asserts There Can Be No Appeal from Sentence in Case Involving Five Hearst Men

(By Telegraph to EDITOR & PUBLISHER)

BALTIMORE, Nov., 17.—Newspaper editors and photographers found in contempt of court may not appeal to the Court of Appeals in Maryland it was argued today. The case of the five Hearst men found in contempt by Judge Eugene O'Dunne in the Criminal Court of Baltimore was being argued before the Maryland Court of Appeals. The view that the case was not appealable was set forth by Jesse N. Bowen, president of the Bar Association of Baltimore and William C. Coleman, member of the executive committee of the association. They appeared as the friends of the judge.

George Weems Williams, appearing as counsel for the Hearst men, argued that the case should be heard by the higher court since, according to Judge O'Dunne, the contempt proceedings grew out of what was regarded by Judge O'Dunne as a criminal act. The five men were declared in contempt because two of them, photographers, made photographs in the courtroom after Judge O'Dunne had issued orders expressly forbidding such photographing. The editors were held to have ordered the photographers to make the pictures knowing of Judge O'Dunne's ban. The pictures were made last May during the trial of Richard Reese Whittemore, bandit and hold-up man, for murder. Whittemore was found guilty of murder in the first degree and some months later was hanged.

The men involved in the contempt proceedings are: Harold B. Elliston, managing editor and Harry Clark, city editor of the *Baltimore News*; Earl C. Deland, managing editor of the *American*; William Klemm and William Sturm, photographers. Each was sentenced to serve one day in jail. Elliston was fined \$5,000 in addition. Realization that the case is unappealable moved Judge O'Dunne to impose light sentences upon the appellants, Mr. Bowen argued. In asking the Court of Appeals to dismiss the case, however, Mr. Bowen urged that the matter be given a complete review in order that in the future there may be no dispute regarding the authority of a judge in the lower courts.

"Do you mean," interrupted Judge T. Scott Offut, "that in no circumstances could a ruling of a lower court be reviewed in contempt cases even though the judge in the lower court sentenced when there was insufficient evidence to prove contempt, or some other legal bearing?" Mr. Bowen replied that was exactly what he meant. Other remedies than a review in the Court of Appeals are available, he said. After Mr. Bowen had completed his addresses Mr. Coleman resumed the same argument, reminding the members of the Court of Appeals that the case at hand challenged their authority and called for a definition of the power of the state judiciary. In regard to the contempt proper, Mr. Coleman asserted that the lower court had been within its rights. It was invested with the power, he said, to say who should attend hearings and what should be carried away.

Mr. Williams, counsel for the five men, held that no judge had a right to say who could come into court and who could not. Judge O'Dunne's ruling in the case before the court, he said, interfered with the freedom of the press. It was Mr. Williams' contention that the case could and should be reviewed by the higher Court, because the offense had constituted a criminal act, according to Judge O'Dunne. Mr. Williams did not believe that his clients' conduct had amounted even to misbehavior.

He told the court that it was "shocking" to think that a single judge could put a man in jail or take away his property when there was no appeal from his decision.

LAFAYETTE YOUNG SR., NOTED IOWA PUBLISHER, DIES AT 78

Owner of Des Moines Capital Was Prominent in Republican Politics—Served as U. S. Senator—Covered Spanish-American and World Wars

AMERICA'S old school of personal journalism lost another of its leading figures Nov. 15, when Lafayette Young Sr., former United States Senator from Iowa and for the last 36 years publisher of the *Des Moines (Ia.) Capital* died peacefully during a nap after a steam bath in a Des Moines bath parlor. He was 78 years old.

Lafayette Young

Mr. Young suffered a severe heart attack two months ago and had been under medical care since.

Orator, politician, war correspondent, and Senator, Mr. Young, despite his diversified interests, was first and foremost a newspaperman who solely through his own efforts rose to a commanding position in Iowa journalism.

Son of a family of pioneers, Mr. Young was born in a rude little log cabin in Monroe County, Ia., in 1848. His elementary education consisted of three winters in a country school to which he trudged through snow-drifted roads. When he was thirteen his classroom schooling ended with the outbreak of the Civil War. His father and two brothers enlisted and the boy, compelled to earn a living for his mother and himself, went to work in a woolen mill. Two years later he sought to enlist but his youth disqualified him. His father and one brother were killed in the war.

Before he was 17 Mr. Young had deserted the loom for the composing stick as "printer's devil" in a newspaper shop at Albia, Ia. In 1866, already a capable compositor, he came to Des Moines to work in the job printing shop of Mills & Company, owners of the *Iowa State Register*. Then followed two years as a printer in St. Louis while he attended night school five times a week and saved the money with which to launch his first newspaper venture.

The year 1870 found him reporter and later city editor for the *State Register* in Des Moines during the turbulent days of the reconstruction period. A year later the young man went to Atlantic, Iowa, and became a publisher in his own right by founding the *Atlantic Telegraph*, carrying his equipment piece by piece on his back from the railroad station to the little room which was his office.

Extension of trunk telegraphic lines in 1879 was the signal for the enterprising young man to make his paper one of the first small town dailies in Iowa, and eventually he was established in his

own building with a profitable publishing and bindery business. He was still a youth of 25 when he made his debut in politics. He was elected to the state senate in 1873, starting twelve years of service in that body during which he, with the late Senator Albert B. Cummins, was among the progressive leaders of the Iowa legislature.

Mr. Young came to Des Moines and purchased the *Capital* in 1890. Under his vigorous management the *Capital* soon outgrew its basement quarters and established itself finally in its own building.

In 1898 Mr. Young left the *Capital* in charge of his wife and children and went to Cuba as a war correspondent. He followed the Rough Riders through the campaign with such vigor that he was made an honorary member of the organization. It was at this time that he formed a friendship with Theodore Roosevelt, Colonel of the Rough Riders, that lasted until Roosevelt bolted the 1912 Republican convention.

A lifelong Republican and in later life a staunch conservative, Mr. Young was delegate at large to two national conventions and chairman of two state conventions. It was he who nominated Colonel Roosevelt for the vice-presidency at the Republican convention in 1900.

Mr. Young was appointed United States Senator from Iowa by Governor Carroll in 1910 upon the death of Senator Jonathan P. Dolliver. He served until April, 1911, and was a candidate through the long deadlock of the Iowa legislature to fill the place for the remainder of the term but was beaten when W. S. Kenyon was named. Mr. Young opposed Senator Kenyon in the primary campaign of 1912 but was defeated.

Although 62 years old, Mr. Young again felt the powerful call of the war fronts in 1914 after his service in the Spanish-American war and the Balkan trouble of 1913. Consequently in 1915 he once more obtained the necessary credentials of a war correspondent and spent four months in the early arenas of the World conflict.

A zealous Austrian intelligence officer misled by the name "Lafayette" into imputing French sympathy to the Iowan, arrested him as a French spy. When the news reached America it brought from his thousands of friends expressions of astonishment and incredulity.

Mark Sullivan, then editor of *Collier's Weekly*, characterized the episode as "The most serious indictment of Teutonic intelligence that we know. Deceit or any kind of dissimulation is about the last thing that Lafayette Young is capable of. If the Germans really want to hold on to the Iowa Senator and make some use of him, let them lock him up in a comfortable museum as the real thing in the line of that much sought and not often seen article—the Typical American."

Surviving Mr. Young are his widow and two sons, Lafayette Jr., and Harold C. Young. To the former Mr. Young had entrusted in late years much of the active management of the *Capital*.

Tributes to Mr. Young from men high in the life of Iowa and the nation have poured in upon the family.

"Senator Young was one of those personalities of whom it can be said that the people loved," says the *Des Moines Register* in a tribute to his ability as public speaker, journalist, and patriot.

Mr. Young's own paper, the *Capital*, said in the announcement of his death: "Iowa was his field and into it brought a pure type of individualism which was untainted by any quality borrowed from other states or other men. Eminent citizens of every state in the Union and nearly every country of the civilized

world have known and loved this pioneer Iowa editor.

"The files of his office contain letters of a most intimate nature from many Presidents and from high officials of foreign countries. He traveled extensively, but above all else he prized his natural inclination to live a life of simplicity in a prairie state."

\$45,000,000 OFFERED FOR AMALGAMATED PRESS

Berry Brothers Seeking to Acquire British Group Which Controls 100 Publications Including 4 Newspapers

Graphic Publications, Ltd., a company with which Sir William Berry and J. Gomer Berry are associated, have made an offer of £3 5s. per share with five per cent per annum interest, to the ordinary shareholders in the Amalgamated Press (1922) Ltd., for the purchase of the company.

The Berry Bros. have recently made a number of purchases in the British publishing world, including the *Daily Sketch* and *Illustrated Sunday Herald*, Ltd., of London, with which they amalgamated the *London Daily Graphic*, and they are the controllers of Allied Newspapers, Ltd., which owns considerable newspaper property in Manchester.

The total amount that will be distributable among the ordinary shareholders in the Amalgamated Press will be £8,832,577, and will be satisfied as to £2 5s. in cash, and £1 in £2,717,716 (part of £3,500,000) five and a half per cent 1st. Mortgage Debenture stock in a new company to be formed by Berry Bros. In addition the Preference shares would also be purchased for 24 shillings each in cash, and the whole deal represents a sum of £9,497,377.

The Amalgamated Press owns and publishes 100 publications. The Berry Bros. control also the *London Sunday Times*, the *Manchester Sunday Chronicle*, the *Manchester Daily Dispatch*, the *Financial Times*, London, as well as the magazine and periodical publishing houses of Cassell & Co., Ltd., Weldon's Ltd., and Kelly's Directories.

A. P. GROUP MEETS

Central Division Advisory Board Members Gather in Chicago

The Associated Press advisory board for the central division composed of 11 states in the middle west met in Chicago, Nov. 9, to consider matters pertaining to the division and to the Associated Press in general. All of the states in the division were represented except North Dakota. Those present were George H. Adams, of the *Minneapolis Journal*; Arthur R. Treanor, *Saginaw (Mich.) News-Courier*; J. T. Garrett, *Burlington (Ia.) Hawk Eye*; H. C. Schaub, *Decatur (Ill.) Review*; F. A. Miller, *South Bend (Ind.) Tribune*; Louis B. Tobin, *Lincoln (Neb.) Star*; C. H. Spencer, *Newark (O.) Advocate*; D. K. Hoopes, *Mitchell (S. D.) Republican*; William T. Evjue, *Madison (Wis.) Capital Times*.

Norman B. Black, of the *Fargo Forum*, representative for North Dakota was unable to be present. Mr. Miller was elected chairman of the board and Mr. Spencer was named for secretary. Edgar T. Cutter, of Chicago, superintendent of the central division spent the afternoon with the board answering questions and giving advice.

A report of the board's work will be prepared and presented by the chairman to the January meeting of the board of directors in New York.

CELEBRATES 75TH YEAR

The *Hornell (N. Y.) Tribune-Times* observed its 75th anniversary on Nov. 15. Edwin Hough, a journeyman printer, founded the *Hornellville Tribune* on Nov. 15, 1851, naming it in honor of Horace Greeley's metropolitan publication, in recognition of a friendship which had existed for many years.

ST. LOUIS PRESSMEN RETURN TO UNION

Six-Year Fight Between Local Union and International Group Settled—Liberal Terms Provided—Peace Restored

The St. Louis Web Pressmen's Union has accepted by a referendum vote the plan for reaffiliation with the International Printing Pressmen and Assistants' Union of North America submitted by the International through the St. Louis Newspaper Publishers' Association, restoring peace within the ranks of the union and avoiding a divisional war in which the publishers would have been innocent victims.

St. Louis was one of six unions which seceded from the International in 1919. The six-year fight has been bitter even the courts being resorted to by the locals. Chicago was the first of the seceding unions to reaffiliate, and Pittsburgh and Philadelphia followed.

The terms offered to the St. Louis union by the International are regarded as extremely liberal. It is understood that the same terms will be offered to the unions in Cincinnati and Milwaukee, the other two holdouts, assuring their acceptance and peace.

The settlement with the St. Louis union was brought about when Major George L. Berry, president of the International, against whom the 1919 revolt was directed, and other International officials came to St. Louis with James M. Lynch, president of the International Typographical Union, and Charles M. Smith, president of the International Mailers' Union to force the issue. The Pressmen's International at its convention last August had instructed its president to make every effort possible to bring the seceding unions back to the fold, even to the extent of such drastic measures as revocation of charters, abolition of contracts and the organization of new unions.

The St. Louis union was obstinate in its demands for changes in the International's constitution and by-laws. These could not be granted by the International. A serious situation was arising.

The officials of the various International Unions explained the situation to the St. Louis Newspaper Publishers' Association, who were asked to submit terms to the web pressmen's local. In order to avoid a divisional contest, which would have proven costly and long-drawn out, the International officials submitted terms which made it easy for the local to reaffiliate.

No stipulations whatever affecting the standing of local members, or finances, were made by the International Union.

The agreement has been accepted by the St. Louis Web Pressmen's Union, and the International Union and approved by the St. Louis Newspaper Publishers' Association.

Besides Major Berry, the representatives of the International Pressmen's Union who came to St. Louis to take part in the settlement of the difficulties were William H. McHugh and S. B. Marks, vice-presidents and John J. Kane, international representative.

M. J. Lowenstein, secretary of the St. Louis Newspaper Publishers' Association, was active in bringing about the settlement, which was gratifying to the publishers.

The St. Louis Job Pressmen's Union and the Franklin Association, composed of job press feeders had previously rejoined the International.

AIDING THE RED CROSS

John Martin, vice-president and general manager of the *New York Evening Post*, is head of a newspaper group appointed to assist the American Red Cross in its annual roll call for funds, which began Nov. 11. F. M. Lawrence, George Batten Company, is head of the advertising agency group, while Frank Braucher, Crowell Publishing Company, is chairman for the magazine publishers.

"EYES ON THE FUTURE" FYFE URGES PRESS

Newspaper's Job Is to Help People to
Get Away from Past, Former
London Herald Editor
Tells Correspondents

By HAROLD BUTCHER

"Our job is to keep on pointing people to the future," said Hamilton Fyfe, British editor, writer and playwright, 'till recently editor of the *London Daily Herald*, the labor newspaper, at a luncheon given Thursday in his honor at the Lawyers Club, New York. It is, according to Mr. Fyfe, the newspaper man's business to spy out the trend of things, to see the significance of tendencies, and to tell the public what is going on.

Introduced by Dr. A. M. Nawench, president of the Association of Foreign Press Correspondents, which was host at the luncheon, Mr. Fyfe was described as one who had traveled round the world not in search of emotion and pleasure but in the investigation of social conditions, political and economic—"an inquisitive mind, a pioneer."

"Our job as journalists is to help people to get away from the past," said Mr. Fyfe. "In Europe we have turned our faces away from the past and are trying to forget its hates and bitterness. Newspapers can do an enormous lot in keeping people reminded of the points that are in favor of improvement rather than in suggesting that no change is possible. Harm has been done by newspapers who say that change is impossible. We ought to let people know that the future lies in their own hands. I was greatly impressed by some words of the late President Wilson who said that it is the common people everywhere who can mould the future according as they wish it to be. And newspapers can help them do it—not by vague idealism but by concrete suggestions. A vague hope is poor sort of nourishment."

Putting his own doctrine into practice Mr. Fyfe looked out on the Europe of today and reported that although there was no real danger of "the Balkanization of Europe"—that is, the splitting of it up into warring states as in the Balkans—there was, on the other hand, no immediate prospect of the formation of a United States of Europe. The danger of monarchy still existed.

"There are still a number of kinglets and queenlets," he said. "America has just had experience of one such queenlet, going round the country like a circus, and not a good circus at that! Monarchy is not a danger in England, which is for all practical purposes a republic, the king being a sort of perpetual president without the fuss of electing a new one and disturbing business. The great trouble in the eastern part of Europe is the revival of nationalism. Mussolini has aroused an enormous amount of nationalism. There has been something like it in Spain, and a good bit in Greece. The fact that it has not come to more than talk in France is hopeful. France has learned that a dictatorship leads to more trouble than there was before."

"In regard to Great Britain it seems to me unarguable that her place is with a European federation as against the suggestion that the British commonwealth of nations should be one unit until such time as a bigger unit, a world state, emerges. The various British nations within the commonwealth are determined to be masters in their own house, the directors of their own destiny. What they will choose we cannot tell. When Canada has become a powerful nation it seems to me almost unthinkable that she will not form part of the group with the United States instead of with the British people three thousand miles away. Our place is in Europe. We cannot get away from that. That is our destiny."

On the coal dispute Mr. Fyfe said: "The real root of the coal difficulty in England, the coal lockout—it was not a

strike—which has lasted from the end of April 'till now, is the social system in England, which is still medieval. People have not got away from the idea that there are certain classes in the community which must be content with a living wage, just enough to get along. American employers say that it pays to pay high wages. No doubt there are others who would pay fifty cents a day if they could get away with it. If there should be a slump in trade the testing time would come, and we would find which type of employer predominates."

Immediately after his speech Mr. Fyfe left to catch his boat which sailed the same afternoon for London.

SOCIETY OF GENESEE TO HONOR DEWART

President of New York Sun Will Be
Feted at Dinner to Be Held Jan. 24
—Many Newspaper Men Will At-
tend—A. P. Directors Coming

Plans are being made for a notable gathering of newspaper men to honor William T. Dewart, new president of the *New York Sun*, at a dinner to be given him by the Society of the Genesee at the Commodore Hotel, New York, Jan. 24.

Directors of the Associated Press, meeting at New York headquarters on that date, will attend in a body. Newspaper men will be present from many cities of New York state and beyond.

F. E. Tripp, *Elmira* (N. Y.) *Star Gazette*, will head a body of editors and publishers of southern New York who will come to New York for the occasion, while George B. Williams, *Geneva Daily Times*, is arranging to have western New York well represented. Edwin S. Friendly, business manager of the *New York Sun*, is a member of the committee.

The Society of the Genesee, the membership of which is made up of men born in the Genesee valley, was founded in 1898 by Louis Wiley, business manager of the *New York Times*.

CONFER ON RADIO

W. A. Strong Represents Publishers at
Washington Meeting

WASHINGTON, D. C., Nov. 18.—A conference promising to have a far reaching influence upon the muddled national radio legislative situation was held here today in which W. A. Strong, publisher of the *Chicago Daily News*, and chairman of the radio committee of the American Newspaper Publishers Association, and the National Coordinating Committee of the radio industry, took a leading part.

The conference was for the purpose of seeking such coordination of the radio field, by legislation or otherwise, as will provide relief from the growing congestion of the air, various controversial phases of the pending Dill and White bills, which are still dead, locked in a Congressional conference with little prospect of early action on either, were gone into. In order to keep in touch with whatever progress is made in congress toward a legislative solution of the radio tangle it was agreed to establish headquarters at the Washington Hotel where the conference was held. L. S. Baker, of New York City, who is identified with the National Broadcasters Association, was placed in charge of the headquarters.

Besides Mr. Strong, those participating in the conference were W. S. Hedges, radio editor, *Chicago Daily News*; Paul B. Klugh, New York City, executive manager, National Broadcasters Association; Harold E. Wrape, St. Louis, Federated Radio Trade Association; Arthur T. Haugh, Buffalo, president of the Radio Manufacturers Association; Charles E. Stewart, Washington, American Radio Relay League, and A. M. Demott, New York City, Radio Magazine Publishers Association.

DAILY IMPROVING PLANT

Indianapolis News Spending \$50,000 to
Expand Departments

A program of improvements that will cost well above \$50,000 is now being carried out by the *Indianapolis Star*. The improvements are being made in several different departments.

In the mailing room, 700 square feet of floor space will be added by the construction of a mezzanine floor over the present room. A total of 600 square feet is being added to the composing room by using an areaway between the *Star* building and the adjacent Meridian Life Insurance Company building.

One of the major improvements is taking place jointly in the advertising and circulation departments. The *Star* has rented one-half of the third floor of the life insurance building for the circulation department, giving much more floor space and moving the department from the second floor of the *Star* building. A large stairway, entering from Pennsylvania street, will be constructed between the two buildings, giving entrance into both buildings. The advertising department, both classified and display, has been moved into the old circulation rooms, giving much more floor space. The old display advertising department on the second floor is being converted into the new morgue, which when completed will be the most complete library and reference room in the state of Indiana.

The *Star* has established a new truck run, serving several cities, which leaves at 2:30 a. m. and arrives at French Lick at 1:30 a. m. and arrives at French Lick, Bloomington, Bedford, Mitchell, Paoli and West Baden are included in the run.

INK POT WAR FOUGHT IN PARIS PLANT

Lead Paper Weights and Chairs Also
Used by Staff of Action Francaise
Repulsing 50 French Fascists
—3 Wounded

Hurling inkstands, chairs and lead paper weights, members of the staff of the *Action Francaise*, Royalist newspaper in Paris, repulsed 50 armed Fascist invaders Nov. 14, who sought to reach the offices of the Chief Editor Maurras. Three of the attackers were wounded when the Camelots du Roi drew revolvers and fired in time to prevent the assailants from reaching the editor.

The Fascists began the attack at 5:30 o'clock. Apparently, according to carefully laid plans, one group took possession of the porter's lodge with threatening revolvers, while the remainder rushed up the staircase brandishing weapons. Before they could reach their objective, the office of Chief Editor Maurras, the paper's reporters and sub-editors formed a defense line.

The Fascists continued their advance and had almost gained the main offices when the Camelots du Roi fired. The battle was furious for a few moments while the invaders were driven step by step down the stairway.

Three remained, shot through the lungs, in a heap at the foot of the stairs. Fascists less seriously wounded were taken away by their comrades.

Leon Daudet, leader of the Royalist Party, who left the building shortly after the battle, was pounced upon by police and arrested. A revolver in his pocket was taken from him, but the Magistrate to whom he appealed ordered his release and restitution of the pistol.

The Fascists charge the Royalists with executing for pay the orders of Luigi Federzoni, Italian Minister of Colonies, until recently Minister of the Interior; the Royalists accuse the Fascists, notably their leader Valois, who writes in their organ, the *Nouveau Siecle*, of being paid agents of Premier Mussolini.

As M. Maurras was leaving the plant he was arrested on the charge of carrying a revolver, but was later released.

LEAVITT RESIGNS AS A.N.A. SECRETARY

Arthur H. Ogle, Advertising Manager
Wahl Company, Will Succeed Him
Dec. 15—Retiring Executive to
Join Sumner Agency

Robert K. Leavitt, for the past two years secretary-treasurer of the Association of National Advertisers, announced his resignation this week effective Dec. 15. On that date he will become associated with G. Lynn Sumner, president of the G. Lynn Sumner Advertising Agency, New York. Arthur H. Ogle, at present advertising manager of the Wahl Company, Chicago, will take over the association position.

ARTHUR H. OGLE

Mr. Sumner is a former president of A. N. A. and was largely responsible for Mr. Leavitt's appointment in 1924. Mr. Leavitt will have an interest in the agency and the title of secretary-treasurer.

Mr. Ogle was a director of A. N. A. and at the recent Atlantic City session was elected a vice-president. He is graduate of the University of Illinois and has had newspaper and advertising agency experience. He is also familiar with association work, having been connected with the Portland Cement Association for several years. For three years he was with Erwin, Wasey & Co.

"Your board feels that Mr. Ogle is in every way a worthy successor to Mr. Leavitt, and that he will take up the association's work where Mr. Leavitt lay it down; that his energy and vision will carry the A. N. A. to still larger accomplishments in the months that lie ahead. S. E. Conybeare, the new A. N. A. president stated.

30 EDITORS ASK JUDGE THAYER'S REMOVAL

New York Foreign Language Group
Says Prejudice Caused His
Denial of New Sacco-
Vanzetti Trial

A demand for the removal from the Massachusetts Superior Court judgeship of Judge Webster Thayer of Worcester, Mass., for his recent denial of final motion for a new trial of the Sacco-Vanzetti payroll murder case has been voiced by editors of 30 foreign language and Hebrew newspapers of New York.

The demand was in the form of a letter sent to Gov. Alvan T. Fuller of Massachusetts as he was sailing Nov. 18 from Boston on the French liner *France* with Mrs. Fuller.

The letter of the editors declared that they felt that Governor Fuller "cannot" in sympathy with the marked abuse of judicial discretion shown by Judge Thayer in his decision, and express the opinion that the judge's action against the two radicals, Nicola Sacco and Bartolomeo Vanzetti, accused murder during a holdup, was based on "sober judicial opinion," but "prejudice and nervous self-justification."

The outspoken opinion of the New York editors follows close upon the heels of an editorial in the conservative *Boston Herald*, which took decided exception to the judge's refusal of the motion for a new trial.

WOMEN BAN CRIME NEWS

The Hall-Mills murder trial was boiled down to a few lines in the *Meridian* (Miss.) *Daily Star* Thursday, while club women of the city supervised the day's editions.

Women In Detroit Read The News

*150,000 Voluntary Letters Received In 10 Months
Testify To Its Special Interests For The Home Maker*

THE buying factor, the last point of sales resistance, is the home purchasing agent—the American woman. She controls the greatest budget yet known. She is the one to decide what automobile, what cereal, what rug or what soap enters her domain. That is why manufacturers more and more select the medium preferred by the housewife for their sales campaigns.

In Detroit, The News has been the home newspaper for more than half a century. Its special articles on household economy, interior dec-

oration, health, recipes, beauty and domestic affairs have won for it the greatest audience in Michigan—a fact easily supported by the great volume of voluntary mail received by the women's editors, over 150,000 letters requesting information and aid so far this year!

Use the home newspaper of Detroit and cover the whole field thoroughly with one newspaper. The News' great circulation is concentrated in the local trading area and reaches practically every English-speaking home.

JUDGE BARS REPORTERS, NEWSPAPERS PROTEST

Calgary Herald Leads Attack by Interviewing Leading Attorneys—Publicity Necessary to Justice, Is View

Police Magistrate G. E. Sanders of Calgary, Alta., Canada, started something recently when he barred reporters from a preliminary hearing on which he sat. The Calgary newspapers at once registered protest and the incident has been taken up by the Canadian press from Halifax to Victoria.

The *Calgary Herald* followed up the matter with vigor gathering views which may be summarized in the well established view that "where there is no publicity there is no justice." Here are some of the opinions:

"Publicity in the administration of justice has been regarded as ranking even higher than the rights of parliament as a guarantee of public security."—A. Macleod Sinclair, K.C., Calgary.

"The greatest check on arbitrary proceedings in court is to have the public represented through the newspapers."—I. Seymour Corley, K.C., Toronto.

"There has never been such a case in this city."—Editor, *Hamilton Spectator*. "Without parallel in Canadian court history."—*Montreal Star*.

"Without precedent on the west coast."—*Vancouver Province*.

"I never heard of such a thing in my life."—R. B. Graham, K.C., crown prosecutor, Winnipeg.

"The magistrate has no right to do it."—R. A. Bonnar, K.C., Winnipeg.

"This discretion is only exercised on grounds of public policy, that is, only in those cases where the evidence is not fit to be heard in public."—Hon. R. W. Craig, attorney-general of Manitoba.

The Herald contended that the action of the magistrate in barring the newspapermen was wrong and proceeded to obtain eminent authority to back up its position. It presented these authoritative views in a front page display.

In his statement defining his position, Magistrate Sanders closed by saying:

"Too many people have the idea that a preliminary is a trial. That is not the case. The preliminary hearing is simply for the purpose of determining whether or not there is sufficient evidence against a defendant to warrant his standing trial on the charge laid against him.

"If a lawyer asks for closed court, explaining that certain evidence to be adduced at that time might seriously prejudice public opinion and create bias in the minds of jurymen to be chosen from the public, I do not see that I would have a right to question the veracity of his statement. Of course I might consider his opinion unfounded after hearing the case, but one has to exercise discretion."

CORRECTION

In an item concerning Miss Margaret Foldes in "Women in Advertising and Journalism" EDITOR & PUBLISHER, Nov. 13, it was stated she once worked for the *Norwalk* (Conn.) *Evening Sentinel*, George W. Markey, publisher. Mr. Markey is not the publisher of the *Sentinel*. Leigh Danenberg is president and publisher of that paper. The *Sentinel* was taken over by its present owners three years ago.

LAUNCHES STATISTICAL SERVICE

The Advertising Statistics Company, with offices at 405 Lexington avenue, New York, has been formed by William J. Punch to provide publishers and advertising agencies with monthly service on national newspaper advertising statistics. Mr. Punch was formerly manager of the Statistical Department of the New York *Evening Post* which compiles monthly lineage tables for New York newspapers and for dailies in the thirty principal cities.

THEY TALK SHOP WHEN THIS NEWSPAPER FAMILY MEETS

H. M. Butler, veteran publisher of the *Hartshorne* (Okla.) *Sun*, has to put extra leaves in the table when he invites his family in to dinner. And shop talk is not taboo at the dinner table, because of the predominance of editors, editors' wives and newspaper workers in general in the group. In the center, front row, are Mr. and Mrs. Butler. The last four men to the right in the back row are Mr. Butler's editor sons, James G. Butler, publisher of the *Milburn* (Okla.) *News*; Henry M. Butler, now running the *Mayes County* (Okla.) *Democrat*; Joe Butler, one of the founders of the *Mayes County Democrat*; and Orlando Butler, who learned to set type on the *Prairie Grove* (Ark.) *Banner* when he was 7 years old. He now publishes the *Grove Sun* and the *Jay Chieftan*. Three of Mr. Butler's daughters have worked in newspaper offices. The grandchildren and other members of the family get around the various newspaper offices often enough to get ink on their fingers.

INDIANA A. P. MEETS

B. F. Lawrence of Star League Named President at Indianapolis

Expansion of news telegraph service was considered at length, but without final decision, at the semi-annual meeting of the Indiana Associated Press Editorial Association.

Plans for augmenting present wire facilities of state A. P. papers by adding an automatic printer service in the daytime were laid before the editors by Edgar T. Cutter of Chicago, superin-

tendent of the central division of the A. P., who detailed the operation of similarly expanded wire circuits in Michigan and Texas. Lawrence, general manager, The Star of Indiana, president; Henry Marshall Jr., *Lafayette Journal-Courier* vice-president, and S. P. Ochiltree, correspondent at Indianapolis, secretary.

LINOTYPE

9,000,000

consumers within the 50-mile radius covered by

The NEW YORK EVENING JOURNAL

¶ The *New York Evening Journal* gives unequalled opportunity for sales concentration

SELLING is like warfare—you have to hit hard and often, with a concentration of strength behind each blow. Napoleon, the greatest soldier of all time, won countless battles that way. He always struck in one strategic spot, with every man and gun available.

The key-position

In national merchandising, there is one spot which is more important than any other. The New York market is the key-position to national selling. Here, within a fifty-mile area, there are 9,000,000 consumers—more than there are in all New England. Here there is more money than in seven large mid-western states combined. Here is pre-eminently the richest prize, the most desirable goal, in America.

In the New York market, the *Evening Journal* occupies a situation that is absolutely unique. Its circulation of 700,000—the largest evening paper circulation in the world—is more than twice that of the next largest evening paper in New York. It is greater than the next two combined—plus 100,000! Every evening

it is taken into 700,000 homes, in which live approximately 3,000,000 consumers—one-third of the entire population of this area!

Power with economy

There is no other evening paper in the New York market which enables you to reach, at one stroke, so large a percentage of the total possible consumers in this great field. The *New York Evening Journal* gives concentration; it saves your money by utilizing every cent of it in carrying your message to a productive prospect.

A compact market

The *New York Evening Journal* dominates the most highly organized of all trading areas. Nowhere else will you find such concentration of outlets, such closely knit centers of merchandising, such scientifically arranged trade routes and channels. Salesmen working this territory see the maximum number of prospects with the minimum traveling expense. Transportation is cheap and fast. Distribution is thorough and effective.

The 9,000,000 people living in the

New York district are consumers of quality goods. They have a high standard of living. They make good money and they are willing to spend it to get a good article. Every year hundreds of millions of dollars' worth of merchandise is consumed by these metropolitan dwellers—the most consistent and profitable customers in the world.

Yet important as this key-position is, it is the easiest of all to enter—if you know the way in. For those who believe in their product and in themselves, the New York area presents almost inexhaustible sales opportunities. Here is the world's richest market. Dominate it with the *New York Evening Journal*!

JOHN WANAMAKER

New York

Invested over a million dollars in the *New York Evening Journal* during the past six years

AN IDEA of the appreciation of John Wanamaker New York for the purchasing power and responsiveness of more than two million *New York Evening Journal* readers may be had from the fact that during the past six years this store has invested over ONE MILLION DOLLARS in this one newspaper.

Wanamaker Store News has become as much a part of the *New York Evening Journal* as the news and features. Out of 309 publication days last year the merchandise news of this house appeared in 245 issues.

The *New York Evening Journal* carries the day-to-day store news of the Wanamaker store into over 700,000 homes in New York and suburbs. This newspaper has more than double the circulation of any other New York evening paper—it goes home, stays home and is read by every member of the family.

It is a policy of Wanamaker's to reach out for the greatest possible number of customers throughout the metropolitan retail trading area. They invest more money in the *New York Evening Journal* than in any other New York morning or evening newspaper. This fact, alone, is the most convincing endorsement of the intensive coverage, reader-interest and productiveness of the largest evening circulation in Greater New York and suburbs.

WINES FINDS PUBLISHERS INTERESTED IN MECHANICAL STANDARDIZATION

Director of New A. N. P. A. Service Department Opens Office in New York—First Query Awaiting Him—Committee to Formulate Plans Next Week

W. E. Wines, Mechanical Director, A. N. P. A.

"STANDARDIZATION of equipment, standardization of accounts, arrangement of plants, newsprint waste, and the liveliest subject of all, dry mats."

W. E. Wines, director of the new mechanical department of the American Newspaper Publishers' Association, who opened the department's New York office this week at 270 Madison avenue, listed the above subjects as uppermost in the minds of publishers and mechanical superintendents he interviewed prior to his introduction to A. N. P. A. members at the French Lick convention last week.

Next week A. N. P. A.'s mechanical committee, headed by George M. Rogers, *Cleveland Plain Dealer*, will meet in New York. Until then, Mr. Wines, interviewed by *EDITOR & PUBLISHER* this week, was reticent about predicting what he intends to accomplish as the mechanical engineer working in the interest of about 500 dailies comprising the membership of the big national organization.

Before attending the French Lick meeting, Mr. Wines visited twelve newspaper plants and discussed mechanical problems with double that number of newspaper publishers and engineers. It was from this preliminary tour he obtained an index to the mechanical situation and interests in newspaper land.

"Two things particularly struck me as a result of my trip," Mr. Wines said. "One was that everyone I talked to appeared to be vitally interested in A. N. P. A.'s mechanical department. They told me they thought it was a good move that should be encouraged.

"Another thing I learned was that there is a great variety of points of view which must be catered to by the new department."

The papers Mr. Wines visited were the *Minneapolis Tribune*, *Minneapolis Journal*, *St. Paul Dispatch*, *Milwaukee Journal*, *Chicago Tribune*, *Chicago Daily News*, *Chicago Herald and Examiner*, *Aurora Beacon-News*, *Battle Creek (Mich.) Enquirer and Evening News*, *Detroit News*, *Indianapolis News*, and *Indianapolis Star*.

Arriving in New York this week, Mr. Wines found the first mechanical inquiry from an A. N. P. A. member awaiting

him. It was from the *Port Huron (Mich.) Times-Herald* and requested information regarding the general experience in the use of metal base. Mr. Wines, while disclosing the query, declined to make public his reply, stating that the department was to be maintained for the A.N.P.A. membership exclusively.

Mr. Wines received his A.N.P.A. appointment following several years spent teaching mechanical engineering at the University of Wisconsin. While his classes were largely on steam engines, he kept up his interest in newspaper engineering, being called upon at intervals for advice and consultation by the *Minneapolis Tribune* and the *Waterloo (Ia.) Courier*. He is also author of "The Newspaper Plant," a treatise on newspaper mechanics published by the university.

A graduate of Armour Institute, Chicago, Mr. Wines' first newspaper connection was with the *Minneapolis Tribune*, where he spent eight years as mechanical superintendent, beginning in 1900. W. J. Murphy, owner of the *Tribune*, had as his ideal the best newspaper plant in the Northwest, and Mr. Wines

was instructed to make the dream come true. The *Tribune* became one of the first newspapers to install newspaper reels as inaugurated on the *Chicago Daily News*, by Irving Stone. This was in 1902, several years before the innovation found its way to other pioneers such as the *Brooklyn Eagle* and the *New York Times*. Now it is standard press room equipment.

The *Tribune* was also the first plant in the Northwest to install the double motor push button press drive, which was placed in the plant by Mr. Wines in 1901. By 1905 the *Tribune* was using the standard autoplating machine.

Leaving the *Minneapolis newspaper*, Mr. Wines' next connection was with the University of Minnesota as superintendent of buildings. From this position he became mechanical engineer of the *Chicago Tribune*. In 1913 he first went to New York where he spent a year as mechanical superintendent of the *Times*. The following four years he ran a poultry farm in Minnesota, giving up this to become factory superintendent of the Globe Electric Company in Milwaukee. It was from this later connection that he joined the teaching staff at the University of Wisconsin.

In New York, Mr. Wines shares the office of W. J. Mathey, manager of the new traffic bureau.

NEWS MEN NAMED CENSORS

A committee of newspaper writers whose names are being kept secret, was appointed by Judge Howard Hayes of the South Clark street court, Chicago, to determine whether 13 volumes seized in two Loop book stores recently should be confiscated, or whether they have literary or scientific merit and should be permitted a restricted sale. Included in the volumes seized are the works of Rabelais, Boccaccio's "Decameron," and Balzac's "Droll Stories."

ADDS SUNDAY EDITION

Beginning Nov. 14, the *Ketchikan (Alaska) Chronicle*, edited by Edward G. Morrissey, began publishing a Sunday edition of 20 pages, with a four-page comic section.

MAGICIAN WINS £500 IN 11 LIBEL SUITS

English and Irish Newspapers Pay Damages for Reporter's Story of Trickery in Illusion Show

A libel action involving eleven English and Irish newspapers was heard at the King's Bench Division of the High Court of Justice at the end of October. The plaintiff, Frederick Fant Abbott, known as "Charcot," an illusionist, claimed damages for alleged libels contained in reports of a performance he gave in Waterford, in which a woman was placed in a box, fastened with cords at wrists, ankles and neck, and the box was then sawed in half, members of the audience meanwhile holding the ends of cords which passed through holes in the box.

The report stated that one member of the audience insisted on tying a slip-knot round the woman's neck, and the assistants, fearing that she would be strangled hurriedly separated the box when it was sawed and revealed her curled up at one end. The audience, it was stated, made an uproar and the illusionist was obliged to leave hurriedly.

£500 damages were awarded plaintiff against the eleven newspapers collectively. The newspapers, it was pointed out by counsel for plaintiff, erred in good faith as the report was sent to them by their regular local correspondent.

DALEY RE-ELECTED PRESIDENT

George Daley, *New York Morning World*, was re-elected president of the New York Chapter of the Baseball Writers' Association at a meeting held Nov. 16. William J. Slocum, *New York American*, was named secretary-treasurer. The date of the fourth annual dinner of the chapter was set for Feb. 6. Commissioner Kenesaw M. Landis will be one of the guests of honor. As usual the dinner will be staged at the Commodore Hotel, New York.

The DAILY OKLAHOMAN OKLAHOMA CITY TIMES

thoroughly and alone cover the Oklahoma City Market

Every foot of the great Oklahoma City market is in the zone marked "Excellent," on current Forbes and Nation's Business maps.

Oklahoma's 1926 value of production of growing crops will exceed the 1925 value by \$27,000,000, guaranteeing a continuation of the activity which has made the Oklahoma City market one of outstanding stability during the past year.

Oklahoman and Times advertising insures your participation in the wealth of this market.

JOURNALISM SOCIETY HONORS KENT COOPER

Sigma Delta Chi, Names Him Honorary President at Madison Meeting—Roy L. French New President—Raising Standards Discussed

(By Telegraph to Editor & Publisher)

MADISON, Wis., Nov. 17.—"The trend of modern journalism to round out a full picture of life will make for greater understanding among nations," declared Kent Cooper, general manager of the Associated Press, at the twelfth convention of Sigma Delta Chi, professional honorary journalistic fraternity here this week. The sessions, attended by nearly 100 campus journalists, active newspaper men and several publishers, ended Wednesday.

KENT COOPER

"Let the reporters get out into the byways and hear what the common people are saying, for that's what the Government will be thinking tomorrow. The newsgatherer must aim for brotherhood of man," Mr. Cooper said.

He declared small town newspaper experience provides splendid background for the writer.

In the closing session Mr. Cooper was named honorary president of the fraternity.

Prof. Lawrence W. Murphy University of Illinois, urged better schools of journalism, and the elevation of the newspaper profession to the plane of such professions as law and medicine. Requirement of a period of "internship" before the graduate is permitted to practice the profession recommended by Murphy was endorsed in resolutions.

A resolution endorsed the Canons of Journalism of the American Society of Newspaper Editors and the stand on training for journalism which recommended either a complete course as a prerequisite for a degree at a university or attendance at a summer school maintained by a recognized institution and supplemented by regular courses.

Four ways of heightening the standards of journalism, outlined by Dr. William G. Bleyer, University of Wisconsin, were endorsed.

The plan provided: Organization of newspaper workers into local, state, and national professional associations; testing of professional qualifications of young men and women desiring to enter the profession; setting up machinery for maintaining professional ethical standards; maintaining a salary scale adequate to retain in journalism those showing marked ability instead of letting them be lured into allied fields by higher salaries.

250,648

October, 1926

The average net paid circulation of THE SUNDAY SUN per Sunday for the month of October, 1926, was 192,269.

Everything in Baltimore Revolves Around

THE  SUN

Morning Evening Sunday

The University of Kentucky was granted a charter, making the thirty-ninth since the fraternity's founding in 1909 at Depauw University, Greencastle, Ind.

The Portland (Ore.) *Morning Oregonian*, was chosen the model paper for use in initiation next year. Montana chapter was awarded the efficiency cup. Charles E. Snyder, editor, *Chicago Daily Drovers Journal*, was initiated.

The University of Kansas, Lawrence, Kan., will be host at the next convention. Willis J. Abbot, editor of the *Christian Science Monitor*, and champion of conservative and idealistic journalism, was made national honorary member. One honorary member is named from the active newspaper field each year.

Roy L. French, retiring secretary, who was elevated to the presidency, was awarded the Wells Memorial Key for outstanding service to the fraternity the past year.

Other officers are: James A. Stuart, managing editor *Indianapolis Star*, and Prof. Lawrence A. Murphy, University of Illinois, both re-elected vice-presidents; Robert Tarr, Pontiac, Mich., secretary; and Prof. Bristow Adams, Cornell University; Maurice Ryan, editor of the *Devil's Lake* (N. D.) *Weekly World*; Walter Humphry, *Fort Worth Press*, and Edwin V. O'Neill, *Indianapolis Times*, executive council members.

SPHINX SPEAKERS NAMED

Sir William Letts Will Come from England for 30th Dinner

Sir William Letts, European representative of John M. Willys of the Willys-Overland Company, will come to New York from England to address the 30th anniversary dinner of the Sphinx Club to be held in New York Nov. 23. Other speakers will be Cyrus H. K. Curtis, of the Curtis Publishing Company, and the *New York Evening Post*, and Robert Benchley of *Life*.

Many past presidents of the advertisers' society will attend the dinner, including Herbert B. Hardin, Frank Presbrey, Samuel Brill, George Ethridge, R. F. R. Huntsman, Corbett McCarthy, W. T. Mulally and Joseph P. Day.

Present officers are: James P. Gillroy, president; Charles Dana Gibson, George Ethridge, W. H. Rankin, John Irving Romer, James W. Brown, vice-presidents; executive committee, R. F. H. Huntsman, chairman; Stanley R. Letshaw, George Howland, Gilbert T. Hodges, Frank W. Harwood, Herbert Everett, James O'Flaherty; secretary, Roger J. O'Donnell; treasurer, F. St. John Richards.

ONE STAFF PUBLISHES TWO TULSA DAILIES

Morning World Men Shifted to Cover News for New Evening Paper—Ad Staff Unchanged—Few Union Men Added

An afternoon and morning newspaper can be published and made to function properly through the medium of the same facilities, slightly improved, that one paper originally used.

This has been proved conclusively by the Tulsa World Publishing Company, publishers of the *Tulsa* (Okla.) *Morning and Evening World*.

On Sept. 14, the *Evening World* was inaugurated. Executives of the paper decided to use the same editorial room, same editorial staff, same composing room force and same advertising force employed on the *Tulsa Daily World* morning paper.

The same copy desk is used by both papers, copy readers have hours shifted so as not to conflict. Only one more man, a night city editor has been added to the staff. Previous to inauguration of the afternoon paper, a day telegraph editor had been employed to handle day wire service. This man was shifted to the day side and a night desk man was shifted to day hours, cutting down one man on the night force. This was made possible by "pick-up" copy from either paper being used by the other in early street and mail editions.

The reportorial staff was made to understand it was working on a 24-hour a day paper, not an afternoon or morning paper. Hours were shifted so that court house, city hall, federal building and regular "run" men worked in the daytime, writing their stories for the afternoon paper and then following them up in early afternoon for the morning paper. General assignment and rewrite men checked the stories up at night for later developments and only two new men were thus needed for the staff.

The same managing editor directs both papers. The day city editor was made assistant managing editor, taking charge of one paper. The telegraph editors are known as day and night men, one coming on when the other goes off with a lapse of a few hours in early morning.

The circulation department has been increased only to meet natural development. Night and day carriers are the same.

The advertising staff is supplying ads for both papers, the combination ad system being used, without the addition of a single man.

The composing room force was divided

into day and night shifts with only a few more men being added to the payroll. Stereotype and press room forces were necessarily increased to comply with overtime conditions.

Previous to inauguration of the new paper, wire and feature services sufficient for both papers had been maintained by the one publication. These were merely divided between the two papers.

Due to duplicate circulation each home edition must be entirely different from the other, and so no "pick-ups" from one home edition to the other are allowed, all such copy being weeded out during the earlier editions.

Eugene Lorton, publisher and owner of the *World*, finds the system so satisfactory that no move will be made in the near future to inaugurate separate staffs for the two papers, as is usually considered necessary when afternoon and morning papers are published under the same management.

FARM PAPERS MERGED

Weekly K. C. Star Absorbs Weekly Globe-Democrat West of Mississippi

Effective with its issue of Nov. 24, the *Weekly Kansas City Star* will take over the circulation of the *Weekly St. Louis Globe-Democrat* west of the Mississippi River. This will add approximately 115,000 subscribers to the circulation of the *Weekly Star*. The discontinuance of the *Weekly Globe-Democrat* was made necessary by the growth of the *Daily and Sunday Globe-Democrat*, it was stated.

Despite the increased circulation, there will be no increase in advertising rates by the *Weekly Star*, the *Star* announced.

Breaking World's Records

simply means bettering our own

Des Moines Daily Register and Tribune

Charts are based on net paid circulation for 6 months ending Sept. 30 of each year.

The Des Moines Register and Tribune's daily circulation for the six months ending September 30, 1926, broke the world's record for newspapers in its class, with a new total of 180,260.

The Des Moines Sunday Register broke the world's circulation record for newspapers in its class, with a new peak of 150,233.

For years The Daily Register and Tribune and The Sunday Register have had the largest circulations, daily and Sunday, of any newspapers in the world published in cities the size of Des Moines.

Making new world's records thus means for The Register and Tribune and The Sunday Register simply bettering their own previous high peaks.

The charts above show The Register and Tribune's circulation growth, daily and Sunday, for the past fourteen years.

The Des Moines Sunday Register

There is no mysterious secret behind The Des Moines Register and Tribune's steady circulation growth! Here's How It Was Done:

This big increase in circulation was accomplished in the same way that any other business can increase its volume: by hard, intensive selling backed by adequate, intelligent newspaper advertising.

The people of Iowa have an enormous purchasing power, as those who are really going after business know. But these days you have to go after business to get it!

Whether you're selling washing machines or silk stockings, face powder or automobiles, newspapers or electric refrigerators, fur coats or neckties, if you go after business hard enough, with a sound sales organization and adequate, intelligent newspaper advertising, you can get the volume in Iowa.

COST OF SYNDICATED RADIO PROGRAMS WOULD "FREEZE OUT" SMALL STATIONS

U. P. Radio Editor Believes Programs by Advertisers a Boon to Listeners—Says Editors to Blame for Free Publicity in Newspapers

By WILLIAM J. FAGAN,
Radio Editor, United Press

E. M. BOYD, radio editor of the *Cincinnati Enquirer*, in EDITOR & PUBLISHER for Nov. 13, has come forward with an apparently plausible solution for the future of radio broadcasting—broadcast syndicates from which the individual radio stations may buy programs just as newspaper editors buy a serial story, a comic strip and health articles from a newspaper syndicate.

Mr. Boyd says, "... it is obvious, for many reasons, that the supply station must eventually be independent of the advertiser."

Advertising is not only responsible for the success of all periodical publications, including newspapers and magazines, but of radio broadcasting in its present form. Independence from advertisers today would mean that the radio audience would not be permitted one-tenth the excellent program material which is theirs each week. Where, may we ask Mr. Boyd, is the small station going to get the money to pay the syndicator of symphony concerts, light operas and recitals by world renowned artists?

Take the case of a high class operatic performance, for example. There would be four leading principals, for instance, each getting not less than \$100 for their services, a chorus, especially adaptable for good broadcasting, of 20, each being paid a low average of \$15 each, an orchestra of 20 musicians, each receiving approximately \$15, the services of the conductor to prepare, rehearse and direct the performance, \$50. There is a total of over \$1,000, for the cast and necessary accompaniment. This opera would be confined to 60 minutes.

If ten stations subscribed to it, it would mean approximately \$100 each for the one hour of opera, plus the telephone tolls required to relay the program from the nearest point. Radio broadcasting stations are expensive to maintain. American genius has invented advertising programs as a solution. Taxation has miserably failed in Great Britain where programs are consistently of a very low grade and in no sense comparable to the average run of the week in the United States. A prominent British radio man to whom I talked a month ago said that British fans were only satisfied with British programs because they had no alternative. He said that he was going back to England sold on the "publicity" idea in radio broadcasting, and intended to see what could be done toward elevating the air entertainment of that country nearer to our level.

It may be contended that manufacturers of radio sets should be forced to provide entertainment for buyers of their sets. Edgar H. Felix answered this very aptly a few weeks ago in EDITOR & PUBLISHER when he asked whether there was any legislation to compel a phonograph manufacturer to keep a continuous supply of records before the public. In fact, it is well known that a very prosperous phonograph manufacturer produces only machines, relying upon other manufacturers to record the music which will be played on the instruments he sells to the public.

Even if radio manufacturers were compelled to furnish entertainment, which, of course, many of them are doing either through their own stations or through leasing time on hook-ups, could they be compelled to furnish anything other than what they chose to put on the air?

Americans have apparently solved the problem of keeping the receiving sets humming with any and all sorts of programs. It is my firm opinion that restrained publicity, the mere mention of the company sponsoring a broadcast, is here to stay and that we should not close

our eyes to the fact that radio advertising programs are making possible entertainment which could not be arranged for without a fat fee to the artists.

That press agents graft large volumes of space on radio pages and throughout the news section is not the fault of the press agent but of the editor. False, misleading statements are cheerfully accepted and published by editors who know nothing of radio technique. A radio manufacturer prepares elaborate statements in which his product is frequently mentioned and in which veiled references are made to the ineffectiveness of certain other manufacturers' products. The radio editors of our largest newspapers are not newspapermen, however much they may know about all the queer duffickers which combine to bring music out of chaos.

The editorial department lets the radio editor have full swing in too many instances, keeping hands off technical material about which it knows nothing, but which the radio editor is presumed to comprehend with unusual expertness.

The radio sections in New York City are the most shining examples of unilluminating newspaper features to be found in any other sphere of human interest. The Saturday and Sunday tabloid sections are crammed to overflowing with technical matter which interests less than 10 per cent of a newspaper's readers. Elaborate diagrams, instructions on how to make battery eliminators and every conceivable kind of apparatus fill the section's pages. All seem to compete with one another in ascertaining just how much technical material can be crowded into the 12 to 16 pages.

News of broadcasting activities, the personalities and the programs which interest the large majority of the readers who would possibly be interested in a radio section are relegated to an obscure

position. Even articles on exceptional achievements in low wave broadcasting or reception from the far corners of the earth are stuck in presumably as a compromise between the editorial judgment of a minor staffer and the technical persiveness of the radio editor.

How can newspapers expect to attract national advertising from radio manufacturers—and by radio manufacturers is meant the builders of complete sets—when the newspapers of this country are so blind as to devote the largest quantity of the space they devote to radio news to technical instruction on how to build your own so you can save half and beat the manufacturer?

Do newspapers give instruction on how to build your own aeroplane or your own phonograph? Competent radio authorities are agreed that the days of amateur set building are at their close. A survey of the figures compiled by the Radio Manufacturers Trade Association show a tremendous annual drop in the sale of parts as compared to the sales of complete sets. Yet the newspapers of the United States continue to cram their radio sections and pages full of technical writings.

Those who want technical instruction and diagrams of circuits should be compelled to look elsewhere for their information. The newspaper should not become the vehicle of such reader non-interest.

The newspaper has solved the problem of obtaining the services of great writers and the world wide reports of great press associations, as Mr. Boyd says. But newspapers couldn't commence to pay for these features were it not for the revenue which advertising brings them. Again, I ask, where is the subscribing broadcaster to get the money for his features?

Municipal station WNYC of New York is an excellent example. This station receives an appropriation from the city. The appropriation is limited to cover the salaries of technical men, announcers, staff accompanist, station director and clerical force, none of whom are overpaid in the slightest. What is

left over from the appropriation after salaries and operation costs are taken into consideration may be used for the erection of remote control lines or the expenses attendant upon an exceptional piece of broadcasting such as a series of band concerts in the park.

The pitiful efforts of this station, underfed by the city and thus unable to secure features which can stand side by side with the programs offered by the high grade commercial broadcasters, has earned the sympathy of radio listeners for the well intentioned men and women in charge of its programs. WNYC could not possibly secure the services of high grade talent without becoming the object of private beneficence or turning commercial, which latter, of course, it is unable to do.

Air advertising may be a viper curled up to strike at the lifeblood of newspapers; but I see no reason why editors should stand around and wring their hands. Since it is absolutely essential that newspapers pay close attention to a field in which there is the greatest reader interest in the history of journalism, it is up to the editor to provide a radio page which his advertising man can present to the national radio advertiser as a demonstration of what his newspaper is trying to do in the creation of reader interest which will lead to the reader's attention to the advertisement. In my opinion, the advertising department of the newspaper has been sitting, feet atop of desk, waiting for the radio manufacturer to walk in and plank a fat contract down in front of him.

DAILY PROMOTES CANNED GOODS

The Better Homes Bureau of the Boston (Mass.) *Herald-Traveler* in co-operation with many of the wholesale and retail grocery concerns of Greater Boston, as well as many national advertisers, assisted in the distribution of thousands of cans of canned goods last week as a part of the national canned goods week campaign. Hundreds of coupons were distributed Nov. 8 from an airplane.

The INDIANAPOLIS

It isn't by chance or accident that The Indianapolis News has gained nearly a million lines of national advertising this year so far, on top of a national volume already outstanding in America. It's because the Indianapolis Radius is more than ever before one of the really great American markets, and because the 57-year leadership of The News is increasing year by year.

NEWS

Frank T. Carroll,
Advertising Director

The Advertiser who says:
“I Can't Afford Newspapers”
—is only Temporizing

If Newspapers will sell more of your goods in a given territory than any other type of advertising, there is certainly a way for you to employ Newspaper advertising at a profit.

There is more profit in advertising to do a few dealers a lot of good than a lot of dealers little good.

“Hand-to-mouth” buying, first seen as a spectre, is now hailed as a savior.

From the clear cut trend toward national Newspaper advertising, its continued growth is as inevitable as the demand for daily news.

THRIFT WEEK TO BRING 500,000 EXTRA LINES TO NEWSPAPERS

Prediction Based on Survey of Business Done Last Year with Tie-Up Copy—10,000 to 15,000 Extra Lines Sold in Several Cities

By HAMMOND EDWARD FRANKLIN

ARE you looking for some double trucks, full-page and half-page copy from advertisers who ordinarily use far too little space with you? And would you prefer to have these released in January when your space sales are sloping down rapidly after the Christmas peak and some new "ginger" is needed to get your solicitors to go over the top?

More than ever, Thrift Week, which will open Jan. 17, and continue through the 23rd will offer a chance for increased high class linage. The co-operation of life underwriters and building and loan associations promises to open the door for more space to be sold. The big life insurance companies have placed themselves back of the idea in an organized way and the United States League of Building & Loan Associations has lined up with it.

In order to check up with leading newspaper publishers as to their success with the plan last January and how they put it across, a survey has been made by EDITOR & PUBLISHER in co-operation with John A. Goodell, director of the National Thrift Week Committee, 347 Madison Avenue, New York City.

Ten to fifteen thousand lines were sold in many cities last season. Realtors, building and loan associations, insurance agents, banks, trust companies, credit men, and stores proved the most responsive prospects.

The *Hartford Courant* made the high record of all papers by selling 30,870 agate lines which were published in the one week. The paper did this by gunning for the logical prospects for each day. They saw the banks on thrift, the general merchants on the budget plan, insurance agents and companies (yes, Hartford is an insurance center) on insurance day, the brokers on safe investments, real estate men and builders on "Own your home," etc.

W. Edward Myers of the *Toledo Blade* also rolled up one of the outstanding totals by publishing 12,000 lines or more.

The *Lufkin* (Tex.) *Daily News* set a new record for smaller towns by carrying nine full pages in a week in a city of only 6,900. This was the first year this paper had tied up with the special week. During the period the paper published on the front page each day an article on the value of thrift and published two editorials on the editorial page. Walter A. Wood, advertising manager, directed the selling of the nine pages.

L. R. Duvall, advertising manager of the *Augusta* (Ga.) *Chronicle*, reports that his paper obtained increased space to the amount of 319 inches split as fol-

lows: automobile, 108 inches; bank, 94; insurance, 20; bond and trust companies, 70; grocery, 27.

Insurance men joined together and bought a double truck advertisement in the *Milwaukee Herald*, a German language newspaper, which was a complete scoop over the field. For "Own your own home" day, the real estate men bought a good-sized advertisement.

An especially satisfactory volume of Thrift Week advertising was sold by the *Niagara Falls Gazette*. It amounted to 13,538 lines: loan associations, 5,978; banks, 812; furniture, 1,764; electric supply houses, 1,750; department stores, 3,234. The paper went directly to the prospect with illustrations from its mat service and that of the National Thrift Week Committee. Next to the loan association, it found the general retail merchants most responsive.

At Schenectady, N. Y., a harvest was reaped by both papers. The *Union-Star* obtained special linage of 15,685 and the *Gazette* 5,698. Large co-operative pages were sold to special groups and individual advertisements to those who wanted to co-operate, but not to be listed in groups.

"We would suggest for next year that local committees be urged to make an appropriation for newspaper advertising to run once or twice the week preceding Thrift Week, say on Thursday or Friday, inasmuch as we find keen interest is not aroused until two or three days after the display advertising starts. We have found it easier to secure co-operation during the latter part of Thrift Week," says the Schenectady *Union-Star*.

A double truck on the opening day and a liberal amount of copy during the week was landed by the *Williamsport* (Pa.) *Sun*.

The *San Antonio Express* published a Thrift Week section on Sunday, Jan. 17. It found savings banks and building and loan associations "best bets," but other lines, such as home builders, subdivision and life insurance, came in also. The *Evening News* carried much during the week.

"I believe this is a good thing, not only from the advertising standpoint, but from the standpoint of institutions which participate and believe that Thrift Week each year will be bigger and bigger," says F. B. Cunningham, advertising manager of the *Topeka* (Kan.) *Daily Capital*. That paper carried 8,000 extra lines.

Joseph Kerney of the *Trenton* (N. J.) *Times* reports a 10 per cent increase in space used.

The *Marion* (Ind.) *Chronicle* used much space of its own as well as did

local advertisers, with copy prepared by its advertising department.

Realtors ran much space in the *St. Louis Star* and in the *Globe-Democrat*. A page advertisement headed, "Safe investment day," appeared during the week in the *Cincinnati Enquirer*.

Three hundred inches extra space were the reward of the *Winston-Salem* (N. C.) *Journal* for soliciting various prospects.

Some three thousand lines, sold on co-operative plans, were published by the *Hamilton* (O.) *Daily News*.

A 20 per cent space increase, largely from merchants, was achieved by the *Milwaukee Leader*.

"We did very well with the proposition this year," says the *Madison* (Wis.) *Capital Times*. "We ran about 8,000 extra lines. To start the week, we published a full page underwritten by many of the leading business men of the city on Saturday, Jan. 16, then followed through the week with advertisements for various institutions, closing with a 1,050 line feature on 'Pay your bills promptly' on Saturday, Jan. 23. Quite a systematic canvass was made of the city. Many special editorial and news features were run through the week."

Among other papers which made notable showings were the *Joplin Globe* with 2,240 lines, *Flint* (Mich.) *Daily Journal* with over 3,000 lines, *Marion* (Ind.) *Leader-Tribune* with 17,000 lines, *Passaic* (N. J.) *Daily News*, *Macon* (Ga.) *Daily Telegraph* with 75 inches a day, *St. Joseph* (Mo.) *News-Press* with 8,400 lines, *Lincoln* (Neb.) *Star* with three full pages, *Wausau* (Wis.) *Daily Record-Herald*, the *Medina County* (O.) *Gazette*, *Rock Hill* (S. C.) *Evening Herald*, *Tiffin* (O.) *Daily Advertiser*, *Racine* (Wis.) *Times-Call*, and *Daytona Beach* (Fla.) *Journal* with 1,500 inches.

This year the Thrift Week Committee will send out mat headings for Thrift Week pages and copy for Jan. 17, Thrift Day; Jan. 18, Budget Day; Jan. 19, Life Insurance Day; Jan. 20, Own Your Own Home and Make a Will Day; Jan. 21,

Safe Investments Day; Jan. 22, Pay Bills Promptly Day; and Jan. 23, Share with Others Day, which may be used in advertising or editorial messages, prepared by the Edwin Bird Wilson advertising agency.

Because all the leading advertising mat services will send out suitable material within a week or two, this year the Thrift Week Committee will not send out a general mat service. This is in line with the suggestion of the newspapers.

It is estimated that as much as 500,000 high grade local linage will be booked for Jan. 17 to 23, 1927, in connection with National Thrift Week.

N. E. DAILIES MEETING

Editors and Publishers at Hartford to Discuss Boosting Their States

Editors and publishers of New England daily newspapers were to assemble at the Hotel Bond, Hartford, Conn., Friday evening upon invitation of President John Lawrence of the New England Conference for organizing newspaper support and influence for promotion of New England industrial, commercial and recreational interests.

Results obtained by the New England Conference, composed of prominent business men, will be summed up and policies of the future will be discussed.

William J. Pape, publisher of the *Waterbury Republican-American* and president, New England Daily Newspaper Association, is endeavoring to insure a large attendance at the meeting.

TRI-WEEKLY BECOMES DAILY

The *Adirondack* (N. Y.) *Enterprise* formerly a tri-weekly newspaper, became a daily Nov. 15, with membership in the Associated Press. The *Enterprise* recently took possession of its new publishing plant at Saranac Lake to replace the office destroyed by fire several months ago.

A Year of Unusual Progress

On October 18, LA PRENSA of BUENOS AIRES celebrated its fifty-seventh birthday.

In his annual address to his staff, the owner and publisher of LA PRENSA, Don Ezequiel P. Paz, gave the following facts with regard to the unusually large increase in circulation during the year:

"On September 20, 1925, when the first supplement in roto-gravure appeared, the circulation was 249,000 copies; six months later, in March of this year, the average Sunday circulation had already reached 275,000.

"When, recently, the roto-gravure section was increased to 16 pages, we reached 298,000 copies.

"The average Sunday circulation of the present month, to date, is 315,000.

"On last July ninth, we established a new record with 321,204 copies.

"The net circulation yesterday, October 17, was 325,010 copies, and the circulation of the seventeen days of October amounted to 4,142,108, or a daily average of 243,653 copies."

The Original GOSS Balcony-Type Press

with Folders on Pressroom Floor

Installed in
1912

*This is the Original
Balcony-Type Press
—built by GOSS and
shipped in 1912 to
the PALL-MALL
GAZETTE, London,
England.*

FOURTEEN YEARS AGO, GOSS introduced the Balcony-Type Press with folders on the pressroom floor. Fourteen years of actual experience in building and developing presses of this type—a type obviously not new to Goss—offers assurance to the publisher that the presses he buys from us, bearing all of our latest patented improvements, are thoroughly time-perfected.

A few of our Balcony-Type Press installations:

Two Goss Balcony Type Presses, one Octuple and one Sextuple, comprising seven 16-page units with two pairs of Goss Imperial High Speed Folders—installed for the Minneapolis News in 1917—are today printing the Tulsa (Oklahoma) Tribune A number of Goss Balcony-Type presses are also running in London, England We have just completed a Balcony-Type Double-Sextuple for a prominent publishing house there and are building, for this same publisher, another Goss Balcony-Type Press consisting of nine units Catalog on request.

Do Your Stereotype Plates
Are They Good Printers
Are They Round and True

Presses of F

A POOR PRINTING PLATE
*is the Father of a Lot of
Trouble*

IF plates are not true in curvature, they cannot print well.

If they are inaccurate in thickness—or are sprung in the making—they will break sheets on the press, injure press blankets, and print poorly.

Mis-shapen printing plates are not the fault of those who make them, but of the apparatus in which they are made. The most expert stereotyper cannot turn out true plates with hand apparatus.

Even with the best hand box and plate finisher made, plates will be untrue in curvature, inaccurate in thickness, and out of shape. Such plates are the cause of newsprint waste, press delays, and poorly printed papers.

VENALITY IN SPORTS

FOR many years rumors have circulated that the sports departments of certain newspapers, or individual sports writers, were in the secret pay of sport promoters. There has never been any evidence to support the nasty charge. Now the New York Publishers' Association alleges that the promoters of professional hockey, which has developed into a popular and evidently very profitable business at Madison Square Garden, appropriated the sum of \$12,000 to be judiciously expended through a firm of press agents during the present season to influence newspaper publicity in news columns. It was further charged that the Tex Rickard coterie possessed a list of names of sports writers who would accept bribes. The ugly charges were given to the public in at least two New York newspapers.

The promoters and the press agents deny the allegations, both as regards the appropriation and the "sneak list." Mr. Rickard admits that the boxing game is not free of venal press operations, but holds hockey up as pure and unsullied. He "invited investigation." Mr. Rickard does not believe in advertising. A crowd can't be drawn by paid announcements, he says, which will make department store people smile. That newspaper men were given \$1,700 worth of seats for the opening hockey game, is asserted, but Tex thinks that perfectly legitimate.

It is highly improbable that the New York Publishers' Association would make these charges without knowledge of the facts. One thing is certain, professional hockey was outlandishly puffed in the local newspapers last season. Since the charges were made this week most of the New York papers gave the game about a tenth of the space it would ordinarily receive, which is about what it deserves as news.

We do not believe there is a sport department in New York that has been in the actual pay of the Garden, and if some sports writers have been reached with anything more than free passes they represent a minority. Can't tell us that good fellows, well paid and well known to the sporting public, would take a dirty dollar. There are skunks around the edges of the newspaper business everywhere, but few get to places of authority. A few may have taken bribes and set the pace for the unreasonable amount of space hockey got last winter. That the promoters would buy their way in news columns sounds reasonable to us. One theory is that they have been bribing intermediaries and that the money never reached staff men.

Whatever may be the facts, the publishers have done right to open the situation. Notice has been given that this form of fixing is a ticklish business, both for the promoter and the venal reporter. The next step should be to abolish the free pass evil. Newspapers that have done so, report wholesome results. Professional sport is a business. Let it pay its way and take no favor from it.

Just as great actors are born for the stage, so do the Woof Bunnies, Peaches, Eleanors, Thaws, Rhinelanders and bath-tub bar-maids seem to have been created to fill the requirements of jazz journalism.

A SPELLING GAME

INTELLIGENCE testing has become a parlor game, according to the *New York Evening Sun*. One phase of it is a spelling game, and in this newspaper men are said to excel. Most newspaper men are good spellers, but some lean heavily upon printers and proof-readers, who are the best spellers on earth. Here is the list of "hard words" that is being used in the parlor contests: Repellent, Vilify, Rarefy, Inoculate, Supersede, Harass, Innuendo, Embarrass, Plaguy, Accommodate. They look easy, but the *Sun* says it is amazing how often they are misspelled.

"Xmas," that ugly profanation of the sacred day in Christendom, almost disappeared from news and advertising columns of the American press in 1925—this year, gentlemen, make it unanimous!

And let the peace of God rule in your hearts, to the which also ye are called in one body; and be ye thankful.—Colossians, III; 14, 15.

GHOULISH TRADING

ONE of the remarkable revelations of the horrific New Jersey murder trial has been the apparent willingness of persons intimately concerned to sell information to the New York newspapers and syndicates. The slain preacher once wrote a prayer in behalf of his paramour and it was sold as a manuscript. Several exhibits of great value to the state, and perhaps to the defense also, became newspaper copy and the subject of testimony as to the financial consideration received by those who gave them to reporters. The husband and daughter of the murdered woman sat at the press tables, calmly writing reports of a trial that, it would seem, would have wrung the heart's blood from normally developed human beings.

The public appears to have received complacently this unusual exhibition of trading upon the tortured dead, but to some sensitive readers it must have seemed ghoulish. Perhaps we are finicky and out of tune with the age, but we must confess that the signed stories by the husband and daughter were journalistic monstrosities, than which we have never seen worse. That the public has accepted them with apparent relish may mean one of two things: that normal sensibilities are paralyzed and anything stewed in the greasy pots of vulgarity is appetizing to the great jazz majority; that if the murdered wretch's severed tongue and windpipe were to be put on exhibition in the Mall, Central Park wouldn't hold the crowd. Another theory is that this is peculiarly a newspaper case. The local system of justice had utterly failed to solve the murder mystery and the lapse appears sinister indeed. The people, appreciating the service of the press to force prosecution of powerful persons accused, are not prepared to take offense at anything newspapers have done in this case. However, the spectacle of a husband and young daughter writing the newspaper story of the downfall and butchery of a wife and mother, were the case taking a normal course through the courts, might be too revolting to warrant publication, at least in decency's name we may so hope.

A news story that repeats a fact in headline, lead and interview is a thrice-told tale.

COURSE OF DESPOTISM

IN Poland the Dictator Pilsudski is pursuing the normal course of his ilk. By his decree the newspapers are removed from the jurisdiction of the courts and placed under the authority of his government. Editors are warned that publication of anything "derogatory" will lead to imprisonment or fines.

The one thing that a Dictator cannot bear is a free press. It is interesting that the despotisms in Italy, Poland and elsewhere, largely created in fear of Bolshevism, take the same measures against free discussion of public questions as do the leaders of the Soviet Government of Russia, birthplace of Bolshevism. The Russian press may not now be as ruthlessly gagged as heretofore, but it is wholly controlled and subservient. Dictatorship, in behalf of any cause, does not mix with free press or free speech. They are attributes of freedom. We know them to be the first essentials of democratic institutions. When Governments cannot support them they have demonstrated failure and deserve to fall, making way for some more popular form. Sensible people instinctively know that any government that is afraid of free discussion of its affairs, both at home and abroad, depending upon sugary censored "news" and pseudo opinion, is rotten to its core and will stand only so long as a Dictator can hold the people in check by flourishing his weapons.

NEW TOWERS OF BABEL

ANARCHY continues its reign in radio broadcasting, with extremely small expectation of an early end through Congressional action at the impending short session. The chaos that has marked traffic in the ether since a court order ended the jurisdiction of the Department of Commerce is daily becoming more aggravated. New stations are licensed apparently for any wave-length or power named in their applications. Old stations change their wave bands or increase their power without any thought for their fellow-broadcasters or for the millions of citizens who own receiving sets.

The latter are the first and principal sufferers. They have bought sets which cost from a few dollars to several hundred in the expectation of receiving entertainment and information. What they receive in this third week of November is almost indescribable. Even the largest stations on the Eastern seaboard transmit their programs to the accompaniment of the shrill squeals, whines and whistles known to the trade as heterodynes. A transmitter operated on feeble power by a village retailer may not be audible 50 miles distant, but its activities can ruin the costly and well-planned program of a major station half across a continent. At some points on the dials of a sharp-tuning set, three and four stations are audible at once.

It remains to be seen whether the public will make its usual holiday investment in new receiving sets in the face of this transmission confusion. A change in this buying habit will bring economics into play to correct by force what the industry and the nation have failed to govern by law.

If the public turns in disgust from the din that is now destroying the pleasure of radio programs, the super stations will find it difficult to sell their broadcasting time to manufacturers, merchants, and others, in the name of advertising. Confusion and noise may be necessary adjuncts of business on the Curb Market, but they find no favor with firms accustomed to the established and orderly channels of placing their goods before the public.

A man may be as accurately judged by enemies as friends.

DESPICABLE AND STUPID

HERE'S a new wrinkle of the space mooching fraternity, a little "dirty work," in the parlance of the street. It indicates just how deep-set is the conviction on the part of some greedy egotists that the newspaper is a public hack on which they may ride without price.

A local jeweler in a western town opened a sale of Gruen watches and, to attract the crowd, arranged a novel window display. He called in a reporter for the local daily and induced him to write a little yarn about the window display. The editor, on receiving the copy, properly said, "That's advertising, since it is to sell watches," and tossed the story aside. The jeweler, who had done no advertising, reported to a representative of the Gruen Watch Company that the local newspaper had declined to print the story, and presently the merchant received from the slick manager of that great patron of magazine space, who proposes to beat his way on the newspaper line, a letter the object of which was to break confidence with the local editor.

This worthy learnedly discussed the "news" men of the jeweler's window display. He thought the editor's judgment was "peculiar" and that as newspapers in big cities, like Chicago and Cincinnati, are willing to print press agent dope on page one, the editor in the small city should be shown up as incompetent and perhaps the sinister enemy of local business men. He enclosed some press agent clippings from large city papers to show the local merchant how successful the graft was elsewhere.

Space grafters are getting more and more desperate, particularly in the smaller cities where conscientious editorship is at its highest plane of development. The conduct of the manager of the Gruen Watch Company was, of course, despicable, but also painfully stupid. What he seeks is to sell watches through the local jeweler. A few dollars invested in the jeweler in local newspaper advertising might just as well have sold some Gruen watches.

PERSONAL

JOSEPH A. DEAR, editor of the *Jersey City (N. J.) Jersey Journal*, has been named as lay judge of the Court of Errors and Appeals by Governor Moore.

John H. Finley, associate editor of the *New York Times*, addressed members of the Boston Mass Chamber of Commerce last week on the subject of "Eight Years After."

Everett C. Willson, president of the *Hartford Times*, has been elected a director in the Travelers Insurance Company, the Travelers Indemnity Company and the Travelers Fire Insurance Company, to fill the unexpired term of the late Charles Hopkins Clark, publisher of the *Hartford Courant*.

Harry G. Stoddard, associate publisher of the *Worcester (Mass.) Telegram-Gazette*, has been appointed a member of the executive committee in charge of raising several hundred thousand dollars in the Worcester Golden Rule charity drive. He opened the campaign with an address over the Telegram-Gazette radio Station WTAG.

A. T. Richardson, editor of the *Pomona (Cal.) Progress*, has been appointed by Governor Richardson, as a member of the Sixth district agricultural board, Los Angeles.

Frank A. Day, dean of Minnesota newspaper men, will stage a comeback in the Minnesota state capitol next January after an absence of 21 years. The veteran editor of the *Fairmont Daily Sentinel* has been named senator from the ninth district. Mr. Day was formerly lieutenant governor and state senator. He was also private secretary to Governor John A. Johnson of Minnesota, until the latter's death in 1905.

Capt. Roland F. Andrew, editor of the *Worcester (Mass.) Telegram-Gazette*, gave an address before the Gardner (Mass.) Rotary Club on Nov. 18.

Lou E. Holland, for three years president of the old Associated Advertising Clubs of the World, and now president of the Better Business Bureau, affiliated with the International Advertising Association, was re-elected president of the Kansas City Chamber of Commerce recently.

IN THE EDITORIAL ROOMS

JOHN B. OLDS, sports editor, *Tulsa World*, has just returned from his vacation in the East, where he refereed several collegiate football games.

Frederick Houck, formerly of Baltimore, has resigned from the city staff of the *Worcester (Mass.) Telegram* to go to Springfield, Mass.

W. W. Thompson has been made farm editor of the *Parsons (Kan.) Daily Republican*.

Lawrence J. Donahue, formerly of the *Providence (R. I.) Tribune* and now with the *Providence Journal*, has been re-assigned to police work after having been in the Journal sports desk for the past six months.

Harry O. Winch, manager and editor of the *McComb (O.) Herald* has resigned to go to Columbiana, O.

Walter Daniels, reporter on the *Providence (R. I.) Journal*, is now on the copy desk.

George H. Seigle, managing editor of the *Newton (Ia.) Daily News* has been elected coroner of Jasper county. He was placed on the Republican ticket by the county committee when it was discovered that the primary had failed to nominate.

George Hull, reporter on the *Providence (R. I.) Journal*, is covering the sessions of the Rhode Island General assembly this fall.

Floyd Maxwell, ex-movie editor on the *Portland Oregonian* has been named manager of the new Broadway theater in Portland.

E. R. Simpson has succeeded John Rhone as editor of the *Lind (Wash.)*

Leader. Mr. Rhone is recovering from a recent operation.

Nason H. Arnold, Sunday editor of the *Worcester (Mass.) Telegram*, spoke on "The Making of a Modern Newspaper" at Oxford, Mass., Nov. 9.

George Johnston, formerly in the journalistic field at Ridgeway, Ont., has joined the editorial staff of the *Financial Post* of Toronto, Ont.

Joseph Eagan has joined the sports staff of the *Worcester (Mass.) Morning Telegram*.

James McKenna has been put in charge of the city news desk of the *Danville (Ill.) Commercial-News*. He replaces R. F. Frankenberger. Harold V. Streeter, a graduate of the School of Journalism of the University of Missouri, is now handling the farm page and general assignments. Robert Poissall, formerly farm editor, has been made sports editor, replacing Dan J. Farrell, transferred to the railroad beat.

MARRIED

WARREN WORTH BAILEY, JR., son of W. W. Bailey, owner of the *Johnstown (Pa.) Democrat*, to Miss Mary Statler of Johnstown, Nov. 20.

W. Dunlap of the *Minneapolis (Minn.) Tribune*, night copy desk staff, to Betty Stoddard recently.

Arthur X. Deegan of Dorchester, Mass., of the mechanical staff of the *Boston (Mass.) Herald-Traveler*, to Miss Mary Rose Dabrowski, also of Dorchester, last week.

Glen Cunningham, who recently left the editorial staff of the *Des Moines (Ia.) Capital*, to enter the insurance field, to Miss Dorothy Kelsey, Nov. 5, in Des Moines.

CHANGES OF OWNERSHIP

M. T. VERNON (Wash.) HERALD has been purchased by Harry B. Averill, who will take immediate possession. Mr. Averill is owner of the *Cle Elum Mineral-Echo*.

Mellette (S. D.) Tribune, one of the oldest papers in its section of the state, has been sold by Paul Zerbe to E. J. Meyers of Ashton, S. D. Mr. Zerbe has gone to Orid, Colorado, where he will take over a newspaper.

Jenkintown (Pa.) Times-Chronicle, weekly, has been sold to Rev. Harry H. Bird, who recently resigned the pastorate of the Abington Presbyterian Church.

J. M. Pile, of the *Wellington (Kan.) Monitor-Press*, has purchased the *Christian County (Mo.) Republican* at Ozark, Mo. He assumed charge Nov. 15.

PRESS ASSOCIATION NOTES

GLENN BABB, Peking correspondent of the Associated Press, left the Northern Capital the middle of October on a trip through the turbulent region of

FOLKS WORTH KNOWING

JAMES HOSSACK WOODS, as president of the Canadian Press, is making the improvement of this already

J. H. Woods

efficient national news - gathering association one of the major objectives of his great energy and enthusiasm. He has for many years been a leading spirit in Canadian Press circles, the "Voice of the Prairies" he might be called, for J. H. Woods knows his Western Canada.

Mr. Woods was born in Quebec and naturally went to McGill University, Montreal, to round out his education which was thorough. He started his newspaper career on the *Toronto Mail and Empire*, as a reporter; and served in turn on the *Montreal Herald* as news editor, *Mail and Empire* as city editor, business manager *Toronto News*, and then moved to Calgary, Alberta, becoming managing director of the *Calgary Daily Herald*, one of the Southam newspaper chain.

He has had a distinguished career in Canadian journalism being chairman of the Press Delegation to Great Britain and Europe during the war; decorated chevalier of the Order of King Leopold for services during the war in behalf of Belgium; elected president of the Canadian Press in 1917. He was the chief spokesman for Canada in the recent tour of British Empire editors to Australia.

Central China and the scene of the present combat between the forces of North and South.

Elmer B. Murphy, on Nov. 15, rounded out a period of 25 years as Associated Press operator at the *Reading (Pa.) Eagle*. In recognition of the event members of the Eagle editorial staff presented him with a cluster of roses and several boxes of cigars.

H. H. Stansbury, assistant general manager of the European service of Universal Service, is spending his vacation in Washington and New York. He was formerly managing editor of the *New York American*.

T. H. Tipton has been appointed Associated Press correspondent at Cheyenne, Wyo., effective Nov. 7, succeeding R. C. Davies, transferred to Washington.

J. L. Laub was this week appointed manager of the International News Service bureau at Tallahassee, Fla., replacing R. R. Frazer, resigned.

An Editor Replies to Our Announcement

Toledo, Nov. 11, 1926.

Dear Mr. McNitt:

You can rest assured that the Times will cooperate with Mr. Flint in helping to make the Central Press Association a bigger and better organization.

We have been subscribers to your service for so many years that we have come to regard you folks as sort of members of the staff.

Wishing you the best of luck in the contemplated changes and improvements, I am,

Very truly, yours,
John D. Dun,
Editor Toledo Times.

The above letter is one of a great sheaf of friendly messages received from client newspapers during the past few days.

Cleveland, Ohio

FARRIS A. FLINT
Manager

(Continued from page 27)

Jack Meddoff is the new manager of the International News Service bureau at Jacksonville, Fla. He succeeds James R. Connor, Jr., resigned to join the sales force of King Features Syndicate.

NEW PLANTS AND EQUIPMENT

RECENT shipments from R. Hoe & Co., Inc., include a 16 page deck for the *Seattle Times*, a single-cooled equipoise curved casting mould and a combined saw table and trimmer for the *Boise (Idaho) Statesman*, two heavy-design 16-page units for the *Hartford Times*, and seven late news devices for the Hearst publications.

Additional Ludlow casting units have been purchased recently by the following newspapers: *Philadelphia Bulletin*, *Bridgeport (Conn.) Post*, *Detroit News*.

Renton (Wash.) Eagle, new model 5 Linotype.

Seattle (Wash.) North End Herald, new Model 5 Linotype.

Dunn (N. C.) Dispatch has installed a new Goss eight-page printing press. L. Busbee Pope is publisher, and F. Grover Britt, editor.

O'Neill (Neb.) Independent has acquired a site adjoining the First National bank in O'Neill, upon which it will erect a new and modern newspaper home.

Construction of a new building for the *Blaine (Wash.) Journal-Press* was recently started.

SPECIAL EDITIONS

ASHLAND (Ky.) DAILY INDEPENDENT, 88-page Progress and Industry edition, Nov. 7.

Schenectady (N. Y.) Union-Star, 40-page Progress edition, marking completion of new plant, Nov. 8.

Cedar Rapids (Ia.) Republican, Merchants National Bank edition.

Seattle Post Intelligencer, semi-centennial edition, Nov. 7.

Christian Science Monitor, special section devoted to North Carolina, Nov. 6.

Okmulgee (Okla.) Times-Democrat, 74-page Okmulgee District Inventory edition, Sept. 26.

HOLDING NEW POSTS

A. D. HALLMAN, from courthouse reporter, *Wichita Falls (Tex.) Record-News*, to courthouse reporter, *Tulsa Daily World*.

Max Hawkins, from copy desk, *Tulsa Daily World*, to copy desk, *Kansas City Journal-Post*.

Merle Blakely, from copy desk, *Oklahoma City Daily Oklahoman*, to copy desk, *Tulsa Daily World*.

John T. Fahey, from city staff, *Portland (Me.) Express*, to copy desk, *Worcester (Mass.) Gazette*.

Carl Hill, from staff, *Bridgeport (Conn.) Sunday Herald*, to staff, *Fall River (Mass.) Globe*.

Ray Bachman, from *Hoquiam (Wash.) Washingtonian*, to reporter, *Vancouver (Wash.) Columbian*.

ASSOCIATIONS

B. ARP LOWRANCE, field secretary of the NORTH CAROLINA PRESS ASSOCIATION, will spend considerable of his time in Raleigh during the forthcoming session of the state legislature in January.

Plans for the midwinter meeting of the NORTHEAST MISSOURI PRESS ASSOCIATION at Shelbyville will be discussed by the officers of the Association at Macon on Nov. 27. The Association includes about 25 counties, with a membership of 100.

H. Von P. Thomas, advertising manager for the Bussman Manufacturing Company, was recently elected president of the Industrial Advertisers' division of the ADVERTISING CLUB OF ST. LOUIS. Other officers elected follow: Vice-Presidents: George C. Nagel, and Kenneth G. Baker; secretary, Harry L. Nagel, and treasurer, L. H. Gault.

An exhibit of manufacturers and jobbers' advertising will be a feature of the convention of the Fifth district of the INTERNATIONAL ADVERTISING ASSOCIATION, which will be held in Columbus, O., Jan. 24-25, according to plans made by the local committee. Prof. H. H. Maynard of Ohio State University, president of the Columbus Advertising Club, is chairman of the committee, which includes C. S. Anderson, C. E. Dittmer and Fred W. McCann.

SCHOOLS

EDITORS and professors of journalism were features as speakers at the sixth annual conference of the Eastern Interscholastic Publications' Association held in Ithaca, New York. Sigma Delta Chi, college journalistic fraternity, sponsored the conference. Awards were made for the best newspapers and magazines published by high schools in New York, Pennsylvania and New Jersey.

Offer of a \$20 prize for the best editorial written by any student in the school of Journalism at the University of Washington, during the present fall term, was announced by the *Seattle Post Intelligencer*, Nov. 11.

Clement E. Trout, publicity agent for the U. S. Department of Agriculture at Washington, assumed charge of the publications and publicity department of the Oklahoma Agricultural and Mechanical College, Stillwater, Nov. 1.

The Press Club of DePauw University, sponsored by Professor L. E. Mitchell who directs the course in journalism, has elected officers and decided on a lecture series by an editorial writer, a city editor, poet, sports writer, publicist, and a reporter. Eldorado Fields, feature writer for the *Indianapolis Times*, spoke at this last meeting. It is the hope of the Club to secure Louis Howland, editorial writer on the *Indianapolis News*, for the coming lecture date. Officers elected for the year are: President, Charles Byron Johnson, Bellmore, Ind.; vice-president, Miss Thelma Davy, Indianapolis; secretary, Miss Doris Smith, Aurora; treasurer, Roscoe Gravitt, Greencastle.

PANCOAST'S NEW BOOK

"Trail Blazers of Advertising," recounting thrilling adventures in the space business in the United States when Barnum's business philosophy was valid and everything "went," which appeared serially in the columns of EDITOR & PUBLISHER from the pen of Chalmers L. Pancoast, has just appeared in book form, the handsome bright yellow volume, priced at \$3.50, coming from The Grafton Press, New York, Frederick H. Hitchcock, publisher. The drawings are by Ray Hight, who also illustrated the EDITOR & PUBLISHER serial, and there are numerous half-tone plates.

CORRECTION

In the Nov. 6 issue of EDITOR & PUBLISHER under "Ad Tips" it was erroneously stated that the Southwestern Advertising Company, Dallas, Tex., was placing copy on "Flit" for the Standard Oil Company of New Jersey. This agency is not handling any Standard Oil accounts.

NEW DAILY INSTALLS PRESS

The *Fort Smith (Ark.) Journal* has just completed installation of a 28-page Hoe press, unit type, with color cylinders. The Journal was started on July 1. C. E. Palmer is publisher.

TWO V.-P'S. ELECTED

Salisbury and Willnus Honored by Intertype Corporation

Two vice-presidents have recently been added to the executive staff of the Intertype Corporation, of New York.

H. G. WILLNUS

secretary of the corporation, was elected vice-president to succeed C. W. Gaskell.

A little less than eleven years ago Mr. Willnus, then only nineteen years of age, entered the employ of the Intertype Corporation, the well-known manufacturers of Intertype composing machines, as a clerk in the accounting department at \$9.00 a week. He is now not quite 30 years old.

Mr. Willnus was born in Brooklyn, N. Y. Upon being graduated from Boys' High School he got his first business experience with a fire insurance company.

Mr. Salisbury left New York on Nov. 15, for an extended trip through the Intertype sales territories covered by the branch offices located at Chicago, Memphis, Los Angeles, and other cities. He will return to the executive offices at New York in time for the general conference upon the arrival of President Neal Dow Becker, who is expected to return from Europe the latter part of December.

EACH DOLLAR Returned \$37.40

in this little test of Iowa daily newspapers

This association is composed of 28 leading Iowa daily newspapers.

Combined Circulation.....571,151
Families in Iowa550,000

Think what that means: more circulation than the number of families in the state.

Deal with this group as with one publication, if you wish: one order, one plate, one billing.

Note merchandising help below.

AS surely as straws show how the wind blows, this little campaign indicates two things about Iowa: the unusual receptiveness of Iowa people to advertised products; and the great value of space in these Iowa daily newspapers.

This client appropriated \$500, to see what it would do in these Iowa dailies. Comparatively small space was used in nine of the newspapers of this group.

The sales—directly from these advertisements—amounted to \$18,700.00. (Client's own statement of above facts is in our files. Name on request.)

UNIFORM MERCHANDISING HELP

And this association is doing more than offering you the preferred medium in this preferred market. Each of these individual daily newspapers pledges the following definite helps, in connection with any campaign using 5,000 or more lines in his paper:

1. Make a study of local market and trade territory, as pertains to your specific product.

2. Supply complete and accurate list of retailers, in the newspaper's city and surrounding territory.
3. Introduce your salesmen to a number of big retailers. Advise you as to relative sales standing of competing products.
4. Urge retailers to feature displays of nationally advertised products. Furnish you with names of stores that will make use of window displays.
5. Make market investigation for prospective advertisers. (Identity to be made known first).
6. Urge local retailers to mention your products in their own advertisements.
7. Send, on receipt of contract, a multigraphed letter to list of retailers in the territory, telling of the campaign.

Upon request we will be glad to furnish full information about these Iowa daily newspapers and about this market—in relation to your specific products.

Of course, there will be no obligation. Write to address below.

IOWA—WHERE EVERY FAMILY READS A DAILY NEWSPAPER

BUILDING NEWSPAPER CIRCULATION

Two Groups of Carrier Boys Described by Schmid, Indianapolis News—
"Mama" Dolls Cry for Circulation in Massachusetts—
Lenett with New Orleans Item & Tribune

BOYS ranging from eight to 15 years of age are considered the best circulation producers by John Schmid, business manager of the *Indianapolis News*.

"They give the best service," he said, "and are usually the best collectors. A boy, or a girl for that matter, will invariably get an audience with a prospective subscriber where a grown person often fails."

"The boy has an appeal in soliciting a subscription, which seldom fails in landing an order, whereas the adult is often abruptly turned away with any kind of an excuse."

"Boys, the country over, may be divided into two groups,—groups that are sharply defined. The older a boy gets, the more distinctly he shows the earmarks of the class into which he has been thrown."

"The first group is composed of the class of boys who have the help, the advice, the kindly direction of their parents in everything they do. They have partners. Every advantage is theirs."

"The second group is composed of another kind of boys who, through oversight or indifference on the part of their parents, are thrown pretty much on their own resources, who do almost as they please, and to their credit it must be said, that many of them have made wonderful successes in their life's work."

"This last group, in many instances, is particularly unfortunate. Many of the boys in this group are deprived of the helpful influence of the persons who are most able to help them at the time they stand in greatest need of help. From this class, there naturally comes a larger number of failures."

"An active interest should be taken in his business. He should be questioned daily as to his work and be prodded a little—if necessary. This is an important point, for 'tis said, 'as the twig is bent, so the tree is inclined,' and the habits he forms as a boy will in all likelihood affect his whole career."

"Successful newspaper solicitation depends upon several things, the newsboy's knowledge of his newspaper, of other newspapers, of current affairs, and his ability. He must not only develop the ability to study, but he must also be courteous. He soon learns that study is not only of the schoolroom, and courtesy not only a requirement of society, but that each has an important commercial value."

"There is one danger which confronts every boy—the temptation of idleness. When a boy has nothing to do, he usually thinks of some mischief. The juvenile courts have discovered the necessity of keeping the boy busy, so that his mind will be occupied with the worthwhile things in life. Delivering newspapers is one solution of this problem, as it keeps the boy busy during those hours when the temptations of loafing are most apt to confront him."

"These boys are ingenious in their methods of getting business. They watch Real Estate Transfer columns in the newspapers, follow moving vans, solicit people they meet on the street, watch vacant houses, deliver sample copies to non-readers, and even resort to the telephone, or write letters. Some boys have been known to have business cards printed, giving their names, street addresses and telephone numbers. These appeals in many instances, get results. Everybody like a hustling boy, and is willing to help."

"Boys of grade school age usually make the best carriers for evening newspapers. Morning papers require older boys on account of the early hours of delivery, and the larger routes covered. Morning paper carriers seldom see their subscribers excepting on collection days, which as a rule, are set aside by the carrier for canvassing."

Twenty-eight out of the 200 newsboys of the *Lewiston (Me.) Sun-Journal* were awarded valuable prizes Nov. 6 as the result of a lively subscription contest. A new contest is already under way and will end on Dec. 25 with the prizes to be distributed Jan. 1. In the recent contest the three major prizes were all won by Journal carriers.

The *New Bedford (Mass.) Standard-Mercury* conducted a very successful cooking school in New Bedford four days this week with several hundred women attending each session. Mrs. J. Watson Shockley lectured on food qualities, dieting, nutritive values, budgeting and other timely topics as well as demonstrating the proper ways to prepare food.

Three Massachusetts newspapers are "crying" for circulation with "Mama" dolls. They are the *New Bedford Standard-Mercury*, the *Worcester Evening Post* and the *New Bedford Times*. The Times and Standard-Mercury are offering the dolls for three new six-month subscribers for carrier delivery while the Post requires four subscriptions. The Post doll is named "Vanity Anne," the Times "Baby Marjorie" and the Standard-Mercury "Flossie Flirt."

C. W. S. Lenett, circulation manager, *Houston (Tex.) Post-Dispatch*, resigned Nov. 15, to become circulation manager of the *New Orleans Item & Tribune*.

The *Boston (Mass.) Herald-Traveler* through the co-operation of Boston grocers plans a distribution of free canned goods in observation of Canned Goods Week. An aeroplane will circle over the city on Monday dropping special coupons that can be exchanged for canned goods at the household dept. of the paper. They have also recently published a cook book containing a choice assortment of recipes that have been published in the paper from time to time.

To take care of their increasing circulation in Chehalis, Washington, the *Centralia (Wash.) Chronicle* has established a branch office in that town. D. A. Edlin will be the new manager and Miss Zilda Deebach who has been representing the Chronicle in Chehalis for the last two years, will be transferred to Centralia.

The *Chicago Daily News* awarded \$25 in six prizes for the best letters submitted during the week ending Nov. 20, on "How to Sell Ability." Letters are limited to 100 words, although additional material may be added for the information of the editor. The contest is being run as part of the series of vocational stories the paper has been printing. The prizes are divided as follows: first prize, \$15; second prize, \$5; third prize, \$2, and the next three, \$1 each.

Mae Tinee, motion picture editor of the *Chicago Tribune*, is running a contest to elect a King and Queen of Movieland.

The *Chicago Herald and Examiner* is awarding five turkeys daily for the five best letters of 50 words or less, on what readers of the paper have to be thankful for this year. The paper is also awarding \$500 weekly in fifty-four prizes for the best letter dealing with any purchase made of any article advertised in the Herald and Examiner. Letters may be laudatory or critical, may deal with the article itself, the store advertising it, or the advertisement in which it appeared. The paper has set no word limit on letters, but asks, as a sign of good faith, that sales slip given with the purchase be attached.

Calumet Baking Powder places 93 per cent of its advertising appropriation in newspapers.

WOMEN IN ADVERTISING AND JOURNALISM

Mrs. Helen Leavitt Named Assistant Advertising Manager of N. Y. Herald Tribune—News Women Honor Magazine Writers—
Mrs. Murphy at Livestock Show

MRS. HELEN LEAVITT, who since 1919 has been office manager in the advertising department of the *New York Herald Tribune*, has been appointed assistant advertising manager. R. H. Schooley is advertising manager of the Herald Tribune.

Prior to coming to the Herald Tribune, Mrs. Leavitt was an active worker for woman suffrage. She was suffrage leader of Albany County for several years, and in 1916 and 1917 Chairman of the Albany legislative committee during the passage of the suffrage referendum bill through the legislature. Mrs. Leavitt then came to New York to become executive secretary of the New York State Suffrage party, which position she held throughout the campaign.

Mrs. Leavitt attended the School of Pedagogy at the University of Buffalo, and before her marriage taught school for several years in Buffalo.

The New York Newspaper Women's Club gave a dinner Friday, Nov. 19, in honor of former newspaper women who are now associated with magazines. Guests of honor were Mrs. Genevieve Parkhurst of *Pictorial Review*, Miss Ruth Boyle of *Good Housekeeping*, Miss Emily Burt of the *Women's Home Companion*, and Mrs. Clara Savage Littledale of *Children*. The opportunities for women in touch with the news to contribute to the magazines formed the theme of the discussion.

At the last meeting of the board of directors the following were elected to membership; Miss Mary Stem, and Miss Lentilhon Gilford, *Evening Post*; Miss Katherine Zimmerman, *Evening Tele-*

gram; Miss Irene Graves, and Miss Julia Riordan, *The World*; and Miss Ethyl Mockler, formerly of the *World*.

Mrs. F. E. Murphy, wife of the editor of the *Minneapolis Tribune*, prefers exhibiting her husband's prize Holstein cattle to tramping over a golf course or playing bridge. Mrs. Murphy accompanied a string of twelve Holsteins entered in the American Royal Livestock show in Kansas City, Mo., November 14 to 21.

Mrs. Murphy came to Kansas City from Portland, where she showed her cattle at the Pacific International Livestock show.

"It is one of the major policies of the Minneapolis Tribune to boost diversified farming and it is to practice what a paper preaches that my husband and I began raising purebred Holstein cattle," Mrs. Murphy said.

On the Murphy farm at Breckenridge, Minn., the Murphys have 250 registered Holsteins.

Mrs. Anne C. E. Allison, former dean of women at Brown University, Providence, R. I., and now women's page editor of the *Providence Journal and Bulletin*, is conducting a book review class in the university extension series.

Marjorie Mills of the Better Homes Bureau of the *Boston (Mass.) Herald-Traveler* is the editor of the new book "Better Homes Recipe Book," just published by the Bureau.

Miss Margaret Shay has been added to the staff of the *Fall River (Mass.) Globe* as society reporter.

READING, PA.

newspaper face. There are no "pin holes" or sharp corners to fill up with ink; no fine lines to break down in stereotyping. The even color of the characters is particularly adapted to the "roughness" of newspaper stock. The outstanding advantage of the new face is its conservation of vision. The even tone throughout is restful to the eyes without being monotonous. There is enough variation to avoid tiresomeness, yet not enough to be disconcerting. A happy medium has been effected. It is easier to read than seven point faces, yet gives the same word-count to the column as six point. Various degrees of leading can be used to advantage, or the lines may be cast on a solid six and a half point body. The comparative shortness of the ascenders and descenders gives good legibility even when set solid. Cast on seven point body, the 6½ Point Ionic gives the effect of being well leaded—and with a decided gain in word-count over seven point faces. The first paper to adopt the new face was the Evening News, of Newark, N. J. After a trial of several weeks, the management of the paper is more enthusiastic than ever about it, and readers continue to send in words of commendation daily. One of the most appreciative is Dr. Joseph H. Salov, a leading optometrist, and past president of the New Jersey Optometric Association. Says Dr. Salov, addressing the editor of the Newark Evening News: "It would be unfair for me or any one else who realizes the amount of good that will result from your recent change in the style of type you use in the makeup of the News if this was not recognized, appreciated and so acknowledged by every one interested in the conservation of vision; for it is the accumulated unnecessary strain on the eyes, due to the extremely small and poor type used in many newspapers, that hastens the day when artificial aid must be sought. Although not versed in the nomenclature of type you have been using for the Evening News, it is of a style and charac-

WHAT'S WHAT IN THE FEATURE FIELD

Alexander Cairns to Write Daily Editorial Articles—"Bill" Roper Becomes Autobiographical—Valentino Still a Feature—"An Attic Salt Shaker" on Market

ALEXANDER CAIRNS, preacher, lecturer and essayist, will write a series of daily editorial articles for King Features Syndicate, Inc., New York, beginning Jan. 3.

ALEXANDER CAIRNS

Dr. Cairns has contributed many special articles to newspapers but his contract with King marks his debut as a regular daily feature writer. His fame as an orator is said to be nationwide. On Chattanooga circuits he has spoken in

every state. He is also a frequent radio broadcaster.

Born in Belfast, Ireland, Dr. Cairns was brought to this country when 14 months old. His father was a circuit riding Methodist preacher. The son worked his way through school and the University of Michigan. He was engaged in educational work in Japan for four years after college. Then he returned to America, where he located in Newark, N. J., to become pastor of a church there and later an ardent spokesman for temperance.

W. W. "Bill" Roper, coach of the Princeton football team, this year's champion of the "Big Three," is writing his life story and choosing an all-American eleven for Johnson Features, Inc., Cleveland and New York.

O'Dell Newspaper Service, New York, is offering "Valentino as I Knew Him," by S. George Ullman, manager of the late movie star.

"An Attic Salt Shaker," by W. Orton

Tewson, formerly a feature of the *Philadelphia Public Ledger* and the *New York Evening Post*, has been taken over by United Feature Syndicate, and is being distributed as a weekly column.

The Star Newspaper Service, Toronto, has arranged to handle and distribute in Canada the Chicago Tribune's Newspaper Advertising Service.

Dow Walling, creator of the daily strip "Campus Cowboys" for Editor's Feature Service, New York and Cleveland, is recovering from a severe illness at his home in Washington state.

Capt. R. Innes-Taylor has prepared a series on the game of Badminton for the Star Newspaper Service, Toronto.

Theodore Kaufman is business manager and Irvin Hood, formerly of the *Brooklyn Citizen* and *Staten Island Advance*, is news editor of the Park Row News Service, recently organized to act as New York representative for out-of-town newspapers.

Leo Margulies, formerly head of the research department of Fox Film Corporation, is the new Syndicate Manager of Service for Authors. Mr. Margulies succeeding Mr. Richard F. Merrifield who resigned to devote his time to writing fiction for the magazines. This service is offering as their latest releases "Sea Fog" by J. S. Fletcher and "The White Circle" by Carroll John Daly.

Eugene MacLean Newspaper Features, San Francisco, announce their latest serial, "Those Lucky Pullens," a love and mystery story by Malcolm Duart. "Laila," by John Newport, a tale of the days of Christ, is being brought out in book form by the book department of the MacLean syndicate.

WITH THE GENERAL ADVERTISERS

Increased Appropriation in Home Building Campaign Going to Newspapers—Dealers Prefer Dailies—MacConachie Resigns from Dunlop Tire and Rubber Company

BETTER building of small homes and the elimination of the "jerry-builder" will be supported nationally during 1927 by the expenditure of approximately \$5,000,000 in educational newspaper and magazine advertising, L. Porter Moore, of New York City, president of the Home Owners' Service Institute, informed members of the American Construction Council in Cleveland, Nov. 10, at the closing session of its fifth annual convention.

"This will be an increase of about \$1,000,000 for advertising over the expenditures for the current year in this field," Mr. Moore declared, "and the increased expenditures will be made largely in newspaper advertising."

That the building materials and construction industries are awake to this need for educational advertising to produce better homes was indicated by the report of the Home Owners' Service Institute that 34 leading associations and manufacturers have, for the first time co-operatively, this year combined for this purpose with the building of model demonstration homes throughout the United States, supported by newspaper and magazine advertising, and the local aid of the National Association of Real Estate Boards, the American Gas Association and the National Electric Light Association.

The associations in the building materials field include the Copper and

Brass Research Association, Common Brick Manufacturers Association and Wallpaper Manufacturers Association supporting the campaign.

In 1927 this co-operating group is planning to spend \$225,000 for better homes advertising, Mr. Moore stated, \$150,000 in newspaper advertising and \$75,000 in magazine advertising, largely in trade papers.

"The trend is decidedly toward newspaper advertising," he said. "With our newspapers today taking the leadership in advocating better homes and educating the everyday reader on the subject of better building and home ownership for better citizenship, sponsoring model homes and 'Own Your Home' and building materials expositions, the manufacturer is finding that newspaper advertising pays. Our co-operative organization will spend twice as much in newspapers next year than in magazines."

Eighty per cent of replies to a questionnaire sent to 33,000 automobile accessory dealers indicated a dealer preference for newspaper advertising space, according to H. F. Kingsley of the Kingsley-Miller Company, Chicago. Sales of accessories have increased 300 per cent in the last seven years, he said.

G. O. MacConachie has resigned as advertising director of the Dunlop Tire and Rubber Company to become vice-

president in charge of new business of the Brieger Press, New York. He was formerly advertising manager for Joseph P. Day, Inc., New York, assistant to the president of the United States Shipping Board, and publicity director for the Bethlehem Shipbuilding Corporation.

Carl A. Janes, Bristol, Va., chairman of the advertising committee of the American Bottlers of Carbonated Beverages, reports that \$1,049,000 of a proposed \$2,000,000 advertising fund for carbonated beverages has been raised.

Douglas A. Paterson has been appointed advertising manager of the Health Products Corporation, Newark, N. J., makers of Feen-a-mint, succeeding J. J. Larmour.

G. G. Hunter has been appointed sales promotion manager of part of the eastern territory for the Vick Chemical Company, Greensboro, N. C. He will make his headquarters in the New York office.

The City Commissioners of Atlantic City, N. J., have set the seal of their approval on the expenditure of \$200,000 for an advertising campaign during the year 1927. The money will be spent largely on newspapers and magazines.

The Fitchburg (Mass.) Chamber of Commerce has turned to newspaper advertising to attract new industries and new people to the city.

HOUSE MADE AUTO EDITOR

William House has been appointed manager and editor of the automobile department of the *Louisville (Ky.) Herald-Post*. Since his graduation from the University of Wisconsin in 1920, Mr. House has been associated with the *Louisville Courier-Journal* and *Louisville Times*, representing these newspapers in the local automobile field.

"MUSTARD CLUB" COPY INTERESTS ENGLAND

Billboard and Newspaper Space Employed by Benson, Ltd., to Promote New Brand—Teaser Copy Used With Great Effect

Generally admitted to be one of the smartest things that has emanated from a British advertising agency is the effort to boost the sales and consumption of mustard, run by S. H. Benson, Ltd., London.

The scheme was originated by Oswald Green, M. A., a director of Benson's, and made its first appearance on the hoardings, and on the panels of motor omnibuses in the large cities with the question in large black letters: "Have You Joined the Mustard Club." Well-known eating houses in London carried the announcement "This is a branch of the Mustard Club." Written and displayed on the lines of a regular, "public issue" advert, the financial page of some of the dailies a week or two later carried a semi-humorous advertisement announcing the directors, etc., of the Mustard Club, and this was followed by the report of a fictitious court case in which the directors of the "Club," charged with "undue mystification," were ordered to make public announcement of their intentions by Oct. 29. Large spaces were taken on that date to relate that the Mustard Club was open to everyone—all users or potential users of mustard and this is being followed by novel advertisements designed to create further interest.

N. C. LEGAL RATES TOO LOW

The National Editorial Association has just sent a circular to newspapers in North Carolina showing comparisons of legal rates in that and other states.

Ludlow Typefaces to the Forefront

ONE of the principal things that has put Ludlow typefaces to the forefront—and keeps them there is—High Quality Slug Composition.

The Ludlow has speed, for it daily beats the deadline in hundreds of daily newspaper composing rooms. It has versatility, for it produces from 6-point to full-width 72-point faces without mold or machine changes. It saves time, for there is no sorts hunting, no waiting for sorts to be cast, and no time required for distribution of used forms.

But climaxing its speed, its versatility and its economy is—the day-in, day-out high quality of Ludlow slug-lines which can be cast new in sufficient quantities to print the biggest runs of ads and heads. Ludlow quality makes an irresistible appeal to those who want things done quickly—yet, done right.

As an advocate of clean-cut and attractively printed pages—as a believer in the value of quality typography for increasing advertising linage—let us send you complete details of the value of the Ludlow for your plant.

New York: 63 Park Row
Boston: 470 Atlantic Ave.

The Buffalo Times

J On Monday, Nov. 1st, started running its new battery of Goss presses which were purchased two years ago and which have been under the course of erection in the Times press room for the last four months.

The battery extends straight through the Times building, one full city block from Main to Washington streets, and consists of 16 units, with five high speed double folders, which admits of the presses being operated as five sextuples, four octuples, three decuples or in other combinations when necessary.

These presses occupy the entire first floor and basement under it, of the new Times Building, which is 40 feet wide by 200 feet deep, extends through from Main to Washington streets adjoining the regular Times Office building.

The Times plant is now one of the most complete in the United States, and is equipped to print its papers with the speed and dispatch necessary to serve promptly and efficiently its large and growing clientele in Buffalo and surrounding territory, the new plant overcoming a press handicap under which the paper has labored for the past two years.

THE BUFFALO TIMES

NORMAN E. MACK

ADVERTISING AGENCY AFFAIRS

Meeting Called for Nov. 22 to Form Association of New York Advertising Agencies—St. Louis Agency Changes Its Name—G. D. Wiley Opens New Firm in California

PLANS to form a permanent association of New York advertising agencies will be discussed at a meeting to be held at the Advertising Club of New York, Nov. 22, under the auspices of the Newspaper Credit Managers Association of which W. B. Cozzens is chairman and Harold H. Keefe, secretary.

In addition to possible organization of the agency association, purposes of the meeting are listed as follows:

1. To provide a better means of checking credits.
2. To supply more detailed and accurate credit information on all advertisers.
3. To increase the agent's profit.

The name of the Britt-Schiele Advertising Company, St. Louis, has been changed to Britt-Gibbs Advertising Company, following the withdrawal of Seymour Schiele. Frank P. Gibbs continues as president. George H. McCormick, formerly of the *Houston* (Tex.) *Post* and the McCormick-Van Demark Advertising Agency, Houston, has joined the agency as account executive.

John L. Tait, formerly of the Fisher-Brown Advertising Agency, and more recently in the publishing business, has joined the staff of the D'Arcy Advertising Company, St. Louis.

George D. Wiley, formerly president and general manager of Wiley, Dummer & Bevis, Inc., advertising agency in Miami, Fla., has announced the opening in Long Beach, Cal., of the George D. Wiley Company, at 414 Kress Building. The new agency will offer a commercial art service as well as general advertising.

Associated with Mr. Wiley are Bernal E. Clark, formerly production manager of Wiley, Dummer & Bevis, Inc., who will

act as head of the copy department; and Eduardo C. Sandback, formerly of the advertising department of the Onyx Hosiery Company of New York, who will head the commercial art department.

C. R. Lawson, for the past ten years advertising and sales manager of the Warner Industries, of Ottawa, Kan., has resigned to become associated with the Potts-Turnbull Advertising Agency at Kansas City, Mo. Mr. Lawson will be an account executive.

R. F. Shults has joined the Joseph Richards Company, New York, advertising agency, in charge of the newly inaugurated outdoor advertising department. During the past eight years, Shults has served as manager of the Atlanta, Ga., branch of the Thomas Cusack Company and as manager of the Rochester, N. Y., branch of the General Outdoor Company.

Don S. Tarvid has opened an advertising agency under his own name in Chicago. He was at one time advertising manager of the Leiter Building Stores.

The L. R. Uhlenhart Advertising Agency and the M. G. Jonas Advertising Service, both of Los Angeles, Cal., have merged under the name of the Jonas-Uhlenhart Advertising Agency.

The Stack Advertising Agency, Chicago, has changed its name to the Stack-Goble Advertising Agency.

Clarke Ashworth, who after serving an apprenticeship on the *Toronto Globe*, was invited by Lord Beaverbrook to join the staff of the *London Daily Express*, has returned to Canada and joined the advertising agency of Campbell-Ewald, Ltd., Toronto.

Language newspapers for this company is placed by Louis Kram, Inc., 1440 Broadway, New York.

Lord & Thomas, 247 Park avenue, New York. Handling the account of Beecham Estates, Ltd., Beecham's Pills, 417 Canal street, New York.

Myers, Beeson, Golden, Inc., Pershing Square Bldg., New York. Placing the advertising of the Watson Stabilator Company, "Mot-Acs" Hot Water Heater for automobiles, 102 West End avenue, New York City.

Nelson Chesman & Co., Pound Office Bldg., Chattanooga, Tenn. Now handling the advertising of the Good Grape Company, Beverage, Chattanooga.

Olmstead, Perrin & Leffingwell, 250 Park avenue, New York. Sending out orders to newspapers in various sections for the Brown, Durrell & Co., Gordon Underwear, Boston, Mass.

John O. Powers Company, 247 Park avenue, New York. Placing the account of the Mum Manufacturing Company, 1106 Chestnut street, Philadelphia, "Mum" deodorant.

Wm. H. Rankin Company, Tribune Tower, Chicago. Placing the orders with newspapers

Our Customers Write Our Ads

Lawrence, Kansas, Daily Journal-World Says—

in various sections for B. F. Goodrich Company, Zippers, Akron, Ohio.

Redfield Advertising Agency, Inc., 34 West 33d street, New York. Placing the account of the American Lead Pencil Company, 220 Fifth avenue, New York, Venus Pencils, Blue Band Velvet Pencils and Unique Thin Lead Colored Pencils.

Frank Seaman, Inc., 470 Fourth avenue, New York. Placing orders with newspapers in selected sections for R. B. Davis Company "Cocomalt", Hoboken, N. J.

Alfred J. Silberstein, Inc., 116 W. 32d street, New York. Handling the account of Joseph Spector, Pianos, 1. E. 37th street, New York City.

J. Walter Thompson Company, 244 Madison avenue, New York. Sending out orders to newspapers in selected sections for the U. S. Rubber Company, "Globe Brand Rubber Arctics," 1790 Broadway, New York City.

Vredenburg-Kennedy Company, 171 Madison avenue, New York. Placing orders with some New York City newspapers for the Carbo Septic Corp., 303 Fifth avenue, New York City.

Young & Rubicam, 285 Madison avenue, New York. Again sending out orders to newspapers in various sections for the Coldak Corp., Electric Refrigeration, New York City.

AMBROSE LAMBERT DEAD

Ambrose Lambert, 50, member of the staff of the *Boston Post*, died at his Boston home Nov. 15. He was at one time London correspondent of the *New York Sun*. During the World War he was in charge of the English Bureau of Public Information, handling publicity for the British government. After hostilities he went to Russia to report operations of the Bolshevik army. He was said to have been the first newspaper man to publish interviews with Lenin and Trotsky.

NEW PRESS ORGAN

The first issue of the *North Carolina Press*, official organ of the North Carolina Press Association, with B. Arp Lowrance, newly elected field secretary of the association, as editor, is fresh from the press. The publication will make its appearance monthly.

Newspapers in North Carolina, it is stated, get only about one-third the legal rate paid in other states.

COAST CHAIN TURNS TO NEWSPAPERS

Safeway Stores Drop Free Circular Idea When Vice-President Hears Merits of Newspapers Told at Convention

That another merchandising organization has become completely sold on newspaper advertising as opposed to house-to-house distribution of advertising is indicated by the abrupt discontinuance of the *Safeway Weekly*, a free advertising newspaper circulated by the Safeway Stores, Inc., Los Angeles, a chain of 500 grocery stores.

The change was made due to the economic waste entailed in the distribution of 225,000 copies of the paper weekly, and the public's refusal to take kindly to indiscriminately circulated advertising matter, even though styled a "paper."

Edward Dale, vice-president of Safeway Stores, came to the decision regarding such a change in advertising policies, while attending the National Chain Grocers' Association at Buffalo. He was influenced by the talks and papers read at the convention that pointed to the daily press as the best medium for reaching the public quickly. His telegram sent here reads as follows:

"Safeway Stores, Los Angeles:

"Advertising papers and talks before today's session of the National Chain Grocers' Association point unanimously to newspaper advertising as our best medium for reaching the public quickly and effectively. Suggest that arrangements be made to use the newspaper for our full advertising program."

FIRE RAZES VIRGINIA WEEKLY

Fire on the afternoon of Nov. 13 destroyed the newspaper plant of the *Halifax* (Va.) *Record-Advertiser* resulting in a loss of \$11,000.

HOW WE SERVE THE PUBLISHER

A newspaper publisher, located in a city within the so-called 50 mile New York City trading radius, wanted to prove to national advertisers that his market is wholly independent and cannot be considered as a part of the New York City market.

We were called in to prepare the campaign, and our survey showed that the people living in this market are influenced in their buying only by the advertising columns of their local newspaper. The dealers are prosperous and have no fear of New York City competition. Therefore, national advertisers who wish to capture this market cannot depend on New York City circulation, but must advertise in the local dailies.

We are ready to study your market and to prepare a campaign that will conclusively prove that it is independent of any surrounding markets, and tie up its value with your newspaper.

"Tie Up Your Market With Your Newspaper"

Is your Product sold in the ? Hardware Store ?

ARE YOU GETTING YOUR SHARE IN NEW YORK STATE

How much would it be worth to you if 2,841 hardware dealers feature your product daily in their stores? Can you realize what your volume of sales in New York State alone will amount to if you can get these 2,841 dealers to push your product over their counter day in and day out.

You can not only win their co-operation but you can get them to work for and with you by advertising direct to the consumer and letting the 11,000,000 buyers in the Empire State know the merits of your product.

The New York State hardware dealer is one of the most progressive merchants you will find in the retail field. He will readily co-operate with any manufacturer who has a meritorious product and who is willing to show he has confidence in his product by advertising it in the daily papers to the consumer.

Here are 2,841 dealers. You can hire them with very little investment. Reach them through this group of daily newspapers.

WHAT THEY ARE SAYING

RADIO'S PLACE IN ADVERTISING

"RADIO has not replaced any existing force, nor do I believe it will ever replace any existing force. It will amplify and complete the facilities that are already well established."—David Sarnoff, Radio Corporation of America.

NEWSPAPERS MUST ENLIGHTEN PUBLIC

"THE successful newspaper must have a purpose. It must seek to enlighten the public by presenting true facts. It must seek to instill in its readers a love for the finer things of life. It must seek to inspire constructive work. To accomplish such purposes, the newspaper of today must have character."—Governor Ed Jackson of Indiana, before Indiana High School Association.

GLORIFYING TRIVIALITY

"OUR greatest weakness in newspapers today lies in our tendency toward giving prominence to trivial matters because they will attract the superficial attention of the readers instead of allowing the proper emphasis to be given to the fundamentally important news of the day."—Roy L. French, Director, Department of Journalism, University of North Dakota.

EMOTIONAL APPEAL BEST

"COLD facts alone do not accomplish the purpose of advertising. We do not believe that people are interested or buy goods through logic or pure reasoning. People are persuaded through their emotions. Facts do not sell many goods. We try to stimulate interest by using emotional appeal."—Everett R. Smith, Hartford Advertising Man, in an Address at Worcester, Mass.

WHY SPOIL GOOD COPY WITH POOR MATS?

"IT has always been a mystery to me why men will spend \$50,000 to \$100,000 on a single advertising campaign and, at the same time, permit the use of faulty mats which greatly detract from the effectiveness of their advertisements. It should be remembered that, even in a first-class mat, some of the detail is lost in recasting and that, unless every precaution is exercised to procure a deep, clean matrix, the result will be smutty and shallow."—John P. Keating, mechanical superintendent, *Milwaukee Journal*.

TWO THINGS TO SELL

"IN selling national advertising the newspaper has two things of equal importance to sell to the advertiser. The first is the value to him of the market which it covers and the second is the extent to which it covers the market. In other words, what you are offering is not only circulation and influence of a medium, but also a place in which advertising can be done profitably."—William A. Thomson, director, Bureau of Advertising, American Newspaper Publishers Association.

ADVERTISING FORMS PUBLIC'S HABITS

"WITHIN the past 75 years we have found that the habits of the public can be controlled by advertising. Today most of our habits are being created and controlled by national advertising. No manufacturer can ever rest content, even though he may have created a nation-wide habit, unless he continues to dominate that habit by dominating advertising. If he loses control for a moment, someone else will come along and change that habit to the advantage of his own product."—Everett R. Smith, advertising manager, Fuller Brush Company.

"BOOSTING"

"THE word 'boost' is the most seductive word in the newspaper vocabulary and should be eliminated forthwith. In the good old days the town pack horse was not expected to give anything like money. He could give of his space and heavy drafts were made on it. Now when there is a community enterprise under way, the editor's check is as good as the banker's, and sometimes larger. But after the merchant has contributed money, does he also throw in a bolt of cloth? Does the dentist pull a tooth? Does the doctor extract a tonsil? No, their money contribution relieves them from further obligation. But the editor! He must in addition to his cash, give lavishly of his stock in trade, every inch of which is costing him 40 cents. If this is heresy, bring on your lighted fagots."—C. L. Hobart, president, Missouri Press Association.

THE GREAT PRESENT

"OURS is one of the most absorbing and interesting of all professions, first because it treats of the great present which Pascal finds sorely neglected, and, second, because of its limitless opportunities for responsible public service. To dig patiently for the truth and then to tell the truth clearly, fearlessly and fairly; to narrate the events of life, seen and heard, whether they be beautiful, disappointing, surprising or extraordinary; to expose without passion the problems which confront humanity; to uncover turpitude and injustice—such is the task of the press which should spread the light."—Joseph E. Sharkey, Associated Press correspondent, speaking before Press Congress of the World at Geneva.

Has the greatest electrical Power Pool in the world

Although Illinois has but 6% of the country's population, it has 9% of the electric consumers. The interconnected electric systems of Illinois operate more than 7,000 miles of high voltage transmission lines which extend into practically every county in the State.

In 1925 electric generating stations in Illinois had an aggregate capacity of 2,364,000 horse power. 1,487,670 customers used the central station company's power. 225,000 investors are interested in Illinois' gigantic industries and 73% of the homes in Illinois are wired for electricity. 96% of Illinois' electricity is generated from coal mined in Illinois.

These indisputable facts are convincing evidence of the richness of Illinois as a market. What a field it offers for electrical appliances. How can any advertiser fail to take advantage of this market?

Let these newspapers assist you.

CLASSIFIED ADVERTISING

Booth Newspapers Hold Classified Meeting at Saginaw, Mich.—"Christmas Shoppers Note Book"—Changes in N. Y. Graphic's Department

SUBJECTS concerning the writing of copy, the building of classified advertising in all its branches, and the detail work of handling transactions, were on the program of a recent meeting of the classified advertising directors of the Booth Newspapers held at the plant of the *Saginaw* (Mich.) *News Courier*.

The meeting was conducted by John H. Tovey of the Basil L. Smith System.

Addresses were made by A. R. Treanor, manager of the *Saginaw News Courier*; J. R. Taylor, *Flint Daily Journal*; E. T. Lockhart, *Grand Rapids Press*; C. M. Bennett, *Muskegon Chronicle*; W. J. Babb, *Saginaw News Courier*; Briggs Beurmann, *Ann Arbor Times News*; G. D. Chow, *Jackson Citizen Patriot*; Frank Becker, *Flint Journal*; and Mr. Hudson, *Bay City Times Tribune*.

Basil Smith in a message to the meeting said in part:

"The classified worker is the connecting link between the public and a newly developed public utility which has won for itself a place in that group of services which includes the telephone, the telegraph and the street railway. As we expect exact and skilled service from the employees of these later utilities, so the public has a right to expect from classified advertising workers the same intelligent understanding and knowledge of practice in this particular field. It is to this end that all of our efforts in training must finally be directed.

"When we think of holding new business brought into the medium, we think actually of only one thing—and that one thing is the producing of results for these new advertisers. It is to this end that we insist upon proper classification and indexing, clean columns and full

description copy. When we have seen to these features of a classified medium, we have done the most needed thing for the permanent development of new business."

The *Memphis Commercial Appeal* has announced "The Christmas Shoppers' Notebook" as "a new, unique and easy Christmas shopping plan that Memphis merchants have provided to make Christmas shopping as easy for you as possible."

"No need to run all over town to find what you want," the notice to readers continues. "Just turn to 'The Christmas Shoppers' Notebook' in the Commercial Appeal classified ads and there you will find Christmas suggestions for her, for him, for the home and dinner and decoration."

To interest merchants in buying classified space under the notebook classification, a series of effective promotion advertisements have been produced for publication in display space.

"It's so much easier to select gifts the classified way than to walk for miles" is the burden of ballyhoo.

William F. Metz, classified advertising manager of the *New York Evening Graphic*, has reorganized the classified advertising department of that newspaper. He announced the following additions to the staff this week:

Arthur Nottenberg, J. R. Jacoby, E. G. Starck, G. R. Thompson, W. E. Perkinson, Harold Sutcliffe, Thomas Fay, all from the *New York American*; J. C. Bitoff of the *New York Evening Telegram*; Haddam Thomas of the *New York Herald Tribune*, and J. Sanders of the National Advertising Agency.

NEW PLANT ADDITION

Buffalo Times Occupies Adjoining Building—16 Press Units Installed

The *Buffalo Times* has just moved into its expanded building, the company having occupied an adjoining building extending from Main through to Washington street. The editions of Nov. 14 were published from the new headquarters. Sixteen high speed, low construction Goss press units have been installed.

The editorial staff has been moved into the remodeled building which also houses the new press room. The newly occupied building is seven stories high, 40 feet wide and 200 feet deep. Offices in the old *Times* building have been given over to quarters formerly occupied by departments which have been moved into new surroundings.

Plans for the expansion have been under serious consideration since a disastrous fire visited the *Times* plant on Jan. 18, 1920, causing a loss of nearly \$1,000,000. Increased circulation and greater advertising volume have made publication difficult for two years or more, and have forced the expansion which is now in the process of completion.

A new composing room will be ready for use by the end of this month having been equipped at a cost of more than \$50,000. W. E. James will be superintendent of the new room and will have a working force of 85 men.

A. N. P. A. TO MOVE

The two new service departments, mechanical and traffic of the American Newspaper Publishers' Association, now located on the sixth floor of 270 Madison avenue, New York, will move to offices adjoining the headquarters office on the 15th floor of the same address on May 1. L. B. Palmer, manager, announced this week.

NEW YORK PUBLISHERS NIP HOCKEY BALLYHOO

(Continued from page 5)

"We don't give much space to advance hockey releases, treating the sport only as news," he said. "All professional sport should be judged on its news value."

Julian S. Mason, editor-in-chief of the *New York Evening Post*, said he did not consider that professional sport was overplayed by the newspapers.

Few deny that press agency and circus ballyhoo is the life blood of the promoters. James W. Jennings, *New York Evening Graphic*, who declares one of his pet hobbies is "pricking pretty tales of fiction designed to bunk the dear old public," seized on the announcement this week that Gene Tunney might desert Tex Rickard and fight for Humbert Fugazy and informed his readers it was simply part of the "ballyhoo extraordinaire" to boost box office receipts for Tunney's vaudeville act which opens at Youngstown, O., Nov. 22. Tunney is going on the stage for a period of 15 weeks at the rate of \$7,000 per week.

"How well the Tunney press bureau is doing its stuff may be judged by the fact that one week from Tuesday, the very day that Gene appears on the stage in New York, he will have another conference with Fugazy at the Hotel Astor, after which the champion will give a dinner to newspaper men and tell them something that will warrant headlines and send the crowds to the theater where Tunney will appear," Jennings wrote in the *Graphic* of Nov. 18.

"Just a few weeks ago Tunney tendered a dinner to the press and in a speech said he would fight for Rickard. Now it's Fugazy, tomorrow it may be Lew Raymond and Jimmy Ambrose.

"We may expect all sorts of sensational reports from Tunney until the vaudeville act ends."

Imperial METAL

Wins National Recognition

THE Imperial Plus Metal Plan now has a National Recognition as the standard method of caring for type metal.

The use of the Plus Plan has become so widespread that a visit to almost any newspaper plant will find the Plus Plan at work. In many cities the Plus Plan is in every newspaper plant. Regardless of other differences they unite in their approval of this method of keeping type metal up to its highest efficiency.

The Plus Metal Plan has met with the approval of both the stereotyping and the composing rooms of thousands of newspapers. It is employed by village weeklies and metropolitan dailies with equal success.

The Plus Plan has won this National Recognition because it is the most reliable and economical method known for keeping type metal in A-1 condition at all times and adding years of life to the metal. If you are not depending upon the Plus Plan, by all means send and get a copy of the Plan.

IMPERIAL TYPE METAL CO.

Manufacturing the following metals:

HARRY E. FIRST

Former President of International Circulation Managers Assn., Dies

Harry E. First, 65, former circulation manager of the *Cincinnati Enquirer* and later with the Methodist Book Concern, died Oct. 27. He had been in ill health for three years, and only on rare occasions had he been able to engage in active work during this period.

Mr. First was born in Hoopston, Ill., and educated at Valparaiso University. He came to Cincinnati when a young man and entered the Railway Mail Service. He remained with the mail service for a number of years. In 1895 he was appointed assistant superintendent of the fifth division of the railway mail service.

He resigned this post in 1904 to take charge of the circulation department of the *Enquirer*. In 1910 he was elected president of the International Circulation Managers Association.

Mr. First remained with the *Enquirer* until 1916, when he resigned to become director of circulation of the Methodist Book Concern publications.

Besides his wife, Mr. First is survived by eight children.

"Harry E. First played the game of life on the square," H. C. Kloecker, present circulation manager of the *Enquirer*, said in tribute. "Never in the 14 years that I was associated with him on the *Enquirer* did he ask any employee of his department to take an unfair advantage of a competitor. He was a true and loving father to his large family. He sacrificed business opportunities in order to keep his home intact. No sacrifice was too great to make for his family."

JAMES O. WINSLOW

President of Yonkers (N. Y.) Statesman Dies After Fall from Horse

James O. Winslow, president of the *Yonkers (N. Y.) Statesman*, died Sunday morning, Nov. 14, of heart failure following a fall from a horse which he was riding. His mount stumbled and he was pitched forward, but broke the fall by throwing his arms about the horse's neck. He remounted, assuring friends who were with him that he was unhurt, but a moment later toppled from the saddle.

Mr. Winslow was a graduate of Cornell University and began newspaper work on the old *New York Herald* when James Gordon Bennett was in control. During the war he was a lieutenant in charge of Naval Communications in New York City. After the war he became connected with the Morris Plan bank in New York. About five years ago he became part owner of the *Mount Kisco (N. Y.) North Westchester Times*, and later became associated with J. Noel Macy in the formation of County Publishers, Inc., which controls the *Yonkers Statesman*, *Tarrytown Daily News*, *Ossining Citizen-Sentinel*, and the *Port Chester Daily Item*.

Interment was at Ithaca, N. Y.

Obituary

GEORGE H. SEWALL, 67, vice-president of the *Carthage (Mo.) Press*, and brother of W. J. Sewall, president of the company, died in that city on Nov. 14. He published the *Virden (Ill.) Reporter* for 15 years before going to Carthage 27 years ago. Burial was in Carthage.

J. MAX COULTER, 38, member of the *Houston (Tex.) Press* staff and formerly a reporter on the *Arkansas City (Kan.) Traveler* staff died recently following an operation.

WILLIAM WHITSON WORKMAN, 49, manager of the Richmond district of the General Outdoor Advertising Company, died Nov. 11 in a Richmond hospital after an illness of five weeks.

LOUIS A. LEONARD, 81, a veteran newspaper man of Cincinnati, died at his home

there a few years ago following a paralytic stroke. Mr. Leonard formerly was on the editorial staff of the *Times-Star*.

HENRY B. BESS, 68, collector of the *Peoria (Ill.) Star* the last five years, died of a heart attack Nov. 9.

J. F. SATTERWHITE, 78, father of Lee and Ed Satterwhite, editors of the *Wortham (Tex.) Journal*, died Nov. 10.

JOEL F. LACROIX, 59, of Worcester, Mass., for 44 years a compositor for the *Worcester Telegram*, died Nov. 13 at the Union Printers' Home at Colorado Springs, Col., where he went last August for his health.

FRANK CARPENTER, 56, editor of the *Estherville (Ia.) Democrat*, died suddenly Nov. 6 in Chicago where he was undergoing treatment following a nervous collapse three months ago. Mr. Carpenter had been associated with the *Democrat* 40 years, starting as an apprentice and later becoming editor and publisher.

EDWARD C. CULLINAN, former sporting editor of the *Rochester (N. Y.) Herald*, died recently and was buried in Genesee, N. Y. Cullinan became secretary of the Rochester International League baseball team after leaving the *Herald*.

MISS LOLA BARTHOLOMEW, 30, an employee of the advertising department of the *Wichita (Kan.) Eagle*, died Nov. 11 following an operation. Miss Bartholomew was employed in the classified department.

HERBERT A. KENNY, Boston attorney and former newspaper man, died at the Boston City Hospital Nov. 9, following a heart attack. One of the most widely known attorneys at the Massachusetts bar, Kenny was formerly an editorial writer on the *Boston Herald* and secretary to John H. Holmes, then publisher. He was also for several years a reporter on the *Boston Post* and secretary to the late Edwin A. Grozier, publisher. For a time, he was secretary to the late Richard Harding Davis, war correspondent and author.

A. B. GREESON, manager and part owner of the *Salt Lake Mining Review*, Salt Lake City, Utah, for about 20 years, died at his home last week at the age of 66. Mr. Greeson was born in Indiana and came to Salt Lake City in 1890 as circulation manager of the old *Salt Lake Times*. He was later advertising manager of the *Salt Lake Tribune*.

NEWS MAN PLEADS GUILTY

Gerald Dwyer, 27-year old copyreader formerly with the *Brooklyn Eagle*, pleaded guilty of manslaughter in the first degree, Nov. 17, before Judge Morris Koenig of General Sessions Court, New York, and will be sentenced Nov. 24. He will receive from 10 to 20 years. On Oct. 3 he shot and killed Joseph Ruffner, a copyreader of the *Bronx Home News*.

DAILY MERGES RADIO STATIONS

WEBB and WJJD, two of Chicago's radio stations, have been banded together in the presentation of programs under the direction of the *Chicago Herald & Examiner*. Heretofore both stations have shared the same wave length on an hourly basis, but under the joint operation by the newspaper the hours are flexible and all features developed by the *Herald & Examiner*, as well as the musical aggregations of the Edgewater Beach Hotel and the Palmer House, can be put on the air for unlimited periods at any time.

URGE COMMERCIAL UNITY

Thirty members of the Publicity Club of Dublin journeyed to Belfast on Nov. 3, as the guests of the Ulster Advertising Club, and were welcomed by the Lord Mayor of Belfast, who said he would like to see all Ireland united in at least the commercial sense. This plea was echoed in the speeches at the luncheon that followed the civic welcome. Sir Robert Baird, D. L., proprietor of the *Belfast Telegraph* and president of the Belfast club, presided, and in a speech said he hoped the function would become an annual affair.

BUY CHRISTMAS SEALS

*The first requirement
of holiday etiquette*

THE use of Christmas Seals is more than the correct thing to do. It is the right thing to do.

In a few short years, the organized health work of the Tuberculosis Associations has helped to cut the tuberculosis death rate by more than half. This work is financed by the sale of Christmas Seals.

At the head of your Christmas list, write "Christmas Seals." Buy them. They bring to you the pleasure of unselfish generosity. They bring health and happiness to many. Buy Christmas Seals first—and then seal every letter, parcel, and holiday Greeting Card with these holiday health seals.

THE NATIONAL, STATE AND LOCAL TUBERCULOSIS ASSOCIATIONS
OF THE UNITED STATES

SOLID NEWSPAPERS RISE FROM MERGERS

(Continued from page 3)

estimate of the value of the respective properties was accepted without question. The new company was formed, the papers brought under one roof, the principal belligerents among the management pacified or sent on their way, the rate card adjusted, and the papers were back at their business of watching the city rather than each other. And incidentally, dividends are being earned on the new company's stock.

Probably the classic among all mergers of recent years is that arranged in Pittsburgh four years ago. At that time, as most EDITOR & PUBLISHER readers recall, Pittsburgh had four evening and three morning papers, five of them having Sunday editions. Pittsburgh publishers for years have found it easy to co-operate on questions of mutual interest and it is probably the only city in the country where the business before them could have been done as they did.

Trade in the steel country was not so good in 1922 and early in 1923 and the four evening, three morning, and one Sunday newspapers fighting for the business that was destined to Pittsburgh, at least one and probably all of the papers would receive a smaller share than was necessary to support them as they liked to be supported.

The owners of the several newspaper groups canvassed the situation. Here was the *Post*, morning and Sunday, and the *Sun*, evening, a closely-held, well-knit organization. Its operations were profitable and it represented the Democratic persuasion in a region where Democratic papers were scarce. Here was the *Press*, evening and Sunday, a popular journal with the largest individual circulation and for years one of the leaders in advertising lineage throughout the country. Here was the *Gazette-Times*, morning and evening, and the *Chronicle-Telegraph*, evening, profitable, well-financed, and representing the conservative Republican viewpoint.

In any arrangement of the cards, these three organizations were fated to live. On the other hand was the *Dispatch*, old and distinguished morning and evening paper, with an excellent past but unprofitable present, and the *Leader*, evening and Sunday, with a history of several ownerships and a curious reputation in which praise for fighting a courageous battle for public good mingled with and anon with general and unproven charges of venality. Both of these papers had A. P. memberships, a news service which was desired by at least one of the prospective survivors.

Their sale was arranged to the group named above. The old A. P. memberships were cancelled and one of the non-members was granted a new membership. The other non-member declined to agree to some of the conditions stipulated in the Associated Press. The machinery, not the real estate, of the *Dispatch* and the *Leader* was taken over and either used or sold by the purchasers.

Proofs of the circulation lists of both papers were distributed simultaneously to each of the purchasers and a grand amble ensued with all of the old rules of instant sampling and other profit-cutting practices temporarily suspended.

Legal advertising contracts requiring immediate performance were assumed by the purchasers, but no other current obligations were taken over. When the matter settled, Pittsburgh had two morning, one Sunday, and three evening newspapers, and subsequent attempts to establish new dailies have been either abortive or quickly unsuccessful.

Such a transaction has no parallel anywhere in American journalism, but there are numerous examples of less drastic "clean-ups."

Mr. Munsey's charge through the New York City field is recent enough to be remembered by all. Mr. Munsey stepped

into the New York field to stay in 1912, when he bought the *Press*, a morning and Sunday paper. The *Press* had a smaller format than the other morning papers, though it was a "standard" paper, and a piquant concise style of news editing that attracted a comparatively small and discriminating group of readers. It was Republican until Mr. Munsey substituted the "Bull Moose" antlers for the elephant's ears. The *Sun* was also of the Republican tradition when Mr. Munsey purchased it in 1916 and produced from the merger the "*Sun and the Press*," which shortly afterwards became "*The Sun*." The *Evening Sun*, also included in the purchase, was unaffected. The *Press* membership in the A. P. was transferred to the *Sun*, which for years had fought a losing battle in the news service field.

Four years later Mr. Munsey captured the Bennett newspapers—the *Herald*, *Telegram*, and *Paris Herald*. After several experimental weeks, Mr. Munsey somewhat consolidated his numerous possessions, merging the Morning *Sun* into the *Herald* and changing the name of the *Evening Sun* to that of its older morning partner. The *Telegram* followed its accustomed path untouched.

Then in 1923, Mr. Munsey startled Park Row by purchase of the *Globe*. It was immediately merged with the *Sun*, which at last received evening A. P. service. Six months later, in January, 1924, Mr. Munsey bought the *Evening Mail* and merged it with the *Telegram*.

Two months later after a series of "buy or sell" negotiations with the owners of the *Tribune*, he sold his *Herald* to them in March, 1924.

He had in his operations in New York spent \$20,000,000. He had wiped out the *Press*, the *Sun* and the *Herald* as morning paper entities, and the *Globe* and *Mail* as evening paper competitors of his *Sun* and *Telegram*, and after the sale of the *Herald*, he announced that he had completed the task he had set out to do—the elimination of wasteful and uneconomic conditions in the operation of newspapers and the purchase and sale of advertising space.

It is still too early to say whether events will permit Mr. Munsey's judgment to be the last word on that subject.

The advent of three tabloid newspapers, two in the morning, and one in the evening field, during Mr. Munsey's manœuvres have created a new situation. More than a million and three quarter people daily buy these exponents of the new journalism, which hardly existed when Mr. Munsey bought the *Herald*. Some of these daily tabloid buyers have no doubt come from the ranks of those who formerly read or would now read a standard-sized paper, but the circulation totals of the old papers show no shrinkage that can be traced to the tabloid invasion.

The generally accepted theory is that the tabloids have discovered a great body of people who formerly read no newspapers and who find the picture papers an easy method of absorbing information.

Another theory which has not yet had time for test is that people will "graduate" from the tabloids to the standard-sized papers. Up to now the tabloids have counted their semi-annual gains in circulation in the hundred thousands while the standard-sized dailies have been content with the usual gains of the olden days, five or ten thousand increment a year.

Yet, it cannot be said that Mr. Munsey's operations paved the way for the tabloids, or made their task any easier. Only the oldest of the New York tabloids is reputed to rank with the older papers as a profitable enterprise, and practically all of the older newspapers are on a far sounder economic basis than they were before Mr. Munsey "cleaned up the field." It requires no gift of prophecy to predict that the last chapter has not yet been written.

Another variety of "clean up" has been seen in recent years in several smaller cities, where competition between rivals has been sharp and expensive to every-

(Continued on page 40)

Do It, But Do It Right

The evolution of the dry mat since the first more or less crude American dry mat was produced twelve years ago by Wood Flong Corporation has now reached the point where the dry process has become standardized.

The hit-or-miss theory that anyone can use a dry mat, and without proper preparation, has been exploded. Concentrated study of the stereotyping art and of the part the dry mat must play in that art has enabled this Corporation to perfect a dry mat for each particular requirement.

It is said that conditions concerning the printing of daily newspapers are, or should be, the same the country over. While it is true that all can use the same make of print paper, of presses, if necessary, and that all can and should use Autoplates, it is *not* true that all can stereotype successfully with the same grade of dry mat.

We make four types of dry mats, one of which will fit your conditions ideally, and furthermore we can offer you the services of trained experts to coordinate your mechanical departments and teach your men in a few days things that would require many months to learn from experience, and at great cost and irritation to you. We offer also the only proper equipment for using dry mats—perfected after years of experimentation.

Go to dry mats—you must sooner or later—but don't go until you are willing to go at it in the right way.

WOOD FLONG CORPORATION

Stillwater, New York

body, including advertisers and readers.

One situation, which may be regarded as unusually spectacular rather than typical, arose in a mid-western city. Prior to the war, the city's newspapers had gone along somnolently, neither having much loose change to rattle in its purse. One was a morning and Sunday issue, the other a six-day evening paper. After the war came the advertising deluge. The evening paper thought it saw a way to divert a bit more of the flood its way by establishing a Sunday edition. The morning paper retaliated by putting on an evening edition.

Rivalry grew keener and keener and old hates that had been buried for years shook off their shrouds to get into the fray. Circulation contests waged furiously with dinner dishes, pots and pans, penny whistles, grand pianos and seven-passenger limousines being hurled pell-mell at the astonished citizens.

National advertisers were promised everything but the freedom of the city in return for a 1,000-line contract.

Wages skyrocketed, so did rates.

Then came the 1920 deflation and the return of sanity. Advertisers began to count pennies and the newcomer evening and Sunday editions were looked at askance. Income was down, but outgo continued at a ruinous pace. After a few weeks, the publishers buried the hatchet and in the same ceremonies they wrapped the baby Sunday and the baby evening editions, leaving the field as it had been for years before. It was an expensive spree, but it left no lasting headache.

Consolidations of two established properties operating at different hours of the day under one management and in one shop has been especially popular during the past five years and the double-header idea has won many publishers. Purchase by an evening paper of an existing morning paper, or vice versa, is considered a more practical method of fully occupying a field than is the establishment of a new daily in the opposite quarter. The latter method can point to its successes too, but it is less rarely attempted than the former. Surprisingly few adherents are today found for the old idea of using money to start a new enterprise rather than pour it into the vessel made and perhaps marred by another.

No standard procedure or method can be described to cover all consolidations of this type. As a rule the new owner's first concern is to eliminate duplication of work and expense. Circulation lists have to be checked for each of the papers to assure full performance of contract with all readers. Arrangements must be made to adjust differences in circulation rates and a combined rate evolved.

The advertising rate card for the combination is usually set for the first few weeks at a point, say 20 per cent below the sum of the combined basic rates of the former individual papers, pending circulation adjustment.

Then the publisher has to evolve his policy. Will he sell all advertising, national, local and classified, for a straight run through both editions? Will he sell only national for both editions? Will he sell classified for both editions?

Can he sell local display arbitrarily through both editions, even though one goes far into the country beyond the daily range of the merchants' delivery?

Each publisher has to answer those questions for himself and it is to be doubted whether the experience of the man in Connecticut, would be of much assistance to the owner of a "double-header" in Kansas. The most general practice is to sell national and classified advertising to be run for a single charge in both editions. A comparatively few publishers, and these almost invariably having old established properties, sell all space at a single charge for both editions. The more usual idea in recent years is to permit local advertisers to advertise in either edition at a rate based on the circulation of the edition chosen.

Another comparatively recent development among "double-header" operations is the result of strict cost-finding on the Sunday paper. Some publishers find that

their strong Sunday paper carries a weak six-day operation, but these are few. The more usual product of the cost-finding machine, with application of strictly proportioned manufacturing and capital charges to the Sunday paper, was that it was not paying full fare.

It was bulky and expensive and did not carry a volume of advertising sufficient to produce a profit.

This has been met and in some cases overcome by a special rate to advertisers who use both the evening and the Sunday editions on one contract. In fact some publishers refuse to quote a rate for either the morning or the evening or the Sunday edition separately.

The advertiser buys either morning and evening, morning and Sunday, or evening and Sunday. Where the rate is fair to both buyer and seller and adequate service is rendered, this arbitrary rule will not be strenuously opposed by advertisers. The rule alone is not strong enough medicine to cure an inherently weak Sunday edition.

A number of publishers have told the writer that a well managed and competently sold Sunday edition should produce approximately 30 per cent of a newspaper's advertising revenue, but it is hardly safe to draw a general conclusion from that estimate. As stated above, some Sunday newspapers produce considerably more than 50 per cent of the weekly income.

The number of mergers in recent years and their patent success appears to have exploded the belief that a proprietor in the long run gains little by attempting monopoly, for the reason that a given advertiser will spend only so much money with a given newspaper and that with the addition of a morning or an evening issue to his old property, the proprietor merely succeeds in splitting the income or adding to it inappreciably. That thought has been expressed in recent years by men of high standing in the business, but the evidence does not attest its truth.

Success so far has attended the most ambitious effort for monopoly to date in the newspaper field—the operation of two morning, two evening, and one Sunday paper in Springfield, Mass. Since last January, the *Republican* and the *News*, morning and evening, and the *Union*, likewise morning and evening, have been engaged in competition as keen in the editorial, news, advertising and circulation departments as they ever had before the ownership strings of the *Union* were twined in the fingers of Sherman Bowles and his associates in the ownership of the *Republican* and the *News*.

The only merger has been of the two Sunday papers and the establishment of a rate card covering all four editions if an advertiser wishes to buy his space that way. Separate forces are maintained throughout both establishments, and no attempt has been made so far to reconcile their divergent editorial policies. It is the most interesting experiment in journalism that recent years have seen

and its development is being keenly watched throughout the craft.

With the possible exception of Springfield, it may be said that economic pressure, usually exerted by advertisers who felt that they were being overtaxed by the surplus of journals, has been the motive force of the post-war consolidations. Some of the recent mergers have reflected the desire of publishers to intrench themselves impregably against a business rainy day while the sunshine of prosperity permitted the expenditure necessary to buy out a competitor.

Politics appears in a very few, where a man with ambition for office seeks a channel through the "bargain" purchase of a moribund property and later finds his only salvation to be the purchase of a strong competitor and its amalgamation with his first acquisition. That is a rare class and the one which usually vexes the advertiser with arbitrary rules and inequitable rates to pay the freight on a bad investment.

Examining the situation in the large, little fault can be found with principles or their execution in the majority of existent newspaper consolidations. Where monopoly has resulted, extraordinary efforts have been noted to serve all shades of opinion with impartiality. Advertisers have not been mulcted; in fact rates of most newspapers, consolidated or not, could not be reduced 5 per cent without disaster.

Circulation methods, freed from the rowel of unbridled competition, are sounder than they were a decade ago, and the advertiser is getting far more for his 60 cent dollar of today than he did for his 100 cent dollar in 1914.

The consolidation wave has engulfed many a good newspaper which was a boon to its community and a credit to its producers, but it also has taken from the scene most of the shysters, political pack horses, beggars and blackmailers which disgraced the profession and harassed many communities. The net balance is undoubtedly in the favor of the industry and the nation.

VANDERBILT SUED

Ralph, Former Los Angeles Manager, Seeks \$150,000 Libel Damages

(By Telegraph to Editor & Publisher)

LOS ANGELES, Nov. 18.—With \$150,000 as the damages sought, trial started yesterday in Judge Walton J. Woods court with Cornelius Vanderbilt Jr., as defendant and Edward J. Ralph, former director and executive official on Vanderbilt's staff when the latter was publishing, as plaintiff.

The suit for damages is based on an article which was published in the May, 1924, issue of a nationally circulated magazine which was purported to be an interview with Vanderbilt, in which he related his difficulties in launching the *Los Angeles Illustrated Daily News*.

Newspaper-Making in an Eventful Three-Quarters of a Century

The New York Times published, in connection with its Seventy-fifth Anniversary, on September 19, 1926, a 64-page rotogravure section, telling in text and beautifully reproduced pictures the story of The Times.

This interesting section describes the modest beginnings and the handicaps under which a newspaper was produced in the early fifties, compared with the present-day machinery which enables The New York Times to print 8,000 thirty-two page newspapers a minute.

The section has now been bound in stiff black cloth covers, attractively lettered in gold. It is well worth preservation, particularly by all those connected with or interested in newspaper-making.

Bound copies at 50 cents or unbound at 10 cents each may be purchased at any office of The New York Times or ordered by mail by addressing

75th Anniversary Department

The New York Times

Ralph contends that inference was given in the article that he, Ralph, was one of the employees dismissed who was referred to as being guilty of treachery and efforts to wreck the newspaper plant and destroy the enterprise.

Vanderbilt did not appear personally in court, he was said to be in New York and was represented by Attorney Paul H. Valley, who contended that there was no cause of action as Vanderbilt was not the editor, publisher or owner of the magazine in which the interview appeared. The answer set forth that the interview was oral and under California laws did not constitute libel.

BRITISH ADVERTISING COMMITTEE

The following have been appointed chairmen of the various committees of the British Advertising Association for the ensuing twelve months. Finance: Lieut.-Col. E. F. Lawson, D. S. O. Vigilance: Mrs. Ethel M. Wood; Character Development: Sir Charles F. Higham; Speaker's Bureau, T. Day.

Introducing "Those Lucky Pullens"

by Malcolm Duart

It's a comedy!

It's a love drama!

It's a mystery!

It's a study of the psychology of women that'll make husbands sit up and say:

"My gosh, that sounds familiar!"

It'll make wives burst out: "Just like Mrs. Jones—exactly."

And it will make every reader puzzle through sixty chapters to learn where the money came from that descended upon the heads of

"THOSE LUCKY PULLENS /"

—in the midst of of their neighborhood troubles.

Built for newspaper use.

Sixty chapters; beautiful photographic art; a full line of excellent promotion material with daily synopsis.

NEWSPAPERS BOOSTING SOUTH'S HIGHWAYS

New Orleans Item-Tribune Completes Survey With Co-operation of Other Dailies—Brings Road Data Up to Date

Leading newspaper publishers in the Southern States, including the border States of Missouri, Kentucky, Oklahoma, West Virginia and Maryland have cooperated with the *New Orleans Item and Morning Tribune* in the preparation of a survey of Southern roadway and highway conditions, James M. Thomson, publisher, announced this week.

A separate article has been prepared in each of these states bringing up to date road building information on the Southern highway system.

Contributing publishers will have exclusive release rights in their respective states.

Explaining the scope and purpose of the series, Mr. Thomson says: "The idea of this series occurred to me when on a survey we found that many of our own people in New Orleans were in almost total ignorance of the extent and development of the Louisiana highway system. During the past year we have sent out from our office to cover some 1000 miles of Southern highways. We find many people of other Southern States densely ignorant of the wonderful roadway development of the South.

It is not surprising, therefore, that the automobilists of America for the most part look upon the South as 'no man's land' from the tourist's standpoint.

The states represented in this series are spending this year upwards of a hundred and fifty millions of dollars on roadway building, and some of them have passed through highway systems far better than those of many Northern and Western sections.

The South is really on the national map today but it does not realize the fact itself and consequently the country does not know it.

The trouble is, of course, that the highway systems are publicly built and financed, and not advertised.

I believe that anyone who reads what the South has already done and what it is scheduled to do in through highway building will be more than repaid for the time spent on these articles.

A vast amount of work was necessarily done by the publishers preparing this series. It was contributed partly as a courtesy in response to our request, and partly as a contribution to the spread of information on Southern road development.

Publishers wishing proofs of the articles may have them free of charge by application to him, Mr. Thomson said.

ROYALTY VISITS DAILY

Royalty viewed the plant of the *Wash. Times*, when the Royal Romanian party was in that section of the Northwest last week. Princess Ileana and Prince Nicholas of Rumania added their collection of mementoes of their trip to the West slugs of type metal in the machines in the Times composing rooms upon which their names had been set by Mrs. E. C. Erickson, a linotype operator there.

FREEMAN DISCUSSES NEWSPAPERS

Arthur Freeman, general manager of Gimbel Brothers, New York department store, was the speaker Nov. 16 in the lecture course of the Advertising Club of New York. His address, on advertising in newspapers, was delivered at the Engineering Foundation, 29 W. 39th street.

INSTALLS ENGRAVING PLANT

The *South Bend (Ind.) Tribune* has just installed an engraving plant, which occupies part of the third floor of the Tribune's three story brick building.

BULK SALES AND PREDATE FIGHT LOOMS

(Continued from page 7)

ord as favoring a change in A. B. C. rules so that we can continue to make these bulk sales and still the advertiser will not be fooled.

"My own opinion, and it may be thought to be an old-fashioned idea, is that bulk sales is bad business. I know that when merchants buy and distribute in large lots it is said to be good sampling at no cost.

"My idea is that it is the business of a newspaper to advise advertisers that our circulation is confined to those readers who buy the paper and read it."

In reply Mr. Meigs stated that Mr. Thomason assumed that advertising agents and advertisers "are more dumb than they really are."

"Having been in the agency business myself, I think I know what I am talking about when I say there is not an advertising agent or manager in the country who doesn't thoroughly understand the pre-date. The A. B. C. statement gives all the necessary facts and figures. There is no attempt to deceive either by A. B. C. or the publishers."

Mr. Meigs declared he disagreed violently with Mr. Thomason regarding the value of advertising in pre-date editions.

"There is no such thing as valueless advertising or valueless circulation," he declared.

In conclusion, Mr. Meigs expressed the opinion that the "principle of asking A. B. C. to regulate our business is wrong."

"We are getting on dangerous ground when we ask A. B. C. to regulate our business," he said. "We are all glad to have A. B. C. do what it was organized to do, audit circulation. I firmly believe that in asking A. B. C. to change the rules on pre-date and bulk sales we are putting a foot in the door that may lead to all kinds of distasteful problems."

Mr. Thomason was on his feet immediately to answer the points made by Mr. Meigs. He declared he was not asking A. B. C. to regulate the newspaper business, he was asking the publishers to carry on a clean-up from the inside.

Charles H. Taylor, *Boston Globe*, also joined in the argument, emphasizing the bulk sales issue.

"The bulk sales proposition is just starting," he insisted. "It is small today. Even so it is a disgraceful affair, with papers scattered all over the landscape and dumped into the sewers."

"The advertising agents may be as smart as Mr. Meigs would have us believe, but I have seen considerable evidence to the contrary. The agents don't read all the details in the A. B. C. report. I believe it is wrong that gross figures are used to sell advertising. If newspapers want to issue a pre-date, let them. But make it perfectly clear that it is separate circulation and let's not have it quoted in the totals."

Mr. Meigs asked the chair for another opportunity to speak and his request was granted. The point he wished to raise was that the extra circulation afforded national advertisers in the pre-date was justification for the differential existing between national and local rates.

C. P. J. Mooney, Memphis Commercial Appeal, declaring he was speaking sub rosa, hurled sarcastic remarks some of which he later allowed the writer to quote. He accused Mr. Meigs of scattering his shots far from the target.

"The main thing to be considered is that the publisher selling a pre-date is not selling a newspaper," he said. "Maybe it's a mule or maybe a maverick."

He deplored the present era in publishing when there is "a cash register on every floor and in every corner of our buildings."

ROGERS ATTENDS DAILY'S PARTY

Will Rogers was the chief speaker at a dinner the *Kansas City Star* gave Nov. 16, for the farm boys and girls attending the vocational congresses at the American Royal Livestock show in Kansas City, Mo.

One thing that keeps Niagara Falls popular is man's inability to paint a sign on them.—*Publishers Syndicate* (Chicago).

PHOTOGRAPHING for the press is a hard trade and deserves greater honor than it has received. Camera men can't dream their way through a newspaper career—can't bluff it out—can't turn up late at an assignment, borrow a few facts from friendly bystanders and fill up the gaps with guesses. The photographer must actually face the substance in the news. His sensitized plate is a tangible record of his degree of efficiency. Most of his pictures are taken on the fly. Sunlight is the prime requisite in photography, but the press camera man is expected to return good prints, etchable because of nicely contrasting light and shade, whether the sky be leaden or bright, time day or night, place the gloom of some hideous slum or the wide open spaces. We believe, professionally, that it is a social service to describe passing events in news columns, whether they be ugly or pleasant. "Truth shall make them free" is the theory. Because his descriptions are accurate, except when editors tamper with them, the photographer's average of service is high. In this day his offering is as valid as the written word in most offices.

THE average man or woman shrinks from the camera, particularly when the news concerning them is unfavorable. It is a natural reaction. We have seen pictures in newspapers that seemed to be outrageous impositions. It is strange that people put up with these abuses of privileges as patiently as they do. The 16-year-old daughter of a prominent New Yorker, on an occasion I vividly recall, did not want to be photographed as she paraded Fifth avenue on an Easter morning and stuck her tongue out at the camera just as the shutter clicked. Her picture in that attitude was spread before the public with an impudent caption. It labelled the little girl as a saucy imp, but she was really a charming child who was not at all in the habit of sticking her tongue out at people she didn't like. The picture was unjust. She was not a legitimate news subject, and was in her right to resent being snapped as a style mannikin. Dick Canfield, the gambler, smashed dozens of cameras in his day. George Perkins would run. But few people rebel. I have often wondered what I would do if I should get caught in some of my breaches of the peace and hear the hounds on my trail. In one of his plays Bernard Shaw says of the guilty wretch who servilely submits to the noose: "At least he might give the chaplain a black eye." I think I'd whack the first camera man who came my way, knowing that if he caught me smiling the caption would describe me as impudently defiant, or if scowling, the cut-line would point out my hate, fear or sullenness, or if placid,

I should be held up as indifferent to the charge against me. Editors can make photographs lie like the devil, but photographers can't be blamed for that. Safely behind the barricade of the press I sympathize with the photographer in his work, and honor him for an amazing success. Privately, I'll knock his blooming head off if he invades my privacy.

THE magazine Liberty had a good piece last week about press photography, written by Joseph S. Jordan who gave the craft credit as men of resource, ingenuity, expediency and nerve—especially nerve. Yes, some of them have nerve, some gall, and some bravely do an honorable job. Mr. Jordan tells how the late J. Pierpont Morgan, father of the present head of the great international banking house, resented press photography, but does not say why. The truth is that Mr. Morgan suffered from a peculiar disease which caused an ugly enlargement of his nose. For this pathetic reason he avoided the camera. A snapshot once taken of him as he passed through Wall Street was published. It seemed to magnify his disfigurement and greatly distressed him and his family. When Morgan came in from Europe, as did twice or thrice a year, all cameras were barred from the ship and I well remember an occasion when one photographer who smuggled an equipment aboard a vessel to snap the financier was seized by members of the crew, while his valuable camera and plates were taken from him and thrown into New York Bay. The photographer threatened to bring suit, but my recollection is that his claim was settled by Morgan's press agent.

MORGAN'S name was in every newspaper almost every day 25 or 30 years ago and editors everywhere were anxious to have a recent picture of him. The portrait most often used was from a painting in which the artist had mercifully discounted the abnormal proboscis. Reproductions of this painting were obtained in a curious manner. On his departure for Europe the painter announced in the Sunday art columns that he had just completed a portrait of the famous financier, but that it would not be put on exhibition. A newspaper photographer went to the artist's studio, hoping to get permission from the artist's agent to copy the painting. He was met at the door by the landlady, soul of kindness and glowing with motherly pride in her

studio lodger. She invited the newspaper man in for a view of the painting and the wily photographer complimented it highly and asked permission to photograph it and give it the newspaper publicity it deserves. He would do it without money or price. The flattered lady in the wide apron grandly accepted the proffer. When the painter returned to America his public fame was made, but how he got on with Morgan, who hated newspapers and evidently had wanted this portrait for his private gallery, is not related. That it was hot is taken from the fact that the artist at first vainly attempted to recover the image by process of law and then as vainly begged editors not to use it again.

ONE day in a New York court-room, where photographs had been forbidden, I saw a peppy little Irish lad, employed on one of the dailies, calmly stand up and snap a picture of a witness on the stand and then walk to the window and throw out the camera. As a guard approached the boy mumbled something about his disgust at being unable to make pictures, adding that he might as well throw his camera away. The guard probably thought him nutty and ordered him out, without investigation. The photographer was crazy like a fox. He had tossed his camera into a snow-bank where it was recovered by a confederate and taken to the office. An exclusive picture appeared, but the court paid no attention to it.

ONE bleak morning Donnie, our most valiant Knight of the Tripod, sneaked into the office 45 minutes late and locked himself in the dark-room. Donnie had been slipping for weeks. His mind was not on business. Some of us knew it was "girl trouble." Donnie had been our best man but at present was turning in the largest number of blanks, or prints out-of-focus, or views of people's backs, or other faulty pictures per assignment of any man on the staff. His indifference had reached the limit and the city editor called him forth and sentenced him in these words: "This is your last chance, Donnie. Henry H. Rogers, president of Standard Oil, is on the witness stand before a commissioner in the anti-trust suit down in Wall street today. There is no picture of Rogers, except

that Civil War chromo with the twirling mustache and we want a new picture. Get it, Donnie, or don't come back at all more." Poor Donnie looked out of the window at a leaden sky. Defeat was written all over him. He went to a reporter's desk and scribbled something signing his name with a flourish. He folded it neatly and approached the desk then turned, tore the paper into shreds and dashed out with his camera, tripod and flash lamp. In about two hours Donnie returned to the dark-room. We heard him whistling in there. We had passed since we had heard Donnie whistle. Donnie always whistled when he was developing a first-pager, didn't disturb him, but presently the la-tick assistant city editor, who had just started his day, dashed in. "Say," he demanded, "get a camera man down to cover that explosion in Wall street. We asked what explosion? "Why, some half-baked photographer set off a enormous flash at the Standard Oil hear-

The Evening World

the room filled with smoke, there was a panic and a fire alarm was turned on. Henry H. Rogers now says he will testify again as his life was imperilled. The Commissioner is taking the case to the Federal Court for instructions. There's to be a warrant for the photographer." Just then Donnie emerged from the dark-room, carrying a dripping print on the palms of his hands, meek offering to the Great God. It was an excellent photograph of Mr. Rogers on the witness stand, when suddenly and without permission, a sympathetic friend of Donnie's named G. O'Brien, having set off the flash, tried to help Donnie hold his good job. The Standard Oil lawyers did seek to keep Rogers off the stand on the ground that his life was in peril, but the court wouldn't listen and Donnie was never molested, although he took a few days off to fishing.

* * *

BILLY SHEPHERD tells a wonderful story of a photographer who went up Sagamore Hill with him in a cab to get the first interview with Theodore Roosevelt after the Colonel had retired to private life. This camera man, who was charitable, was a bit of a roughneck, and noisily boastful of his fistic ability. Indeed, much of his normal conversation concerned his enemies against whom he was forever making the most violent threats. This irascible party felt that the world was pretty much against him and life was just one jam after another. "We were riding along in the small compass of an Oyster Bay station cab," Billy relates, "discussing the job in hand. I told the photographer that the Colonel would probably look upon our visit as an intrusion, as on leaving Washington he had expressly declared he wanted complete rest and privacy at Sagamore Hill and also hoped he had used for his last newspaper picture. My companion then announced that he would stay in the cab and snap Roosevelt on the sly if I would engage him in conversation and lead him into focus of the camera. But I replied it would be better to take a straight-forward course and ask for the picture. The photographer did not concur. He insisted that the way to get the picture was to let him stay in the cab and snap Roosevelt when he was off guard. Then, in parlance which would impress my rough and ready friend, I said: 'You don't know this guy Roosevelt. He doesn't like that sly stuff. He's likely to do something.' I saw a steely glare come to the photographer's eyes. A new enemy was after him. 'He won't do nothing to me, by God,' he muttered. 'Of course, he won't,' I answered tactfully, for his ugly gesture frightened me a bit. Mr. Roosevelt is a perfect gentleman, but he does not like rough stuff or any slicker business. You know he used to be a cowboy and he's right at home with a gun.' My companion glared, but said nothing, and we drove up to the house. 'I'll stay here in the cab,' he announced solidly. 'If he says he'll stand for a pose you can just call me, and if he doesn't and comes around here I'll snap him, that's all.' 'Don't do anything that will embarrass me with Col. Roosevelt,' I implored. 'He is a friend of mine.'

I saw angry color rise to the photographer's neck. 'Cut that stuff,' he snarled. 'He's no friend of mine and I've been up against guns before. I'll snap him if he comes around here.' The color had risen to his ears and hate was all over his countenance. To my horror he then burst out, 'If the blankety blank lays a hand on me he'll get this,' and he seized his tripod sticks, their sharp prongs glistening like bayonets. Flourishing them over his head he hissed, 'I'll soak him over his bean.' It was a minute before I could collect my thoughts. Then, as soothingly as possible, I said: 'I've only been kidding. This man is the best known and most loved man in the world today. Why, it's terrible for you to talk that way about Col. Roosevelt. He wouldn't touch you, only he is tired of pictures and it would be wrong to snap him unawares.' I guess I can get him to pose.' The Colonel met me with a smile and came out to pose and when it was over shook hands very cordially with my roughneck friend who talked all the way home about what a good fellow the former President was."

* * *

BUG O'BRIEN was not the politest photographer that ever plied the trade on Park Row. He would poke a camera into the face of a woman bending over her child's grave without turning a hair. There is this story of him, which I believe was first printed in the *Morning Telegraph*. A sensational murder out on Long Island was claiming attention and Bug caught the assignment to photograph the murderer. The keeper of the little jail refused to admit Bug, saying the murderer was in a cell upstairs, very sick. Bug hung around until after dark, borrowed a crowbar or some such instrument from a neighboring blacksmith shop, climbed on a roof and attacked the barred window. Gaining entrance he located the murderer's cell and broke in. He propped the half-conscious criminal upon a stack of furniture appropriated for the occasion, set off a flash and made his get-a-way, but something happened to the plate and the picture went into the discard.

* * *

I APPEAR to have selected only invincible incidents in these references to the press photographer's guild. I have said these men deserved honors better than they get and mean it and might write as many stories of creditable deeds. Times have changed and the camera man of today is not the roughneck, sneak or bully, many proved themselves to be in "yellow journalism" years ago. Today he compares with the reporter in conduct. Editors still demand good pictures, but they do not expect a staff man to break into a jail, nor ruthlessly prey upon people in unfortunate circumstances nor otherwise make license of freedom. I agree with Mr. Jordan that one of the most remarkable news-pictures ever made was that showing the late Mayor Gaynor of New York at the moment a bullet from the pistol of an insane

crank struck him down as he was about to board a steamer at a Hoboken dock in the year 1910. Years ago EDITOR & PUBLISHER picked that photograph as the best news-picture ever made. It was more or less of a happenstance that William Warnecke, one of the famous old guard photographers, was standing by, camera focused on the Mayor, when the crank broke into the circle and fired. When one thinks, however, of the remarkable photographs that were made during the Great War, in the air, on land and sea, it must be agreed that there never has been such a thrilling graphic record of a news event. But the men who, with great daring and sacrifice, snapped those pictures are lost in anonymity. Few photographers have ever received credit commensurate with that given to writers. The late Jimmy Hare, war photographer extraordinary, demanded that his name be signed to his pictures and his fame goes marching on. But I can name two dozen camera men whose feats favorably compare with his, yet are unknown outside their immediate circles.

HITS NEWSPAPER SALES

Glasgow Editor Wants Three Months' Notice to Staff Writers

Sir Robert Bruce, editor of the *Glasgow Herald*, and president of the British Institute of Journalists, speaking at the annual dinner of the London District of the Institute, expressed regret that the control of organs of public opinion should be bought and sold in the market place as if it were merely a money-making counter.

At a meeting of the executives of the Institute Sir Robert was the prime mover in a resolution deciding to approach the proprietors organizations and urge that in sales or amalgamations of newspapers journalists should receive at least three months' notice or equivalent salary, as an equitable adjustment.

JUDGE'S ACT PROTESTED

The attention of the British Home Secretary was recently called by the Institute of Journalists to the action of a metropolitan magistrate in ordering reporters to leave Lambeth Juvenile Court during a sitting. Under a section of the Children Act, press and news agency representatives are definitely allowed to remain throughout the proceedings in children's courts. The Home Secretary communicated with the magistrate in question, who expressed his regret through the chairman of the bench to the reporters at the next sitting.

SPECTATOR EDITOR RESIGNS

J. B. Atkins has resigned from the editorship of the *London Spectator*, which he assumed last year when St. Loë Strachey sold the control of the paper to Evelyn Wrench, who now takes the editorial chair.

LOUISVILLE KY

OUR OWN WORLD OF LETTERS

By JAMES MELVIN LEE

SPEAKING at New York University on the subject "Opportunities for Women in Newspaper Work," Dorothy Dix once remarked that there were two occupations that belonged to women by hereditary rights. One of these was running a newspaper and the other was running a hotel. The reasons given were the hotel keeping was merely home keeping on a large scale and the newspaper was simply tittle-tattle raised to the *nth* power.

Dorothy Dix has certainly foreclosed her mortgage on journalism. Through her editorials designed primarily to appeal to women she has probably wielded greater influence than any he-editor. Some of the best of her editorial contributions she has collected and put in permanent form under the title "Dorothy Dix, Her Book" (Funk & Wagnalls Company). A special sub-head, or a special sub-title to be more exact, is appended—"Everyday Help for Every-day People." No better phrase could be found to describe the contents of the volume. A foreword—contributed by Richard Duffy of the editorial staff of *The Literary Digest*—tries to interpret Dorothy Dix to the reader.

Of course the volume is made up of thoughts that first broke into print in articles syndicated to newspapers. Consequently they have already stood the test of popular appeal. Fun is often poked at the sob-sister of the newspaper, but it is extremely doubtful whether any other member of the working press has a better idea of human nature or possesses a more broadminded tolerance. (Dorothy Dix is still in the game and her articles on the Hall-Mills case strike the same note as that sounded in her book.)

When Dorothy Dix writes an editorial she selects such subjects as "Are You a Good Companion for Yourself?", "Grafting on the Old Folks," "Sell Yourself to Your Children," "Taking Husbands As Is," "Don't Make Your Children Glad You Are Dead," and "Should Women Tell?" Certainly the author Dix tells a lot about women in this volume and she has a few things to say about men. Some of these things in the latter group might well be headed "Editorials for Newspaper Workers." Possibly no occupation takes more from home life than does the one which we follow.

Personally I regret that Dorothy Dix did not include in "Her Book" the able address which she gave at New York University for that had a message for women workers in American Journalism.

G. D. EATON, who until recently was literary editor of the *New York Morning Telegraph* opens *McNaught's Monthly* for December with an article entitled "Simon Legree and the Civil War." In this article Mr. Eaton takes up old ideas about slavery, brushes the dust off from them and then takes a new inventory.

In this inventory some of the things on the debit side are changed to the asset side of the ledger. Eaton believes that many of the stories published in the press before the Civil War were unfair and un-

truthful. No Mason and Dixon line ought to divide editors who read this article.

THE story of "The Story Behind the Newspaper Stories" is told by Albert Payson Terhune in the *American Magazine* for December. He frankly admits that he is going to limit his story to the "romantic end of the most romantic industry on earth, the reporters." He goes one step farther and says that he is going to talk about himself as an experimenter and his journalistic experiences. Terhune went on the staff of the *New York Evening World* in November, 1894. He confesses that he did rather poor work and was about to be fired by the city editor, Fred Duneka, when the trolley strike broke out in Brooklyn and the paper needed the assistance of all its men. He then chats about his various assignments and how he was nearly mobbed by the strikers because of a mistaken idea on their part that he was a Pinkerton detective.

The article is very interesting. Possibly its best feature is the account of how a reporter, at the time of the severe illness of a multi-millionaire, posed as a doctor in order to reach the bedside of the patient. Finding the patient asleep, the "reporter-doctor" did not disturb him, but asked the head nurse for the charts and chatted with her about the opinions of those specialists who had been called to attend the sick man. From her he learned that the multi-millionaire, called Smith in the story, was not expected to live 24 hours.

But things were not going so well down stairs. One of the servants had found a pawn ticket in the hat of the "reporter-doctor" and he had taken the matter up with the millionaire's private secretary. But let Terhune tell about the climatic situation that followed:

The secretary could not afford to commit any avoidable solecism. Tact was called for, that first requisite to every great man's private secretary. Running over in his mind a list of the hastily-summoned specialists' names, and picking one at random, the secretary stepped between Butler and the front door, inquiring with perilous suavity:

"Pardon me, but are you Doctor Blankton of Baltimore?"

Butler halted, glaring down at the worried little secretary with a soul-searing contempt. Then, with a voice like the roll of thunder from mountain peak to mountain peak, he declaimed: "Doctor Blankton forsooth? Not I am Old Doctor Munyon!"

Brushing aside the babblingly horrified secretary, Butler strode to the door, and out of the house. Presently, all the newspaper-reading world was informed that Smith was dying. For some reason, Butler was never called to account in any way for his amazing hoax.

(To none but the youngest generation is it needless to mar my anecdote by a postscript explanation that "Old Doctor Munyon" was a healer whose illustrated and flashy advertise-

ments used to appear regularly in nearly every paper in America. His name was a favorite in vaudeville wheezes and topical songs of the period.)

In telling this incident Terhune gives the facts on which Irvin S. Cobb once built a short story that in a way is a newspaper classic. In fact, after reading this article by Terhune, one sees where Cobb found a lot of his material for his newspaper yarns which he has been selling to the magazines in recent years and which he recently brought together in book form.

THE six sweetest words to a newspaper publisher are said to be "I want to Place an 'Ad.'" These six words are the head for an article in the *Telephone Review* for November—an article which shows the improved mechanical equipments for receiving want ads over the phone by the *New York World* and the *Brooklyn Daily Eagle*. The article is illustrated and shows how the telephone company co-operates with newspapers for better service.

THE newspaperman's humorist has always been Edgar Wilson Nye. In the days when the American Press Humorist Association was more active than it is today, Nye was the patron saint of that organization. He was either its first president or its first honorary president—I have forgotten which. For years it had in mind the preparation of a volume that should give Nye's life story and it did issue one book to honor his memory.

The task of compiling such a volume was finally undertaken by the son, Frank Wilson Nye, who has just published "Bill Nye—His Own Life Story" (The Century Company). The son has followed the wise policy of letting the humorist tell the story. In other words, the son has simply supplied the continuity—to use a motion picture phrase.

Nye was born at Shirley, Me., Aug. 25, 1850. Eleven years later on the same day of the same month Bret Harte was born, the man responsible for the name

"Bill" before Nye's name. Nye himself once wrote a humorous skit about Shirley in which he said that if he were to do it over again he did not know whether he would select that particular spot or not. Nye's first newspaper experience was in Wisconsin where he was country correspondent for the *Hudson Star* and the *Chippewa Falls Weekly Herald*. In his weekly letters to these newspapers may be found "traces" of the humor that was later to make him famous. His first newspaper job was on the *Laramie Sentinel*, a morning paper.

Of Sentinel days Nye once spoke as follows:

The salary was not large; it was not oppressive. It was not calculated to canker soul. By putting handles on it every Saturday evening, I was enabled to carry it home myself, the distance being short. I used wisely, not running through it as some would have done. In this way at the end of the year, I had two dollars in money and a new set of whiskers. I also had acquired gum overcoat, whose views one could easily

being thrown in its society for a few minutes a warm day.

In addition to reporting for the Laramie Sentinel Nye acted as the local correspondent for the *Cheyenne Sun*. The newspapers throughout Wyoming copied extensively Nye's breezy locals that sent samples of his work to the *Denver Tribune*. Thomas F. Dawson, the editor of that paper, thought the copy sent in by Nye worth the \$15 asked for it. But the owner suggested to Dawson that an offer of \$7 be made. As Nye was in no position to refuse he consented to supply the *Denver Tribune* regularly with weekly letters at that figure. The bargain was not so bad as it seemed. The wider audience in the *Denver Tribune* made it easier for Nye later to establish his famous *Boomerang* at Laramie and to syndicate his skits to other newspapers.

To boom the *Boomerang* Nye once printed the following:

A company incorporated itself and started a paper of which I took charge. The paper was published in the loft of a livery stable. That the reason they called it a stock company, you could come up the stairs into the office you could twist the tail of the iron gray mule take the elevator.

The volume by Nye's son after quoting the item just given thus explains the reason:

Sundry reasons are given for naming it the *Boomerang*. One was that so many copies came back. The fact is it was named for Bill Nye's mule, *Boomerang*.

This mule was Nye's mascot. One day appeared on the streets of Laramie—no one knew where. Ambling up to where it rubbed its nose against his sleeve and brayed into his ear. From that time the animal was known as Bill Nye's mule, *Boomerang*. In gratitude for services rendered Nye dedicated his first book to his mascot.

Vol. I, No. 1 of *Boomerang* was dated March 11, 1881. Addressing a convention of editors years after he had left Laramie, he thus outlined his experiences:

It wasn't much of a paper, but it cost \$16,000 a year to run, and it came out six days in a week, no matter what the weather. We of the Associated Press news by telegraph at the time, and part of the time we relied the *Cheyenne* morning papers, which we cured from the conductor on the early night freight. We received a great many special telegrams from Washington in that way. When the freight train got in late, I had to guess at what Congress was doing and fix a column of telegraph the best I could. There was a rival evening paper there, and sometimes it would send a smart boy down to the train and get hold of our special telegrams. Sometimes the conductor would go away on a picnic and take our *Cheyenne* paper with him. All these things are annoying to a man who is trying to supply a long felt want. There was one conductor, in particular, who used to get into the foot-hills shooting sage hens and eating our cablegrams with him. This threw much strain on me. I could guess at what Congress was doing and make up a pretty readable report, but foreign powers and crowned heads and dynasties always mixed me up.

The circulation of the *Boomerang* was no means limited to Wyoming. Subscriptions came from every state and in many foreign countries. Many distinguished men were numbered among its subscribers. To show its popularity among newspaper men I need only remark that Charles Anderson Dana of the *New York Sun* liked it so well that he sent Nye a check for \$10. In editing the paper Nye had a boomerang in the shape of a row with the publisher. It is now published as the *Laramie Republican*. But it wasn't Charles Dana of the *Sun*, Joseph Pulitzer of the *World* who bought Nye to New York at a salary of \$150 a week. Pulitzer's managing ed-

itor, J. A. Cockerill, once remarked about Nye's connection with the *World*:

I had to use a great deal of persuasion to get him to take up his abode in New York and become a regular member of the *World* staff. He was afraid of the big city. He thought that his homely humor would not be appreciated here, and that he would lose touch with things rural. I convinced him that the metropolis was made up of country born men, and that our active, potential citizens loved the smell of dog-fennel, the hum of the bee and the sweet incense of the haymow on wet days. It was only when satisfied that there was a great deal of human nature in the metropolis that he consented to come at all, and even then he pitched his tent down on Staten Island, where he could romp with his children and keep a cow.

The volume prints a letter from Nye to his wife in which the following paragraph appears:

I have made verbal contract with the American Press Association for two years more at the old price, \$8,320 per year, and \$2,600 with the *World* to January 1st, \$10,920, in all, with the hope of more, but at least I go cheerfully away.

This letter shows Nye had improved his status financially since the days when he got \$7 a week for the same material from the *Denver Tribune*. But money could not restore his health, which had been gradually failing. Long Distance called "30" on Washington's Birthday, 1896. Bill Nye answered the call at Buck Shoals, N. C.

To "Bill Nye—His Own Life Story," Melville E. Stone of the Associated Press contributes the foreword. A quotation from this foreword may well sum up an estimate of Edgar Wilson Nye:

Hamlet's estimate of Yorick seems to be applicable to Bill Nye. "I knew him," and he was "a fellow of infinite jest." But something more. He was scrupulously careful that nothing of his should corrupt either the morals of the pure English of his readers or his hearers. He had no recourse either to slang or dialect. He wrote in our best English and was most amusing. Of course, upon occasion he quoted the native vernacular, but did not depend upon it for his fun, as Josh Billings and many others did.

Friends of the father will always be grateful that the son, Frank Wilson Nye, let "Bill" write the biography. On first glance it looks as though the son had not done much except to write a connecting paragraph here and there. Those who have been on the copy desk, however, will realize that the son picked out a harder task by this method of compilation than if he had written all the text. For 20 years the father contributed copy to American newspapers. Just to read what appeared in the press from Nye's pen was a big job in itself.

The suggestion the father once made about reading will apply equally as well to the book by the son:

Do not read it all at once to see whether he married the girl or not. Take a little at a time. If you read it all at once and it gives you the heaves, you deserve it. I will not bind myself to write the obituary of such people.

* * *

THOSE who write to the College of Agriculture, University of Arkansas, Little Rock, Ark., and ask for Extension Circular No. 226 will receive the pamphlet, "The Country Correspondent" by Gus M. Oehm. This booklet is an excellent one for the editors of community weeklies and small city dailies to put into the hands of correspondents who cover the news of rural sections.

It develops in detail the fifteen rules which E. B. White of the *Benton* (Ark.) *Courier*, sends to his correspondents. On the cover page of each pad for such correspondents he prints the following:

1. Above all get the news.
2. Boost every worthy movement in your community; in fact, have progress for your slogan.
3. Do not express your own opinion of news events; just give the facts and let the reader form his own opinion.
4. Do not depend on rumor; investigate carefully all important news.
5. Write regularly, even though there are only a few notes. People become accustomed to a letter each week and look for it.
6. Who? Where? When? What? Why? How? Answer these questions in your news stories, and you are sure to make them interesting.
7. Speak a good word for everyone in your community. If you can't, leave them alone.
8. Give accurate reports of all public meetings.
9. Do not use the paper to "get even" with anyone.
10. Speak a good word for the paper you represent. The paper is here to serve the best interests of our country, state and nation.
11. We welcome articles on timely subjects; only ask that same be as short as possible.
12. Try and make all items and articles concise—that is, to the point.
13. Leave one line between each item.
14. Mail letters so that they will reach this office Wednesdays.
15. In case of some extraordinary news event, telephone us at once.

In addition to an elaboration of these principles Mr. Oehm, who by the way is Agricultural Editor of the University of Arkansas, adds by way of good measure a number of practical hints on the preparation of copy.

* * *

NELSON A. CRAWFORD, director of publicity for the Department of Agriculture at Washington, D. C., has undertaken the editorship of the *Borzoï Journalism Handbooks* to be published by Alfred A. Knopf of New York City. In editing this series Mr. Crawford plans to meet the demand that is constantly increasing for shorter texts on more individual journalism subjects and thus avoid the criticism that text books on journalism are too general in material covered. He has already arranged for "The Column" by Hallam W. Davis, pro-

fessor of English at the Kansas State Agricultural College; "Circulation Management" by Marco Morrow, assistant editor of the *Capper Publications* of Topeka, Kansas; "Printing and the Journalist" by E. W. Allen, dean of the School of Journalism, University of Oregon; "What Is News?" by Gerald W. Johnson, former professor of journalism, University of North Carolina; "A Manual of Newspaper Style" by Marvin G. Osborn, professor of journalism, Louisiana State University and "Advertising and the Newspaper" by W. F. G. Thacher of the University of Oregon. Mr. Crawford himself will write "Evidence and the Journalist."

The volume by Professor Davis on the column will probably be published some time during the present month. Other volumes contemplated will take up such subjects as book reviewing, sports writing, the house organ, the press associations and syndicates, technical journalism, etc.

WHAT OUR READERS SAY

WHAT DO OTHER EDITORS THINK?

To EDITOR & PUBLISHER: You have given considerable space to items dealing with expanding schools of journalism and the prominence of the heads of these schools at gatherings of newspaper publishers and editors.

But you have not discussed the practical value of these schools as illustrated by their graduates in newspaper life. I wonder if newspaper executives throughout the United States have found graduates of schools of journalism an asset or a liability.

In St. Louis I believe the general attitude is hostile to journalism school pupils—these pupils require a tremendous amount of training, instruction and attention. And when you have carefully and painstakingly given them of your time you may find your efforts thrown away.

My own experience has been that the graduates lack ability to see news, are unable to spell, affect a flippant, indolent attitude, and will not really concentrate on learning. Many of them appear to have taken journalism because of the fancied easiness of the course.

In winnowing the wheat from the chaff of graduates, you may find that the wheat isn't of sufficient quantity to deserve the effort.

Your graduate lacks the splendid enthusiasm of the reporter who entered the game fresh out of high school, stuck because of a love for the game, and can turn out sports, markets, features or straight news matter with a versatility that is astonishing.

The graduate lacks the knowledge of law, court customs, market matters and other general information which the regular reporter has absorbed during his years of service. The graduate will pull blunders in facts that an office boy has learned should be avoided.

I recall a graduate who dreamily went out to lunch just as a big story broke. "Well, what of it?" he asked. "Wasn't it my lunch time?" Another on a copy desk, had an item about a pretty blonde girl being found dead. He was particularly well satisfied with a head he wrote, "Blonde is killed; Gentleman Sought." He lacked taste.

Schools very obviously need to teach spelling, ordinary grammar, how to write a first paragraph, how to cover police stations, what is news, how to write briefly, and—what to put in heads and how to write them.

Perhaps too many instructors in schools of journalism are not acquainted with technical newspaper work. I have known of many office misfits who turned to teaching journalism when they were fundamentally unfit to be newspaper men themselves.

The reward in newspaper work may not be any too great. But if a newspaper man saves his money and pays attention to business he can progress just as well in a newspaper office as in any other business and command just as much respect. Too many newspaper men stand with one foot on a bar rail, drinking poor liquor, and regret the lack of opportunity in their occupation.

What do you think about the matter?

R. C. SCHROEDER,
St. Louis Times.

CIRCULATION VIEWS

To EDITOR & PUBLISHER: I see EDITOR & PUBLISHER assumes, as a matter of course, that "flash extra" circulation is something newspapers desire. We discourage extras.

As a matter of duty, we still print election extras—for which the A. B. C. gives us no credit, and which certainly cost us a lot of money. As a matter of advertising ourselves, and to give readers a service they desire, we still print world series baseball extras—and sell them to radio fans who've heard the whole game!

But are there still publishers who really like to see their circulation figures

go up and down like a fever chart, according to whether January had more "extra" flashes than December? Fine when it goes up—but when you have to explain to an advertiser why it fell down—not so good.

Up here, we like smoother curves. (Still speaking of circulation, of course.)

If the old-fashioned bulletin board was a good "teaser" and every publisher seemed agreed on that, the radio is one hundred times more valuable. If it be true that the best prospective customer for a sports extra is the man walking out of the ball park gate, the next best is the man who attended the game by radio. What do you read first in your paper? Isn't it always the story of the game you saw, or the speech you heard, or the show you attended?

It cannot—but if radio only could wipe out the expensive and unprofitable but necessary nuisance of extras, I think most of us should be grateful.

M. R.

These are commonly expressed views of practical-minded men, but EDITOR & PUBLISHER does not share them. Grant that there isn't a cent in flash extra circulation, either in the sale of papers or the sale of advertising, still it has been valuable and to pass it up is to lose something. The people of this country who count know who is working for them and who is merely trading on them. Nothing brings such sure and ample rewards as good public service. If newspapers have proved anything it is that there is nothing in inaction. A. B. C. showings

are desirable, and fluctuating circulations may be annoying, but they are minor details in the big scheme. The old-fashioned bulletin board was a good thing when it was a real teaser, and a poor thing when it told the news so no one need buy a paper. London publishers found that their street posters retarded circulation when too complete. That is also true of radio. When information has been given the job has been done. Our friendly critic asks if we do not first read in our newspaper the story of the game we saw, speech we heard or show we attended? Perhaps, if there isn't something more interesting, but we do not buy a newspaper to find out what the score was. We read the story as a separate and distinct contribution to our field of interest. We do not buy two newspapers to read the round-by-round account of a fight, and for the same reason, if we have heard a satisfactory round-by-round radio account of a fight, we shall not buy a paper to read it. We read reviews of shows with interest. We certainly do not want to read a speech that we have heard any more than we want two break-fasts on the same morning.—EDITOR.

STATE'S APPEAL DENIED

Nov. 15, 1926.

To EDITOR & PUBLISHER: Your issue of November 13 contains an erroneous reference to the recent decision of the United States supreme Court in the case of General Outdoor Advertising Co. et al vs. Williams, et al.

Suit was filed first in the Supreme Judicial Court of Massachusetts, and later in the United States District Court at Boston. The Attorney-General of Massachusetts moved to have the suit in the District Court dismissed, and his motion was sustained in the District Court. However, on appeal to the Circuit Court of Appeals, the decision of the District Court was reversed, and the suit thereby retained its Federal jurisdiction. The Attorney-General appealed this decision of the Circuit Court of Appeals to the Supreme Court of the United

States, and it was that appeal which the United States Supreme Court refused to entertain.

The result, therefore, was that the claim contended for by the outdoor advertising interests was sustained by the United States Supreme Court.

I. W. DIGGES, Secretary,
GENERAL OUTDOOR ADVERTISING COMPANY, INC.

UNIFORM INVOICES

To EDITOR & PUBLISHER: Thanks and congratulations on your leading editorial in your issue of November 13th.

As a person experienced, I know of some publishers whose invoices have required many hours' attention each month on the part of the accounting departments of the larger agencies in order to correct errors and make adjustments so that the publishers would receive the exact amount due them. In many instances this work had not been done by the accounting departments it would have made a difference of thousands of dollars in the publisher's net profit at the end of the year.

I hope you will be able to continue this good work and that you will have some item on this subject in many of your issues for a long time to come, as there is a lot of education necessary and it will benefit both publisher and agency alike.

F. G. HUBBARD,
Chairman, Board of Governors, New York Council of the American Association of Advertising Agencies.

U. S. NEWSPRINT OUTPUT UP

Production of newsprint in the United States in October aggregated 143,147 tons as compared with 136,167 in September. Shipments were 141,411 tons against 137,257.

A CO-OPERATIVE campaign of all the laundries in Seattle newspapers now announces a prize contest for housewives, which offers awards for the best letters indicating how the housewife improved the time she saved in sending clothes to the laundry—a contest applicable to other cities.—C. M. L., Seattle, Wash.

Gift, department and other stores in some cities are placing an assortment of holiday articles in a gaily colored stocking and selling the bulk at a reduced price. The mystery surrounding the contents of the stocking attracts many customers. Persuade stores in your city to do likewise and to advertise the gift stockings.—Ruben Levin, Milwaukee, Wis.

When a Friday falls on the thirteenth why not get out a double-page listing thirteen advertisements with thirteen different articles featured in each advertisement. This will certainly tie-up with Friday, the thirteenth.—Gordon Hebert.

A weekly that carried a double spread ad proved it believed in service by doing more than the average newspaper would. On the opening day of the sale the business manager paid for a general telephone call over the rural lines broadcasting that the sale opened that morning. Maybe the merchant didn't appreciate this thoughtfulness.—A. R. B., Austin, Minn.

With the heavy advertising season just ahead every advertising solicitor should carry a copy of his cut service while "making the rounds." Illustrations and especially those of the Yule season, often bring increased business and new ideas when seen by the individual advertiser. And, too, he'll appreciate the convenience of your service or services.—Davis O. Vandivier.

A small newspaper office may get its share of election money—and without going into crooked politics. Unused ballots may be purchased after election from the county clerk and cut and bound into pads. Any live stationery shop will undertake the sales end for a small commission and dispose of them to school children for scratch pads. Ballots could also be cut to a size suitable for copy paper and sent to the paper's country correspondents. Then they would send in uniform copy, instead of writing on everything from paper sacks to expensive bond.—James E. Daugherty.

The Rockford (Ill.) Register-Gazette recently sponsored a Used Car Show and Auction Sale. A central location was obtained, and each dealer was asked to place on exhibition a selected stock of his used cars. A seven page advertising campaign had been laid out, and based on 100 cars, each dealer was taxed so

much per car to take care of the advertising.

The paper carried front page stories during the four day event, and paid the small cost of the building. Dealers were asked to select cars that they wanted to auction off to highest bidders, and an auctioneer was obtained to carry out this feature. Each dealer, paid the auctioneer as cars were sold. The event was highly successful, and emphasized to the dealers that one paper covered their territory.—C. E. P.

Why the South's Prosperity Sixth - Transportation -

The railroads have greatly aided the South in developing its natural resources, and have been one of the important contributors to the present prosperous conditions the entire South enjoys. Throughout this territory a network of railway trunk lines with their numerous branches

penetrate into every rich industrial and agricultural section, offering convenient freight and passenger schedules with excellent through service.

The South Atlantic and Gulf ports of Norfolk, Wilmington, Charleston, Mobile and New Orleans are the connecting links with rail and water shipping, and are the great factors in enabling the South to maintain low freight rates. Thus the South can compete all over the world with its products.

With the advantages that the South offers in labor, power, natural resources, climate and transportation, it is evident that the South is the market of today for the national advertiser, one he should go after without delay, for every day the potential buying power of the South is becoming greater and greater.

MORE LOCAL!!

—a call and an answer—

Unique in the history of features, a service on major *local topics* is announced by Current News Features, Inc., in the form of *timely letters on current municipal problems.*

By LOUIS BROWNLOW

Administrator of three American cities, with twelve years of active municipal work and fifteen years of newspaper training from city hall reporter to managing editor, Louis Brownlow offers the interpretive facts on the

*live subjects
under active discussion
by the citizens
of your city.*

Your newspaper can give its readers the background of the experience of the nation's cities on which to work out the problems of your city.

It will stimulate interest in your local news and help your newspaper to help the tax-payer get a dollar's worth for a dollar.

It's too big a story to tell on a page, but our representative will be glad to call if your territory is still open.

RADICALS RALLY ROUND MALINOFF

Bulgarian Democrats May Cooperate With Agrarians—Strong Opposition

By Special Cable
SOFIA, Oct. 4.—All the Sofia papers are devoting much space to the trial of Malinoff, the Bulgarian agent who has been Prime Minister. Malinoff is one of the most prominent and respected statesmen outside the Government group. All the opposition parties are rallying round him and forming a strong enough body to elect him to the National Assembly. The trial was attended by thousands of people, including many peasants. Mr. Malinoff, in a stirring speech, strongly criticized the present Government for its alleged undemocratic actions and for the exorbitant taxes levied on the peasants. He urged the peasants to cooperate with the villagers to bring about a new regime in Bulgaria after the Great War. He was overthrown by the Great War. He was overthrown by the Great War. He was overthrown by the Great War.

REAL ESTATE MEETING TO PROTECT PUBLIC INTERESTS
National Board Working New Rating Code

By Special Cable
CHICAGO, Oct. 4.—Intended to be a help for real estate in promoting building of better homes throughout the Nation, the National Association of Real Estate Boards is here developing a standard code for rating buildings. Report of the committee on the subject was made by Mr. W. H. Nelson, president of the association, at a meeting of the board of directors held here today. The code is being worked out by Mr. Nelson, who is also president of the National Association of Real Estate Boards. The code is being worked out by Mr. Nelson, who is also president of the National Association of Real Estate Boards. The code is being worked out by Mr. Nelson, who is also president of the National Association of Real Estate Boards.

A Merchandising Service That Serves!

THE MERCHANDISING DEPARTMENT OF THE WORLD was recently entrusted with an important phase of the distribution of a nationally advertised product* in the New York market. When the work was finished:

Here Is What the Local Distributor* Said:

"I wish to thank you for the cooperation you are extending my company in the marketing of our product. I just want you to know that we realize your assistance is helping us greatly to keep pace with the volume that we have to meet."

Here Is What the Advertiser* Said:

"Our District Sales Manager has passed to us a summary of the work done by your Merchandising Department, and we wish to take this opportunity to thank you for such splendid cooperation. All of us justly feel that such conscientious effort will have materially increased the results of our advertising."

And Here is What the Advertising Agency† Said:

"It is a pleasure to express to you the appreciation of [our clients] and this Agency because of your efficient cooperation."

*Names on request.

† Yes; the agency also, on request.

The Newspaper of Today is the Most Direct, Acceptable, Completely Covering, Readily Available, Economical and Resultful of All Advertising Mediums.

NEWSPAPER advertising now, more than ever, demonstrates its immediate availability, its instant adaptability, and its speedy responsiveness. You may send your sales message to every nook and corner of this broad land tomorrow if you like, or you may select your spots and sections, a score, a hundred, a thousand cities and towns, as you desire, or as manufacturing and transportation conditions advise.

We are the National Advertising Representatives of Twenty Progressive Newspapers in that many fine cities of the United States.

Our several offices are the offices of each of those publications, where complete files and data of all kinds concerning both field and publication are in readiness for anyone interested. Our traveling representatives are thoroughly familiar with the publications and the fields in which they circulate.

We are at all times prepared — in conjunction with their respective service departments — to provide valuable and useful merchandise surveys and information reports that will assist the manufacturer of any commodity, either in opening up the territory, or in extending distribution already under way.

We bring to the advertising agency an intimate, complete and down-to-the-minute knowledge of market conditions and possibilities and of publicity outlets in the fields we cover, that will enable it to act with the decision, speed and assurance so largely contributing to satisfactory and successful service to its clients.

Editor & Publisher's Market Guide

Authoritative Compendium Telling Essential Market Facts About 1,400 American Cities for Use by Sellers of Merchandise and Buyers of Advertising—Up-to-date Statistics Enabling Advertising and Sales Executives to Visualize Specific Markets—An Exclusive Editor & Publisher Service

IT is with unconcealed pride that EDITOR & PUBLISHER now presents its third annual Market Guide. It is the most complete and accurate compilation of fundamental trade data ever assembled, eclipsing our previous efforts. This Space Buyers' Key to 1,400 city and town markets in the United States and Canada, where daily newspapers are published, is addressed to the many thousands of business executives who are involved, directly and indirectly, in mass distribution of salable merchandise and publicity that carries the flag of national commerce and trade.

EDITOR & PUBLISHER'S Market Guide is an exclusive service. A glance at the contents of this manual will reveal an amazing range of information. To gather it has been a stupendous task. That EDITOR & PUBLISHER has, in this work, filled a business need of incalculable value is the testimony of thousands of general advertisers, advertising and sales executives, advertising agencies and commercial economists.

ON the desk of practically every important sales or advertising executive this key, which unlocks the populous treasure vaults of the continent, will operate throughout the business year, an unfailing aide to scientific trading. It is the one and only complete, authoritative and up-to-the-minute census of city and town commercial factors.

Dependability of these data is assured by reason of the fact that each city and town survey has been made by newspaper men, skilled in the preparation of accurate statements for publication. They are in the best possible position to obtain authentic information. Each and every survey has been twice checked by a staff of trained collators in the office of EDITOR & PUBLISHER.

EDITOR & PUBLISHER again dedicates this work to the high new science of synchronized advertising and selling, a distinctly American achievement. The secret of success in this art lies in operating with all of the consumer facts apparent to the seller of useful commodities. So vast has the trading area of the United States and Canada become that no man can intelligently direct a sales campaign by rule of thumb. Advertising and selling operations, when based on intelligent consideration of all of the factors in the field, represent the least hazard of failure, the largest assurance of success.

OUR readers will notice in the pages, which follow that our form of survey is much more comprehensive than in our initial effort. The Guide has grown to these big proportions from relatively small beginnings. Last year we added to the data such items as number of medical doctors, dentists and osteopaths; number of wired houses; facts regarding local transportation; natural or artificial gas or alternating or direct electric service; hard or soft water; information concerning general stores operating locally; traveling distance to the nearest large city by automobile, trolley or railroad and some information concerning climatic conditions. All this information is again available in this book, but there are some important additions.

For instance, it will be noticed that the 1927 surveys give the number of gas meters, one of the important indices of the character of home economics. Other vital new items concern local financial conditions. It is now possible, in most instances, to find in these pages facts concerning bank capital, surplus, and undivided profits, giving the reader an important clue as to the financial stability of a community. Another new item gives the total deposits of all local banks, together with bank clearances for twelve months. In this item is a reliable clue to the average prosperity of the individual. Indeed, there is no better index to local prosperity.

It is important that an advertiser or sales executive should have in mind in plotting a campaign what principal adjacent cities may bring influence to bear upon an area in question. Therefore, we are listing for the first time, the most important cities and towns in each specific area.

All of the classifications of interest covered in our previous issues are comprehended in this number, together with the additions noted.

EDITOR & PUBLISHER hereby gratefully acknowledges the cooperation of newspaper men in the 1,400 cities and towns surveyed in this number. While the larger cities have been reported by trained investigators, especially assigned to the task, the bulk of the information contained in this volume was prepared at the request of EDITOR & PUBLISHER by the advertising staffs of local newspapers, on our forms. It has been a work of time and patience and one of the striking facts concerning it is that the authenticity of no survey that EDITOR & PUBLISHER has printed has ever been successfully challenged.

THE vast range of service made available to the business world through the facts marshalled in the following pages is suggested in letters which heads of large corporations, national sales executives and advertising agency experts have volunteered throughout the year. EDITOR & PUBLISHER is in possession of hundreds of such endorsements of this work and it becomes obvious that the Market Guide has developed into an influence in modern trade unparalleled by any other work of reference, either privately or publicly produced. No longer need there be blind commercial speculation in unknown fields. The Market Guide puts the spot-light of sound knowledge onto every important community in the United States and Canada. The best evidence as to the value of the data may be found in the following communications from leading authorities:

"An Exceptionally Constructive Piece of Work"

June 1, 1926.

"Your 1926 Space Buyers' Guide is an exceptionally constructive piece of work, and we do not know of any suggestions that can be given for improvement."

Charles Daniel Frey—Advertising.

"Satisfactory and Reliable"

May 26, 1926.

"We use the Space Buyers' Guide and have found the information contained therein satisfactory and reliable."

Piggly Wiggly Corporation.

"Very Helpful"

June 10, 1926.

"Your annual Space Buyers' Guide has been very helpful in our organization and we hope that you will continue to publish it."

Campbell-Ewald Company—Advertising.

"Could Not Be Improved Upon"

June 10, 1926.

"One of the worth-while publications. We have no criticisms or suggestions to offer, for we do not see how it could be improved upon."

Aetna Life Insurance Company.

"Very Useful"

May 27, 1926.

"Although we have no suggestions to make for improvements, we do desire to take this occasion to express our appreciation of the service you have rendered in publishing the preceding issues of the Space Buyers' Guide. We have found it very useful in a number of instances."

Johnson, Read & Company—Advertising.

"Nothing But Praise"

May 25, 1926.

"I have nothing but praise for EDITOR & PUBLISHER'S Space Buyers' Guide. The use to which it has been put in this office suggests no improvements in connection with the preparation of your 1926 Guide."

Life Savers, Inc.—M. B. Bates, Adv. Mgr.

"Make Frequent Use"

May 21, 1926.

"We make frequent use of your Space Buyers' Guide and have found it handy. At the present time have nothing to suggest in the way of improvements."

Carnation Milk Products Company.

"Refer to It Constantly"

May 22, 1926.

"The Space Buyers' Guide is very valuable for the information it contains, and practically everybody in the shop uses it some time during the year, while eight or ten of us are referring to it constantly. We try to find, borrow or steal about ten copies each time that it comes out."

Dorrance, Sullivan & Company—Advertising.

"Complete and Thoroughgoing"

May 21, 1926.

"We have found the data and statistics included in your 1925 Space Buyers' Guide to be so complete and thoroughgoing that we really are at a loss to make any suggestions for its betterment. We have found the Guide to be extremely valuable and make a great deal of use of it."

J. Walter Thompson Company—Advertising.

"An Important Part of Our Equipment"

Dec. 3, 1925.

"It is useless for me to say what I think of your Space Buyers' Guide, because I have already told you that we consider it a very important part of our equipment. You are to be congratulated on the good work you are doing."

George Batten Company—Advertising.

ALABAMA Daily Newspaper Markets in Standard Surveys

ALBANY-DECATUR,
ALABAMA
(Morgan County)

1920 Population, 12,404 (1926 est. 13,405).
City and Suburban Estimate, 20,000
Native Whites, 90%; Negroes, 8.4%; Foreign Born, 1.6%; Industrial Workers, 25%; English Reading, 98%; Families, 5,000.
Schools: Public Grade, 8; High, 3; Number of Pupils, 4,500.

Churches: Baptist, 5; Christian Science, 1; Christian, 2; Episcopal, 1; Hebrew, 1; Methodist, 5; Presbyterian, 4; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 3; State, 1; Total Resources (all banks), \$9,500,000; Savings Bank Deposits Total (all banks), \$1,500,000.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 7,000.

Location: On the south shore of the Tennessee River, served by the Southern, and L. & N. R. R. Tennessee River Line of ship traffic. Bus service to south and west to Muscle Shoals, south to Birmingham. River boats to Chattanooga, Paducah, Muscle Shoals cities. Middle point Chicago to Florida Highway. To nearest large city by railroad, 3 hours; by auto, 4 1/2 hours.

Principal Industries: Silk dress goods, silk shirting, mattresses, pillows, brick, tile, staves, handling, casting, hosiery, cooking oils, box and basket cornice, ventilators, railway cars, wood products, fertilizer, tanning extract. Only cities in south with the silk manufacture, location of second largest plant of American Oak & Leather Co. Railroad shops employ 2,500 men.

Manufacturing Establishments: Leading firms: Asphalt Rock (Southern Rock Asphalt Co.), Louisville and Nashville R.R. shops, American Oak & Leather Co., Schwartzbach-Huber (silk), Alabama Brick & Tile Co., Albany Broom Works, Southern Cotton Oil Co., Home Oil Co., Churchill Compress Decatur Fertilizer Co., Cooper-Wells Hosiery plant, Decatur Brick Corporation, Decatur-Albany Furniture Mfg. Co., Y. & S. Piston Ring Mfg. Co. Total value of yearly output of factories estimated at \$26,000,000.

Special Information: Location of cities places them among the largest distributing centers in northern part of the state. Position relative to Muscle Shoals project makes cities highly desirable locations for eastern manufacturers. Distributing point for agricultural section, with annual output of \$50,000,000. Large bridge now under construction to cost \$500,000. Cotton crop predominant feature in agricultural figures. Principal marketing point for farm products in northern section of state.

Residential Features: Mostly one and two-family houses. Limited section devoted to workingmen's tenements. Private homes predominate. Health and climate make this one of the finest residential sections of the state. Frame houses in great number, although brick is now being used in most new buildings.

Retail Shopping Section: Extends from Fourth Avenue, South Albany, to Church Street, (Decatur), a distance of 12 blocks. People come from south, 16 miles, with the aid of valuable bus service, west, and east, a distance of six miles. Northern trade extends for a distance of seven miles.

Trading Area: Extends in a 10-mile radius, with an approximate population of 40,000.

Wholesale Houses: Groceries, 8; meats, 4; fruits, 2; hardware, 2; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial automobile agencies, 3; automobile accessories, 16; automobile tire agencies, 12; bakers, 2; cigar stores and stands (including hotels), 24; confectioners (including hotel stands), 17; delicatessens, 3; dressmakers, 15; druggists, 11; dry goods, 32; department stores, 1; electrical supplies, 6; florists, 2; fruits, 35; furniture, 11; furriers, 2; garages (public), 9; grocers, 76 (chain, 3); hardware, 6; jewelry, 3; meat markets, 15; men's furnishings, 23; men's clothing, 4; merchant tailors, 2; milliners, 5; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 4; restaurants (including hotels), 9; shoes, 2; sporting goods, 7; stationers, 11; women's apparel, 32 (5 exclusive); total, 37.

Miscellaneous Data: Average temperature, 85 degrees; most pleasant months, April, May, Oct., Nov., Dec. Doctors (medical, 12); (dentists, 6); gas, artificial; electric current, alternating; water, soft.

ANNISTON, ALABAMA
(Calhoun County)

1920 Population, 17,784.

City and Suburban Estimate (1926), 25,000.

Native Whites, 66%; Negroes, 32%; Foreign Born, 2%; Industrial Workers, 33 1/2%; English Reading, 100%; Families, 4,000.

Schools: Public Grade, 10; High, 1; Junior High, 1; Alabama Military Institute; Number of Pupils, 200 (Presbyterian), Barber Memorial Seminary (Col.), 150.

Churches: Baptist, 15; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 17; Presbyterian, 6; Roman Catholic, 2; Miscellaneous, Salvation Army.

Banks: National, 3; State, 1; Total Resources (all banks), \$9,000,000. Savings Bank Deposits Total, \$2,125,000.

Theatres: Legitimate, 2; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 4,000.

Location: Northeast Alabama in foothills of the Alleghenies, 56 miles ENE. of Birmingham, 104 west of Atlanta. Southern, L. & N. and Seaboard Rys. Has 2 express and 2 telegraph companies. Southern Bell telephone. Through Pullman service to New York, Chicago, St. Louis, Kansas City, and Florida points. Water rates to Orient, Central and South America via Mobile Port and Panama Canal.

Principal Industries: Cast iron and pressure pipe, textiles, chemical products, iron and steel, cotton and corn. Principal farm products valued at \$4,165,000. annually.

Manufacturing Establishments: 91. Leading firms, Federal Phosphorus Co., U. S. Cast Iron Pipe and Fdy. Co., Central Fdy. Co., Anniston Fdy. Co., and 10 other pipe plants. M. & H. Valve and Fitting Co., American Net and Twine Co., Anniston Mfg. Co., Avalon Knitwear Co., and 7 other textile plants. Kilby Car & Fdy. Co., Anniston Steel Co., using the electric process. Pipe output valued annually at \$20,000,000. Total value of yearly output of factories estimated at about \$35,000,000.

Special Information: Anniston is the home of Camp McClellan, where a garrison is maintained the year round and 10,000 young men of the R. O. T. C. and C. M. T. C. are trained every summer. The army payroll and other expenditures locally amount to about \$2,250,000.

Residential Features: Principally one and two-family houses. Limited section devoted to workingmen's tenements. Private homes predominate. Sunset Heights, set in the foothills of the Blue Ridge, overlooking the Country Club and golf links, is one of the show places of the South. Homes in this section average \$25,000.

Retail Shopping Section: Eighth to Fifteenth on Noble St., with two blocks east and west on Tenth and Eleventh, and three blocks on West 15th St. This does not include Oxford, a town of 3,000 adjoining Anniston on the south, and Blue Mountain, a prosperous mill village on the north.

Trading Area: Twenty-five miles north, south, and east, and fifteen west. Splendid motor bus connections to Jacksonville, Piedmont, White Plains, Choccolocco, Talladega, and Gadsden. Good railway schedules to Heflin, Edwardsville and to Tallapoosa, Ga.

Wholesale Houses: Groceries, 7; Meats, 3; Fruits, 2; Hardware, 2; Dry Goods, 1; Miscellaneous Lines, 1 Paper.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial automobile agencies, 5; automobile accessories, 19; automobile tire agencies, 19; bakers, 3; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 13; delicatessens, 6; dressmakers, 12; druggists, 13; dry goods, 3; department stores, 4; electrical supplies, 4; florists, 3; fruits, 4; furniture, 9; furriers, 1; garages (public), 8; grocers, 95; hardware, 6; jewelry, 7; meat markets, 15; men's furnishings, 8; men's clothing, 7; merchant tailors, 10; milliners, 4; opticians, 4; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 35; shoes, 7; sporting goods, 3; stationers, 5; women's apparel, 8.

See announcement column 4

BIRMINGHAM, ALA.

(Jefferson County)

1920 Population, 178,806 (237,693 est. in 1926).

City and Suburban Estimate, 600,000. Most important cities and towns in this area are: Bessemer (pop. 23,000); Tarrant City (8,000); Anniston (22,000); Gadsden (16,000); Tuscaloosa (13,000).

Native Whites, 60%; Negroes, 35%; Foreign Born, 5%; Industrial Workers, 40%; Dwellings, 52,400.

Schools: Public Grade, 67; High, 5; Colleges, 2; Junior, 6; Business Colleges, 5; Parochial, 8. Number of Pupils, 59,202.

Churches: 347. Baptist, (membership), 18,500; Christian Science, 3,000; Congregational, Episcopal, 10,000; Hebrew, 12,000; Methodist, 32,000; Presbyterian, 12,000; Roman Catholic, 12,500; Miscellaneous—Christian, 6,000.

Banks: National and State, 30; Federal Reserve Branch, Total Resources (all banks), \$107,818,225; Deposits Total (all banks), \$93,742,010. Bank Clearings, \$1,372,000,000. (12 months). Total Capital (all banks) \$5,275,000.

Theatres: Legitimate, 2; Moving Pictures, 30; Vaudeville, 3; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 35,500.

Location: Birmingham is located in north-central Alabama and extends up and down Jones Valley for 18 miles. The valley is five miles across, country hilly, mining center, coal, iron, limestone and minerals. Served by Louisville & Nashville R.R.; Southern Railway System, Alabama Great Southern R.R.; Atlanta, Birmingham & Atlantic Ry.; Central of Georgia Ry.; Illinois Central R.R.; Mobile & Ohio R.R.; Seaboard Air Line Ry.; St. Louis & San Francisco R.R. Two district railways serve the main lines—Birmingham Southern Ry. and the Birmingham Belt Line. Thirty miles from Warrior River, which has barge lines leading direct to Gulf. Can ship direct by water. Birmingham covers 52 square miles. To nearest large city, by railroad, 6 hours; by auto, 8 hours.

Principal Industries: Coal, iron and steel and by-products. Cement, brick and hollow tile, structural and bridge steel, railroad cars, rails and equipment, cotton gins and machinery, coke, tar, benzol and all by-products of coal. Lumber manufacturing.

Manufacturing Establishments: 776. Varied products manufactured, 1,913. Leading firms: Tennessee Coal, Iron & Railroad Co., and the American Steel & Wire Co., subsidiaries of the United States Steel Corporation; Sloss-Sheffield Steel & Iron Co., Woodward Iron Co., Gulf States Steel Co., Republic Iron & Steel Co., Alabama By-Product Co., Pratt Consolidated Coal Co., De Bardeleben Coal Corp., American Cast Iron Pipe Co., Lehigh Portland Cement Co., Alabama Portland Cement Co., Atlas Portland Cement Co., Continental Gin Co., Hardie-Tynes Mfg. Co., Ingalls Iron Works, Virginia Bridge & Iron Co., The Barrett Co., American Radiator Co., Alabama Power Co., Grissell Chemical Co., Stockham Pipe & Fittings Co., Kaul Lumber Co. Total value of yearly output of factories estimated at \$600,000,000.

Special Information: Birmingham is the center of the industrial South and is referred to as the "Pittsburgh of the South." City is only 55 years old and is one of the largest cities for its age in the country. Phenomenal growth due to rapid expansion of coal, iron and steel business; unlimited supplies of coal and iron remain in hills surrounding Birmingham. Recent rapid growth of cement industry adds another basic industry to Birmingham.

Residential Features: Private residence prevail; very few two-family homes; best residential sections and one of the finest in South, located on Red Mountain, south of business district; majority of homes of bungalow type. On account of continued large increase in population many magnificent apartments have been constructed in the last two years.

Retail Shopping Section: Bounded by L. & N. R.R. tracks on south, Fifth Avenue on north, six blocks; 17th Street on west, and 23d Street on north, three blocks. These are boundaries of retail, department store section. Downtown retail section reaches from L. & N. tracks to Eighth Avenue 16th Street to 26th Street. Eight blocks by ten blocks.

Trading Area: Within radius of 52 miles, including such small cities as Anniston, Gadsden, Jasper, Carbon Hill, Sylacauga, Talladega, Tuscaloosa and Cullman.

Wholesale Houses: Groceries, 27; produce, 40; meats, 14; hardware, 4; dry goods, 17; electric, 8; drugs, 3; bottlers, 11; cigars and tobacco, 5; confections, 15; flour, feed and grain, 35; jewelers, 3; lumber, 42; shoes, 3; bakers, 8.

Number of Real Outlets for Nationally Advertised Products: Passenger automobile agencies, 34; commercial automobile agencies, 16; automobile accessories, 109; automobile tire agencies, 48; bakers, 47; cigar stores and stands (including hotels), 1,260 (chain, 22); confectioners (including hotels), 116; delicatessens, 14; dressmakers, 61; druggists, 185 (chain, 15); dry goods, 81; florists, 25; fruits, 138; furniture, 126; furriers, 4; garages (public), 74; grocers, 1,104 (chain, 260); hardware, 34; jewelry, 57; meat markets, 18 (chain, 3); men's furnishings, 32; men's clothing, 6; merchant tailors, 56; milliners, 14; opticians, 19; photographers, 24; pianos (and miscellaneous musical instruments), 13; radio supplies, 19; restaurants (including hotels), 444 (chain, 12); shoes, 33; sporting goods, 4; stationers, 8; women's apparel, 20.

Miscellaneous Data: Average temperature, 63 degrees; average number of rainy days per twelve months, 43.02. Doctors (medical, 292); (dentists, 118); (osteopaths, 4); street car service; gas, artificial; number of meters, 30,062; electric current, alternating and direct; number of wired houses, 42,000. Number of automobile registrations, 33,152; water, soft.

DOTHAN, ALA.

(Houston County)

1920 Population, 10,034.

City and Suburban Estimate (1926) 18,000.

Native Whites, 60%; Negroes, 40%; English Reading, 100%.

Schools: Public Grade, 3; High, 1; Junior High, 2.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 3; State, 1.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), Municipal Opera House; Total number of seats, 2,000.

Location: Dothan is located in the extreme southeast corner of Alabama, is on the Atlantic Coast Line, Atlantic and St. Andrews Bay, and Central of Georgia R.R.s., connecting Dothan with all the larger cities of the South. The Atlanta & St. Andrews Bay Railroad furnishes us a direct route to the Gulf of Mexico, only 80 miles to the south. The nearest larger city is Montgomery, 4 hours distant by automobile and 4 hours by railroad.

Principal Industries: Agriculture, fertilizer, and lumber manufacturers; coffins and caskets, overall and mattress factories, peanut oil mills, cigar factories, cottonseed oil mills, sulphuric acid plant.

Manufacturing Establishments: Home Guano Co. (Red Fox), Grascilla Chemical Co., Dothan Coffin & Casket Co., Inc.; Bama Cigar Co., Virginia-Carolina Chemical Co., Southern Cotton Oil Mill Co., Young-Sanders Oil Mill Co., Williams-Voris Lumber Co., Dothan Overall Factory,

Dothan Mattress Factory, Dothan Oil Mill, Dothan Ice Cream Co., Houston Guano Co., Dothan Guano Co.

Special Information: In 1890 Dothan's population was 247; 1900, 3,275; 1910, 7,016; 1920, 10,034; 1925 (post office statement), 18,788. Dothan is in the center of the wiregrass region of south Alabama, and has a trade territory of 200,000 derived from a number of small towns within a radius of 80 miles. It is one of the largest distributing centers in this section, reaching south-east Alabama, southwest Georgia and west Florida.

Residential Features: 1,997 White residences, approximately 600 Negro dwellings, 6 apartment houses.

Retail Shopping Section: Foster Street, 3 blocks; Main Street, 4 blocks; St. Andrews Street, 5 blocks; Crawford Street, 2 blocks; Troy Street, 3 blocks; College Street, 2 blocks; Powell Street, 3 blocks; Oates Street, 2 blocks.

Trading Area: North, as far as Abbeville, Ala., and Ft. Gaines, Ga., 35 miles; west as far as Florida, Ala., 60 miles; south as far as Panama City, Fla., 80 miles; east as far as Bainbridge, Ga., 60 miles. Towns within a radius of 50 miles are: Abbeville, Ft. Gaines, Headland, Newville, Ozark, Brundidge, Newton, Pinkard, Midland City, Slocumb, Hartford, Geneva, Webb, Samson, Taylor, Ashford, Cowarts, Malvern, Madrid, Alaga, Cottonwood, Ala.; Cottondale, Fla.; Campbellton, Fla.; Blakely, Ga.; Donaldsonville, Ga.; and other small towns.

Wholesale Houses: Groceries, 6; Meats, 1; Fruits, 3; Hardware, 2; Dry Goods, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 2; automobile accessories, 15; automobile tire agencies, 7; bakers, 2; total cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 8; dressmakers, 10; druggists, 7; dry goods, 10; department stores, 7; electrical supplies, 2; florists, 3; fruits, 3; furniture, 5; garages (public), 15; total grocers, 66 (chain, 2); hardware, 4; jewelry, 3; meat markets, 14; men's furnishings, 4; men's clothing, 9; merchant tailors, 5; milliners, 6; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 4; shoes, 17; sporting goods, 2; stationers, 4; women's apparel, 8.

Miscellaneous Data: Average temperature, 65 degrees; most pleasant months, Jan. to June, Sept. to Dec., inclusive. Doctors (medical, 14); (dentists, 6); number of wired houses, 1,800; electric current, alternating; water, hard.

FLORENCE, ALABAMA

(Lauderdale County)

1920 Population, 10,529.

City and Suburban Estimate, 1926 School Census, 19,300. Most important cities and towns in this area are: Sheffield, Tusculumbia, Russellville, Lawrenceburg.

Native Whites, 75%; Negroes, 22%; Foreign Born, 3%; Industrial Workers, 20%; English reading, 98%; Families, 3,860 approx.

Schools: Public Grade, 5; High, 2; Junior High, 2; Parochial, 1; Normal Training, 3; Negro Graded, 1; Negro High, 1. Number of Pupils, 4,910.

Churches: Baptist, 8; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Christian, 2; Nazarene, 1; Methodist, 4; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 1; State, 4; Total Resources (all banks), \$4,000,000; Savings Bank Deposits Total (all banks), \$1,000,000, aggregate (approx.).

Theatres: Legitimate, 1; Moving Pictures and Vaudeville, 1 (combination); Motion Pictures, 1; White, 1; Colored, 1; Miscellaneous (Auditoriums, etc.), 4.

Location: On Louisville & Nashville R.R., 122 miles south of Nashville, Tenn., on the Tennessee River, at the foot of the famous Muscle Shoals. Wilson Dam, greatest hydro-

The Anniston Star

Is the only daily paper published in Calhoun County and the only medium through which advertisers may cover this rich manufacturing and agricultural territory.

No Outside Daily Enters
This Field

In time to compete with The Star on daily or Sunday news coverage. A circulation of more than 5,000, 80% local, is guaranteed. No premiums, contests or cut rates. The paper is sold on the merits of its local news, features and leased wire service.

ALABAMA (Cont'd)

electric development in America, is just outside of corporate limits of the city. To nearest city, by railroad, 5 hours; by automobile, 6 hours.

Principal Industries: Iron furnaces, wagon building plant, knit underwear factory, cotton mills, fertilizer plant, stove foundry, asphalt producing plant, cotton gins, grist mills, lumber mills, dimension mills. Located within a hundred mile radius of coal, iron, phosphate, limestone, asphalt, kaolin, bauxite and with the greatest hydro-electric power in the world at its front door. At head of present navigation on the Tennessee River.

Residential Features: Said to be one of the most beautiful small cities in this section of the South. Streets broad and well-paved. Over 20 miles of asphalt streets. Beautiful and well-kept residences. Great majority of population own their own homes. Health conditions far above average. Recent inspection by U. S. Health Service said: "Florence and Lauderdale County can be held up as a model community from health standpoint." Municipally owned waterworks thoroughly modern.

Retail Shopping Section: Occupies approximately eight city blocks, and there are two suburban shopping centers, each with a group of stores.

Trading Area: Extends in a 30-mile circle around city, with bus service to all important points. Three national highways converge at Florence, Jackson, Lee and Scenic. All three of these highways are routed across the top of Wilson Dam.

Wholesale Houses: Groceries, 4; meats, 1; fruits, 2; hardware, 1; dry goods, 1; miscellaneous lines, drugs and sundries, 1; produce, 1; meat packing distributing offices, 2.

Number of Retail Outlets for National Advertised Products: Passenger automobile agencies, 19; commercial automobile agencies, 5; automobile accessories, 5; automobile tire agencies, 14; bakers, 3; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 3; delicatessens, 2; dressmakers, 12; druggists, 9; dry goods, 18; department stores, 2; electrical supplies, 3; florists, 2; furniture, 7; furriers, 1; garages (public), 3; groceries, 54 (chain, 6); hardware, 4; jewelry, 2; meat markets, 6; men's furnishings, 7; men's clothing, 2; merchant tailors, 4; milliners, 3; opticians, 4; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 14; shoes, 2; sporting goods, 5; stationers, 1; women's apparel, 7; decorators and drapers, 1.

Miscellaneous Data: Doctors (medical, 24); (dentists, 7); (osteopaths, 2); number of wired houses, 1,800; street car service; gas, artificial; number of meters, 700; electric current, alternating; water, soft.

GADSDEN, ALA.

(Etowah County)

1920 Population, 14,787 (1926, est. 22,160).

City and Suburban Estimate, 32,355.

Native Whites, 79%; Negroes, 20%; Foreign Born, 1%; Industrial Workers, 25%; English Reading, 85%; Families, 3,500.

Schools: Public Grade, 6; High, 1; Parochial, 1. Number of Pupils, 3,150.

Churches: Baptist, 3; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 2; State, 1; Total Resources (all banks), \$6,250,000; Savings Bank Deposits Total, \$1,250,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,300.

Location: On Coosa River. Water transportation to Rome, Ga., and south to Lock 3, on Coosa River. Served by the Louisville & Nashville Ry.; Nashville, Chattanooga & St. Louis Ry.; Southern Ry.; Alabama Great Southern Ry.; Tennessee, Alabama & Georgia Ry., and interurban lines to Alabama City and Attalla.

Principal Industries: Iron and steel, including pig iron, steel billets, merchants' bar iron, reinforcing steel for concrete construction, ties, fish plates, wire (plain and barbed), wire fencing, nails and staples, stoves and ranges, plumbers' pipe and fittings, also brass plumbers' fittings, steam fittings, doors, sash and blinds, general lumber supplies, fertilizers, overalls, hosiery, mattresses, cotton goods, hot air house-heating furnaces, brick, jugware, cast-iron pipe.

SELMA, ALA.

(Dallas County)

1920 Population, 15,589 (1926 est. 19,000).

City and Suburban Estimate, 25,000.

Native Whites, 48.3%; Negroes, 52.6%; Foreign Born, 1.1%; English Reading, 95%; Families, 4,232.

Schools: Public Grade, 5 white, 2 colored; High, 1 white, 1 colored; Junior High, 1 white; Parochial, 1; Number of Pupils, about 2,100 in white schools, 1,400 in colored.

Churches: Baptist, 2 white, 12 colored; Christian Science, 1 white; Congregational, 1 colored; Episcopal, 1 white; Hebrew, 2 white; Methodist, 3 white, 6 colored; Presbyterian, 3 white, 2 colored; Roman Catholic, 1 white; Miscellaneous, 4 white, 1 colored.

Banks: National, 2; State, 3; Total Resources, \$10,000,000; Savings Bank Deposits \$2,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 3,600.

Location: Southern, Western of Alabama and Louisville and Nashville Railroads. Ala. River Steamboat service. Naturally located so as to serve as the distribution point for the rapidly developing Gulf States. Proximity to the Port of Mobile makes Selma destined to become an inland port of considerable consequence.

Principal Industries: Textile, lumber and cotton seed products, also creamery products.

Manufacturing Establishments: 51. Leading firms: Sunset Textile Mills, Selma Manufacturing Co., Dallas Lumber Company, Buckeye & People's Cotton Oil Companies, Union Iron Works, Dallas Canning Co. and Southern R.R. Shops, Selma Creamery & Ice Co., Purity Creamery & Ice Co., Selma Maid Syrup Co., Brownlee-Lowery Lumber Co., Selma Dairy Products Co. Total value of yearly output of factories estimated at \$12,000,000.

Special Information: Location of city in the rich, fertile agricultural section of the South makes it an important trade center for Alabama. Water and rail transportation makes it an ideal location for textile mills, furniture factories, and its proximity to the iron and coal fields, with its cheap hydro-electric power makes it admirably suited for location of foundries.

Residential Features: Delightful climate and pure artesian water makes it an ideal city in which to live. Private homes predominate, with a very large percentage of the homes owned by the occupants. The town is growing rapidly and steadily.

Retail Shopping Section: Broad St., 4 blocks; Washington St., 3 blocks; Selma Ave., 2 blocks; Ala. Ave., 3 blocks; Water Ave., 2 blocks.

Trading Area: 70 miles west, 70 miles south, 60 miles north and 25 miles west.

Wholesale Houses: Groceries, 11; meats, 2; fruits, 1; hardware, 4; dry goods, 2; miscellaneous lines, candy, 1; seeds, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 1; automobile accessories, 15; automobile tire agencies, 9; bakers, 3; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 12; delicatessens, 1; dressmakers, 7; druggists, 12; dry goods, 12; department stores, 8; electrical supplies, 4; florists, 4; fruits, 4; furniture, 9; garages (public), 3; grocers, 90; hardware, 6; jewelry, 9; meat markets, 8; men's furnishings, 1; men's clothing, 8; merchant tailors, 1; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 5; radio supplies, 1; restaurants (including hotels), 26; shoes, 6; sporting goods, 3; stationers, 2; women's apparel, 10.

SHEFFIELD, ALA.

(Colbert County)

1920 Population, 6,682.

City and Suburban Estimate, 10,000.

Native Whites, 75%; Negroes, 22%; Foreign Born, 3%; Industrial Workers, 12%; English Reading, 80%; Families, 1,360.

Schools: 3. Number of Pupils, 2,400.**Churches:** 11.**Banks:** 2. Total Resources, \$1,900,000.**Theatres:** 2. Total number of seats, 1,000.

Location: On Tennessee River in northern part of state. Served by Southern and L. & N. R.I.

Principal Industries: Pig iron and blast furnaces, stove foundry, Cottonseed oil, railroad shops, machine shops, nitrate plant, agriculture.

City and Suburban Estimate, including Bisbee mining district, 22,836.

Native Whites, 85%; Negroes, 1%; Foreign Born, 14%; Industrial Workers, 95%; English Reading, 92%; Families, 8,600.

Schools: Public Grade, 12; High, 1; Junior High, 3; Parochial, 1. Number of Pupils, 3,500.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 3.

Banks: State, 3; Total Resources, \$7,275,824.26.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,100.

Location: 750 miles east of Los Angeles on Southern Pacific Ry., 9 miles from Mexican border in southeastern corner of Arizona. To nearest large city (El Paso, Tex.) by railroad, 11 hours; by auto, 16 hours.

Principal Industries: Mining and allied industries are the only ones in the district.

Special Information: Steam shovel mining on a large scale, coupled with largest known underground ore discoveries made during the present year, place the Bisbee District far in the front of the copper producers of the United States. Three large companies operate producing mines in the district, with two other large companies prospecting additional acreage. The population is a well-satisfied, well-paid class—the minimum wage being \$5.20 per day, and the average wage being \$6. Over fifty miles of railway trackage is above ground in the district, and more than 200 miles underground. Various towns in the district are reached by an electric railway. Bisbee and Lowell are the two leading trade centers.

Residential Features: Homes modern in every respect.

Retail Shopping Section: 14 blocks along Main Street and Brewery Gulch constitute the retail district, the other district being 4 blocks in Lowell, 3 miles from Bisbee.

Trading Area: Confined to the Warren district, with a good trade from outlying points in Cochise county and that portion of northern Sonora, Mexico, easily accessible to the district. Excellent concrete and macadam roads lead to the district from all the trading area.

Wholesale Houses: Groceries, 3; meats, 2; fruits, 4; hardware, 1; dry goods, 1; miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial automobile agencies, 8; automobile accessories, 6; automobile tire agencies, 14; bakers, 5; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 20; delicatessens, 3; dressmakers, 3; druggists, 9; dry goods, 20; department stores, 4; electrical supplies, 4; florists, 2; fruits, 26; furniture, 7; garages (public), 22; grocers, 61 (chain, 3); hardware, 4; jewelry, 5; meat markets, 15 (chain, 2); men's furnishings, 12; men's clothing, 10; merchant tailors, 10; milliners, 6; opticians, 2; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 24; shoes, 9; sporting goods, 3; stationers, 6; women's apparel, 15.

Miscellaneous Data: Most pleasant months, all but January, February and March. Doctors (medical, 16); (dentists, 5); (osteopaths, 3); gas, artificial; electric current, alternating; water, soft.

DOUGLAS, ARIZ.

(Cochise County)

1920 Population, 9,916 (11,677 est. 1926).

City and Suburban Estimate, 14,000.

Native Whites, 75%; Negroes, 1%; Foreign Born, 24%; English Reading, 85%.

Schools: Public Grade, 8; High, 1; Grammar, 1; Parochial, 1. Number of pupils, 2,700.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Resources (all banks), \$4,648,877.60 (June 30, 1926). Savings Bank Deposits Total, \$4,153,775.36 (June 30, 1926).

Theatres: Legitimate, 1; Moving Pictures, 3.

Location: On main line of Southern Pacific Railroad. State service and railroad (So. Pac. branch) in valley north of Douglas. Nacozari Railroad South into Mexico.

Principal Industries: Smelting of copper.

Manufacturing Establishments: 6. Leading

firms: Phelps Dodge Corp., Calumet & Arizona Mining Co., Arizona Gypsum Plaster Co.

Special Information: City modern in every respect. Metropolis of Sulphur Springs Valley, rich agricultural section. Splendid schools, churches, parks, public buildings and a progressive, hospitable citizenship. Bankhead Transcontinental Highway; free camping ground. Fine climate, maximum of sunshine, altitude, 3,390 feet. One of the greatest copper smelting cities in the West, smelters having monthly capacity of 31,000,000 pounds of copper. Fine paved streets—eight miles in length. Gateway to rich State of Sonora, Mexico.

Residential Features: Mostly one-family homes.

Retail Shopping Section: Business section concentrated, with a few grocery stores in outlying sections.

Trading Area: Fifty miles west, 90 miles east, 150 miles north, and 150 miles south in Sonora, Mexico.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 2; hardware, 3; dry goods, 1; miscellaneous lines, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 13; automobile tire agencies, 15; bakers, 5; cigar stores and stands (including hotel stands), 10; confectioners (including hotel stands), 3; delicatessens, 2; dressmakers, 3; druggists, 5; dry goods, 8; department stores, 4; electrical supplies, 5; florists, 1; fruits, 20; furniture, 3; furriers, 2; garages (public), 10; grocers, 51; hardware, 3; jewelry, 2; meat markets, 7; men's furnishings, 7; men's clothing, 7; merchant tailors, 7; milliners, 5; opticians, 8; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants, 12 (including hotels, etc., 38); shoes, 7; sporting goods, 2; stationers, 5; women's apparel, 6.

MIAMI & GLOBE, ARIZ.

(Gila County)

1920 Population (Miami, 6,639; Globe, 7,044); Total, 13,733.

City and Suburban Estimate, 25,000.

Native Whites, 75%; Foreign Born, Mex., 25%; Industrial Workers, 80%; English Reading, 80%.

Schools: Public Grade, 16; High, 2; Junior High, 2; Number of Pupils, 7,000.

Churches: Baptist, 2; Christian Science, 2; Episcopal, 2; Methodist, 3; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 2.

Banks: National, 3; State, 2; Total Resources, \$5,935,000; Savings Bank Deposits Total, \$2,590,000.

Theatres: Legitimate, 2; Moving Pictures, 5; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 8,000.

Location: Arizona Eastern R.R., (subsidiary of the Southern Pacific) is the only railroad touching these two cities. Regular stage service to Phoenix in western part of state, also to New Mexico state line. Miami is terminal of Miami Superior Highway also on route of famous "Apache Trail" to Roosevelt Dam, 40 miles distant. To nearest large city, by railroad, 8 hours; by auto, 4 hours.

Principal Industries: Copper mining and smelting.

Manufacturing Establishments: Leading firms: Inspiration Con. Copper Co., Miami Copper Co., Old Dominion Copper Co., Boston and Superior International Smelting Co., Iron Cap. International smelts 23,000,000 pounds of copper per month. Present price of copper is 14½ cents f. o. b. New York. Total value of yearly output of factories estimated at \$42,000,000.

Special Information: Miami and Globe are situated about 6 miles apart. Due to congested living conditions, as far as homes are concerned, the employees, or rather a large number of them, who are employed at the smelters of the Miami Copper Co. and the Inspiration Co., live in Globe as well as in Miami. This has created a better business condition in both cities. While the freight rates are quite high in this region, these two cities are twelve-month towns. Monthly payroll over \$1,000,000. Not susceptible to mail order houses and very little outside trading in other cities. The district also draws trade from the big ranches in this vicinity. The Coolidge Dam on the Gila River, 25 miles distant from Miami, to cost \$5,500,000, is now in course of construction. It will generate power and irrigate 25,000 acres of adjacent land. The Inspiration Cons. Cop. Co.'s leading plant, to cost \$5,000,000, is now in course of construction at Miami. The Horse Mesa Dam, 60 miles from Miami on the Salt River, is building at a cost of \$4,500,000 to furnish cheap power for Miami mines and smelters. These three projects will be completed by the end of 1926, or early in 1927.

Residential Features: Mostly one-story houses. Inspiration, and Miami Copper Co.'s both have many houses near their mines for employees. All modern conditions in both cities.

Retail Shopping Section: In Globe, North Broad Street is principal business street, while in Miami there are 3 streets running parallel, extending about 7 city blocks, and 3 streets crosswise, 3 outlying sections between Globe and Miami, known as Lower Miami, Midland City, and small business city outside of Globe.

Trading Area: 7 miles west, south and east, also some intermittent business from the north—San Carlos, Indian Reservation, ranches, etc.

ARIZONA and ARKANSAS Newspaper Markets in Standard Surveys

ARIZONA (Cont'd)

Wholesale Houses: Groceries, 5; meats, 3; fruits, 3; hardware, 6; dry goods, 13; Miscellaneous lines, 14.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 4; automobile accessories, 17; automobile tire agencies, 15; bakers, 6; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 16; delicatessen, 10; dressmakers, 7; druggists, 10; dry goods, 13; department stores, 4; electrical supplies, 3; florists, 2; fruits, 10; furniture, 6; garages (public), 12; grocers, 36 (chain, 2); hardware, 6; jewelry, 6; meat markets, 5; men's furnishings, 12; men's clothing, 20; merchant tailors, 10; milliners, 9; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 6; radio supplies, 4; restaurants (including hotels), 28; shoes, 16; sporting goods, 8; stationers, 10; women's apparel, 11.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per twelve months, 6; most pleasant months, September to May. Doctors (medical, 30); dentists, 12; osteopaths, 4; gas, artificial; electric current, alternating; water, hard.

NOGALES, ARIZ.

(Santa Cruz County)

1920 Population, 5,199—(1926 est. 5,755)—plus 3,261 members of 25th U. S. Infantry (colored).

City and Suburban Estimate, 8,321, including 1,100 colored soldiers.

Native Whites, 45%; Negroes, 4%; Foreign Born, 51%; Industrial Workers, 12%; English Reading, 66%; Families, 1,400.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,447.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Roman Catholic, 1.

Banks: National, 2; Total Resources, \$5,458,554.45. Savings Bank Deposits Total, \$1,148,737.24.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,576.

Location: On the Mexican border. Port of entry for the Southern Pacific Railway system extending 1,000 miles into the interior and is projected through to the city of Mexico.

Principal Industries: Eighty per cent of the business of Nogales is the export and import trade of the west coast of Mexico. Roy & Titcomb, Inc., has a large plant turning out Mexican hardwood products. This plant is now supplying sixty per cent of the cedar cigar boxes of the United States.

Manufacturing Establishments, 2. Leading firms: Roy & Titcomb, Inc., Arizona, Sonora Mfg. Co.

Residential Features: All residences of Nogales must be built of fireproof, or semi-fireproof materials.

Retail Shopping Section: Morley Ave., four blocks; Grand Ave., four blocks.

Trading Area: One thousand miles into Mexico—maximum of 44 miles into Santa Cruz County in the agricultural and mining district.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 1; hardware, 1; dry goods, 2; automobile accessories and mining machinery.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial automobile agencies, 7; automobile accessories, 3; automobile tire agencies, 5; bakers, 3; cigar stores and stands (including hotels), 5; confectioners (including hotel stands), 5; dressmakers, 6; druggists, 3; dry goods, 11; department stores, 3; electrical supplies, 2; fruits, 4; furniture, 3; garages (public), 4; grocers, 14; hardware, 3; jewelry, 4; meat markets, 2; men's furnishings, 3; merchant tailors, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 4; shoes, 2; sporting goods, 1; stationers, 2; women's apparel, 1.

PHOENIX, ARIZ.

(Maricopa County)

1920 Population, 20,053 (1926 est. 48,000).

City and Suburban Estimate, 150,000. Most important cities and towns in this area are: Mesa (pop. 5,000); Glendale (4,000); Globe-Miami (8,000 and 7,000); Prescott (6,000).

Native Whites, 90%; Negroes, 1.5%; Foreign Born, 8.5%; English Reading, 95%; Families, 9,400 in Phoenix. Approximately 30,000 in immediate suburban area.

Schools: Public Grade, 18; High, 1, (Group of seven buildings); Parochial, 2; Number of Pupils, 12,328.

Churches: Baptist, 7; Christian Science, 2; Congregational, 2; Episcopal, 1; Hebrew, 2; Methodist, 8; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 16.

Banks: National, 4; State, 4; Total Resources (all banks), \$28,911,074. (Jan. 1, 1926); Savings Bank Deposits, Total, \$10,038,832; Total Deposits (all banks), \$26,160,526. (Jan. 1, 1926); Total Bank Clearings, \$291,057,000 (12 months, 1925).

Theatres: Legitimate, 1; Moving Pictures, 8; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 5. Total number of seats 11,800.

Location: Phoenix is located in the heart of Salt River Valley (110,000 population), irrigated by famous Roosevelt Dam. Southern Pacific and Santa Fe Railroads serve community. Excellent railway and auto stage service connects with all of Arizona. To Los Angeles, Calif., by railroad, 12 hours; by automobile, 18 hours.

Principal Industries: Agriculture which embraces the raising of high grade long staple cotton, large crop of early cantaloupes, all citrus and deciduous fruits. Dairying, mining, cattle, poultry, jobbing and distributing center for state. Cotton gins, cotton seed oil mills, brick yards, broom factory, canning factories, creameries, flour mills, ice plants for freight-car refrigeration.

Special Information: Claims 161% increase in population in 10 years. Over 426 miles of concrete roads within 35 miles of Phoenix makes this city easily accessible to entire state, as these roads in turn connect with splendid state highways. 340,000 acres of rich irrigated land surrounds Phoenix with 360,000 additional acres available for irrigation. Phoenix is the political, shopping, wholesale, shipping, supply, educational, social, railroad and geographical center of the whole state. That is why Phoenix, a town of 48,000, looks, acts, and does business equal to a city of a quarter of a million. The Southern Pacific Ry. is expanding \$15,000,000 on its new main line. A \$3,000,000 private irrigation project is now under construction, 40 miles from the city. The Coolidge Dam, located near Casa Grande, 60 miles S. E. of Phoenix, and now under construction, will bring 67,000 acres under irrigation. Phoenix is the natural supply center for this development and will also be greatly benefited by the future developments of the Colorado River projects.

Residential Features: A city of beautiful homes and apartment houses, mostly of brick and other durable materials. Annual winter residents build palatial homes, with extensive grounds. Spanish style of architecture coming into favor, majority of homes bungalow type. Wide streets, evergreen parks, unexcelled schools and public buildings. Extensive building operations are now progressing outside of the city limits in the adjacent citrus belt, the figures for which are not included in the official reports of the city proper. Phoenix is also a noted health and winter tourist resort.

Retail Shopping Section: Extends from railroad tracks on South to Pierce Street on North a distance of eight blocks. From Seventh Street on East to Seventh Avenue on West, a distance of 14 blocks. An outlying business district covering 4 square blocks. Neighborhood sections. Because of great number of paved roads radiating from city, the entire Salt River Valley becomes as one large town, with Glendale, Mesa, Tempe, Chandler and Scottsdale considered as suburbs of Phoenix.

Trading Area: Immediate daily trading area bounded by Maricopa County approximately 40 miles in each direction. Entire trading area embraces practically whole state. Although not of metropolitan size, Phoenix is looked upon as being the metropolis of this vast area. There are 426 miles of concrete highway radiating from Phoenix, which make connection with boulevard highways extending into the mining and cattle country and comprise the trading territory. The city is therefore easily accessible to residents of the mountain territory who do not possess the advantages in their own communities which the shops of Phoenix afford. This condition has given Phoenix control over a larger trading area than the average city of equal size usually enjoys.

Wholesale Houses: Groceries, 4; meats, 9; fruits, 8; hardware, 1; dry goods, 2; miscellaneous lines, stationers, 4; automobiles, 16; optical, 1; confectionery, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 34; commercial automobile agencies, 8; automobile accessories, 25; automobile tire agencies, 30; bakers, 10; cigar stores and stands (including hotels), 12 (chain, 2); confectioners (including hotel stands), 250; delicatessen, 6; dressmakers, no figures available; druggists, 25 (chain, 5); dry goods, 12; department stores, 4; electrical supplies, 10; florists, 3; fruits, 25; furniture, 5; furriers, 2; garages (public) 50; grocers, 250 (chain, 17); hardware, 7; jewelry, 8; meat markets, 32 (chain, 4); men's furnishings, 2; men's clothing, 20; merchant tailors, 3; milliners, 6; opticians, 6; photographers, 8; pianos (and miscellaneous musical instruments), 8; radio supplies, 10; restaurants (including hotels), 40; shoes, 10; sporting goods, 5; stationers, 5; women's apparel, 5.

Miscellaneous Data: Average temperature, 69.3 degrees; average number of rainy days per twelve months, 39; most pleasant months, October to June. Doctors (medical, 80); dentists, 30; osteopaths, 6; street car service; gas, artificial; electric current, alternating; number of wired houses, 7,000; number of automobile registrations, 25,100 (for Maricopa County Aug. 1, 1926); water, soft.

PRESCOTT, ARIZ.

(Yavapai County)

1920 Population, 5,010 (1926 est. 7,300).

City and Suburban Estimate, 11,250. Most important cities and towns in this area are: Jerome (pop. 6,500); Clarksdale (2,750); Humboldt (2,250).

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 50%; English Reading, 98%; Families, 1,499.

Schools: Public Grade, 3; High, 1; Number of Pupils, 2,000.

Churches: 14.

Banks: State, 4; Capital Surplus and Undivided Profits (all banks), \$1,800,000. Total Deposits (all banks), \$3,250,000; Total Resources (all banks), \$9,000,000.

Theatres: 1; Total number of seats, 850.

Location: On the Santa Fe Railroad. To nearest large city by railroad, 3 hours; by automobile, 1½ hours.

Principal Industries: Mining, stock raising and farming.

Residential Features: One and two family houses.

Retail Shopping Section: A few blocks on Cortez, Curley and Montezuma streets.

Trading Area: About thirty miles.

Wholesale Houses: Groceries, 3; hardware, 2; miscellaneous lines, confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial automobile agencies, 6; automobile accessories, 10; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 3; confectioners (including hotel stands), 3; dressmakers, 8; druggists, 5; dry goods, 4; department stores, 2; electrical supplies, 2; florists, 3; fruits, 3; furniture, 2; garages (public), 10; grocers, 12 (chain, 2); hardware, 2; jewelry, 3; meat markets, 6 (chain, 2); men's furnishings, 3; men's clothing, 3; merchant tailors, 4; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 15; shoes, 6; sporting goods, 1; stationers, 3; women's apparel, 3.

Miscellaneous Data: Average temperature, 68 degrees; average number of rainy days per twelve months, 25; most pleasant months, May to September, inclusive. Doctors (medical, 8); dentists, 6; osteopaths, 1; gas, artificial; number of meters, 2,150; electrical current, direct; number of wired houses, 2,100; number of automobile registrations, 5,500 (for Yavapai County); water, soft.

TUCSON, ARIZ.

(Pima County)

1920 Population, 20,292.

City and Suburban Estimates, 35,500.

Native Whites, 73%; Negroes, 2%; Foreign Born, 25%; Industrial Workers, 8%; English Reading, 80%; Families, 6,850.

Schools: Public Grade, 14; High, 1; Parochial, 5; Number of Pupils, 6,373.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 4; Miscellaneous, 3.

Banks: National, 2; State, 2; Total Resources (all banks), \$10,482,343; Savings Bank Deposits (Est.), Total, \$7,933,543.90. No complete statement has been issued on savings accounts.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 5. Total number of seats, 5,800.

Location: In Pima County, Arizona, on the main line of the Southern Pacific R.R. Tucson is 312 miles west of El Paso and 500 east of Los Angeles. It is the terminus of the Southern Pacific de Mexico R.R., 70 miles north of the international line. It lies on a plateau surrounded by mountain ranges, is 2,400 feet above sea level, and has a climate comparable with lower Egypt. To nearest large town by railroad, 15 hours; by auto, 24 to 36 hours.

Principal Industries: Railroad shops, brick manufacture, printing, flour mills, candy manufacture, mining, cottonseed oil, agriculture.

Manufacturing Establishments: 5. Leading firms Albert Steinfeld & Company, Tucson Pressed Brick Company.

Special Information: Being only 70 miles from Mexico, Tucson serves as a distributing point for the Mexico West Coast. The city is also a health center.

Residential Features: Private homes predominate with considerable numbers of apartment houses. Also, large Mexican quarter.

Retail Shopping Section: Extends on three streets—Congress, Broadway, and Pennington for eight blocks, and four blocks on six cross streets—Fifth, Sixth, Fourth, Stone, Myer, and Scott.

Trading Area: 100 miles in all directions, thinly settled, with approximately 10 small towns. Railroad or automobile stages connecting all towns with Tucson.

Wholesale Houses: Groceries, 5; meats, 5; fruits, 4; hardware, 3; dry goods, 2; miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 19; commercial automobile agencies, 4; automobile accessories, 8; automobile tire agencies, 8; bakers, 6; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 10; delicatessen, 2; dressmakers, 5; druggists, 10 (chain, 1); dry goods, 11; department stores, 2; electrical supplies, 5; florists, 3; fruits, 10; furniture, 7; furriers, none; garages (public), 17; grocers, 45 (chain, 3); hardware, 7; jewelry, 7; meat markets, 11; men's furnishings, 7; men's clothing, 6; merchant tailors, 3; milliners, 3; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 4; restaurants (including hotels), 35; shoes, 8; sporting goods, 2; stationers, 3; women's apparel, 5.

Miscellaneous Data: Average temperature, 57.7 degrees; average number of rainy days per twelve months, 18; most pleasant months, October to May, inclusive. Doctors (medical, 28); dentists, 9; osteopaths, 3; gas, artificial; electric current, alternating; number of wired houses, 7,500; water, hard.

YUMA, ARIZ.

(Yuma County)

1920 Population, 4,237.

City and Suburban Estimate, 8,000. Most important cities and towns in this area are: Somerton (pop. 1,500); Gadsden (800); Well-ton (400).

Native Whites, 95%; Negroes, 1%; Foreign Born, 4%; English Reading, 99%.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 2,300.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, \$3,000,000; Savings Bank Deposits Total, \$1,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 2,000.

Location: Southern Pacific (Main Line), and on Main Transcontinental Highway.

Principal Industries: Agriculture, mining, railroad shops.

Manufacturing Establishments: Concrete tile, ditch headings, brooms.

Special Information: Division headquarters of S. P. Ry. Division point to Gulf of California in Mexico, which is an all-the-year-round pleasure resort. United States irrigation projects of 130,000 acres places Yuma among the leaders of all such projects in the United States. Central station of the Pickwick Stage Line to points east and west. Good hotel and rooming house accommodations, with 2 new up-to-date hotels under construction.

Residential Features: Mostly one-family residences. Finest residence district on highest lands leading toward Yuma's celebrated mesa grapefruit and orange section.

Retail Shopping District: Extends from Second Avenue to River. One mile square, with every kind of store known in modern cities.

Trading Area: Extends 60 miles west, and 100 miles east and north, and to Gulf of California, 75 miles south. Good surfaced auto roads in all directions.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 2; hardware, 2; dry goods, 1; miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial automobile agencies, 1; automobile accessories, 11; automobile tire agencies, 20; bakers, 4; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 5; dressmakers, 2; druggists, 4; dry goods, 6; department stores, 4; electrical supplies, 4; fruits, 10; furniture, 4; garages (public), 10; grocers, 20; hardware, 2; jewelry, 3; meat markets, 6; men's furnishings, 7; men's clothing, 7; merchant tailors, 4; milliners, 2; opticians, 3; photographers, 1; radio supplies, 4; restaurants (including hotels), 8; sporting goods, 4; stationers, 3; women's apparel, 6.

Miscellaneous Data: Doctors (medical, 10); dentists, 2; osteopaths, 1; gas, artificial; electric current, alternating; number of automobile registrations (for Yuma County), 3,670; water, medium soft.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 5. Total number of seats, 1,800.

Location: Missouri-Pacific Railroad. Bus service east, south and west.

Principal Industries: Flour and feed, staves, lumber, wooden toys, candy, printing, cotton seed oil, meal and hulls.

Manufacturing Establishments: 9. Leading firms: Arkadelphia Milling Co., Thos. G. Clark Lbr. Co., Clark-Hule Lbr. Co., Temple Cotton Oil Co., Galloway Candy Co., Wellborn & Walls, toys; Arkadelphia Ice Co., Arkansas Light & Power Co., J. G. Clark Lbr. Co. Total value of yearly output of factories estimated at \$6,500,000.

Special Information: County site of fine agricultural country. Ouachita (Baptist) and Henderson-Brown (Methodist) State Colleges. Presbyterian (negro) and Baptist Academy (negro).

Residential Features: Almost exclusively one-family residences. Private homes predominate.

Retail Shopping Section: Main from 5th to 8th Streets; Caddo to Clay on 6th, 7th and 8th Streets; Clinton from 5th to 8th Streets; Clay from 5th to 8th Streets.

Trading Area: Extends about 15 miles east, south, north, and west. Considerable trade from great distance, owing to fine cotton market and good highways.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; flour and feed, 1; confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 2; automobile accessories, 5; automobile tire agencies, 6; bakers, 2; cigar stores and stands (including hotels), 9; confectioners (including hotel stands), 6; dressmakers, 2; druggists, 5; dry goods, 14; department stores, 3; electrical supplies, 2; florists, 1; fruits, 2; furniture, 2; furriers, 1; garages (public), 6; grocers, 6; hardware, 3; jewelry, 2; meat markets, 4; men's furnishings, 2; men's clothing, 7; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 3; shoes, 10; sporting goods, 2; stationers, 2; women's apparel, 3.

BLYTHEVILLE, ARK.

(Mississippi County)

1920 Population, 6,447. (1926 estimate, 6,700). City and Suburban Estimate, 12,000.

Native Whites, 80%; Negroes, 20%; Industrial Workers 600; English Reading, 100%; Families, 2,380.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of pupils, 3,610.

Churches: Baptist, 2; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; miscellaneous, 2.

Banks: National, 1; State, 2; Total Resources, \$8,000,000. Savings Bank Deposits Totals, \$1,680,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Total number of seats, 1,500.

Location: On St. Louis & San Francisco, Cotton Belt, and Jonesboro, Lake City & Eastern Railroads, and Florida Midwest Highway, with concrete roads and daily truck service to Memphis, Paragould, Jonesboro, Caruthersville, and other cities. To nearest large city by railroad, 3 hours; by auto, 3 hours.

Principal Industries: Cotton compresses, cotton oil mills, cotton warehouses, hardwood lumber mills, woodworking factories, barrel factories.

Manufacturing Establishments: 20. Leading firms: Chicago Mill & Lumber Co., Arkansas Compress Co. Total value of yearly output of factories estimated at \$25,000,000 (including output of cotton compresses).

Special Information: Blytheville claims to be the largest cotton market in Arkansas, having received 248,611 bales for the year ending July 31, 1926. Mississippi County, of which Blytheville is the seat, grows \$20,000,000 worth of cotton annually, leading all other counties of the United States. The city draws heavily from adjoining counties in northeast Arkansas, and southeast Missouri. Is a railroad center with extensive wholesale and jobbing interests, wheat, alfalfa, and flour mills.

Residential Features: Some of the finest homes in Arkansas are located in Blytheville. Of a total of 2,550 homes, more than 2,000 are owned by their occupants. New buildings are now under construction with contracts totalling more than \$1,000,000, including a new 125-room hotel.

Retail Shopping Section: Ten blocks on Main Street, 4 blocks on Second Street, 4 blocks on Fourth Street, 6 blocks on Ash Street, 4 blocks on Walnut Street. Blytheville has more stores than most cities of twice its size, due to the rich country tributary to the town, and the extensive country trade enjoyed by local merchants and dealers.

Trading Area: Nine miles east to the Mississippi River, 60 miles south toward Memphis, 40 miles west toward Paragould, and Jonesboro, and 30 miles north toward Poplar Bluff, Mo.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 2; hardware, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agen-

cies, 12; commercial automobile agencies, 4; automobile accessories, 16; bakers, 2; total cigar stores and stands (including hotels), 11 (chain, 6); confectioners (including hotel stands), 6; delicatessens, 3; dressmakers, 14; druggists, 12; dry goods, 22; department stores, 5; electrical supplies, 4; florists, 2; fruits, 11; furniture, 6; garages (public), 9; grocers, 89 (chain, 2); hardware, 5; jewelry, 4; meat markets, 7; men's furnishings, 9; men's clothing, 9; merchant tailors, 5; milliners, 5; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; total restaurants (including hotels), 11; shoes, 14; sporting goods, 5; stationers, 3; women's apparel, 12.

Miscellaneous Data: Doctors (medical, 22); (dentists, 6); (osteopaths, 2); electric current, alternating; number of wired houses, 2,418; water, soft; number of automobile registrations for county, 5,628.

See announcement columns 2 and 3

CAMDEN, ARK.

(Ouachita County)

1920 Population, 3,238.

City and Suburban Estimate, 10,000.

Native Whites, 40%; Negroes, 40%; Foreign Born, 20%; English Reading, 100%.

Schools: Public Grade, 2; High, 2; Junior High, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 15.

Banks: National, 1, State, 2.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1.

Location: Cotton Belt, Rock Island, and Mo. Pac. R. Rs. Boats the year around from Camden to New Orleans on Ouachita River.

EL DORADO
ARKANSAS

EL DORADO is in the heart of America's greatest oil field—the key city to a vast outlet of nationally known products.

EL DORADO in five years time has grown from a town of 3,800 to a city of 30,000 population.

EL DORADO and its trade territory, 110,000 population, 25-mile radius, is an annual \$31,000,000 market.

EL DORADO, July, 1926, ranked among the 26 leading cities of the United States in building. Permits from Jan. 1 to Aug. 1 totaled \$2,010,133.

EL DORADO is midway between Shreveport, La., and Little Rock, Ark., a distance of 280 miles, outside the trade areas of either city.

Blytheville
Arkansas

"Wonder City"
of the
"Wonder State"

Serving a trading population of 100,000, in the richest agricultural section of America.

Blytheville receives each year more than 248,000 bales of cotton, bringing into the channels of local trade more than \$25,000,000.

The DAILY COURIER NEWS

Occupies the Blytheville field alone and is the dominant newspaper in Northeast Arkansas.

ALABAMA (Cont'd)

El Dorado (cont'd)

Principal Industries: Oil production and refining, lumbering, cotton gin, cotton-seed mill, harness, dairying, ice cream plants (3); foundry.

Manufacturing Establishments: 21. Leading firms: Lion Oil Refining Co., El Dorado Foundry Co.

Special Information: El Dorado is located in the heart of the Arkansas oil fields, and within a radius of 25 miles (its trade territory) there are 110,000 people, having a purchasing power of \$350 per capita and a yearly market of \$30,000,000. Annual industrial payrolls (which do not include retail and wholesale business, nor oil-field operation) totaled \$7,026,142.51 in 1925. The volume of business done by two of the three wholesale grocery companies in the city is as follows: In 1920, \$1,144,855.23; 1921, \$1,819,425.51; 1922, \$2,842,486.43; 1923, \$3,650,000; 1924, \$2,900,000; 1925, \$3,037,000; 1926 (five months), \$1,287,120.40. The foregoing statement does not include the third, which is one of the largest wholesale groceries in the city. The total value of the property in the city alone is estimated at \$24,000,000. An extensive industrial survey was made of this city and its trade territory, covering a six-months' period, by one of the foremost industrial engineering companies in the South. As a result of the final report, work is now under way for several manufacturing plants to be built in the city. Building permits (Jan. 1 to Aug. 1) totaled \$2,100,000.

Residential Features: Many new homes have been built in the past year. The preferred style of architecture is of the bungalow type. There are some palatial residences of Colonial design, but the one-story bungalow is the more popular type. A new subdivision recently opened up is now on the market, with a minimum lot-price of \$2,000 and a building restriction of a minimum coat of \$10,000. This addition is known as the "Country Club Colony," and represents an investment of \$100,000, having all the advantages of the closer in residential sections.

Retail Shopping Section: North and South Washington Avenue and "The Square" comprise the shopping section, but there are numerous suburban stores serving the outlying subdivisions.

Trading Area: Covers a radius of 25 miles. Improved highways radiate from the city, increasing its trade territory from 15 to 25 miles in the last year and a half.

Wholesale Houses: Groceries, 3; hardware, 1; furniture, 1; fruits, 1; dry goods, 1; bottling works, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial automobile agencies, 5; automobile accessories, 8; automobile tire agencies, 7; bakers, 5; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 15; delicatessen, 2; dressmaker, 1; druggists, 17; dry goods, 11; department stores, 3; electrical supplies, 3; florist, 1; fruits, 6; furniture, 9; garages (public), 7; grocers, 103; hardware, 6; jewelry, 7; lumber, 6; meat markets, 10; men's furnishings, 15; men's clothing, 16; merchant tailors, 13; milliners, 6; oil and gas well supplies, 16; optician, 1; photographers, 4; pianos (and miscellaneous musical instruments), 2; plumbing and heating supplies, 11; radio supplies, 3; restaurants (including hotels), 64; shoes, 9; sporting goods, 2; stationers, 2; typewriters and office supplies, 2; women's apparel, 12.

Miscellaneous Data: Doctors (medical, 17); (dentists, 12); (osteopath, 1); gas, natural; number of meters, 2,800; electric current, alternating and direct; number of wired houses, 3,100; number of automobile registrations, 11,565 (July 1, 1926) in county; water, soft.

See announcement page 8 column 4

EUREKA SPRINGS, ARK.

(Carroll County)

1920 Population, 2,429.

City and Suburban Estimate, 4,500.

Native Whites, 95%; Negroes, 1%; Foreign Born, 4%; Industrial Workers, 3%; English Reading, 99%; Families, 950.

Schools: Public Grade, 1; High, 1. Number of Pupils, 500.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Pentecostal, 1.

Banks: National, 1; State, 1. Total Resources, \$670,000.

Theatres: Moving Pictures, 1. Total number of seats, 500.

Location: On main line of Missouri & North Arkansas R.R. Auto taxi service to Seligman, Mo., and Berryville, Ark.

Principal Industries: Lumber mills, planing mills, water shipping, ice plant, steam laundry, steam bakery.

Manufacturing Establishments: 6. Leading firms: Phillips Lumber Co., Ozarka Water Shipping Co., Crow Bakery, Perkins Lumber Co., C. D. Bradley Lumber Co., Yeastole Co. Total value of yearly output of factories estimated at \$200,000.

Special Information: The three hard-surfaced highways from our city are not affected by rainy weather. Forty cold water springs in city limits. Noted health resort in the Ozark Mountain region. Six large hotels furnish accommodations for 600 visitors.

Residential Features: Most homes owned by residents, several large rooming houses furnished for tourists. Streets have shade trees on both sides.

Retail Shopping Section: Spring and Main Streets. Business section is 5 blocks long.

Trading Area: Fifteen miles south, 10 miles north, 10 miles east, 15 miles west. Hard-surfaced highways in all directions.

Wholesale Houses: Groceries, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 2; automobile accessories, 5; automobile tire agencies, 3; bakers, 1; cigar stores and stands (including hotels), 6; dressmakers, 3; druggists, 4; dry goods, 6; department stores, 1; electrical supplies, 1; florists, 1; furniture, 3; garages (public), 3; grocers, 21; hardware, 4; jewelry, 1; meat markets, 5; men's furnishings, 3; men's clothing, 3; milliners, 3; opticians, 1; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 10; shoes, 3; sporting goods, 1; stationers, 2; women's apparel, 3.

FAYETTEVILLE, ARK.

(Washington County)

1920 Population, 5,362.

City and Suburban Estimate, 10,000.

Native Whites, 90%; Negroes, 10%; Industrial Workers, 25%; English Reading, 100%; Families, 1,000.

Schools: Public Grade, 6; High, 2; Parochial, 1. Number of Pupils, 1,700.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 1. Adventist, 1.

Banks: National, 2; State, 2. Total Resources, \$3,000,000 approximately; Savings Bank Deposits Total, \$250,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Total number of seats, 2,000.

Location: In the heart of the Ozark Mountains. On the St. Louis & San Francisco R.R.

Principal Industries: Fruit, grapes, apples, berries, hardwood lumber.

Manufacturing Establishments: Leading firms: Phipps Lumber Co., Brower Lumber Co., Sligo Wagon-Wood Works. Total value of yearly output of factories estimated at \$4,000,000, including output of canneries.

Special Information: Ideal summer resort. Site of Western Methodist Assembly, University of Arkansas, Business College, U. S. Experiment Station.

Residential Features: Mostly one-family residences, educational center.

Retail Shopping Section: Public square, 1 block on each side, Dickson Street 2 blocks. Hard surfaced roads in 4 directions.

Trading Area: Principal trading center of northwest Arkansas. Includes County, with a population of 35,468.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 1; hardware, 1; dry goods, 1; Miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 2; automobile accessories, 4; automobile tire agencies, 12; bakers, 3; cigar stores and stands (including hotels), 92; confectioners (including hotel stands), 10; delicatessen, 1; dressmakers, 1; druggists, 5; dry goods, 4; department stores, 2; electrical supplies, 3; florists, 1; fruits, 1; furniture, 1; furriers, 1; garages (public), 9; grocers, 10; hardware, 3; jewelry, 3; meat markets, 3; men's furnishings, 5; men's clothing, 5; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 11; shoes, 2; sporting goods, 1; stationers, 1; women's apparel, 2.

FORT SMITH, ARK.

(Sebastian County)

1920 Population, 28,870.

City and Suburban Estimate, 40,000.

Native Whites, 85%; Negroes, 12%; Foreign Born, 3%; Industrial Workers, 5,000; English Reading, 97%; Families (approx.) 6,000.

Schools: Public Grade, 10; High, 2; Junior High, 1; Parochial, 3; Number of Pupils, 9,225.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 3; State, 1; Total Resources (all banks), \$20,000,000. Savings Bank Deposits, Total, \$5,827,830.

Theatres: Legitimate, 1; Moving Pictures, 5; Total number of seats, 3,000.

Location: On the extreme western border of Arkansas and near eastern border of Oklahoma. Served by the St. Louis & San Francisco, Kansas City Southern, Missouri Pacific, Midland Valley, and Fort Smith & Western R.R.s., and is 169 miles west of Little Rock, and about half way between St. Louis and Dallas, Tex.

Principal Industries: Furniture of all kinds: Glass bottles, chimneys, window glass, cotton-seed oil, brick and tile, pants and overalls, metal beds, caskets, candy, zinc spelter, well buckets, auto bodies, steel scissors.

Manufacturing Establishments: 121. Leading firms: Radiant Glass Co., Harding Glass Co., Fort Smith Body Co., Fort Smith Furniture Mfg. Co. (this includes seven factories), Solid Steel Scissors Co. Total value of yearly output of factories estimated at \$25,000,000.

Special Information: Natural gas supply, 600,000,000 feet daily flow. Industrial gas rate, 12c. to 15c. Surrounding coal fields contain four billion tons. Large manufacturing and jobbing center, as a result of cheap fuel and good transportation facilities.

Residential Features: Eighty per cent homes owned by occupants. Majority one-family type.

Residential section entirely paved and sewered. 2,500 available lots ready for building in this district.

Retail Shopping Section: Garrison Avenue is principal retail street, is 90 feet wide, 13 blocks long, divides the city north and south, double street car tracks merging from all city lines, extend its entire length.

Trading Area: About 60 miles north, 45 miles east, 40 miles west, 40 miles south. Good roads leading from all directions in this territory.

Wholesale Houses: Groceries, 8; meats, 2; fruits, 2; hardware, 2; dry goods, 3; Miscellaneous lines, 73; drugs, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial automobile agencies, 4; automobile accessories, 5; automobile tire agencies, 8; bakers, 8; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 2; delicatessen, 3; dressmakers, 5; druggist, 28; department stores, 6; electrical supplies, 8; florists, 4; fruits, 1; furniture, 7; furriers, 1; garages (public), 8; grocers, 167; hardware, 5; jewelry, 7; meat markets, 6; men's furnishings, 6; men's clothing, 6; merchant tailors, 3; milliners, 5; opticians, 3; photographers, 7; pianos (and miscellaneous musical instruments), 4; radio supplies, 6; restaurants (including hotels), 10; shoes, 7; sporting goods, 4; stationers, 3; women's apparel, 9.

HARRISON, ARK.

(Boone County)

1920 Population, 3,477.

City and Suburban Estimate, 6,000.

Native Whites, 100%; English Reading, 100%; Families, 1,000.

Schools: Public Grade, 3; High, 1; Junior High, 1; Number of Pupils, 1,250.

Churches: Baptist, 1; Christian Science, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 2; State, 1; Total Resources (all banks), \$1,800,000. Savings Bank Deposits, Total, \$1,750,000.

Theatres: Moving Pictures, 1.

Location: Harrison is in the heart of the Ozark Mountains and is a popular resort for tourists. To nearest large city, by railroad, 6 hours; by auto, 5 hours. Headquarters and general offices and shops of Missouri & North Arkansas R.R.

Principal Industries: Timber, railroad shops, dairying and fruit farming.

Residential Features: Fine homes. Town is surrounded by hills.

Retail Shopping Section: Located on all sides of large central square.

Special Information: Fine parks, with \$100,000 Court House in center. U. S. Land Office, and United States District Court located here. \$125,000 government building. Payroll of railroad shops, \$50,000 per month. Two miles of concrete paving has recently been completed, and other paving districts being laid out. \$3,000,000 worth of live stock, cream, butter and eggs, fruit and tomatoes have been shipped from Boone County this year. City growing steadily, with increased demand for housing accommodations.

Trading Area: County to south. Newton has no railroad and Harrison is the trading territory for large area. People come 30 to 40 miles to trade.

Wholesale Houses: Groceries, 1; hardware, 2; dry goods, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; automobile tire agencies, 5; bakers, 1; cigar stores and stands (including hotels), 4; dressmakers, 2; druggists, 4; dry goods, 6; department stores, 2; electrical supplies, 2; florists, 2; furniture, 2; garages (public), 5; grocers, 8; hardware, 2; jewelry, 2; meat markets, 3; men's furnishings, 1; men's clothing, 2; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 6; shoes, 1; stationers, 1; women's apparel, 2.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per twelve months, 60; most pleasant months, May, June, September, October and November. Doctors (medical, 8); (dentists, 3); electric current, alternating; water, hard.

HELENA, ARK.

(Phillips County)

1920 Population, 9,112 (corporate limits not changed since 1830).

City and Suburban Estimate, 24,000. Most important town in this area is West Helena, a suburb of Helena (pop. 7,000).

Native Whites, 48%; Negroes, 50%; Foreign Born, 2%; Industrial Workers, 60%; English Reading, 100%; Families, 4,500 (estimated).

Schools: Public Grade, 10; High, 3; Junior High, 2; Parochial, 1; Number of Pupils, 4,632.

Churches: Baptist, 3; Christian Science, 1; Christian, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 10; (mostly negro).

Banks: National, 2; State, 3; Capital, Surplus and Undivided Profits (all banks), \$11,250,000; Total Deposits (all banks), \$4,700,000; Average monthly Total Retail Sales (all lines), \$1,500,000. (1925 est.). Total Resources, (all banks), \$10,000,000.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3.

Location: On Missouri Pacific, Mo. & North Arkansas, Memphis, Helena & Louisiana, Midland and Illinois Central R.R.s. Head of deep

water navigation on Mississippi. River terminal for interchange from river to railroad.

Principal Industries: Large hardwood lumber industry, auto-body plants, flour-mills, mixed feeds, cotton mills, cotton oil mills, cotton compresses, cooperage, machine shops and all plants necessary for thriving community.

Manufacturing Establishments: 50. Leading firms: Chicago Mill & Lumber Co., Poinsett Lumber Co., Pekin Wood Products Co., 35,000 car loads of logs produced annually.

Special Information: The location of this city makes it a convenient gateway to the Southwest; County raises \$6,000,000 cotton crop yearly average, a heavy yield of corn, hay, fruit and miscellaneous crops.

Residential Features: Mostly one-family houses.

Retail Shopping Section: Extends from river west, 5 blocks, and from Arkansas Street to Perry, 6 blocks.

Trading Area: Extends north 35 miles, south 90 miles, west 55 miles and across Mississippi River east, 20 miles. Bus lines extend south 50 miles, west 35 miles. Interurban lines, 6 miles.

Wholesale Houses: Groceries, 6; meats, 5; fruits, 4; hardware, 2; dry goods, 2; miscellaneous lines, mill supply, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 3; automobile accessories, 15; automobile tire agencies, 15; bakers, 4; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 15; delicatessen, 5; dressmakers, 5; druggists, 15; dry goods, 50; department stores, 2; electrical supplies, 3; florists, 2; fruits, 8; furniture, 11; furriers, best stores, garages (public), 7; grocers, 110 (chain, 2); hardware, 4; jewelry, 4; meat markets, 25; men's furnishings, 16; men's clothing, 28; merchant tailors, 2; milliners, 3; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels, 12); shoes, 5; sporting goods, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 66 degrees; average number of rainy days per twelve months, 45; most pleasant months, April, May, June, September, October, November, December. Doctors (medical, 30); (dentists, 8); (osteopaths, 2); street car service; gas, artificial; electric current, alternating; number of wired houses, 1,771; number of automobile registrations, 4,500 (for Phillips County); water, soft.

HOPE, ARK.

(Craighead County)

1920 Population, 4,790.

Native Whites, 65%; Negroes, 35%.

Schools: Public Grade, 4; High, 2; Junior High, 1.

Churches: Baptist, 2; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 2; State, 2.

Theatres: Moving Pictures, 2. Total number of seats, 700.

Location: Missouri-Pacific Railway, running northeast and southwest; Louisiana and Arkansas Ry., running south into Louisiana. Hope is the northern terminus of a trunk line railroad from Mobile, Ala., giving Gulf port connection. The Frisco Railroad leads into Oklahoma and a little to the northwest. The A. & L. Branch of the Missouri-Pacific opens up a splendid trade territory a little to the northwest.

Principal Industries: Handles, heads, brick and tile, machinery supplies, lumber, mattresses, crate and baskets.

Manufacturing Establishments: Hope Lumber Co., Hope Brick Works, Hope Heading Mill, Hope Crate & Basket Factory, Ivory Handle Co., Temple Cotton Oil Mills.

Special Information: Hope is located in one of the richest agricultural sections of the Southwest, the soil and climate being adapted to the growing of a large variety of truck farm and fruit products; is located in the center of a great lumber producing section. The only diamond mine in the country is less than 20 miles distant.

Residential Features: Mostly brick, five to eight-room houses, owned by the families living in them. Frisco and Brookwood additions are our two most exclusive residential districts. In these many large two-story modern homes are located, averaging in value from \$5,000 to \$40,000.

Retail Shopping Section: Retail shopping section comprises 18 blocks: Elm Street for 3 blocks; Main Street for 3 blocks; Walnut for 3 blocks; Front Street for 3 blocks; East Second Avenue for 3 blocks; East Third Street for 3 blocks.

Trading Area: Extends a little more than 35 miles in every direction. No trolley lines, but splendid rail service and good highways.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 1; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 2; automobile accessories, 6; automobile tire agencies, 14; bakers, 3; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 5; dressmakers, 12; druggists, 5; dry goods, 12; department stores, 2; electrical supplies, 2; furniture, 3; garages (public), 6; grocers, 25; hardware, 4; jewelry, 3; meat markets, 7; men's furnishings, 3; men's clothing, 3; merchant tailors, 1; milliners, 2; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 10; sporting goods, 1; stationers, 1; women's apparel, 1.

ARKANSAS (Cont'd)

HOT SPRINGS NATIONAL PARK, ARK.

(Garland County)

1920 Population, 11,695 (1925 est. 20,500).

Native Whites, 75%; Negroes, 25%; English Reading, 100%.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 1. Number of Pupils, 3,800.

Churches: Baptist, 12; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 13; Presbyterian, 3; Roman Catholic, 2; Christian, 1; Adventist, 1; Holiness Church, 1.

Banks: National, 2; State, 4. Total Resources, \$6,892,323.85.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 14,000.

Location: On Missouri Pacific, and Chicago, Rock Island & Pacific R.R.s; run several trains into Hot Springs daily. To nearest large city, by railroad, 1 hour, forty-five minutes; by auto, 2 hours.

Principal Industries: Lumber and planing mills.

Manufacturing Establishments: Hot Springs is primarily a resort city and has no manufacturing plants.

Special Information: Hot Springs is a resort city, known as "The Nation's Health Resort," with forty-six hot radio-active springs, with a daily flow of 851,308 gallons. The average temperature of these springs is 137 degrees F. Hot Springs has an annual visiting population of over 250,000. Recreations to be enjoyed here are dancing, swimming, tennis, golf, hiking, horseback riding, mountain climbing, boating and motoring. Hot Springs was set aside by Congress as a national health resort in 1832, and the hot waters are owned and controlled by the U. S. Government. First unit of great hydro-electric works completed near Hot Springs, 25,000 h.p. now developed. Dam forms beautiful lake in the mountains. Second and third dams now being built, to cost \$18,000,000. Total development, 150,000 h.p.

Residential Features: Hot Springs is made up of private homes, apartment houses, rooming houses and boarding houses in the residential section. There are no tenements or working men's cottages.

Retail Shopping Section: Shopping district is mainly on Central Avenue from Ouachita Avenue to Park Avenue, a distance of approximately 12 blocks. Because of Hot Springs' location between mountains, there are very few cross streets in the downtown section.

Trading Area: Hot Springs draws rural trade from about 10 to 15 miles in each direction.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 5; automobile accessories, 15; automobile tire agencies, 8; bakers, 9; cigar stores and stands (including hotels), 19; confectioners (including hotel stands), 19; delicatessens, 2; dressmakers, 10; druggists, 36; dry goods, 21; department stores, 8; electrical supplies, 6; florists, 3; furniture, 18; garages (public), 21; grocers, 103 (chain, 4); hardware, 8; jewelry, 16; meat markets, 12; men's furnishings, 5; men's clothing, 5; merchant tailors, 7; milliners, 5; opticians, 4; photographers, 6; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 49; shoes, 6; sporting goods, 3; stationers, 3; women's apparel, 20.

JONESBORO, ARK.

(Craighead County)

1920 Population, 9,384.

City and Suburban Estimate, 17,500.

Native Whites, 95%; Negroes, 4%; Foreign Born, 1%; Industrial Workers, 15%; English Reading, 98%; Families, 3,500.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1. Number of Pupils, 2,710.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 1; State, 4. Total Resources, \$5,000,000; Savings Bank Deposits, Total, \$150,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Total number of seats, 2,250.

Location: On Crowley's Ridge in northeast Arkansas, 67 miles northwest of Memphis, Tenn. Served by Cotton Belt, Frisco and Jonesboro, Lake City and Eastern Railroads, with terminals and home offices of latter. Good bus service for radius of 30 miles; also have quick (3 miles) connection with Missouri Pacific Railroad.

Principal Industries: Hardwood lumber, baskets, golf shafts, veneering, railroad shops, printing, flour mills, wholesale grocers, cotton compress, brick kilns, ice cream.

Manufacturing Establishments: 75. Leading firms: Pierce Williams Co., Fairy-Crest Mfg. Co., R. L. Muse Lumber Co., Jonesboro Rolling Mills, A. B. Jones Co., Jonesboro Grocer Co., Jonesboro Roller Mills, Jonesboro Compress Co., Jonesboro Brick Co., Maddy Ice Cream Co., Roberts Cotton Oil Co. Total value of yearly output of factories estimated at \$10,000,000.

Special Information: Intersection of the Cotton Belt and Frisco Railroads makes Jonesboro one of the largest jobbing centers in the state. Four wholesale groceries do an annual business of \$5,000,000.

Residential Features: Is extensively a home-owning community. Three building and loan associations make it such. Mostly one-family homes. Estimate 60% home-owning. Suburban districts rapidly building up.

Retail Shopping Section: Main, Union and Church Streets from railroads south 5 blocks. Suburban groceries and confectioneries scattered throughout city.

Trading Area: Extends 25 miles east, and 40 miles north, west, and south, with hard surface roads leading in from all directions.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 2; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 3; automobile accessories, 10; automobile tire agencies, 9; bakers, 4; cigar stores and stands (including hotels), 19; confectioners (including hotel stands), 4; delicatessens, 1; dressmakers, 6; druggists, 10; dry goods, 9; department stores, 5; electrical supplies, 5; florists, 2; fruits, 5; furniture, 3; furriers, 3; garages (public), 6; grocers, 85; hardware, 3; jewelry, 4; meat markets, 12; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 2; restaurants (including hotels), 9; shoes, 8; sporting goods, 3; stationers, 5; women's apparel, 10.

LITTLE ROCK (including North Little Rock), ARK.

(Pulaski County)

1920 Population, 79,190. (1926 est. 90,000).

City and Suburban Estimate, 150,000.

Native Whites, 69%; Negroes, 28%; Foreign Born, 3%; Industrial Workers, 15%; English Reading, 98%; Families, 24,500.

Schools: Public Grade, 33; High, 2; Junior High, 3; Parochial, 7. Number of Pupils, 19,700.

Churches: Baptist, 59; Christian Science, 2; Congregational, 1; Episcopal, 5; Hebrew, 2; Methodist, 34; Presbyterian, 9; Roman Catholic, 6; Miscellaneous, 15.

Banks: National, 2; State, 10; Total Resources (all banks), \$58,073,460.93; Bank Deposits Total (all banks), \$49,116,452. Average monthly Total Retail Sales (all lines), \$1,250,000. (1925).

Theatres: Legitimate, 1; Moving Pictures, 9; Vaudeville, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 12,000.

Location: On Arkansas River, in center of State of Arkansas, with excellent railroad connections, making it very accessible to all parts of the State. There are eight distinct railroad rights-of-way leading into Little Rock, extending in seven different directions. The railroads serving Little Rock are the Missouri Pacific, Rock Island, and Cotton Belt systems. Excellent bus service is also maintained to points within radius of 64 miles, embracing Hot Springs, Pine Bluff, Conway, and other cities. To nearest large city, by railroad, 4½ hours; by auto, 6 hours.

Principal Industries: Railroad engine and car shops, cotton compresses, cottonseed oil mills, woodworking, stave and cooperage plants and furniture, overall, candy, harness, brick, tent and awning, broom and mattress factories and jobbing concerns in practically all lines.

Manufacturing Establishments: 219. Leading firms: Arkla Sash and Door Co., Arkansas Brick and Tile Co., Bruce Hardwood Flooring Co., McLean Arkansas Lumber Co., Hamlen Stave Co., Burton Dixie Corporation, Dixie Oil Mills, Rose City Oil Mills, Little Rock Furniture Mfg. Co., Tuf Nut Garment Mfg. Co., Big Rock Stone and Construction Co. Total value of yearly output of factories estimated at \$175,000,000.

Special Information: Little Rock is in the center of the financial and commercial district of the State of Arkansas. It is the one large city of the State and, with its excellent railroad service and central location, dominates to a most unusual extent the commerce of Arkansas. Five bridges (three railroad, and two for pedestrians and vehicular traffic) span the Arkansas River at Little Rock.

Residential Features: There are 27,500 families, and 22,000 homes in the city and its environs, and are mostly all one-family houses owned by the people living in them. A number of apartment houses have recently been erected. Well-kept yards and lawns are attractive features of the residential sections. Sidewalks and 181 miles of paved streets contribute to make Little Rock's residential section attractive.

Retail Shopping Section: Extends from Markham Street for nine blocks south on Main Street, Louisiana and Center Streets parallel Main Street and are business streets for about seven blocks. There are three outlying business sections and several smaller neighborhood sections.

Trading Area: Covers radius of about 50 miles in every direction. Inter-mittent business is secured from people living a greater distance because Little Rock stores offer a larger variety and higher class of merchandise than is available in the smaller cities in the State.

Wholesale Houses: Groceries, 5; meats, 6; fruits, 5; hardware, 3; dry goods, 2; produce, 5; drugs, 3; shoes, 1; ladies' ready-to-wear, 3; paper, 5.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial automobile agencies, 14; automobile accessories, 26; automobile tire agen-

cies, 20; bakers, 8; cigar stores and stands (including hotels), 20 (chain, 2); confectioners (including hotel stands), 44; delicatessens, 12; dressmakers, 23; druggists, 75; dry goods, 17; department stores, 7; electrical supplies, 10; florists, 7; fruits, 16; furniture, 28; furriers, 2; garages (public), 56; grocers, 450 (chain, 54); hardware, 12; jewelry, 10; meat markets, 75; men's furnishings, 9; men's clothing, 9; merchant tailors, 26; milliners, 6; opticians, 6; photographers, 7; pianos (and miscellaneous musical instruments), 6; radio supplies, 12; restaurants (including hotels), 179; shoes, 14; sporting goods, 4; stationers, 3; women's apparel, 9.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 89; most pleasant months, October to May, inclusive. Doctors (medical, 139); (dentists, 53); (osteopaths, 4); number of wired houses, 21,418; street car service; gas, natural; number of meters, 16,500; electric current, alternating and direct; water, medium hard.

MALVERN, ARK.

(Hot Springs County)

1920 Population, 3,854.

City and Suburban Estimate, 5,000.

Native Whites, 75%; Negroes, 23%; Foreign Born, 2%; Industrial Workers, 75%; English Reading, 92%; Families, 1,238.

Schools: Public Grade, 6; High, 2; Junior High, 2. Number of Pupils, 2,500.

Churches: Baptist, 5; Methodist, 3; Presbyterian, 1; Miscellaneous, 2.

Banks: National, 1; State, 2. Total Resources, \$1,500,000; Savings Bank Deposits Total, \$1,300,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,500.

Location: On Missouri Pacific and Rock Island Railroads.

Principal Industries: Lumber and brick plants.

Manufacturing Establishments: 5. Leading firms: Sheldon Handle Factory, Van Veneer Co., Moline Timber Co., Wisconsin and Arkansas Lumber Co. Annual output, \$1,000,000.

Special Information: Through the center of Hot Springs County flows the Ouachita River, in the valley of which are some of the finest farms in the state. Recently the Arkansas Light & Power Co. has undertaken the project of constructing a series of dams along the river, extending from Magnet Cove to above Hot Springs. These plants will cost several millions and generate nearly 100,000 h.p. The first dam is being built near Malvern and will furnish cheap power.

Residential Features: A few apartment houses, private homes predominating.

Retail Shopping Section: Extends from Mo. Pac. and R. I. Stations 5 blocks on Main Street. Business and professional offices on 2d and 3d Streets.

Trading Area: About 25 miles in all directions.

Wholesale Houses: Groceries, 2; hardware, 1. Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 6; automobile accessories, 6; automobile tire agencies, 8; bakers, 2; cigar stores and stands (including hotels), 8; confectioners (including hotel stands), 4; dressmakers, 10; druggists, 5; dry goods, 18; electrical supplies, 3; florists, 1; furniture, 6; garages (public), 6; grocers, 20; hardware, 4; jewelry, 2; meat markets, 4; men's furnishings, 3; merchant tailors, 3; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 4; shoes, 1.

MENA, ARK.

(Polk County)

1920 Population, 3,441.

City and Suburban Estimate, 5,000.

Native White, 100%; Negroes, none; Foreign Born, none; Industrial Workers, 400; English Reading, 100%.

Schools: Public Grade, 2; High, 1; Parochial, 1. Number of Pupils, 1,275.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 2; Total Resources (all banks), \$1,194,504.92; Total Savings account, \$368,040.36.

Theatres: Moving Pictures, 1 (combined with vaudeville); Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 1,750.

Location: Kansas City Southern Railway Co., 380 miles direct line from Kansas City, Mo.; 468 miles from Port Arthur, Texas. To nearest large city, by railroad, 3 hours; by auto, 4½ hours.

Principal Industries: Planing mills, woodworking plants, stave and heading plants, flour mills, cotton gins.

Manufacturing Establishments: Leading firms, none widely known. Total value of yearly output of factories estimated at \$3,000,000.

Special Information: Mena is the center of a valuable farming district, and, being the county seat and largest town in the county, has wide trade territory.

Residential Features: Majority of residents are home owners; average residence 5 rooms, 45% modern homes, with lights, sewer, city water, etc.

Retail Shopping Section: Mena Street, principal street, has 6 blocks solid business houses, both side street; DeQueen Street, next in importance, has 3 blocks. Minor side streets with small stores. Railroad divides the town, making Northside and Southside. Farmers supply stores, wagon-yards, etc., located on Southside. Stores relying on town trade on Northside.

Trading Area: Estimated 35 miles east and west, 20 miles north, and 35 miles south. Railroad runs north and south. Bus line south gives shoppers splendid service.

Wholesale Houses: Groceries, 2; Hardware, 1; Dry Goods, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial automobile agencies, 4; automobile accessories, 7; automobile tire agencies, 7; bakers, 1; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 4; dressmakers, 3; druggists, 4; dry goods, 9; department stores, 2; electrical supplies, 2; florists, 1; fruits, 1; furniture, 3; garages (public), 6; grocers, 13; hardware, 3; jewelry, 2; meat markets, 3; men's furnishings, covered by dept. stores and dry goods companies; merchant tailors, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; jewelry store (carries radio supplies), 1; restaurants (including hotels), 7; shoes (none exclusive), sporting goods, 1; book store, 1; stationers, 1; women's apparel (covered by dry goods and dept. stores).

Miscellaneous Data: Average temperature, 61 degrees; most pleasant months, May, October and November. Doctors (medical, 6); (dentists, 3); (osteopaths, 1); electric current, alternating; number of wired houses, 550; water, soft.

NEWPORT, ARK.

(Jackson County)

1920 Population, 3,771.

City and Suburban Estimate, 6,500.

Native Whites, 75%; Negroes, 25%; Industrial Workers, 25%; English Reading, 100%; Families, 1,300.

Schools: Public Grade, 2; High, 2. Number of Pupils, 1,700.

Churches: Baptist, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1. Total Resources, \$4,000,000; Savings Bank Deposits Total, \$500,000.

Theatres: Moving Pictures, 1. Total number of seats, 500.

Location: East bank of White River, 3 miles below the mouth of Black River, on the main line of the Missouri Pacific, and the White River railroads and a branch of the Rock Island R.R.

Principal Industries: One axle handle factory, and numerous hardwood lumber mills.

Manufacturing Establishments: Total value of yearly output of factories estimated at \$3,000,000.

Residential Features: One- and two-story houses.

Retail Shopping Section: Comprises Front Street, extending 9 blocks, and all cross streets 2 blocks deep.

Trading Area: 25 miles north, east, south and west.

Wholesale Houses: Groceries, 2; meats, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 1; automobile accessories, 6; automobile tire agencies, 12; bakers, 3; cigar stores and stands (including hotels), 3; confectioners (including hotel stands), 3; dressmakers, 12; druggists, 3; dry goods, 12; department stores, 2; electrical supplies, 1; furniture, 3; garages (public), 5; grocers, 20; hardware, 4; jewelry, 3; meat markets, 6; men's furnishings, 2; men's clothing, 2; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 7; sporting goods, 1; stationers, 1; women's apparel, 1.

PARAGOULD, ARK.

(Greene County)

1920 Population, 6,306.

Native Whites, 100%; English Reading, 100%.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1.

Churches: Baptist, 2; Methodist, 2; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 2; State, 2; Total Resources (all banks), \$3,924,040; Saving Bank Deposits Total, \$1,500,000.

Theatres: Moving Pictures, 3. Total number of seats, 3,000.

Location: In northeastern corner of the state, 223 miles from St. Louis and 78 miles from Memphis. On Mo. Pac. St. L. S. W. and Paragould Southeastern Rys.

Principal Industries: Export cooperage, staves, heading, veneer, shingles, lumber, ice cream, bottled goods, flour, feed mills, cotton ginning, vehicles, tomato canning, ice and cold storage.

Manufacturing Establishments: 41. Leading firms: Henry Wrape Co., J. F. Hasty & Sons, Standard Veneer Co., Lesser-Goldman Cotton Co., Amos Handle Co., East St. Louis Cotton Oil Co., Brown Lumber Co., East Arkansas Lumber

ARKANSAS (Cont'd)

Co., Hickson Rogers Mfg. Co., Ideal Ice Cream & Bottling Co., Paragould Co-operative Creamery, Paragould Milling Co., Arkansas Utilities Co. Total annual output, \$3,816,043.

Special Information: Paragould, the county seat of Greene Co., occupies a high point on Crowley's Ridge. The surrounding territory is rolling, with a clay loam soil free from rocks. It is one of the finest fruit, truck, live stock and general farming counties in the state. One of the largest coopeage manufacturing centers. Large shipments of poultry.

Residential Features: Mostly one family houses. No slums or tenement sections.

Retail Shopping Section: Extends along Pruet St. (the main thoroughfare) for six blocks. Second St. parallels Pruet on the west end and has four business blocks. Second Ave. on the east, has four business blocks, Main, Emerson, Court, Popular, Highland, and Hunt cross Pruet St. and have three business blocks each. Suburban groceries and oil stations abound in all outlying territory within the buying radius.

Trading Area: 25 or 30 miles north, 20 miles west, 15 south, 25 east. Several completed hard-surfaced roads, and others are now being made which will attract custom to the advantage of Paragould's merchants who carry stocks of goods of superior quality and at attractive prices.

Wholesale Houses: Groceries, 4; Miscellaneous Lines, 1; Commission, 1.

Doctors (medical, 20); (dentists, 10); (osteopaths, 8); public service street car service; gas, natural; electric current, alternating; number of wired houses, 4,000; water, soft.

TAKE GOOD CARE OF YOUR COPY OF THIS 1927

MARKET GUIDE

Watch its comings and goings—get a receipt from the man who borrows it from you.

For it will be like pulling hens' teeth for you to get another copy.

The edition is limited to one copy per subscriber, and the only way to get another copy is to place another subscription.

Last year's edition was entirely exhausted within a few weeks. And since then we have received more than 1,500 requests for additional copies to replace those that had become dog-eared through constant use or had been carried off by those who know a good thing when they see it.

Mighty few business publications of any kind are in greater demand. None are more highly prized by their owners and users.

CALIFORNIA Daily Newspaper Markets in Standard Surveys

ALAMEDA, CALIF.

(Alameda County)

1920 Population, 28,806. (1926, est. 34,000.)

Doctors (medical, 38), (dentists, 20), (osteopaths, 3); number of wired houses, 10,000; street car service; gas, natural; electric current, alternating; water, soft.

BERKELEY, CALIF.

(Alameda County)

1920 Population, 56,036. (1926 est. 83,000).

City and Suburban Estimate, 90,000. Most important city adjacent. Oakland (pop. 380,000).

Native Whites, 65,300; Negroes, 480; Foreign Born, 9,573; Industrial Workers, 6,523; English Reading, 69,400; Families, 17,823.

Schools: Public Grade, average attendance, 5,461; High, 1,695, part time, 191; Junior High, 2,604; Parochial, about 500; Number of pupils, 10,451.

Churches: Baptist, 4; Christian Science, 4; Congregational, 5; Episcopal, 5; Hebrew, 1; Methodist, 6; Presbyterian, 7; Roman Catholic, 4; Miscellaneous, 7.

Banks: National, 2 main (1 branch); State, 3 (5 branches). Total Resources (all banks), \$187,705,000. Total Bank Clearings, 12 months (1925) \$220,021,829.

Theatres: Legitimate, 2; Moving Pictures, 7; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), Greek Theatre, Wheeler Hall, University of California.

Location: On Santa Fe & Southern Pacific R.R.s. Barges transport merchandise to San Francisco and the steamship lines absorb the charges for shipments by water. To nearest large city, by railroad, 20 minutes, by trolley, 25 minutes, by auto, 15 minutes.

Principal Industries: Steel, ink, chemicals, soap, fruit packing, furniture, Liberty motors, pottery and tile.

Manufacturing Establishments: 140. Leading firms, Byron-Jackson Iron Works, California Ink Co., California Packing Corp., Cutter Laboratory, Hall-Scott Motor Co., Peet Bros., Steel Tank & Pipe Co., Solano Iron Works, Jacuzzi Bros. Mfg. Co. (aeroplane parts). Total value of yearly output of factories estimated at \$2,800,000.

Residential Features: Berkeley is the seat of the University of California and the educational Center of the Pacific Coast. It is a city of beautiful homes, and numbers among its inhabitants many Oakland and San Francisco business men and capitalists. Superior living and health conditions, exceptionally fine schools, a favorable climate and efficient police and welfare work helps to make Berkeley an ideal home city.

Retail Shopping Section: There are several shopping centers in Berkeley—the main one being on Shattuck Avenue from Berkeley Way to Blake Street, and including University Avenue—the Telegraph Avenue district—West Berkeley, South Berkeley, Ashby Avenue and College Avenue, besides scattered stores in the outlying residential districts.

Trading Area: Berkeley has no surrounding agricultural territory from which it draws trade.

Wholesale Houses: Groceries, 5; meats, 1; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 1; automobile tire agencies, 11; bakers, 43; cigar stores and stands (including hotels), 22 (chain, 3); confectioners (including hotel stands, 42); delicatessens, 12; dressmakers, 14; druggists, 25 (chain, 4); dry goods, 15; department stores,

3; electrical supplies, 17; florists, 8; fruits, 28; furniture, 28; furriers, 6; garages (public), 37; grocers, 125 (chain, 12); hardware, 23; jewelry, 13; meat markets, 28 (chain, 6); men's furnishings, 10; men's clothing, 17; merchant tailors, 19; milliners, 17; opticians, 6; photographers, 8; pianos (and miscellaneous musical instruments), 9; radio supplies, 5 or 6; restaurants (including hotels), 30 (chain, 2); shoes, 16; sporting goods, 2 exclusive; stationers, 7; women's apparel, 11.

Miscellaneous Data: Average temperature, 66.6 degrees; average number of rainy days per 12 months, 71; most pleasant months, July to November. Doctors (medical, 42); (dentists, 31); (osteopaths, 15); street car service; gas, artificial; number of meters, 18,540; electric current, alternating; number of wired houses, 18,672; water, medium hard. Number of Automobile registrations, 14,450.

BRAWLEY, CALIF.

(Imperial County)

1920 Population, 5,389 (1926 est. 6,000).

City and Suburban Estimate, 15,000.

Native Whites, 60%; Negroes, 10%; Foreign Born, 30%; Industrial Workers, 20%; English Reading, 60%; Families, 2,500.

Schools: Public Grade, 2; High, 1; Junior High, 1; Parochial, 1. Number of Pupils, 1,103.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: State, 2 branches. Savings Banks Deposits Total, \$439,552; Total Resources, \$262,290,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,262.

Location: In the center of the Imperial Valley, served by main line of Southern Pacific, and branch of San Diego and Arizona Rys. Excellent motor transportation to all parts of California; fast freight truck service to all southern California and Arizona points.

Principal Industries: Manufacture of ice, cotton gins, grain mills. Surrounding country, of which Bradley is the shipping point and business center, is devoted to raising cantaloupes, lettuce, and other winter truck crops, cotton, grain, alfalfa. The cotton center of the valley. Date industry growing fast, as well as grape fruit and grapes.

Manufacturing Establishments: 5. Leading firms: cement plants, piston ring plant. Imperial Ice and Dev. Co.

Special Information: Brawley ships about one-third of the total perishable products of the Imperial Valley; has an active Chamber of Commerce, Rotary Club, Kiwanis Club, and numerous fraternal organizations.

Residential Features: Mostly one-family houses, private homes predominating. Retail houses scarce, which calls for building activity, which is under way. Only 5 apartment houses. Wide and attractive streets, mostly paved. Limited section on extreme eastern part of city occupied by foreign population, but is well kept and contains no tenement houses.

Retail Shopping Section: Extends from 2 blocks east of railroad to 4 blocks west on Main Street to City Plaza; 3 blocks wide in center of town. Better stores centered on Main Street, between Plaza and the railroad.

Trading Area: Extends 10 miles south, 25 north, 15 east, and 10 miles west. Shoppers from outlying towns come to Brawley to trade. Outlying towns of Westmoreland, Calipatria, and Niland considered in Brawley territory.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 2; automobile accessories, 4; automobile tire agencies, 18; bakers, 2; cigar stores and stands (including hotels), 17; confectioners (including hotel stands), 3; delicatessens, 1; dressmakers, 8; druggists, 4; dry goods, 5; department stores, 3; electrical supplies, 2 florists, 1; fruits, 1; furniture, 3; garages (public) 3; grocers, 25; hardware, 3; jewelry, 2; meat markets, 11; men's furnishings, 10; men's clothing, 4; merchant tailors, 1; milliners, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 23; sporting goods, 1; stationers, 1; women's apparel, 1.

BURBANK, CALIF.

(Los Angeles County)

1920 Population, 2,913. (1926 est. 16,000).

City and Suburban Estimate, 20,000.

Native Whites, 99%; Foreign Born, 1%; English Reading, 99½%; Families, 3,500 (estimated).

Schools: Public Grade, 7; High, 1; Junior High, 1; Number of Pupils, 2,916.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 3; (2 branch banks); Total Resources, \$3,794,085; Savings Bank Deposits Total, \$1,336,378.05. Total Deposits (all banks), \$3,750,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), School Auditorium, 1. Total number of seats, 1,500.

Location: On Southern Pacific lines. Both coast and valley lines meet here, being only 10 miles from Los Angeles and have all the ad-

CALIFORNIA (Cont'd)

vantages of that port for water and rail shipping. On main highway to the north of city, which is served by local and state truck lines to San Francisco, and other northern points. To nearest larger city (Los Angeles) by trolley; ½ hour; by auto, ¼ hour.

Principal Industries: Truck mfg., china ware and pottery, canning, health foods, soap and perfumes, water heaters, plant culture, flowers, seeds, improved nursery stock.

Manufacturing Establishments: 30. Leading firms: Andrew Jergens Co., Moreland Motor Truck Co., Empire China Co., Genevieve Jackson Co., Libby, McNeill & Libby Cannery, McKeon Cannery, Owens Six-Wheel Truck Co., General Water Heater Co., Burbank Planing Mill, First National Film Corporation, and about 30 other miscellaneous manufacturing establishments. Total value of yearly output of factories estimated at \$7,193,452 (1924 figures).

Special Information: Burbank has an area of 14 square miles, with approximately 90 miles of paved streets, modern sewerage, city-owned electric, and water systems, and 160 acres of parks and playgrounds. Invested in factories and industries, \$9,000,000; annual payroll, \$4,000,000; specializes in improved plant production, number of plants, 65; amount of production, \$13,000,000 annually.

Residential Features: Consist of about 3,000 single houses, and about two or three hundred court, duplex and apartment houses.

Retail Shopping Section: Extends from San Fernando Boulevard and 2d Street, six blocks in main part; Angeleno, Olive, and Orange Grove Ave., ½ block each way of San Fernando Boulevard. On Fourth Street, business houses are scattered. San Fernando Boulevard has business houses all the way to Los Angeles (10 miles), and scattered business houses all the way to San Fernando city, 9 miles in opposite direction. Magnolia Ave. 2 miles from center of town with 2 blocks of business houses.

Trading Area: Extends from north, 10 to 15 miles; from west, about 3 miles. Very little from south, or from the east or city side.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 2; automobile accessories, 1; automobile tire agencies, 2; bakers, 3; cigar stores and stands (including hotels), 2; confectioners (including hotel stands), 2 (7 in drug stores); druggists, 7; dry goods, 6; department stores, 3; electrical supplies, 3; florists, 1; fruits, 9; furniture, 4; garages (public), 7; total grocers, 18 (chain, 4); hardware, 4; jewelry, 4; total meat markets, 12 (chain, 3); men's furnishings, 2 (exclusive); men's clothing, 2; merchant tailors, 2; milliners, 2; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 12; restaurants (including hotels), 5; shoes, 3; stationers, 1; women's apparel, 7.

Miscellaneous Data: Average temperature, 53 degrees; average number of rainy days per twelve months, 56; most pleasant months, Jan., Feb., March. Doctors (medical, 11); (dentists, 4); (osteopaths, 1); street car service, interurban only; gas, natural; electric current, alternating; number of wired houses, 100%; water, hard.

BURLINGAME, CALIF.

(San Mateo County)

1920 Population, 4,500 (1926, est. 14,000).

City and Suburban Estimate, 20,000. Most important cities and towns in this area are: Hillsborough, San Mateo, Millbrae.

Native White, 90%; Foreign Born, 10%; Industrial Workers, 10%; English Reading, 98%; Families, 3,000; Dwellings, 3,000.

Schools: Public Grade, 4; High, 1; Number of Pupils, 1,500 to 2,000.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: State, 2; Savings and Commercial, 2; Savings Deposits Total, \$1,250,000; Total Deposits (all banks), \$2,125,000; Total Resources (all banks), \$2,500,000.

Theatres: Moving Pictures with vaudeville, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 4,000.

Location: Located on Southern Pacific Steam Line and Market Street Electric Line. This is a residential community and has only minor industries. To nearest larger city, 1 hour by automobile; 1 hour by trolley; ½ hour by railroad.

Special Information: Burlingame is home of high-grade American people. Large user and purchaser of nationally known commodities. Has a large average purchasing power, such as automobiles, clothing, foodstuffs, tobacco, drugs, and sundries.

Residential Features: The best. Nearly all own homes; only few apartments; one small hotel.

Residential Features: City of high class homes, mostly inhabited by high class professional men of Los Angeles, and wealthy retired people from East and Middle West. Nearly every family owns home. Many residences costing from \$20,000 to \$100,000. Approximately 4,000 homes from \$5,000 to \$18,000. About 1,200 single apartments, 500 duplex apartments. No tenement district.

Retail Shopping Section: On Brand Blvd., 15 blocks; Broadway, 12 blocks; Colorado, 8 blocks; Central Ave., 5 blocks; San Fernando, 7 blocks; Los Feliz, 5 blocks; Maryland, 2 blocks; Glendale Ave., 5 blocks; Harvard, 2 blocks; Wilson, 2 blocks; Verdugo, 3 blocks; Kenwood, 1 block; Pacific, 1 block, and many scattered stores and markets.

Trading Area: About 5 miles square, and very thickly settled. Glendale is a suburban city with very little outside trade, except small foothill cities with approximately 30,000 population, extending 17 miles northeast of city and connected by electric and auto stage lines.

Wholesale Houses: Groceries, 1; fruits, 1. Miscellaneous lines, tobacco, 1; confectionery, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 31; commercial automobile agencies, 7; automobile accessories, 11; automobile tire agencies, 16; bakers, 29; total cigar stores and stands (including hotels), 34 (chain, 2); confectioners (including hotel stands), 26; delicatessen, 9; total druggists, 38 (chain, 3); dry goods, 13; department stores, 4; electrical supplies, 19;

florists, 9; fruits, 19; furniture, 21; furriers, 1; garages (public), 17; total grocers, 172 (chain, 24); hardware, 11; jewelry, 13; total meat markets, 61 (chain, 17); men's furnishings, 17; men's clothing, 9; merchant tailors, 15; milliners, 11; opticians, 6; photographers, 11; pianos (and miscellaneous musical instruments), 4; radio supplies, 14; restaurants (including hotels), 39; shoes, 14; sporting goods, 5; stationers, 5; women's apparel, 16.

Miscellaneous Data: Average temperature, 72 degrees; average number of rainy days per 12 months, 19; most pleasant months, nearly all. Doctors (medical, 55); (dentists, 37); (osteopaths, 7); street car service; gas, natural and artificial; number of meters, 16,507; electric current, alternating and direct; number of wired houses, 17,077; number of automobile registrations, in county, 14,000; water, soft.

GRASS VALLEY, CALIF.

(Nevada County)

1920 Population, 4,006.

City and Suburban Estimate, 5,500.

Native Whites, 80%; Foreign Born, 20%; Industrial Workers, 20%; English Reading, 90%; Families, 1,200.

Schools: Public Grade, 5; High, 1; Parochial, 1; Number of Pupils, 1,200.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, \$5,000,000; Savings Bank Deposits Total, \$3,000,000.

Theatres: Legitimate, 1; Moving Pictures, 1; Total number of seats, 800.

Location: In Nevada county, 15 miles from Colfax, which is on line of Southern Pacific Railroad. Served from Colfax by Nevada County Narrow Gauge Railroad. Four round trips daily made by auto stage from Sacramento.

Principal Industries: Gold mining and farm-fruit growing, foundries.

Manufacturing Establishments: Leading firms: Taylor's Foundry and Engineering Company, and George Brothers Foundry, manufacturing mining machinery.

Special Information: Seventy-five per cent of the homes are owned by the 1,000 miners employed in the gold mines. Elevation of 2,500 feet makes city noted for tourist resort. Nevada county holds World's Fair first prize for Bartlett Pears.

Residential Features: Mostly one- and two-story homes with well-kept lawns, and nearly every home in the city has fruit trees. Residence streets are paved in cement. Mostly all owned by miners employed in mines. Gentle slope in all sections of city leading to creek passing through heart of town, giving ideal drainage and sanitary features.

Retail Shopping Section: Principally on Main and Mill streets, running parallel to each other. Three blocks of business buildings on each street. State highway from Sacramento leads to center of business district.

Trading Area: Trading area extends 15 miles on each, west and south sides of the city, and 30 miles on north side, including about 20 small mountain towns, whose supplies all pass through Grass Valley.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial automobile agencies, 3; automobile accessories, 13; automobile tire agencies, 13; bakers, 2; cigar stores and stands (including hotels), 16; confectioners (including hotel stands), 7; delicatessen, 4; dressmakers, 7; druggists, 5; dry goods, 3; department stores, 8; electrical supplies, 4; florists, 1; fruits, 9; furniture, 4; garages (public), 8; grocers, 12; hardware, 2; jewelry, 2; meat markets, 5; men's furnishings, 5; men's clothing, 5; merchant tailors, 2; milliners, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments, 2); radio supplies, 4; restaurants (including hotels), 8; shoes, 5; sporting goods, 3; stationery, 3; women's apparel, 4.

GRIDLEY, CALIF.

(Butte County)

1920 Population, 1,636.

City and Suburban Estimate, 5,000. Most important cities and towns in this area are: Biggs (pop. 700); Live Oak (750).

Whites, 100%.

Schools: Public Grade, 2; High, 1; Kindergarten, 1.

Churches: Christian Science, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4; United Brethren, Adventists, Christian, Pentacostal.

Banks: State, 1 (a branch bank); Savings Banks Deposits Total, \$830,000; Commercial Deposits, \$700,726.

Theatres: Moving Pictures, 1; Total number of seats, 500.

Location: Southern Pacific and Sacramento Northern Electric.

Principal Industries: Fruit canning, creamery butter, ice plant, cement works, pipe and cement products.

Manufacturing Establishments: Libby, McNeill & Libby, Fruit Cannery, Gridley Creamery, Sacramento Valley Cement Works.

Residential Features: Mostly one family houses.

Trading Area: Seven miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 4; automobile accessories, 3; automobile tire agencies, 1; bakers, 1; cigar stores and stands (including hotels), 3; confectioners (in-

cluding hotel stands), 3; dressmakers, 3; druggists, 2; dry goods, 2; electrical supplies, 2; furniture, 1; garages (public), 5; grocers, 7 (chain, 2); hardware, 2; jewelry, 1; meat markets, 4; men's furnishings, 4; men's clothing, 1; photographers, 1; milliners, 1; opticians, 1; photographers, 1; radio supplies, 1; restaurants (including hotels), 7; shoes, 4; sporting goods, 1; women's apparel, 1. (The general merchandise stores carry shoes, hats, clothing, etc.).

Miscellaneous Data: Doctors (medical, 4); (dentists, 2); electric current, alternating; water, medium, soft.

HANFORD, CALIF.

(Kings County)

1920 Population, 5,888. (1926, est. 7,353).

City and Suburban Estimate, 15,000. Most important cities and towns in this area are: Lemoore (pop. 3,500); Corcoran (1,200).

Native Whites, 65%; Negroes, 2%; Foreign Born, 33%; Industrial Workers, 25%; English Reading, 85%; Families, 2,759.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Providence, 1; Roman Catholic, 1; Christian, 1; Seven Day Adventists, 1; Miscellaneous, 6.

Banks: National, 1; State, 2; Total Resources, \$6,213,532.28; Savings Banks Deposits Total, \$3,109,879.62.

Theatres: Combination, 2; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 6,320.

Location: In the center of San Joaquin Valley, exactly equidistant between San Francisco and Los Angeles. On main line of Santa Fe, and branch line of Southern Pacific Rys. Also on Sierra-to-the-Sea State Highway, connecting valley and coast trunk lines. County has complete paved highway system. Truck and passenger auto stages to all points over state and county paved highways. To nearest large city (Fresno), by railroad, 1 hour, 35 minutes; by auto, 1 hour, 25 minutes.

Principal Industries: Raisins, fruits, hay, grain, livestock, dairying, cotton.

Manufacturing Establishments: Leading firms: Kings County Packing Co., California Packing Corp., Associated Raisin Co., California Peach Growers, California Prune & Apricot Assn., Star Piston Ring Co., Lucerne Cream & Butter Co., Swift & Co., Los Angeles Cream & Butter Co., Hanford Foundry Co., Adell-Cortright Concrete Works.

Residential Features: Mostly one-family houses. Private homes predominate, and are mostly owned by occupants. Homes average in value \$3,000.

Retail Shopping Section: Business section runs 3 blocks east and west, and 2 blocks north and south. There are three outlying retail sections and several neighborhood stores.

Trading Area: Extends about 25 miles west and south, and ten miles north and east. Intermittent business is secured from people living at a greater distance because of the splendid county and state paved highway system.

Wholesale Houses: Meats, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial automobile agencies, 3; automobile accessories, 2; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotel stands) 25; delicatessen, 1; dressmakers, 8; druggists, 5 (chain, 2); dry goods, 3; department stores, 8; electrical supplies, 2; florists, 1; fruits, 8; furniture, 4; garages (public), 10; grocers, 33 (chain, 3); hardware, 3; jewelry, 3; meat markets, 12 (chain, 1); men's clothing, 4; merchant tailors, 1; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 10; shoes, 2; stationers, 3; women's apparel, 2.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per 12 months, 10; most pleasant months, April, May, June, Sept., Oct., Nov. Doctors (medical, 9); (dentists, 4); (osteopaths, 1); gas, artificial; electric current, alternating; number of wired houses, 1,877; water, soft.

HAYWARD, CALIF.

(Alameda County)

1920 Population, 3,487 (1925, est. 5,000).

City and Suburban Estimate, 15,000.

Native Whites, 75%; Foreign Born, 25%; Industrial Workers, 15%; English Reading, 90%; Families, 1,000.

Schools: Public Grade, 4; High, 1; Number of Pupils, 2,100.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Grace, 1; Lutheran, 1.

Banks: National, 1; State, 3; Total Resources \$5,037,529.71; Savings Bank Deposits Total, \$3,500,000.

Theatres: Moving Pictures, 1; Vaudeville, 1. Total number of seats, 800.

Location: On Southern Pacific, and Western Pacific R.Rs. Trunk line connections with key system boats on San Francisco Bay. To nearest largest city, by railroad, 1 hour; by trolley, 1 hour; by auto, 1 hour.

Manufacturing Establishments: Leading firms: Hunt Brothers Cannery, Farm Products Corporation, Eden Creamery, Jersey Creamery.

Special Information: Hayward's population grows solidly over the city limit lines at all points. While the city population is estimated

at 5,000, the population of the city and adjoining districts is 15,000.

Residential Features: One thousand homes, only one apartment house. Ninety per cent of people are home owners and have single houses.

Retail Shopping Section: Castro Street, 8 blocks; A Street, 3 blocks; B Street, 8 blocks; C Street, 3 blocks; Watkins Street, 4 blocks; Main Street, 6 blocks.

Trading Area: Fifteen miles east of town, 10 miles south; 3 miles north to San Francisco Bay, and 5 miles west. Trading center of very diversified farming region, poultry center, fruit and vegetable canneries and preserving plants.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto. agencies, 3; automobile accessories, 2; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 3; dressmakers, 2; dressmaker, 3; druggists, 3; dry goods, 2; department stores, 3; electrical supplies, 2; florists, 2; fruits (all grocers), furniture, 2; garages (public), 5; grocers, 13 (chain, 1); hardware, 4; jewelry, 4; meat markets, 7 (chain, 1); men's furnishings, 5; men's clothing, 5; merchant tailors, 2; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 8; total restaurants (including hotels), 7; shoes, 4; sporting goods, 3; stationers, 3; women's apparel, 3.

Miscellaneous Data: Average temperature, 56 degrees; average number of rainy days, 40; most pleasant months, March, April, May, June, Sept., October, November. Doctors (medical, 5); (dentists, 5); gas, artificial; number of meters, 820; electric current, alternating; number of wired houses, 965; number of automobile registrations, 1,120; water, soft.

HOLLYWOOD, CALIF.

(Los Angeles County)

1920 Population, 60,000.

City and Suburban Estimate (1925, est. 130,000). Most important cities and towns in this area are: Beverly Hills, Sherman, San Fernando.

Native Whites, 90%; Foreign Born, 10%; Industrial Workers, 15%; English Reading, 96%; Families, 20,000.

Schools: Public Grade, 15; High, 2; Junior High, 1; Parochial, 3; Number of Pupils, 18,529.

Churches: 33; Baptist, 2; Christian Science, 4; Congregational, 3; Episcopal, 3; Hebrew, 1; Methodist, 6; Presbyterian, 3; Roman Catholic, 3; Miscellaneous: Christian, 1; Lutheran, 2; Protestant, 1; Unitarian, 2.

Banks: 34; National, 3; State, 31; Capital, Surplus and Undivided Profits (all banks), \$35,000,000; Total Deposits (all banks), \$55,000,000; Total Resources (all banks), \$521,935,814.35.

Theatres: Legitimate, 4; Moving Pictures, 19; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, in theatres, 8,000; in private auditoriums, 10,500.

Location: Seven miles from the business center of Los Angeles; 32 miles from Los Angeles Harbor. Hollywood is served by the same railroads and steamship lines that serve Los Angeles, using the L. A. stations and terminals. Hollywood is connected to L. A. by five street car lines, operated by two companies, and by six motor bus lines operated jointly by the street car companies. To Los Angeles, by trolley and subway, 35 minutes; by auto, 30 minutes (no railroad).

Principal Industries: Moving pictures and numerous allied industries, building materials, eighteen motion picture laboratories, candy and ice cream.

Manufacturing Establishments: 32. There are 53 moving pictures companies operating in Hollywood. Leading firms include Buster Keaton Comedies, Century Film Corporation, Christie Comedy Company, Famous Players-Lasky, Fox, Hollywood Studios, Sol Lesser Productions, Principal Pictures Corporations, Schenck Produc-

tions, United Studios, Vitagraph, Lois Weber, Hunt Stromberg. Total value of output of moving picture studios for 1926 is estimated in excess of \$175,000,000.

Special Information: There are 25,000 people employed in the various branches of the moving picture industry, which has a yearly payroll estimated at \$75,000,000, and which spends for materials \$30,000,000 annually. The University of California, Los Angeles branch is in Hollywood (6,000 students), also the California Christian College. There are numerous private schools of stenography, dancing, musical, sculpturing, English, scenario writing, and military academies. Hollywood has its natural amphitheatre. The Hollywood Bowl, with summer symphony concerts and operas, an annual season of production of the Pilgrimage Play, America's Oberammergau. There are 43 civic, commercial and social clubs in Hollywood. The Hollywood Chamber of Commerce has a membership of 1,500. Average income per family in Hollywood, \$4,500. Bus service between Hollywood and Los Angeles, Culver City, Burbank, San Fernando and Valley Cities.

Residential Features: Hollywood is generally considered the best residential section in Los Angeles. It is a community of homes, private single dwellings predominating. There are a large number of bungalow courts, high class apartments and two-family dwellings. No tenement district. Values of homes varies from \$5,000 to \$200,000.

Retail Shopping Section: Hollywood, Sunset and Santa Monica Boulevards are best east and west business thoroughfares in that order. Hollywood and Santa Monica Boulevards have street car lines; Sunset has a bus line. Vermont and Western avenues are best north and south business streets, each has a bus line; Western has a street car line in addition. Highest class shops and limit-height buildings (12 stories) are on Hollywood Boulevard. None of these streets are built solidly with business. They are from four to six miles long.

Trading Area: This shopping section has as its trading area the territory within and immediately adjacent to the boundaries of Hollywood, which include a population of 130,000. This trading area also includes the San Fernando Valley, an area of 247 square miles.

Wholesale Houses: Building materials, 18; film accessories, 14; storage and transfer, 9.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial automobile agencies, 8; automobile accessories, 14; automobile tire agencies, 31; bakers, 36; cigar stores and stands (including hotels), 16 (chain, 2); confectioners (including hotel stands), 41; delicatessen, 22; dressmakers, 8; druggists, 107 (chain, 10); dry goods, 37; department stores, 2; electric supplies, 26; florists, 21; fruits, 331; furniture, 30; furriers, 16; garages (public), 36; grocers, 205 (chain, 43); hardware, 28; jewelry, 28; meat markets, 111 (chain, 14); men's furnishings, 18; men's clothing, 18; merchant tailors, 54; milliners, 41; opticians, 14; photographers, 26; pianos (and miscellaneous musical instruments), 10; radio supplies, 21; restaurants (including hotels), 163 (chain, 10); shoes, 17; sporting goods, 8; stationers, 11; women's apparel, 42.

Miscellaneous Data: Average temperature (summer), 69.2 degrees; (winter), 56.1; Average number of rainy days per 12 months, 11; most pleasant months, February to November. Doctors (medical, 137); (dentists, 101); (osteopaths, 16); street car service; gas, natural and artificial; electric current, alternating and direct; water, hard.

INGLEWOOD, CALIF.

(Los Angeles County)

1920 Population, 3,286.

City and Suburban Estimate (1925), 26,000.

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 20%; English Reading, 100%; Families, 6,000.

Schools: Public Grade, 5; High, 1; Number of Pupils, 5,000.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Total Resources, \$4,073,000; Savings Banks' Deposits Total, \$3,745,500.

Theatres: Moving Pictures, 3; Total number of seats, 2,000.

Location: On Santa Fe Railroad between Los Angeles and the Harbor. Pacific Electric line between Inglewood and the beaches. Los Angeles street railway between Inglewood and Los Angeles. Excellent bus service in every direction, 19 miles from Los Angeles harbor by well paved trucking highways.

Principal Industries: Light industry; furniture manufacturing, metal enameling, fruit packing, printing, textile manufacturing, wood-working.

Manufacturing Establishments: 18. Leading firms: Inglewood Mfg. Co., Smoot-Holman Co., Dovetail Lath Co., Southland Fruit Products Co. Value annual output, \$3,000,000.

Special Information: Inglewood offers ideal labor, housing, climatic and shipping conditions for manufacturers, and an exceptionally attractive residence city.

Residential Features. No tenements. Practically all single family residences. City is zoned for residence, business and industrial purposes. Half an hour ride from downtown Los Angeles, half an hour ride to the Harbor, and half an hour to Hollywood and the beaches make Inglewood a most convenient location for residential purposes.

Retail Shopping Section: Extends from Rondo Boulevard to Arbor Vitae Street on Market and Commercial streets, 24 blocks in all. There are two outlying business districts and several smaller neighborhood sections.

Trading Area: Extends about 5 miles north and east, and 10 miles west and south, with excellent transportation facilities in every direction.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto agencies, 8; automobile accessories, 4; automobile tire agencies, 6; bakers, 3; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 8; dressmakers, 6; druggists, 6; dry goods, 5; department stores, 3; electrical supplies, 3; florists, 1; fruits, 5; furniture, 4; garages (public), 4; grocers, 22; hardware, 5; jewelry, 3; meat markets, 18; men's furnishings, 3; men's clothing, 1; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 13; shoes, 4; stationers, 1; women's apparel, 3.

LOS ANGELES, CALIF.

(Los Angeles County)

1920 Population, 576,673. (1926 est. 1,211,333).

City and Suburban Estimate, (1920) 880,653; (1926) est. 2,000,000. Most important cities and towns in this area are: Long Beach (pop. 141,227); Pasadena (70,000); Hollywood (130,000); San Diego (141,898).

Native Whites, 75.4%; Negroes, 2.7%; Foreign Born, 21.9%; Industrial Workers, 31.6%; English Reading, 85%; Families, (1920) 159,476; (1926) est. 310,590.

Schools: Public Grade, 251; High and Junior High, 42; Parochial, 37; Number of Pupils, 295,760.

Churches: Baptist, 58; Christian Science, 20; Congregational, 27; Episcopal, 28; Hebrew, 21; Methodist, 80; Presbyterian, 52; Roman Catholic, 49; Miscellaneous, 211.

Banks: National, 12; State, 17; Capital, Surplus and Undivided Profits (all banks), \$81,009,457.46; Total Resources, July 1, 1926 (all banks), \$1,167,153,459.18; Total Deposits (all banks), \$1,048,175,110.73; Total Bank Clearings (12 months, 1925), \$7,945,493,930; Savings Bank Deposits, Total July 1, 1926, \$614,238,364.39. (There are 257 Branch Banks inside and outside city, not including 6 main offices).

Theatres: Legitimate and Vaudeville, 39; Moving Pictures, 140; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 140,000.

Location: On the Pacific Coast of Southern California, served by Santa Fe, Union Pacific and Southern Pacific Railroads. Pacific Electric Railway connects with all cities within a radius of 83 miles. Extensive bus service in all directions. Direct steamship service to all of the principal ports of the world.

Principal Industries: Motion pictures, petroleum products, iron and steel machinery, food products, meat packing, agriculture, lumber and planing mills, confectionery, ice cream, wearing apparel.

Manufacturing Establishments: 5,875. Leading firms: Goodyear Tire and Rubber Co., Bishop & Company, Angelus Furniture Co., Llewellyn Iron Works, Cudahy Packing Co., Milton G. Cooper Co., Pacific Ready-Cut Homes, Inc. Total value of yearly output of factories estimated at \$559,806,503. (1922); \$1,100,000,000. (1923 estimate); \$1,175,000,000. (1924 estimate); \$1,250,000,000. (1925 estimate); \$1,300,000,000. (1926 estimate).

Special Information: Largest city on the Pacific Coast, and the wholesale jobbing center for Pacific southwest. 153 steamship lines (15 carrying passengers) operate out of the port of Los Angeles; 7,445,573 out of 9,618,615 tons of the east-bound traffic through the Panama Canal during the year of 1923 originated at Los Angeles, and 1,177,463 out of 3,772,769 tons of west-bound traffic was consigned to Los Angeles. Manufacturing is rapidly increasing; the monthly payroll for 1924 being \$26,530,512.

Residential Features: Los Angeles is largely a town of single family and duplex homes. There are two high class residential sections occupying considerable area of the western portion of the city where the values range from \$20,000 upward. The middle-class homes will average in value from \$4,500 to \$10,000. There are a few low-priced residential sections where the valuations will range from \$2,000 to \$4,000.

Retail Shopping Section: The principal downtown shopping district extends from First Street for nine blocks along Main, Spring, Broadway and Hill streets, continuing out Main for another 23 odd blocks. Exclusive retail shops are located on 6th, and 7th Streets, the latter covering a distance of nearly a mile to Westlake Park. In the western portion of the city there is a local shopping area in the Wilshire district, extending several blocks on Western Avenue, and to the northwest in Hollywood a much larger shopping area extends for 10 to 20 blocks along Hollywood Boulevard. In addition there are over 60 local shopping districts extending for two or three blocks in various parts of the city.

Trading Area: About 50 to 70 miles. This area is served by the numerous bus lines as well as by frequent service on the Pacific Electric Railway. This area is practically all covered by the leading department stores with a daily delivery service, and all is within the "two-or-three deliveries per week" area of these stores.

Wholesale Houses: Groceries, 39; meats, 38; fruits, 32; hardware, 25; dry goods, 22; miscellaneous lines: electric supplies, 7; furniture, 27; drug, 10; shoes, 18; confectionery, 60; stationery, 10.

Purchasing Power from Basic Industries

In value of agricultural products, Los Angeles County ranks *First in America!* In production of oil, Los Angeles County ranks *First in the World!* In value of manufactured goods, the city of Los Angeles ranks *Eighth in America!* In ocean-borne commerce, Los Angeles harbor ranks *Second in America!*

Expressed in money, the Los Angeles market area during 1925 produced:

Agricultural products	\$ 235,350,000
Mineral products	375,000,000
Manufactured products	1,250,000,000

In addition, Los Angeles is the nation's greatest all-the-year playground, and also transacts a vast business in housing and supplying an ever-increasing population of retired families.

Different from Other Markets in Three Important Respects

The Los Angeles market is a sharply defined unit! Bounded on the north by mountains, on the east by deserts, on the south by Mexico, on the west by the Pacific Ocean. From an advertising standpoint, *an island.* The Los Angeles Times alone fulfills this condition. Its circulation extends throughout the whole area and is 96% concentrated therein.

It Is Unusually Cosmopolitan! Its population is from every corner of the world, is engaged in practically every known pursuit, is interested in every science, art, and sport. The demand is for *completeness* in a newspaper. Only one kind of newspaper can do the job right—a *morning* newspaper. The Los Angeles Times furnishes pre-breakfast delivery within 125 miles of its office.

It Is the World's Fastest-Growing Market! It contains at all times a large percentage of newcomers, who, while consumers, exert negligible influence on the *popularity* of goods. Unfamiliar with local conditions, they invariably seek advice of the dealer instead of offering him suggestions. Effective consumer demand arises solely from the permanently settled population—the *home-dwellers.* The Los Angeles Times meets this condition with the largest home-delivered circulation on the Coast.

LONG BEACH, CALIF.**(Los Angeles County)**

1920 Population, 55,593 (1926 est. 136,000).

City and Suburban Estimate, 75,000. (1926 est. 200,000.) Most important cities and towns in this area are: Bellflower (pop. 6,000); Compton (7,500); Wilmington (9,200); Huntington Beach (4,000).

Native Whites, 97%; Negroes, about 300; Foreign Born, less 1%; Industrial Workers, 5%; English Reading, 98%; Families, 40,000.

Schools: Public Grade, 28; High, 2; Junior High, 5; Parochial, 2; Private, 10. Number of Pupils 25,554.

Churches: Baptist, 4; Christian Science, 3; Congregational, 2; Episcopal, 2; Hebrew, 2; Methodist, 9; Presbyterian, 4; Roman Catholic, 4; Miscellaneous, 42.

Banks: National, 2; State, 10; Total Deposits (all banks), \$54,487,567; Total Resources (all banks), \$61,870,751.90; Total Savings Bank Deposits, \$26,765,485.12; Total Bank Clearings (12 months, 1925), \$352,123,723.28.

Theatres: Legitimate, 2; Moving Pictures, 16; Vaudeville, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 16,000.

Location: On the south west coast, served by Southern Pacific, Union Pacific, and Pacific Electric. Wilmington Transportation, Los Angeles Steamship, Pacific Steamship, Dollar Steamship Line, General Steamship. To nearest large city (Los Angeles), by railroad, trolley, or automobile, 1 hour.

Principal Industries: Oil, steel and lumber, canneries, shipping, plaster products.

Manufacturing Establishments: 325. Leading firms: Ford Motor Co. (Pacific Coast assembling plant), Los Alamos Sugar Co., Golden State Woolen Mills, California Almond Confection Co., Curtis Corporation, Colonial Chocolate Co., L. B. Paper Box Co., Cannon Candy Co., California Seamless Shoe Co., Standard Gypsum Plaster Co. Total value of yearly output of factories estimated at \$40,000,000.

Special Information: California's most popular summer and winter resort; \$10,000,000 amusement zone, "the Pike," about one mile long, which attracts millions of people yearly.

Residential Features: Forty per cent of permanent residents own their own homes. Many apartment houses and Own-Your-Own apartments. Ocean Boulevard one of the finest residential districts in California about 7 miles long.

Retail Shopping Section: American Avenue to Pacific Avenue; Ocean to 10th on American; Ocean to 8th on Locust; Ocean to 9th on Pine; Ocean to 6th on Pacific.

Trading Area: East 10 miles, north, 7 miles. Fine electric bus service and automobile roads bring shoppers from Huntington Beach, Seal Beach, Bellflower, Wilmington, Harbor City, Compton, Lomita and Torrance.

Wholesale Houses: Grocers, 6; meats, 6; fruits, 3; hardware, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 35; commercial automobile agencies, 2 exclusive; automobile accessories, 84; automobile tire agencies, 35; bakers, 87; cigar stores and stands (including hotels), 122 (chain, 2); confectioners (including hotel stands), 194; delicatessens, 13; dressmakers, 30; druggists, 106 (chain, 3); dry goods, 36; department stores, 11; electrical supplies, 32; florists, 12; fruits, 104; furniture, 31; furriers, 4; garages (public), 75; grocers, 465 (chain, 21); hardware, 24; jewelry, 43; meat markets, 252 (chain, 18); men's furnishings, 12; men's clothing, 51; merchant tailors, 38; milliners, 30; opticians, 20; photographers, 20; pianos (and miscellaneous musical instruments), 13; radio supplies, 47; restaurants (including hotels), 497; shoes, 37; sporting goods, 8; stationers, 5; women's apparel, 40.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per twelve months, 23; most pleasant months, most of them. Doctors (medical, 168); (dentists, 90); (osteopaths, 29); street car service; gas, natural; number of meters, 33,066; electric current, alternating; number of wired houses, 43,870; number of automobile registrations, 40,000; water, soft.

MADERA, CALIF.**(Madera County)**

1920 Population, 3,444. (1926, est. 4,500).

City and Suburban Estimate, 7,500. Most important cities and towns in this area are: Chowchilla (pop. 800); Raymond (300); Knowles (100); Northfork (100).

Native Whites, 70%; Negroes, 5%; Foreign Born, 25%; Industrial Workers, 20%; English Reading, 80%; Families, 1,100.

Schools: Public Grade, 4; High, 1; Number of Pupils, 1,500.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Church of Christ (Holiness), 1; Pentecostal, 1; Seventh Day Adventists, 1; Christian, 1; Negro, 1.

Banks: National, 1; State, 1; Total Resources (all banks), \$3,000,000.

Theatres: Legitimate, 1; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 1,600.

Location: On the Southern Pacific R.R. Santa Fe R.R. runs 1½ miles east of town. To nearest large city by railroad, 45 minutes.

Principal Industries: Lumber, fruit (raisins), alfalfa, granite quarries.

Manufacturing Establishments: 3. Leading firms: Madera Sugar Pine Co., Madera Supply Co. (auto and radio supplies). Total value of yearly output of factories estimated at \$10,000,000.

Retail Shopping Section: Yosemite Ave., 4; blocks; D St. and C St., 2 blocks each; F St., 4 blocks.

Trading Area: About 15 miles each way.

Wholesale Houses: Fruits, 1; lumber, 1; auto and radio supplies, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial automobile agencies, 3; automobile accessories, 5; automobile tire agencies, 6; bakers, 2; cigar stores and stands (including hotels), 6 (chain, 1); confectioners (including hotel stands), 3; delicatessens, 1; dressmakers, 2; druggists, 3; dry goods, 3; department stores, 2; electrical supplies, 5; florists, 1; fruits, 4; furniture, 2; garages (public), 10; grocers, 10 (chain, 2); meat markets, 3; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 1; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 5; restaurants (including hotels), 6; shoes, 3; sporting goods, 3; stationers, 2; women's apparel, 3.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per 12 months, 30; most pleasant months, Sept. to June. Doctors (medical, 5); (dentists, 3); (osteopaths, 1); gas, artificial, water, soft.

MARTINEZ, CALIF.**(Contra Costa County)**

1920 Population, 3,858. (Chamber of Commerce estimate, 6,000.)

City and Suburban Estimate, 11,000.

Native Whites, 88%; Foreign Born, 12%; Industrial Workers, 50%; English Reading, 92%; Families, 1,000.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 1,200.

Banks: National, 1; State, 2; Total Resources (all banks), \$75,000,000; Savings Bank Deposits Total, \$2,250,000.

Theatres: Moving Pictures, 3; Vaudeville, 2; Total number of seats, 2,175.

Location: On Southern Pacific and Santa Fe R.Rs. River steamers. To Oakland and San Francisco, by railroad, 1½ hours; by auto, 1½ hours.

Principal Industries: Two printing offices, oil companies, smelters, art metal company, chemical company, lumber, box factory.

Manufacturing Establishments: Shell Oil Co., Associated Oil Co., Mountain Copper Co., Chipman Chemical Co., Coos Bay Lumber Co., General Chemical Co., Alhambra Mineral Water Co., Union Ice Co., Plywood Products Corporation.

Special Information: Rail and water facilities. Increase in population 100% in 8 years. Good climate. Agricultural resources. County seat town.

Residential Features: Many beautiful homes, Good Schools. Churches. One and one-half hours from San Francisco.

Retail Shopping Section: Main St., 15 blocks; Ferry St., 11 blocks; Castro St., 6 blocks; Escobar St., 5 blocks; Court St., 3 blocks; Las Juntas, 7 blocks; Smith, 9 blocks.

Trading Area: Within a radius of 12 miles we reach 18,000 people. Agricultural, horticultural, industrial.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial automobile agencies, 7; automobile accessories, 7; automobile tire agencies, 8; bakers, 3; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 11; delicatessens, 4; dressmakers, 2; druggists, 3; dry goods, 3; department stores, 3; electrical supplies, 2; florists, 1; fruits, 4; furniture, 3; garages (public), 7; grocers, 7; hardware, 2; jewelry, 2; meat markets, 4; men's furnishings, 6; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 9; shoes, 5; sporting goods, 2; stationers, 4; women's apparel, 5.

Miscellaneous Data: Doctors (medical, 4); (dentists, 3); (osteopaths, 3); gas, artificial; water, soft.

MARYSVILLE-YUBA CITY, CALIF.**(Yuba County—Sutter County)**

Note.—Marysville and Yuba City are separate municipalities, but must be regarded as one town for the purpose of this survey—they are connected by a river bridge.

1920 Population, 7,169. (Marysville, 5,461; Yuba City, 1,708). 1925 est. Marysville, 7,228; Yuba City, 3,462.

City and Suburban Estimate, 30,000. Most important cities and towns in this area are: Gridley (pop. 1,600); Wheatland (900); Live Oak (850); Oroville (5,000).

Native Whites, 96%; Negroes, 2%; Mexican, 2%; Industrial Workers, 5%; English Reading, 98%; Families, 9,100.

Schools: Public Grade, 5; High, 2; Parochial, Grammar and High, 1; Number of Pupils, 1,383. A new High School to cost \$375,000 is now under construction, the campus to cover 60 acres.

Churches: Baptist, 2; Christian Science, 2; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 5; Total Resources, \$11,500,000; Savings Banks Deposits Total, \$5,123,000. (Savings Dept. only.)

Theatres: Legitimate 2; Moving Pictures 6; Legion Auditorium just completed, cost \$200,000. Seats 3,000.

Location: At confluence of Yuba and Feather Rivers, 50 miles north of Sacramento. Served by Sacramento Northern Electric Ry., with several trains daily to San Francisco, Oroville, Chico, and Colusa. Main line Southern Pacific R.R. to Portland and Los Angeles. Main line of Western Pacific R.R. and the Salt Lake line. Hourly motor bus transportation to San Francisco and Los Angeles. Served by paved highways to Portland, Los Angeles, and San Francisco. River navigation to Sacramento and San Francisco to be resumed; Gov't. engineers now dredging channel. To Sacramento, by railroad, 2½ hours; by trolley, 2 hours; by auto, 2 hours.

Principal Industries: Fruit growing, farming dairying, canning, gold dredging, sheep raising in adjacent foothills, cattle. Sand pits, shipping 20 carloads sand daily.

Manufacturing Establishments: Main factory of the Yuba Tractor Co., California Canning Corp. (Del Monte brand) operates cannery for peaches, apricots, and other fruits, employing 900 workers. Fruit-picking, in summer, gives employment to 2,000 to 3,000. Flour mills, San Maid raising stemming and packing plant, brick factory. Total output valuation yearly, \$28,000,000.

Special Information: It is estimated that 53% of the cling-stone variety of peaches for canning, produced in the United States, are grown within an area of 15 miles from Marysville-Yuba City; 18,000 tons raised in 1926. Most of this industry centers in Yuba City.

Residential Features: Marysville is situated in a triangle between the Yuba and Feather Rivers, and virtually all available space in this area is built up with homes, a large number of which are of native burned-clay brick. A new 5-story hotel, costing \$400,000, has been erected and is now fully occupied, but Yuba City is devoted almost exclusively to one-family homes of the bungalow type. These two towns are connected by electric street cars, and it is only five minutes ride from one business district to the other. Homes in Marysville average \$8,000; in Yuba City, \$4,500.

Retail Shopping Section of Marysville extends from Yuba River bridge, 5 blocks on D St. to 5th St. Cross Sts: 1st, 2d, 3rd, 4th and 5th Sts. average 2 blocks each of business houses. C. & E., paralleling the main street (D), each have 3 blocks of business houses. Yuba City has 2 retail trading districts, the older being on 2d and Bridge Sts., which takes in 4 blocks of stores. New section lies on Plumas St., on what is known as the "Hill," and has received 5 new retail business concerns in the past 2 years. These 3 shopping districts are connected by electric trolley line, and are a 10-minutes' ride on the electric railroad line.

Trading Area: Extends 100 miles north, and east into foothills district of Sierra Nevada Mountains. Marysville being the only gateway into this particular area, and 25 miles to the west, south, and north, it embraces all of Yuba and Sutter Counties in the Sacramento Valley, and parts of Butte, Nevada, and Colusa Counties, having paved highways into these areas.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 1; hardware, 2; miscellaneous lines, 1 electrical pumps and supplies.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto agencies, 5; automobile accessories, 5; automobile tire agencies, 12; bakers, 9; cigar stores and stands (including hotels), 25; confectioners (including hotel stands), 11; delicatessens, 1; dressmakers, 15; druggists, 7; dry goods, 7; electrical supplies, 6; florists, 2; fruits, 9; furniture, 4; garages (public), 8; grocers, 36 (chain, 4); hardware, 8; jewelry, 6; meat markets, 18; men's furnishings, 9; men's clothing, 6; merchant tailors, 4; milliners, 5; opticians, 7; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 5; restaurants (including hotels), 52; shoes, 6; sporting goods, 4; stationers, 2; women's apparel, 4; auto tops, 2; harness makers, 1.

Miscellaneous Data: Average temperature, 68 degrees; average number of rainy days per 12 months, 61; most pleasant months, March, April, May, June, Sept., Oct., Nov. Doctors (medical, 18); (dentists, 18); (osteopaths, 1); street car service; gas, artificial; number of meters, 1,200; electric current, alternating and direct; number of wired homes, 7,000; water, hard and soft.

MERCED, CALIF.**(Merced County)**

1920 Population, 3,974 (1925 est. 8,000).

City and Suburban Estimate, 10,000.

Native Whites, 86%; Foreign Born, 20%; Industrial Workers, 6%; English Reading, 92%; Families, 2,000.

Schools: Public Grade, Number of Pupils, 2,000; High, 6,000.

Churches: Christian Science, 1; Episcopal, 2; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 2.

Theatres: Moving Pictures, 2; Vaudeville, 2.

Location: On Southern Pacific, Santa Fe, and Yosemite Valley R.Rs., Terminal of Merced transit stage lines. To nearest larger city (Stockton) by automobile, 2 hours.

Principal Industries: Agriculture, fig packing, tomato packing, tomato cannery, pottery, tile, cotton, fruit and nuts.

Manufacturing Establishments: 15. Leading firms: California Pottery Co., Merced Concrete Works, Cross Lumber Co., I. S. Goldman Co., Merced Lumber Co., J. R. Graham Co., San Francisco Shoe Shop, Benham Ice Cream, Acme Ice Cream; Merced Plumbing & Sheet Metal Works.

Special Information: Gateway to Yosemite National Park; terminal of Yosemite Valley Railway; highway to Yosemite Valley, open the year round. Merced County is the site of the Exchequer Dam, one of the largest irrigation projects in the country. Large peach and apricot orchards, 3,890 acres, 5 miles from Merced. Large fig orchard a few miles distant, containing 12,000 acres.

Residential Features: About 12,225 private homes, and 12 apartment houses.

Retail Shopping Section: On 17th and Main Streets, 8 blocks in shopping district; L Street, 4 blocks; M Street, 4; N Street, 2; and K Street, 2 blocks.

Trading Area: From 15 to 20 miles in all directions.

Wholesale Houses: Meats, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto agencies, 2; automobile accessories, 15; automobile tire agencies, 4; bakers, 3; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 8; dressmakers, 4; druggists, 5 (chain, 1); dry goods, 12; department stores, 2; electrical supplies, 4; florists, 2; fruits, 10; furniture, 3; garages (public), 11; grocers, 15; (chain, 1); hardware, 5; jewelry, 3; meat markets, 6 (chain, 1); men's furnishings, 7; men's clothing, 10; merchant tailors, 2; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 14; shoes, 1; sporting goods, 4; stationers, 2; women's apparel, 10.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per twelve months, 83; most pleasant months, April, May, Sept., Oct. Doctors (medical, 8); (dentists, 6); (osteopaths, 2); gas, artificial; electric current, alternating; number of wired houses, 2,025; water, soft.

MODESTO, CALIF.**(Stanislaus County)**

1920 Population, 9,241. (1926, est. 17,000.)

City and Suburban Estimate, 66,000.

Native Whites, 90%; Negroes, 1%; Foreign Born, 9%; Industrial Workers, 40%; English Reading, 97%; Families, 3,100.

Schools: Public Grade, 10; High, 1; College, 1; Number of Pupils, 4,274.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 7.

Banks: National, 2; State, 3; Total Resources (all banks), \$13,079,889.23; Savings Bank Deposits Total, \$7,927,705.23.

Theatres: Legitimate, 2; Moving Pictures, 4; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,200 theatres; 2,300 auditoriums—total 6,500.

Location: 90 miles south of San Francisco in the San Joaquin Valley. On main line Southern Pacific, Western Pacific and connects with Santa Fe via Modesto-Empire Traction Co. R.R. Excellent motor bus and freight service to San Francisco, Los Angeles and Sacramento. To nearest large city, by railroad, 4 hours; by trolley, 4 hours; by auto, 3 hours.

Principal Industries: Manufacturing of dairy products, fruit canning and fruit packing, meat packing plants, ice manufacturing plant, chemical plant.

Manufacturing Establishments: Leading firms: Borden's Condensed Milk Plant, Milk Producers Ass'n Plant, Pratt, Lowe Preserving Co., California Canners, Modesto Packing Co., Valley Ice Company, D. V. O. Chemical Co.

Special Information: Modesto is county seat of Stanislaus County, leading dairy county of the West. Center of 400,000 acres of splendid irrigated land, over 3,000 dairies. Large acreage in fruits and truck gardens. Third county in State in poultry raising. Fourth county in U. S. in number of miles of paved roads. U. S. Department of Agriculture sustains claim of county to be the first dairy county on the Pacific Coast, seventh county in California, and twenty-eighth in the United States in agricultural resources.

Residential Features: Mostly one-family homes. No workmen's tenement section. Several splendid residential sections with building restrictions from \$5,000 to \$7,000.

CALIFORNIA (Cont'd)

Retail Shopping Section: Extends from G Street (south) to K Street (north) and from Ninth Street (west) to 12th Street (east). Total of 34 blocks. Nine neighborhood sections with usual stores and shops.

Trading Area: Extends twenty miles south, 30 miles east, 25 miles west and 14 miles north. Considerable business is secured from people residing at more distant points, due to the many miles of paved highways leading into Modesto from all directions.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial automobile agencies, 7; automobile accessories, 2; automobile tire agencies, 15; bakers, 5; cigar stores and stands (including hotels), 14; confectioners (including hotel stands), 12; delicatessen, 4; dressmakers, 14; druggists, 10 (chain, 2); dry goods, 9; department stores, 4; electrical supplies, 5; florists, 3; fruits, 7; furniture, 6; garages (public), 13; grocers, 102 (chain, 5); hardware, 4; jewelry, 6; meat markets, 17; men's furnishings, 8; men's clothing, 7; merchant tailors, 5; milliners, 9; opticians, 5; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 61 (chain, 1); shoes, 9; sporting goods, 4; stationers, 2; women's apparel, 10.

Miscellaneous Data: Average temperature, 76 degrees; average number of rainy days per 12 months, 5 per cent; most pleasant months, May, June, Sept., Oct. Doctors (medical, 10); (dentists, 18); (osteopaths, 2); gas, artificial; electric current, alternating and direct; number of wired houses, all; water, soft.

MONROVIA, CALIF.

(Los Angeles County)

1920 Population, 5,480. 1926, 11,342. (State Dept. Census).

City and Suburban Estimate, 14,000. Most important cities and towns in this area are: Duarte (pop. 850); Arcadia (3,275); Azusa (3,165); Baldwin Park (1,973); El Monte (3,697).

Native Whites, 82%; **Negroes,** 8%; **Foreign Born,** 10%; **Industrial Workers,** 25%; **English Reading,** 98%; **Families,** 3,000.

Schools: Public Grade, 7; High, 1; Parochial, 1; Number of Pupils, 2,478.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 3; Capital Surplus and Undivided Profits (all banks), \$450,000; Total Deposits (all banks), \$6,500,000; Total Resources (all banks), \$7,800,000; Savings Bank Deposits Total, \$2,000,000.

Theatres: Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,200.

Location: 13 miles southeast of Los Angeles in the San Gabriel valley. Served by Santa Fe, Southern Pacific and Pacific Electric railroads. Excellent bus service to surrounding points. Transportation and shipping situation excellent. To nearest large city (Los Angeles), by railroad, 15 minutes; by trolley, 45 minutes; by auto, 30 minutes.

Principal Industries: Orange and citrus fruit growing, dairying, poultry raising, small farming, date packing, broom manufacturing, water heater plants, automobile and truck and tractor manufacturing, sash and door factory.

Manufacturing Establishments: 10. Leading firms: Day & Night Solar Heater Company; Coast Heaters Mfg. Co.; Kimball Truck Co.; Campbell Sash & Door Co.; Colby Mfg. Co.; Valley Packing Assn (said to be one of the largest date-packing plants in the U. S.). Total value of yearly output of factories estimated at \$12,000,000.

Special Information: Leading city in the San Gabriel Valley. One of the largest shipping points for citrus fruits in citrus-growing section of So. California. Noted as health center, with numerous recreation resorts and sanitarium. Rapidly growing industrial city, making concerted bids for establishment of small industries of various nature. Per capita wealth high. For years recognized as one of the most stable small communities in southern section of state.

Residential Features: Mostly one- and two-family houses, with one-family houses and private homes of highest class architecture highly predominant. No tenement, or cheap residence district, due to its location in foothill country, and popular permanent home location of people of wealthy class. Homes in better residence sections will average in value \$6,000.

Retail Shopping Section: Myrtle Avenue, White Oak Avenue, Olive, Lemon and Lime Streets. Extends on Myrtle from Olive to White Oak, a distance of 6 long blocks, one block each side of Myrtle on intersecting streets and two blocks each side on Olive, and White Oak Streets. Two outlying small retail centers.

Trading Area: Extends for a radius of 5, to 7 miles. Considerable business from small communities immediately surrounding.

Wholesale Houses: Wholesale business on small lines only, most wholesale distribution coming from Los Angeles.

Number of Retail Outlets for National Advertised Products: Passenger automobile agencies, 23; commercial automobile agencies, 7; automobile accessories, 8; automobile tire agencies, 8; bakers, 5; cigar stores and stands (in-

cluding hotels), 12; confectioners (including hotel stands), 14; delicatessen, 3; dressmakers, 6; druggists, 8 (chain, 1); dry goods, 7; department stores, 5; electrical supplies, 4; florists, 4; fruits, 11; furniture, 3; furriers, 1; garages (public), 18; grocers, 26 (chain, 4); hardware, 5; jewelry, 4; meat markets, 22 (chain, 4); men's furnishings, 7; men's clothing, 7; merchant tailors, 2; milliners, 3; opticians, 5; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 10; shoes, 7; sporting goods, 3; stationers, 2; women's apparel, 10.

Miscellaneous Data: Average temperature 77 degrees. Average number of rainy days per twelve months 5 per cent. Most pleasant months nearly all. Doctors (medical, 25); (dentists, 7); (osteopaths, 5); street car service; gas, natural; number of meters, 3,995; electric current, alternating; number of wired houses, 3,879; water, soft.

MONTEREY, CALIF.

(Monterey County)

1920 Population, 5,479 (1926 est. 8,500, city only).

City and Suburban Estimate, 18,000 (including immediately adjacent Pacific Grove and Carmel-by-the-Sea). Most important cities and towns in this area are: Monterey (pop. 8,500); Pacific Grove (3,500); Carmel (1,800); Seaside (1,200).

Native Whites, 75%; **Negroes,** 1%; **Foreign Born,** 24%; **Industrial Workers,** 20%; **English Reading,** 95%; **Families,** 1,600.

Schools: Public Grade, 2; High, 1; Parochial, 1; Number of Pupils, 1,570.

Churches: Baptist, 1; Christian Science, 3; Congregational, 1; Episcopal, 2; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 3.

Banks: National, 1; State, 1; Total Resources (all banks), \$6,500,000; Total Deposits (all banks), \$3,465,000; Savings Bank Deposits Total, \$1,643,132.20. (Also 1 bank in Carmel, 2 in Pacific Grove). Average monthly Total Retail Sales (all lines, 1924), \$650,000.

Theatres: Legitimate, 2; Moving Pictures, 3; (also 2 in Carmel, and 1 in Pacific Grove). Miscellaneous (Auditoriums, etc.), 3.

Location: Southern Pacific Railroad, Santa Cruz and Monterey S. S. line, and Linden S. S. line. The steamship lines are merely freight lines, picking up fresh and canned fish from industries here, lumber, etc. Monterey is situated on the southern part of the great Bay of Monterey, which promises to become a great seaport in the future. Excellent bus service to Santa Cruz, San Francisco, San Jose, Los Angeles and the San Joaquin Valley and Yosemite in the background is the great Salinas Valley.

Principal Industries: Fisheries, sardine canning, poultry, dahlia tubers, gladiolus bulbs, diatomaceous earth, mining, stock raising.

Manufacturing Establishments: 7 large canneries. Leading firms: Hynden Canning Co., Booth Canning Co., Carmel Canning Co., Monterey Canning Co., Funston & Gross Bayside Company, Monterey Products Co. Total value of yearly output of factories estimated at \$4,000,000, not including Monterey Products Co.

Special Information: Monterey Peninsula is the greatest playground of California. Regular flow of business dependent upon the sea throughout year, maintaining general level of prosperity, which reaches very high peaks in summer and winter months, as result of tremendous influx of tourists and Californians from the valleys. Jobbing houses consider this locality this year a "bright spot" in California. All merchants credits very high. City of Monterey, which is main center of peninsula, is the old capital of California, first and last Spanish capital, Mexican capital, and here the American flag was first raised officially in California. Great number of historic buildings and landmarks. Presidio of Monterey, home of 11th U. S. Cavalry and 76th Field Artillery, O. M. T. C. camps, National Guard summer camp, Hotel Del Monte.

Residential Features: Mostly one-family houses. No slums, no tenements. Private homes, owned by occupants, predominate greatly in Monterey, Pacific Grove and Carmel. Homes average in value about \$5,000, but there is great variation, due to expensive villas in Monterey, Pebble Beach and Carmel Highlands, 18,000 acres being exploited by Del Monte Properties Company for the homes. Climate shows variation of mean temperature winter and summer not more than ten degrees. Great purchasing power in population.

Retail Shopping Section: Alvarado Street in Monterey, three blocks, in main shopping district—Lighthouse Avenue in New Monterey section of Monterey is secondary district, two blocks; also Lighthouse Avenue in Pacific Grove, three blocks, and Ocean Avenue in Carmel, three blocks. Main shopping district is in Monterey, to which most business comes from Pacific Grove, Carmel and outlying territory. There is the city of Monterey as a political unit, but it is the Monterey Peninsula that is the economic trading unit.

Trading Area: Extends 38 miles to the south down the coast-line, 33 miles up Carmel Valley, 15 miles N. E. toward Salinas, 14 miles North up the coast-line, and including the entire Monterey Peninsula, which is composed of Monterey, Pacific Grove and Carmel. Hotel Del Monte, Del Monte Lodge, Pebble Beach and Seaside, are all immediately adjacent communities. There is a high class bus service within and between these places.

Wholesale Houses: Groceries, 2; meats, 2; miscellaneous lines: 12 fresh and packed fish, 1 flour products.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial automobile agencies, 3; automobile accessories, 8; automobile tire agen-

cies, 9; bakers, 6; cigar stores and stands (including hotel stands), 12 (chain, 1); confectioners (including hotel stands), 11; delicatessen, 3; dressmakers, 11; druggists, 9; dry goods, 5; department stores, 3; electrical supplies, 5; florists, 3; fruits, 3; furniture, 5; garages (public), 9; grocers, 54 (chain, 3); hardware, 5; jewelry, 5; meat markets, 15 (chain, 2); men's furnishings, 4 exclusively; men's clothing, 4 exclusively; merchant tailors, 6; milliners, 4 exclusively; opticians, 2; photographers, 9; pianos (and miscellaneous musical instruments), 3; radio supplies, 4; restaurants (including hotels), 30; shoes, 10; sporting goods, 3; stationers, 3; women's apparel, 3.

Miscellaneous Data: Doctors (medical, 16); (dentists, 7); (osteopaths, 2); gas, artificial; number of meters, 3,162; electric current, alternating; number of wired houses, 5,941; water, soft; number of automobile registrations, 7,256.

NAPA, CALIF.

(Napa County)

1920 Population, 6,757. (1925, est. 7,600). City and Suburban Estimate, 1,500. Most important cities and towns in this area are: St. Helena (pop. 1,346); Calistoga (1,000).

Native Whites, 75%; **Foreign Born,** 25%; **English Reading,** 95%; **Families,** 1,200.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,000.

Churches: Baptists, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Bank of Italy (branch), 1; Total Resources (all banks), \$8,987,792.89.

Theatres: Moving Pictures and Vaudeville combined, 1; Miscellaneous (Auditoriums, etc.), Hippodrome, 1. Total number of seats, 1,800.

Location: At the head of navigation on Napa River, 46 miles north of San Francisco. One steam train, and one electric line. Boat plys between Napa and San Francisco daily, carrying freight. To nearest larger city by railroad, 3 hours; by trolley or auto, 2½ hours.

Principal Industries: Grape and prune growing, peaches, apricots, cherries and apple cultivation. Boots and shoes, tanning, gloves, shirts, paper-box manufacturing, creameries (3), planing mills, fruit packers (3), fruit drying, beet sugar plant.

Manufacturing Establishments: Leading firms: California Glove Co., Keig's Boot and Shoe Co., Sawyer Tanning Co., Cameron Shirt Factory, Riverside Creamery Co. Total value of yearly output of factories estimated at \$7,600,000. Payrolls of factories, \$1,000,000.

Residential Features: Ideal location for homes. Excellent climate, pure mountain water, transportation facilities unexcelled, good soil, many wooded hillsides. Its proximity to San Francisco Bay, and other bay cities makes Napa an ideal residential city.

Retail Shopping Section: On Main Street, 4 blocks; Brown Street, 5; Coombs Streets, 3; First Street, 3; Second Street, 2; Third Street, 2.

Trading Area: North, 30 miles; east, 20; south, 10; west, 14.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; automobile accessories, 6; automobile tire agencies, 18; bakers, 6; cigar stores and stands (including hotels), 6 (chain, 1); confectioners (including hotel stands), 10; delicatessen, 3; dressmakers, 8; druggists, 5; dry goods, 14; department stores, 2; electrical supplies, 12; florists, 1; fruits, 30; furniture, 3; garages (public), 32; grocers, 12 (chain, 3); hardware, 6; jewelry, 4; meat markets, 6; men's furnishings, 7; merchant tailors, 2; milliners, 10; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 8; restaurants (including hotels), 4 (chain, 1); shoes, 4; sporting goods, 4; stationers, 4; women's apparel, 10.

Miscellaneous Data: average temperature, 52 degrees; average number of rainy days per twelve months, 25; most pleasant months, June to October, inclusive. Doctors (medical, 20); (dentist, 12); (osteopaths, 3); passenger bus service; gas, artificial; electric current, alternating; water, soft.

OAKLAND, CALIF.

(Alameda County)

1920 Population, 216,261 (1925 U. S. Census Bureau estimate, 253,700).

City and Suburban Estimate: (1926), Oakland, 300,000; Oakland and contiguous territory, 550,000.

Native Whites, 204,004; **Negroes,** 5,489; **Foreign Born,** 45,162; **Industrial Workers,** 39,000; **English Reading,** 208,261; **Families,** 43,252.

Schools: Public Grade, 50; High, 6; Junior High, 17; Parochial, 9; Number of Pupils, 55,000.

Churches: Baptist, 17; Christian Science, 10; Congregational, 12; Episcopal, 12; Hebrew, 15; Methodist, 25; Presbyterian, 15; Roman Catholic, 17; Miscellaneous, 62.

Banks: National, 3; State, 5; Total Resources (all banks), \$200,000,000; Savings Bank Deposits Total (all banks), \$114,436,000.

Theatres: Legitimate, 2; Moving Pictures, 40; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 55,000.

Location: Oakland is the hub, or trading center of a group of communities on the eastern or continental shores of San Francisco Bay, easily accessible from all directions, with unlimited expansion possibilities. A growing, prosperous territory with an estimated population in

excess of 550,000. To San Francisco, by rail, or ferry, 40 minutes.

Principal Industries: Diversified, from automobile manufacturing, fruit packing, electric lamp manufacturing, chemical industries to paints and roofing materials, caused by comparatively low distribution costs, excellent transportation facilities, complete power requirements, ideal climate and satisfied labor.

Manufacturing Establishments: 1,055. Leading firms: General Motor Co., Durant Motor Co., Paige Motor Co., Fisher Body Co., Victor Talking Machine Co., California Cotton Mills Co., Magnavox Company, Montgomery Ward Co., Libby, McNeill & Libby, Palmolive Co., Wyllis Overland Pacific Co., and many others of equal importance, nationally and locally. Total value of yearly output of factories estimated at \$400,000,000.

Special Information: Location of the city makes it the terminus of the Southern Pacific, Western Pacific, and Santa Fe Railways. Oakland has wonderful water terminal facilities which insure to the city a port of ever increasing importance. It is a port of call for steamers from all parts of the world. Oakland is well termed the city "Where Rail and Water Meet."

Residential Features: The homes of Oakland possess a charm that inspires a love of home and pride in ownership. It is a perfect home city, with private homes for working men, but with the wealthier classes predominating. There are no slums or tenement districts. The average cost of the Oakland home will range from \$5,000 to \$8,000.

Retail Shopping Section: Extends along First and Broadway, Washington, Franklin, and Webster Streets; on the South, to 28th and Broadway; on the North, to 14th and Broadway—the center or hub of all radiating laterals for street cars, bus transportation, and automobile boulevards, or highways leading to the great Santa Clara Valley. On the east and south are Richmond, Vallejo, and a rich back country. On the north and east, small sectional trading centers are numerous throughout this entire district.

Trading Area: Extends about fifty miles east and north. A wonderful system of paved highways, steam railways, electric railways, locally situated trolley lines, and efficient motor bus transportation make trading in Oakland from any point within this fifty-mile radius an event of convenience and pleasure to the buyer.

Wholesale Houses: Druggists, 1; groceries, 10; meats, 15; fruits, 38; hardware, 1; dry goods, 4; shoes, 1; confectionery, 21.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 42; commercial automobile agencies, 8; automobile accessories, 40; automobile tire agencies, 69; bakers, 160; cigar stores and stands (including hotel stands), 220 (chain, 16); confectioners (including hotel stands), 110; delicatessen, 45; dressmakers, 15; druggists, 227 (chain, 19); dry goods, 95; department stores, 6; electrical supplies, 105; florists, 75; fruits, 92; furniture, 78; furriers, 21; garages (public), 215; grocers, 1,394 (chain, 268); hardware, 108; jewelry, 55; meat markets, 234 (chain, 29); men's furnishings, 32; men's clothing, 26; merchant tailors, 116; milliners, 33; opticians, 40; photographers, 51; pianos (and miscellaneous musical instruments), 40; radio supplies, 100; restaurants (including hotels), 247 (chain, 12); shoes, 60; sporting goods, 15; stationers, 21; women's apparel, 100.

ONTARIO, CALIF.

(San Bernardino County)

1920 Population, 7,280 (1925 est. 12,500). City and Suburban Estimate, 28,000.

Native Whites, 96%; **Foreign Born,** 4%; **English Reading,** 95%.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 3,509.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, \$4,497,106; Savings Bank Deposits, \$1,515,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 5,000.

Location: On main lines of Union Pacific, Southern Pacific and Santa Fe R.R.s. Bus service and Pacific Electric interurban connections to all points in southwestern California; 37 miles east of Los Angeles, midway between mountains and the sea in a fertile valley devoted to intensive cultivation in agriculture and horticulture. To nearest large city, by railroad, 2 hours; by trolley, 2 hours; by auto, 2 hours.

Principal Industries: Electric appliances, automobile accessories and metal specialties.

Manufacturing Establishments: 4. Leading firms: Edison Electric Appliance Co., Hotpoint plant of Edison Electric Appliance Co., Exchange Orange Products Co., K-W Mfg. Co.

Special Information: Ontario is uniformly prosperous because of the diversity of its resources and industries. There are a dozen different industries that insure good times. Citrus fruits keep the packing houses busy; deciduous fruits keep the canneries going; poultry and dairying are active throughout the year; the Hotpoint electric plant, manufacturing a nationally known product and some smaller industries furnish steady employment to hundreds. A junior college of agriculture attracts many.

Residential Features: Ontario has a far wider and more populous community than the census report indicates. Although the 1920 census gave it 7,280 and it is now 12,500 (est.), it is the center of a close-in community of 18,850 and has a trading territory of 30,000. It is a well balanced community, mostly devoted to agriculture and horticulture, but with an unusual amount of industrial activity for a western city. People are prosperous, nearly all living in their own homes.

Continued on page 20

CALIFORNIA (Cont'd)

Ontario (cont'd)

Retail Shopping Section: Centers at Euclid and A streets; 6 blocks on Euclid and 8 blocks on A, with intervening blocks occupied by smaller shops.

Trading Area: Extends 15 miles east, 18 miles south, 10 miles north and 5 miles west. Good roads in every direction make trading easy for any one in the trading territory, and free telephone service to all the tributary territory makes Ontario the trading center for entire region.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial automobile agencies, 26; automobile accessories, 15; automobile tire agencies, 6; bakers, 5; cigar stores and stands (including hotels), 10 (chain, 1); confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 6; druggists, 6 (chain, 1); dry goods, 6; department stores, 3; electrical supplies, 3; florists, 2; fruits, 2; furniture, 4; garages (public), 22; grocers, 43 (chain, 2); hardware, 3; jewelry, 4; meat markets, 13 (chain, 2); men's furnishings, 4; men's clothing, 4; merchant tailors, 7; milliners, 8; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 6; restaurants (including hotels), 10; shoes, 5; sporting goods, 1; stationers, 8; women's apparel, 6.

Miscellaneous Data: Average number of rainy days per 12 months, 14; most pleasant months, February to December. Doctors (medical, 20), (dentists, 8), (osteopaths, 6); number of wired houses, 5,000; street car service; gas, natural; electric current, alternating; water, medium hard.

ORANGE, CALIF.

(Orange County)

1920 Population, 4,884 (1925, est. 9,000.)

City and Suburban Estimate (1925), 14,000.

Native Whites, 95%; Foreign Born, 5%; Industrial Workers, 20%; English Reading, 98%.

Schools: Public Grade, 5; High, 4 (1,300 seats); Parochial, 2; Number of Pupils, 1,800.

Churches: Baptist, 1; Christian Science, 1; Christian Disciples, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2; Lutheran, 1; Free Methodist, 1; Nazarene, 1.

Banks: National, 4; State, 1 (savings department also); Total Resources, \$3,892,131.64; Savings Bank Deposits Total, \$988,732.90.

Theatres: Moving Pictures, 1; Vaudeville, 1.

Location: Santa Fe, Pacific Electric, and Southern Pacific R.Rs. Crown Stage bus line. To nearest large city, by railroad, 1 hour; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Wire works, cordage factories, rope factory, gold leaf factory, cereal breakfast food, towel factory, ice and cold storage, citrus packing plants, cement pipe works.

Manufacturing Establishments: 10. Leading firms: California Wire Co., California Cordage Co., Western Cordage Co., West Coast Textile Co.

Special Information: Ideal labor conditions are helpful to all industries. Cheap power and ample raw material for industries named.

Residential Features: Mostly bungalows. Numerous small ranches.

Retail Shopping Section: Glassell St. and Chapman Ave. are main business streets. The Plaza is a circular park in the heart of the city from which business district radiates.

Trading Area: 2 miles from El Modena to Orange, 3½ miles from Olive, 2 miles from Villa Park, 2 miles from West Orange.

Wholesale Houses: Groceries, 1; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; automobile accessories, 2; bakers, 3; druggists, 4; dry goods, 4; electrical supplies, 3; florists, 2; fruits, 2; furniture, 3; garages (public), 5; grocers, 25 (chain, 5); hardware, 2; jewelry, 2; meat markets, 10 (chain, 2); men's furnishings, 3; men's clothing, 3; merchant tailors, 1; milliners, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 5; shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 65 degrees; average number of rainy days per 12 months, 25; most pleasant months, nearly all; doctors (medical, 5); (dentists, 4); (osteopaths, 2); number of wired houses, 3,300; street car service; gas, natural; electric current, direct; water, hard.

OROVILLE, CALIF.

(Butte County)

1920 Population, 3,340 (1926 est. 6,400).

City and Suburban Estimate, 13,550. Most important cities and towns in this area are: Gridley (pop. 2,000); Biggs (500); Richvale (400); Thermalite (1,100); Palermo (300).

Native Whites, 90%; Negroes, 2%; Foreign Born, 8%; Industrial Workers, 20%; English Reading, 93%; Families, 2,015.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 1,900.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Hebrew, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, \$1,900,000; Savings Bank Deposits Total, \$450,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1; Civic Auditorium. Total number of seats, 3,000.

Location: At the mouth of Feather River canyon. On Southern Pacific, Western Pacific and Northern Electric Rys. Division point on Western Pacific Ry. To nearest large city, by railroad, 2 hours 10 minutes; by trolley, 2 hours 15 minutes; by auto, 2 hours.

Principal Industries: Orange, olive, grape, fig, nut and cotton growing, tile and brick factory.

Manufacturing Establishments: 3. Leading firms: Virden Packing Co., The Olive Products Co., Wyandotte Canneries. Other independent fruit packing companies. Total value of yearly output of factories estimated at \$4,000,000.

Special Information: Railroad shops located at Oroville. Direct shipment east to Chicago by the shortest route east and west.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 3; automobile accessories, 4; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 3; delicatessen, 1; dressmakers, 7; druggists, 5; dry goods, 4; department stores, 3; electrical supplies, 3; florists, 1; fruits, 3; furniture, 2; garages (public), 5; total grocers, 32 (chain, 4); hardware, 3; jewelry, 3; total meat markets, 4 (chain, 1); men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 6; shoes, 3; stationers, 1; women's apparel, 4.

Miscellaneous Data: Average temperature, 61½ degrees; average number of rainy days per 12 months, 56; most pleasant months, all but January and February. Doctors (medical, 8), (dentists, 4), (osteopaths, 3); gas, artificial; electric current, alternating; water, hard.

OXNARD, CALIF.

(Ventura County)

1920 Population, 4,417. (1926 est. 7,000.)

City and Suburban Estimate, 12,000.

Native Whites, 80%; Negroes, 1%; Foreign Born, 19%; Industrial Workers, 25%; English Reading, 95%; Families, 1,275.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 950.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 2.

Banks: National, 1; State, 1; Savings Bank Deposits Total, \$6,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 1,400.

Location: 62 miles north of Los Angeles, on Southern Pacific R. R.

Principal Industries: Truck farming, sugar beet raising and sugar manufacturing, lima beans, dairying.

Manufacturing Establishments: A. B. S. sugar factory, A. B. S. factory, Brenneis Mfg. Co., and Dunn Mfg. Co. Total value of yearly output of factories estimated at \$6,000,000.

Special Information: Oxnard is close to shipping port at Hueneme, excellent transportation facilities, fertile soil, every street in the city paved, fine school systems, ideal climate.

Residential Features: Mostly one-family houses and adequate apartments. Restricted poorer section. Private homes predominate. Handsome residential section takes in 16 square blocks with Fifth Street as main business thoroughfare.

Trading Area: Five miles west and south of city, and 25 miles east.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; automobile accessories, 6; automobile tire agencies, 6; bakers, 3; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 4; delicatessen, 3; dressmakers, 5; druggists, 4; dry goods, 8; department stores, 4; electrical supplies, 5; florists, 2; fruits, 10; furniture, 3; garages (public), 10; grocers, 30; hardware, 3; jewelry, 5; meat markets, 5; men's furnishings, 6; men's clothing, 6; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 6; shoes, 8; sporting goods, 2; stationers, 3; women's apparel, 7.

PALO ALTO, CALIF.

(Santa Clara County)

1920 Population, 5,900. (1926, est. (10,746).

City and Suburban Estimate (including Mayfield), 20,000. Most important cities and towns in this area are: Redwood City (pop. 5,600); Mt. View (3,250); Menlo Park (2,100); Los Altos (470).

Native Whites, 83.3%; Foreign Born, 16.7%; Industrial Workers, 2%; English Reading, 96%; Families, 2,487.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial and Private, 8; Number of Pupils, 5,894 (Stanford University, 3,268).

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Resources (all banks), \$6,971,304; Savings Bank Deposits Total, \$3,162,328.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,100.

Location: On Southern Pacific, 32 miles south of San Francisco, on the San Francisco peninsula. Excellent bus service to San Francisco (bus leaves every 20 minutes). To nearest large city (San Francisco), by railroad, 40 minutes; by auto, 45 minutes; by trolley, 1½ hours.

Principal Industries: Redwood fancy boxes, millwork, radio equipment.

Manufacturing Establishments, 3. Leading firm: Steere Mfg. Co. Policy of the city is to discourage factories locating within city limits.

Special Information: Palo Alto is an educational and cultural center. Population mostly purchasers of high grade products with almost unlimited buying power. As an indication of wealth, when deposits of the county as a whole showed a decrease of over \$3,500,000, July to Dec., 1923, Palo Alto banks showed a gain of over half a million.

Residential Features: Strictly a residential city. It is the home of Stanford University, and the educational advantages and unsurpassed climate have attracted a wealthy class of home owners. Nearly all homes are one-family houses, averaging \$9,000.

Retail Shopping Section: University Ave., 6 blocks; Hamilton Ave., 5 blocks; High St., 3 blocks; Emerson St., 5 blocks; Alma St., 4 blocks; Ramona St., 3 blocks, and Waverly St., 2 blocks. The latter 5 being cross streets. Because of building restrictions, there are no neighborhood stores.

Trading Area: 5 miles north, 3 west, 8 south, and 3 east. This includes the towns of Atherton, Menlo Park, Stanford University, Los Altos, Rummymede and Ravenswood. Palo Alto now includes Mayfield within its city limits.

Wholesale Houses: Hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 20; automobile accessories, 7; automobile tire agencies, 10; bakers, 19; cigar stores and stands (including hotels), 14 (chain, 1); confectioners (including hotel stands), 5; delicatessen, 2; dressmakers, 12; druggists, 10; dry goods, 5; department stores, 5; electrical supplies, 7; fruits, 5; furniture, 5; garages (public), 22; grocers, 26 (chain, 4); hardware, 7; jewelry, 5; meat markets 21 (chain, 3); men's furnishings, 6; men's clothing, 6; merchant tailors, 4; milliners, 3; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 29; shoes, 4; sporting goods, 3; stationers, 4; women's apparel, 9.

Miscellaneous Data: Average temperature, 61 degrees; average number of rainy days per 12 months, 43; most pleasant months, April to November, inclusive. Doctors (medical, 40); (dentists, 20); (osteopaths, 15); gas, artificial; number of meters, 4,000; electric current, alternating; number of wired houses, 8,000; water, hard.

PASADENA, CALIF.

(Los Angeles County)

1920 Population, 45,354.

City and Suburban Estimate, 110,000 (1926 estimate). Most important cities and towns in this area are: Altadena (pop. 10,000); South Pasadena (15,000); Lamanda Park (8,000); San Marino (3,000); La Canada (3,000).

Native Whites (1920) 36,977; Negroes, 1,092; Foreign Born, 6,785; Industrial Workers, 10%; English Reading, 85%; Families, (estimated) 30,000.

Schools: Public Grade, 25; High, 2; Junior High, 6; Parochial, 2; Number of Pupils, 16,000.

Churches: Baptist, 6; Christian Science, 2; Congregational, 3; Episcopal, 2; Hebrew, 1; Methodist, 14; Presbyterian, 4; Roman Catholic, 4; Miscellaneous, 40.

Banks: National, 6; State, 6; Total Deposits National Banks, \$13,069,377.41; Total Deposits State Banks, \$39,003,066.55; Deposits (all banks June 30, 1926), \$52,072,433.96; Total Resources (all banks), \$410,673,981.20; Total Bank Clearings (12 months, 1925), \$310,599,694.92.

Theatres: Legitimate, 7; Moving Pictures, 5; Vaudeville, 3; (combined with motion pictures); Miscellaneous (Auditoriums, etc.), 1. Total number of seats (estimated), 14,000.

Location: On Santa Fe, Southern Pacific, and Union Pacific R.Rs. Interurban Electric Ry. and bus service to nearby towns and cities. To nearest large city (Los Angeles), by railroad, 30 minutes; by trolley, 40 minutes; by auto, 30 minutes.

Principal Industries: Printing, milling, furniture.

Manufacturing Establishments: 225 (estimated). Leading firms: Pasadena Milling Co., Pasadena Mfg. Co., Crown City Mfg. Co., Puritan Furniture Mfg. Co., Coops & Sons, Piano Co., Wickcraft Co., Pasadena Ornamental Iron Works, Art Concrete Works, O. V. Dust Co. Total value of yearly output of factories estimated at \$3,325,100.

Residential Features: A city of homes, surrounded by great natural playgrounds of beauty. The modest cottages of the workers blend in harmony with the mansions of the wealthy; beautiful lawns, flowers and trees are common to all making Pasadena one of the most attractive garden spots on the Pacific Coast.

Retail Shopping Section: Colorado Street, the main street of Pasadena, which runs east and west, is comprised of about 30 blocks of shopping area. Fair Oaks Avenue runs north and

south, composed of about 9 business blocks. North and South Raymond Ave., composed of about 7 business blocks; North and South Maringo Ave., about 5 blocks; North and South Los Robles Ave., about 4 blocks; North and South Lake Ave., about 4 blocks.

Trading Area: Five miles south, 7 miles east, 8 miles northwest, 6 miles west.

Wholesale Houses: Groceries, 2; fruits, 3; dry goods, 1; miscellaneous lines, 5.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial automobile agencies, 2, automobile accessories, 20; automobile tire agencies, 20; bakers, 20; cigar stores and stands (including hotels), 20 (chain, 2); confectioners (including hotel stands), 44; delicatessen, 3; dressmakers, 106; druggists, 60 (chain, 7); dry goods, 24; department stores, 4; electrical supplies, 13; florists, 15; fruits, 30; furniture, 26; furriers, 4; garage (public), 45; grocers, 131 (chain, 7); hardware, 17; jewelry, 22; meat markets, 108 (chain, 30); men's furnishings, 2; men's clothing, 6; merchant tailors, 6; milliners, 17; opticians, 5; photographers, 12; pianos (and miscellaneous musical instruments), 7; radio supplies, 20; restaurants (including hotels), 42 (chain, 2); shoes, 28; sporting goods, 6; stationers, 9; women's apparel, 26.

Banks: National, 1; State, 1.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 2,000.

Location: On Southern Pacific R.R. To nearest large city by railroad, 4 hours; by automobile 4 hours.

Principal Industries: Agriculture, stock raising.

Special Information: Red Bluff is the junction point of two main highways—Gale Way, and Mt. Lassen National Park Highway.

Retail Shopping Section: On Main Street, 8 blocks; on Walnut Street, 10 blocks; on Washington Street, 5 blocks.

Trading Area: Extends over a radius of 30 miles.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial automobile agencies, 2; automobile accessories, 3; automobile tire agencies, 4; bakers, 3; cigar stores and stands (including hotels), 6 (chain, 1); confectioners (including hotel stands), 4; delicatessen, 2; dressmakers, 4; druggists, 4 (chain, 1); dry goods, 4; department stores, 2; electrical supplies, 2; florists, 2; fruits, 4; furniture, 3; furriers, 1; garages (public), 8; grocers, 8 (chain, 2); hardware, 4; jewelry, 2; meat markets, 6; men's furnishings, 4; men's clothing, 4; merchant tailors, 3; milliners, 4; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 3; radio supplies, 4; total restaurants (including hotels), 8; shoes, 4; sporting goods, 2; stationers, 4; women's apparel, 3.

Miscellaneous Data: Average temperature, 76 degrees; average number of rainy days for year, 31; most pleasant months, all months. Doctors (medical, 8); (dentists, 4); (osteopaths, 2); gas, artificial; number of meters, 1,842; electric current, alternating; number of wired houses, 1,634; water, hard and soft.

REDLANDS, CALIF.

(San Bernardino County)

1920 Population, 9,751. (1926 est. 18,015, city).

Suburban Estimate (exclusive of city), 3,000.

Native Whites, 95%; **Negroes,** 2%; **Foreign Born,** 3%; **Industrial Workers,** 15%; **English Reading,** 95%; **Families,** 3,872.

Schools: Public Grade, 7; High, 1; Junior High, 1; Parochial, 4; Number of Pupils, 3,784; University of Redlands, 600 Pupils.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 4; Free Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Lutheran, 1; Christian, 1; Unitarian, 1; Church of God, 1; Nazarene, 1; Christian Reformed, 1; Christian Missionary Alliance, 1.

Banks: National, 1; State, 2; Total Resources (all banks), \$3,000,000. Savings Bank Deposits Total about \$3,000,000. Building & Loan Society, assets, \$3,936,752.73.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), Contemporary Club, Municipal Amphitheatre. Total number of seats, 5,000.

Location: Sixty-seven miles from Los Angeles, at the head of the fertile San Bernardino Valley. The altitude is 1,356 feet above sea level, and the sheltering mountains on three sides protect the city from wind and extremes of temperature. The city stands at the hub of a radiating system of rail and motor transportation, giving access to mountains and beaches over paved boulevards. On the main line of the Southern Pacific, the loop of the Santa Fe and connected by Pacific Electric with Union Pacific line, and limited trains to Los Angeles, Redlands is accessible to transcontinental travel by both railroad and automobile. The Ocean-to-Ocean Highway runs through Redlands and places the town in close communication with Imperial Valley, and the Bankhead Highway to the east, via Yuma and Tucson, or Phoenix, Arizona. To nearest large city, by railroad, 3 hours; by trolley, 3 1/4 hours; by auto, 3 hours.

Principal Industries: Citrus fruits, apples and other deciduous fruits, poultry, bees, dairying and general farming.

Manufacturing Establishments: Leading firms: Jones Cider & Vinegar Co., Hodson Towel Co., Anderson Flume Gate Co., Johnston Tractors, Kubas Olive Co., H. Rettig, farm tools. Ex Pan Co., tree wraps, planting pots, surgical splints; J. D. Jones, toys; Sunset Tile Co., hydrolic tile; All Orange Products Co., manufacturers bakers' supplies.

Special Information: Transcontinental Highway, Ocean-to-Ocean Boulevard, Arrowhead Trail. Community singing, and artists' concerts are held throughout the season in Municipal Amphitheatre. No charge for admission is made. Rainbow angling club, and Forest Home trout

runs are located near Redlands. Southern California Edison Co. has six electric generating plants in mountains near Redlands.

Residential Features: Mostly private residences. While the larger percentage will run at least to \$5,000, more pretentious homes cost up to \$35,000, and more.

Retail Shopping Section: Extends from Triangle, heart of business section, two blocks east and west on Citrus Avenue and State Street, five blocks north on Orange Street. Packing houses located on Southern Pacific, and Santa Fe tracks, east and west of Orange Street.

Trading Area: Extends twenty-five miles east to Beaumont, and Banning, nine miles south to Moreno Valley, five miles west to Loma Linda, and five miles north to East Highlands, Highland, and Patton.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial automobile agencies, 3; automobile accessories, 8; automobile tire agencies, 8; bakers, 6; cigar stores and stands (including hotels), 11 (chain, 1); confectioners (including hotel stands), 3; delicatessen, 4; dressmakers, 18; druggists, 7; dry goods, 7; department stores, 3; electrical supplies, 4; florists, 18; grocers, 60 (chain, 2); hardware, 3; jewelry, 3; meat markets, 11 (chain, 2); men's furnishings, 6; men's clothing, 6; merchant tailors, 7; milliners, 5; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 21; shoes, 9; sporting goods, 4; stationers, 3; women's apparel, 7.

Miscellaneous Data: Average temperature, 63 degrees; average number of rainy days per 12 months, 9; most pleasant months, nearly all. Doctors (medical, 19); (dentists, 8); (osteopaths, 5); gas, natural; electric current, alternating; number of wired houses, 4,154 in city; water, soft.

REDONDO BEACH, CALIF.

(Los Angeles County)

1920 Population, 4,913 (1925, est. 11,200).

City and Suburban Estimate, 18,500.

Native Whites, 95%; **Foreign Born,** 4 1/2%; **Negroes,** 1/4%; **Industrial Workers,** 20%; **English Reading,** 85%; **Families,** 3,300.

Schools: Public Grade, 5; High, 1; Parochial, 1; Number of Pupils, 1,900.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 3; State, 1; Total Resources, \$3,173,591; Savings Bank Deposits Total, \$433,850.

Theatres: Moving Pictures, 2; Vaudeville, 1; Total number of seats, 2,000.

Location: On Pacific Electric Co. line, 19 miles southwest of Los Angeles, 12 miles northwest of Long Beach, on Santa Monica. Good electric and bus lines transportation. Two miles from Santa Fe Railway branch. Mostly resort and home community.

Principal Industries: Southern California Edison plant, Southern California Gas Co., oil fields, fishing, lumber plant, glass plant.

Manufacturing Establishments: 9. Leading firms: Pacific Electric Co. wharf, Southern California Gas Co., Southern California Edison Co., Redondo Milling Co., Redondo Planing Mill, Wilshire Beverages, Glass Plant.

Special Information: Amusement center of high class, home of famous "Moonstone Beach." Paradise for fishermen, seven acre municipal park facing ocean, large salt water bathing pavilion, joined by the Palos Verdes estates. Great depth of water in Santa Monica Bay favorable to heavy-draught shipping.

Residential Features: Mostly single family homes, moderate number apartment houses, few courts. Perfect drainage for entire city on slopes of hills. Real estate and homes are held at reasonable prices, even such as have ocean frontage.

Retail Shopping Section: Pacific and Catalian, Diamond and Emerald Aves. about 12 blocks. Scattering community stores.

Trading Area: Radius of about five miles. Trading population about 25,000.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 2; commercial auto agencies, 18; automobile accessories, 15; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 12; delicatessen, 1; dressmakers, 6; druggists, 5; dry goods, 7; department stores, 2; electrical supplies, 5; fruits, 10; furniture, 5; garages (public), 15; grocers, 30; hardware, 2; jewelry, 3; meat markets, 10; men's furnishings, 8; men's clothing, 8; merchant tailors, 3; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 43; shoes, 7; sporting goods, 2; stationers, 3; women's apparel, 3.

REDWOOD CITY, CALIF.

(San Mateo County)

1920 Population, 4,020 (Chamber of Commerce estimate, 1926, 7,726).

City and Suburban Estimate, 16,000 (entire trading area).

Native Whites, 90%; **Negroes,** 1%; **Foreign Born,** 9%; **Industrial Workers,** 19%; **English Reading,** 92%; **Families,** 1,600.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,900.

Churches: Baptist, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1.

CALIFORNIA (Cont'd)

Redwood City (cont'd)

Banks: National, 1; State, 1.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3.

Location: Located 25 miles south of San Francisco on the San Francisco peninsula, main line of the Southern Pacific R.R., Peninsula Rapid Transit Co., and other bus lines. Also many trucking companies carrying freight between Redwood City and San Francisco. Water and barge transportation down the San Francisco Bay.

Principal Industries: Cement, leather tanning, magnesite, asbestos, salt, silicate, fruit and produce canning.

Manufacturing Establishments: 10. Leading firms: Pacific Portland Cement Co., Frank Tannery, Beegar Tannery, National Magnesite Co., Pratt-Lowe Preserving Co.

Residential Features: There are 1,200 dwellings in the city limits.

Retail Shopping Section: Broadway from Highway to Main St., 6 blocks. Main St. from Chestnut to Five Points, 10 blocks.

Trading Area: South (Menlo Park), 4 miles; west (Half Moon Bay and Pescadero), 35 miles; north (Belmont), 6 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial automobile agencies, 1; automobile accessories, 6; automobile tire agencies, 3; bakers, 4; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 7; delicatessens, 3; dressmakers, 5; druggists, 3; dry goods, 2; department stores, 4; electrical supplies, 2; florists, 2; fruits, 4; furniture, 3; garages (public), 10; grocers, 17; hardware, 4; jewelry, 3; meat markets, 7; men's furnishing, 2; men's clothing, 2; merchant tailors, 3; milliners, 2; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 12; shoes, 5; sporting goods, 2; stationers, 3; women's apparel, 3.

RICHMOND, CALIF.

(Contra Costa County)

1920 Population, 16,843 (1926 est. 30,000, increase by annexation).

City and Suburban Estimate, Retail trade area, 40,000. Most important cities and towns in this area are: El Cerrito (pop. 5,000); Pinole (15,000); San Pablo (500); Hercules (500); other unincorporated villages (2,500).

Native Whites, 79%; Negroes, 1%; Foreign Born, 20%; Industrial Workers, 75%.

Schools: Public Grade, 10; High, 1; Junior High, 1. Number of Pupils, 5,500.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 2; Methodist, 3; Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 3.

Banks: National, 1; State, 4; Total Resources (all banks), \$8,500,000; Savings Bank Deposits Total (all banks), \$3,000,000.

Theatres: Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 8; Total number of seats, 7,000.

Location: Mainland deep-sea terminus of the Santa Fe, and Southern Pacific Rys. Direct rail to deep-water connections. On eastern shore of San Francisco Bay. Metropolitan area, 1,300,000 people within 25 mile radius. Two electric interurban systems to all parts of metropolitan area. To nearest large city (Oakland), by railroad, 30 minutes; by trolley, 45 minutes; by automobile, 30 minutes. Direct passenger and automobile ferry to San Francisco.

Principal Industries: Oil refining and metal products, vitreous and porcelain ware, sanitary fixtures, railroad and car shops, foundries, building materials, paints.

Manufacturing Establishments: 60. Leading firms: Standard Oil Co. (refining), Certainteed Products Corp., Pullman car shops, Standard Sanitary Mfg. Co., California Art Tile Co., Santa Fe R.R. shops. Value annual output, \$135,000,000.

Special Information: Third largest tonnage of any port on the Pacific, ranking ahead of Portland, Oakland, Seattle and Vancouver in 1923; fourth pay-roll city in California; \$15,000,000 payroll for 27,000 population. City is 22 years old and has increased 51% in population since 1923 census. Metropolis of manufacturing county, Contra Costa, which ranks third in state, Los Angeles and San Francisco counties being first and second, with \$400,000,000 factory output in 1923.

Residential Features: No slums or tenements; mostly one-family homes, bungalow type predominating.

Retail Shopping Section: Macdonald, 23 blocks; Nevin, 2 blocks; 23rd Street, 1 block; Standard Avenue, 3 blocks; Washington Avenue, 2 blocks; 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th Streets, 2 blocks each. Many neighborhood stores and trading districts.

Trading Area: Includes all of western end of Contra Costa county, tapped by two railroads, regular bus lines and good highways.

Number of Retail Outlets for National Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 3; automobile accessories, 16; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 75 (chain 4); confectioners (including hotel stands), 15; delicatessens, 5; druggists, 7; dry goods, 10; department stores, 3; electrical supplies, 10; florists, 3; fruits, 35; furniture, 7; garages (public), 18; grocers, 40 (chains, 4); hardware, 3; jewelry, 6; meat markets, 10 (chain, 4); men's furnishings, 22; men's clothing, 6; merchant tailors, 12; milliners, 7; opticians, 4; photographers, 4; pianos (and

miscellaneous musical instruments), 5; radio supplies, 5; restaurants (including hotels), 14; shoes, 9; sporting goods, 6; stationers, 3; women's apparel, 8.

Miscellaneous Data: Average temperature, 65 degrees; most pleasant months, August, Sept., October, November; street car service; gas, artificial; number of meters, 6,000; electric current, alternating; number of wired houses, 8,000; number of automobile registrations, 3,000; water, hard.

RIVERSIDE, CALIF.

(Riverside County)

1920 Population, 19,341. (1926, est. 31,000).

City and Suburban Estimate, city, 20,000; suburbs, 7,000. Trading area, 65,000.

Native Whites, 27,000; Negroes, 1,000; Foreign Born, 2,500 (Mexican); Industrial Workers, 23%; Families, approx. 10,000, average 3 to 1 family.

Schools: Public Grade, 14; High, 2; Junior College, 1. Also branch of University of California. New schools now under construction to cost \$1,300,000.

Churches: Baptist, 3; Christian Science, 1; Congregational, 2; Episcopal, 2; Hebrew, 1; Methodist, 4; Presbyterian, 3; Roman Catholic, 3; Christian, 3; Lutheran, 3; Miscellaneous, 11.

Banks: National, 3; State, 2; Total Resources (all banks), (June, 1925), \$13,323,113.54; Savings Bank Deposits, Total \$5,048,244.03.

Theatres: Legitimate, 1; Moving Pictures, 3; Total number of seats, 24,000. Municipal Auditorium now building at a cost of \$200,000.

Location: On Main line of Santa Fe, of Union Pacific Ry., main line and connecting with Southern Pacific and P. E. Ry.

Principal Industries: Fruit and orange growing, dairy, chicken raising.

Manufacturing Establishments: 31. Leading firms: Riverside Ft. Cement, Stabler Parker, Cresmer Mfg. Co., Parker Iron Works. Estimated value of yearly output \$11,000,000. Payroll \$4,000,000.

Residential Features: Beautiful home city. Sherman Institute, Magnolia Avenue, 14-mile double drive.

Retail Shopping Section: On 6th St., 2 blocks; 7th, 4; 8th, 6; 9th, 6; 10th, 3; 11th, 3; Main, 9; Orange, 4; Market, 6; Lime, 3; Lemon, 3.

Trading Area: From the east 30 miles, south 14 miles, north 8 miles, west 8 miles.

Wholesale Houses: Groceries, 3; meats, 3; fruits, 4; hardware, 2.

SACRAMENTO

California's Inland Industrial Center

The Gateway to the Garden Valley of the World

THE RECORD

Agricultural - - Sacramento Region produces 40% of the total value of agricultural products in the State of California.

Industrial - - - Number of Manufacturing Plants:

1919 - - - 284

1926 - - - 420

Annual value Manufactured Products: \$64,000,000.00

Business Activities

Bank Clearings

1920 - \$324,348,245

1925 - \$450,111,211

Building Permits

1920 - \$3,449,388.00

1925 - \$11,351,277.20

THE REASONS

Location - - - Geographic and economic distribution center of the Sacramento Region, composed of twenty-one counties possessing over 50 per cent of the water resources of the State of California, rich agricultural lands and diversified industrial resources including lumber and industrial mineral deposits.

Raw Materials

- Center of great producing area including the widest diversification of resources in the State.

Transportation

- Two transcontinental railroads. Four interurban electric lines. Four Sacramento River steamer lines, 268 vessels.

Eleven motor stage lines. Ten motor truck lines.

Power

- Abundance of electric power at low rates.

Water

- Excellent municipal water supply in abundance at lowest rates in the United States.

Available Sites

- Excellent locations on rail or water or both, available at reasonable cost.

Municipal Conditions

- Low tax rates, excellent housing conditions, progressive city government providing ample facilities for industrial expansion.

Labor

- Largest labor market west of Chicago with excellent relations prevailing.

Opportunity

- A sound, prosperous, expanding section of California with increasing markets.

The Sacramento Chamber of Commerce

Sacramento, California

Is at your service for further information

CALIFORNIA (Cont'd)

Sacramento (cont'd)

Principal Industries: Canning and preserving, railroad repair shops, slaughtering and meat packing, flour and feed mills, rice cleaning and polishing, bread and bakery products, automobile and radio batteries, butter, and dairy products, planing mill products, printing (book and job), printing machinery, ice cream, iron and steel products, food by-products, ice (manufactured), boxes, caskets, barrels, beverages, bookbinding, engraving, sheet metal products, confectionery, chemical and drug compounds, coffee roasting and grinding, auto bodies and parts, brick, pottery and tile.

Manufacturing Establishments: 420. Leading firms: Southern Pacific Company, Western Pacific Company, Pacific Gas and Electric Co., Great Western Power Co., Earl Fruit Co., Libby, McNeill & Libby, California Packing Corporation, Smith-Frank Packing Co., Cannon & Co. (clay products), Peerless Biscuit Co., Perfection Bread Co., H. S. Crocker Co., California Almond Growers, Swanston & Son, H. S. Crocker Co., Globe Grain & Milling Co., Sacramento Brick Co., Cutter Mill & Lumber Co., American Can Co. Total value of yearly output of factories estimated at \$64,000,000.

Special Information: Sacramento has one of the largest railroad shops west of the Mississippi, with a yearly payroll of \$5,000,000. It has two immense fruit and vegetable canning establishments, and a large almond-shelling plant which is the clearing house for practically all the almonds grown in this section. Sacramento is a big wholesale center, covering entire northern California and parts of Nevada, Idaho, and southern Oregon, and is the distributing center for the 21 counties of northern California. Assessed property valuation, Dec. 31, 1925, was \$150,630,518 (128,361,002, non-operative; \$15,285,720, operative), an increase of \$47,706,631, over 1924, and \$60,763,791, over 1920.

Residential Features: Private residences prevail, most of them constructed during the past few years. The city is distinctive in appearance because of the extraordinary number of shade trees, flowers and lawns. Practically every home has its own vegetable garden. It has more than one thousand acres of parks.

Retail Shopping Section: Extends from Sacramento River on the west to 28th Street on the east; from I Street on the north to Y Street on the south. Also a suburban section covering 6 blocks on 35th Street, known as "Oak Park," which is well supplied with retail stores.

Trading Area: Sacramento is the natural headquarters for distribution and trading for the entire Sacramento region, which is composed of twenty-one counties of the Sacramento Valley. Intensive retail area extends over radius of 150 miles. Excellent transportation by train and auto stages—120 stages operating daily, in and out of the Union Stage Depot, over a network of paved highways and river passenger boats.

Wholesale Houses: Groceries, 6; meats, 7; fruits, 15; hardware, 3; sporting goods and radio, 1; stationers, 4; miscellaneous lines, 12.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 42; automobile accessories, 53; automobile tire agencies, 23; bakers, 27; cigar stores and stands (including hotel stands), 54 (chain, 2); confectioners (including hotel stands), 23; delicatessens, 7; dressmakers, not available; druggists, 56 (chain, 9); dry goods, 20; department stores, 8; electrical supplies, 9; florists, 13; fruits, 20; furniture, 33; furriers, 9; garages (public), 79; grocers, 296 (chain, 24); hardware, 22; jewelry, 21; meat markets, 67 (chain, 2); men's furnishings, 23; men's clothing, 44; merchant tailors, 52; milliners, 13; opticians, 10; photographers, 12; pianos (and miscellaneous musical instruments), 8; radio supplies, 15; restaurants (including hotels), 138 (chain, 3); shoes, 28; sporting goods, 8; stationers, 10; women's apparel, 20.

Miscellaneous Data: Doctors (medical, 122); (dentists, 80); (osteopaths, 20); street car service; gas, natural and artificial; number of meters, 20,000; electric current, alternating; number of wired houses, 24,000; number of automobile registrations, 30,743; water, soft.

See announcement page 22

SAN BERNARDINO, CALIF.

(San Bernardino County)

1920 Population, 18,721 (1926 est. 38,000).

City and Suburban Estimate, 52,000. Most important cities and towns in this area are: Redlands (pop. 15,000); Colton (9,000); Rialto (2,500); Highland (1,500).

Native Whites, 81%; **Negroes,** 4%; **Foreign Born,** 15%; **Industrial Workers,** 55%; **English Reading,** 89%.

Schools: Public Grade, 27; High, 1; Junior College, 1; Junior High, 1; Parochial, 1; Number of Pupils, 9,015.

Churches: Baptist, 2; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 4; State, 2; Total Resources (all banks), \$13,283,000; Savings Bank Deposits Total, \$11,267,544.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 7,200.

Location: Located in the heart of the Southern California citrus area, 60 miles east of Los Angeles, on Santa Fe Ry., Union Pacific, and Southern Pacific Railroads. Excellent bus serv-

ice. Division points for the Santa Fe, Union Pacific, and Pacific Electric Lines.

Principal Industries: Santa Fe railroad shops with monthly payroll of \$1,500,000. Wholesale jobbing center for the interior of Southern California, citrus growing, packing, icing and shipping, deciduous fruits, hay, grain and produce, grapes, olives, etc.

Manufacturing Establishments: 38. Leading firms: Parker Iron Works, Hanford Iron Works, Gill Storage Battery Co. Total value of yearly output of factories estimated at \$15,000,000.

Special Information: This city is the gateway to Southern California from the east, and on the main highways of motor travel. Location of National Orange Show and entrance to the "Rim o' the World" scenic region, which is dotted with resorts.

Residential Features: Mostly bungalows and fine residences. Many fine apartment houses, section duplex structures, and bungalow courts growing. Houses being constructed at average cost from \$4,500 to \$6,000.

Retail Shopping Section: Extends on Third Street from B to K on about 10 blocks. On E Street from Second to Fifth, on D Street from Second to Fifth; on 4th Street from Arrowhead Avenue to F Street (three blocks), Court St. from D to F (two blocks), Mt. Vernon from Fourth to Seventh (3 blocks). There are five outlying retail business sections of the usual character as well as scattered neighborhood stores.

Trading Area: Extends 40 miles southeast to Banning, seven miles east to East Highlands, 17 miles west to Cucamonga, eight miles south to Grand Terrace, and Highgrove, and north to embrace many of the "desert" communities—such as Victorville, etc.—the residents of which come in at least once or twice a month to do periodical buying.

Wholesale Houses: Groceries, 3; meats, 4; fruits, 5; hardware, 2; dry goods, 1; miscellaneous lines, butter and creamery products, 3; ice cream, 3; drugs, 1; confectionery, 1; bakeries, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 21; commercial automobile agencies, 8; automobile accessories, 14; automobile tire agencies, 24; bakers, 10; cigar stores and stands (including hotels), 41; confectioners (including hotel stands), 12; delicatessens, 5; dressmakers, 45; druggists, 17; dry goods, 15; department stores, 4; electrical supplies, 5; florists, 3; fruits, 32; furniture, 10; furriers, 2; garages (public), 21; grocers, 68 (chain, 6); hardware, 8; jewelry, 7; meat markets, 20 (chain, 2); men's furnishings, 12; men's clothing, 18; merchant tailors, 8; milliners, 9; opticians, 5; photographers, 6; pianos (and miscellaneous musical instruments), 6; radio supplies, 3; restaurants (including hotels), 46; shoes, 12; sporting goods, 6; stationers, 3; women's apparel, 16.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 27; most pleasant months, all except January and February. Doctors (medical, 40); (dentists, 21); (osteopaths, 12); street car service; gas, natural and artificial; electric current, alternating; number of wired houses, 7,500; number of automobiles registered, 3,300 in county; water, soft.

SAN DIEGO, CALIF.

(San Diego County)

1920 Population, 74,683 (1926 Directory, 147,985).

City and Suburban Estimate, (1926) 182,000.

Native Whites, 85%; **Foreign Born,** 15%; **Industrial Workers,** 20%; **English Reading,** 98%; **Families,** 41,120.

Schools: Public Grade, 32; High, 1; Junior High, 5; Parochial, 3; Number of Pupils, 27,807.

Churches: Baptist, 17; Christian Science, 11; Congregational, 13; Episcopal, 6; Hebrew, 2; Methodist, 18; Presbyterian, 9; Lutheran, 5; Roman Catholic, 14; Miscellaneous, 56.

Banks: National, 3; State, 6; Total Savings Bank Deposits (Dec. 31, 1925), \$69,047,368. Bank Clearings (1925), \$666,509,356.

Theatres: Legitimate, 2; Moving Pictures, 21; Vaudeville, 1; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 21,455.

Location: Nearest port of entry for trade with Orient, and through Panama Canal. Nearer to Chicago and east (via Panama Canal), than other Pacific ports. Terminus of two transcontinental railroads; Atchison, Topeka and Santa Fe, and San Diego and Arizona (Southern Pacific). Port of call for a number of steamships lines. To nearest large city (Los Angeles, 130 miles north), by railroad, 3½ hours; by auto, 5 hours.

Principal Industries: Fish canneries, (packs over 275,000 cases a year).

Manufacturing Establishments: 350. Leading firms: Spreckles, Savage Tire Co., Cottonseed Oil Products Co., Salt Works, Olive Oil, Citrus Soap Co., Potter Radiator Corporation, San Diego Macaroni Factory, Shiffer Furniture Factory. Total value of yearly output of factories estimated at \$38,000,000.

Special Information: Building permits for 1925 largest in history of city amounting to \$18,198,205. Home base of torpedo destroyers of the Pacific Coast, Naval Training Station, Marine Brigade Post, U. S. Naval Air Station and other naval projects. Naval payroll over \$20,000,000 a year.

Residential Features: Has pure water. Balboa Park, the site of Panama-Calif. Exposition in 1915, has an area of 1,400 acres and is situated in the center of the city. Average but nine days a year without some degree of sunshine. Mean annual temperature, 61 degrees. Eighty-eight miles of one of the best street railways in the U. S., situated on San Diego harbor, which

is completely landlocked, free of current, accessible for all types of vessels in all kinds of weather. The home of a great many retired wealthy easterners.

Retail Shopping Section: Extends from water front east for twelve blocks, and from water front north for about fifteen blocks. There are three outlying business sections, and several smaller neighborhood sections.

Trading Area: Extends about 40 miles north and 40 miles east.

Wholesale Houses: Groceries, 7; meats, 8; fruits, 24; hardware, 2; miscellaneous lines, 11; confectioners, 7; druggists, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 46; commercial automobile agencies, 10; automobile accessories, 32; automobile tire agencies, 60; bakers, 91; cigar stores and stands (including hotels), 1,100; confectioners, (including hotel stands), 83; delicatessens, 9; dressmakers, 125; druggists, 83; dry goods, 34; department stores, 10; electrical supplies, 47; florists, 34; fruits, 43; furniture, 45; furriers, 6; garages (public), 130; grocers, 450; hardware, 35; jewelry, 60; meat markets, 91; men's furnishings, 40; men's clothing, 14; merchant tailors, 10; milliners, 25; opticians, 20; photographers, 30; pianos (and miscellaneous musical instruments), 9; radio supplies, 15; restaurants (including hotels), 250; shoes, 30; sporting goods, 9; stationers, 8; women's apparel, 15.

Miscellaneous Data: Average temperature, 61 degrees; average number of rainy days per twelve months, 9; most pleasant months, nearly all; Doctors (medical, 200); (dentists, 90); (osteopaths, 21); street car service, (82 miles); gas, artificial; electric current, alternating and direct; number of wired houses, 41,120; water, hard.

SAN FRANCISCO, CALIF.

(San Francisco County)

1910 U. S. Census, 416,912.

1920 U. S. Census, 506,676.

1923 Population, 670,000 (estimated).

1925 Population, 695,000 (estimated).

1926 Population, 706,391 (estimated).

City and Suburban Estimate (1926) 1,311,000. Most important cities and towns in this area are: Vallejo (pop. 26,641); Oakland (253,700); Berkeley (66,209); San Jose (43,551); Alameda (28,806); Richmond (22,530).

Native Whites, 69%; **Negroes,** 0.5%; **Foreign Born,** 27.7%; **Industrial Workers,** 39%; **English Reading,** 88%; **Families** (1926 est.), 134,598.

Suburban and Farm Residents

Within a radius of 50 miles practically all of the larger purchases of over one million people are made in San Francisco. The geography of California makes San Francisco the shopping center for the entire northern part of California, drawing from the rich San Joaquin, Sacramento and Santa Clara valleys, due to the fact that the southern part of California is practically shut off by the Tethachapi Mountains.

Schools: Public Grade, 112; High, 6; Parochial, and Private, 80; Number of Pupils 90,000. Total Number of Pupils, Public and Private, 101,250.

Churches: Baptist, 9; Christian Science, 11; Congregational, 11; Episcopal, 17; Hebrew, 12; Methodist, 27; Presbyterian, 28; Roman Catholic, 50; Miscellaneous, 41.

Banks: National, 4; State, 27; Capital Surplus, and Undivided Profits (all banks), \$147,859,937; Savings Banks Deposits, \$837,024,151; Commercial Bank Deposits, \$622,851,625; Total Deposits (all banks), \$1,459,875,776; Total Resources (all banks), \$1,694,497,247; Total Bank Clearings (12 months, 1925), \$9,479,311,406; Average Yearly Total Retail Sales, \$678,965,000 (1924).

Theatres: Legitimate, 5; Moving Pictures, 85; Vaudeville, 6; Total number of seats, 72,692.

Location: San Francisco is located on the northern end of the peninsula, at the mouth of the Sacramento and San Joaquin Rivers, and is bounded on the west by the Pacific Ocean, and on the east, and north, by San Francisco Bay. San Francisco is the western terminus for 3 transcontinental railroads, namely: the Southern Pacific, Western Pacific, and Santa Fe, and is the principal point of call for over 100 trans-Pacific and inter-ocean steamship lines. To nearest large city: by trolley, ¼ hour; by

auto, ¼ hour. To Los Angeles, by railroad, 12½ hours; by auto, 26 hours.

Continued on page 24

CALIFORNIA (Cont'd)

San Francisco (cont'd)

Special Information: Financial center of the West. Principal port of the West. Outlet of the products of the Sacramento and San Joaquin Valleys, and the western and central Rocky Mountain states. Jobbing center for northern and central California. Western terminus for three transcontinental railroads. In San Francisco there are many branch offices of firms doing an international business. There are over 500 San Francisco concerns that maintain branches in other Pacific Coast cities.

Residential Features: There are homes of every description, from the modest cottage of the workman, to the city chateau of the millionaire. The fact that San Francisco is a city of hills and valleys lends to the general effect, in the residence district, an appearance of neatness, refinement, and beauty. Both the apartment house, and the bungalow type are well represented and have been brought to a point of high development.

Retail Shopping Section: Extends from Market and Kearney Sts. to Market and Tenth Sts. and the district bounded by Market, Kearney, Sutter, and Mason. There are many outlying buying districts, and several smaller neighborhood sections. These outlying districts are: Fillmore St., 15 blocks; Clement St., 12 blocks; Mission St., 16 blocks; Polk St., 10 blocks; Geary St., 9 blocks. Also Union, Haight, Divisadero, Cortland, 24th Sts. and Ocean Ave. These, with other streets and avenues make, approximately, 145 blocks of outlying retail shopping districts, in addition to the downtown section, with some 4,500 retail establishments. Due to the tremendous commuting and outside population shopping in San Francisco the district is extremely large for a town of its size. Because of its even temperature San Francisco affords an all-year market for many otherwise unseasonable goods. There is, of course, a "main shopping district," and an immense number of outlying, or neighboring districts. Market Street is the "big" street. It is 120 feet from building line to building line, and is said to be the only "Main Street" where four lines of street car tracks are laid, and all of them used simultaneously. Geary Street, Post Street, Powell Street, Stockton Street, Grant Avenue and O'Farrell Street are important retail streets, all running into Market Street. Grant Avenue, just off Market, is a very high-class shopping street. Further up is the section in which the important Chinese stores are. It is the main artery of Chinatown, a part of the city that, apart from being picturesque and interesting, is important commercially.

Trading Area: San Francisco is the distributing point on the Pacific Coast. In a wholesale way, San Francisco reaches into all the Pacific Coast states, and into Arizona, New Mexico, Utah, and parts of Idaho and Montana. There are many branch offices of firms doing an international business, and over 500 San Francisco concerns that maintain branches in other Pacific Coast cities. San Francisco's retail trade zone may be roughly estimated within a fifty-mile radius, and the bulk of the populations within this territory consider San Francisco their retail shopping center. Intermittent business is secured from people living within this radius by fine trolley, bus and ferry services. Twenty-one interurban lines and railroads, together with California's remarkable auto highways, link this high purchasing area to the business district of San Francisco.

Wholesale Houses: Grocers, 15; meats, 19; fruits, 30; hardware, 30; dry goods, 19.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 147; commercial auto agencies, 48; automobile accessories, 129; automobile tire agencies, 141; bakers, 250; cigar stores and stands (including hotels), 430 (chain, 79); confectioners (including hotel stands), 245; delicatessen, 165; dressmakers, 65; druggists, 345 (chain, 63); dry goods, 172; department stores, 7; electrical supplies, 96; florists, 142; fruits, 188; furniture, 107; furriers, 97; garages (public), 256; grocers, 2,460 (chain, 207); hardware, 162; jewelry, 120; meat markets, 450 (chain, 11); men's furnishings, 72; men's clothing, 216; milliners, 150; opticians, 48; photographers, 70; pianos (and miscellaneous musical instruments), 40; radio supplies, 135; restaurants (including hotels), 2,740 (chain, 82); shoes, 113; sporting goods, 45; stationers, 90; women's apparel, 475.

Miscellaneous Data: Average temperature, 56 degrees; average number of rainy days per twelve months, 70; most pleasant months, April, May, September, and October. Doctors (medical, 952); (dentists, 812); (osteopaths, 38); street car service; gas, artificial; number of meters, 162,861; electric current, alternating and direct; number of wired houses, 105,672; water, hard.

See announcement page 25

SAN JOSE, CALIF.

(Santa Clara County)

1920 Population, City, 39,642.
City and Suburban Estimate, 55,000 (Santa Clara County 100,676).

Native Whites, 75%; Foreign Born, 25%; English Reading, 86%; Families, City 120,000, County, 26,000.

Schools: Public Grade, 6; High, Day, 1,200; Evenings, 1,000; Junior High, 400; Number of Pupils, 2,600.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 11; Presbyterian, 3; Roman Catholic, 9; Miscellaneous, 19.

Banks: National, 1; State, 5; Total Resources (all banks), \$46,295,667 (2 branches of San Francisco Banks); Total Deposits (all banks), \$37,655,498; Total Bank Clearings (12 months, 1925), \$143,791,437.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1. Total number of seats, 6,000.

Location: Fifty miles south of San Francisco, on main line of Southern Pacific Ry., Western Pacific branch line to Oakland. Also old Central Pacific line to Oakland. Ten miles to tidewater at head of San Francisco Bay. An interior valley running sixty miles back from the bay—width twenty miles.

Principal Industries: Fruit, farm products, canneries, live stock. Produces 150,000,000 pounds of prunes annually. Produces 450,000 tons of fruits, nuts, and vegetables. Acreage: cereals, 61,670; vegetables, 15,930; fruits, nuts, and berries, 121,203 acres. Produces one half of the dried prunes of the world.

Manufacturing Establishments: 73. (Employing 3,717 people—17,000 employed in Santa Clara County). California Fruit Canners Association, California Co-Operative Canners, Central California Canners, Richmond, Chase Co., Pratt-Lowe Co., J. H. Flickinger Co., Shaw Family, Inc., Libby, McNeil & Libby, Virden Packing Co., Greco Canning Co., Biseeglia Canning Co., and others. Canning one third the entire canned fruit output of California. Also California Prune and Apricot Growers' Association. Total value of yearly output of factories estimated at \$50,000,000.

Special Information: San Jose is the chief and central city of the Santa Clara Valley, a wonderfully rich and productive locality. The surrounding towns and country are inhabited by the same high class of people similar to those living in town.

Residential Features: The country is peculiarly adapted to the bungalow type of houses. Most of them are one, and a few two-family houses. All private homes; only a few apartment houses.

Retail Shopping Section: Two blocks on St. John St.; 20 on Santa Clara; 5 on San Fernando; 3 on Post; 2 on Santa Antone; 2 on San Carlos. Crosstown; 4 blocks on Market; 7 on First; 3 on Second; and 2 on Third. Shopping center is Santa Clara and First Sts. A very compact section.

Trading Area: Includes the entire Santa Clara Valley and the towns and country within a thirty-mile radius of San Jose. This valley is cut off from other communities on three sides by mountain ranges, and on the north by San Francisco Bay. The entire valley, city, towns, and country is served by automobile and bicycle carrier every day in all seasons, and the people trade in San Jose stores almost exclusively.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 1; canneries, 34.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 60; automobile accessories, 3; automobile tire agencies, 25; bakers, 28; cigar stores and stands (including hotels), 98 (chain, 2); confectioners (including hotel stands), 23; delicatessen, 12; druggists, 25 (chain, 1); dry goods, 2; department stores, 6; electrical supplies, 18; florists, 9; fruits, 7; furniture, 21; furriers, 1; garages (public), 40; grocers, 144 (chain 3); hardware, 9; jewelry, 14; meat markets, 49; men's furnishings, 12; men's clothing, 10; merchant tailors, 13; milliners, 16; opticians, 12; photographers, 11; pianos (and miscellaneous musical instruments), 11; radio supplies, 6; restaurants (including hotels), 74 (chain, 1); shoes, 18; sporting goods, 3; stationers, 8; women's apparel, 4.

Miscellaneous Data: Street car service; gas, artificial; number of meters, 15,180; electric current, alternating; number of wired houses, 14,811; water, hard.

SAN LUIS OBISPO, CALIF.

(San Luis Obispo County)

1920 Population, 5,895 (1925, est. 8,000).

City and Suburban Estimate, 12,000.

Native Whites, 85%; Foreign Born, 15%; Industrial Workers, 20%; English Reading, 90%; Families, 2,500.

Schools: Public Grade, 5; High, 1; Parochial, 2; Number of Pupils, 2,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic Mission, 1; Miscellaneous, 2.

Banks: State, 3; Total Resources, \$8,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,000.

Location: Fifteen miles from Pacific Ocean, midway between Los Angeles and San Francisco, So. Pac. R.R.s., and Pacific Coast Railroad. Steamships (Via Fort San Luis) to all coast points and bus and stage to all California. Main highway from Mexico to Canada. To nearest large city, by railroad, 9 hours; by auto, 9 hours.

Principal Industries: Building brick, foundry products, insulating bricks, canned goods, meat products, dolls, toys, creamery products, quick-silver, soda, cedar blocks, dairying, diatomaceous earth, railroad shops, printing, iron ore, fisheries, electric signs.

Manufacturing Establishments: 39. Leading firms: Golden State Milk Products Co., Los Angeles Creamery, Swift & Co., Southern Pacific division point; Pacific Coast R.R. headquarters, San Luis Brick Co., Union Oil Co., pipe line and storage; Incello Brick Co. Total value of yearly output of factories estimated at \$35,000,000.

Special Information: Being midway between Los Angeles and San Francisco, 250 miles from each, makes this city a center of population for the larger part of this area. Rail, water and

highway transportation. Big wholesale center. Shipping point for Orient through Port San Luis, which is one of the largest oil shipping ports in the country.

Residential Features: Practically one-family houses. No tenements. City is situated in a valley surrounded by hills on which homes are scattered. Private homes predominate. Average value, \$5,000.

Retail Shopping Section: Extends from city limits to Higuera St. to Morro St. and city limits on Monterey St. to Chorro St., Morro and Chorro and Garden and Osos are all in shopping center. Small outlying shopping region around the So. Pac. station and yards, with usual run of small shops and groceries in the residential section.

Trading Area: The trading area of San Luis Obispo can be divided into three distinct sections: (1st) city and suburbs, (2d) intermediate county, (3) extends 80 miles. Buyers in this territory depend on the city for 75% of their goods. Excellent bus and stage lines and 85% owning automobiles makes this city the center of the county trade.

Wholesale Houses: Groceries, 2; meats, 4; fruits, 1; hardware, 3; miscellaneous lines, confectioners, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13 commercial auto agencies, 1; automobile accessories, 10; automobile tire agencies, 17; bakers, 4; cigar stores and stands (including hotels), 17 (chain, 2); confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 14; druggists, 7 (chain, 1); dry goods, 4; department stores, 4; electrical supplies, 2; florists, 2; fruits, 5; furniture, 3; garages (public), 14; grocers, 28; hardware, 4; jewelry, 4; meat markets, 6; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 3; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 19; shoes, 6; sporting goods, 7; stationers, 4; women's apparel, 11.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per 12 months, 40; most pleasant months, all but December and January (rainy); doctors (medical, 13); (dentists, 8); (osteopaths, 2); number of wired houses, 1,800; gas, natural; electric current, alternating and direct; water, soft.

SAN MATEO, CALIF.

(San Mateo County)

1920 Population, 5,979 (1925 city census, 10,486).

City and Suburban Estimate, (1926) 3,500.

Native Whites, 75%; Negroes, 2%; Foreign Born, 23%; Industrial Workers, 2%; English Reading, 90%; Families, 2,460.

Schools: Public Grade, 6; High, Day, 1,200, Evenings, 1,000; Junior High, College, 400; Number of Pupils, 2,600.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 1; State, 1; Bank of Italy, 1; Total Resources (all banks), \$4,879,622; Savings Bank Deposits Total, \$4,190,795.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,100.

Location: On Southern Pacific R. R., with sixty trains daily. Thirty minutes from San Francisco. Electric cars run into city at intervals of 10 minutes. To nearest larger city by railroad, ½ hour; by trolley, 1 hour; by auto, 40 minutes.

Principal Industries: Bottling works, feed and fuel, shoes, nursery stock, salt works, planing mills (2), creameries (3), auto tops, Italian paste.

Manufacturing Establishments: Leading firms: Highland Bottling Works, Leslie Salt Works, San Mateo Feed & Fuel Co., Planing Mills (2), Creameries (3), San Mateo Nursery, Western Auto Top Co., Baviola Factory. About 230 people employed.

Residential Features: San Mateo is a city of beautiful homes of business men who work in San Francisco, it being but 30 minutes' ride by train to the city of San Francisco. It has doubled its population in the last five years, and is making rapid strides in building up its business section, as well as many new homes. The climate is its principal asset.

Retail Shopping Section: On Baldwin, 2 blocks; Railroad, 2 blocks; First, 3 blocks; San Mateo Drive, 2 blocks; Third, 4 blocks; Fourth, 2 blocks; A, 2 blocks; B, 5 blocks; Main, 1 block.

Trading Area: People come to shop from as far as fifteen miles north, south, and west.

Wholesale Houses: Miscellaneous Lines: San Mateo Tobacco Co.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial automobile agencies, 6; automobile accessories, 2; automobile tire agencies, 4; bakers, 3; total cigar stores and stands (including hotels), 16 (chain, 1); confectioners (including hotel stands), 5; delicatessen, 3; dressmakers, 10; total druggists, 4 (chain, 1); dry goods, 3; department stores, 2; electrical supplies, 2; florists, 2; fruits, 5; furniture, 3; garages (public), 4; grocers, 10 (chain, 4); hardware, 2; jewelry, 2; meat markets, 5; men's furnishings, 5; men's clothing, 2; merchant tailors, 3; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants

(including hotels), 12 (chain, 1); shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 4.

SAN PEDRO, CALIF.

(Los Angeles County)

1920 Population, 15,000 (1926 est. 43,484).

City and Suburban Estimate, 65,000. Most important cities and towns in this area are: Torrance (pop. 5,000); Lomita (5,000); Wilmington (12,000); Harbor City (3,000).

Native Whites, 60%; Negroes, 2%; Foreign Born, 38%; Industrial Workers, 35%; English Reading, 80%; Families, 4,270 estimate; 1926 est. 11,000.

Schools: Public Grade, 10; High, 1; Special, 1; Parochial, 1; Number of Pupils, 11,642.

Churches: Baptist, 4; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 14.

Banks: National, 1; State, 2; Branch Banks, 7. Total Resources (all banks), \$1,216,187-134.61; Savings Bank Deposits Total (all banks), \$13,250. Total Deposits (all banks), \$12,000,000. (approx.); Total Bank Clearings (all banks), (Jan. 1, to July 1, 1926), \$22,228,405.74.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,620.

Location: San Pedro is located 450 miles south of San Francisco on San Pedro Bay, and is the principal port of call in southern California for 51 foreign, intercoastal, and coastwise steamship lines. It is the shipping, lumber, shipbuilding, oil refining and fish canning center of southern California. To nearest large city, by trolley, 25 minutes; by auto, 20 minutes.

Principal Industries: The 24 miles of wharves furnish berths for steamship lines which employ from 3,000 to 6,000 freight handlers and longshoremen. San Pedro has 7 wholesale lumber yards, 14 fish canneries, 6 oil refineries, employing hundreds of men, and supply cargoes for a large fleet of foreign and domestic tankers. Also shipbuilding, canning, oil wells, tools, finished lumber, tile and brick, tent and awnings, dredging machinery.

Manufacturing Establishments: 23. Leading firms: Standard Oil Co., Shell Oil Co., General Petroleum Co., Associated Oil Co., Pan American Refining Co., Union Oil Refining Co., Van Camp Sea Food Co., Regon Forge & Tool Co.

Special Information: The drill grounds of the battle fleet of the United States Navy are located off San Pedro, and 11 dreadnoughts with 15,000 men and officers can be sheltered behind the Government breakwater. Fort McArthur is also located at San Pedro, which is the home of many officers and men of the army and navy. A \$750,000. Army and Navy Y. M. C. A. has just been completed, also a \$500,000. golf links and country club.

Residential Features: Beautiful one and two-family homes. Many handsome suburban villas on Palos Verdes Hills nearby.

Retail Shopping Section: The principal shopping center of San Pedro lies along Sixth Street for 4 blocks; Seventh Street, 3 blocks; Beacon Street, 3 blocks; Front Street, 2 blocks. There are also many scattered neighborhood stores along Pacific Avenue for a distance of 25 blocks and also on other streets.

Trading Area: The following towns and vicinity are tributary to San Pedro, and included in the retail trading area: Wilmington, Torrance, Lomita, Harbor City, Redondo Beach, Terminal Island and East San Pedro. Wilmington is an industrial and shipping center of growing importance, while Torrance, in addition to being a manufacturing city, is in the center of an oil producing district of importance. Lomita is also an important oil producing center and also the center of a large truck farming and fruit growing section. Harbor City is a suburban town whose residents are mostly employed in San Pedro. East San Pedro and Terminal Island are supported by fishing, lumber and shipbuilding. Hundreds of acres of land to the west of San Pedro are in the frostless belt, and leased for growing early vegetables that are the first to reach the markets in southern California.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 2; hardware, 2; miscellaneous lines, poultry, 2; confectionery, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial automobile agencies, 4; automobile accessories, 5; bakers, 10; cigar stores and stands (including hotels), 19; confectioners (including hotel stands), 30; delicatessen, 8; dressmakers, 20; druggists, 10 (chain, 2); dry goods, 10; department stores, 7; electrical supplies, 9; florists, 21; fruits, 21; furniture, 14; garages (public), 11; grocers, 92 (chain, 1); hardware, 9; jewelry, 12; meat markets, 35 (chain, 1); men's furnishings, 22; men's clothing, 9; merchant tailors, 12; milliners, 8; opticians, 6; photographers, 7; pianos (and miscellaneous musical instruments), 10; radio supplies, 6; restaurants (including hotels), 35; shoes, 21; sporting goods, 5; stationers, 23; women's apparel, 5.

Miscellaneous Data: Average temperature, 66 degrees; average number of rainy days per twelve months, 22; most pleasant months, April, May, June, September, October, November. Doctors (medical, 36); (dentist, 17); (osteopaths, 7); street car service; number of automobile registrations, 12,000; gas, natural; number of meters, 9,663; electric current, alternating; water, soft.

Charting the *newspaper preference* of the San Francisco buying public!

An influence of real importance to all business men is apparent in the above chart. It is the very definite trend of public opinion. It is the preference of men and women buyers—of exuberant youth and mature judgment—as expressed in the newspaper they read.

In his own business the wise manufacturer or merchant thoroughly understands the fact that occasional fluctuations which affect his sales are merely the outcome of temporary conditions. As such, their importance in the world of food, shoes, clothing or newspapers is slight.

Of vital importance, however, is the nine-year record of San Francisco newspaper growth. During that period the great Sunday Examiner has increased the number of its reader-buyers *three and one-half times more than has its only Sunday competitor.*

The Sunday Examiner excess over the Sunday Chronicle, for the newspaper year ending Sept. 30, 1926, was 196,000 reader-buyers.

During the nine-year period the Daily Examiner reader-buyer increase was *more than twice the daily increase of all other San Francisco newspapers combined.*

Daily Examiner excess over Daily Chronicle, for the newspaper year ending Sept. 30, 1926, was 83,000; over the Call, 68,000; over the Bulletin, 105,000; over the Daily News, 102,000.

This remarkable record of steady growth in a newspaper selling for 5 cents on week days and 10 cents on Sundays is based entirely upon the confidence each individual reader feels in the news, features and advertising of The Examiner. *Neither special concessions nor combinations with other newspapers have been made.*

When to these records is added that of the last six months, in which The Examiner also led in reader increase by a wide margin, its tremendous and growing influence on buying activity is plainly evident.

As the sales charts of the Merchant or Manufacturer are the sound basis for present or future sales plans, so the above chart will prove equally sound as the basis for present and future advertising plans.

The Examiner offers to advertisers the largest circulation in the City of San Francisco; the largest circulation in the San Francisco Retail Trading Radius of 50 miles; and the largest circulation in Central and Northern California.

Doctors (medical, 27); (dentists, 20); (osteopaths, 5); street car service; number of automobile registrations, 4,500; gas, natural mixed with artificial; number of meters, 13,115; electric current, alternating; number of wired houses, 12,038; water, hard.

SANTA PAULA, CALIF.

(Ventura County)

1920 Population, 3,967 (1926 est. 7,500).

City and Suburban Estimate, 15,000. Most important cities and towns in this area are: Fillmore (pop. 2,500); Saticoy (750); Piru (750); Ojai (500); Barnsdale, Sespe, etc., (3,500).

Native Whites, 80%; Foreign Born, 20%; English Reading, 80%; Families, 2,500.

Schools: Public Grade, 5; High, 1; Junior High, 1; Number of Pupils, 1,150.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Christian, 1; Miscellaneous, 2.

Banks: National, 1; State, 1; Total Resources (all banks), \$3,000,000. Savings Bank Deposits, Total, \$1,000,000. Total Deposits (all banks), \$4,500,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1. Total number of seats, 2,100.

Location: On Southern Pacific R.R. To nearest largest city, by railroad, 1 hour; by auto, 1/4 of an hour; by trolley, 1 hour.

Principal Industries: Citrus fruit packing, vegetable, and walnut packing, oil refineries (2), shipping, etc.

Manufacturing Establishments: 2. Leading firms: Union and Oak Ridge Oil Co.

Special Information: Santa Paula is the center of one of the largest lemon belts in the country. It has two packing plants, employing from 500 to 2,000 people in the fruit season. Oil companies give employment to about 500. It has also two walnut, one apricot, and two vegetable packing plants. Ideal climate and very desirable city for homes.

Residential Features: A well planned city, parks, good schools, new \$240,000 grammar school being completed. All streets and alleys paved. Ornamental lighting system. Beautiful homes.

Retail Shopping Section: Main, Mill, and Tenth Streets comprise the business section, with 8 blocks on Main Street.

Trading Area: Ten to fifteen miles in all directions.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial automobile agencies, 3; automobile accessories, 4; automobile tire agencies, 4; bakers, 3; cigar stores and stands (including hotel stands), 5; delicatessen, 2; druggists, 5; department stores, 3; electrical supplies, 2; florists, 2; fruit, 12; furniture, 3; garage (public), 9; total grocers, 21 (chain, 2); hardware, 4; jewelry, 5; meat markets, 11 (chain, 2); men's furnishings, 3; men's clothing, 5; merchant tailors, 4; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 7; shoes, 6; sporting goods, 1; stationers, 2; women's apparel, 4.

Miscellaneous Data: Doctors (medical, 7); (dentists, 4); (osteopaths, 2); gas, natural; number of meters, 1,450; electric current, alternating; number of wired houses, 1,780; water, hard.

SANTA ROSA, CALIF.

(Sonoma County)

1920 Population, 8,758 (1926 est. 14,000. City limits of very small area).

City and Suburban Estimate, 20,000 (several thousand more within 3 miles of city). Most important cities and towns in this area are: Sebastopol (pop. 1,600); Healdsburg (2,500); Sonoma (900); Occidental (500).

Native Whites, 77%; Foreign Born (mostly Italians), 23%; Industrial Workers, 10%; English Reading, 90%; Families, 3,973.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 2; Business College, 1; Number of Pupils, 4,332.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Federated Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 1; State, 3; Savings Banks Deposits Total, \$7,250,000. (Two of these are branch banks with power to handle large loans); Total Deposits (all banks), \$10,787,862. Total Bank Clearings (12 months, 1925), \$26,577,953.72.

Theatres: Moving Pictures, 4; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 4,900.

Location: 50 miles north of San Francisco Bay in the heart of the Santa Rosa Valley and Sonoma County. Served by Northwestern Pacific, and Southern Pacific Railroads. Excellent bus service to the north, south, and east. To nearest large city (San Francisco), by railroad, 2 1/4 hours; by trolley, 2 1/4 hours, by auto, 2 1/4 hours.

Principal Industries: Fruit packing, canning and drying, egg packing and shipping, pickle works, abattoirs, tanneries, paste making, shirt factories, shoe factories, printing, auto-body building. A great many large concerns use this city as a jobbing center.

Manufacturing Establishments: 25. Leading firms: California Packing Corp., Fitzgerald Egg

CALIFORNIA (Cont'd)

Exchange, Cameron Shirt Factory, Levin Tanning Co., Greenbaum, Well & Michael, Santa Rosa-Vallejo Tanning Co., Santa Rosa Paste Co., Noonan Meat Co., California Picklers and Preservers Inc., Sophey Bros., Grace Bros.

Special Information: Buying center of a rich agricultural county, and one of the largest single berry sections in the country. Home of the Gavenstein apple. The value of the poultry industry to this county is \$15,000,000 annually. Santa Rosa is the center of that part of California where, for hundreds of miles, the country is intensively cultivated by hundreds of prosperous, modern American ranchers. Here there is little poverty. Paved roads and automobiles bring much trade to the city.

Residential Features: Ninety per cent of houses in the city are owned by their occupants. Many of the nation's wealthiest people own fine homes in the suburbs of Santa Rosa. Educational facilities attract better class of people to this city. Health regulations strictly enforced. Good streets and sidewalks, good lights, and a fine climate add to residential attractions.

Retail Shopping Section: Extends from court house, which is the center of the city. Five main shopping streets. Fourth Street east from court house, 2 blocks; west from court house, 5 blocks. Fifth Street parallel with Fourth Street, 6 blocks; Third Street, west from court house, 2 blocks. Mendocino Avenue north from court house, 2 blocks. Main Street, south from court house, 2 blocks. Four outlying neighborhood sections with usual stores.

Trading Area: 7 miles south, 20 west, 25 east and 50 north. Includes 22 small towns, all within a radius of 20 miles, with populations of 200 to 3,000. Practically every rancher in this county owns an automobile. The main roads are all paved. A great deal of trade comes from points outside the territory given, on account of the excellent automobile traveling conditions.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 4; dry goods, 1; miscellaneous lines, bakers, 3; confectionery, 2; shoes, 1; paper, 1; cigars, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial automobile agencies, 10; automobile accessories, 21; automobile tire agencies, 15; bakers, 14; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 18; delicatessens, 5; dressmakers, 10; druggists, 8; dry goods, 6; department stores, 4; electrical supplies, 9; florists, 5; fruits, 6; furniture, 8; furriers, 3; garages (public), 26; grocers, 38 (chain, 3); hardware, 6; jewelry, 4; meat markets, 21 (chain, 1); men's furnishings, 8; men's clothing, 8; merchant tailors, 9; milliners, 8; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 6; radio supplies, 8; restaurants (including hotels), 20; shoes, 8; sporting goods, 7; stationers, 6; women's apparel, 10.

Miscellaneous Data: Average temperature, 56.9 degrees; average number of rainy days per twelve months, 70; most pleasant months, April to October inclusive. Doctors (medical, 29); (dentists, 13); (osteopaths, 3); street car service; gas, artificial; number of meters, 4,171; electric current, alternating; number of wired houses (city and suburbs), 4,893; water, medium, with low mineral content.

STOCKTON, CALIF.

(San Joaquin County)

1920 Population, 40,203 (1926 Chamber of Commerce est. 54,415).

City and Suburban Estimate, 75,000.

Native Whites, 77%; Negroes, 8%; Japanese, Chinese, and Indians, 4%; Foreign Born, White, 17.3%; Industrial Workers, 20%; English Reading, practically 100%; Families, 14,425. No foreign colony.

Schools: Public Grade, 22; High, 1; Parochial, 2; number of Pupils, 8,430; College of the Pacific.

Churches: Baptist, 2; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 2; Methodist, 4; Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 17.

Banks: National, 1; State, 6; Total Resources not obtainable account of chain banks; (2 chain banks); Savings Bank Deposits Total, \$37,086,400.05—over \$731 per capita.

Theatres: Moving Pictures, 7; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4; New Civic Auditorium, capacity 5,000.

Location: In the heart of the San Joaquin Valley, which is the center of the great Sacramento and San Joaquin Valleys. Is on the navigable San Joaquin River, 42½ miles from San Francisco Bay. Stockton is surrounded by some of the richest agricultural land in the country. Served by Southern Pacific, Western Pacific, and Santa Fe R.R.s, Central California Traction, Tidewater & Southern, Stockton Terminal & Eastern railways. To nearest large city, by railroad, 1½ hour; by trolley, 1½ hour.

Principal Industries: Tractors, harvesters, flour and cereals, box board, cartons, box shooks, canned fruit and vegetables, farm irrigation, paving, reclamation machinery, wool scouring, brick, leather, pencil slabs, auto trucks.

Manufacturing Establishments: 260. Leading firms: California Cedar Products Co., California Navigation & Improvement Co., Eldorado Brewery, Geiger Iron Works, Harris Manufacturing Co., Monarch Foundry, Richmond Chase, Sterling Pump Co., Stockton Box Co., Stockton Fire Brick Co., Stockton Iron Works, E. H. Tryon Wool Scouring Plant, California Packing Corporation, Wagner Leather Co., Graham

Brothers, National Paper Products Co., Western Harvester Company. Total value of yearly output of factories estimated at \$35,000,000.

Special Information: The geographical location naturally makes Stockton the center of an important agricultural district. Main outlet for mining and lumber sections. Has diversified manufacturing interests, and large population of home-owning citizens. Seven rural P. O. routes. Many parks, and an up-to-date "City-Manager" form of government paying a manager a salary of \$20,000 a year.

Residential Features: Ownership rests with unusually large percentage of occupants, greater number live in detached dwellings. Land well drained, with 170 acres of parks. Exclusive district homes cost as high as \$45,000. Each factory has its section of workmen's homes, with yards and gardens where the situation makes it possible.

Retail Shopping Section: Business, or shopping sections radiate from Main and Sutter Streets, chiefly along Main, Weber, and Market, both to the east and west, with frontage aggregating over 180 blocks (303 ft. each), which are occupied by stores, offices, hotels, garages, restaurants, and other business enterprises. Tallest building, ten stories.

Trading Area: Extends for 25 miles north, south, and west. Additional trade brought in by 2 rural electric lines and an excellent stage service to the foothill country; also by the large number of good highways into the mountain districts and through the valley. Eleven railroads enter the city, and eleven highways cross it. Trade area 100 miles to east, which is the mountain section.

Wholesale Houses: Groceries, 4; bakers, 7; meats, 4; fruits, 18; hardware, 2; miscellaneous lines, 38.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 31; commercial automobile agencies, 8; automobile accessories, 11; automobile tire agencies, 16; bakers, 15; cigar stores and stands (including hotels), 28 (chain, 1); confectioners (including hotel stands), 50; delicatessens, 5; dressmakers, 27; druggists, 35 (chain, 1); dry goods, 12; department stores, 8; electrical supplies, 12; florists, 7; fruits, 18; furniture, 23; furriers, 1; garages (public), 51; grocers, 120 (chain, 15); hardware, 10; jewelry, 23; meat markets, 32; men's furnishings, 8; men's clothing, 25; merchant tailors, 16; milliners, 20; opticians, 7; photographers, 8; pianos (and miscellaneous musical instruments), 10; radio supplies, 10; restaurants (including hotels), 85 (chain, 4); shoes, 25; sporting goods, 6; stationers, 8; women's apparel, 16.

Miscellaneous Data: Average temperature, 59 degrees; average number of rainy days per twelve months, 45; most pleasant months, April, May, September, October. Doctors (medical, 62); (dentists, 44); (osteopaths, 5); number of wired houses, 22,827; street car service; gas, natural and artificial; number of meters, 12,982; electric current, alternating and direct; number of electric meters, 22,827; telephones, 13,481; water, hard.

TAFT, CALIF.

(Kern County)

1920 Population, 3,317.

City and Suburban Estimate, 35,000.

Native Whites, 95%; Foreign Born, 5%; English Reading, 100%.

Schools: Public Grade, 4; High, 1; Number of Pupils, 1,739.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 2; State, 1.

Theatres: Legitimate, 1; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 2.

Location: Heart of vast oilfield. Railroad, stage, and truck transportation to all important trading centers. Population of about 35,000, includes surrounding territory.

Principal Industries: Petroleum, gas.

Residential Features: Mostly small houses. The greater part of our population resides outside of the incorporated city, while a large number of the workmen live in rented houses.

Retail Shopping Section: Taft has up-to-date stores, and a wonderful shopping district.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto agencies, 5; automobile accessories, 18; automobile tire agencies, 12; bakers, 8; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 12; delicatessen, 4; dressmakers, 7; druggists, 6; dry goods, 2; department stores, 7; electrical supplies, 4; florists, 1; fruits, 8; furniture, 4; garages (public), 14; grocers, 16; hardware, 4; jewelry, 4; meat markets, 8; men's furnishings, 5; men's clothing, 4; merchant tailors, 4; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 4; radio supplies, 3; restaurants (including hotels), 6; shoes, 2; sporting goods, 2; stationers, 3; women's apparel, 3.

TULARE, CALIF.

(Tulare County)

1920 Population, 3,539 (1925, local census, 5,500).

City and Suburban Estimate, 18,000. Most important cities and towns in this area are: Visalia (pop. 7,000); Porterville (5,500); Dinubia (4,000).

Native Whites, 4,460; Negroes, 40; Foreign Born, 1,000; English Reading, 90%; Families, 1,300.

Schools: Public Grade, 20; High (Union), 1; Number of Pupils, 1,680.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Deposits (all banks), \$2,486,297.99; Total Resources (all banks), \$3,950,000. Total Savings Banks Deposits, \$1,164,615.84. There are two financial companies each capitalized at \$200,000.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 1,500 (in Auditoriums). New Theatres under construction, to cost \$250,000, with seating capacity of 1,400.

Location: On Southern Pacific and Santa Fe R.R.s. Tulare has three stage lines from San Francisco to Los Angeles, as well as to all neighboring towns, also to General Grant Park, and Sequoia National Park, in the Sierra Mountains. To nearest larger city (Fresno) by railroad, 2 hours; by auto, 1½ hours.

Principal Industries: Dairying, fruit (deciduous and citrus), cotton, alfalfa, hay, poultry, pure bred dairy cattle and swine, which latter industry is one of Tulare's very important sources of revenue. Tulare has creameries, 2 canneries, 3 packing houses, with \$4,200,200 from creameries alone.

Manufacturing Establishments: Leading firms: Swall Land Co., Pacific States Corp., Toteco Dairy Ranch (Powdered Milk Corp.).

Special Information: Average monthly pay roll from creameries, \$350,000; from poultry products, \$60,000. This is paid in cash and comes into Tulare and its surrounding agricultural district, every month. The cotton industry is new, but the acreage is increasing. There were 4,000 acres planted within a 6-mile radius of the city this year. This extremely long fiber cotton sells at premium prices.

Residential Features: Tulare has 1,750 to 1,800 houses. 200 of these are on the outskirts of the city. There are 3 or 4 apartment houses of good class, the rest are of a cheaper grade. Much of the residential district is paved.

Retail Shopping Section: Extends on Tulare Street, 3 blocks; Kern Street, 2 blocks; J. Street, 3 blocks; K. Street, 3 blocks; San Joaquin Street, 2 blocks; and Inyo Street, 2 blocks.

Trading Area: Covers 10 miles north, 18 miles south, 10 miles west, and 6 miles east. Considerable trade from the extreme southwestern part of the country.

Wholesale Houses: Fruits, 5; Miscellaneous lines, 6 (creamery and poultry shippers).

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial automobile agencies, 2; automobile accessories, 5; automobile tire agencies, 4; bakers, 3; cigar stores and stands (including hotels), 3 (chain, 1); confectioners (including hotel stands), 3; delicatessens, 1; dressmakers, 2; druggists, 3; dry goods, 5; department stores, 2; electrical supplies, 4; florists, 2; fruits, 1; furniture, 5; garages (public), 19; grocers, 23 (chain, 3); hardware, 2; jewelry, 3; meat markets, 5; men's furnishings and men clothing, 4; merchant tailors, 2; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 12; shoes, 2; sporting goods, 5; stationers, 2; women's apparel, 5.

Miscellaneous Data: Most pleasant months, Feb. to June, Sept. to Jan. Doctors (medical, 7); (dentists, 5); (chiropractors, 2); gas, artificial; number of meters 895; electric current, alternating; number of wired houses, city, 1,141; county, 1,537; water, soft.

TURLOCK, CALIF.

(Stanislaus County)

1920 Population, 3,394 (est. 5,000).

City and Suburban Estimate, 12,000.

Native Whites, 84.5%; Negroes, 0.5%; Foreign Born, 15%; Industrial Workers, 21%; English Reading, 95%; Families, 1,250.

Schools: Public Grade, 2; High, 1; Parochial, 1; Number of Pupils, 1,700.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 11.

Banks: National, 1; State, 2; Total Resources, \$4,500,000. Savings Bank Deposits Total, \$2,000,000.

Theatres: Legitimate, 1; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 4,000.

Location: The Santa Fe, Southern Pacific, and Tidewater Southern Railways serve the city and district, the Santa Fe being three and one-half miles away. These three lines insure easy transportation for the agricultural products of the district. To nearest large city (Modesto), by railroad, or auto, 45 minutes.

Principal Industries: Glove manufacturing, butter, ice cream, children's furniture, soda water, incubators, wrenches, fruit, artificial flowers.

Manufacturing Establishments: 10. Leading firms: Home Cannery Master Wrench Co., Turlock Glove Co., W. Charters Incubator Co., Paramount Creamery.

Special Information: Turlock is in the center of the Turlock irrigation district, comprising 181,490 acres, or 267 square miles. The people of the district own the water, and the power stored and generated at the great Don Pedro Dam.

Residential Features: The greater part of the residential population is housed in single-family residences.

Retail Shopping Section: Extends from Main Street, 5 blocks; Broadway, 4 blocks; First Street, 3 blocks; Center Street, 2 blocks; Front Street, 2 blocks.

Trading Area: Covers a radius of 12 miles. **Wholesale Houses:** Meats, 2; fruits, 2; miscellaneous lines, confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 6; automobile accessories, 4; automobile tire agencies, 14; bakers, 3; cigar stores and stands (including hotels), 8 (chain, 1); confectioners (including hotel stands), 3; dressmakers, 5; druggists, 3; dry goods, 2; department stores, 2; electrical supplies, 3; florists, 1; fruits, 2; furniture, 3; garages (public), 7; grocers, 14 (chain, 2); hardware, 6; jewelry, 4; meat markets, 5; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 13; shoes, 3; sporting goods, 4; stationers, 2; women's apparel, 1.

Miscellaneous Data: Average temperature, 55 degrees; most pleasant months, April, May, June, September, October; doctors (medical, 12); (dentists, 8); (osteopaths, 1); gas, artificial; electric current, alternating and direct; water, soft.

VALLEJO, CALIF.

(Solano County)

1920 Population, 21,107.

City and Suburban Estimate, 30,000 (Solano County, 40,602).

Native Whites, 80%; Negroes, 5%; Foreign Born, 15%; Industrial Workers, 15%; English Reading, 99%; Families, 4,000.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 3.

Theatres: Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 5.

Location: San Pablo Bay, at the confluence of the Sacramento and Napa Rivers. On Southern Pacific R.R. Monticello steamship line to San Francisco. Napa Valley Electric Lines. To nearest large city (Oakland), by railroad, 2 hours; by automobile, 1½ hours.

Principal Industries: Mare Island Navy Yard. Sperry Flour Mills.

Residential Features: Good streets, good schools, parks and playgrounds. Vallejo has 3,000 single houses and 200 apartments.

Retail Shopping Section: Marin, Sacramento, Sonoma, and Santa Clara Streets, north and south; Georgia, Virginia, and Capitol Streets, east and west.

Trading Area: Fifteen miles to north, and east.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto. agencies, 4; automobile accessories, 2; automobile tire agencies, 5; bakers, 8; total cigar stores and stands (including hotel stands), 2; delicatessens, 7; druggists, 6; dry goods, 3; department stores, 1; electrical supplies, 3; florists, 2; fruits, 11; furniture, 3; garages (public), 7; grocers, 48; hardware, 3; jewelry, 2; total meat markets, 8; men's furnishings, 6; men's clothing, 6; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 4; restaurants (including hotels), 9; shoes, 3; sporting goods, 2; stationers, 1; women's apparel, 3.

Miscellaneous Data: Average temperature, 76 degrees; average number of rainy days per 12 months, 30; most pleasant months, Aug., Sept., Oct. Doctors (medical, 9), (dentists, 6); number of wired houses, 95%; gas, artificial; electric current, alternating; water, soft.

VENICE, CALIF.

(Los Angeles County)

1920 Population, 10,385. (1926 est. 22,000.)

City and Suburban Estimate, 25,000.

Native Whites, 81.4%; Negroes, 1.8%; Foreign Born, 16.8%; English Reading, 92%; Families, 3,268.

Schools: Public Grade, 6; High, 1; Junior High, 1; Number of Pupils, 3,843.

Churches: 11.

Location: Twelve miles west of Los Angeles on four routes of Pacific Electric Railway.

Principal Industries: Venice is an all-the-year round pleasure resort.

Special Information: The Venice municipally-owned beach is one of the finest beaches on the Pacific Coast, and is known as "the safest beach," and the nearest one to Los Angeles. Surf bathing every day in the year. Boulevards: Washington Boulevard, the 100-foot boulevard from Los Angeles (approximately 14 miles), called the "Great White Way," on account of its electric lighting and its width. It promises to become the most widely traveled boulevard in the United States.

Residential Features: Venice boasts some beautiful residences. Cosy bungalows, flower-lined banks of canals, with unique concrete bridges, are some of the delightful attractions. The canals of Venice were excavated in 1905. There

Continued on page 28

CALIFORNIA (Cont'd)

Venice (cont'd)

are three miles of these beautiful waterways traversing the residential section of the city. The commercial development of Venice has demanded the abandoning of these canals to give way to improvements in the business section. The preliminaries to this radical transformation are now under way.

Trade Territory: Only immediate territory.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto agencies, 3; automobile accessories, 20; automobile tire agencies, 22; bakers, 4; cigar stores and stands (including hotel stands), 9; confectioners (including hotel stands), 15; dressmakers, 10; druggists, 6; dry goods, 8; department stores, 2; electrical supplies, 5; florists, 2; fruits, 2; furniture, 4; garages (public), 25; grocers, 26; hardware, 6; jewelry, 5; meat markets, 11; men's furnishings, 8; merchant tailors, 4; milliners, 6; opticians, 2; photographers, 7; pianos (and miscellaneous musical instruments), 3; radio supplies, 2; restaurants (including hotels), 27; shoes, 7; sporting goods, 4; stationers, 2.

VISALIA, CALIF.

(Tulare County)

1920 Population, 5,753.

City and Suburban Estimate, 10,000.

Schools: High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 1; State, 3.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1 (Sundays only); Miscellaneous (Auditoriums, etc.), 5. Total number of seats, 2,500.

Location: On Southern Pacific and Santa Fe R.R.s., and Visalia Electric Ry. Visalia is large shipping center for dried and canned fruits, stock, hay, nuts and grain. To nearest larger city by railroad, 1½ hours; by auto, 1¼ hours.

Principal Industries: Stock and poultry feed mills, automobile and truck body works, large prune packing houses, 2 canneries, 3 dried and green fruit packing houses, ice factory, 2 planing mills, creamery, marble works, pump works, poultry feed mill.

Manufacturing Establishments: 15. Leading firms: California Packing Corporation, J. K. Armsby, Griffith-Skelly Co., Earl Fruit Co., California Prune and Apricot Growers' Association, California Co-operative Canneries' Plant No. 4.

Special Information: County seat of 7th county in the United States for value of its agricultural and horticultural products. It is the gateway to Sequoia National Park. It is situated in the Kaweah Delta, overlying an inexhaustible supply of pure water. It has unsurpassed climate with an annual average rainfall of 10½ inches.

Residential Features: There are about 1,750 residences and 12 apartments in Visalia. Residence sections modern, with many paved streets, and completely paved sidewalks. Visalia is noted for its trees, flowers and lawns.

Retail Shopping Section: On Main Street, 4 blocks; Center Street, 1 block; Locust Street, 1 block; Court Street, 2 blocks; Church Street, 2 blocks, and Bridge Street, 1 block.

Trading Area: North, 15 miles; east, 15 miles; south, 8 miles, and west, 9 miles. Visalia being the largest city in the county and the county seat, draws from all over the county. Department store circularization runs from 5,000 to 10,000 and goes to selected lists in other Tulare County cities. The mileages given are for those who consider Visalia their home city.

Wholesale Houses: Groceries, 2; meats, 1; Miscellaneous lines, automobile parts, 1.

WHITTIER, CALIF.

(Los Angeles County)

1920 Population, 7,997. (1924), 15,455; (1925), 17,000 (estimated).

City and Suburban Estimate, 15,500.

Native Whites, 95%; Foreign Born, 5%; English Reading, 90%; Families, 4,000.

Schools: Public Grade, 8; High, 1; Parochial, 1; Number of Pupils, 3,100; College, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 14.

Banks: National, 3; State, 2; Total Resources 1924 (all banks), \$10,084,626; Savings Bank Deposits Total, \$6,932,876.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,700.

Location: On Union Pacific and Southern Pacific R.R.s., and Pacific Electric Railroad. Whittier is located on El Camino Real, one of the finest and best known highways in the country, traversing California from north to south. Motor transit bus lines serve this city. To nearest large city, by trolley, 1 hour; by auto, ¾ hour.

Principal Industries: Oil producing, walnuts, lemons, oranges, avocados, clay products.

Manufacturing Establishments: 3. Leading firms: Pacific Clay Products Co., Packing Houses 13, Whittier Select Packing, Whittier Orange & Lemon Assn., Whittier Citrus Assn., Leffingwell Rancho, Murphy Ranch, Headquarters for producing department, Standard Oil Co. Other oil companies include the Union, General Petroleum, Shell, Midway Petroleum, etc. Total value of yearly output of factories estimated at \$6,500,000 (does not include oil producers).

Special Information: Whittier is surrounded by citrus and walnut ranches producing some of the finest fruit in California. Shipments will average 4,000 cars fruit, and 2,000 tons walnuts annually. It is claimed that one of the highest gravity oil fields in the world adjoins Whittier, and Santa Fe Springs, and while activity is somewhat abated, there is still a production of close to 100,000 barrels of oil daily. Other active oil fields adjoining Whittier are Murphy, Coyote, North Whittier (or Whitley Heights) and Central Oil Canyon.

Residential Features: One-family homes predominate. Whittier is a home-owning town. New northeast section has recently been developed and homes there will average from \$15,000 to \$25,000. This district consists of about 6 square blocks, and is solidly built up.

Retail Shopping Section: Extends 3 blocks on Greenleaf and 8 blocks on Philadelphia Sts., with the usual side-street shops. Several small districts are scattered throughout the town.

Trading Area: Extends about 4 miles north, and 10 miles east, south, and west.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial automobile agencies, 6; automobile accessories, 8; automobile tire agen-

cies, 12; bakers, 5; cigar stores and stands (including hotels), 9; confectioners (including hotel stands), 6; delicatessen, 2; dressmakers, 4; druggists, 8; dry goods, 4; department stores, 3; electrical supplies, 5; florists, 3; fruits, 7; furniture, 6; garages (public), 16; grocers, 30 (chain, 4); hardware, 3; jewelry, 4; meat markets, 15 (chain, 2); men's furnishings, 6; men's clothing, 5; merchant tailors, 4; milliners, 5; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 7; restaurants (including hotels), 15; shoes, 5; sporting goods, 3; stationers, 2; women's apparel, 9.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per 12 months, 90; most pleasant months, the summer months. Doctors (medical, 22); (dentists, 11); (osteopaths, 6); gas, natural; electric current, alternating; water, hard.

WILLOWS, CALIF.

(Glenn County)

1920 Population, 2,100 (1925, est. 2,250).

City and Suburban Estimate, 3,350.

Schools: Public Grade, 1; High, 1; Number of Pupils, 650.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; State, 2.

Theatres: Moving Pictures, 1.

Location: In the Sacramento Valley and on the Southern Pacific R.R., 80 miles NNW. of Sacramento, and 150 miles north of San Francisco. To nearest larger city (Chico) by railroad, 4 hours; by auto, 1 hour.

Principal Industries: Creamery feed mill, poultry, sheep, cattle, hogs, wheat, barley, rice, cotton, fruit.

Special Information: Willows is one of the most prosperous business towns in northern California, trading continuing throughout the year because of the large varied industries, along agricultural, live-stock, fruit, and other lines. One of the largest lemon fruit groves in the country is located 20 miles from Willows, operated by the Mills Orchard Co. employing hundreds of men to handle their enormous crops. Other citrus fruits grown in large quantities. Dairying is also becoming an important industry. Willows being the home of the famous Jersey herd owned by Enla L. Knight, which has been awarded prizes throughout the entire Pacific and western states. A considerable percentage of California's shipments of lambs for eastern market are made from Willows. This industry as well as cattle-raising is being carried on on a large scale. Willows occupies a prominent place in the rice industry of Northern California and is the center of an extensive irrigation district—3 large canal systems furnishing water to thousands of acres of land. Excellent deer hunting and trout fishing within a short distance of Willows. The district may be called a duck-hunter's paradise for about 4 months in the year—hunters coming to this point from hundreds of miles away to enjoy this popular sport. Willows being one of the main stop-overs for tourists traveling between San Francisco and Portland. A fine new modern hotel has been recently constructed, offering the best possible accommodations and attracting a large tourist, as well as commercial patronage. One other hotel, recently remodeled, also offers excellent accommodations. Extensive oil prospecting is being made at the present time. One large oil company is spending thousands of dollars in test work, while numerous smaller companies are engaged in the section.

Manufacturing Establishments: 1. Leading firms: Western Meat Co. Creamery.

Retail Shopping Section: On Tehama Street, 5 blocks; Sycamore, 3 blocks; Walnut, 4 blocks; Butte, 1 block.

Trading Area: Extends 20 miles in each direction.

Number of Retail Outlets for Nationally Advertised Products: Bakers, 1; cigar stores and stands (including hotels), 5; confectioners (including hotel stands), 4; delicatessen, 1; dressmakers, 4; druggists, 2; dry goods, 4; fruits, 2; furniture, 2; garages (public), 6; grocers, 5; hardware, 2; jewelry, 2; meat markets, 3; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 1; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 5; shoes, 4; sporting goods, 3; stationers, 1; women's apparel, 3.

Miscellaneous Data: Most pleasant months March, April, May, June, Oct. and Nov.; gas, artificial; electric current, alternating; water, hard.

WILMINGTON, CALIF.

(Los Angeles County)

1920 Population, 8,000 (1925 est. 9,000).

City and Suburban Estimate, 12,000.

Native Whites, 5,000; Foreign Born, 3,000; Industrial Workers, 3,000; English Reading, 6,500; Families, 2,500.

Schools: Public Grade, 7; High, 2; Junior High, 5; Parochial, 1; Number of Pupils, 1,900.

Churches: Baptist, 9; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Miscellaneous Data: Doctors (medical, 2); (dentists, 1); electric current, alternating and direct; number of automobile registrations, 250; water, hard and soft.

BOULDER, COLO.

(Boulder County)

1920 Population, 11,006.

City and Suburban Estimate, 16,000.

Native Whites, 98%; Negroes, 1%; Foreign Born, .005%; Industrial Workers, 5%; English Reading, 99%; Families, 3,000.

Schools: Public Grade, 7; High, 1; Junior High, 2; Parochial, 1; Number of Pupils, 2,900.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Lutheran, 3.

Banks: National, 4; State, 1; Total Resources, \$6,000,000.

Theatres: Legitimate, 2; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 15,000.

Location: Boulder is 29 miles northwest of Denver on the Colorado & Southern R.R. (Burlington System). Union Pacific R.R. has a branch from Brighton. The Denver & Interurban, a good electric line, from Union Station, Denver, with 26 trains daily, leaves on the even hour. Six trains daily on the C. & S., and 4 on the Union Pacific R.R. give good service. Also auto bus lines. To nearest large city (Denver) by railroad, 1 hour, 10 minutes; by trolley, 1 hour, 15 minutes; by auto, 1 hour, 20 minutes.

Principal Industries: Western States Cutlery Works. Agriculture, mining, tourist trade and educational institutions count as big assets. Sanitarium, food factory, broom works, planing mills, mattress factory, and the usual small machine and other shops.

Special Information: University of Colorado is located here. Our situation near Denver, and close to the foothills of the Rockies, makes Boulder not only a popular tourist resort, but "a good place to live." Sanatoriums, and a new hospital. Good water and irrigation are among the many advantages of the city.

Residential Features: A city of many beautiful homes, fine paved streets, and attractive lawns. The city of Boulder owns 6,064 acres of park lands, much of it being improved by the building of trails, shelter houses, springs, etc. The U. of C. and Sanitarium have beautiful grounds.

Retail Shopping Section: Extends from Boulder to Nederland, Ward, Eldora, and many mining hamlets, as well as to the agricultural sections north, east, and south of the city.

Trading Area: Extends 25 miles west, 18 north, and 10 east and south.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; miscellaneous lines, cutlery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 2; automobile accessories, 20; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 8; confectioners (including hotel stands), 10; delicatessen, 2; dressmakers, 10; druggists, 9; dry goods, 4; department stores, 2; electrical supplies, 4; florists, 4; fruits, 2; furniture, 3; furriers, 1; garages (public), 6; grocers 43 (chain, 3); hardware, 3; jewelry, 4; meat markets, 34; men's furnishings, 5; men's clothing, 4; merchant tailors, 3; milliners, 4; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 1; radio

supplies, 6; restaurants (including hotels), 20; shoes, 7; sporting goods, 1; stationers, 1; women's apparel, 2.

Miscellaneous Data: Average temperature, 67 degrees; average number of rainy days per twelve months, 37; most pleasant months, May, to November. Doctors (medical, 30); (dentists, 15); (osteopaths, 6); gas, artificial; electrical current, alternating; number of wired houses, 2,800; water, soft.

CANON CITY, COLO.

(Fremont County)

1920 Population, 4,551 (1925 actual count, 5,843).

City and Suburban Estimate, 10,364. Most important cities and towns in this area are: Florence (pop. 2,750); Portland (500); Concrete (500); Rockvale (1,000).

Native Whites, 89.1%; Negroes, 2.7%; Foreign Born, 8.2%; Industrial Workers, 35%; English Reading, all but 74 families; Families, 2,623.

Schools: Public Grade, 5; High, 1; Junior High, 2; Parochial, 1; Number of Pupils, 2,950. Boys Catholic College, 325; Girls Academy, 120.

Churches: Baptist, 1; Christian Science, 1; Congregational, none; Episcopal, 1; Hebrew, none; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 7.

Banks: National, 2; State, 1; Total Resources, \$3,269,835.40.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,700.

Location: On the Arkansas River, and on the main line of the Denver, Rio Grande & Western R.R., and on branch of the Santa Fe R.R. Forty miles west of Pueblo, 160 miles from Denver. At entrance to the famous Royal Gorge, center of bus service from all points in county, and adjacent territory. To nearest large city (Pueblo), by railroad, 2 hours; by auto, 2 hours.

Principal Industries: Coal mining, zinc smelters (zinc oxide), cattle raising, center of head lettuce growing, fruit canning (apples and cherries in large commercial quantities), truck gardening, two large firebrick plants, two big silica and gannister quarries, supplying Colorado Fuel & Iron Co. at Pueblo.

Manufacturing Establishments: 4. Leading firms: Empire Zinc Co., Diamond Fire Brick Co., Jewett Fire Brick Co., Royal Gorge Milling Co. Total value of yearly output of factories estimated at \$3,500,000.

Special Information: One of the leading tourist points of Colorado, excluding Denver. Health resort for tuberculars and asthmatics. Center of wonderful scenic attractions, including Royal Gorge, Skyline Drive, and Red Canon. Colorado State Penitentiary, employing 125 guards and attendants is located in Canon City, also a million dollar electric light plant supplying light and power to 15 communities.

Residential Features: Practically all completely modern homes of the bungalow, and New England type. No boom, but gradual growth; Forty-two new homes built last year. Canon City is noted for its beautiful lawns, trees and streets, all cultivated through irrigation and not dependent on rain. Average value of city homes, \$5,000.

Retail Shopping Section: Nine blocks on Main Street, with a block each way on the cross streets. Five neighborhood shopping districts situated in Canon City district.

Trading Area: Extends forty miles west and thirty miles east, includes all of Fremont County, of which Canon City is county seat. Separate municipalities, South Canon (1,281 pop.) and East Canon (485 pop.) get mail, and do all business in Canon City. Are practically a part of the city, but have separate governments. Lincoln Park, a fruit growing and truck gardening section, with 1,200 residents, also part of city, but is considered suburban, being a mile distant. Daily bus service from all the eight coal camps of county, besides Florence, Portland, and other towns adjacent.

Wholesale Houses: Groceries, 1; fruits, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto. agencies, 15; automobile accessories, 32; automobile tire agencies, 41; bakers, 3; cigar stores and stands (including hotels), 17; confectioners (including hotel stands), 11; delicatessen, none; dressmakers, 17; druggists, 4; dry goods, 5; department stores, 4; electrical supplies, 2; florists, 4; fruits, 25; furniture, 3; furriers, none; garages (public), 10; grocers, 27 (chain, 2); hardware, 3; jewelry, 2; meat markets, 13 (chain, 2); men's furnishings, 6; men's clothing, 5; merchant tailors, 1; milliners, 5; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 5; restaurants (including hotels), 10; shoes, 6; sporting goods, 2; stationers, 3; women's apparel, 4.

Miscellaneous Data: Average temperature, 67 degrees; average number of rainy days per twelve months, 10; most pleasant months, May, June, Sept., Oct., Nov., Dec. Doctors (medical, 10); (dentists, 5); (osteopaths, 1); gas, artificial; electric current, alternating and direct; number of wired houses, 2,277; water, soft.

COLORADO SPRINGS, COLO.

(El Paso County)

1920 Population, 30,105.

City and Suburban Estimate, 51,408 (city, 35,715; suburban, 15,693).

Native Whites, 85%; Negroes, 2%; Foreign Born, 13%; Industrial Workers, 25%; English Reading, 97%; Families, 12,846.

Schools: Public Grade, 22; High, 1; Junior High, 3; Parochial, 1; Number of Pupils, 9,247.

Churches: Baptist, 5; Christian Science, 1; Congregational, 5; Episcopal, 5; Hebrew, 2; Methodist, 10; Presbyterian, 6; Roman Catholic, 5; Miscellaneous, 27.

Banks: National, 6; State, 2; Total Resources, \$18,686,219.79; Savings Bank Deposits Total, \$3,804,130.66.

Theatres: Legitimate, 1; Moving Pictures, 8; Vaudeville, 1; Burlesque, none; Miscellaneous (Auditoriums, etc.), 8. Total number of seats, 16,145.

Location: Colorado Springs, the hub of the Pikes Peak region, located between the east Colorado plateaus and the Rocky Mountains. Served by the Rock Island; Denver & Rio Grande Western; Santa Fe; Midland Terminal, and Colorado & Southern Rys. Headquarters for the Cripple Creek gold-mining district, and for the irrigated and dry-farming districts. Is also the center of the dairying, hog, poultry, and stock-raising section of central and eastern Colorado. To nearest large city (Pueblo) by railroad, 1 hour; by auto, 1½ hours.

Principal Industries: Coal mining, smelting, bottling of mineral water, toys, granite quarries, lime kilns, motor trucks, breakfast foods.

Manufacturing Establishments: 116. Leading firms: Pikes Peak Fuel Co., City Coal Mines Co., Corley Coal Co., Golden Cycle Reduction Co., Manitou Mineral Water Co., Jarrett Motor Truck Co., McKinney Roberts Mineral Water Co., Ute Chief Mineral Water Co., Allingham Candy Co., Colorado Granite Mfg. Co., Bishop & Babcock Co., (carbonic acid gas).

Special Information: One of the leading mountain resort cities and health centers of the U. S. Home of the International Typographical Union Sanatorium, Modern Woodmen Sanatorium, Colorado School for Deaf and Blind, Colorado College, Broadmoor Art Academy, Myron Straton Home, Cragmor Sanatorium, and a host of smaller sanatoria.

Retail Shopping Section: Along Tejon St. (north and south) 8 blocks, and along all side streets, 2 blocks each way; Pikes Peak Ave. (east and west), 5 blocks; Colorado Ave. (east and west), 7 blocks. This constitutes the downtown shopping section. Another business district is located 25 blocks west of the downtown section and extends for 7 blocks along Colorado Avenue.

Trading Area: 25 miles north to Palmer Lake and Monument; 47 miles west to Cripple Creek and Victor, including all resort and farming communities, such as Green Mountain Falls, Woodland Park, etc., 20 miles south to Buttes, including mountain and surrounding farming communities, 75 miles east to Limon, including all territory tributary to Rock Island R.R.

Wholesale Houses: Groceries, 2; meats, 5; fruits, 9; miscellaneous lines, candy, 3; drugs, 1; bakers' supplies, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial auto. agencies, 6; automobile accessories, 24; automobile tire agencies, 23; bakers, 18; cigar stores and stands (including hotels), 43 (chain, 1); confectioners (including hotel stands), 24; delicatessen, 5; dressmakers, 67; druggists, 36 (chain, 1); dry goods, 9; department stores, 5; electrical supplies, 8; florists, 8; fruits, 7; furriers, 6; garages (public), 28; grocers, 178 (chain, 9); hardware, 9; jewelry, 18; meat markets, 32; men's furnishings, 26; men's clothing, 23; merchant tailors, 23; milliners, 13; opticians, 7; photographers, 16; pianos (and miscellaneous musical instruments), 6; radio supplies, 6; restaurants (including hotels), 63; shoes, 13; sporting goods, 5; stationers, 8; women's apparel, 11.

Miscellaneous Data: Average temperature, 47 degrees; most pleasant months, May to December. Doctors (medical, 109); (dentists, 35); (osteopaths, 14); gas, artificial; electric current, alternating; number of wired houses, 10,500; number of automobile registrations, 11,594, to July 1, 1926; water, soft.

DENVER, COLO.

(Denver County)

(Note: Denver City and Denver County are co-extensive, and have combined administration.)

1920 Population, 256,491 (1926, revised composite estimate, 310,000).

City and Suburban Estimate, 400,000. (Area 58½ square miles.)

Native Whites, 82.7%; Negroes, 2.7%; Foreign Born, 14.6%; Industrial Workers, 30½%; English Reading, 93%; Families, 61,916.

Schools: 76. Number of Pupils, 61,060; average daily attendance, 43,751. Building program calls for construction of 3 new High Schools, at a combined cost of \$4,800,000; 2 new Junior High, at \$1,750,000; and 17 new Elementary Schools, and additions, at \$2,094,590—a total educational building cost of \$8,644,590.

Churches: 242.

Banks: (Clearing house group), 13. Total Resources (June 30, 1926), \$178,575,458.02; Total Deposits, \$162,578,859.92; Bank Clearings: (1925) \$1,732,799,000. Postal Receipts (1925), \$3,419,304.06; Number of Building Permits (1925) 8,036; value, \$25,333,310; (1926) \$26,310,250. Assessed valuation, for city and county (1925) \$416,605,690; Tax rate for city and county (1925) 29.9 mills. The United States Census Bureau's survey of the nation's wealth,

based upon the year 1922 credits Colorado with a wealth of over \$3,229,412,000, and a total annual income of more than \$900,000,000.

Theatres: 30. Total number of seats, 24,000.

Location: On Union Pacific, Chicago, Rock Island & Pacific, C. B. & Q., Santa Fe, Colorado & Southern, Denver & Salt Lake, Missouri Pacific, and Denver & Rio Grande Western Railroads, and several interurban lines. To nearest larger city (Kansas City, Mo.) by railroad, 20 hours.

Principal Industries: Meat packing, rubber goods, mining, motor cars, milling, smelting, coal mining, lignite, petroleum (and products), shale oil, sugar beets, pickles, vegetable and fruit canning, mineral water, and general agriculture in surrounding area. Denver's yearly stockyards report for 1925 shows receipts of livestock as: cattle, 586,841; hogs, 467,082; sheep, 2,357,143. Total, 3,411,066; Total value, \$57,600,000. Census of 1926 reports 477 enterprises, 16,790 wage earners, value of product, \$51,217,038. Colorado ranks fourth among the states of the Union in total available coal supplies, according to the United States Geological Survey, with 517,589,600,000 short tons. The report for 1925 gives total production of coal mined, as 10,412,041 tons; men employed, 13,609. Petroleum fields produced (Jan. 3, 1925, to Jan. 3, 1926) 43,966 barrels—an average of 3,382 barrels per day during the working season. Agricultural products (report of 1925): Total value, \$134,967,000; Total value manufactured dairy products, \$12,114,709.70; Total value all dairy products, \$25,832,969.06.

Manufacturing Establishments: Leading firms: Armour and Colorado Packing Plants, Gates Rubber Co., Ford Motor Co., General Iron Works, Denver Rock Drill Co., Colorado Milling and Elevator Co., Colorado Fuel and Iron Co., Great Western Sugar Co. Chamber of Commerce survey, 1925, gives value of manufactured products, \$145,000,000. Invested in new plants, enlargement and equipment by factories during year, \$4,250,000.

Special Information: Denver is the geographic, industrial and commercial center of all that part of the United States lying west of the Missouri River. The valuation of railroads in Colorado in 1924 was \$160,669,940, and the total mileage, 5,042.05. The City of Denver, cooperating with sections of northwestern Colorado counties as an improvement district, is building the longest railroad tunnel in the United States. The Moffat Tunnel, 6.4 miles in length, is being pushed through the foot of James Peak, in the Continental Divide, 100 miles northwest of Denver. The main railroad tunnel is 24 feet in height, and 18 feet in width, and is paralleled by a pioneer tunnel, 8x8 feet, which facilitates construction of the main bore and will be used when completed for transportation of 100,000 acre-feet of water annually from the western to the eastern slope of the Continental Divide. The tunnel, when completed, will eliminate 30 miles of four per cent grade over the Continental Divide, and will shorten the distance between Denver, Utah, and Pacific Coast points by 175 miles.

Residential Features: Mostly one and two-family houses. New apartment houses constantly being built in the residential sections. Owing to severe restrictions against frame houses adopted in the early days of the city's growth, the residential section of the city is built almost entirely of brick, stone, tile, or cement materials. More than 38 per cent of houses owned by occupants. There are 39 parks and playgrounds within the city limits.

Retail Shopping Section: 38 blocks in downtown district.

Trading Area: About an 80-mile radius. Denver occupies a position unique in the entire country, there being no other city even approaching it in size and commercial importance within a radius of 500 miles in every direction. Omaha is 580 miles by railroad from Denver, Salt Lake City, 625 miles; Kansas City, Missouri, the nearest larger city, is 636 miles away.

Wholesale Houses: Groceries, 16; meats, 37; fruits, 63; drugs, 17; furniture, 7; grain, 8; hardware, 7; dry goods, 21; general merchandise, 3; coal, 51; coffee, tea and spices, 11; jewelry, 9; lumber, 54; millinery, 14; poultry and eggs, 15; shoes, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 148; commercial auto agencies, 11; automobile accessories, 70; automobile tire agencies, 40; bakers, 82; cigar stores and stands (including hotels), 74; confectioners (including hotel stands), 24; delicatessen, 22; dressmakers, 28; druggists, 300; dry goods, 60; department stores, 6; electrical supplies, 52; florists, 60; fruits, 86; furniture, 70; furriers, 14; garages (public), 175; grocers, 900; hardware, 34; jewelry, 62; meat markets, 89; men's furnishings, 25; men's clothing, 61; merchant tailors, 156; milliners, 60; opticians, 29; photographers, 54; pianos (and miscellaneous musical instruments), 16; radio supplies, 23; restaurants (including hotels), 196; shoes, 32; sporting goods, 8; stationers, 13; women's apparel, 49.

Miscellaneous Data: Average temperature, 50 degrees; average number of rainy days per twelve months, 30; most pleasant months, nearly all. Doctors (medical, 575); (dentists, 310); (osteopaths, 40); gas, artificial; electric current, alternating; number of wired houses, 70,556; number of registered automobiles 70,690 (65,900, passenger; 4,790, commercial); water, (mountain) soft.

COLORADO (Cont'd)

DURANGO, COLO.

(La Plata County)

1920 Population, 4,116 (1925, est. 5,000). City and Suburban Estimate, 6,750.

Native Whites, 90%; Foreign Born, 10%; Industrial Workers, 700; English Reading, 100%; Families, 1,200.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,200.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, Free Methodist, 1; Latter Day Saints, 1.

Banks: National, 3. Total Resources, \$2,000,000; Savings Bank Deposits Total, \$333,000.

Theatres: Moving Pictures, 1; Miscellaneous (Auditorium, etc.), 1. Total number of seats, 1,682.

Location: In southwestern part of state. On Rio Grande & Western Railroad, Rio Grande Southern Railroad, 230 miles southwest of Denver. To nearest large city (Pueblo) by railroad, 18 hours; by auto, 18 hours.

Principal Industries: Coal, stockraising, horticulture, agriculture, lumber, mining, water power, smelting, iron works, flour mill, and meat packing plants.

Manufacturing Establishments: 10. Leading firms: Garden Mercantile Co., The American Smelting & Refining Co. Total value of yearly output of factories estimated at \$2,250,000.

Special Information: There are extensive coal deposits, abundant water power, with medicinal and hot water springs in the vicinity. Tourist and fishing resort. Supply point for a large agricultural and mining region.

Residential Features: Main residential streets extend east for 7 blocks along Main Street, which runs north and south for 12 blocks and thence 3 blocks on each side of Main for 10 blocks.

Retail Shopping Section: Covers Main Street from 4th Street to 12th Street, and 5th, 6th, 7th, 8th, 9th, 10th, 11th Streets on each side of Main Street for one block.

Trading Area: East, 35 miles; north, 35 miles; west, 30 miles; south, 25 miles. Durango being the commercial center of a very large area (30,000 square miles) naturally draws business from much greater distances.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 2; hardware, 2; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 9; automobile tire agencies, 9; bakers, 3; cigar stores and stands (including hotel stands), 15; dressmakers, 3; druggists, 5; dry goods, 4; department stores, 2; electrical supplies, 7; florist, 1; fruits, 10; furniture, 3; garages (public), 9; grocers, 11 (chain, 1); hardware, 4; jewelry, 3; meat markets, 9; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 6; optician, 1; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 7 (chain, 4); shoes, 7; sporting goods, 6; stationers, 7; women's apparel, 4.

Miscellaneous Data: Most pleasant months: June to October, inclusive; (doctors (medical, 7); (dentists, 8); (osteopath, 1); number of wired houses, 1,244; electric current, alternating and direct; water, hard (medicinal).

FORT COLLINS, COLO.

(Larimer County)

1920 Population, 8,755 (1925, est. 15,000). City and Suburban Estimate, 33,000.

Native Whites, 95%; Negroes, two families; Foreign Born, 5%; Industrial Workers, 20%; English Reading, 90%; Families, 2,435.

Schools: Public Grade, 8; High, 1; Junior High, 1; Colorado Agricultural College (1,200 students); School of Agriculture (400 students); Business College, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 2; Lutheran, 2; Miscellaneous, 9.

Banks: National, 3; State, 1; Total Resources over \$5,000,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3.

Location: Fort Collins is on the Union Pacific, and the Colorado & Southern Railroads. To nearest large city (Denver) by railroad, 2½ hours; by auto, 2½ hours.

Principal Industries: Sugar beets (one of the largest sugar factories in the United States), 2 flour mills, brick plant, candy kitchens, iron foundry, cement works, oil wells, natural gas.

Special Information: Two newly discovered oil wells are being opened up three miles north of the town, each with an output of 100,000,000 cubic feet of gas and oil. Several of the big companies, including the Union Oil Co. of California, have opened general operating offices here. Portland cement plant now building, to cost \$1,000,000, using natural gas from newly discovered oil wells as fuel. Six wells now producing, 100 others being drilled.

Residential Features: Situated close to the mountains, with pure mountain water, and an abundance of trees, Fort Collins is one of the most beautiful little cities to be found for a home. The houses are mostly one-family houses, ranging from 5 to 10 rooms, with an average price of \$5,000. The people are friendly and educated. They can educate their children from

the kindergarten through high school, and through college, the State Agricultural College being situated here. We have all the modern conveniences; natural gas for heat and fuel, 6 miles of paved streets, paved highway south to Denver, municipally owned street railway, one of the gateways to Estes Park, on the scenic road to Yellowstone Park, mountain playgrounds, good fishing and hunting, splendid stores, and an ideal place to live.

Retail Shopping Section: 3 blocks on College, 2 blocks on Linden, 3 on Walnut, 5 blocks on Mountain.

Trading Area: 20 miles in all directions.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 4; automobile accessories, 7; automobile tire agencies, 12; bakers, 4; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 5; delicatessen, none; dressmakers, 14; druggists, 6; dry goods, 8; department stores, 2; electrical supplies, 4; florists, 4; fruits, 4; furniture, 4; furriers, none; garages (public), 9; grocers, 25 (chain, 2); hardware, 4; jewelry, 5; meat markets, 10; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 8; opticians, 5; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 10; restaurants (including hotels), 12; shoes, 8; sporting goods, 2; stationers, 2; women's apparel, 7.

Miscellaneous Data: Average temperature 60 degrees; most pleasant months, all summer months (only 6 days last winter, below zero). Doctors (medical, 20); (dentists, 8); (osteopaths, 4); gas, natural; electric current, alternating; water, soft.

FORT MORGAN, COLO.

(Morgan County)

1920 Population, 3,818.

City and Suburban Estimate, 6,500.

Native Whites, 70%; Foreign Born, 30%; English Reading, 90%; Families, 1,375.

Schools: Public Grade, 31; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,875.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 2; State, 1; Total Resources, \$2,308,091.84; Savings Bank Deposits Total, \$199,294.49.

Theatres: Legitimate, 1; Moving Pictures, 2; Total number of seats, 1,040.

Location: On Chicago, Burlington & Quincy, and Union Pacific Railways. Auto transfer service to Denver and intervening towns.

Principal Industries: Agriculture, sugar beet factories, canning factory, flouring mills, ice factory, ice cream and candy factories.

Manufacturing Establishments: Leading firms: Great Western Sugar Co., Farmers' Platte Valley Milling and Elevator Co. Total value of yearly output of factories estimated at \$7,500,000.

Special Information: Only town between Denver and Omaha located on two main transcontinental lines of railroads. One of the leading sugar beet sections of the country. On Lincoln Highway, Detroit, Lincoln and Denver Highway.

Residential Features: Mostly five- to ten-room residences, private homes almost exclusively. Ornamental residence section with abounding shade trees. Residences kept up in good condition. Fort Morgan is said to be one of the prettiest towns of its size in Colorado.

Retail Shopping Section: Practically all business is transacted on Main Street within a distance of three blocks, with business also on the two streets paralleling Main, within a distance of two blocks.

Trading Area: Trade comes from a farming community for a distance of 30 miles north, 40 miles south, 25 miles west and 10 miles east. Considerable paved highways; state highways running north, south, east, and west maintained in graded gravel condition.

Number of Retail Outlets for Nationally Advertised Products: All retail business for local consumption, with the exception of the Great Western Sugar Co., which is one of the largest beet sugar producing factories in the United States.

GRAND JUNCTION, COLO.

(Mesa County)

1920 Population, 8,665. (1925 est. 12,500.)

City and Suburban Estimate, 30,000, county.

Native Whites, 94%; Negroes, less 1%; Foreign Born, 5%; Industrial Workers, 15%; English Reading, 100%; Families, 2,500.

Schools: Public Grade, 6; High, 1; Parochial, 1; Number of Pupils, 2,900.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 12.

Banks: National, 1; State, 2; Total Resources, \$3,728,601.92; Savings Bank Deposits Total, \$1,375,094.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 5,500.

Location: On D. R. G. & W. main line to Pacific Coast; D. R. G. & W. south. Excellent bus service to Durango, south; Collbran, north, and Vernal, Utah, northwest. Interurban to Fruita.

Principal Industries: Coal mining (8 mines), gold, silver, copper, radium and vanadium mining, asphalt, etc., farming, fruit, sugar beets, cattle and sheep, oil and oil shale, railroad shops, canning, candy, tourists' supplies, dairy products, printing, tile, flour mills.

Manufacturing Establishments: 30. Leading firms: Holly Sugar Corp., Knu Brooms, Grand Jet. Fruit Growers' Assn., Nichols & Son (furn.); Grand Jet. Ice Cream Co., C. D. Smith Drug Co., Watson Greenhouse, Nelson-Post (saddlery), Retig Packing Co., Lane Mfg. Co., Vorbecks Co.; J. G. Seed Co., Latimer-Goodwin Chemical Co. Total value of yearly output of factories estimated at \$1,300,000.

Special Information: Location makes this the natural hub for western Colorado and eastern Utah. All transportation centers here. Mild climate year around. 354 days of sunshine. World's largest flat top mountain, containing over 300 trout lakes. Large fruit producing section. Large oil shale deposits.

Residential Features: Mostly one-family houses, no slum district, no tenements. Approximately 100 homes built annually. 80% own homes. Altitude, 4,602 feet. Assessed valuation, \$9,052,000.

Retail Shopping Section: 7 blocks long, 2 wide. Good street car and interurban service.

Trading Area, 100 miles west, 60 north, 50 east, 60 south. Claims to be the largest city between Denver and Salt Lake.

Wholesale Houses: Groceries, 5; meats, 3; fruits, 2; hardware, 2; drugs, 1; flour, 2; sporting goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial automobile agencies, 5; automobile accessories, 2; automobile tire agencies, 21; bakers, 4; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 7; delicatessen, 2; dressmakers, 3; druggists, 8; dry goods, 3; department stores, 3; electrical supplies, 3; florists, 2; fruits, 26; furniture, 7; furriers, 1; garages (public), 10; grocers, 26; hardware, 4; jewelry, 4; meat markets, 10; men's furnishings, 5; men's clothing, 5; merchant tailors, 2; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 13; shoes, 6; sporting goods, 2; stationers, 2; women's apparel, 5.

GREELEY, COLO.

(Weld County)

1920 Population, 10,958. (1926 est. 12,500.)

City and Suburban Estimate, 16,000; Trading Territory, 45,000.

Native Whites, 9,848; Negroes, 18; Foreign Born, 1,087; English Reading, 85%; Families, 3,000.

Schools: High, 2; Junior High, 1; Parochial, 1. Number of Pupils, 2,479. Seat of Colorado State Teachers' College, the College of St. John the Evangelist (Episcopal).

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, 12.

Banks: National, 4; Total Resources, \$6,400,378.17. Savings Bank Deposits Total, \$4,845,636.18.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,500.

Location: On Union Pacific Railroad, 53 miles north of Denver, and 53 miles south of Cheyenne (Wyoming). Served also by Colorado & Southern Railroad. Junction of South Platte and Cache la Poudre Rivers. Thirty miles east of the Rocky Mountain foothills, and situated in the heart of a very large irrigated agricultural district. To nearest larger city by railroad, 1½ hours; by bus or auto, 2 hours.

Principal Industries: Diversified agriculture, beet sugar manufacturing, flour, canning products, cattle and sheep feeding, dairying, etc. Estimated value of farm crops for 1926, \$22,000,000.

Manufacturing Establishments, 10. Leading firms: Great Western Sugar Co., Colorado Milling & Elevator Co., Empson Canning Co., Knight-Tilden Auto Body Manufacturing Co., Thompson Potato Sorter Co., Greeley Monumental Works, Greeley Creamery, Greeley Ice & Storage Co., Olympia Candy Co. Total value of yearly output of factories estimated at \$3,750,000.

Special Information: In the heart of one of the oldest, best developed, and richest irrigated agricultural districts of the West. The Greeley district, embracing Weld County, is noted for its intensive irrigation farming. Record crops of sugar beets, wheat, potatoes, beans, peas, hay, vegetables and dairy products are obtained yearly.

Residential Features: Mostly one-family homes. Average homes of a very good type for small city. Many homes of a better class, varying from \$10,000 to \$15,000 in value.

Retail Shopping Section: Is well concentrated in an area covering approximately eight blocks. Boundaries of district are: Sixth Street to Tenth Street, between Seventh Avenue and Ninth Avenue.

Trading Area: Forty miles from the north, northeast, and east; thirty miles from southeast, and south; twenty miles from the southwest; fifteen miles from the west, and northwest, covering a trading territory having about 75,000 inhabitants.

Wholesale Houses: Groceries, 1; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 5; automobile accessories, 7; automobile tire agencies, 10; bakers, 7; cigar stores and stands (including hotels), 10 (chain, 2); confectioners (including hotel stands), 6; delicatessen, 1; dressmakers, 6; druggists, 4; dry goods, 7; department stores, 4; electrical supplies, 4; florists, 4; fruits, 5; furniture, 6; garages (public), 12; grocers, 45 (chain, 4); hardware, 6; jewelry, 6; meat markets, 17 (chain, 3); men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 5;

opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 8; restaurants (including hotels), 17; shoes, 4; sporting goods, 2; stationers, 3; women's apparel, 6.

Miscellaneous Data: Doctors (medical, 27); (dentists, 15); (osteopaths, 9); bus service; gas, artificial; number of meters, 2,300; electric current, A.C. and D.C.; number of automobile registrations, 15,000; mountain water.

See announcement below

LA JUNTA, COLO.

(Otero County)

1920 Population, 4,964. (1926 est. 7,500.)

City and Suburban Estimate, 7,500. Most important cities and towns in this area are: Las Animas, (pop. 3,500); Swink, (1,000); Rocky Ford, (3,746); Manzanola, (1,300).

Natives Whites, 89%; Negroes, 1%; Foreign Born, 10%; Industrial Workers, 60%; English Reading, 90%; Families, 1,500.

Schools: Public Grade, 6; High, 1; Junior High, 1; Number of Pupils, 1,959.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 9.

Banks: National, 1; State, 2; Capital, Surplus, and Undivided Profits, (all banks), \$292,578.43. Total Deposits (all banks), \$1,205,129.08. Total Resources (all banks), \$1,498,707.41.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 4.

Location: In center of Arkansas Valley on main line of A. T. & S. Fe RR. Junction main line with line to Pueblo, Colorado Springs, and Denver, Arkansas Valley branch of A. T. & S. Fe RR. Bus service to Rocky Ford, Fowler, and Pueblo. Excellent train service each way daily.

Principal Industries: A. T. & S. F. railroad shops, flour mill, butter, ice cream and cheese factories, brick manufacturing plant, milk condensary, bottling works.

Manufacturing Establishments: 10. Total value yearly output of factories estimated at \$750,000.

Residential Features: Principally cottage and one-family residences. Two small sections occupied by foreign population. Almost exclusively private homes throughout city. Country club. Restricted district of exclusive homes, value, \$4,000 and more.

Retail Shopping Section: Surrounds public square and court house, around which town is built. Business extends 3 to 5 blocks in every direction from square. Numerous suburban stores supply urban localities in various sections of city.

Trading Area: Extends 50 miles south, 30 miles north, and 30 to 35 miles east and west, respectively. Trade territory extensive on account of its central situation in the Arkansas Valley, in Colorado, and its being the county seat of Otero County, the heart of the melon-growing industry.

Wholesale Houses: Meats, 3; fruits and vegetables (melons), 7; miscellaneous lines, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 4; automobile accessories, 10; automobile tire agencies, 10; bakers, 3; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 6; druggists, 6; dry goods, 5; department stores, 3; electrical supplies, 3; florists, 2; fruits, 7; furniture, 6; garages (public), 6; grocers, 84 (chain, 8); hardware, 6; jewelry, 4; meat markets, 20 (chain, 2); men's furnishings, 6; men's clothing, 3; merchant tailors, 1; milliners, 5; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 7; shoes, 3; sporting goods, 4; stationers, 4; women's apparel, 6.

Miscellaneous Data: Doctors (medical, 10); (dentists, 6); (osteopaths, 2); gas, artificial; number of meters, 800; electric current, alternating; number of wired houses, 1,800; number of automobile registrations, 5,700 (1925); water hard.

COLORADO (Cont'd)

LAMAR, COLO.

(Prowers County)

1920 Population, 2,512.

City and Suburban Estimate, 5,000. Most important cities and towns in this area are: Holly, (pop. 1,000); Granada, (500); Wiley, (500).

Native Whites, 95%; Foreign Born, 5%; Industrial Workers, 20%; English Reading, 95%.

Schools: Public Grade, 3; High, 1; Junior High, 1; Number of Pupils, 1,200.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, Nazarene, Church of God.

Banks: National, 2; State, 1; Total Resources, \$1,600,000. Savings Bank Deposits Total, \$27,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,500.

Location: Fifty miles west of Kansas state line on main line of Santa Fe RR., a branch of which runs north to May Valley, crossing northern parallel branch of the Santa Fe, Arkansas Valley division. On National Old Trails, and D. C. D. Highway, both state roads, and in good condition.

Principal Industries: "Pet" milk condensary; creamery; two ice cream factories; ice plant; broom factory; center of alfalfa meal industry; large flour mill; carbonated beverage plant; wedding plant, pickle salting station.

Manufacturing Establishments: Leading firms: Denver Alfalfa Milling & Products Co., Lamar Alfalfa Co., Lamar Flour Mills, Pet Milk Co.

Residential Features: One restricted section, Paseo Place. Style and value of residence are only restrictions. Very few Negroes here. Mexican workers live in colony outside city limits. Few pretentious mansions, and few extremely poor homes. Average of homes about \$2,500.

Retail Shopping Section: Four blocks in business section, all on one main street, with block each way for four streets with scattering business houses. One department store, and number of large stores with general men's and women's departments. Stores cater to western styles. One exclusive women's store, and one exclusive men's store.

Trading Area: Lamar has an unusual trading territory, with a 75-mile radius. The Santa Fe R.R. is building a branch line into Baca County, which will reach Springfield 50 miles due south of Lamar. Jobbing freight rates granted by the Santa Fe R.R. as result of growth as wholesale center. Town is a Colorado railroad common point and serves wide outside territory which is without rail facilities.

Wholesale Houses: Groceries, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 8; automobile accessories, 3; automobile tire agencies, 7; bakers, 2; cigar stores and stands (including hotels), 2; confectioners (including hotel stands), 6; dressmakers, 5; druggists, 4; dry goods, 11; department stores, 1; electrical supplies, 2; florists, 1; furniture, 2; garages (public), 4; grocers, 8 (chain, 1); hardware, 2; jewelry, 2; meat markets, 4 (chain, 1); men's furnishings, 3; men's clothing, 5; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 2; radio supplies, 2; restaurants (including hotels), 5; sporting goods, 2; stationers, 1; women's apparel, 1.

Miscellaneous Data: Doctors (medical, 6); (dentists, 3); electric current, alternating; number of wired houses, 1,000; water, hard.

LONGMONT, COLO.

(Boulder County)

1920 Population, 5,848. (1926 est. 7,000).

City and Suburban Estimate, 12,800.

Native Whites, 99.5%; Negroes, 1/2 of 1%; Foreign Born, .001%; English Reading, 95%.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Christian, 1; United Brethren, 1; Miscellaneous, 6.

Banks: National, 3; State, 1.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3.

Location: On C. B. & Q., Colo. & Southern, and Great Western R.R.s. To nearest large city (Boulder), by railroad, 30 minutes; by automobile, 45 minutes.

Principal Industries: Agriculture, beet-sugar making, flour milling, auto supplies, butter, canning factory.

Manufacturing Establishments: Leading firms: Empson Packing Co., Great Western Sugar Co.

Special Information: Capacity of sugar factory about 3,200 tons of beets every 24 hours. One of the largest in the West.

Residential Features: Longmont is a growing city of substantial houses, generally brick, with most of workmen in packing and sugar works owning their homes. Unexcelled drinking water, fine view of Long's Peak in the distance, from which the city took its name.

Trading Area: Sixteen to twenty miles.

Wholesale Houses: Meats, 1.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 15; most pleasant months, all except February and March. Doctors (medical, 14); (dentists, 5); (osteopaths, 6); electric current, alternating; number of wired houses, 100%; water, soft.

MONTROSE, COLO.

(Montrose County)

1920 Population, 4,000.

City and Suburban Estimate, 3,500.

Native Whites, 90%; Foreign Born, 10%; English Reading, 95%; Families, 1,400.

Schools: Public Grade, 7; High, 1; Number of Pupils, 2,100.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 2; Total Resources, \$2,000,000. Savings Bank Deposits Total, \$100,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1 (Armory). Total number of seats, 1,100.

Location: Denver & Rio Grande Western R.R. To nearest large city, by railroad, 2 1/2 hours; by automobile, 6 hours.

Principal Industries: Farming, stock-raising, beet-sugar growing, milling.

Manufacturing Establishments: Leading firms: Small manufacturing plants only.

Residential Features: Montrose has 1,000 houses, 10 hotels and rooming houses.

Retail Shopping Section: Five blocks.

Trading Area: Extends 120 miles west, 30 miles north, 60 miles east, and 65 miles south.

Wholesale Houses: Meats, 1; fruits, 5; hardware, 2; dry goods, 1; Miscellaneous lines, 4 commission houses.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 6; automobile accessories, 6; automobile tire agencies, 8; bakers, 3; total cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 16; dressmakers, 3; total druggists, 3; dry goods, 3; department stores, 2; electrical supplies, 4; florists, 2; fruits, 8; furniture, 4; garages (public), 5; total grocers, 9 (chain, 1); hardware, 2; jewelry, 2; total meat markets, 5; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; total restaurants (including hotels), 6; shoes, 4; sporting goods, 2; stationers, 5; women's apparel, 3.

Miscellaneous Data: Average temperature, 47.4 degrees; average number of rainy days per twelve months, very few; most pleasant months, nearly all. Doctors (medical, 5); (dentists, 5); (osteopaths, 2); electric current, alternating; water, soft.

PUEBLO, COLO.

(Pueblo County)

1920 Population, 43,050.

City and Suburban Estimate, (1926 est. 70,000). Most important cities and towns in this area are: Canon City (pop. 4,551); Rocky Ford (3,746); Ordway (1,186); Florence (2,629).

Native Whites, 80%; Negroes, 3%; Foreign Born, 17%; Industrial Workers, 28%; English Reading, 93%; Families, 12,460.

Schools: Public Grade, 18; High, 2; Junior High, 1; Parochial, 4; Number of Pupils, (registered) 11,474.

Churches: Baptist, 4; Christian Science, 4; Congregational, 3; Episcopal, 3; Hebrew, 5; Methodist, 5; Presbyterian, 4; Roman Catholic, 8; Miscellaneous, 5.

Banks: National, 2; State, 3. Capital, Surplus, and Undivided Profits (all banks), \$2,294,200.37; Total Deposits (all banks), \$20,947,089.70; Total Resources (all banks), \$23,865,491.40; Total Postal Receipts (1925), \$425,588.94; Total Bank Clearings (12 months, 1925), \$83,223,268.32; Average Monthly Total Retail Sales, \$91,545,595.15.

Theatres: Legitimate, 1; Moving Pictures, 7; Vaudeville, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 8,973.

Location: In southern Colorado on Arkansas River, served by Denver & Rio Grande Western, Santa Fe, Missouri Pacific, Rock Island, Colorado & Southern (Burlington Route), and Colorado Wyoming R.R.s. Common point on Denver lines. Good freight service.

Principal Industries: Iron and steel, meat packing, smelting, brick and tile works, fruit and agriculture, stock-raising and dairy products.

Manufacturing Establishments: 181. Leading firms: Colorado Fuel & Iron Co., Nuckolls Packing Co., National Broom Factory, Rood Candy Co., Standard Fire Brick Co., Purdy Baking Co. Total value of yearly output of factories estimated at \$65,000,000.

Special Information: Pueblo is a manufacturing city; the steel plant of the Colorado Fuel & Iron Company, employing about 6,000 men, heads the list of manufacturing plants. There are also 180 other factories with enormous outputs, representing numerous lines. The total value of the yearly output from Pueblo's factories is estimated to be far above \$65,000,000. Pueblo is situated near the center of a large agricultural section—the fertile Arkansas Valley. Pueblo County has about 50,000 acres of irrigated land, producing crops of alfalfa, sugar beets, corn, melons, vegetables, fruit, wheat, oats, rye, barley, sorghums, beans and grasses. In the higher mountain sections, cauliflower, head lettuce and peas.

Residential Features: Largely composed of small homes of the industrial class. Large residential section, very few industrial tenements. Exclusive residential section located north of city. Two excellent Y. M. C. A.'s and a number of good hotels. The climate of Pueblo is especially healthy.

Retail Shopping Section: There are about 80 blocks of business sections, including the wholesale district. The principal streets are Main, from 1st to 10th, Santa Fe from 10th to the Arkansas River. This street is east of Main. Grand and Court, west of Main, running from 10th to South Union, which is a connecting street between the north and south side of the city. Bessemer, a suburb, has a small business district composed of movies, markets, stores, barber shops and other business houses.

Trading Area: 350 miles west to western slope of the Great Divide; 250 miles south to New Mexico; 200 miles east to the Kansas line; 30 miles north to the trading area of Colorado Springs.

Wholesale Houses: Groceries, 5; meats, 6; fruits, 8; hardware, 3; dry goods, 3; shoes, 1; saddles, 2; drugs, 1; and several houses carrying miscellaneous lines.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 28; commercial auto. agencies, 8; automobile accessories, 14; automobile tire agencies, 15; bakers, 18; cigar stores and stands (including hotels), 30; confectioners (including hotel stands), 15; delicatessen, 1; dressmakers, 7; druggists, 27; dry goods, 9; department stores, 5; electrical supplies, 8; florists, 3; fruits, 14; furniture, 22; furriers, 2; garages (public), 32; grocers, 187; hardware, 5; jewelry, 7; meat markets, 11; men's furnishings, 8; men's clothing, 22; merchant tailors, 12; milliners, 7; opticians, 5; photographers, 6; pianos (and miscellaneous musical instruments), 4; radio supplies, 9; restaurants (including hotels), 46; shoes, 11; sporting goods, 3; stationers, 7; women's apparel, 27.

Miscellaneous Data: Doctors (medical, 46); (dentists, 33); (osteopaths, 7); street car service; gas, artificial; number of meters, 4,000; electric current, A.C. and D.C.; Number of wired houses, 12,900; number of automobile registrations, 12,535; water, soft, and medium hard.

STERLING, COLO.

(Logan County)

1920 Population, 6,415.

Native Whites, 80%; Foreign Born, 20%; English Reading, 90%; Families, 3,000.

Schools: Public Grade, 2; High, 1; Junior High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; German, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Brethren, 1; Lutheran, 2; Evangelical, 1.

Banks: National, 2; State, 3.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 7. Total number of seats, 1,200.

Location: In northeastern part of state, served by Union Pacific and C. B. & Q. Railroads. Bus lines to cities 60 miles south and east. To nearest large city, by railroad, 4 hours; by auto, 6 hours.

Principal Industries: Sugar beet industry, railroad shops, farming and stock raising.

Manufacturing Establishments: 1. Leading firm: Great Western Sugar Co.

Residential Features: Private homes predominate. One- and two-story houses, many bungalows.

Retail Shopping Section: On Main Street, 4 blocks; Front, 3; Second, 2; Third, 3; Poplar, 3. Most of the stores are located on these streets, although there are many small grocery stores, and filling stations with auto accessories, scattered over the whole residential section.

Trading Area: About 60 miles east, 35 miles west, 60 miles north, and 30 miles south.

Wholesale Houses: Groceries, 2; bakery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; automobile accessories, 10; automobile tire agencies, 17; bakers, 3; cigar stores and stands (including hotels), 38; confectioners (including hotel stands), 25; dressmakers, 12; druggists, 4; dry goods, 4; department stores, 1; electrical supplies, 4; florists, 1; fruits, 2; furniture, 2; garages (public), 7; grocers, 24 (chain, 2); hardware, 3; jewelry, 3; meat markets, 5 (chain, 1); men's furnishings, 3; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 8; restaurants (including hotels), 11; shoes, 9; sporting goods, 2; stationers, 6; women's apparel, 5.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 14; most pleasant months, Sept., Oct., Nov., Dec. Doctors (medical, 9); (dentists, 6); (osteopaths, 2); electric current, alternating and direct; water, soft.

TRINIDAD, COLO.

(Las Animas County)

1920 Population, 13,050 (1925, est. 15,000).

City and Suburban Estimate, 30,000.

Native Whites, 65%; Negroes, 1%; Foreign Born, 34%; Industrial Workers, 50%; English Reading, 90%; Families, 3,800 (in city proper).

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 1; Number of pupils, 2,700 in city (11,000 in county).

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 2.

Banks: National, 2; State, 2; Total Resources, \$10,000,000. Savings Bank Deposits, Total \$8,000,000.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1 (Community Hall). Total number of seats, 43,000.

Location: On main line of Santa Fe, Colorado & Southern, and Denver & Rio Grande Western Railroads. Trinidad is an ideal location for shipping to points east, west, north, and south. To nearest large city (Pueblo) by railroad, 3 1/2 hours; by automobile, 3 1/2 hours.

Principal Industries: Coal mining. The Colorado Fuel & Iron Co. holds vast interest in, and around Trinidad, employing about 9,000 miners and their families. Macaroni factory, brick and tile factory, sheep and cattle raising, agriculture.

Manufacturing Establishments: 2. Leading firms: Trinidad Brick & Tile Co.; Trinidad Foundry Co. Total value of yearly output of factories estimated at \$500,000.

Special Information: Center of all Colorado Fuel & Iron Co.'s interests. A number of new buildings going up. Total Bank Deposits increasing every year.

Residential Features: Trinidad has approximately 3,800 homes with 500 single families. About 100 apartment houses, including large structures and 1, and 2-room apartment houses.

Retail Shopping Section: On Main Street, 6 blocks of business and commercial houses, 7 blocks on Arizona Street, 2 blocks each on Pine St., First St., and Elm Street.

Trading Area: North 40 miles, south 20 miles, west 50 miles, and east 60 miles.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 4; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto. agencies, 5; automobile accessories, 10; automobile tire agencies, 15; bakers, 5; total cigar stores and stands (including hotels), 25; (chain, 2); confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 5; total druggists, 6 (chain, 3); dry goods, 8; department stores, 5; electrical supplies, 3; florists, 2; fruits, 5; furniture, 5; furriers (none exclusive); garages (public), 17; total groceries, 75 (chain, 3); hardware, 3; jewelry, 4; total meat markets, 21 (chain, 3); men's furnishings, 10; men's clothing, 10; merchant tailors, 8; milliners, 5; opticians, 4; photographers, 6; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; total restaurants (including hotels), 18; shoes, 12; sporting goods (none exclusive).

Miscellaneous Data: Average temperature, 68 degrees; average number of rainy days per twelve months, 15; most pleasant months, April to October, inclusive. Doctors (medical, 14); (dentists, 12); (osteopaths, 3); number of wired houses, 3,700; gas, artificial; number of meters, 800; electric current, alternating; water, soft.

While Connecticut geographically is part of New England, commercially it should be judged by itself. Connecticut people have the money to spend—let us give you the facts!

CONNECTICUT (Cont'd)**HARTFORD, CONN.****(Hartford County)**

1920 Population, 133,036 (1925 Directory Census estimate, 172,000).

City and Suburban Estimate, 404,000. Most important cities and towns in this area are: New Britain (pop. 59,312); Bristol (20,620); Manchester (18,370); Meriden (34,789).

Native Whites, 85%; Negroes, 2.8%; Foreign Born, 12.2%; Industrial Workers, 10.7%; English Reading, 96%; Families, 35,000.

Schools: Public Grade, 23; High, 3; Parochial, 6. Number of Pupils, 35,000.

Churches: Baptist, 13; Christian Science, 2; Congregational, 10; Episcopal, 10; Hebrew, 10; Methodist, 9; Presbyterian, 1; Roman Catholic, 16; Miscellaneous, 23.

Banks: National, 2; State, 11. Capital, Surplus and Undivided Profits (all banks), \$212,259,765.79; Total Resources (all banks), \$2,000,000,000; Total Savings Banks Deposits, \$110,454,856; Total Bank Clearings (12 months, 1925), \$763,288,763; Average Monthly Retail Sales (all lines), \$3,400,000 (1925).

Theatres: Legitimate, 1; Moving Pictures, 15; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 22,000.

Location: On N. Y., N. H. & H. R. R., and the Hartford & New York Transportation Co. (boat). To nearest larger city, by railroad, 1 hour; by trolley, 1½ hours; by auto, 1 hour.

Principal Industries: Typewriters, firearms, machine tools, turbines, brushes, tires, electrical fixtures, drop forgings and wrenches, machine screws, organs.

Manufacturing Establishments: Leading firms: Underwood Typewriter Co., Royal Typewriter Co. (largest typewriting factories in the world); Colt Firearms Co., Pratt & Whitney Co., Fuller Brush Co., U. S. Tire Co. (Royal Cords); Billings & Spencer Co., Hartford Machine Screw Co., Terry Steam Turbine Co., Austin Organ Co., Arrow Electric Co. Total value of yearly output of factories estimated at \$118,000,000.

Special Information: Hartford is the insurance center of the U. S. with its 31 home companies, which explains why there are more brokerage houses in this city than in any other city in New England, outside of Boston.

Residential Features: A great part of city is of high-class residential character. The labor employed is entirely skilled help, hence the low grade residential section is very small.

Retail Shopping Section: Confined to Main Street, Asylum Street, Pratt, Trumbull and Church Streets; 12 blocks on Main Street, 5 blocks on Asylum Street, 4 blocks on Trumbull Street, 1 block on Pratt Street, and 1 block on Church Street.

Trading Area: The trading area of Hartford is within a 15-mile radius, although considerable trade comes to Hartford stores at irregular intervals, from various towns much further away.

Wholesale Houses: Groceries, 15; meats, 4; fruits, 16; hardware, 7; dry goods, 15; Miscellaneous lines: drugs, 3; plumbing supplies, 7; bakers, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 40; commercial automobile agencies, 12; automobile accessories, 20; automobile tire agencies, 42; bakers, 63; cigar stores and stands (including hotels), 200 (chain, 5); confectioners (including hotel stands), 175; delicatessen, 26; dressmakers, 150; druggists, 100 (chain, 3); dry goods, 54; department stores, 5; electrical supplies, 20; florists, 28; fruits, 35; furniture, 20; furriers, 19; garages (public), 120; grocers, 700 (chain, 65); hardware, 30; jewelry, 45; meat markets, 130; men's furnishings, 35; men's clothing, 20; merchant tailors, 19; milliners, 35; opticians, 21; photographers, 32; pianos (and miscellaneous musical instruments), 15; radio supplies, 30; restaurants (including hotels), 25 (chain, 3); shoes, 55; sporting goods, 16; stationers, 20; women's apparel, 50.

Miscellaneous Data: Doctors (medical, 270), (dentists, 157), (osteopaths, 9); street car service; gas, artificial; number of meters, 44,000; electric current, alternating; number of wired houses, 36,000; water, soft.

See announcements pages 33 and 35

MANCHESTER, CONN.**(Hartford County)**

1920 Population, 18,370. (1922, school estimate, 22,867).

City and Suburban Estimate, 38,000.

Native Whites, 90%; Foreign Born, 10%; English Reading, 90%; Families, 5,162.

Schools: Public Grade, 17; High, 2; Number of Pupils, 4,967.

Churches: Congregational, 2; Episcopal, 1; Methodist, 2; Roman Catholic, 2; Swedish Lutheran, 1; Swedish Congregational, 1; German Lutheran, 1; German Concordia, 1; Salvation Army, 1; Brethren of the Lord, 1; Church of the Nazarene, 1.

Banks: 3. Total Resources, \$10,510,000.

Theatres: 3. Total number of seats, 3,300.

Location: Eight miles directly east of Hartford. On main line of N. Y., N. H. & H. R. R., New York to Boston line. On Hartford-to-Providence auto bus route. State auto route, No. 3. To nearest large city (Hartford), by railroad, ¼ hour; by trolley, ½ hour; by auto, ¾ hour.

Principal Industries: Silk weaving, silk winding, silk finishing, silk dyeing, velvet weaving, neckwear, tapestry and upholstery fabrics, soaps, scouring powders, friction clutches, machinery, machine needles, woollens, electrical instruments, knit underwear, cardboards and paper.

Manufacturing Establishments: Cheney Brothers (silk manufacturers), Bon Ami Soap Company, Orford Soap Company, Carlyle-Johnson Machine Company, Lydall Needle Company, E. E. Hilliard Company (woolens), Norton Electric Company, Glastonbury Knitting Company, Rogers Paper Company, William Foulds Company (paper), Colonial Board Company, Case Brothers (paper).

Residential Features: Homes largely owned by occupants. Three large apartment houses. Permanent sidewalks throughout residential sections. No factory district. Factory owners live adjacent to employees.

Retail Shopping Section: About one mile on one side of Main Street. Main Street 75 feet wide. Half-mile on Spruce Street, half-mile on Center Street and half-mile at railroad station.

Trading Area: 10 miles north, 18 miles east, 7 miles south, and 5 miles west, including seven smaller towns and a large agricultural section.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 6; automobile accessories, 17; auto. tire agencies, 23; bakers, 7; cigar stores and stands (including hotels), 15 (chain, 1); confectioners (including hotel stands), 37; delicatessen, 10; dressmakers, 17; druggists, 7 (chain, 1); dry goods, 12; department stores, 3; electric supplies, 7; florists, 3; fruits, 17; furniture, 4; garages (public), 14; grocers, 77 (chain, 11); hardware, 5; jewelry, 4; meat markets, 26; men's furnishings, 7; men's clothing, 7; merchant tailors, 7; milliners, 9; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 12; shoes, 11; sporting goods, 4; stationers, 4; women's apparel, 9.

Miscellaneous Data: Average temperature, 48 degrees; average number of rainy days per twelve months, 125; most pleasant months, May to October, inclusive. Doctors (medical, 15), (dentists, 12); (osteopaths, 2); number of wired houses, 3,800; gas, artificial; electric current, alternating; water, soft.

MERIDEN, CONN.**(New Haven County)**

1920 Population, 29,867 (1925 est. 39,907).

City and Suburban Estimate, 60,000.

City and Suburban Estimate, 60,000. Most important cities and towns in this area are: Hartford (pop. 156,167); New Haven (175,947).

Native Whites, 65%; Negroes, less than 1%; Foreign Born, 34%; Industrial Workers, 65%; English Reading, 95%.

Schools: Public Grade, 18; High, 1; Junior High, 2; Parochial, 6.

Churches: Baptist, 6; Christian Science, 1; Congregational, 2; Episcopal, 2; Hebrew, 1; Methodist, 3; Universal, 1; Roman Catholic, 7; Greek Catholic, 1; Russian Orthodox, 1; Lutheran, 3.

Banks: National, 3; State Trust, 2; Savings and Safe Deposit, 5. Capital, Surplus and Undivided Profits (all banks), \$2,540,598.18; Total Deposits (all banks), \$23,390,142.79; Total Resources (all banks), \$40,355,980.03.

Theatres: Legitimate, 2; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3.

Location: On N. Y., N. H. & H. R. R.

Principal Industries: Sterling and plated ware, electric fixtures, lamps, clocks, pocket and table cutlery, player-pianos, talking machines, iron and brass castings, hardware, ball bearings, electrical goods.

Manufacturing Establishments: 26. Leading firms: International Silver Co., Bradley & Hubbard Mfg. Co., The Miller Co., Chas. Parker Co., Conn. Telephone & Electric Co., The Aeolian Co., The Handel Co., Foster & Merriam Co., Manning, Bowman & Co., Miller Bros. Cutlery Co., New Departure Co. Total value of yearly output of factories estimated at more than \$20,000,000.

Special Information: Meriden manufacturing concerns employ skilled mechanics almost exclusively, and pay the highest average wages. Meriden has a very large percentage of home owners, single family frame houses.

Retail Shopping Section: East and West Main, Colony, State, and Pratt Streets.

Trading Area: Limited strictly to eight-mile radius from Meriden City Hall.

Wholesale Houses: Groceries, 3; meats, 2; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 21; commercial automobile agencies, 5; automobile accessories, 31; automobile tire agencies, 20; bakers, 23; cigar stores and stands (including hotels), 18 (chain, 2); confectioners (including hotel stands), 15; delicatessen, 10; dressmakers, 30; druggists, 17 (chain, 1); dry goods, 20; department stores, none; electrical supplies, 6; florists, 7; fruits, 15; furniture, 4; furriers, 4; garages (public), 2; grocers, 221 (chain, 4); hardware, 8; jewelry, 6; meat markets, 85; men's furnishings, 10; men's clothing, 9; merchant tailors, 4; milliners, 13; opticians, 6; photographers, 4; pianos (and miscellaneous musical instruments), 7; radio supplies, 10; restaurants (including hotels), 35; shoes, 21; sporting goods, 5; stationers, 6; women's apparel, 11.

\$100,000,000—
Annual Retail Sales in the

HARTFORD COURANT MARKET

Walk through Hartford's shopping center and you will see specialty shops, department stores and retail establishments as modern and as large and well organized as any in the metropolitan cities. Enter any of these stores—stocked with the finest and best selling merchandise, and interview the proprietor or his clerks—you will then understand why Hartford is the most important shopping center in the State;—the wealthiest, most stable and progressive city in Connecticut.

The Hartford merchant is a keen, wide awake dealer who, himself, is a very liberal advertiser in the Hartford Courant and therefore appreciates the value of advertised products.

361 jobbers and 5,978 retailers serve the 450,000 people who live in the Hartford area. Its people earn their livelihood from Hartford's great manufacturing industries and insurance companies. Over 30,000 employees earn a total of \$50,000,000 annually in wages, while 15,000 salaried people derive excellent incomes totaling \$16,000,000 annually, from the 31 insurance companies. Is it any wonder then that the Hartford merchant offers an unusual outlet for advertised products—and that Hartford should be on every advertiser's list?

THE HARTFORD COURANT

The Courant for 162 years has contributed to the growth and prosperity of Hartford and enjoys unequalled leadership in the State. It enters 35,000 homes every morning and 58,000 homes on Sunday.

The Courant is read by the people who produce Hartford's wealth and who patronize the local stores. They are the folks you will find receptive to any intelligent appeal.

Clock Co., Acme Wire Co., American Steel & Wire Co., Safety Car Heating & Lighting Co., A. C. Gilbert & Co., Seamless Rubber Co., National Folding Box Co., Kolynos Co., Whitney-Blake.

MIDDLETOWN

(CONNECTICUT)

A Trading Center for 50,000

Middletown is the trading center for Middlesex County, a very wealthy manufacturing and agricultural section of the state, and it has been so ever since it was settled, which is many generations back.

And since THE PRESS was first started, back in 1884, it has been the dominant paper in Middletown and Middlesex County, in fact it is today the only daily paper that is read in a large majority of the homes. For several years now, THE PRESS has been the only daily paper published in the county, and is read religiously by our subscribers for the intimate city and suburban news and the general news of the day.

There is no question but that the coverage of THE PRESS is complete. With a population of approximately 50,000, our average city and suburban distribution (net paid) is 8,000 or better. So when every factor is considered, there cannot be many homes the national advertiser wishes to reach that THE PRESS does not enter.

Business is Never Dull in New Britain

Connecticut's great industrial city, one of the fastest growing in New England, is so diversified in its manufacturing that it is practically immune from sectional and national business slumps.

It is Connecticut's fifth city with a population rapidly nearing the 75,000 mark.

It is a city of well paid and happy people, who are responsive to advertising, a fact demonstrated time and time again by the campaigns conducted by national advertisers through the

NEW BRITAIN HERALD

The Herald gives complete coverage in the territory it serves, having more than three times the circulation of any newspaper published in its field.

You cannot cover Connecticut without using the HERALD as it is the only paper reaching practically everybody in New Britain and in the towns surrounding it as well.

NEW HAVEN

WHERE INDUSTRY AND CULTURE SERVE A FERTILE AREA OF 328,000 BUYERS—

No campaign in New England can be complete without New Haven—for it is truly the gateway to New England's wealth and buying power. This city is a great industrial center surrounded by 28 towns of 1,000 or more population that comprise a trading area of 328,000 people.

Besides being the home of the New York, New Haven & Hartford Railroad, employing thousands of salaried men and skilled wage earners, its 800 industrial plants produce over \$200,000,000 annually, and 45,000 workers earn over \$31,000,000 in wages.

The Journal-Courier, New Haven's only morning paper, is read by every person who reads a morning paper which means every person worthwhile in New Haven.

WATERBURY, CONNECTICUT

is

"The Brass Center of the World"

Population 116,366

Waterbury is strictly a manufacturing city, brass and copper being the principal industry. Here, more than 50% of the nation's brass is made. Here, also hundreds of thousands of watches and clocks are made each year. These great industries are manned by a force of over 35,000 progressive and well paid industrial workers.

The Republican & American

Thoroughly covers Waterbury and the surrounding trading territory. In Waterbury, 94 in every 100 English reading families who read a Waterbury newspaper, read either the Republican or the American. In the suburban and country territory the Republican & American dominate supreme. In addition to this complete coverage, the Republican & American offers the lowest mil-line rate obtainable in Waterbury.

A Noted Tryout City

Waterbury is often referred to as "the tryout city of America on food advertising." A large percentage of the Waterbury grocers have given written agreement to stock all products advertised in the Republican & American. This simplifies the distribution problem on any food product and enables the manufacturer to quickly stock the stores, start the advertising and test the campaign. Let us explain this service in detail to you.

During the year 1925, there were 523 National accounts placed in Waterbury. Of these 523 accounts 465 appeared in the Republican & American and 354 of them appeared in the Republican & American exclusively.

CONNECTICUT and DELAWARE Markets in Standard Surveys

CONNECTICUT (Cont'd)

Waterbury (cont'd)

Location: Situated in western Connecticut, in the scenic Naugatuck Valley. Served by the N. Y., N. H. & H. R.R. and Connecticut Company street railway and bus service. Waterbury has a trading area with a population of 160,000, with which it is connected by street railways systems, covering 42 cities and towns. To nearest large city by railroad, 1 hour; by trolley, 1½ hours; by auto, 1 hour.

Principal Industries: Brass, copper, novelties and fixtures, watches and clocks.

Manufacturing Establishments: 95. Leading firms: Scovill Mfg. Co., American Brass Co., Chase Companies, Inc., Waterbury Clock Co., Farrell Foundry & Machine Co.

Special Information: Waterbury is one of the great manufacturing centers of the United States. Here, approximately 50% of the Nation's brass is made, as well as a great number of manufactured articles in brass. Anything made of copper or brass can be obtained in Waterbury. Here, also is the largest clock factory in the world. More clocks and watches are made in Waterbury than in any other city. The Ingersoll watch, and the famous Waterbury watch were first made here, and are still made here by the millions.

Residential Features: Mostly two- and three-family houses. Best houses and grounds, and most valuable property, as a whole, in the northwestern section of the city. In eastern section a manor known as "Fairlawn" is building up into one- and two-family residential district. Many of the latter are privately owned homes.

Retail Shopping Section: Extends from Exchange Place for 3 blocks on Bank Street, for 2 blocks on South Main, for 3 blocks on East Main, for 3 blocks on West Main, and for 2 blocks on North Main Street. Intervening streets between these streets are included. There are two outlying business sections; namely, North Square and Brooklyn, and several smaller neighborhood sections with the usual grocery, confectionery, meat and small shops.

Trading Area: Extends approximately 12 miles north, 9 miles south, 14 miles east, and 12 miles west. Business is also secured from people living at a greater distance, because of the excellent street railway and bus service. This covers 42 cities and towns with a total population of 198,000.

Wholesale Houses: Groceries, 6; meats, 3; fruits, 7; hardware, 6; miscellaneous lines, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile, 24; commercial automobile, 7; automobile accessories, 84; automobile tires, 18; bakers, 39; cigar stores and stands, 36 (chain, 2); confectioners, 91; delicatessens, 8; dressmakers, 81; druggists, 46 (chain, 1); dry goods, 63; department stores, 9; electrical supplies, 15; florists, 10; fruits, 43; furniture, 20; furriers, 7; garages (public), 55; grocers, 371 (chain, 6); hardware, 22; jewelry, 38; meat markets, 140 (chain, 1); men's furnishings, 27; men's clothing, 31; merchant tailors, 10; milliners, 31; opticians, 9; photographers, 16; pianos (musical instruments), 9; radio supplies, 21; restaurants (including hotels), 110 (chain, 1); shoes, 46; sporting goods, 7; stationers, 22; women's apparel, 24.

WILLIMANTIC, CONN.

(Windham County)

1920 Population, 12,330 (1926, est., 13,400).

City and Suburban estimate, 22,000.

Native Whites, 62%; **Foreign Born,** 38%; **Industrial Workers,** 33%; **English Reading,** 75%; **Families,** 2,830.

Schools: Public Grade, 6; High, 1; Parochial, 2. Number of Pupils, 3,100.

Churches: Baptist, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Roman Catholic, 2; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Resources, (all banks), \$8,057,108.85 (June, 1925); Savings Bank Deposits, Total \$4,249,588.40 (June, 1925).

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (auditoriums, etc.), 6. Total number of seats, 8,000.

Location: County seat of Windham County, eastern Connecticut, and an important railroad junction. Served by four divisions of New Haven Railroad, Central Vermont Railway, Airline division, Hartford division, Providence division, and Midland division of the N. H. R.R. Clearing place for railroad freight transfers, etc. Main artery Boston to New York. Thirty miles from tidewater. Excellent auto service in all directions, Norwich, Providence, Hartford, Stafford Springs, and other points. To nearest large city by auto, 1½ hours.

Principal Industries: Silk and cotton, foundries, machine shops. Large cotton thread manufacturing plant. Willimantic mills of the American Thread Co. Famed for silk twist thread, and silk weaving.

Manufacturing Establishments: 13. Leading firms: American Thread Co., Quiddick-Windham Cotton Mfg. Co., Windham Silk Co., Holland Silk Co., Rossie Velvet Mfg. Co., H. K. & W. A. Washburn (silk throwsters), Vanderman Foundry & Plumbing Co., S. C. S. Box Co., Hall & Bill Printing Co., J. D. Chaffee Silk Braid Mfg. Co., Atwood Machine Co., Hillhouse & Taylor (woodturning).

Residential Features: One and two-family houses. Limited section devoted to employees of two manufacturing concerns. Has several private residential sections. All homes neat, surroundings beautiful. Value of residential sections about \$4,000,000.

Retail Shopping Section: Extends from Thread Mill Square to City Hall. Terminal for six auto bus lines, three other jitney lines, and terminal of two trolley lines. Aside from the main business section, taking in Main and Union Streets, there are six other blocks in which considerable retail business is done. Small stores in localities where home building is going on.

Trading Area: Willimantic has a trading area of ten to twelve miles. People from twelve other towns trade in the city. Good railroad, trolley, and automobile bus service accommodates out-of-town customers.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 2; hardware, 1. Miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto. agencies, 3; automobile accessories, 6; automobile tire agencies, 2; bakers, 8; cigar stores and stands (including hotels), 8 (chain, 1); confectioners (including hotel stands), 20; delicatessens, 1; dressmakers, 20; druggists, 8 (chain, 1); dry goods, 9; department stores, 1; electrical supplies, 5; florists, 2; fruits, 3; furniture, 3; furriers, 1; garages (public), 20; grocers, 54 (chain, 6); hardware, 3; jewelry, 4; meat markets, 14; men's furnishings, 9; men's clothing, 9; merchant tailors, 4; milliners, 7; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 23; shoes, 9; sporting goods, 3; stationers, 1; women's apparel, 5.

Miscellaneous Data: Doctors (medical, 14); (dentists, 8); (osteopaths, 3); street car service; gas, artificial; electric current, alternating; number of wired houses 3,000; water, hard.

WINSTED, CONN.

(Litchfield County)

1920 Population, 8,248.

City and Suburban Estimate: Practically all white. Large foreign born population.

Schools: Public Grade, 2; High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 2; Episcopal, 1; Methodist, 1; Roman Catholic, 1; Miscellaneous, 1 (colored).

Banks: National, 2; Savings Banks, 2; Capital, Surplus, and Undivided Profits, National Banks \$618,000; Total Deposits, \$942,000; Total Resources, \$1,906,000 (statement of July 1, 1926); Capital, Surplus and Undivided Profits, Savings Banks (\$835,759.07); Total Savings Bank Deposits, \$7,072,932.12 (statement of October 1, 1926); Capital, Surplus and Undivided Profits, \$1,453,759.07; Total Deposits, \$8,014,982.12; Total Resources (figures for National Banks only), \$1,906,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3.

Location: On Naugatuck division of the New York, New Haven & Hartford R.R., and the C. N. E. R.R. Several motor truck lines to Hartford, and one to New York City. To nearest large city, by railroad, 1½ hours; by automobile, 1½ hours.

Principal Industries: Knives, clocks, brass goods, hosiery, underwear, casket, hardware pins.

Manufacturing Establishments: 20. Leading firms: Wm. L. Gilbert Clock Co., Winsted Hosiery Co., New England Knitting Co., Strong Mfg. Co., Empire Knife Co., Fitzgerald Mfg. Co., Strand & Sweet Mfg. Co.

Residential Features: Mostly one and two-family houses. Number of tenement houses on main business street.

Retail Shopping Section: Main Street for about a mile in center of city.

Trading Area: About 20 miles, except to the south.

Wholesale Houses: Candy, 1.

Number of Retail Outlets for National Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 5; automobile accessories, 7; automobile tire agencies, 7; bakers, 4; cigar stores and stands (including hotels), 20 (chain, 1); confectioners (including hotel stands), 5 or 6; delicatessens, 1; druggists, 8; dry goods, 4; florists, 2; fruits, 12 or 15; furniture, 2; garages (public), 4; grocers, 30 (chain, 6); hardware, 3; jewelry, 3; meat markets, 10; men's furnishings, 6; men's clothing, 6; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4 or 5; restaurants (including hotels), 10; shoes, 6; sporting goods, 5 or 6; stationers, 2; women's apparel, 7 or 8.

Miscellaneous Data: Average temperature, 54 degrees; average number of rainy days per twelve months, 72; most pleasant months, Jan., May, Aug., Oct. Doctors (medical, 9); (dentists, 11); (osteopaths, 1); street car service; gas, artificial; number of meters, 2,000; electric current, alternating; water, soft.

Standard Surveys of DELAWARE

WILMINGTON, DEL.

(New Castle County)

1920 Population, 110,168 (U. S. Estimate, 1926, 124,000).

City and Suburban Estimate, 1926, 250,000; Trade area, pop. 1,119,314. Most important cities and towns in this area are: Newark, Del. (pop. 2,322); New Castle, Del. (4,113); Dover, Del. (4,208); Claymont, Del. (4,164).

Native Whites, 64,655; **Negroes,** 11,331; **Foreign Born,** 16,346; **White Foreign or Mixed Parentage,** 30,569. **Industrial Workers,** 55,331 (male, 42,407); **English Reading,** 89%; **Families,** 26,937.

Schools: Public Grade, 28; High, 5; Parochial and Private, 18; Number of Pupils, 29,000.

Churches: Baptist, 8; Christian Science, 1; Congregational, 1; Episcopal, 7; Hebrew, 4; Methodist, 24; Presbyterian, 10; Roman Catholic, 13; Miscellaneous, 38.

Banks: National, 3; State, 15; Capital, Surplus, and Undivided Profits (all banks), \$17,028,525. (Dec. 31, 1925); Total Deposits (all banks), \$75,048,835; Total Resources (all banks), \$93,009,857.31 (Dec. 31, 1925); Total Savings Bank Deposits, \$20,932,428. (Dec. 31, 1925); Total Bank Clearings (12 months, March 31, 1926), \$150,741,839.51; Average Monthly Total Retail Sales, \$1,275,850 (approx.) 1925.

Theatres: Legitimate, 1; Moving Pictures, 12; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 41. Total number of seats (approximately) 23,000.

Location: At the junction of the Delaware and Christina Rivers. Served by Pennsylvania R.R., Baltimore & Ohio R.R. and the Philadelphia & Reading Ry., also various steamship lines. Head of Delmarva Peninsula. Bus lines and interurban trolley lines give adequate contact between trade territory and city. To nearest large city (Philadelphia, Pa.), by railroad, 45 minutes; by trolley, 2½ hours; by auto, 1 hour.

Manufacturing Establishments: 350. Leading firms: Amalgamated Leather Cos., Inc., Atlas Powder Co., Jos. Bancroft & Sons Co., Bethlehem Shipbuilding Corp., E. I. du Pont de Nemours & Co., Electric Hose & Rubber Co., Edgemore Iron Co., Eastern Malleable Iron Co., Consolidated Machine Tool Co. of America, Jessup & Moore Paper Co., Lobdell Car Wheel Co., Natural Vulcanized Fibre Co., New Castle Leather Co., Hercules Powder Co., Pusey & Jones Co., Pyrites Co., Speakman Co., The Tannan Co. Total value of yearly output of factories estimated at \$125,000,000.

Special Information: Marine Terminal just completed on the Delaware River, at a cost of \$3,000,000. Shipments received from and sent to all parts of the world.

Trading Area: 100 miles south through Delmarva Peninsula; 3 adjoining counties in Pennsylvania; 10 adjoining counties in Maryland, 2 eastern shore counties in Virginia, and 3 counties in southern New Jersey. (Population of area, 1,119,314).

Wholesale Houses: 48. Groceries, 15; meats, 11; fruits, 18; hardware, 3; dry goods, 1. Miscellaneous lines, 130.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 41; commercial automobile agencies, 40; automobile accessories, 75; automobile tire agencies, 25; bakers, 43; cigar stores and stands (including hotels), 117 (chain, 2); confectioners (including hotels stands), 115; delicatessens, 20; dressmakers, 120; druggists, 71 (chain, 2); dry goods, 94; department stores, 19; electrical supplies, 33; florists, 18; fruits, 67; furniture, 48; furriers, 36; garages (public), 92; grocers, 475 (chain, 54); hardware, 17; jewelry, 40; meat markets, 102; men's furnishings, 74; men's clothing, 35; merchant tailors, 126; milliners, 40; opticians, 20; photographers, 15; pianos (and miscellaneous musical instruments), 16; radio supplies, 42; restaurants (including hotels), 88; shoes, 62; sporting goods, 30; stationers, 14; women's apparel, 64.

Miscellaneous Data: Average temperature, 52 degrees. Most pleasant months, April to October, inclusive. Doctors (medical, 126); (dentists, 55); (osteopaths, 3); street car service; gas, artificial; number of meters, 21,000; electric current, A.C. and D.C.; number of wired houses, 15,000; number of automobile registrations, 38,200 (approx.); water, soft.

EVERY ADVERTISING CAMPAIGN SHOULD INCLUDE

The Rich, Concentrated Trading Area of 250,000 Buyers...

Wilmington has many claims to distinction. It is noted as a great manufacturing center and occupies a preeminent place as the home of some of the largest industries in the world. Within its 25-mile concentrated trading area of 250,000 inhabitants lies a great buying power that no national advertiser can overlook.

Shoppers from Pennsylvania, New Jersey, Maryland and the entire state of Delaware come to Wilmington to do their trading.

The logical mediums to cover this rich market are the Evening Journal and Morning News. With a combined circulation of over 31,000 that covers 60% of the families in this area, the Evening Journal and Morning News are the dominant papers.

If you are not familiar with this market, get the facts—you will be convinced.

EVENING JOURNAL MORNING NEWS

WASHINGTON, D. C., and FLORIDA Markets in Standard Surveys

WASHINGTON, D. C.

1920 Population, 437,571 (1926 U. S. Census est.) 527,880. Male, 203,543; Female, 234,028; Native White, 298,312; Male, 136,889; Female, 161,423; Foreign Born white, 28,548; male, 15,142; Female, 13,406; Negro, 109,966; Male, 50,855; Female, 59,111.

City and Suburban Estimate, over 650,000. Most important cities and towns in this area are: Alexandria, Va. (pop. 18,500); Rockville, Md. (3,500); Hyattsville, Md. (4,015); Clarendon, Va. (3,400).

Native Whites, 68%; Negroes, 25%; Foreign Born, 7%; Industrial Workers, 3%; English Reading (Census statistics show only 779 cannot speak English); Families, 96,194.

Schools: Public Grade, 141; High, 7; Junior High, 6; Parochial and Diocesan, 30; Miscellaneous, 147. Number of Pupils, 72,000 (May 15, 1924).

Churches: Baptist, 26; Christian Science, 2; Congregational, 4; Episcopal, 45; Hebrew, 5; Methodist, 61; Presbyterian, 33; Roman Catholic, 31; Miscellaneous, 37.

Banks: National, 13; State, 22; Capital (all banks), \$24,278,505.; Total Deposits (all banks), \$238,907,102.18; Total Savings Bank Deposits, \$85,215,918.36; Total Bank Clearings (12 months, 1925), \$1,353,275,062.57; 7 Trust Cos.; Total Resources (all banks), \$67,812,000.

Theatres: Legitimate, 4; Moving Pictures, 47; Vaudeville, 3; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 20; Washington Auditorium, 6,000 seats. Total number of seats, 50,000.

Location: Southern Railway, Chesapeake & Ohio, Pennsylvania, Baltimore & Ohio, Atlantic Coast Line, Norfolk & Western; Richmond, Fredericksburg & Potomac, and Seaboard Air Line Rys. To nearest large city (Baltimore, Md.), by railroad, 1 hour; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Printing, paper making, ice cream, confectionery, baking, artificial limbs, meats, hats.

Manufacturing Establishments, 595. Leading firms: Auth's Provision Co., Brod's Hats, Capital Apron Mfg. Co., Capital Bedding Co., Chapin-Sacks Co., Corby Baking Co., D. C. Paper Mfg. Co., Stone Straw Co., John H. Wilkins Co., J. E. Hanger, Inc.; Barber & Ross. Total value of yearly output of factories estimated at \$68,826,570.

Special Information: Washington being the capital is primarily a residential rather than a manufacturing city. Thousands of visitors are here for periods varying from a few days to weeks or months. Washington is also the gateway of the South, and the freight yards of the Southern Railway, located a few miles from Washington, are among the largest of the country.

Residential Features: Extremely large apartment house population, and high ratio of boarding houses. Congestion during the war created great need for housing and building. In the years immediately following building was greater proportionately than in any other section of the country. Because of the restricted area of the District of Columbia, thousands of persons making their living in Washington were compelled to find homes in the surrounding states of Virginia and Maryland, for a radius of 25 miles or more. More than a thousand government employees commute from Baltimore, distant 40 miles.

Retail Shopping Section: 7th Street, 10 blocks; 9th Street, 10 blocks; F. Street, 8 blocks; G. Street, 8 blocks; Pennsylvania Avenue, 15 blocks; 14th street, 10 blocks; Connecticut Avenue, 6 blocks.

Trading Area: North, 20 miles; east and west, 60 miles; south, 100 miles. Nearest large city (Baltimore), 40 miles north, and Richmond, 110 miles south.

Wholesale Houses: Groceries, 14; meats, 18; fruits, 13; hardware, 4; dry goods, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 124; commercial automobile agencies, 100; automobile accessories, 171; automobile tire agencies, 54; bakers, 129; cigar stores and stands (including hotels), 2,210 (chain, 12); confectioners (including hotel stands), 238; delicatessen, 400; dressmakers, 338; druggists, 228 (chain, 34); dry goods, 129; department stores, 7; electrical supplies, 60; florists, 40; fruits, 70; furniture, 112; furriers, 33; garages (public), 141; grocers, 1,965 (chain, 635); hardware, 118; jewelry, 128; meat markets, 240 (chain, 24); men's furnishings, 123; men's clothing, 100; merchant tailors, 523; milliners, 106; opticians, 48; photographers, 80; pianos (and miscellaneous musical instruments), 37; radio supplies, 70; restaurants (including hotels), 594 (chain, 5); shoes, 128; sporting goods, 15; stationers, 54; women's apparel, 120.

Miscellaneous Data: Average temperature, 55 degrees; average number of rainy days per 12 months; 126; most pleasant months, April, May, June, Oct., Nov. Doctors (medical, 867); (dentists, 478); (osteopaths, 40); street car service; gas, artificial; number of meters, 98,386; electric current AC DC; number of wired houses, 100,796; number of automobile registrations, 102,500; water, medium.

Schools: Public Grade, 3; High, 1; Private, 1. Number of Pupils (all schools), 1,500.

Churches: Baptist, 1; Christian Science, 1; Associated Reformed Presbyterian, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Seven-Day Adventist, 1.

Banks: National, 1; State, 1; Savings, 1. Capital, Surplus, and Undivided Profits (all banks), \$546,156; Total Deposits (all banks), \$3,496,892; Total Resources (all banks), \$4,658,216; Total Savings Banks Deposits, \$965,699.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,500.

Location: On the Atlantic Coast Line, and Seaboard Air Line R.R.s. There are also truck and omnibus lines operating in every direction, carrying freight and passengers. To nearest large city is three-quarter of an hour by railroad, three-quarter of an hour by automobile.

Principal Industries: The principal industries of this section of Polk county are the growing and packing of citrus fruits, and the mining of phosphate and preparing it for shipment to the fertilizer factories of the United States and Europe. Eighty per cent of the phosphate mined in this country is produced within a few miles of Bartow.

Manufacturing Establishments: In addition to the industries here listed, Bartow is the center of the machine-made cigar industry, operated by Cuban-American Corporations. Total value of yearly output of factories estimated at approximately \$10,000,000.

Special Information: The approximation of value of manufacturers include only phosphate and cigars. The value of the citrus fruits turned out by Bartow's fruit-packing houses is probably included in the figures for value of agricultural products.

Residential Features: There are in Bartow 1,235 residences in which electric meters are installed. In addition, it is estimated there may be 300 dwellings in the various negro quarters. Most of the houses are of the single family type, but during the past two years, six modern apartment buildings have been erected.

Retail Shopping Section: On Main Street, 5 blocks; Central Avenue North, 3 blocks; Central Avenue South, 3 blocks; Summerlin Street, 3 blocks; North Broadway, 2 blocks; South Broadway, 3 blocks; East Davidson Street, 2 blocks.

Trading Area: Bartow claims to have the largest dry goods, and woman's-wear store in Polk County, and draws trade from all parts of the county. With the 613 miles of asphalted county highways radiating in every direction, and the multiplicity of automobiles, people come to Bartow to buy their dry goods from great distances.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial automobile agencies, 3; automobile accessories, 5; automobile tire agencies, 8; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 4; dressmakers, 10; druggists, 3; dry goods, 5; department stores, 1; electrical supplies, 4; florists, 2; fruits, 2; furniture, 3; garages (public), 7; grocers, 15 (chain, 1); hardware, 3; jewelry, 2; meat markets, 8; men's furnishings, 3; men's clothing, 4; merchant tailors, 2; milliners, 2; opticians, 1; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 7; shoes, 3; sporting goods, 1; stationers, 1; women's apparel, 4.

Miscellaneous Data: Average temperature, 72.2 degrees; average number of rainy days, 250 average for year; most pleasant months: Rain fell on each of 250 days last year, but there were 8 days only during which the sun did not shine. Doctors (medical, 8); (dentists, 3); (osteopaths, 2); electric current, direct; number of wired houses, 1,235; water, soft.

KEY WEST, FLA.

(Monroe County)

1920 Population, 18,749.

Native Whites, 75%; Negroes, 15%; Foreign Born, 10%; Industrial Workers, 25%; English Reading, 90%; Families, 3,978.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 2. Number of Pupils, 1,490.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 5; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

The Polk County Record is the County Seat Publication, a daily newspaper carrying all the news of the county and having the Associated Press news service. Both make readers and give it a most thorough coverage throughout this section. Bartow has the reputation of being the richest town per capita in the richest county of the state, making its buying power above the average.

The city and section are highly developed both industrially and agriculturally. They are noted as being "Year Round," having a constant demand for all lines of goods as well as being a source of capital for investment.

This should appeal to advertisers who wish to reach such a rich territory.

Advertising properly directed to this section through the Record will bring results. Record space does not cost, it pays. Use it and be convinced.

Polk County Ships More
Than a Fourth of the
Florida Citrus Crop

FLORIDA (Cont'd)

Banks: National, 1; Total Resources (all banks), \$3,667,705.97; Savings Bank Deposits, Total \$893,644.26.

Theatres: Legitimate, 2; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,600.

Location: Key West is 90 miles from Havana, Cuba, a night's ride by steamer from Tampa, and 180 miles south of Miami. It is the terminus of the Florida East Coast Railway, the P. & O. S. S. Co., and is also a port of call of the Mallory SS. line between Key West and Baltimore and New York, Galveston and New Orleans. Supply base for the various Navy vessels that frequently put into this port.

Principal Industries: Cigar manufacturing, sponge fishing and shipping.

Manufacturing Establishments: 67. Leading firms: Cortez Cigar Co., Gato Cigar Co., Locoval Cigar Co., Thompson & Co., American Cigar Co., R. Lopez Trujillo Cigar Co., Greek-American Sponge Co. (branch), Thompson Fish Co. Total value of yearly output of factories estimated at \$3,960,000.

Special Information: Key West is an important port, having exports of over \$6,000,000 per month, and imports of more than \$1,000,000 per month. Cigar factory payrolls more than \$60,000 per week. Frost in Key West is unknown. The pleasant climate, winter and summer, attracts more tourists every season. No farming territory, therefore all foodstuffs consumed are shipped in.

Residential Features: Houses are principally of the two-story Spanish type. Some small houses for industrial and other workers. Many beautiful homes fronting on beaches.

Retail Shopping Section: Extends from Front Street to Petronia Street, 9 blocks on Duval Street. From Thomas Street to White Street, about 5 business blocks. Also many neighborhood blocks, with groceries, meat markets, drugs, and confectionery, and a few clothing and feed stores.

Trading Area: Key West is an island, and trade is necessarily confined to it and to several other small outlying islands and keys.

Wholesale Houses: Groceries, 7; meats, 3; fruits, 2; hardware, 1; miscellaneous lines, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial automobile agencies, 2; automobile accessories, 8; automobile tire agencies, 6; bakers, 8; cigar stores and stands (including hotels), 79; confectioners (including hotel stands), 7; dressmakers, 8; druggists, 12; dry goods, 14; department stores, 1; electrical supplies, 2; fruits, 9; furniture, 4; garages (public), 3; grocers, 58; hardware, 3; jewelry, 2; meat markets, 8; men's furnishings, 1; men's clothing, 8; merchant tailors, 3; milliners, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 62; sporting goods, 2; stationers, 2; women's apparel, 3.

LAKELAND, FLA.

(Polk County)

1920 Population, 7,062 (1924, est. 17,300; 1925, est. 21,000; 1926, est. 26,000).

City and Suburban Estimate (Polk Directory estimate, 24,360).

Native Whites, 80%; **Negroes,** 19½%; **Foreign Born,** ½%; **Industrial Workers,** 30%; **English Reading,** 95%; **Families,** 7,000.

Schools: Public Grade, 6; High, 2; Southern College (Methodist), 1. Number of Pupils, 6,300.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 4; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 2; Total Resources (all banks), \$7,630,720.

Theatres: Moving Pictures, 2.

Location: Lakeland is the meeting point of five divisions of the Atlantic Coast Line R.R., making it the logical distribution center for a large part of Florida, as it is located in the

center and richest part of the state. Bus lines lead to all parts of Florida from Lakeland. To nearest large city by railroad, 1 hour; by trolley, 63 minutes; by automobile, 1 hour.

Principal Industries: Phosphate mining, cigars and tobacco, citrus fruit packing, railroad machine shops, canning factories, brick and tile works, cement products, iron and foundry works, lumber, ice manufacturing.

Manufacturing Establishments: 40. Leading firms: Non-acid Fertilizer and Chemical Co., Lakeland Novelty Works, Lakeland Iron Works, Mutual Iron Works, Lakeland Brick and Tile Co.

Special Information: Due to its location is one of the best distributing points in the state. One of the finest up-to-date parks and civic centers now under construction. Is the center of an extensive hard road system. Its even temperature and excellent drinking water make it a wonderful residential city. Florida Citrus Exchange is located in Lakeland.

Residential Features: \$5,000 homes predominate, the resident usually being the owner. Around the lakes the most exclusive homes are found. They range from \$10,000 up to \$30,000. There are a large number of apartments in the city. Building records show that Lakeland is building an average of one new home every eleven hours. In 1924, the average was one home every 16½ hours.

Retail Shopping Section: Main Street, from Florida Avenue to Massachusetts Avenue, 3 blocks; Kentucky Avenue, from Pine Street to Lemon Street, 3 blocks; Pine Street, from Kentucky Avenue to Florida Avenue, 2 blocks; Tennessee Avenue, from Main Street to Lemon Street, 1 block; North Florida Avenue to Pear St., to South Florida Avenue and Lime Street.

Trading Area: 15 miles west, 35 miles north, 45 miles northwest, 60 miles south, 75 miles southeast, 55 miles east.

Wholesale Houses: Groceries, 3; fruits, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 15 bakers, 9; cigar stores and stands (including hotels, 26 (chain, 8); confectioners (including hotel stands), 31; dressmakers, 3; druggists, 14; dry goods, 13; department stores (small), 6; electrical supplies, 11; florists, 4; fruits, 2; furniture, 12; garages (public), 23; grocers, 65 (chain, 3); hardware, 7; jewelry, 4; meat markets, 14; men's furnishings, 6; men's clothing, 4; merchant tailors, 6; milliners, 6; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 37; shoes, 6; stationers, 3; women's apparel, 11.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per twelve months, 120; most pleasant months, December, January, February, March. Doctors (medical, 25); (dentists, 10); (osteopaths, 2); gas, artificial; electric current, alternating; number of wired houses, 3,200; water, soft.

See announcement columns 1 and 2

MIAMI, FLA.

(Dade County)

1920 Population, 29,571.

City and Suburban Estimate (1926), 160,000. Most important cities and towns in this area are: Fort Lauderdale (pop. 25,000); Hollywood (15,000); Coral Gables (5,000); Homestead (2,500).

Native Whites, 75%; **Negroes,** 22%; **Foreign Born,** 3%; **Industrial Workers,** 5%; **English Reading,** 98%; **Families,** 42,000.

Schools: Public Grade, 29; High, 4; Junior High, 29; Private, 5; Parochial, 2. Number of pupils, 22,000 (estimated). University of Miami opened October, 1926.

Churches: Baptist, 20; Christian Science, 4; Congregational, 5; Episcopal, 5; Hebrew, 1; Methodist, 32; Presbyterian, 7; Roman Catholic, 2; Miscellaneous, 39.

Banks: National, 5; State, 13; Capital, Surplus, and Undivided Profits (all banks), \$11,611,175.61; Total Deposits (all banks), \$110,789,132.32; Total Resources (all banks), \$121,400,307.53; Total Savings Banks Deposits, \$46,233,256; Total Bank Clearings (12 months, 1925), \$1,066,528,874.

Theatres: Legitimate, 1; Moving Pictures, 14;

Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 16,500.

Location: On Biscayne Bay and Atlantic Ocean, on the extreme lower East Coast of Florida, and at mouth of Miami River. Served by Florida East Coast and Seaboard Air Line railways, Steamship lines to New York, Philadelphia, Havana, Baltimore, Georgetown, Charleston, New Orleans, Key West, Jacksonville, and the Bahamas.

Principal Industries: Sugar making, candy, preserving and canning, furniture, printing, railroad shops, boat building, cigars, toilet goods, paint, polish, mattresses, auto accessories, stone quarrying, fruit growing, fishing, sugar cane, coconuts, winter vegetables.

Manufacturing Establishments: Pennsylvania Sugar Co., Dade County Citrus Sub-Exchange, The Polk Company, Hialeah Furniture Co., Reed Furniture Co., Stewart-Earl, Merrill-Stevens Drydock Co. Total value of yearly output of factories estimated at \$4,000,000.

Special Information: Miami is a winter resort and play spot, the population doubling during the winter months, and the estimated annual expenditure of the visitors is about \$75,000,000. There are over 60,000 automobiles here. It is a fast growing port and wholesale distributing point. Phenomenal real estate development, and building construction is placing Miami in the front rank among Florida's growing cities.

Residential Features: Mostly one-family cottages and bungalows. No tenement section. Stucco homes predominate, being especially suited to this semi-tropic climate. One of the most beautiful residential cities in America.

Retail Shopping Section. Considering Flagler Street and Miami Avenue as the center, a circle with a radius of 12 blocks will take in most of the shopping district, although Flagler and Miami are mostly business streets throughout their entire length. Three of our largest department stores have more than doubled their floor space this summer.

Trading Area: Seventy-five miles north, thirty south, and fifteen west.

Wholesale Houses: Groceries, 21; meats, 9; fruits, 12; dry goods, 3; miscellaneous lines, plumber's supplies, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 38; commercial automobile agencies, 5; automobile accessories, 94; automobile tire agencies, 39; bakers, 38; cigar stores and stands (including hotels), 46 (chain, 11); confectioners (including hotels), 59; delicatessen, 14; dressmakers, 25; druggists, 142 (chain, 3); dry goods, 90; department stores, 6; electrical supplies, 30; florists, 9; fruits, 34; furniture, 52; garages (public), 93; grocers, 403 (chain, 6); hardware, 27; jewelry, 30; meat markets, 40; men's furnishings, 44; merchant tailors, 40; milliners, 29; opticians, 8; photographers, 20; pianos (and miscellaneous instruments), 9; radio supplies, 32; restaurants (including hotels), 397; shoes,

23; sporting goods, 14; stationers, 11; women's apparel, 62.

Miscellaneous Data: Doctors (medical, 136); (dentists, 61); (osteopaths, 17); street car service; gas, artificial; number of meters, 6,833; electric current, alternating; number of wired houses, 41,000; water, hard.

NEW SMYRNA, FLA.

(Volusia County)

1920 Population, 2,000 (1926 est. 8,000).

City and Suburban Estimate, 10,000. Most important cities and towns in this area are: Coronado Beach, Mission City, Edgewater.

Native Whites, 80%; **Negroes,** 20%; **English Reading,** 100%; **Dwellings,** 1,500.

Schools: Public Grade, 1; High, 1. Number of Pupils, 1,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: State, 2; Savings, 2. Capital, Surplus, and Undivided Profits (all banks), \$250,000. Total Deposits (all banks) \$3,000,000. Total Resources (all banks) \$3,350,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 1,000.

Location: On Florida East Coast Railroad; freight boat line to Jacksonville; motor bus lines to adjacent cities and towns. To nearest large city is by railroad, 5 hours; by automobile, 5 hours.

Principal Industries: Farming, fruit raising, fishing, citrus packing plants, R.R. shops.

Manufacturing Establishments: 2. Leading firms: New Smyrna Novelty Works, Vibro Musical Company, Invisible Metal Products Co., Palmetto Millwork Co.

Special Information: New Smyrna is spending over \$3,000,000 in civic improvement this year. Paving over 14 miles of streets with concrete, and erecting new High School to cost over \$175,000. Building up new waterfront part of town, and waterfront boulevard. New bridge and causeway to beach under construction.

Residential Features: New modern homes being built over entire city.

Retail Shopping Section: Canal Street, 5 blocks; on North Orange Street, 3 blocks; on Magnolia Street, 3 blocks; Hillsboro Street, 3 blocks; Sams Street, 2 blocks; Faulkner Street, 1 block; Live Oak Street, 2 blocks; Palmetto Street, 1 block; South Orange Street, 2 blocks.

Trading Area: Eight miles north, 14 miles south, 1 mile east, 18 miles west.

Wholesale Houses: Groceries, 1; fruits, 1; hardware, 1.

Jacksonville Journal is the Key Newspaper of Florida

JACKSONVILLE is one of the key cities of the South and certainly the key city of Florida.

All business is 'way ahead of former years, as bank deposits and clearings, postal receipts, building permits and port activities clearly prove.

The Jacksonville Journal, with over

25,000

A. B. C. audited circulation, shows the highest record in its history.

The importance and prosperity of the market recommend both a morning and evening paper in Jacksonville for all national advertisers.

The Star-Telegram

Leading Newspaper of Lakeland and Peerless Polk County—in the Hills of Florida.

Only Morning paper in the field; First in the home, the old, established, reliable paper of the community. Only A. B. C. Paper in Lakeland or Polk County receiving the complete Associated Press service every morning in the week and on Sunday. No cut rates to make a showing, no claims made to catch advertisers—just a plain, bona fide dependable independent newspaper telling the truth daily without misrepresentation—a paper that goes in the home and stays there—not a street edition. The Star-Telegram sells for its advertisers because its influence is permanent—not mushroom quality.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; automobile accessories, 10; automobile tire agencies, 10; bakers, 2; cigar stores and stands (including hotels), 1; confectioners (including hotel stands), 1; delicatessen, 1; dressmakers, 12; druggists, 4; dry goods, 8; department stores, 10; electrical supplies, 4; florists, 1; fruits, 1; furniture, 4; garages (public), 10; grocers, 20 (chain, 2); hardware, 3; jewelry, 2; meat markets, 12 (chain, 1); men's furnishings, 8; men's clothing, 8; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 8 (chain, 1); shoes, 9; sporting goods, 3; stationers, 4; women's apparel, 8.

Miscellaneous Data: Average temperature, 75, to 77 degrees; most pleasant months, November to September. Doctors (medical, 8); (dentists, 4); (osteopaths, 3); electric current, alternating; water, hard.

ORLANDO, FLA.
(Orange County)

1920 Population, 9,232 (1925 est. 23,273; 1926 est. 32,000). Approximate increase during winter season, 12,000 to 15,000.

City and Suburban Estimate (Included in above). Most important cities and towns in this area are: Winter Park (pop. 4,000); Winter Garden (3,000); Ocoee (800); Apopka (1,300).

Native Whites, 90%; Negroes, 10%; English Reading, 100%.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 4,800; 1925 estimate, 5,500; 1926 est. 6,500.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 5; Roman Catholic, 1; Christian, 1; Miscellaneous, 6.

Banks: National, 1; State, 5; Total Deposits (all banks), \$25,091,201; Total Resources (all banks), exceeds \$25,000,000; Total Bank Clearings (12 months, 1925), \$272,157,951.01.

Theatres: Legitimate, 3; Moving Pictures, 5; Vaudeville, 1; Total number of seats, 6,500.

Location: In central part of peninsula, on Atlantic Coast Line, and Seaboard Air Line Rys. Twenty-two miles south St. Johns River steamship terminal. 150 miles south of Jacksonville and 90 miles north of Tampa. Good, hard surfaced roads radiate in every direction from Orlando, making transportation by truck simple and profitable.

Principal Industries: Citrus industry greatest single source of income, but trucking rapidly assuming important position. Sixty articles manufactured here, and total weekly pay roll is \$225,000.

Manufacturing Establishments: 35. Leading firms: Atlas Mfg. Co., Orlando Potteries, Orlando Mfg. Co., Peninsula Chemical Co., J. Schnaar & Co., Southern Fertilizer Co., Cain-O'Berry Boiler Works, Curry & Smith Cigar Co.

Special Information: Because of central location Orlando will inevitably become large distributing center. Good roads and railway facilities are assisting materially. While entertaining approximately 50,000 tourists each season, this is not a tourist city, for business is good twelve months in the year.

Residential Features: City of homes. Majority of working men own, or are buying their. Property values constantly enhancing permit average man to invest with reasonable assurance of profit, in event it should later become necessary to sell. Magnificent homes surround our twenty beautiful lakes, and a low tax rate, and the friendly attitude of the people to encourage homemaking here.

Retail Shopping Section: Business section rather well spread out, and is not confined to one street or section. Orange Avenue is the principal thoroughfare, but all cross streets, and parallel streets for several squares are closely built up. Business pushing out in every direction. Business directory shows 2,700 firms in the city. Our stores are modern in every respect, and compare favorably with those of larger cities. Churches, theatres, and public buildings are all built on the same scale.

Trading Area: Within a fifty-mile radius of city. Cars from all points within this area traverse our streets every day. This territory includes a population of, approximately, 150,000. Daily deliveries are made by wholesalers over this entire area, and retailers are able to cover profitably an area of ten miles in each direction from the city.

Wholesale Houses: Groceries, 5; meats, 1; fruits, 6; hardware, 1; dry goods, 1; Miscellaneous lines, 30.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial automobile agencies, 5; automobile accessories, 12; automobile tire agencies, 8; bakers, 9; cigar stores and stands (including hotels), 10 (chain, 1); confectioners (including hotel stands), 12; delicatessen, 6; dressmakers, 10; druggists, 21 (chain, 1); dry goods, 12; department stores, 6; electrical supplies, 5; florists, 6; fruits, 12; furniture, 24; furriers, 1; garages (public), 26; grocers, 124 (chain, 12); hardware, 5; jewelry, 5; meat markets, 58; men's furnishings, 16; men's clothing, 16; merchant tailors, 4; milliners, 10; opticians, 3; photographers, 5; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 42; shoes, 10; sporting goods, 3; stationers, 2; women's apparel, 12.

Miscellaneous Data: Average temperature, 71.4 degrees, (average, summer 79.2; winter,

64.0). Doctors (medical, 47); (dentists, 17); (osteopaths, 5); street car service; gas, artificial; number of meters, 4,296; electric current, alternating; number of wired houses, 6,000 (approx.); water, soft.

See announcement columns 3 and 4

PALATKA, FLA.
(Putnam County)

1920 Population, 5,102. (1926, est. 11,000.)

City and Suburban Estimate, 22,000.

Native Whites, 70%; Negroes, 25%; Foreign Born, 5%; Industrial Workers, 45%; English Reading, 95%; Families, 2,361.

Schools: Public Grade, 2; High, 1; Parochial, 1. Number of Pupils, 1,657.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Total Resources, \$4,280,000; Savings Bank Deposits Total, \$3,150,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1. Total number of seats, 2,100.

Location: 52 miles south of Jacksonville, on St. Johns River. Served by A. C. L., F. E. C., and Southern Rys. Two steamer lines to Jacksonville, with ocean-going schooners making calls for cargoes. Excellent bus service to nearby towns.

Principal Industries: This is a manufacturing and wholesale center, due to low freight rates, lumber being the principal industry. Bucket, cooperage, sash, doors and blinds, crates, cypress and pine lumber. Pioneer manufacturers of automobile shipping blocks, foundries, fish, and trading center for the famous Hastings potato section: Cultivation of citrus fruits and vegetables an extensive industry.

Manufacturing Establishments: 27. Leading firms: Wilson Cypress Co., Selden Cypress Door Co., Florida Woodware Co., Southern Veneer Works, J. L. Waites Crate Factory, Browning Lumber Co., Matthews & Allen Marine Ways, Palatka Foundry & Machine Co., T. J. Burnett Co., Paul-Waymer Lumber Co., J. C. McCoy Fish Co., Moss Products Co., Southern Utilities Co. Headquarters for 23 different utility plants.

Special Information: Palatka was formerly the rail head for Florida, but is now given over to the cultivation of citrus and deciduous fruits, potatoes, and other garden vegetables. Enjoys especially low freight rates, making it desirable as a wholesale center. Not a tourist center, although many Northerners come here in winter.

Residential Features. Mostly one, and two-family houses, with more pretentious dwellings scattered throughout city. Homes average \$4,000.

Retail Shopping Section: Located principally on one long street extending from the river for a distance of nearly two miles, with some retail houses on cross streets, also a number of neighborhood stores.

Trading Area: Extends all over the county and as far north as Green Cove Springs, in Clay County, and as far south as Bunnell, in Flagler County. Good roads make it possible for shoppers to come 30 and 40 miles to make purchases.

Wholesale Houses: Groceries, 7; meats, 1; fruits, 2; hardware, 2; Miscellaneous lines, stationers, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto agencies, 3; automobile accessories, 3; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 7; delicatessen, 2; dressmakers, 7; druggists, 5 (chain, 1); dry goods, 6; department stores, 2; electrical supplies, 3; florists, 2; fruits, 9; furniture, 6; garages (public), 6; grocers, 81 (chain, 3); hardware, 4; jewelry, 3; meat markets, 22 (chain, 1); men's furnishings, 5; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 12; shoes, 3; sporting goods, 2; stationers, 3; women's apparel, 4.

Miscellaneous Data: Doctors (medical, 8); (dentists, 4); (osteopath, 1); gas, artificial; electric current, alternating; water, hard.

PENSACOLA, FLA.
(Escambia County)

1920 Population, 31,035.

City and Suburban Estimate, 39,868 (1920). Most important cities and towns in this area are: Milton (3,000); Crest View (2,000); De Funiak Springs (3,500); Marianna (2,000).

Native Whites, 66.5%; Negroes, 33.5%.

Schools: Public Grade, 17; High, 2; Parochial, 3; Number of Pupils, 5,900, (estimated).

Churches: Baptist, 3; Christian Science, 1; Episcopal, 3; Hebrew, 2; Methodist, 3; Presbyterian, 3; Roman Catholic, 4; Miscellaneous, 5.

Banks: National, 2; State, 1; Capital, Surplus, and Undivided Profits (all banks), (Dec. 31, 1925), \$1,536,988.28; Total Deposits (all banks), \$10,795,076.78; Total Resources (all banks), \$13,080,209.98.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 3,000.

Location: On L. & N. and "Frisco" R.Rs. Gulf Ports Terminal R.R., and Pensacola Electric Co. Has regular steamship service to all principal foreign ports, Coastwise service to New York, and to points in Florida and Alabama on Gulf of Mexico. Direct railway connection with Cincinnati, Louisville, and other points reached via these gateways.

Principal Industries: Naval stores, lumber

production, shipbuilding, cooperage, petroleum products, clay products, excelsior, commercial fishing, fertilizer.

Manufacturing Establishments: 75. Leading firms: Weiss-Patterson Lumber Co., Southern States Lumber Co., Pensacola Shipbuilding Co., Newport Company, Pensacola Tar & Turpentine Co., Pensacola Cooperage Co., Tart Cooperage Co., American Agricultural Chemical Co., Southern Cotton Oil Co., Sherrill Oil Co., E. E. Saunders & Co., Warren Fish Co., Pensacola Chemical Co., Western Papermakers Chem. Co., Pensacola Candy Co., Thagon Cigar Co., Lopez-Garcia Cigar Co., Pensacola Mattress Co. Total value of yearly output of factories (1920) estimated at \$18,006,919.

Special Information: Large shipper of fish, red snapper and grouper. Third primary naval stores market of the U. S. Location of large naval air training station. Value of exports increased 70%, 1923 over 1922. Imports increased 126%. Has only paved highway in entire Gulf area, reaching directly to the shore of the Gulf of Mexico. Drinking water approximately 100% pure. Sunstrokes unknown.

Residential Features: Most homes owned by occupants. Home building increased very materially during the past year.

Retail Shopping Section: Garden Street, 4 blocks; Wright Street, 4 blocks; Palafox Street, 10 blocks; Romana Street, 2 blocks; Intendencia, 2 blocks; Government Street, 4 blocks.

Trading Area: North, to Flomaton, Ala., 44 miles; east, to De Funiak Springs, Fla., 79 miles; west to Foley, Ala., 40 miles.

ST. PETERSBURG, FLA.

(Pinellas County)

1920 Population, 14,237 (1926 city directory estimate, \$2,382 summer, 150,000 winter population).

City and Suburban Estimate, 90,000. Extension of city limits to include 55 square miles of territory, with several small suburban towns, accounts for fair proportion of increase in population.

Native Whites, 90%; Negroes, 9%; Foreign Born, 1%; Industrial Workers, 15%; English Reading, 100%; Families, 20,000.

Schools: Public Grade, 11; High, 1; Junior High, 2; Parochial, 1; Private Schools, 7; Number of Pupils (Public), 8,300; (Private), 2,000; Teachers (in Public Schools), 250.

Churches: Baptist, 3; Christian Science, 1; Congregational, 2; Episcopal, 2; Methodist, 4; Presbyterian, 3; Roman Catholic, 1; Christian, 1; Seventh Day Adventists, 1; Miscellaneous, 16.

Banks: National, 3; State, 4; (one non-commercial); Total Deposits (June 30, 1926, all banks), \$31,716,769.28; Total Resources (June 30, 1926, all banks), \$34,033,065.86; Total Savings Banks Deposits, (all banks), \$5,524,467.23; Total Bank Clearings (6 months, to June 30, 1926, all banks), \$121,839,143.80; Building Permits (6 months, to June 30, 1926), \$10,395,300. Assessed property valuation (1925), \$106,437,626. Tax rate, 10 mills, (1926) 11 mills per \$100. Postal Receipts (July 1, to Dec. 31, 1925), \$205,579; (to June 30, 1926), \$243,967.34; Savings Bank Accounts (first 6 months of 1926), \$222,690.28.

Theatres: Legitimate, 2; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 40,000.

Location: St. Petersburg is in latitude 27° 47', longitude 82° 37' and lies at the southern end of Pinellas County on Pinellas Peninsula, between Tampa Bay and the Gulf of Mexico. Area, 55 square miles, with 33 miles of shore line. Port of St. Petersburg, opened in November, 1925, for shipping service and passenger transportation. Served by Moore and McCormack Co., Inc., Bull Steamship Co., Phillip Shore Steamship Co., and the Virtue Line for freight. Florida Railway and Navigation Corporation, Gulf Coast Steamship Co., and Collier Line give short distance passenger service. City is the terminal for both the Seaboard Air Line, and Atlantic Coast Line R.Rs. Bus lines supplement railroads for overland passenger transportation. To nearest large city (Tampa) by railroad, 1½ hours; by auto (across Gandy Bridge over Tampa Bay), 45 minutes.

Principal Industries: Building materials, citrus fruits, sponges, fish (curing and packing), tourists, and tourists and sundry supplies. (See Special Information).

Special Information: St. Petersburg is almost exclusively a tourist city, and the business establishments are such as cater to the comfort, convenience, health and entertainment of winter residents. While these are not to be classed strictly as industries the payroll probably exceed those of commercial organizations in other cities of equal size. Among these establishments are: cabinet makers, 6; marine ways, 4; concrete tile, 3; ornamental stone, 2; nurseries and flower farms, 3; metal crafts, 1; mattresses, 1; ice cream mfrs., 6; dairy plants, 3; ice plants, 4. The packing and shipping of citrus fruits is one of the principal industries of Pinellas County. Over 2,000,000 boxes of grape fruit and oranges were shipped in 1925, bringing in approximately \$5,000,000. Seven packing plants are located at Clearwater, one in St. Petersburg, and seven others scattered over the county. About 20,000 skilled grove men are employed to handle citrus crops, and the payroll amounts to about \$1,750,000 annually. The canning of grape fruit hearts and the making of orange marmalade is carried on as a side industry to avoid loss of fruit not promptly shipped. At Tarpon Springs the sponge industry brings in about \$2,000,000 annually. A fleet of more than 150 sponge fishing boats is operated, with several large ships to carry supplies.

Residential Features: Fine residential sections of more than 800 homes valued at \$50,000 or more. Average home being erected at cost of \$10,000 to \$15,000. Tile and stucco, or brick construction leads over frame. Limited section for negroes. Private homes predominate. Though there are many apartment houses and hotels. Hotels, 90, with total of 5,000 rooms; apartments, 345; residences, 20,000.

Retail Shopping Section: Central Avenue, 20 blocks; Ninth Street, 12 blocks; Second Street, 2 blocks; Third Street, 3 blocks; Fourth Street, 6 blocks; Fifth Street, 2 blocks; First Avenue North, 7 blocks; First Avenue South, 5 blocks.

Trading Area: Pinellas County. Wholesale Houses: Groceries, 6; meats, 4; fruits, 5; hardware, 1; oil, 6; plumbers, 1; fish, 2; cigars, 2; candy, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 30; automobile accessories, 10; bakers, 25; cigar stores and stands (including hotels), 125 (chain, 1); confectioners (including hotel stands), 50; delicatessens, 10; dressmakers, 50; druggists, 44 (chain, 4); dry goods, 16; department stores, 6; electrical supplies, 20; florists, 6; fruits, 32; furniture, 30; furriers, 9; garages and filling stations (public), 150; grocers, 180 (chain, 14); hardware, 16; meat markets, 57 (chain, 6); milliners, 28; opticians, 8; photographers, 20; pianos (and miscellaneous musical instruments), 8; radio supplies, 8; restaurants (including hotels), 175; shoes, 20; sporting goods, 6; stationers, 8; women's apparel, 25.

Miscellaneous Data: Average temperature, 67.9 degrees; average number of rainy days per twelve months, 50; most pleasant months, March, April, May, Oct. Nov. Dec. Doctors (medical, 62); (dentists, 36); (osteopaths, 14); street car service; gas, artificial; number of meters, 12,160; electric current, alternating; number of wired houses, 16,969; number of automobile registrations, 20,036; water, hard.

SANFORD, FLA.

(Seminole County)

1920 Population, 5,588. (1926, est. 15,000.)

City and Suburban Estimate, 18,000.

Native Whites, 80%; Negroes, 20%; Industrial Workers, 3%; English Reading, 100%; Families, 2,000; Agricultural Workers, 25%.

Schools: Public Grade, 4; High 1; Number of Pupils, 3,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Christian, 1; Miscellaneous, 1.

Banks: National, 1; State, 2; Total Resources, \$6,000,000; Savings Bank Deposits Total, \$800,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 2,200.

Location: At the head waters of the St. Johns River, 198 miles from Jacksonville by water, 156 by Dixie Highway, and 125 by railroad. A. C. L., midway between Tampa and Jacksonville. Clyde S.S. Co. operates daily river steamers from Jacksonville and return, making connection with its coastwise vessels, and those of M. & M. T. Co., affording all water route from Sanford to all principal eastern seaboard points.

Principal Industries: Agriculture, principally celery. This section produces 20% of this product grown in the U. S., and 73% of the total production of Florida. 5,500 cars shipped last year. Total shipments all products, including citrus last season, 7,646 cars. Large icing station located at Sanford at which 90,000 tons of ice were placed in refrigerator cars last year. Value crops last season, \$5,000,000.

Manufacturing Establishments: Principal industry is the A. C. L. shops. Others are Florida McCracken Concrete Pipe Co., Zachary-Tyler Veneer Co., Shindholzer's Crate Mill, Seminole Lumber Mill. Total value of yearly output of factories estimated at \$500,000.

Residential Features: Mostly one-family dwellings; colored population segregated into two sections. Approximately 75% white population own their homes. Residential section extends south and west of business section. While a number of the growers have homes in their acreage, there are a few that live in the city. Average home value, \$4,000. City Planning and Zoning Commission.

---for the first time
in its spectacular history---

THE ST. PETERSBURG TIMES, St. Petersburg's Only Morning Newspaper, has shown a Circulation GAIN in the summer months over the winter.

Average daily and Sunday six months ending March 31, 1926—12,143.

Average daily and Sunday six months ending September 30, 1926—12,443.

Average daily, 11,600. Average Sunday, 17,507.

The Merchandising Service The Times offers is complete, comprehensive, accurate and honest. Through it more than fifty nationally advertised products have entered this fertile field of high purchasing power with successful results during last year.

St. Petersburg Times

St. Petersburg, Florida

ADVERTISING REPRESENTATIVES—S. C. THEIS CO.

New York—Atlanta—Chicago

You Can't "Bust a Boom"
With 15% More Building

There have been many queer stories circulated about "busted booms" all over Florida. St. Petersburg has no "bust" because it had no "boom." It has had a remarkable growth—and that growth continues.

Actual building started (according to city permits, which are about 25% under value) in the first seven months of 1926 was \$12,051,010, or 15% more than for the same period of last year, during the "boom."

There are many other facts and figures available to show that St. Petersburg is a live, rapidly growing market, with customers who are able to buy what they need and want.

25% MORE CIRCULATION

The Independent's circulation during the first week of September, 1926, was 26% greater than during the same week of last year. That increase in circulation checks closely with the best estimates of growth in the Sunshine City's population. The Independent covers the St. Petersburg field—no more; no less.
